CLASS DAY EXERCISES

Various Orations Were Excellently Delivered and Showed Much Thought

LARGE AUDIENCE PRESENT

The Music Was a Prominent Feature of the Exercises.

The Class Day exercises of the High school were held at the opera house yesterday afternoon, and the attendance was very large. The building was handsomely decorated. Owing to the size of the class all were not placed on the program. The class roll follows: Harold Anderson, Harry Backwell, George Barry, Harry Birkson, Lemmy Gaudin, Florence Gies, Harold Kingstad, John MacGregor, Justin Peterson, Stella Phoenix, Nadah Rital, Isadora Ritalin, Harold Thomas, Mamie Tronson, Crystal Watson, Virginia Valentine. The various orations on the program did very well. Excerpts from the ones that follow:

Harold Kingstad delivered the salutatory, and it was widely one of the very best efforts of the afternoon. It follows: We are gathered here to celebrate the occasion that marks the close of our high school careers. For years we have looked forward to this day. Now, that it has come, how can we describe the emotions we experience as we realize the importance of the moment and the fact that we come together to share with each other the joy of our last meeting before entering upon a life uncertain and a future unknown?

This day, when viewed through the perspective of the gild struggling through the greatest crisis in our history, surely discernable goal in the far off hazy future. We all worked toward it as a matter of course. But only now, that it is here, we are able to grasp its significance with greater clearness.

The thoughts occupying the minds of each of us today are indeed joyous tinged, perhaps, with a sentiment of pride, aroused by the pleasure we feel in viewing our work—well done and complete. For twelve years—they say not an eternity in the beginning, but now revealed to have passed in many moments—we have been steadily advancing steadily from grade to grade. Each of these years brings back pleasant memories, each has its own story. We remember with a smile our first year in school, and the many incidents connected with them. We call to mind our little school-mates, who entered

school with us, some of whom are still here. As we look back, each year conjures up sweet remembrances of patient instructors. We remember how eagerly we sought their praise, with what fervent hearts we received their merited scoldings, how we learned to love each of them despite these scoldings—how ardently we worked that we might show the results of their earnest efforts. All of these with numberless other pleasant memories flood our glad hearts today.

But underlying these joyful emotions, there is also one of a different nature, in fact it seems almost a sympathetic sadness. It is the fact, that we have reached our longed for goal, but how much more we would enjoy this occasion, if only those comrades of our earlier school years were now among us—those whose misfortune of various kinds have prevented from completing their courses, others who necessarily has compelled to leave our ranks. There are still others, whose aims in life have differed from ours, and who have preferred to meet life's problems without enrolling these last years in school, that we have found so profitable and pleasant.

Finally, we find, interwoven with this joy and sadness, the thread of hope, that we may all, in the future as well as we have in the past, live up to the motto chosen by our class. We may then be assured that perseverance will be rewarded by success.

It is, therefore, with mingled emotions of joy, sadness and hope for the future, that we welcome you here today we welcome you, our parents, who have enabled us to pursue our school.

All fraternal societies are urged to participate in the Fourth of July parade. The matter should be brought up promptly, and the chairman of the parade committee notified.

WAS ABLE SERMON

Rev. Dahlsten's Baccalaureate Sermon One of the Best Ever Heard Here

WISDOM HIS THEME

Sermon Appeared in Full For the Benefit of Those Unable to Hear It.

The Baccalaureate sermon delivered by Rev. Dahlsten at the Swedish Lutheran church last Sunday evening was one of the ablest of its kind ever delivered in the city and the magnificent audience present was very pleasing to the class as well as to the pastor. The service was opened with a song by the congregation after which Rev. Dahlsten of the M. E. church read the scriptures and offered prayer, and Mr. W. F. Kofarung sang a solo. A song by the congregation and the benediction by Rev. Dahlsten followed the sermon. Mr. Dahlsten's sermon follows: "Grace to you and peace from God the Father and the Lord Jesus Christ."

My text this evening is taken from the general Epistle of James, third chapter, seventeenth verse: "that the wisdom which is from above is first pure, then peaceable, gentle, easy to be entreated, full of mercy and good fruits, without variance, without hypocrisy."

Subject: "Wisdom from above and the attributes of the one who has attained this wisdom."

You, the graduates of this year, having finished the prescribed course of study in your school, have at last reached graduation week. As you look back on the past few years you remember with pleasure the earnest effort in acquiring knowledge, your teacher's friendship, patience and encouragement, the happy friendships which you have entered into, etc. At the present I feel assured that the foremost sensation is one of sadness that those happy days and years are ended, that you soon must bid your teachers farewell, that friends, much-loved friends must part, never again to renew the same experiences, the same efforts and joys with each other.

