MANISTIQUE, MICHIGAN, FRIDAY, JULY 15, 1904.

\$1.50 PER YEAR.

TANNERY DEAL CLOSED

A Force of Workmen are Engaged in Getting It Ready for Operation.

MEANS MUCH FOR MANISTIQUE

As a Large Force will be Given Employment.

Representatives of the Northwestern Leather Co. were in the city this week and consummated the purchase of the Federal Leather Co.'s plant. A force of men were put to work today for the purpose of making needed repairs to the plant. This work will be pushed rapidly so that the early resumption of the plant may be expected. Later the plant will be thoroughly rebuilt and enlarged and the process of tanning revolutionized. At present the plant is feasible only for the manufacture of sole leather, and as the new purchasers contemplate tanning "upper" here exclusively, a many alterations will be necessary. This sale means much to Manistique as in the course of time a large force of high priced workmen will be necessary in the operation of the plant. A number of houses for workmen are to be constructed in the vicinity of the tannery.

W. M. C. HART DIES

His Death Occurred Thursday Morning of Last Week.

Mr. William C. Hart died at his home in Manistique last Thursday morning at 10 o'clock after a six years illness from paralysis. The deceased was born in the state of New York sixty-eight years ago, and had been a resident of this county for twenty-three years.

He was very well known to every one of the older settlers of the county. He leaves a widow and six children to mourn his loss. They are: Will Hart of Milwaukee, Mrs. Geo. Blaworth of this county, Miss Charlotte Hart of California, Jasper Hart, Lena and Frankie of this county.

The funeral services were held Saturday afternoon at the home. Rev. McCune officiating, and were largely attended by friends and neighbors.

Adjudged Insane.

Mrs. William Seesley wife of the D. S. S. & A. agent at Seney was adjudged insane by Probate Judge Rockwell last Saturday. Mr. Rockwell held court that day and was accompanied by Drs. Raines and Cole who examined her. She was taken to Newberry this week where it is hoped that treatment may restore her to her usual health.

THIRTEEN WARRANTS ISSUED

Liquor Dealers Arrested on Charge of Violating Liquor Law.

Warrants have been issued for the three liquor dealers charged with violating the law relative to the removal of sections on Sunday, July 3rd. Of the number Moses Jack Treichler, Ole Olson and Rodney Barnes were placed for the location of the barrooms of their hotels and being held in the buildings as required by law. Several of the dealers will fight the charges as they claim that their bars were visible from the street on the day in question.

Those included in the list are: Jack Treichler, Ole Olson, Rodney Barnes, Nick Johnson, Gus Roescher, Ed Ryan, John Hayden, Mike Kolodziej, Mr. Vasen, John Waeger, Ed. Nossaman, N. J. Lefgren and Charles Thompson.

The Law and Order League ordinarily means business and will continue to make arrests until the law is complied with.

GIVEN RECEPTION

Mrs. Wm. C. Brownson honored by the Ladies of the M. E. Church.

The ladies of the Methodist church gave a very informal reception at the parsonage last Friday afternoon in honor of Mrs. W. C. Brownson who left the city following evening for her new home in Winona, Minn. The house was very tastefully decorated with marguerites and ferns. Most of the ladies identified with the church were present, expressing heartfelt regret at the departure of one whose beautiful christian life and wise counsel have always been such an incentive for good. Rev. McCune, in a few well chosen words, presented Mrs. Brownson with a handsome rocker, which the ladies desired her to carry to her new home. Refreshments were served after which the entire company took possession of the balcony and were photographed by Mr. Hager.

Former Escanaba Girl to Wed.

Announcement has been made of the wedding of Miss Beola Stangli and Mr. Charles J. Borchardt of Manistique to take place at the home of the bride on August 10. Miss Stangli formerly lived in this city and in Gladstone and has a large circle of friends in this county. Mr. Borchardt is a teacher of language in the Manistique High school.—Iron Post.

The bride-to-be is well known here having visited her relatives in Bosses. Capt. David Boushler of Thompson, returned from Escanaba Tuesday and while there he saw the mammoth steamer, Augusta, which was being loaded with 12,000 tons of ore for South Chicago.

