WORDS OF PRAISE

Continued from page 8

Every work, and was the author of an elementary psychology, a primer and manual of pedagogy, a history of the State Normal school, and a history of an educational history of the State of Michigan, which he has done much to improve. He also was a generally of Michigan, and worked with reference to the state of the State an ethnograph of the quarter century a service as captain of the Kalamazoo in the academy.

Dr. Putnam was a power in the Big Six denomination in Michigan. He was the strong man of the Ypsilanti church, and in the state convention was a tower of strength, having been for years its treasurer, for one term its president, and acting for many years as trustee of Kalamazoo college, a position he held till his death. He was a deeply religious man, and his life exemplified the teachings of the Master in full measure.

He was a public spirited man, patriotic and courageous in public affairs. He was an early abolitionist, but was not of his life a staunch republican in politics. He was a most effective campaign speaker, his keen wit and clear logic swayed an audience as he will tell. He rarely made charges, although he was one of the leaders in the great temperance struggle in this city with excellent results. He was a member of the patriotic order of the Sons of the Revolution.

Dr. Putnam possessed remarkable facility as a public speaker. For example of phrases, his simple beauty of statement, his clear and logical reasoning on any occasion was convincing truth. No one else could so admirably to those in trouble, and his memorial addresses remain as classics in form and eloquence of content to those who heard them. On joyous occasions none else could so fitly express the general feeling. His tender sympathy never failed. None who heard his words at the funeral of his son, or who saw him at the funeral of his wife, ever forgot them. Though not an ordained minister, he was in constant demand as a preacher in all denominations. His sermons were well heard and he served humbly the Master of all.

Dr. Putnam had rare executive ability, a genius for making things move smoothly and surely, as was shown in the years when he was acting principal of the Normal school. He was a man of great power, modest and gentle as he habitually was through his superb self control. But when that in him was roused, he swept all before him. His cheerful serenity was the result of his abiding faith in the eternal goodness, his contempt of the outward shining of a beautiful spirit, his belief in the outcome of his blameless life. The keynote of his character was simplicity and sincerity. He was the truest and tenderest of friends, the most generous, a Christian grandeur.

To his family, the wife towards whom for fifty-four years his devotion was so beautiful, and the children—Arthur Putnam of Muskegon, Mrs. A. K. Kinnah of Cadillac, William S. Putnam and Misses Mary and Ruth Putnam of this city—he leaves a priceless heritage.

The funeral at the home Thursday was simple. The house and lawn were filled with friends, among them President Alcott and Prof. Beaman of the university, President Shreve of the Kalamazoo college, Dr. Hitchcock of the Kalamazoo asylum and the Normal faculty. In the open casket, with its roses and lilies, and by the faculties of the Normal and Kalamazoo colleges, Dr. A. K. Kinnah and close friends in his well-loved study.

"Dead he lay among his looks,
The peace of God was in his looks."

Owing to illness Rev. A. J. Gehring was not present. Rev. William Garfield read the scripture lesson and the prayer, "O God, our help in ages past."

Perils of Fishing On Grand Banks

MEMBERS on the transatlantic liners, who carry as many persons as in a post office boat and who have the most complete outfit of life-saving apparatus, have had little idea what the perils of these waters are to the ships. But up about the fishing banks they know, and they have found out the hard way that the fish are more lives every year than the dredged fish. The steamers can't help work the life ships. The fishermen do not know that the fish are so dangerous. They think that no law of nature or man forces the fish to come to the surface, and they are not aware of the fact that the fish are so dangerous to the ships.

THE NATIONAL CIGAR STANDS

Not Only Lower Prices But Improved Quality Also

If the straight-line methods of the National Cigar Stands did not show the triumph of the idea would be plain enough. But the plan has effected more than mere price-saving. It has given better average quality throughout, a better system of giving keeping, an invariable uniformity of character—in short, a higher degree of safety to the customer.