When the present week is a thing of the past a feeling of trepidation will probably take possession of you. Having finished your course in the high school, all the excitement and all the joys and griefs of graduation week over, you will suddenly experience a very ill-aimed to call it a solemn moment when the demands of the future will dawn on you as a present necessity of

determining on a vocation, a goal to strive for. I fear you must determine, as if in one short moment, what to make of yourselves, what to struggle for. A goal, I would intimate, not only for this life but for all eternity. Truly this is an earnest moment and God grant that you consider it earnestly.

It is true that each one of you have your inclination, that in all probability your mind already has been actively concerned with this important question, more or less seriously. It is true that there are many paths open for your choice, also that with many this question has not assumed a serious aspect. Frequently parents assume responsibility and determine for their child. Sometimes the practical disinterested advice of teacher or friend is taken. However it is settled, it is usually in all present for you of the greatest, possible importance, and may be the making or unmaking of your lives.

It is not a very difficult matter to determine on a goal for our struggle, you for our very lives. After we have chosen we can always see the goal quite clearly over all that intervenes, as we may see the summit of the mountain from the foot quite distinctly, even at a distance. It is a great deal more difficult to plan a way to reach that goal or summit, and the real struggle will begin when we start for the goal, and in all probability the difficulties will increase as we proceed. Sometimes the way is quite straight and smooth. More frequently it is steep and abrupt, perhaps

WITH PETERSON, THE TAILOR

A NEW INDUSTRY

The Cement Plant May Be Located Here. Would Employ 200 Men

RAW MATERIAL NEAR

Manufacture of cement is a goal of securing a big cement factory that will employ more than 200 men.

Mr. H. T. Dennis, of Detroit, was in the city Monday looking the city over for a site and he was very much impressed with the outlook, and while other cities are anxious to land the proposition, he may decide to locate here, as he is hopeful that he can secure the plant and Manistique's shipping facilities are superior to the other applicants.

Mr. Dennis desires forty acres for a site, and he expects to be secured in the near future. The quantity of coal needed in the manufacture of the cement. He will need 3,000 horse power to operate the plant. The firm at the new mill, which can be located by lease or purchase, will develop 2,500 h. p. and this can be supplied by power from the Light & Power Co. plant. Fifty tons of coal will be required daily to burn the stone.

His requests can be accorded to. The stone quarry of the White Marble Lime Co. at Dixon, has incalculable quantities of the kind of stone required, and the clay needed can be secured at Coates.

The company in question would certainly be a great acquisition for the city and it is hoped that an early response will be secured to it. Favorable concessions should be made and no stumbling block should be placed in the way. Manistique needs the industry.

A PUBLIC FOUNTAIN

The Women's Reading Club Will Supply a Long Needed Want

DESERVE HEARTY SUPPORT

Fountain Will Be Located Near The Hotel

Merely to call their attention to a good work is usually all that is necessary to open both the hearts and the purses of the Manistique people. Called in behalf of our Manistique friends and how many. There is not a place in town where a dog can get a drink of water and surely a place for a horse. A driver cannot always carry a water pail around with him and show not all ways have the time to pump a pail of water. The Women's Reading Club have undertaken the work of securing funds to purchase a stone fountain which will be a man's faithful friend, the dog, also a place where the weary pedestrian may take his drink. We have no human society and such work must be undertaken by individuals. A drinking fountain will not hold the lash of a cruel driver; it will not feel the half-starved horse and never a kind work; it will not lighten the burden of the overloaded horse; neither will it shorten the hours of the horse whose anxious owner makes him do the work of two horses. It will not open the eyes of the man who trusts his delivery horse to the hands of some ignorant boy who is still childish enough to go fast over the top of his horse. It will however sometimes lessen their suffering from thirst as well as make more comfortable the horses who make up the majority, those whose owners have sufficient horse sense to know how to care for an animal who not only has feelings but costs money and runs away.

It is through this work might appeal particularly to those who are owners of horses and dogs and many such owners are being approached by members of the Reading Club. A work of merit should appeal to all and those who are not personally solicited from and desire to help will please leave their contributions to the Secretary Mrs. Mallette at the Coates building. A small sum from many people is the way to raise funds for an object of universal benefit.

Our desire is to erect a fountain which will not only be useful from a human standpoint but an ornament to the city as well.

