## YOUNG FOR CONGRESS

Received the Nominations on the Sixteenth Ballot Wednesday Evening.

## MINNOMINEE SPOOK SHELLEN

It was Apparent that Young Would be Nominated from the First as the Likeliest but the Vote.

The most interesting congressional convention ever held in the Twelfth district was brought to a satisfactory close Wednesday evening by the nomination of H. O. Young of Ishpeming.

Bitter feeling was engendered on account of the contests from School-Clippers and Baraga counties. The credential committee after a careful and painstaking examination, decided to seat the Young delegates from Schoolcraft and the Sheldon delegates from Chippewa and Baraga. This resolution left Young with 48 votes or one less than a majority. Sheldon had 27 votes and Wright 22.

Balloting commenced late Wednesday afternoon and ten ballots were taken before supper, without a change. Balloting was resumed after supper and on the fourteenth ballot the Minnominie county delegation warned the Houghton delegation that if they did not swing to Sheldon within two ballots that the Minnominie delegation would go to Young. Houghton remained obdurate, and Minnominie fulfilled its threat and cast ten votes for Young. Outangouss also gave him three votes giving him 61 votes or 12 majority. The nomination was then made unanimous.

Mr. Young then made a very eloquent address.

A short resume of the convention follows:

The credential committee prior to the convention decided that the delegates from Baraga, Schoolcraft and Chippewa should not be allowed a voice in the perfecting of the temporary organization and that the regular delegation from Delta should be allowed to vote, and Chairman Duncan who was present declared the vote carried. A few minutes later when he was proceeding to perfect the temporary organization of the convention he declared that, there being a contest from Delta, the regular delegation would not be allowed to vote. Mr.

Duncan thus precipitated all the trouble and was the means of preventing Mr. Young from organizing the convention.

The injustice of the chairman's ruling being so apparent, pseudo-minimum moved for a time it looked as though there would be a repetition of the Ishpeming convention of four years ago.

A motion was carried overruling the decision of the chair on Delta county and then the racket commenced. Two conventions were organized but the sole judgment of the leaders prevailed and an adjournment was taken. Upon convening, the delegates were recalled upon for speeches. Mr. Young said:

"Gentlemen of this convention: This call upon me to speak upon the decision of the chair on Delta county four years ago the Republican party of this district was real in triumph, which was not only fairly conducted (Applause) You all know it; we all know it and we all regret it, now seems we are up against a proposition somewhat similar. Now, all I want to say to you, gentlemen, is this: Sacrifice me, sacrifice Mr. Sheldon, or sacrifice Mr. Wright, but don't sacrifice the Republican party of this district. (Great applause and cheers.) And I want to say to you just one thing more—and you can't save the Republican party of the Twelfth congressional district by doing an injustice here or by any action standing this convention. (Applause.) You can't save it that way. Now, gentlemen, I believe that there is honesty enough and fairness enough in the Republican party of this district to conduct this thing fairly. You have just a somewhat busy time here, I understand. All I say to you is take a fitting rest to-night; rest honestly and fairly, and whatever the result may be, I for one will be satisfied. (Profuse applause.)"

The other candidates endorsed Mr. Young's fellow.

The candidates finally compromised by naming a credential committee of Messrs. Bentley of Houghton, Mills of Minnominie and Miller of Gogebic.

After an exhaustive investigation the committee decided to seat the Young delegates from Schoolcraft and Chippewa and Baraga counties. The Delta "contestants" failed to put in an appearance, their mission having been performed earlier in the day.

## MRS. CLEMONS DEAD.

Her Demise Occurred Yesterday Morning. Funeral Tomorrow.

Mrs. N. E. Clemons died at the home of her son, Mr. Geo. Lake, in this city early yesterday morning after a long illness.

The deceased was born in Antrim county, Ireland, on August 18, 1830, and came to Canada when ten years of age, where she married John Lake on May 19, 1848, at Kingston, Ont. Eight children, six living, were the result of this union. Mr. Lake died on May 1, 1872. She came to the United States in 1880, and the following year was married to Rufus Clemons, who died in 1890. Since that time she has made her home with her son, George Lake.

