### WANT A SHOW FOR THEIR MONEY.

The labored and disjointed editorial appearing ast week's Record proved but one thing viz: that fight against the PIONEER TRIBUNE and its editor, ne light against the FIGNER I HIBUNEAR I Seditor, is still on and that the men that are putting up, and have been putting up the money to wage the warfare luring the past two years, are becoming a little rest-tess owing to the innaction of their tool who succeeded the late Will G. Evans. There is perhaps not a citizen in Schoolcraft county but that knows the names of the fight, why it is being waged, and its interest as fellowers. access or failure.

The joibles, merits and weaknesses of all the The foibles, merits and weaknesses of all the parties concerned are known, and it has been proven that persistent persecution has but little influence in shaping sentiment, for at no time in its history has the PloyNEK-TRIMUNE had as many subscribers as it has at the present time, or has its advertising patronge ever been greater.

The writer of the lengthy editorial above referr and new reter of the tengthy cuttorial above reterra-tion is evidently a novice but he did not lose sight of the main chance. By his yituperation he proved that tending bar after hours is not conducive to journalism of a high order.

The action of the recent county convention in electing delegates to the congressional, senatorial and legislative, conventions is ostensibly the cause

For two weeks prior to the primary election that elected delegates to the county convention, several of the members of the faction that met defeat, were frank in telling that they intended to elect delegates to all conventions and that the "opposition would probably kick like h-l but that they would do it any-way." With that object in view Mackins and Blaney While there are other candidates equally able, it looks as though William C. McMillan would be the successor of Senator Alger. His father possess da andmirable machine and from appearances the machine is behind the son, and it is in perfect working order too.

They're making a good grace of turpentine from stumps nowadays. It is appalling to think of the political late of one of Schoolcraft county's townships if the stumps were removed. They're all named; they vote too, and they're against primary reform with a vengeance.

The upper peninsula editors—those that can afford the time and money, wil participate in the nannal junket of the press association, that is been arranged by Secretary Pat O'Brien. It is the plan of Mr. O'Brien and the other officers to visit the Messaba range. This will certainly be a pleasant and profitable trip.

The formal choice of senators by state legislatures can be made a more registry of the people's -will as expressed in popular elections, just as the choice of president by the electoral college has been made a quattien registration of the result of a popular elec-tion.

When it was doubtful if the legislature would be Republican the Democratic candidate for senator declared that he would not acdidate for senator declared that he would not ac-cept election from it after rejection by the people. Some of the southern states seem to choose senators by popular vote, but we do not remember any sys-tem so completely organized and effective as that of Oregon—Minneapolis Tribune.

Many states are experimenting in this direction. It is a very common thing for state conventions to induce candidates for senator, though state legislatures ap fittle attention to the indorsement.