The purchaser of a cigar of any one of the thirty exclusive National brands takes no chances whatever. He is definitely assured that he is getting

The Best Cigar Value the Money Has Ever Secured

Whatever the price he pays, it purchases better a flavor and more of it than the same price has ever brought before. NO APOLOGY TO JAPAN

STATE DEPARTMENT SUSTAINS KILLING OF SEAL POACHERS OFF ALASKAN COAST.

OFFICIAL DISPATCH SENT TO TOKYO

NEWS OF "REGRETTABLE INCIDENT" CABLED TO AMERICAN CAN AMBASSADOR.

Washington, Aug. 9.—Acting Secretary of State Bacon has sent to Ambassador Wright, at Tokyo, the substance of the dispatch received by the department of commerce and labor from Solicitor Slinn, at Sitka, Alaska, regarding the killing of five Japanese fishermen on St. Paul Island. In sending the dispatch the acting secretary stated that it is forwarded for the purpose of giving information such as this government has of a regrettable incident, news of which may reach Japan in distorted form. There is no intention of offering an apology or any further regret than is contained in this dispatch, as the state department regards the Japanese fishermen as poachers if they were within the three-mile limit and the dispatch from Mr. Slinn emphasizes this fact.

Sails are recognized as property by international law and the Japanese killed by American officials on St. Paul Island stand in the same position as burglars shot in the act of stealing, according to prominent authorities on international law. No international incident can result from the shooting of the Japanese poachers. It is said at the state department that there are no Japanese who have courted more than those that courtesy may prompt and a mere expression of regret that such an incident should take place is all that is looked for.

The Japanese charge, Mr. Miyake, called at the state department for information about the killing of the fishermen. He had received no advice from his government concerning the affair and Acting Secretary Bacon gave him the same information which was sent to Ambassador Wright.

After discussing the matter with Mr. Bacon Mr. Miyake agreed that it was not a case to cause an international incident and that it was settled between citizens of one country on the soil of another.

FIVE JAP POACHERS KILLED.

Were Members of Party Raiding American Seal Roekeries.

New York, Aug. 9.—Further details of the killing of five Japanese poachers in the Privity Islands is con-

cluded in a special to the Herald dated Dutch Harbor, Alaska, which says: Five Japanese were shot and killed on the coast of St. Paul, of the Privity Islands, by order of the agent of the department of commerce and labor on July 17, as the result of a raid by four Japanese schooners on the seal roekeries.

The raiders were discovered by the agent of the department of commerce and labor on July 17, as the result of a raid by four Japanese schooners on the seal roekeries. The raiders were discovered by the agent of the department of commerce and labor on July 17, as the result of a raid by four Japanese schooners on the seal roekeries.

On enlarging the promontory at the end of the cove overlooking one of the larger roekeries a schooner was seen alone in shore. Looking straight down from the boat the patrol saw a dozen or more Japanese schooners of great number of seal, which had been slaughtered indiscriminately.

The schooner was ordered to stop and to make of with their booty and draw up on shore. The agent then ordered his guard of natives to open fire. The Japanese offered no resistance, being without powder or light.

Three of the raiders fell on the beach, a fourth was seen to be thrown overboard from one of the boats that ceased and a fifth body drifted ashore later in another boat.

Maud Conne Secures Judicial Separation From Major Macbride.

Pittsburg, Ga., Aug. 9.—The civil tribunal of the South has confirmed its decree dissolving the marriage of Maud Conne (known as the "Irish Joan") and Major Macbride, but the tribunal refused to grant her a divorce on the ground of her Irish nationality. Mrs. Macbride was awarded the custody of her child, the major's age being four months, when the bill was overruled. Major Macbride served in the Irish brigade of the Boer army during the South African war.

HIGHLY CRIMINAL ACTS

PRESIDENT OF DEFUNCT CINCINNATI BANK RESPONSIBLE FOR THE DISASTER.

NO PROOF AGAINST MISSING CASHIER

FRAUDS ALREADY UNEARTHED AMOUNT TO MORE THAN A MILLION DOLLARS.