Mrs. Lake was a woman of deep religious convictions and a member of the Methodist church denomination. The children are: T. W. Lake of Langdon, N. D.; John Lake of Brussels, Ont.; Mrs. Wright of Wroter, Ont.; James Lake and Mrs. W. B. Cassinora of Hiawatha, and George Lake of this city.

The funeral services will be held from the house of Geo. Lake in Lakeside addition, tomorrow at 1:30 o'clock p. m. and from the Methodist church at 2:30 o'clock, Rev. Osborne officiating.

The relatives have the sympathy of the community in their affliction.

## Boxing Exhibition.

Billy Moore of the Soo and Alex Vizina of Gladstone, two of the finest athletes and boxers of the state, will give a six round exhibition at the Star opera house tomorrow evening. The management states that those not satisfied with the exhibition will have their money returned. There will be two preliminary bouts by local talent, also the new fall the barrel luncheon boxing contest. First bout will be pulled off at 8:15 o'clock. General admission 25 cents. Reserved seats 50 cents.

## Purchased a Tug.

Capt. Flegenbaum and the Chapman boys purchased the tug Stewart. Re-wards at Two Rivers, Wis., last week. The tug is 55 feet over all, and has a fourteen foot beam. The tug is in good repair and is equipped with a new boiler. The boys secured a bargain.

## HARBOR IMPROVEMENT

The Preliminary Step will be Taken Shortly by Ador Warren of the Engineering Corps.

## ITS IMPORTANCE AS A PORT

Outlets to a Lumber Appropriation. A Life Saving Station Also Needed.

Major J. G. Warren, of the corps of engineers, writes to the Chicago Tribune Co. that he or his representative will visit Manistique shortly to make preliminary examination of Manistique harbor. A portion of his letter follows:

Dear Sir:—

The River and Harbor act, approved June 13, 1902, contains the following: "Sec. 14. That the Secretary of War be and he is authorized to cause preliminary examinations or surveys to be made at the localities named in this section as hereinafter provided. In all cases, unless a survey or estimate is herein expressly directed, a preliminary examination shall first be made, which shall embrace information concerning the commercial importance, present and prospective, of the river or harbor mentioned, and a report as to the advisability of its improvement. Whenever such preliminary examination has been made, it may be deemed advisable, to survey thereof or estimate thereof shall be made without the direction of Congress; but in case the report shall be to the effect that such river or harbor is worthy of improvement, the Secretary of War is hereby directed, at his discretion, to cause surveys to be made and the cost of improving such river or harbor to be estimated and to be reported to be estimated and to be reported to Congress. Provided, That in all cases preliminary examinations, as well as surveys, provided for in this act shall be examined and reviewed by the board provided for in section three of this act, to-wit:

Michigan.

Manistique Harbor."

I have been assigned the charge of making the preliminary examination for Manistique Harbor, and either I or my representative will visit Manistique within a short time, for this purpose.

Before making this examination, I should be pleased to hear from you as to the full extent of the improvement desired, and the commercial interests both general and local, which will be benefited thereby.

## BOND PROPOSITION CARRIED.

New School Building will be Erected in the Fourth Ward.

The election held last Tuesday for the purpose of voting on a proposition to bond the school district in the sum of \$12,000 for the construction of a commodious brick school building in the Fourth ward, and for the purchase of four lots in the vicinity of the Westside school building, did not appear to create much excitement. Only fifty-four tax-payers voted, of which thirty-nine were in favor of the proposition and fifteen against.

It is the intention of the school board to push the creation of the building this autumn.

## The Miller's Daughter.

Miss Clarissa Barrow assisted by local talent, presented the interesting drama, "The Miller's Daughter," at the opera house on Tuesday and Thursday evenings of this week, before small but appreciative audiences.

Clarence Scott, Harry Ashford, Harold Gentry, Fred Cox, Blue Merwin, Agnes Rice and Lucy Barrow ably assisted Miss Barrow in the production.

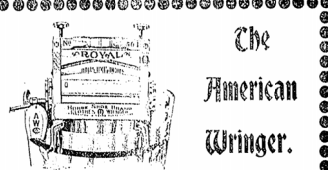

Miss Barrow has an exceedingly pleasing stage presence, and deserves great credit considering the histrionic training she has had. With that training and a little more experience she would develop into an actress of more than mediocre ability.

