STEERE NOMINATED

By acclamation at the judicial convention held at the Soc. This Week.

FOR FIFTH TERM OF SIX YEARS

He will have no opposition at the polls.

The convention for nominating a successor to Judge Steere, judge of the Eleventh Judicial circuit, was held at the Soc last Monday, and unanimously nominated Mr. Steere to succeed himself. By so doing they mirrored the wishes of every voter in the district, and his election will be equally unanimous. We glean the following from the "Soc News" concerning the convention:

The republican judicial convention for the eleventh district of Michigan called for the purpose of re-nominating Joseph H. Steere at the party candidate for the purpose of re-nominating Joseph H. Steere as the party candidate for the position of judge of the circuit court was convened at the city hall shortly after 2 o'clock this afternoon.

District Chairman William M. Snell of this city called the gathering to order and C. W. Dutton of Manistique, was chosen permanent chairman. Edward S. Vincent of Manistique was chosen secretary of the convention.

All of the usual formalities, such as the appointment of committees on resolutions and on credentials and the call for the nomination of candidates were observed.

The only nomination speech was made by Meritt Wiley of the Soc, who concluded an eloquent address by placing the name of Judge Joseph H. Steere in nomination.

In calling the convention to order Judge Snell welcomed the delegates to the Soc. The eleventh judicial district he characterized as the Gibraltar of Michigan republicanism. His speech was a felicitous one and besprinkled with some of Judge Snell's peculiar witticisms, served to put the delegates in an exceedingly good humor.

Without any extended remarks C. W. Dutton of Manistique, took charge and the convention proceeded at once to business.

Upon the motion of William Chandler of the Soc, a committee on credentials and another on resolutions, order of business and permanent organization were appointed by the chair. These committees were as follows:

Credentials—C. H. Shaffer of Alger county, Perry Leighton of Luau, John

Chaffin of Chippewa and Fred Orr of Schoolcraft. Resolutions—C. H. Shaffer of Alger county, D. H. Deane of Alger county, F. M. W. of Alger county and Fred Orr of Schoolcraft. Permanent organization—C. H. Shaffer of Alger county, D. H. Deane of Alger county, F. M. W. of Alger county and Fred Orr of Schoolcraft.

The committee on credentials was the first to report and it was in respect to the nomination of Judge Steere.

The committee on permanent organization recommended that the temporary organization be made permanent.

Following these reports nominations were called for and Meritt Wiley of the Soc, was recognized on behalf of the

Judge Joseph H. Steere.

Chippewa county delegation. Mr. Wiley responded to cries of "Platform" "Platform" and took his stand on the rostrum facing the audience. He reviewed Judge Steere's up on the bench of the eleventh district. He commended the action of the four counties comprising the district in keeping the right man upon the circuit court bench.

"No man in this district," he declared, "is loved so much as Judge Steere. But I am not here to eulogize Judge Steere. Nothing that I might say could add to his laurels. As delegates to this convention, we do not come here to pay tribute to Judge Steere. We came here to nominate him to the position of judge of the circuit court. I nominate Judge Joseph H. Steere because he is the best man in the whole district for the place and because we need his services in the place he has filled so well for nearly a quarter of a century."

Other nominations were called for but none were forth coming. Judge William M. Snell moved that the secretary call the ballot of the entire county, Perry Leighton of Luau, John

It was moved at once that a committee be named to audit Judge Steere's accounts for 1904. The committee consisted of Messrs. C. H. Shaffer and Frank Perry, of Alger county, and F. H. Ford, of Schoolcraft. The committee reported that the accounts were correct and that Judge Steere was a most efficient and capable official.

When the committee reported that Judge Steere was a most efficient and capable official, the assembly expressed its gratitude to him and that this was the first judicial convention he had ever attended either as a spectator, delegate or candidate.

Had a Miraculous Escape From Death Was Brought to City for Treatment.

The tree, which was in full and while he was endeavoring to reach a place of safety it struck him squarely.

Deserves Commendation.

A Manistique physician while attending a patient in a neighboring city, was informed that the little daughter of an extremely poor family was suffering from an injury to one of her eyes. He called, made an examination and his knowledge convinced him that the little one was in grave danger of losing her eye sight. He brought her to this city and has been unremitting in his efforts to shield her from the loss of those precious organs. He is doing this without hope of gain or compensation. Men actuated with such high motives are certainly deserving of commendation.

This is an instance of the exemplification of the Golden Rule. What a joyous and happy world this would be if all were actuated to do their duty toward their fellow-men.

Messrs. McDonald and Choquet of Garden, were in the city yesterday and made this office a pleasant call.

Robbed of Winter's Wages.

John Gambletz was "robbed" for about \$100 in cash and checks last week. The officers left the matter quiet thinking that the checks might be presented at the banks for payment. The amount represents the earnings for the past winter of Gambletz and his son. He was intoxicated and does not know where or when the snag was lifted.

