MANISTIQUE, MICHIGAN, FRIDAY, APRIL 18, 1902.

\$1.50 PER YEAR.

## THE ELKS' PARTY.

Was Largely Attended and Was a Social Success.

### DECORATIONS VERY ELABORATE.

Suitors' Architects Furnished the Best Since Ever Been to Manistique.

The dancing party given by the local Elks, at the opera house last Friday evening was very largely attended and was, in fact, more of a success than the first annual party given by the order last year.

No pains or expense were spared to make the affair a success.

The interior of the opera house was more tastefully decorated and looked handsomer than light at the first party. The national colors as well as the colors of the order were draped over the ceiling and side walls in such a manner that no wood was visible.

Supper was served in the hall and in this feature the same principle that characterized the decorations and other features of the affair, prevailed.

Sullivan's full orchestra of Escanaba, furnished the music, and all present say that no better music was ever heard in Manistique.

Dancing continued uninterruptedly until after five o'clock Saturday morning, and while last selection, consisting of a medley of waltzes, was nearly an hour long, the dancers remained on the floor and failed the efforts of the orchestra which was bent on tiring them out.

Most of the costumes were very elaborate, the ladies vying with each other in having the most costumes. A majority of the gentlemen appeared in evening dress.

Those that find pleasure in dancing certainly are under lasting obligations to the Elks for these annual opportunities for enjoyment.

These parties are epochs in Manistique social circles for the promoters know just how they should be conducted and put their knowledge and means to use.

The Manistique concert band should be encouraged to give a series of weekly concerts on the streets of the city for the next sixty days. Our big fresh lines of standard makes of Carpets are all here. So are the Rugs, Lace Curtains and other draperies. We have a larger selection than ever before, and at prices that will tempt every house-keeper to condemn all her old carpets and get new ones.

## Carpets, Rugs, Draperies.

This is perhaps the most important department in the store for the next sixty days. Our big fresh lines of standard makes of Carpets are all here. So are the Rugs, Lace Curtains and other draperies. We have a larger selection than ever before, and at prices that will tempt every house-keeper to condemn all her old carpets and get new ones.

## Wrappers.

Our aim is always to secure the best goods obtainable. We have found that it pays. Our Wrappers are not behind in that respect. We are showing not only the largest and best selections but also the best made Wrappers in the city. Our Wrappers are made of good material, in neat, serviceable patterns, perfect in fit and faultless in finish at prices that you will have to pay for the material alone.

## Display of Shirt Waists.

History records last year with being the greatest year for Shirt Waist selling. We prophesy that this year's selling will outstrip it. The economy, the daintiness, the common sense and comfort of the well made Shirt Waist makes it popular. Our buying of Shirt Waists this season has been larger than ever before, and we start the seasons selling with such Shirt Waist Values as will strongly tempt you to secure your whole summer outfit of these cool sensible garments now while sizes are complete and you can have all styles to pick from.

## NATIONAL PROTECTIVE LEGION

Is as Strong as Ever and will Pay All Obligations.

Last week the daily newspapers announced the fact that Insurance Commissioner Barry had refused to recognize the National Protective Legion of Waynes, N. Y., thereby depriving the Legion from doing business in Michigan.

This, of course gave the enemies of the order an opportunity which they have long wanted, and promptly rumors were rife that the legion had broken up and that its members would lose all the money they had paid.

Such is far from the truth. The Legion will promptly fulfill all contracts heretofore made in this state when they mature and while it will be impossible to do new work until the matter is adjusted, the present members have nothing to fear.

The legion has been doing work in Michigan for eight years with four different insurance commissioners, and only one year ago Mr. Barry granted the license without any trouble.

The ruling one in no wise invalidates the contracts already issued but it will prevent organizers from soliciting members and forming new lodges.

The only difference between the Legion and other fraternal orders is that you do not have to die to win. Dr. Connor of St. Ignace who is district organizer for the upper peninsula says that if persons are scared about their payments she will buy all certificates that will mature this year or next and pay the members all they have put in.

The local legion has a membership of more than 200 and as secretary of the Legion I have assurances from the head office that every policy will be paid as it matures.

The organization is stronger than ever, and in no wise did the insurance commissioner, by his ruling, question the standing of the order as a business proposition but claims that it is not a law under which the order can be conducted in this state.

GEO. E. HOLMES, Local Sec'y.

## Petty Thieves.

The homes of Rev. Branch and A. M. LeRoy were broken into, and various articles of value taken therefrom last Sunday evening. The work was done by a party of boys, and their identity is revealed they should be severely dealt with.