## A Slight Wreck.

Some one threw a switch, evidently with malicious intent, in the Ann Arbor yards last Saturday evening. Engineer John Forshar was making a sprint for the grade with a train of loaded cars when he ran into the open switch. The engine and several cars were derailed. The Soo line wrecker cleared the wreck Sunday and the engine is again in commission.

## Ice Cream Social.

The C. K. society of the Presbyterian church will give a social at the church parlors on Friday evening, July 18th. Progressive lunch will be the entertainment, and tea, cream, cake and strawberries will be served. Admission free.

"It's all in the rubber." To obtain the proper elasticity for wringing clothes dry and the necessary strength to withstand the great strain of wringing must be well made and of good rubber, otherwise they are of little or no value. As The American Wringer Co. make the rolls used in their wringers they select the best grades of rubber and exercise great care in compounding the rolls—know what their rolls are made of and what service they will give.

We also have in stock the Arme and Yale Ball Bearing Lawn Mowers, both in 11 and 16 inch knives. They are the best in the market.

## Confidence

A Reception by Mrs. Mersereau.

One of the prettiest entertainments ever given in Manistique society circles, was given by Mrs. C. B. Mersereau at her home on Friday afternoon last week, where she received about sixty of her friends. Mesdemoiselles Mulderbeck and Tucker assisted the hostess in receiving. In the hall, which was decorated with marigolds, Mrs. O. A. Hanna and Miss George Ross served delicious punch.

The dining room was a picture of beauty, with red satin ribbons, red carnations and sunais, catching largely in the decorations. Here Mrs. T. W. Danton assisted by Misses Sigurdson, Brown and Barrow served dainty refreshments.

The pleasant greeting of the hostess and the meeting of so many old and new friends in pretty summer costumes combined in making it an event long to be remembered by the participants.

**Republican Representative Convention**

A Republican representative convention for the Representative District, comprising the counties of Alger, Lapeer, Manistique and Schoolcraft, will be held at the Court House in the City of Manistique, Mich., on Tuesday, August 12, 1902, at 10 o'clock a. m., for the purpose of nominating a candidate to represent said district in the State Legislature, and also to transact such other business as may lawfully come before said convention.

The several committees will be entitled to representation in said convention, on a basis of one delegate for every 400 votes or moiety in excess thereof as cast at the last Congressional election, viz:

Alger	399	Delegates
Lapeer	399	1
Manistique	104	1
Schoolcraft	104	1
	999	3

W. C. BOZMAN, Chairman of Republican Representative Committee, Manistique, Mich., July 14, 1902.

**EDITORIAL COMMENT.**

Frank Cookson is being mentioned as a probable candidate for the nomination of sheriff.

The tax commissioners are touring the upper peninsula and will undoubtedly visit Schoolcraft county.

W. H. Mills, Monnomie county prosecutor, attorney, has announced that he will not be a candidate for reelection. His conscience is evidently bothering him.

The papers state that Hon. John B. Gordon of Marquette had a hole torn through his hand on the Fourth by a sky rocket. Was it the hand that cost him \$100 at the Downey House, Lansing, last winter?

The precedent set by the congressional convention in defining the status of the contesting delegation from this county will undoubtedly govern the conventions yet to be held—the senatorial and representative.

When a fellow lays claim to carrying the Republican vote of Schoolcraft county in his vest pocket he should be sure of the strength of the garment. There is a hole in a vest pocket since the Marquette convention.

Prosecuting Attorney Mills of Monnomie who had such a prominent part in attempting to seal Schoolcraft county from the Young column, at the recent county convention, evidently has a conscience after all. He was one of the three members of the credential committee and the committee unanimously reported to elect the Young delegation—Messrs. Crane, Orr and Loggers.

**EDITORIAL COMMENT.**

Hurrah for Young!

Who said that Alger and Lapeer counties would be the Young coop? Peter White has contributed \$5,000 toward the erection of a library building at Marquette.

The state treasury at present has the largest balance in its history. The amount is \$3,306,883.

No mistake was made by the Republicans of the Twelfth district when they nominated Young as their standard bearer.

Shelden is now conversant of the fact that it doesn't pay to swap horses in mid-stream—especially in Schoolcraft county.

