## CHAS. D. COON DEAD

Charles Coon, One of Manitowish's Best Known Citizens Passed Away Suddenly.

## DIED WHILE EATING A LUNCH

Deceased was Well Known to All Residents of the City and County and Widely Respected.

When about 6 o'clock Friday evening it was reported about the city that Charles Coon was dead, the report was by many deemed incredible, as several people had met and talked with him on the streets less than two hours before. He had been out through the country during the day on his wheel, reaching home in the early evening. About a o'clock Mrs. Coon prepared a lunch and spread it on the kitchen table and led the room for a moment, but hearing a noise immediately returned and found Mr. Coon on the floor unconscious, going by twice, and life was extinct. Dr. Nelson was summoned, but was too late to render aid.

Mr. Coon was born at Rochester, N. Y., February 21st, 1855. With other members of the family he moved to the township of Belmont, Wis., in 1881 where they lived on a farm until 1888, when they moved to Grand Haven, Mich., and two years later engaged in the grocery business and built the store on Oak street owned by him.

In the year 1897 he was united in marriage to Miss Maude Ross of Berlin, Wis., and three children were born to them. Alvin Marie, aged five years, John Almon, aged four years, and Carlton D., aged eleven months.

Besides Mrs. Coon and the children there survive to mourn his loss, two brothers, J. F. Coon of Lantonia, Mich., John A. Coon of Neenah, Wis., also two sisters, Mrs. John Chas. Coon, well known here, now residing in Idaho, and Mrs. Chas. Austin of Wauquesa, Wis. Charles Coon, as he was familiarly called, had been closely identified with the history of Manitowish for more than 20 years, and was well known to all the older residents of the city and county and was universally respected. He was a consistent member of the Democratic party, and at the time of his death was chairman of the County Democratic committee, as well as a candidate for the nomination to the office of sheriff, with practically no opposition.

The funeral was held Monday afternoon at the home, Lakeside, Rev. Torbett officiating, and a large number of neighbors and friends attended the last rites. Interment was in Lakeside cemetery. Relative present, were the brothers J. F. and John A. Coon, Mrs. Chas. Austin of Wauquesa, Wis., and Geo. E. Gates of Berlin, Wis., brother in law of Mrs. Coon.

## WHO WILL IT BE?

A Few More Days Will Decide Who Shall Be the Standard Bearer.

## LIST OF CANDIDATES NOT LARGE

But Runners Have Been Abound That Other Names Than Those That Have Made Their Announcement Will Be Presented to the Convention.

On Wednesday next, Schoolcraft county Republicans in convention assembled, will make their choice, through accredited delegates of the candidates to be elected to the different offices for the coming two years.

The list of names of candidates seeking preferment is not a particularly large one, and there is little doubt that if wise choice is made in the selection, that the people will on November 8th, ratify the action of their delegates. Speculation is rife as to who shall prove the winners, but few profit with certainty, the outcome of next Wednesday's contest.

Below we append the names of the candidates so far announced for the different offices:

For Judge of Probate—A. C. Rockwell and E. C. McKesson.  
For Sheriff—Magnum Klingstad and J. J. Riley.  
For County Clerk and Register of Deeds—O. A. Bowen and D. G. Currie.  
For Treasurer—Chas. A. Johnson, E. H. Jewell and Edward Miller.  
For Prosecuting Attorney—V. L. Ellison and Jas. C. Wood.

Our street, between Cedar and Maple Sts. presents a greatly improved appearance, since it was covered with crushed slag, well sustained and rolled. Oak street east of Maple street is undergoing the same treatment.

## "In Louisiana."

That ever popular and beautiful drama, "In Louisiana," will be presented at the opera house tomorrow evening. The play is exceptionally well cast, highly moral in tone and free from vulgar insinuations that threaten the morals of both stage and audience. The specialty numbers were without exception first-class and brought forth repeated accolades.

## Singles for Sale.

## M. C. Clark of the Grinnell Bros., Detroit, was in the city first of the week and left for the copper country Tuesday.

## SOMETHING DOING

Survey Is Now Being Made. Plans and Estimates to Show Cost of Complete System.

No Definite Estimate of Cost Has Been Furnished for Complete System. We mentioned last week that it was expected that a contract would be entered into with A. L. Richway, civil engineer of St. Louis, Ill., and George W. Sturtevant of Chicago, an expert hydraulic engineer, by the board of public works and the agreement was consummated Saturday last.

