## A GARDEN SPOT.

The Country in the Vicinity of Corinne, Destined to Become a Valuable Agricultural District.

## A. MEACHREN'S FARM A MODEL

In Every Respect. Large Tracts Under Cultivation.

Through the courtesy of Mr. P. H. Poole of Corinne, the writer recently had an opportunity of seeing much of the territory surrounding that lovely little city. One is very much impressed with the fertility of the soil and the vast expanse of cleared land. There are large tracts of hardwood, of magnificent growth which will be placed on the market by the owners of sawmills now being constructed at and near Corinne. These lands when cleared will be occupied by farmers. Mr. Cooper of Manistique, who expects to complete his mill this autumn and who owns nearly thousand acres of hardwood lands says that applications have been made for most of his land at this time. In five years the price of lands will advance several hundred per cent. for the soil has no equal anywhere. There are several mammoth well tilled farms contiguous to Corinne. In this connection we might mention the farms of A. Meachren, Archie McArthur, Rod Lyman and Nelson Minor. Meachren has been a resident of Mackinac county for twenty-one years, and when he located on his present farm there was not another settler in that vicinity. He had his choice of location and selected a tract on a level upland south of the present site of Gould City. Since that time he has added to his original holdings until now he owns about 1000 acres of the finest land in the upper peninsula. He also has a handsome residence, heated by a modern hot air furnace, and has the convenience of telephone service to the depot at Corinne, thereby being able to keep in touch with the outside world even in the severest winter weather. He has barns whose magnitude would appall the farmers of thickly settled farming counties in the central states, and they're full too.

Mr. Meachren knew the possibilities of the soil and has carved out a handsome fortune and a magnificent farm from the primeval forest. What Mr. Meachren has accomplished during his twenty-one years' residence can be duplicated much easier in the future for there is a demand for hardwood timber and the timber will in great part pay for the land and its clearing. The same can be said of other bonanza tracts throughout the upper peninsula. These lands can be purchased at a nominal figure now and we know of no way in which a man can make money faster and with less risk than by acquiring a tract of land in the hardwood belts.

In a conversation with Archie McArthur, who by the way finds time to manage a big farm equal in size to the Meachren farm, aside from a multiplicity of other duties, he said that his farm was "way to the good" and that his returns from same were extremely gratifying. The majority of the residents of the upper peninsula do not comprehend the vast agricultural possibilities of their territory, and until they become enlightened upon the subject and make an intelligent effort to induce settlers to occupy these, growth will be retarded.

## SHANK GOES TO NORTHVILLE.

Great Disappointment Manifested That He is not to Remain Another Year.

## What The Poor Cost.

The total amount expended in caring for the needs of the needy last year was \$7,171.00. From the annual report of the board of poor commissioners we glean the following figures which may be of interest to our readers:

TEMPORARY RELIEF: Medical attendance and medicine, \$ 547.25; Food, 1,821.25; Fuel, 111.25; Personal expenses, 125.00; Rent, 12.00; Clothing, 50.83; Transportation, 10.83. Total, \$ 2,509.66.

THE GAME KEEPER. Thos. J. Smith will present his beautiful Irish drama, "The Game Keeper." The story shows the designing villain, who is at last overthrown with the aid of a light-hearted, fun-loving and shrewd Irish lad, told in chaste language, clearly and well, with considerable attractive embellishment in incident and scenery. The interest never flags, but grows gradually and legitimately to a fitting denouement in the last act, when the opportune arrival of the light-hearted Irish lad puts an end to everything. The novelty is chiefly in the scenic effect and an absence of the boisterous element, which has come to be regarded as a necessary adjunct to the Irish drama. At Opera house, Monday, Oct. 6th.

## Important Notice.

Arrangements are perfecting hold, under the auspices of the Epworth League of the Methodist church, a two-weeks' course of musical training (vocal.) This course will be for all who desire to avail themselves of it. The work will be in charge of Chorister Angus McCallan, who is a graduate in music, and a thoroughly competent instructor. A full announcement will be made at the morning and evening services Sunday, Come and hear about it.

FL. E. Church Notes. On Sunday morning the theme will be, "As Thy Faith." In the evening the pastor will speak on, "The Inner Temple." Epworth service at 9:30 o'clock led by Miss Lillian Miller. Sunday School at noon. All invited to all services.