Young will carry the upper peninsula by the largest majority any candidate for congress has received during the past ten years.

Justin R. Whiting is looking with favor upon the proffer by prominent Democrats, of the gubernatorial nomination, and may be Bliss' opponent.

Monnomie got into the band wagon through John E. Jones' determination to vote for Young. His action brought the remaining nine votes of that division into the Young column.

The congressional convention did two things that commend it to the Republicans of Schoolcraft county when it nominated Young and told the "rumpists" to go way back and sit down.

Certainly Shelden cannot and will not accuse Merseaux of lukewarmness in his behalf. In the words of an inscription placed over the grave of a western cowboy, "he did his damndest."

The recent ruling of President Roosevelt on the civil service which held that the removal of a federal officer shall not necessarily be preceded by a presentation of proved charges, has caused many heads under puppet trousers to quake.—Soo Times.

Mr. O. A. Bowen is a candidate for the nomination of county clerk and register of deeds at the hands of the Republican convention. Mr. Bowen is quite well and favorably known throughout the county and his candidacy will no doubt be well received.

They evidently had lots of fun with Patsy McManama before the credentialists committee at Marquette this week. He was closely cross-examined by C. E. Miller, an attorney of Ironwood, who was a member of the committee. Patsy admitted that he was elected chairman of the Democratic committee two years ago, but insisted that he did not serve and that he had never resigned. He also stated that he had been a Republican for two years. His questioner asked him to define some of the Republican principles. This was a stunner. Patsy looked about to find a convenient knot hole through which to "take his exit." After remaining speechless for a minute or two a friend coaxed him by saying "traffix." Patsy straightened up and in loud tones said "the tariff."

**A DIRTY SCHEME.**

When the Shelden forces ascertained that Young would vote 46 uncontested delegates for the temporary chairmanship of the congressional convention, while the combined opposition had only 49, then Crooked Mills, one of Shelden's coaches, telegraphed to Marquette that a contesting delegation should be sent up to Marquette on a special train. The delegation was headed by Dr. Dube. When Delta county was called, Mills said that there was a contesting delegation from Delta, and the regularly elected delegates were not allowed to vote. Delta's nine delegates being eliminated, the candidate of the combination, Mr. Chas. Smith of Lake Linder, won out receiving 40 votes, and John I. Jennings, the Young candidate 37.

After the organization was accomplished the contestants from Delta were dismissed by Mills, by stating before the credential committee that they had no claim for a seat. Their mission had been accomplished. This brazen exhibition will have its effect on politics in this end of the district for some years to come.

**A BAD START**  
(Mining Journal.)

The Republicans of the Twelfth district will not be satisfied with the work done in yesterday's congressional convention, or that part of it which was concluded yesterday afternoon, nor can they be expected to seal the proceedings with their approval.

The convention at one time tumbled fair to be a duplication of the Sheldon-Stephenson embroglio at Ishpeming, as at one stage of the proceedings, two organizations were doing business at the same time, but a long recess gave heated blood a chance to cool, with such good effect that it was decided to postpone further deliberations until this morning, a credentials committee of three members, one named by the lieutenants of each candidate, having in the meantime an opportunity to arrive at some determination relative to the contesting delegations.

Of these, there were four in the convention. The fourth and later contest was sprung from Delta county and it had its birth some time between midnight and noon yesterday. It was cooked up by the Shelden men to offset the contesting "Anti-Shelden" Chippewa delegation and to give the Wright-Shelden forces control of the temporary organization of the convention. This eleventh hour delegation came through from Escanaba on a special train yesterday, arriving here shortly after noon. It may be remarked that the Delta county congressional convention was one of the first to be held and that it chose its regular delegates several weeks ago.

It is not The Mining Journal's intention to go into the matter of the legitimate function of contesting delegations, or their rights and privileges. This is not the time for such a discussion. It may remark, however, that each of the other contesting delegations asking for seats in this year's convention were named on the dates on which the regular convention were held and were, to all appearances, the spontaneous work of Republicans resident in the three counties. In no instance were they cooked up with the purpose of thwarting what seems to be the will of the Republicans of the district. The Mining Journal does not care to go into a detail of this latest exhibition of reckless politics. The reasons and motives for the contest are transparent, within the comprehension of any schoolboy, and will be understood by everyone who witnessed or reads of yesterday's convention.