The contract requires a complete survey of the city, plans, specifications and estimated cost, of a system of water supply and sewers, with recommendations as to the source of supply of water, of which there are three sources under contemplation, viz: Lake Michigan, Indian Lake, and artesian wells. The latter will be entirely feasible will probably not be recommended on account being so strongly impregnated with lime and therefore not healthful. It is thought that if water were taken from Indian Lake, that a filtering plant would be necessary. Lake Michigan water is known to be all right if taken from sources not contaminated by sewage. Samples of the water from Indian Lake and city wells have been sent to Ann Arbor for analysis. It is believed that, while first cost will be greater, that pressure derived from a stand pipe will, in the end, prove more economical than direct pressure from the pumps, because of less consumption of fuel.

The plans recommended will serve the interests of the business and more populous parts of the city, but that may be extended as shall be deemed expedient. Mr. Richway is at present engaged in making the survey, preparatory to making maps and plans.

Six hundred dollars is the price agreed upon for this work and the best feels that the agreement with these parties is greatly to the advantage of the city, as these gentlemen stand high in their profession. Other parties with whom the board had been in correspondence asked \$1000 for the same work. No definite estimate of cost has been furnished, but the "man-of-straw" within "the tin" and neighborhood of \$75,000.00.

See our display of men's belt overcoats. H. WINCKELMAN.

## Artists' Concert a Success.

The Burdick concert given by Mr. George A. Burdick last Friday evening at the First Baptist church was pronounced by all present as the best musical treat of the season. Mr. Burdick's rich and perfectly trained voice always charms his hearers and his vocal performance was enthusiastically applauded.

The instrumental part of the program was a surprise to Mr. Burdick's friends. His rendition of the masterpiece from Chopin, Schumann, MacDowell and Wagner was most charming and was enthusiastically applauded.

## Play Again Become Residents of Schoolcraft County.

Arthur Beebe now residing at Rochester, Mich., but for many years a resident of this county, on a visit to his home at Whitford, was in the city on Wednesday. Mr. Beebe removed to Rochester some three years ago on account of Mrs. Beebe's poor health, but both have concluded that they prefer northern Michigan and have about decided to return to the farm at Whitford in the near future.

### EDITORIAL COMMENT.

Reciprocity can not be grafted on a free trade stalk.

It is not difficult to predict who will be Judge Steere's successor.

It looks as though the Washington team had a cinch on the booby prize, in spite of the efforts of the Detroit tigers to capture it.

David Bennett Hill, has announced his retirement from politics at the end of the present campaign. Dave must have had a spasm of senec.

Certainly not! The St. Ignace Enterprise would never make a hollow over such a small matter as losing their prospective hold on that graft.

The New York Herald declares that "New York Democrats must wake up." Their chances of success would be improved if some of them would shut up.

The Sun Times says: "Judging by reports Mr. Ferris is already as good as elected governor." Brother Hecks must confine his reading to the Scripps knockers.

Democratic papers insist that President Roosevelt's vulnerability in the Republican record of the last eight years.

One of the great surprises of the war between Japan and Russia, is the fact that the Japs have been able to prevent the war correspondents from telling all they knew, and a good deal more.

Thomas E. Watson says: I have no words of abuse for Theodore Roosevelt. I believe him to be a brave, honest, conscientious man. I give him full credit for having a splendid courage of conviction.

A famous French chef, visiting in New York, says he cannot understand why the American people do not eat more soup. "He ought to be told that they had an overdose of it when the Democrats were in power."

Lets see! Vermont was one of the states that might possibly go for Parker. Something wrong with that prediction sure, if the largest Republican majority except one, in the past 30 years is any criterion. 32,000 is not so bad.

According to the News the only contest in sight at the coming Luce county convention is over the office of sheriff. Maybe Della county could furnish the Luce county people some dark horses. They seem to have an over supply of candidates.

The editors of the Scrip papers, "Republican Nil" are throwing all kinds of fits over lack of publicity of the Hon. Fred M. Warner for the office of governor, which only seems to show that they should not mix their drinks. They had better be cautious or they will cause Warner's vote to be unanimous.

If Fred M. Warner's acts were open to attack, you may be sure the democratic press of Detroit, would be after him. Their only cry is that he does not define the meaning of "primary reform" in the same manner that they do. The republican state platform takes advanced ground on primary elections. Corruption comes in the primaries—snap caucuses so-called—in the cities. The county is not suffering from corruption. The state platform advocates the holding of all caucuses on the same day between certain hours. This is where primary reform should begin, at the foundation, and be extended as experience dictates—Clinton Republican.