Capt. C. B. Hart, managing owner of the Hart Line, denies the truth of the report that they have sold out to Maloney & Ronlette, although he admits that negotiations to that end are pending. The nucleus of the line was laid upward of forty years ago, when H. W. Hart and his brother Clifford B. were beyond County, and the first investment consisted of a millboat, probably worth \$80. This was followed soon after by the purchase of the little side-wheeler tug, Miner, employed in towing rafts down river and across lakes with men and cargo up stream. This was in 1864.—Sturgeon Bay Advocate.

WOULD YOU DO IT?

Would you go to any store in Manitowish and pay 30 cents for an article you could buy at another store for 10 cents? We think not; still some people buy express and postal money orders and pay 30 cents for a hundred-dollar order when they could buy a bank draft for 10 cents. Remitting by bank draft is the safest and cheapest way of sending money and the only reason why some people do not always use bank drafts in preference to express or postal money orders is because they are not posted on rates of exchange and methods of remitting.

EDITORIAL COMMENT.

Why not allow the voters of Manistique to decide whether the light company should be given the right of franchise it desires. An expression from the voters would settle the matter for fifteen years at the Fourth ward is up against the problem of two worthy and well qualified candidates for city treasurer in Messrs. R. H. Temple and Austin Fydel. Both have numerous friends and the outcome of their respective candidacies in the ward census gives much room for speculation.

The Pioneer-Tribune may or may not be a mauler of thought as the Courier state, but it is refreshing to know that nearly fifty of the largest patrons of the light company have signed a petition which embodies the essence of the fight against an unlimited franchise idea as being waged by this paper.

The unanimous nomination accorded Judge Steere at the Soo Monday certainly pleased every citizen of the judicial district irrespective of politics. It certainly is a fine compliment to Judge Steere's popularity and ability that in a district that has as many able jurists as may be found in this circuit, so effort has ever been made to supplant him during the many years he has served as Judge.

At Manistique the press is very much concerned over a prospective lighting franchise, and it may play an important part in the spring campaign. The private company wants a franchise, but apparently wants it at good rates or not at all. Manistique is a prosperous and growing town. It should survey the situation carefully. High light and high water are a handicap for any community. Manistique's only interest should be to drive the best bargain possible, with whomsoever possible. The "good show" consideration cannot be too soon eradicated from village and municipal business.—Marquette Mining Journal.

In chasing about for an "issue" for the spring campaign, the papers representing the light company have very carefully overlooked the real issue. Assuming that the people are irrevocably opposed to granting the franchise asked for, without a law mandating it being made a feature, that idea has been temporarily hidden from sight, and horses have been swapped in mid stream. The fact remains that some of the candidates for aldermen supported by the Record and its new convert are pledged to grant a franchise to the liking of the light company and if they are elected the franchise will be granted, notwithstanding "it is not the issue." If these men are elected, Civic party and the franchise matter are the real issues and will engage citizens should not lose sight of this fact.

The upper peninsula press is practically a unit in its support of the experiment station at Chatham and in urging the legislature to make a liberal appropriation. This is a matter in which every taxpayer and resident of the peninsula should be interested. This is practically an undeveloped country, and the agricultural possibilities, must be developed if the peninsula is to attract settlers. The experiment station under Supt. Geismar's able management has been a power in proving to the world that the soil of the upper peninsula is capable of raising wonderful crops, and is not speaking well for the great state of Michigan when it compels a man of the ability of Mr. Geismar to work out his own salvation in a virgin forest with a dull axe, a sickle and other primitive implements to prove the agricultural possibilities of the peninsula. Geismar is a bundle of enthusiasm and has done more to develop the country during the entire history of the peninsula. Under the discouragements and lack of funds which have handicapped him during the past ten years, he has not complained, but his treatment by the state has been a disgrace to the fair name of Michigan.

Write your senator and representative to support any measure that will give the Chatham station the appropriation it so sorely needs.

EDITORIAL COMMENT.

Wm. S. Ramsey and S. August Erikson are named as possible candidates for the superintendency in the Fourth ward.

Congressman Young voted against the mileage bill that was recently passed by Congress. He made no mistake.

FORE TO DO WITH HANDWORK.
We believe that half of every school day should be devoted to manual training and out-of-door study. There should be a special effort to give every child and the children should be taught to plant and cultivate their own vegetables and fruits.

The man who has been keeping close tabs on local affairs knows that there are but two issues in Manistique's municipal campaign viz: Shall Manistique continue to be a wide open town, and shall the Light Company be granted a franchise without the fixing of a reasonable maximum rate.

THE REAL ISSUES.
The people that have been keeping close tabs on local affairs know that there are but two issues in Manistique's municipal campaign viz: Shall Manistique continue to be a wide open town, and shall the Light Company be granted a franchise without the fixing of a reasonable maximum rate.

That Manistique has been a wide open town during the past year is not denied by any one. Several gambling joints have been in constant operation judging from the fact that several gamblers are prominently located here and appear to be in a prosperous condition. The slot machines have been in operation uninterruptedly during the past year notwithstanding the fact that the city and state laws expressly prohibit their use.