**RAISE YOUR SALARY.**

Most men who work for a salary cherish the belief that they are not getting enough pay to fit either their needs or their deserts. They delight in whispering confidentially, over their cigars and whisky, that their employers are becoming rich while the real brains of the business, the real money-making power in the house, is none other than their humble selves, poor slaves that they are toiling for other's gain. As the pile of cigar ashes grows and the contents of the bottle lessens these oppressed beings become pathetic in their complainings. They tell of their employers riding about in swift, luxurious automobiles, while themselves, struggle along on a pittance, dodging bill collectors, pinched by poverty, unhonored and unengaged. "If we only had \$50 or \$50 more each month," they say, "we could be comfortable."

Any one of these discontented gentry can add from 10 to 50 per cent to his salary without asking his employer's leave. All he need do is to cut off his whisky and cigars and cease feeding his other vices, if he has any. But none of these gentry ever thinks of taking such means to increase his income. Genius such as he, cannot be required to economize and it seldom does.—San Francisco Bulletin.

The Patrick McNamara wing of the Republican party in Schoolcraft county has a knife in its boot for State Senator Fuller and they claim that they will encompass his defeat in the senatorial convention. Monnomie and Chippewa counties could turn the trick, but they won't.

**PUBLIC INTEREST IN STRIKES.**  
(Minneapolis Tribune.)

At the beginning of a great strike the public looks on as a spectator, curious, sympathetic or indifferent. This attitude may continue till the settlement, or it may be changed to a direct and lively interest, and conditions to circumstances are discovered. The public soon discovers its interest in a street car strike and it is the chief sufferer by a great railroad strike. It has no great concern with strikes in factories, however extensive and prolonged, and is only reached slowly and indirectly by strikes in mines.

The anthracite strike in Pennsylvania has been going on now for a long while without causing any great public discomfort. It was begun in the summer, when the demand for coal is least, probably because the workmen could live on short commons in the summer with less suffering. Besides anthracite is a kind of luxury. There is no very great hardship in substituting soft coal for it. New York grumbles a little because it can no longer enforce the smoke ordinance; but that is not a very serious matter. The extension of the strike to the soft coal fields, especially if it lasted till autumn when poor people are buying coal for domestic purposes, would be a different matter. It would pinch the public hard and there would be a tremendous popular demand for a settlement. Perhaps this is one reason why the soft coal unions are slow to strike.

There was a good deal of public discomfort from the strike of the packing companies' teamsters in Chicago, and this undoubtedly made it easier for the state board of arbitration to bring about a settlement. The public does not suffer so directly from the general freight handlers' strike now going on; but it cannot continue for long without causing very serious inconvenience. Should it be tentatively successful, this strike would amount to an embargo on freight traffic through Chicago. This could hardly be endured, either by the local or general public. Though all previous attempts to settle the strike have failed, it is probable that efforts will be renewed until they shall be successful.

**ON BURNING THE BRIDES BEHIND YOU.**  
(Soo Journal.)

"It is never a good plan to burn your brides behind you, political-wise," quoth a wise man recently and this commonplace never loomed up so big, we opine, before the eyes of Chippewa county's quondam boss than it does today.

We have always given Mr. Webster credit for being blessed with a top-piece which made a drink out of a chura a pleasant pastime, but he appears to have forgotten his cunning and his long-headedness seems to have departed.

We wonder how many times in the last few days the postmaster has held his head in his hands and pondered long, on that evil moment when he conceived the plan of robbing Young of Schoolcraft by the simple process of a contesting delegation. If that idea had never occurred how lovely all might be. How easy to Mr. Young and pointed out to him the importance of the services of a good postmaster to look after his fences.

But now with that Schoolcraft ghost which will not down, communication is shut off and all that is left is to make a game finish of a losing fight. Our sympathy goes to Billy in his hour of trial and our word of advice would be not to monkey heretofore with the contesting variety of buzz-saws.