Excursion. To St. Paul and Minneapolis, via the Soo Line October 10th. Very low rates for the round trip. The best opportunity you will have to visit the Twin Cities this fall. Get particulars of the nearest Soo Line agent. Yours truly, W. R. GALLAWAY, Gen'l Passenger Agt.

## A GOOD YEAR.

Methodism Has Pressured in the Upper Peninsula. According to the report of Rev. O. M. Thompson, presiding elder, this has been an exceptionally good year for LeCoe Superior district, which includes the entire upper peninsula. They have been six new churches built and dedicated and four more are in course of construction. Many others have undergone extensive repairs and various other improvements, and four new and comfortable parsonages have been built during the past year. The offerings of the churches for benevolent purposes have been increased about \$1,000 and the membership has grown about 100. There has also been a large increase in the salaries of the pastors. The churches now being built will cost from \$10,000 to \$20,000 each.

Installed Officers. The Eastern Star Lodge installed its newly elected officers last Monday evening. The list follows: W. M.—Mrs. Catherine Hornberger. W. P.—Geo. G. Rogers. W. A. M.—Mrs. Nina Ihlenfeldt. Secy.—Mrs. Ida MacArthur. Treas.—Mrs. Grace People. Cons.—Mrs. Grace Letloy. A. Conf.—Mrs. Mary Rogers. Adm.—Miss Emma Lattinson. Both—Mrs. Rhodney Gault. Esther—Miss Pern Nicholson. Martha—Miss Eva Or. Electa—Mrs. Frances Hixson. Chaplain—Mrs. Elizabeth Nicholson. Organist—Mrs. Alia Phippeny. Wardens—Mrs. Miss Brooks. Sentinel—Alex. Davidson.

Adjusted Before Completion of Business. The board of poor commissioners held its annual meeting Tuesday of this week. The board adjourned before completing its business owing to the fact that William Harcourt, one of the members of the board, received a telegram from Soper announcing the critical condition of his brother Supt. visitor James Harcourt. The county doctor and the keeper of the poor house will be appointed later. Poor Commissioner John Patterson was over from Thompson on Monday and Tuesday attending the final meeting of the fiscal year.

## CHICAGO LUMBERING CO.,

A. M. LeRoy, Mgr. Manistique, Mich. Material of Iron Mixed with a quantity of aluminum making smooth and durable castings. WORKMANSHIP—Employed in each department for the manufacture of "Garlands." DURABILITY—Which comes in contact with fire is fastened to the best advantage against wear. CONVENIENCE—All desirable conveniences known to steam making are applied to Garlands. PRICE—No more is asked for "Garlands" than for other high-grade steams and pipes, while they possess advantages not to be found in any other.

Foot Ball. Gladiators plays here on the 11th. A good game may be expected. Gladiators has a good coach and the team has quick active players. Let yourself turn out to cheer for the Manistique team and at the same time make glad the heart of the Manager, so that he can pay the expense of the visitors without being obliged to draw on his meagre bank account. Expenses must be paid. A game costs all the way from \$60 to \$75. The reputation of the town would be injured irregularly if the visiting team did not get their expenses. This is quite an important factor. In case of a rainy day just figure out who has to put up the \$75 and then ask yourself "Does foot ball pay?" The reason why we have a team is our love for the game. Let everybody do a little and then the question is solved. Bring out your colors. The lineup is: Center, Tripper; Right Guard, Norton; Left Guard, Danner; Right Tackle, Jewell; Left Tackle, Howard; Right End, Guitman; Left End, Miller; Right Half Back, Partner; Left Half Back, Baker; Full Back, Jones; Quarter Back, Brown; "Zelle Brown"; Sots, Ashford, Ray Guinan, Pollock, Hines, Purves, Puller, Manager, W. A. LeRoy.

## ..Eye..

Many suffer from headache and nervousness that don't suspect the cause. The nerves that control the eye have direct connection with the most vital parts of the human system. Properly fitted glasses will relieve the strain and give the system a chance to build up. Come in and look over our list of people we have fitted, then ask them if their glasses are satisfactory.