## THE PENNSYLVANIA CO

Is Behind the New Railroad Deal in Which Manistique is Interested

### AS SELECTION OF OFFICERS PROVE

Many Improvements in Roadbed and in the Movement of Freight Trains.

All doubt as to the interests which are back of the newly incorporated Manistique, Marquette & Northern road, which has purchased the Manistique & Northwestern line, were settled at the election of officers of the company held at Grand Rapids last week. The election took place at the office of the Grand Rapids & Indiana road, and resulted as follows:

President—H. H. Medway.  
Vice President—D. Kaufman; also chosen as treasurer.  
Secretary—H. H. Medway.

The Messrs. Medway are officials and directors of the G. R. & I. company, and with Mr. Kaufman hold the positions with the Traverse City, Ludanua & Northwestern, which is being constructed to run from Traverse City to Northport, there to connect by ferry boats with the Manistique, Marquette & Northern. The Grand Rapids & Indiana is a branch of the Pennsylvania system, and in this fact lies the significance of the result of the election. The G. R. & I. connects at Traverse City, and by means of the two other lines, together with the ferries, will there tap the upper peninsula.

Referring to the Manistique, Marquette & Northern, President Medway, in an interview said: "While the road is at present in very good condition, we have arranged to make important improvements at once, and when the new acquisition is turned over to us May 1 it will be repaired in a different way than formerly. Yes, we propose to make some sweeping changes looking toward better service, but I am not just now at liberty to speak in detail of the changes proposed. They will be for the better."

Why the words, "Manquette & Northern," were made part of the title of the road, however, is something in which Manistique people are just now much interested. Whether it is proposed to extend the Manistique line to this city or whether the business of the

Or in angling for any of the limy fishes that live at the Manistique company then has been divulged, and in some certain details the belief would seem to be well founded, but as to this all concerned are keeping their own counsel. Future developments will be awaited with interest, but in any event it is the universal opinion that Marquette will be no sufferer.

## SOME OF THE TEACHERS CHOSEN

By the Board of Education at Last Friday Evening's Meeting.

The following teachers were elected at a meeting of the board of education held last Friday evening:

J. J. Hornberger, Supt.  
CENTRAL SCHOOL.  
Katherine Green, 8th grade.  
Ada B. Shilson, 7th grade.Marie Goodell, 6th grade.  
Ella Bradshaw, 5th grade.  
Jessie Davidson, 2nd grade.  
Mary Foley, 1st grade.  
Rhea Brown, kindergarten.  
Jennie Simmons granted leave of absence for one year for study.

WESTERN SCHOOL.  
Mary Oasler, 5th grade.  
Maude Smith, 3rd grade.  
Lillian Miller, 2nd grade.  
Anna B. Hegman, kindergarten.

LAKESHORE SCHOOL.  
Mrs. O. Morseman, principal and 3rd grade.  
Esther Carpenter, kindergarten.

Mr. Hornberger who has so acceptably filled the position of superintendent for the past eight years deserved the unanimous reelection for another year. The schools have made rapid progress during his tenure of office and especially so during the past year.

Profr. Campbell who is so efficiently serving as principal of the high school has accepted a lucrative position in the west for next year and was not an applicant for reelection.

The other vacancies will be filled later.

Circle court convenes next Monday.

## C. L. CO. HARDWARE, A. M. LeRoy, Manager.

### A Very Good Program.

The musical program rendered by the church choir at the Presbyterian church last Sunday evening, was perhaps the most elaborate ever given here. The choir was very attentive and more than pleased. Mr. George Chester Greeney the organist and choir master executed very proficient as the work of the choir. The soloists: Misses Nora Barrill and Nora Olmsted, and Mr. Barwick did exceedingly well.

### Attended Presbytery.

Rev. Rollo Branch, Elders W. J. Weber, Will B. Thomas and C. R. Orr, and Mrs. I. S. Phippeny attended the spring session of Lake Superior Presbytery held at St. Ignace this week. Mrs. Phippeny went there yesterday for the purpose of attending the meeting of the missionary society held in conjunction with Presbytery.

### Will Attend a Conservatory.

Miss Spence who so ably conducted the music department of the public schools during the past year, has declined not to accept any position next year as she desires to devote sometime in an eastern conservatory.

### Graduating Exercises.

The commencement exercises of the Manistique high schools will be held on June 15th. The graduating class consists of five members, viz: Misses Rose, Winnie Olmsted and Mr. Max Phippeny.

### Accepted a Position at Niagara, Wis.

Chas. A. Robinson has accepted a position in the store of the J. T. Mason Co., at Niagara, Wis., and left early this week for that city. Mrs. Robinson will join him later. Mr. Robinson is a good business man and will no doubt do well in his new field of labor.