**A Good Thing.**

German Syrup is the special prescription of Dr. A. Eosches, a celebrated German physician, and is acknowledged to be one of the most quickly cures coughs, colds and all lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an expectorant medicine, but has stood the test of years, giving satisfaction in every case, which is rapidly increasing every season confirms. Two million bottles sold annually. Boosche's German Syrup was introduced in the United States in 1808, and is now sold in every town and village in the civilized world. Three Dollars will relieve any ordinary cough. Price 75c. **THE TAFT COMMISSION AND THE VATICAN.**  
(Evening Wisconsin.)

The difference between the Taft commission and the Vatican on the subject of the Philippine friars seems to be due to this: that the Vatican looks at the friars in their capacity of representatives of the church, while the Taft Commission looks at them in the light of ex-representatives of the Spanish government in the Philippine islands. It is in the latter capacity that they are looked upon by the Filipinos. It is in that capacity that they concentrated against themselves the hatred that led to the popular uprising which preceded the Spanish-American war. It is in that capacity that they are now so cordially detested by the natives of the interior that they were to return to the safe if they were to return to the old localities, on whom account they are at present hounded at Manila.

From the American standpoint the question of getting rid of the friars is a political one. The Vatican continues to view it as a religious question. It is hard to predict what the course of the United States will be in this complicated matter, for as the Vatican's memorandum shrewdly sets forth, the treaty with Spain which the United States entered into at Paris contained a provision that "Spanish subjects, natives of the peninsula, residing in the territory over which Spain by the present treaty relinquishes or may relinquish its sovereignty, may remain in such territory or may remain therefrom, retaining in either event all their rights of property, including the right to sell or dispose of such property or of its proceeds, and they shall also have the right to carry on their industry, commerce and professions, being subject in respect thereof to such laws as are applicable to other foreigners."

The United States commission has no objection whatever to the friars as friars. It recognizes them as persons who by reason of their administration of the local government of the islands under the Spanish regime, incurred the resentment of the natives, and it realizes that if the friar could be got out of the islands at the present time the pacification of the Filipinos would become an easier task than it has been. It would be a great convenience to the Commission if the Pope would give the friars assignments elsewhere. This the Pope at present firmly declines to do with respect to the friars as a body, though he holds out the promise that individually and gradually they shall be dispatched to other fields of endeavor.

Commissioner Taft has not yet decided to come home.

**Sues for \$25,000.**

Suit for \$25,000 damages has been brought against Rev. Fr. Sperlein of the Catholic church at Rockland, by Sister Margaret Walsh. The plaintiff was recently arrested on the complaint of the priest on the charge of obtaining money on false pretenses, it being contended that the alms she was soliciting as a sister of mercy were in reality for privilege gain.—Houghton Gazette.

Sperlein was formerly located in Manistique.

**KONOHO, IND., Aug. 10, 1899.**  
PERVIS STRYPP CO.

Dear Sirs:—For the past 10 years I was troubled with my stomach. About 4 years ago was taken down with rheumatism; was not able to do a day's work for 3 years. All medicine seemed of no benefit to me. A year ago I was advised to take Dr. Caldwell's Syrup Pepsin. I truly believe I would have died but for this medicine. My rheumatism is entirely gone and my stomach is in good condition. I have saved my life and I cannot recommend it too highly.

Yours respectfully,  
ELWOOD McCracken.

The Board thereupon adjourned without day.

O. C. Bowen, Chairman. Ed. Ashford, Clerk.

The Same Old Story. J. A. Kelly relates an experience similar to that which had happened in almost every neighborhood in the United States and has been told by thousands of others. He recounts that last summer had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which he used according to directions and with entirely satisfactory results.

The trouble was controlled much quicker than former attacks when I used other remedies.

FOR KILLING HIS WIFE.

John Anderson Strung Up by a Mob at Owensboro, Ky.

Owensboro, Ky., July 15.—John Anderson, a farmer who was in jail here on the night of July 8, was taken from prison by a mob of about 100 men and hanged in one of the principal streets of Owensboro at about 2:30 a. m.

The lynchers, who are supposed to have come from the south of Anderson, were about three miles west of Owensboro, came quietly, and refused admission by the jailer, and before the mob had broken into the jail the prisoner had been strangled from giving the alarm.

Anderson was the first white man lynched in this county. At 10 o'clock on the night of July 8, he was taken from his cell in the jail and taken to a barn near a pair of scales. The mob then departed quietly. No arrests have been made.