It is the intention to place this fountain at the intersection of Cedar, Walnut and Main Streets under the supervision of the city council.

The Women's Reading Club

Mrs. Clara Parker, of Gould City, was in the city Tuesday.

TO IMPROVE HARBOR

Will Open Next Monday at Milwaukee and Work Will Be Commenced at Once

OUTLOOK VERY GOOD

All industries will be in operation shortly and there will be no unemployment.

Major Johnson of Milwaukee, has telegraphed the Business Men's association that the bids for the improvement of the local harbor will be opened at Milwaukee next Monday.

Judging from this work will be commenced at once. This will be welcome news to the people of this city, as it means that a harbor will be put into operation for labor and material this summer, and that it will have a tendency to relieve the financial stringency which is being felt at the present time. It also means that every unemployed man in the city will be given an opportunity to secure work at fair wages.

While it has been a little quiet here this spring, yet Manistique has not experienced the tight times that neighbors are going through, and from indications the remainder of the year will witness any part of time in the city's history. The new mill will be operated shortly as will the glass bottle factory. The other industries, viz: the tannery, fur, chemical plant and White Marble Lime Co. are in full bloom. These with the harbor improvements, should, and will make Manistique more prosperous than ever.

THE FLAG RAISED

Appropriate Service Held Last Sunday at the Cemetery

EXCELLENT ADDRESS GIVEN

By County Clerk, Bowen and Presenting Attorney V. L. Hesse.

Sunday was Flag Day and the day was fittingly observed here by the unfolding of the new flag at the G. A. R. hall at Lakewood cemetery during the afternoon. The West Side band which secured the members of the G. O. P. and Nansen societies to the cemetery, that before their annual Memorial day, furnished the music for the occasion, and attended the flag raising in a body after they had completed their work.

Mr. Adams was in charge of the affair. He made a short address that was to the point, and really eloquent. He then gave them raised the flag and when it was waving, three hearty cheers and a "viva" were given by the large audience, with a will. The band then played "The Star Spangled Banner." County Clerk Bowen, a veteran of the Rebellion, made a short and eloquent address. He was followed by Presenting Attorney Hesse, who gave a condensed history of the origin of the

flag, what it represents, and how it is honored among the nations of the world. He dwelt on the hardships endured by the colonists and how they fought for their rights. The same spirit pervades the country to this day, they during the Spanish war there was such a vast number of volunteers that the government experienced great difficulty in deciding whom should participate. As long as this spirit of patriotism pervades the nation it will continue to be the leading nation on the globe. One thing that makes this country a world-wide factor is the fact that it affords opportunity for every citizen to work out his destiny and to develop and gain by his individual effort and ability. The flag stands for justice, equality and liberty, and so long as the citizens work into which it stands will be governed and actuated by the spirit which kindled the hearts of the patriots of the Revolution, the year of 1812 the Rebellion and the Spanish war, this nation will continue to retain the enviable place it now, and live over held among the nations.

The exercises were attended by nearly 200 people and it is to be hoped that Flag day will be observed in the future in a similar manner.

Geo. Macharun, the west side shoe dealer, has one of the best kept lawns in the city. Mr. Goehel says there isn't a better one in Chicago.

Billion Addresses, Good Speaking, Patriotic Ball Games and Fireworks in Progress.

About \$1,000 has been raised for the forthcoming Fourth of July. At a meeting of the Merchants and Manufacturers association held Tuesday evening, it was the consensus of opinion among the thirty or more business men present that a big celebration should be held, and a resolution was passed asking the city council to donate \$200.00 toward the same. At a special meeting of the council held Wednesday evening, that body donated the \$175.00 required to employ the two local band for the day. The plan will be rather elaborate, and include the latter exercises, ball

TO IMPROVE HARBOR

Will Open Next Monday at Milwaukee and Work Will Be Commenced at Once

OUTLOOK VERY GOOD

All industries will be in operation shortly and there will be no unemployment.

Major Johnson of Milwaukee, has telegraphed the Business Men's association that the bids for the improvement of the local harbor will be opened at Milwaukee next Monday.

Judging from this work will be commenced at once. This will be welcome news to the people of this city, as it means that a harbor will be put into operation for labor and material this summer, and that it will have a tendency to relieve the financial stringency which is being felt at the present time. It also means that every unemployed man in the city will be given an opportunity to secure work at fair wages.