A MUSICAL TREAT

Frederick Macmurray, the Noted Violinist to Give Concert Next Tuesday Evening.

LOCAL TALENT WILL ASSIST

To be Held at the Presbyterian Church Under Christmas Endeavor Appeals.

Mr. Frederick Macmurray, the noted young violinist, who has recently returned from Brussels where he was a student of an Italian artist of world wide reputation, will give a concert at the Presbyterian church next Tuesday evening under the auspices of the Christian Endeavor Society. Some of Manistique's best local talent will assist him.

The program of the evening follows: Organ Prelude.....Geo. Chester Welles
Soprano.....Victoria
Violin.....Frederick Macmurray
Soprano....."Thou Art Like Dawn a Flower", Rubinstein
"The Little Silver Ring",...Chaminade
Anna Barwell Hamilton.
Piano Fantezia.....Stranawski
Frederick Macmurray
Waltz.....W. E. Kofner
Soprano.....Macmurray
Duetto Homophonic.....Brasens
Frederick Macmurray.
Larghetto.....Bohn
Frederick Macmurray.
Macmurray resided here a dozen years ago and many remember the tall boy and his inseparable companion, the violin box. He then showed special talent in that line, and with a commendable spirit and ambition has made dramatic progress that would have discouraged others not possessed of his zeal and determination, reaching an enviable position in his chosen life work.

No doubt the concert will be largely patronized. Prices 50¢ and 35¢ cents. The Deatur Review of recent date has the following to say of Mr. Macmurray:
"The Mark of the violin" was the verdict of the enthusiastic audience last night at the recital of Frederick Macmurray at the temple, and a higher tribute could not be paid here with the memory of the great piano virtuoso fresh in the minds of those who heard him. Mr. Macmurray played exquisitely Venetian "Reveries." The audience sat breathless during the charming rendition, and at the end of it recalled him. He then played a beautiful improvisation. After receding on the lines of Sarasate's "Faust Fantasie," he played in response to the continued applause, with great delicacy and sweetness, Simonsen's "Matrigone."

Then Mr. Macmurray came on the platform for his farewell selection. The first of the two that he played a "Roman

Romance," of his own composition, that was received with enthusiastic and flattering bursts of applause by the audience. It was the work of a master, played with the consummate art of a master's hand, and probably received more applause than any other selection.

The second number was the famous "Danse Hebraique," by Joachim Bahner, which gave wonderful evidence of the artist's ability. The audience was not content, however, that this should be the farewell number, and brought Mr. Macmurray back to play his own adaptation of "My Old Kentucky Home."

A more pleasing violinist than Mr. Macmurray is hard to imagine. In his performance last night, "he lay hold of our heart strings," as one of the prominent members of the Musical Culture Club expressed it.

Through many of his selections there ran a tone almost like that of the linum viols, and his accomplishment on several strings at one time was marvellous as it was beautiful.

The stillness of the big auditorium was the best evidence of the unmythical feeling of the audience.

A few other press notices are reproduced here:
"Macmurray was in Chicago a few days ago and favored a number of musical friends with some very artistic violin playing. In Deatur, Birmingham and several other cities surrounding during the last few days, he has been completely winning his audience with compositions of his own, together with the other numbers on the program. It has improved wonderfully in technical ability since he was last heard here two years ago, before going to Brussels, and in every other quality of an artist he was already richly endowed. His powers in performance and composition are bringing him wide recognition."—The Violinist, Chicago.

"A brilliant young violinist of extraordinary ability."—Chicago American.
"Has created a sensation by his wonderful playing."—San Jose Mercury, San Jose, Calif.

DEFINED RUMORS

That Big Ore Docks Will be Constructed Here: Also that Manistique Will be a

500 LINE DIVISION POINT

Options on Average Ports Being Taken by Outsiders.