## REPUBLICAN LEAGUE CONVENTION EXPECTED TO ENDORSE ROOSEVELT FOR 1904

IN SESSION AT CHICAGO

Attendance not as large as anticipated, owing to the President's inability to fulfill his promise to attend—Message Assuring Him of the League's Support Ordered Sent to Washington.

Chicago, Oct. 2.—The annual convention of the National Republican League was called to order in the First Regiment armory here with about one hundred present, representing the auxiliary leagues of the various states. This number is less than half the attendance which had been expected before the illness of President Roosevelt, whose presence had been assured.

The nonattendance of the President was commonly mentioned. The nomination of President Roosevelt in 1904 would be endorsed. In fact, it was only about this matter that certain resolutions were made. La Follette's name was given a vote of thanks for his administration of the league's affairs. The following message received from President Roosevelt was read by Secretary Weeks:

"At the opening of the national convention I am glad to be associated with you on my cordial greetings and hearty best wishes for a successful session. The President's name was elected heartily."

The following was read with President Hamilton in response:

"My instructions of the National Republican League were made in the tenth convention. I thank you very cordially for your greeting and extend to you the most cordial assurances of my loyal support and heartfelt wishes for your early return to your accustomed strength and activity."

A committee on resolutions was chosen as follows: J. M. Allen, Jr., Missouri; Charles R. Schurr, Maryland; W. S. Samuel, Montana; W. B. H. Smith, Virginia; C. Cook, South Dakota; H. L. Sanders, Arkansas; H. H. DeYoung, California; Charles B. McKibben, Delaware; George M. Curtis, Iowa; W. M. McRae, Kentucky; Theodore B. Stone, Pennsylvania; Shirley B. Johnson, New York; William N. Sullivan, Kansas; Tom Donahoe, Ohio; Fred B. Meyer, Jr., New Jersey; T. S. Williams, Kansas; W. J. Davoney, Illinois.

After deciding that the various committees should meet on the afternoon recess until morning was taken.

**EXCEPT FOR INFIDELITY.** Bishop Morrison Will Not Permit Marriage of Divorced Persons.

Davenport, Ia., Oct. 2.—Bishop Theodore N. Morrison's circular letter just issued to the clergy and laity of the Episcopal church, announces that henceforth he will not be behind the record of the cases in divorce cases. Divorced persons who have secured decrees on any other ground but infidelity are prohibited from marrying again without the hearing testimony of infidelity at the request of the divorced who has failed to meet statutory grounds is abolished.

**SHIP TRUST INCORPORATED.** International Marine Company Has a Capital of \$120,000,000.

Trenton, N. J., Oct. 2.—The ship combine was incorporated here Wednesday afternoon, after the papers amending the certificate of incorporation of the International Navigation company, which was filed in June, 1898, with an authorized capital of \$150,000,000.

The amended certificate changes the name to that of the International Mercantile Marine company, with an authorized capital of \$120,000,000.

**CHARGED WITH CONSPIRACY.** Illinois Central, Great Western and Rock Island Indicted.

Watoloo, Ia., Oct. 2.—What promises to be an important case against Illinois Central, Great Western and Rock Island railways, which were indicted by the grand jury here on the charge of conspiracy.

The indictments were found by the grand jury and are an outgrowth of an alleged violation of the contract system, which provides for a charge of \$1 a day on all cars that are not shipped for more than forty-eight hours, for unloading purposes.

It is alleged in the indictments that these three companies entered into an agreement to charge a different rate, and that arrangement, if there was one in direct violation of the state law of Iowa, which prohibits rate pooling.

The action was brought at the instance of shippers and was not tied to the special arrangement said to have been entered into by the roads; which was for the benefit of some shippers and to the detriment of others.

**BEHIND CLOSED DOORS.** Grand Chief Arthur and Committee of Engineers Meet.

Chicago, Oct. 2.—Mr. Arthur, grand chief of the Brotherhood of Locomotive Engineers, and twenty-five members of that order held a session behind closed doors at the Sherman hotel.

"We are discussing matters pertaining to the order and do not care to say anything regarding it," was the only statement given.

**Lumber Railroad Tied Up.** Grand Rapids, Wis., Oct. 2.—Twenty crewmen, including track men, were tied up in Grand Rapids, Wis., by a train crew employed on the Bolander line. The railroad company's trains are held up on a strike. The men demanded higher wages and shorter hours, but were refused. The railroad is at a standstill.