While it has been a little quiet here this spring, yet Manistique has not experienced the tight times that neighbors are going through, and from indications the remainder of the year will witness any part of time in the city's history. The new mill will be operated shortly as will the glass bottle factory. The other industries, viz: the tannery, fur, chemical plant and White Marble Lime Co. are in full bloom. These with the harbor improvements, should, and will make Manistique more prosperous than ever.

All Should Hear Him.

The board of education was very fortunate in securing Dr. Geo. Vincent of the Chicago University, to deliver the address to the graduating class this year. Mr. Vincent is one of the foremost educators and public speakers of the country, and those attending the courses tomorrow evening will be given a rare treat. His time was so occupied that he could not come before tomorrow evening, and the board is to be congratulated on securing him notwithstanding the fact that the date is too late in the week.

OFFICIAL COUNTY AND CITY PAPER.

FRIDAY, JUNE 10, 1908.

EDITORIAL COMMENT.

Hurry for Taft.

The loser is always the man that doesn't hold on.

There is nothing in this world busier than the man with a new auto.

Never kick on your taxes. Only those that are able to pay are on the rolls.

The Macabees refused to give Major Boynton an office but a pension of \$2,500 will help some.

The Soo Times is opposed to Warner, evidently for two reasons: That it is a Democratic paper and that the News is supporting him.

Rev. Dahlest's baccalaureate sermon was so highly commended, that we publish same for the many that were unable to attend the service.

The class of 1908 has stepped out in the full glare of the sunlight of life. When the twilight comes each member experience that satisfaction that is the concomitant of duties well performed.

Good Roads Commissioner Earle is to resign early in September. He states that in case he is defeated for the gubernatorial nomination at the primaries he will resign the office he at present holds.

Manistique is giving employment to more men at this time than any other city twice its size, and the number will be greatly augmented when the new mill starts and the improvement of the harbor is commenced.

Since the beginning of 1908 the average loss from fire in this country has been \$1,000,000 a day. This means a per capita waste of \$9.47 a year, as against 38 cents in the largest countries of Europe. It is time to find the remedy.

The public schools close today for the long vacation, and everyone is happy at the prospect save the parents who will now have to take up the burden of taking care of the children—the task that the teachers have so willingly relinquished.

It transpires that Ontonagon's janitor, who gets a salary greater than the principal of the high school, is really a four-ly janitor, who keeps all the schools in apple-pie order and hires assistants out of his salary. Supt. Wagner says that he's the best janitor in Michigan. The board felt it should be set right in the matter, and we admire the spirit of the board.—Moderator.

If W. N. Mills, of Detroit, formerly of Menominee, has agreed to deliver the Thirtieth senatorial district to Dr. Bradley he has contracted to do for the general doctor something that he was unable to do for himself, for, be it remembered, Mr. Mills was out off in the prime of his budding statesmanship, the Thirtieth electing him to stay at home for a second term.—Mining Journal.

It appears, when the thing is stripped of all the pretentious language, that Major Boynton yielded the reins of management of the order of Macabees to avoid the unpleasant alternative of having them taken away from him. For twenty-eight years Major Boynton was not only the guiding spirit but the ruling head of Macabees. Considering the ceaseless political activity in fraternal orders, the keen competition for their best officer, and the ruthless application of the rule "survival of the fittest," we should say that the major made a wonderful showing in being able to hang on so long. His enemies have made various allegations of improper management. Whether they have any basis in fact or were put out simply to facilitate the fight on him the issue will doubtless speedily show. That the anti-Boynton faction was securely in control of the Toledo convention is indicated by the fact that it disregarded Major Boynton's suggestion as to who should be his successor.—Mining Journal.

EDITORIAL COMMENT

Where is the man who said that Taft would not land it.

Manistique should be a town of 10,000 within five years. This cement factory would help some.

The work of improving the harbor will be commenced shortly and every citizen is more than glad.

The Republican platform adopted at Chicago, is one that will carry the party to a glorious victory in November.

Spend the Fourth here and induce your friends from neighboring town to come here. We'll have the largest celebration in the peninsula this year.

Mr. A. D. Jopling, a prominent citizen of Marquette, is being boomed as the successor of the late Peter White as a member of the Mackinac Island Park commission.

With a big appropriation from the city funds the biggest celebration in the city's history is an assured fact. If the plans of the committee are followed, more than \$1,000 will be expended.

That the "compositor" in a printing office is not the only one that makes errors, it may be stated that two tombstones in the local cemetery have the inscription: "The Lord is My Shepherd," and that on one the word shepherd is spelled "sheppard," on the other it is "shepard."

ANENT MILLS.