Several well defined rumors are about the construction of which may vitally affect Manistique's future growth. One is that ore docks will be built here the other is that the Sags Line will make its division headquarters from Gladstone to this city. Under present arrangements the eastern division necessitates a run of about 150 miles for its train crews, and the men are thoroughly convinced that a shorter division would be the proper thing. It located here the length of the division would be about 107 miles.

The ore dock proposition is also a very feasible one. Manistique is as near to the iron ranges as Escanaba or Gladstone. The M. M. & N. and D. S. S. & A. roads form a direct route from mines to Lake Michigan. The water in the bay runs of the city is of sufficient depth to make it navigable for its largest ore carriers.

Whether these rumors will resolve themselves into something tangible or fade in thin air will be awaited with much interest.

We are informed that options are being given on average tracts in a certain portion of the city and this fact alone is a very favorable indication that there will be "shades" here and that Manistique will profit thereby.

In selecting the site for Manistique its founders evidently took a long peep into the future. Its location is admirable. With a harbor that can be utilized for shipping every month of the year, and with a river that can furnish an unlimited amount of power to industrial enterprises it certainly is possessed of natural resources and advantages that are unequalled by any city on the north shore of Lake Michigan. Capitalists are everywhere of these facts and it does not require a man of prophetic ken to prophesy that Manistique will double in population during the next ten years.

Stricken with Paralysis.

Mr. Charles Haire was stricken with paralysis last Saturday morning and is in a critical condition. This is the second stroke that he has received and but slight hopes are entertained for his recovery.

SEVERE JAP REPULSE

ATTACK ON PORT ARTHUR SAID TO HAVE RESULTED IN DISASTROUS DEFEAT.

LOSS OF THIRTY THOUSAND RUMORED

ALEXIEFF SENDS NEWS TO ST. PETERSBURG, BUT IT LACKS CONFIRMATION.

CAPITAL IN FEVER OF EXCITEMENT

REPORT IS PUBLISHED IN THE OFFICIAL MESSENGER AND EAGERLY READ.

St. Petersburg, July 14.—This city threw into a mad fever this morning during the afternoon by the news that the Japanese fell in an assault on the fortress of Port Arthur on Sunday night, having been repulsed with a loss said to reach 30,000.

According to information derived from Japanese sources and forwarded through Admiral Alexieff, the Japanese attacked the Russian positions at Port Arthur during the night of July 10. They were repulsed with enormous losses. It is difficult to calculate even approximately the number of Japanese casualties, which amounted, it is said, to the immense figure of 30,000.

The original report received at St. Petersburg at night by the official newspaper dispatch from Mukden and was received with incredulity, but at about noon when Victoria's official general staff, it created a tremendous impression. It was immediately transmitted to the Russian emperor and a few minutes afterwards the newspapers were teeming with news glorifying the towns and the triumph of the boys were fairly mobbed by people eager to get the extra.

Japanese Position Desperate. If the report of the loss of 30,000 Japanese is confirmed General Nadzor's army is in serious straits, as General Stoesel will not fall to take advantage of such a serious situation.

Reports are conflicting. NEWS OF JAPANESE REPULSE AT PORT ARTHUR COMES FROM SEVERAL SOURCES. London, July 14.—Dispatches from Shanghai and St. Petersburg say the Japs met with a disastrous repulse at Port Arthur Sunday night.

EDITORIAL COMMENT.

The Chicago Chronicle, a hitherto rabid Democratic paper, is advocating Roosevelt's election since the Democratic convention. It is sincerely hoped that Hearst's yellow newspapers will not flop.

It is now conceded that the Democrats of Menominee county will elect their entire county ticket owing to the serious row in the Republican party caused by the nomination of indefensible and unpopular candidates.

Stranger things may have happened but we doubt it. The Democratic candidate for the presidency announced himself as being in favor of the gold standard prior to his nomination and notwithstanding this the lovers of free silver gave him the nomination anyway.

In defeating the Garden ball team in a score of three to two the Manistique team covered itself with glory. In Garden the chief occupation is ball playing, and some of the best players in the state have "graduated" from the Garden diamond. When Garden comes to Manistique to play the return game the largest crowd that has ever witnessed a game in this city will be present.