# CAN GIVE CLEAR TITLE

Claim of Attorney for the Panama Canal Company.

New York, Oct. 2.—William Nelson Cromwell, general counsel for the Panama Canal company, who has returned from Paris, says he delivered to Attorney General Knox, in Paris, every conveyance, device, concession or other document relating to the property of his corporation in 1878, showing a complete and perfect chain of title in the Panama Canal company and its unquestionable power to convey the same. His client, the canal, shows and other property to the United States, free and clear of all liens or claims of any kind.

"Mr. Monday Waldwick-Hobson, who has just resigned the presidency of the Panama Canal company," he said, "all the documents and questions have been reviewed in the most cautious and exhaustive manner possible, and in addition, I have his compliance that the title to the property is perfect and that the United States will acquire a complete and perfect chain of title from any possible complications from creditors or stockholders of the old company."

"The conveyance of the Panama Canal company will be signed by the board of directors of the company and by the representative of the bank holding the stock of the company, which have been fully authorized by decree of the court to grant such conveyance. There has not been one objection to the conveyance."

"My judgment, it only remains to be seen whether the provisions of the act will be fully satisfied by the provisions of the act. There is no real objection. Only three or four points being still under discussion."

**NEW BRIGADE GENERALS.** Colonel Kimball, McKibben and Hood Promoted.

Washington, Oct. 2.—The president has appointed the following brigadier generals in the regular army:

Coleman B. Kimball, McKibben and Hood.

Washington, Oct. 2.—The president has appointed the following brigadier generals in the regular army:

EX-CHIEF OF POLICE AMES OF MINNEAPOLIS GETS RIX AND A HALF YEARS.

NEW TRIAL WILL BE ASKED

Stay of Execution of Fifty Days Is Granted in Order to Allow the Convicted Man's Attorney to Prepare His Case—Just Out Nearly Twenty Hours Before the Verdict of a Jury Was Reached.

Minneapolis, Oct. 2.—Former superintendent of Police Fred W. Ames today gained a reprieve, but was sentenced to six years and six months in the state penitentiary for felony breach of the peace in the Minneapolis city jail.

The jury in the case was out nearly twenty-four hours and evidently gave all the evidence the closest scrutiny they were capable of.

# FOUR DEEN DEAD

EXPLOSION OF FIREDEMP IN A COAL MINE AT BLACK DIAMOND, WASH.

Relief Parties at Work

Of the Twenty-two Men in the Seclusion Where the Disaster Occurred but Eight Succeeded in Escaping and the Others Are Supposed to Have Perished—Only One Body is Covered as Yet.

Black Diamond, Wash., Oct. 2.—Between 9 and 10 p. m. an explosion occurred in the fourth level of the north side of the Lawrence mine near this town. Twenty-two men are supposed to have been killed, but only one body has been recovered.

Fourteen men were employed in that portion of the mine when the explosion occurred and it is probable that they were working in the mine when the disaster occurred.

Relief parties were at once sent into the mine and every effort is being made to recover the bodies.

The wives and children and friends of the miners whose bodies were recovered and those yet in the mine are gathered about the entrance and scenes are heartrending.

Coroner Hoyt has been notified and is expected from Seattle on a special train.

A later bulletin says fourteen men were working in the level. Eight got out alive. There are still thirteen dead men in the mine, only one body having been recovered.

Strike of Southern Miners Continues to Spread.

Birmingham, Ala., Oct. 2.—Twenty-four hundred miners in the employ of the Tennessee Coal, Iron and Railway company organized a strike in Alabama in obedience to the order of the executive body of the United Mine Workers of America, Detroit, Mich.

The miners are on strike in Alabama, on account of the refusal of the operators to consent to the union of all the miners for the benefit of the Tennessee Coal, Iron and Railway company. It is thought probable that the strike will spread to other parts of the state.

John Mitchell, president of the United Mine Workers of America, was in Birmingham, Ala., on Oct. 2. He is expected to visit other parts of the state.

## EDITORIAL COMMENT.

The Democratic candidate for governor by the state central committee. He is a brother of the recent nominee.

W. W. Barr of Escanaba, is desirous of succeeding Mr. Morse as state game warden. The position pays \$2,000 per annum and expenses, and the term of office is four years.