The letter of acceptance of President Roosevelt has been given to the public. It is quite lengthy and goes into detail as to the policy of the Republican party in the past, and what its policy will be in the future if entrusted with the powers of government. It also reviews at length the acts of the present Administration, showing what has been done and why, and sets these as a guarantee, that if continued in control, such control will be exercised at all times, within the provisions of the constitution, and in accordance with existing law, and without fear or favor. The Democratic party is asked categorically, to define what they mean by the terms of their platform, and what they will do if given the opportunity, but we venture the prediction that they will not meet the issues as set forth.

### EDITORIAL COMMENT.

Democratic appeals for the labor vote are based on the hope that the American workman has forgotten what happened in 1893.

Their cry is for an independent party, and a platform that will give the workman a voice in government. Their program is to elect a president who will give the workman a voice in government.

The Gasoline Boat Owned by Paulsen Bros, was Damaged and Sunk.  
Wednesday afternoon a collision occurred, by which the small gasoline boat owned by Paulsen Bros, was damaged and sunk near the west pier at the mouth of the river, by the tug Gifford. The Gifford had just towed the carryer Manistique over the river and was returning to her dock at moderate speed and the Paulsen boat had started on the return trip to South Manistique. The captain of the tug until it had passed the light kept him from the view of the carryer Manistique and it was not until the signal to back hard, but was unable to prevent striking the other boat which was out to the water line and soon sank. The crew were taken on board the tug; no one being injured.  
Yesterday the boat was towed into the river alongside the burge Delta, and a canvas jacket placed over the hole, which she was pumped out, raised and placed in the slip, where a few days will suffice to put her in working order.

**PLANS ACCEPTED**

The Plans Will Require an Outlay of Nearly Four Thousand Dollars.

The Board of Trustees of the First Baptist Church at its meeting last Thursday evening, presented the detailed plans for the improvement of the church building. The plans provide for the enlarging of the present edifice so as to include a lecture room 84x29 ft., which will be provided with roller partitions opening into the main audience room, and also cross roller partitions which will divide it into three smaller rooms for Bible School work when desired. The lecture room will serve as reception room for social occasions.

The plans also involve the extension of the present edifice 24 ft. to the rear. The first floor at the rear will be used

for a dining room when desired and willing it into two rooms for Bible School work. The second floor of the rear extension will be dedicated to the interests of young men. There will be some changes in the present audience room such as providing an alcove for the organ and the enlargement of the platform. At the rear of the remodelled church building will be erected a kitchen and storeroom 16x24 ft. This room will open into the dining room and the dining room will be connected with the reception room by a large hall, making a model building for modern church work.

There will be such changes in outside construction as to make the church a credit to the town and in suitable keeping with its prominent location.

The plans were unanimously adopted by the church and the trustees directed to carry out the plans as soon as possible. The plans will require an outlay of from seven to four thousand dollars, but the people are united and in earnest, and with reasonable assistance from the citizens of the city the church will be able to carry out their plans for the improvement of the property and the increased usefulness in the community.

**A Long Voyage.**

The sailing yacht Daisy of Memphis, Tenn., arrived in port Monday afternoon in command of Captain Gallowsay of that city. The Captain has made a study of yacht building, and having built and owned several, thinks he now has just what he wants, and the certainty has a finely appointed vessel. It is equipped with a forty horse power gasoline engine, commodious cabin and two state rooms, galley etc. and carries a crew of four.

The guests of Capt. Gallowsay on the trip are Mr. and Mrs. W. H. Bates and Mrs. Dale of Memphis. Mr. Bates is an old newspaper man, formerly of Missouri, who has published a Douglas paper in 1860 before he was at age, but is now engaged in the job printing business. He is also vice president of the Memphis Scimitar Club.

The visit was made from New York City thence by sea to the north of the St. Lawrence, then by lake and river and occupied 22 days on this port. The return to Memphis will be made via Fox River, Lake Winnebago, and Wisconsin river to the Mississippi.

Judge Steere was accompanied by ex-Representative Chandler, of the Sea, and said: "The talk about Steere being a machine man was untrue. He is not the kind of man the machine can handle, but the fact that the seventh district, which is usually controlled by the machine, was for us, helped to create the impression that we were in a machine combine. The truth of the matter was that 'Link' Avery and Commissioner Moore were for us, because they were friendly to one of Judge Steere's best personal friends. However, we are satisfied, and the ticket nominated is a good one." Detroit Free Press.