The nomination of Parker does not please the majority of the rock-ribbed Democrats of this city. They consider Parker the fool of the Standard Oil Co. and other Wall street monsters, and as they have been fighting the trusts for years they feel sure to think that their party has sold itself to Wall street. The majority of the Democrats west of the Mississippi river will either vote the Republican ticket or rally to Watson, the Populist nominee.

Another illusion has been dispelled this week. The average consumer of wheat had an idea that every employer of the packing houses was receiving about \$10 a day, had his own coachman and other hall marks of affluence, on account of the enormous prices charged for the staple. This is not the case for the common laborer has tied up every packing house of note in the large cities because they want their wages raised to \$1.75 per day.

The Democratic candidate for the presidency is eighty years old, is a "scrapper" and is worth \$40,000. The last qualification overshadows the balance. The trusts are using the Democratic party as a vehicle in the hopes of encompassing the defeat of Roosevelt, whose opposition to these menaces of the country's property is well known to all. The fact that the wealth of the country is pitted against Roosevelt insures his election. The voters are for Roosevelt and will oppose him telling effect at the polls next November, and the efforts of Rockefeller and other magnates to defeat the people's favorite.

BEST FATHER BOY EVER HAD.

No one was more pleased by the results of the recent Republican state nominating convention, not even the successful candidates, than was a tall, benevolent-looking old gentleman who sat at one end of the platform, says the Detroit Journal. Many of the dele-

gates noted the distinguished appearance, and a few likened him in looks to "Uncle Joe" Cannon, speaker of the national house of representatives. Few, however, knew that the elderly gentleman was P. Dean Warner of Farmington, former speaker of the state house and foster father of Fred M. Warner, who is to be next governor.

"The principles of the Republican party were taught me along with the alphabet, by the best father a boy ever had," said the candidate for governor, in his speech accepting the nomination; but it did not require that tribute of love to fill the cup of joy of the elder man.

For years past it has been the ambition of P. D. Warner that his adopted son should hold the highest office in the gift of the people of the state. He it was who first suggested it and his encouragement through political reverses and advice in crises has done much to bring about the result. That Fred M. Warner is the lean, gentle, conversation man his friend know him to be is due in large part to the training of his foster father. P. Dean Warner was born in New York in 1822, and was brought by his parents to Farmington two years later. He grew up there and when a young man took an active interest in politics as a Democrat. He was elected a member of the legislature in 1851 on that ticket, but changed his politics and became a Republican when that party was formed. He voted for Fremont in 1856.

In 1865 P. D. Warner was elected a legislator again, and in 1866 he became speaker, two years later being elected to the state senate. After that he retired from politics.

In 1868, Mr. Warner, who had no children of his own, adopted the 3 months old son of an English immigrant who had come to Farmington. Fred Matly was the baby's name and his mother had died at Livonia just previously. The boy was brought up carefully and learned the business of Warner's general store. When he became of age, the business was turned over to him, and the elder Warner retired. Fred M. Warner's business and political success since then is a thing known well.

The store prospered and its manager branched into the cheese business. His foster father had encouraged his liking for politics and Fred M. Warner was two years a trustee of the village, and seven years its president. In 1894 he was elected to the state senate from the same district that P. Dean Warner had formerly represented. In 1900 and 1902 he was elected secretary of state and this year comes the culmination of his ambition.

P. Dean Warner is, in spite of his advanced age, a very active man, and is president of the Farmington Exchange bank.

THE BUNKO GAME AT ST. LOUIS.

The Bryan wing of the Democratic party appears to have been hounded at the Democratic convention, Parker's views on the currency must of course have been known to the New Yorkers who fought for his nomination. Indeed, it was obviously because they knew he was a gold standard man that they backed him so heavily as they did. But they kept the knowledge to themselves. When the astute David Bennett Hill was questioned in the committee on resolutions, he asserted that he did not know how Parker stood on the financial issue. Hill failed in getting his gold standard plank into the platform. The committee played Bryan by proposing a platform without a money plank, and after Parker had been notified of his nomination he sent his bombshell dispatch announcing his devotion to the gold standard. Bryan was aghast. He rose from a sick-bed and went to the convention hall to demand that if the convention acquiesced in Parker's declaration for the gold standard it should be consistent enough to require Parker to avow his attitude on the subject of asset currency and United States treasury notes. But Bryan was too late.