Chicago, Aug. 9.—Conclusive evidence has been furnished by State Bank Examiner Jones that Paul O. Stensland, the fugitive president of the Milwaukee Avenue State bank, has been guilty of highly criminal acts in conducting the business of the institution of which he is the head. This was officially announced by Mr. Jones at the same time capability for the far-reaching disaster on the Northwest Side is narrowing; more and more to President Stensland. Henry W. Herzig, the missing cashier, who was declared to be an embezzler of large sums of money, is being in a measure exonerated because of the lack of direct proof against him.

"When I received the warrant for Mr. Stensland," said Mr. Jones, "I was perfectly assured of the criminal nature of the act/which the banker had been guilty of. Against Mr. Herzig I have no direct evidence. I cannot say as yet precisely how far the frauds perpetrated by Stensland have been carried, but it is to a great extent that is certain by papers already brought up by Stensland.

Mr. Jones confirmed statements that the frauds amount to over \$1,000,000.

FOR A PERIOD OF YEARS.

Stensland Said to Have Systematically Plundered His Bank.

Chicago, Aug. 9.—The Tribune says that of affairs more startling and shocking than had been stated previously in connection with the collapse of the Milwaukee Avenue State bank was revealed by Stensland's own plain that through barefaced forgery President Paul O. Stensland had plundered his own bank systematically through a period of years.

The question arose whether Cashier Henry W. Herzig pointed to any large extent by this plundering. His answer he did not, although acknowledging that he may have had knowledge of what Stensland was doing. He said at any rate there has been discovered in President Stensland's own ready deposit box a series of memoranda detailing how the bank was looted.

LUNATICS TRY TO DIE QUEER CRIMINAL DEED Notice of Special Election.

They Are Not as Ingeniously Perilous, However, as Usual In Such Cases.

WOULD BE FUNNY IF NOT SO SAD

Long Litigation over Making Good of \$5,000 Shortage - Heat Rocker Promoted.

Blaze is Soon Extinguished - Says He Had Burned the Barn Previously - Rolled Into the Water While Awaiting Items.

Had Her Plans From Spirits - Bewitched is aged 38 and his wife 45. With their six children they live in Marion township. Mrs. Bewitched said that on one time she was a Mormon girl in Utah and that she ran away. Recently she declared she was informed by supernatural agencies that the Mormon church would soon revenge and that she and her husband would be killed and their children kidnapped and taken back to Utah.

Plaza Tried to Brown Them - His wife's persistent "convulsion" with Mormon spirit finally convinced Bewitched, who had always been regarded as somewhat mentally, that she was right in her fears, and they decided to best the Mormon "slayers". They walked to the local river and lay down in the middle of the stream, but the water was too shallow and they decided to try hanging. The struggling, dripping and mud-stained pair dragged themselves out of the river and Bewitched clambered up the tree to arrange the halloo.

Whore-holders in Luck - With a shielded piece of his own in the form of a rope tied to his neck and to a limb Bewitched hesitated to jump or die directly because his wife could not climb up and join him, while she sat at the bottom of the tree making weird gestures at the onlookers. To ward off the Mormons who were supposed to be seeking their lives. In this condition the pair found in the morning by neighbors, whose efforts even then to induction to get to their home on a forty-acre farm nearby were unavailing.

Doctor Says They're Lunatics. Finally Dr. Bennett, of Grand Center, was sent for, and being convinced that the couple is insane he brought both to Saginaw, where they were placed in the county jail. Medical authorities believe a few months' seclusion of the two will restore Bewitched to his senses, but there is little hope for the woman's case.

TOOK TEN YEARS TO SETTLE - One of Shortages in Which the Amount Was Only \$5,000 - Hindrance - Alpena, Mich., Aug. 7. - After being in court about ten years, the case of a Montgomery county against Edward J. Putnam, former treasurer, has come out of court. Putnam was alleged to be short \$5,000 and his bondsmen were held for that amount. They fought the case bitterly, claiming the shortage was caused by poor bookkeeping. The case was tried five times in the circuit court and was carried to the supreme court each time, costing several thousand dollars. By the settlement the county gets \$3,000, which side pays over costs and Putnam turns over his property to his bondsmen to cover the loss. The bondsmen are all prominent residents of Monticome county. One, Swan Petersen, died since the case was started.