Hon. H. O. Young who will open his campaign at Menominee on the 10th inst., should be invited to visit Manistique. He is an eloquent speaker and would be given a rousing reception.

There are eleven postoffices in the upper peninsula whose receipts exceed that of the Manistique office. They are Calumet, Escanaba, Hancock, Houghton, Iron Mountain, Ironwood, Ishpeming, Marquette, Menominee, Negaunee and the Soc.

W. C. Bronson, who was appointed as alternate delegate from the 14th District to the biennial convention of the National Republican League held at Chicago this week, was unable to attend, but nevertheless appreciates the honor conferred upon him.

The Democrats of Mackinac county at their convention last week nominated Isaac Corp, the present Republican county clerk. Corp was turned down for re-nomination by the Republicans. D. E. Murray, well known here, has been nominated for treasurer. There will be a merry war on in Mackinac county this Autumn.

## EDITORIAL COMMENT.

The Niagara Herald enters upon its thirtieth year of its existence this week.

The inheritance tax on the McMillan estate amounts to \$700,000. As that amount will go to the primary school fund the schools of Manistique will be benefited thereby.

The Ishpeming Record, under new management, is now published as an eight page newspaper. The large increase in advertising patronage compelled the enlargement.

The Republican county ticket will receive a record breaking majority at the November election. There are elements of strength in all the candidates, and all are popular. No Republican can advance a vote for kaufing the ticket this year.

The Security Warehousing Co. of New York City and Manistique, has recently increased its capital from \$50,000 to \$1,500,000. Very little is known concerning this company in Manistique, but judging from the marked increase in capital there will be some tangible developments shortly.

The many members in which Roosevelt express his status on the trust question is made thousands of friends for the President. He said to Morgan that, "I am neither a bull nor a bear on Morgan stocks. I am President of the United States and sworn to execute the law. I will proceed against you or any other combinations as quickly as I would against a striker, not because I am opposed to either capital or labor, except as either of them is a violator of the laws of the country." Now Morgan is planning to encompass his defeat.

The action of the state convention last week in endorsing the candidacy of Geo. Russell A. Alger for the U. S. senate, brought the campaign to an abrupt end. D. M. Ferry at once withdrew in favor of Mr. Alger, and Hanchett who was a tentative candidate for the honor also decided to drop out. Last Saturday, Governor Bliss tendered the appointment to Mr. Alger. The candidacy of Alger was heartily received by thousands of Republicans in all portions of the state and he certainly would have been elected were senators chosen by the direct vote of the people.

Here is one of the predictions made by Bryan in 1896. How funny these things sound these days. It hardly seems possible that really took them seriously. "If Mr. McKinley and the Republican party are successful and put in power for the next four years, wages will be decreased. Hard times will come upon us and over the land. The price of wheat will come down and the price of gold will go up. Mortgages on our farms will be foreclosed by the money lenders. We will export no goods and we will import from foreign lands the goods which we use. Thus will ruin, want and misery be with us."

President Roosevelt has asked the presidents of the coal mining companies, and President Mitchell of the union, to confer with him and if possible settle the existing difficulties, between the miners and their employers. The officials of the companies have announced their determination not to participate in the conference. The constitution does not give the federal government any authority to seize and operate mines, or this would undoubtedly have been done ere this. Laws should be passed by congress making strikes of short duration. If the government was given authority to place the mines into the hands of receivers and operate them, strikes in the anthracite districts would tardy occur.

**MAID AS GOOD AS THE MISTRESS.** Why, why, why is it that among the plain common people—the great middle class which has neither poverty or wealth—a wife may work in her own kitchen, cook and serve meals, wash the dishes, wring out and hang up the dish rag, scour the pots and pans, sweep, dust and make the beds and be respected, esteemed and honored of society—in her own class—while her hired girl who may be more highly educated by nature, be better educated and qualified to shine in society, not made as much of? Society is not properly constituted so long as these false and pernicious theories and practices are indulged.

## THE LOCAL CAMPAIGN.

It is cause for congratulation all around that the two opposing tickets in this county this year are composed of good, clean representative citizens and gentlemen. No one on either side is inclined to be narrow minded and illiberal and to deride and vilification of the opposition, and it may as well be admitted by all the fellows on both sides that all the candidates are personally unobjectionable and men of good character and repute.