The Democratic party will go before the country with a candidate who is right on the currency so far as commitment to the gold standard is concerned, but who may nevertheless be radically wrong on the money question because he may favor the retirement of the treasury notes and the watering of the circulation in the pockets of the people with national bank, notes based not on a deposit of bonds to their face value in the comptroller of the currency, but merely on a chance at the general assets of the banks, which are also liable for the redemption of deposits.

The nomination of Parker is Wall Street's crack at President Roosevelt for his fearless employment of the machinery of the federal courts to force the Northern Securities company to comply with the law. Wall Street would not support a candidate antagonistic to the maintenance of the gold standard, because it is sensitive to the interests of the holders of United States bonds. But Wall Street's attitude on the money question is wholly selfish. It has no concern for the stability of the currency in the pockets of the people—the currency in which the wages of labor are paid. Wall Street made barrels of money by the daily fluctuations in the value of the greenbacks in the long period previous to resumption while gold was at a premium.

Bryan was crazy on silver, but his opposition to asset currency is sound. It is significant that he was unable to get the convention to adopt his plan of finding out where Parker stands on the subject of asset currency. The silence of the Democratic platform on the money question and the silence of Parker on the asset currency question are unanimous from the standpoint of all who realize that the chief good to be sought by American statesmen dealing with currency problems is the welfare of the masses of the American people.

It is a misstatement to affirm, as the supporters of Parker at St. Louis have affirmed, that the currency is not an issue at the present time. It is and will continue a vital issue so long as there is an element in Wall Street eager to place the currency on a speculative basis by providing for inflation in the form of national bank notes backed not by government bonds to their full face value, but only by a chance at the general assets of the banks. The bunko game at St. Louis may have deluded the Bryan wing of the Democratic party, but it should not delude the people of the United States.—Milwaukee Evening Wisconsin.

DEAD MEN WARN LIVING

Hospital Reports Prove That Dyspepsia Is the Forerunner of Consumption.

Post mortem statistics of the big New York hospitals show that many of the consumptions are due to uninterfered progress of dyspepsia.

When the first symptoms appear the victim was prolix to tobacco, tobacco, therefore the person who allows dyspepsia to continue to take its course unchecked is contributing toward the development of the most fatal disease known to man.

Dyspepsia scars out the body and the lungs make the victim thin, haggard and sallow. The stomach, unable to digest food, cannot supply sufficient nourishment. When other diseases come, they enter unresisted.

BEWARE OF IT AT ALL COSTS.

I suffered from dyspepsia and indigestion for years, and I have tried every remedy that I could find, but nothing would do me any good until I found a box of Dr. Williams' Pink Pills for Pale People. I am now able to eat any food I wish, and I feel like a new man.

Don't take any chances. Cure your dyspepsia at once. Dr. Williams' Pink Pills will do it. We know what they are and we guarantee them to cure your troubles, or we will refund your money. Price 25 cents. Only at our store or by mail.

LAW FOR DRUGGISTS

They Cannot in Local Option Counties Turn Their Stores Into Saloons, Says Court.

HOMICIDE CASE IS DECIDED

Fearing to Face His Bride a Young Man Attempts Suicide—Michigan News Items.

Lansing, Mich., July 11.—The conviction of J. L. Campbell, a druggist, was one of the most interesting cases heard by the investigation into alleged unlawful flour selling in the local option county of Van Horn. The supreme court used this language in affirming the case: "The impression seems to exist in the minds of some of the profession that one who professes to keep a drug store may to his intent and purpose, keep a saloon, without being liable under the local option act. This is a misapprehension as we have repeatedly shown by decided cases."