Mrs. Abigail Colt died at Cleveland, Ohio, March 31st at the age of 97 years. She was an aunt of Mr. W. J. Weber of this city. Mrs. Colt was married when Mr. Weber's father was three years old. She was active in mind and body until a few days before her death.  
Talk about the devotion of Ohio men to politics. A resident of Gladstone was out electioneering last Monday when some one informed him that his house was on fire. He replied: "I can't go home now; I have three men to see yet." No did he go. It turned out afterward that it was all right, too, for the report was a mistake, and he was elected by a majority of just three votes.—Detroit Free Press.  
The new syndicate that is to establish communication between Travers Bay and Manistique, whether it is the G. R. & I. extension, or independent company, evidently has plenty of money for it has let contracts for two of the largest and finest car ferries on the lakes to make the connection. Each ferry will carry 30 cars, and have all the latest improvements. It is probable that the Pennsylvania system, of which the G. R. & I. road is a part, is reaching out for an advance in the tremendous traffic of the Marquette region in Iron ore and timber. The water route is an easy one all the year around.—Cheboygan Democrat.

Amos Hill was noticed on the streets this morning with a calendar in one hand and a pencil in the other. When asked as to what he was doing he replied that he was trying to ascertain how many minutes would elapse before trout could be legally caught. Dr. Bowen came along and after looking over Amos' computation declared that there was a mistake of several thousand minutes in the figures.  
Early comes get the best of everything. This is a good time to choose spring and summer suits; winter has let go at last, making way for the coming days of warmth and sunshine. Men prefer to make their suit selections early to avoid depleted stocks and broken up sizes later in the season. Our new goods include a large number of exclusive fancy patterns rarely seen in ready to wear clothing. These are to be found only among our new spring styles, such as the "Kemper," "H. H. H.," and "Comwell" which are the leading types of sack suits, we will warrant a perfect fit, and perfect satisfaction.

**THE STATE FAIR**  
Important to All Upper Peninsula Farmers.  
The Michigan Agricultural Society, at the state fair to be held in Pontiac during the last week of next September, will again offer three cash prizes for the best upper peninsula exhibits of fruit. There will be two prizes of \$50 each, two of \$30.00 and two of \$20. This is the time of year to get ready for the fair, and every farmer should not only try to win a prize, but what is more important, should see that the upper peninsula is well represented at the state fair.  
The notice last year was given late, and most farmers were afraid they would not have anything good enough to exhibit. As a consequence, the upper peninsula exhibits were few, but even at that, some were not only good enough to win the upper peninsula prizes, but being taken out to compete with the wholesale, were awarded blue ribbons.  
Don't be afraid to exhibit. We are, up here, used to see the best of everything the richest soil, the finest crops, the grandest climate, the healthiest and most prosperous people. Want outsiders appears wonderful, to us looks like commonplace. Get ready now! With a little extra trouble, you can show that the lumber camps, the iron and copper mines, great as they are, are simply pin money when compared with the boundless resources of upper peninsula farming lands.  
I am satisfied that the railroads and express companies will be here to assist on this occasion, and if those who wish to exhibit will write to me on an early date, I shall make an effort to secure favorable rates.  
I have received in regard to sugar beet seed, are a most gratifying surprise. They speak highly for the enterprise of the farmers and especially for the efficiency and disinterestedness of the farmer's relation to upper peninsula development.  
A few of these letters, just received, would indicate that there are many farmers who think that it is too late to apply for seed. In all probabilities, the planting of the beets cannot begin much before the 5th or 10th of May. There is therefore ample time left, and those who have not yet applied for seed either personally or through their neighbors, should do so before April 25th.  
Should you have been misled or forgotten to be sent in by one of your neighbors, and you should not have received the seed by the 1st of May, let me know and it will be mailed to you at once.

EDITORIAL COMMENT.

An epidemic of misdeeds seems to have swept over Detroit during the past week as four brutal murders have been reported.

One of the funny things women do to work hard in making some thing for a bunch fat and then go to the fair and buy it back.

The Lansing News, or the crowd of politicians is the month piece received two promonated political dirt backs recently, says 'Knox let's go home'.

The government is after the meat packers. Packers are said to be making \$100,000 in the money they received in the meat people are paying for the meat.

Some of our people who would be glad to have a free delivery of meat, should probably get the position of a little more.

When a loafer stands on the streets all day, what does he talk about? He usually "talks" about busy men, and the town in which he lives.

Butter is selling in the neighborhood of 20 cents a pound, but the makers of it are demanding the regular price of the anti-oleomargarine bill, just the same.

The Governor of South Carolina said confidentially to the Governor of North Carolina as he passed his handkerchief across his lips: "I don't think Roosevelt is such a bad fellow after all."