This is as it should be. It makes personal contests unnecessary and clears the field for a good, clean, decent, good-natured and courteous campaign on the political issues involved. It places the contest on purely political, not personal grounds, and, after all, that is what most people care the most about.

On this ground Republicans and Democrats are no nearer together than they have always been. Their differences are just as irreconcilable, the conflict between opposing principles just as strenuous as ever. The question before the people this year is not whether Mr. Republican or Mr. Democrat is a good fellow and needs the office for which he is nominated and ought to have it, but whether or not he belongs to the right political party, who will spend their time and money in the interests of Roosevelt, not Hill and Gorman.

We are accustomed to speak of "off years" in politics, but there are no off years. Every campaign is an important one in itself, or it is a preparation for the next one, which is an important one. This campaign is preparatory for the great one of 1904. Men will vote their political principles just as much this year as they will then. Rooseveltism and Bryanism is just as much an issue now as it will be then.

Therefore stand by your principles. You can't organize in so-called years. You have a vigorous and effective party organization, any more than you have a good strong, reliable horse by feeding him only half the time. Just so it is with a party organization. The voter who thinks he can best serve its interests by voting against it half the time and supporting it the other half is like the farmer referred to.

The thing to do this year, as in all years, is to stand by the party. Help your political friends, not your political enemies. Be a Republican if you can; but if you can't, be straight-out square-toed, up-and-up Democrat without apologies or evasion, but don't be a political mule. And don't forget to help your friends to get the job done. A personal friend who belongs to the opposite party to violate his political principles and vote for you for personal reasons. If he is a good friend of yours he deserves better treatment than that, and any man fit for an office should be above such methods. This is a political contest, and let us conduct it as such. Be a man!

## MORGAN-GAN-STAY-MAD.

(Mariette English.)

It is reported that Mr. J. Pierpont Morgan is very angry at the president for his attacks on the trusts and that he proposes to defeat his renomination and election.

Mr. Morgan is a very powerful man in financial circles. He can form a trust every day in the week, taking a good share of the profits for himself. He can combine manufacturing concerns and shipping interests and railway lines. He can scare Europe half out of its wits, in the fear that he will buy up all the desirable objects there and ship them to America. He is as very big man—but he cannot defeat the nomination of a man whom the people are convinced is working and speaking solely in their interests. The antagonism of the trust magnates only shows that Roosevelt is heaving close to the line and that it hurts.

James B. Knight of the Norway Current was nominated for representative of his district in the state legislature.

## ON WHOSE SHOULDERS IS THE CHIP?

(Peter Owen.)

The attention of those who regard the President's attitude toward trusts as somewhat provocative—as that of the man who, in the language of the street, is looking for trouble—is invited to a few obvious facts.

Neither Theodore Roosevelt nor any other political leader who wishes to stay in public life desires a conflict with the Morgan interests. Mr. Morgan's arm is too long. It reaches from the Atlantic to the Pacific. His hand is upon the motive power of too many banks and factories and railroads and other sinews of influence all over the nation. His enmity is not coveted.

However, Mr. Morgan, in the course of his business, found certain laws an obstacle to his plans. He took measures which appeared to have for their object the evasion or defiance of these laws.

The representatives of whole states complained to the President of Mr. Morgan's acts. Investigation was made by the chief law officer of the national government, a man whose life-long associations and environment would make him naturally friendly to Mr. Morgan's purposes and ideas.

Yet Philander C. Knox found sufficient evidence to convince him that Mr. Morgan either was violating or was intending to violate the law. Sworn to execute and enforce the people's laws, the President did his plain duty. He directed that the necessary steps be taken to keep Mr. Morgan within the law.

As the chosen chief magistrate of the whole American people he could do nothing else and retain either public esteem or respect.

Mr. Morgan, however, resented this action. He resented the determination of the President, to assure the enforcement of the law which the people have made and which the rest of us, 80,000,000 are wont to obey. He declared his resolution to overthrow and destroy as a public man Theodore Roosevelt, our chosen chief magistrate even if he had to spend \$50,000,000 to do it.