Mont Father Hooked the Boat. Mount Clemens, Mich., Aug. 7. - John Williams, a ferry whorser, aged 29 years, and his son Albert, aged 8, were drowned while rowing in the Clinton river in a small boat. The boy rescued the boat to frighten the little fellow, and accidentally capsized it, throwing himself and his son into twelve feet of water. Mrs. Williams sat on the bank of the river and saw the accident.

Money to Defend Strike Workers. Calumet, Mich., Aug. 7. - A total of \$10,000 has been raised by Finlanders in Ontonagon county for the defense of the men arrested at Rockland for connection with the Michigan mine strike riot. The Finnish people of that section are greatly interested, and complain of the exceedingly poor arrangement for quartering the men in Rockland town hall which is used as a jail.

Drowned While Picking Limes. Saginaw, Mich., Aug. 7. - Timothy Sullivan, of Detroit, and Robert Williams, 12 years old, son of Mr. and Mrs. William H. Walker, of Swan Creek, were drowned. They had gone fishing in a duck boat and it is believed they fell into the water while reaching for pond limes.

Boy Swallows Paris Green. Traverse City, Mich., Aug. 7. - The 13-year-old adopted son of Clayton Parker, of Bates, swallowed a teaspoonful of Paris green, and will probably die. He came from the Coldwater school and was well treated.

GRAND DUKE AT HEAD

OZAR TO CONCENTRATE AUTHOR-ITY OVER ENTIRE RUSSIAN ARMY IN ONE MAN.

ASSERTS HIS AUTOCRATIC POWER

NOMINEES FOR CABINET JOBS REJECTED FOR ATTEMPTING TO DICTATE TERMS.

St. Petersburg, Aug. 9. - Notwithstanding the improvement in the situation produced by the collapse of the strike the Novor Vremys an unpoplar that it is still the intention of the emperor to place Grand Duke Nicholas Nikolaevitch in immediate command of the whole army, concentrating the direct authority over the troops and composing separate corps and divisions in his hands. The paper says the announcement of his appointment may be expected in a few days and adds that this will not make the grand duke a dictator, as the administrative functions will remain in the hands of the minister of war. M. Rutskoy, minister of war, is understood to have protested vigorously against the step and led to the report that he would be succeeded by General Trepoft, but it is positively noted that General Rutskoy will probably remain in office.

ABBERTS AUTOCRATIC POWER.

Clear Refuses to Allow Cabinet Powers - Ability to Dictate Terms - St. Petersburg, Aug. 9. - The Russia Premier Stoloy's organ, explaining the failure of Count Heydon and others to enter the cabinet, says that the emperor does not recognize the principle of the responsibility of the ministry and therefore declines to permit candidates for portfolios to dictate terms. At the same time the emperor admits the desirability of the organization of the non-bureaucratic elements in the inauguration of a policy which will have due regard for the national, economic and ethical inter-

ests of the whole people. The Russia declares that the time is approaching when the solar minded who really wish to save the state will lose out entirely from the revolutionists, open or disguised, and rally to the side of the government.

TERRORISTS UNUSUALLY BUSY.

Residents of Cities Where Crimes Occur Must Pay Damages.

Warsaw, Aug. 9. - The terrorists are continually attacking and robbing all as other cities in and near which such crimes occur still pay the losses resulting from such robberies.

Warrior Who is Now at Head of Japanese Army Staff.
General Baron Kodama, who died in July, was chief of the general staff of the Japanese army and his place has now been taken by General Baron Hotta, who commanded the army which first invested Port Arthur. His forces assaulted and stormed Kichon and defeated the Russians in the heavy three days' battle of Nanchang. This victory cutting off any hope General Hotta had of a relieving army reaching him. After General Oku had bottled the Russians up in Port Arthur General Hotta was entrusted with the work of curtailing that fortress and General Oku was transferred to the second or left Japanese army in the advance against Kuropitka.