Miss Stone is not certain that she will lecture. If she concludes to do so every cent she earned, she affirms, will be used to repay those who have contributed to her season fund.

It is now reasonable to suppose that every county officer seeking a renomination will get it. The people are pretty much disgusted with unresponsible political strife over the office. No office is worth anything like the fight some men are willing to make for it, and then the majority like to reward the deserving.

Weave have not noticed any remarkable furor in this neck of the woods as a result of the action of Justice Stearns in shying his cantor into the political ring for the coming campaign.

We find this in the Ishpeming Iron Ore: There are signs which portend much activity in congressional affairs near fall. Postholes are being dug and other preliminaries to fence-making are underway.

Don't buy your wall paper until you have seen my stock. Runs from Cooper double roll and up. A. F. YVOLA.

EDITORIAL COMMENT.

Several Manistiguins, including the writer, have received the following letter from Hon. Justice S. J. Lindbergh, March 24, 1902.

The fight against fake reciprocity is the defense of an outpost which is the real key to the position. A temporary reduction of 20 per cent on Cuban sugar and tobacco will doubtless injure those domestic industries, but certainly will not injure the state, and of the principle that party pledges may be repudiated, party compromises violated, and one industry sacrificed for the benefit of others.

The most abominable feature of this Cuban business is the attempt to fix sentiment inside the assumption that charity must be given to prevent starvation, with the barefaced attempt to make two industries pay the entire bill.

1.—The reduction of state taxes by cutting all necessary expenditures.

2.—The completion of the work begun and the final adjustment of regulation of taxation so that all property, private and corporate, shall be taxed equally.

3.—The passage of a safe and conservative primary election law by which the people will be given full power to control the nomination of candidates and the adoption of party platforms.

4.—To protect the state against the recovery of damages on account of the repeal of the special charters of certain railroad companies.

5.—The passage of a safe and conservative primary election law by which the people will be given full power to control the nomination of candidates and the adoption of party platforms.

LAST OF OUR NATIONAL PREACHERS.

With the death of the Rev. T. De Witt Talmage, now impending, the United States will lose the last of a remarkable group of preachers. The peculiar distinction of these men was that they were able to command the attention of the entire nation. They were in a real sense national preachers.

Foremost of this group were, of course, Henry Ward Beecher and Dwight L. Moody. Although never formally ordained, M. Moody's life was a gospel message and had millions of hearers.

Next to the top of this group stood T. De Witt Talmage. In the height of his regular audience he was probably the foremost.

When a loafer stands on the streets all day, what does he talk about? He usually "talks" about busy men, and the town in which he lives.

All these great preachers, it is worth while to notice, preached the straightforward gospel of Christ. They did not waste their time in speculating upon ethical culture.

"Don't fool; don't flinch; hit the line hard," is the advice President Roosevelt gave to a seven-year-old boy the other day.

"I have not the slightest hesitation in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Chas. M. Cramer.

Will some "one kindly name a measure which has been championed by the Democratic Party during the past quarter of a century that is not dead and buried beyond the hope of a resurrection? It can't be done, but on the other hand, the Republican Party has to its credit the reconstruction measures which followed the ending of the Civil War.

It is better to have a free delivery of meat, should probably get the position of a little more.

DOESN'T WANT IT.

Hanna has announced that he doesn't want the presidency but what he really wants is to unite capital and labor. He says: "I am not a candidate for president, and do not aspire to become a candidate. I want everybody to understand this, so that I can go on with the task assigned to me by the national civic federation, without having my motives viewed with suspicion, I would rather be instrumental in bringing the employing classes and the working classes together, so that strikes and other industrial disturbances would be minimized, if not wholly abolished, and have credit for that achievement placed upon my tombstone."

PROTESTS ILL TIMED.

The School Board Has Not Completed Its Tasks of Hiring Teachers.

The fact that the school board at St. Ignace has failed to complete its task of hiring teachers, has caused considerable discussion. One of the reasons for this is the fact that...

The board consists of four members, intelligent men that have the best interests of our schools at heart, and the citizens of Manistowick, believing their integrity and capability, have elected them to the important task...

The error is a taxpayer and is willing to rely upon the judgment of such men as Mr. H. J. Van Pelt, C. L. Orr, J. Phillips, John Palk and P. McDonough, in the management of the public schools.

Again we find that the storm of protest was ill timed for the task of employing teachers (far from completed), and that several that were not considered at the last meeting may be dismissed later. When the board turns its thumbs down as signals that its task is completed, then honest criticism may be made.

A delay in negotiations. A telegram was received from the Pittsburg, Pa., people who are negotiating with the C. & O. in regard to a tunneling project...