There is a growing sentiment in the city that there should be a greater effort made by the city officials to correct the disregard for law and order so prevalent here. If the ordinance relative to allowing cattle to run at large is rigidly enforced, and the poor owner of cattle violating its provisions is not deterred for said violation why should not the laws relating to gambling and slot machines be enforced with equal equity. The man that becomes intoxicated violates a law, is arrested and punished; why not arrest and punish the man that violates the law in allowing the victim the intoxicants after hours or on holidays.

The better class of saloon keepers would not doubt be more than pleased if some of the reforms were enacted but as long as one is allowed to openly violate the law, the others must, in self defence, from a business standpoint, continue to be violators.

The unwarranted and vicious attack upon Rev. Torbet by the slot appointed organ of the liquor dealers, has been a boomerang, and while it has brought down upon the licensee making the attack well merited censure and contempt from all sides, it has had the effect of solidifying the adherents of the reform movement to such an extent that the result may be the political overthrow of the man responsible for the blackguardism and intentional misrepresentation by that newspaper.

Whether or not a reform idea will be successful this spring it deserves the support of every man that believes in a fair and impartial administration of city affairs. Reformers actuated by a spirit of personal ambition do not deserve support and are as bad as the other extreme. The men at the head of this movement are not actuated by a spirit of revenge; they are above such motives.

No matter whom shall be selected to represent this element, as a candidate for mayor, he should have the united support of every citizen that has the best interests of the city at heart. A man with sufficient backbone to distinguish himself from an angle worm should be elected as mayor. What if more in municipal affairs is less "political" and more regard for the sacredness of the official oath of office.

The efforts of the Light Company to secure a franchise and the kind of franchise it wants, is as well known that it is hardly necessary to touch upon it here. Although the company through the newspaper has its manager financing denies, that this is the issue the personnel of at least two of its candidates for aldermen disprove the assertion.

The Light Company is entitled to a franchise if the interests of the people are protected in same, but the tactics thus far prove that the company is actuated more by "the people be damned" policy than anything else. Its tools in the council have never submitted any proposition other than a long term franchise requiring with it the exorbitant charges now in vogue, and it will continue to do so in any conceivable adaptation of its effort to control the city council.

The business men are practically united against the idea of a long term franchise without a low maximum rate, and have signed a petition to that effect. The petition in question will be submitted to the council at the proper time. A ten year franchise at present prices means that during that time the city and patrons of the Light Company will pay the Company from \$150,000 to \$200,000 for services. This amount would easily overbalance the amount estimated for furnishing the city with water works and sewerage systems. Everyone is in favor of the latter utilities, and the effort to make "the issue" for the purpose of blinding the voters as to the real issues, is very amusing but will not accomplish the ends desired by its inventors.

If you believe that laws should be enforced, and if you believe that Manistique is the best business town should not be allowed to the hands of a corporation with the power to charge what its conscience dictates for a public utility, then vote for men that represent your convictions.

MUST BE CAREFUL

People Who Open Mail Matters Not Themselves Will Be Punished.

The postoffice authorities have decided to teach careless people who open the mail of others a lesson by making them liable to heavy fines. Hereafter anyone who opens another's letters or even newspapers is liable to a fine of \$300. Postmasters frequently make mistakes in placing the wrong mail in a box and it is very probable that patrons of the postoffice often rip open letters and papers and do not discover that they have been wrongly placed in their boxes until after the envelopes or wrappers have been broken. On the other hand, many people will break open a package or letter when they are aware that it has been mislaid. The authorities are after the latter class. A special effort will be made in all postoffices to catch those who wrongfully open another's mail, and hereafter when a man does tear open another man's mail he must state "Why he opened the mail, whether by accident or design, and sign his name on the letter package. The postoffice authorities will make the penalty apply to newspapers as well as to letters.—Mining Journal.

Good Health to the Children

Children are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

came a badge of honor to be known as Toltec. These people emigrated as far north as the Ohio valley and the shores of Lake Superior where they left traces of their journeying by erecting mounds, and leaving tempered copper tools in the copper mines developed elsewhere afterward.

The Aztecs adopted their form of government and the mysterious traditions of their God, who dwelt among them for twenty years and upon his departure said that in future ages white men like himself would come from the East to rule over them. Many cities were named for this God, and the first temple in the land built on a truncated pyramid near one of the principal cities was dedicated to him and to whom the inhabitants made pilgrimages very like the Mohammedans of that time.

Mrs. Babcock described minutely the tracks of this ancient people through the hands of their tribes, their methods of irrigating the soil, construction of

aqueducts, form of government, methods of capital punishments, form of architecture, religious rites, sacrifices, social life, literature, art, units of measure, and currency.

Although the glory of this ancient and interesting people has faded, yet to this day there are 5,000,000 Aztecs residing in Mexico and Central America speaking the same language and clinging to many of the customs that distinguished their ancestors.