Such is the issue Mr. Morgan has forced upon the American people and their President. If the President were to fail to meet that issue and take up that challenge, then the national government might as well abdicate its functions and Theodore Roosevelt might as well invite J. Pierpont Morgan to take his place in the White House.

## TRY HOME DEALERS FIRST.

We are not up in arms against the other houses, neither are we bound tongue and pen to home merchants. But as so fall trade operators and we note the quantity and quality of goods being put in by our prospective buyers, "wait; don't send that order away until you have investigated." Our stores are stocked with first-class goods and we believe can and will give you a good deal as well as the mail order houses; and a little better deal under like conditions. Make out the bill of what you want, present it to the merchant, offering cash in advance, (that's what you have to do with mail-order houses) and ask for his best price. Look over the goods; and see the quality he intends to give you (and that's what you can't do with a mail order house) add to the merchant's price, freight, exchange and postage, then give the question some thought. In our belief that you will find the home merchant just the man to deal with. We do believe that on some articles you can save a few cents by sending away but that's the "bait; a 3-cent Monte man will let you in on a good deal as well as the mail order houses. In the same quantity and buy out the same terms and you can do as very big man. The city merchant don't help to work orders; home dealers do. City dealers don't help to support our schools and churches; home merchants do. City dealers don't sell you goods "on time" when you are "pinched for money;" home merchants do.

## FUTURE OF THE U. P.

Politicians say that the counties of the upper peninsula are being settled so rapidly that they are already making exact calculations. This gives an idea of how fast this great country is developing. To be sure there are a few farmers who are still gathering their first crop, the trees, but they are growing smaller in numbers and importance, and the wise ones are rapidly turning the cropland into farms. The old land that was known in the ice and the snow of the winter; in the flood time of the spring when the logs came down the streams; in the forests where the lumberman's axe let in the sunlight; that was known for its ice roads and its camps has become a land of good roads, broad fields and fine stock. Through the entire world there is no country any finer for the farmer. An experienced lumberman says of the country and its future: "I think that the future of the upper peninsula is so great that no man can see its end. The country is showing new powers each day, and not only are water powers and the factories of various kind proving great attractions to the capitalist and settlement, but the soil is as fine as it is to be found, and a large and very fine class of settlers are coming in to fill up the chopings and make a fine country of it. There is no better land on earth for stock and the stock industries of all kinds and the future is great. The people who are coming are of the best, mostly farmers from the older states, who are tired of fighting partial or total crop failures, droughts and other annoyances. Here we do not know what drought means, and crop failures are unknown. Hay, grasses and all fodder crops do fine, and we can even ripen corn and tobacco. The man who looks to the upper peninsula will find it a growing and developing country with the end not yet in sight."

Witty Members of Parliament.

Charles James Fox once made remarks on government gunpowder in the house of commons which Adams, another member, thought offensive to the ministry; and the two met, as even wise men did in those days, to shoot one another. Fox returned to the declaring he had no quarrel, but Adams asked and shot, slightly wounding his adversary. When it was over, the two shook hands, and Fox was happy enough to say, "You'd have killed me if it had not been government powder."

Other men there have been who would not sit through a speech for the government's sake, much less fight a duel. "What's going" somebody asked a member of parliament when a minister had got up to speak. The M. P. hurrying on, said, "I am." The story recalls one of Lord Exeter, who was trapped in the lobby with the question, "Who's up?" "Windham," said Exeter, and the other asked, "What's he done?" "He left," replied the witty lawyer.

Old People Have Their Troubles.

Mr. Francis Little of Benton Harbor, Mich., is over eighty years of age. Since 1805 he has been troubled more or less with indigestion and constipation and has tried almost everything in use for those ailments. Last August he began using Chamberlain's Stomach and Liver Tablets and was soon feeling much better. In a recent letter he says, "I have used three boxes of the Tablets and now think I am well." These tablets improve the appetite and invigorate the stomach, liver and bowels. For sale by A. S. Putnam.

A Dozen Times a Night.

Mr. Owen Dunn, of Benton Ferry, W. Va., writes: "I have had kidney and bladder trouble for years, and it became so bad that I was obliged to get up at least a dozen times a night. I never received any permanent benefit from any medicine until I tried Foley's Kidney Cure. After using two bottles, I am cured." Sold by E. N. Orr & Co.