HE HAS A NEW TRIAL.

Lansing, Mich., July 11.—The supreme court, in declining to compel Secretary of States Warren to accept certain articles of association presented by Arthur A. Grim, of Jackson, held valid the act of the last legislature consolidated the laws for the incorporation of manufacturing and mercantile companies. It was contended that the title did not embrace the full purpose of the act.

HE FEARED TO FACE HIS BRIDE

Port Huron, Mich., July 11.—John H. Cameron, a cripple living at the north end, made an ineffectual attempt at suicide by swallowing a half grain of morphine. Dr. Kennedy following the rash expenditure of \$200 which his parents sent him, it is reported, led Cameron to take the poison.

He was married about ten days ago and rather than tell his bride that he had spent his money for a drink he tried the suicide course. He is now in the hospital and is reported out of danger. The parents of Cameron reside at Oakland, Ont., and are expected to be worth half a million.

Ypsilanti, Mich., July 11.—Alman George Palmer, aged 72, died here from injuries received by falling through a hay chute and being killed by a frightened horse. Palmer lived here thirty years, and was in the grocery business fifteen years. Five children survive him.

Plenty of tangible proof that the National Protective Legion does what it agrees to do, was furnished at the preliminary Tuesday evening when more than \$5,000.00 was distributed to twenty-eight police officers. The plan of the sale is very attractive to wage earners and people in moderate financial circumstances. This Manistique believes in the stability of the order it may be said that more than one-third of the entire population of the city are enrolled as members. It fosters habits of frugality. We doubt if one-fourth of the members that received their first check on this occasion, would have saved a similar amount in the same period of time had they not invested in a legion policy.

Customs of the Kaffirs.
The author of a book on the Kaffirs of South Africa says: "The women are on the whole, in favor of polygamy. Sometimes a woman who has a dozen other women's than herself follow her, and she to a woman who is the solitary wife of a man and ask her if she does not feel lonely." No one who has seen a king's trail in Swaziland—and there are hundreds of trails, and not feel that there is a certain charm in the social life of the place. It is a sort of college life, and frequently my thoughts have reverted to my old vacation days, and I have struck me if one could imagine a set of men living in the old court of Chitany surrounded by wives and children, with a social circle, which every one was related to every one else, and which got some idea of the above sort of life and 1,000 relations."
A Useful Verdict.
"I had said the old, 'travels,' it was a jury in California once. It was a murder trial, I didn't want the fellow hanged and I got stuck out against the other seven for nine months. It was on the jury when, when they gave in, and we brought in a verdict of 'Not guilty,' and the case I was ready to stand up with again."
"What about it?"
"The man had heard the prisoner on the very first day we were locked up."

Iowa Woman Dead and Her Lover in Serious Condition.
Davenport, Ia., July 14.—Davenport and Rock and society is scandalized by the suicide of Mrs. Minnie Garrison and the lover of her husband, Arthur Orth, in order to marry whom she could not secure a divorce. Mrs. Garrison died almost immediately and Orth still lies in the hospital.
Strategy of the Cuckoo.
The Indio fruit cuckoo, which, like all members of the cuckoo family, lays its eggs in the nests of other birds and thus avoids the trouble of hatching them, is said to exhibit most interesting strategy in dealing with crows, which are its enemies. Wherever the bird, an inconspicuous speckled gray bird, conceals herself in the foliage, the cock, remarkable for his brilliant black plumage and crimson eyes, places himself on a perch near a crow's nest and makes a great noise. The crow immediately rush out to attack him, and he takes to flight with his purpose. The hen meanwhile slips into the nest and deposits an egg. Sometimes the crows get back before the egg is laid and then the intruding hen crows gets a trouncing.—Youth's Companion.
The Head and Feet.
The connection between the head and feet is well known. A hot head is directly related by a hot foot. So cold feet tend to congest the brain and the internal organs. Sometimes cold feet are caused by tight lacing or tight fitting shoes. But it is as much a suicidal act to hasten death by compressing the lungs or the feet as by compressing the neck with a rope.