The Soo News has the following to say concerning the late Senator Mills, who, rumor says is to do a little political legwork in the Twelfth district in behalf of Bradley:

"Mills is a politician of the worst possible type. He was the legitimate and logical product of machine methods now fortunately completely out of vogue. His defeat of Senator Fuller for the nomination was possible not through any personal popularity or political strength of his own, but was achieved by skulduggery of the sort which has served to make this senatorial district most emphatically for primary reform. His service in the legislature was misrepresentative and marked by a subservience to private interests which made it impossible for him to become even a candidate for re-nomination for a second term. He left Manistique under conditions which reflected most seriously upon him."

It is true that Bradley has asked Mills to look after his interests in this district it is also probably quite true that Mills expects to achieve some results through the medium of a tax list printing which is controlled by the auditor general. It is quite like a man of the Mills type to seek to achieve results in that way.

POVERTY A DISEASE

A large part of the poverty of the world is a disease, the result of centuries of bad living, bad thinking, and of sinning. We know that poverty is an abnormal condition because it does not fit any human being's constitution. It contradicts the promise and the prophecy of the divine in man. There are plenty of evidences that abundance of all that is good was man's inheritance, that if he claims it steadily and struggles persistently toward it, he will gain it.

The fact is that a large part of the poverty of the world is due to downright laziness, shiftlessness, an unwillingness to make the effort, to fight for a competence, say to S. O. S. Marden in Success. It does not matter how much ability one may have; if he does not have the inclination and the energy to use it, it will atrophy. Laziness will ruin the greatest genius. It will kill the ambition of an Alexander or a Napoleon. No gift or talent is great enough to withstand it. The love of ease has wrecked more careers than anything else except dissipation, and laziness and vice usually go together. They are twins.

There are certain traits of a strong character which are, incompatible with preventive poverty. Self-reliance and a manly independence are foundation stones in strong characters. We often find them largely developed in the man who is poor in his own right, but who is not poor in spirit, who is the victim of misfortune and disasters which he could not control; but the man who is poor because he has lost his courage, his faith in himself, or because he is too lazy to pay the price for competence, lacks these qualities and is so much less a man. He is a weak character compared with the man who has developed powerful mental and moral muscle in his energetic, persistent efforts to gain a competence and to make the most of himself.

When you make up your mind that you are one with poverty forever, that you will have nothing more to do with it, that you are going to erase every trace of it from your dress, your personal appearance, your manner, your talk, your actions, your home, that you are going to show the world your real mettle, that you are no longer going to pass for a failure, that you have set your face persistently toward better things, a competence, an independence, and that nothing of earth can turn your resolution, you will be amazed to see what a reinforcing power will come to you from this increased confidence and self-respect.

The most dangerous thing about poverty is that its victims often become reconciled to it, and take it for granted that it is their fate. Because they cannot keep up appearances and get away in the same style as their more wealthy neighbors, poor people often become discouraged, and do not try to make the best of what they have. They do not "put their best foot forward" and endeavor with all their might to throw off the evidences of poverty. If there is anything that paralyzes power it is the effort to reconcile ourselves to our unfortunate environment instead of regarding it as abnormal and trying to get away from it.

PLATFORM ADOPTED

Declaration of Principles of the Republican Party.

MINORITY REPORT OFFERED

Cooper of Wisconsin Submitted Different Plans on Several of the Important Issues, but They Were Overwhelmingly Voted Down.

Chicago, June 10.—The Republican national convention adopted the platform of the resolutions committee by a virtual vote after overwhelmingly defeating the minority report offered by Mr. Cooper of Wisconsin. The minority report provided for removal of the tariff on controlled goods, devalued for physical value of railroad, election of senators by direct vote and prohibiting the issuance of injunctions in labor disputes. The platform is adopted follows, in part:

The Republican party declares an unequivocal for a revision of the tariff by a special committee to be immediately following the inauguration of the next president and commencing the same already taken to this end by the report assigned to the appropriate committees of congress, which are hereby instructed to examine the effect of existing schedules, and of effecting such changes as will give to the tariff legislation the true principle of protection is best maintained by the imposition of such duties as will cover the difference between the cost of production at home and abroad, together with a reasonable profit to American industries. We favor the establishment of maximum and minimum rates, to be administered by a committee under limitations fixed in the law, the maximum to be available to most distribution by foreign countries, and the minimum to represent the normal measure of protection at home; the said purposes of the Republican policy being not only to preserve, without excessive duties, that security and stability of conditions which have rendered our country the most favored of nations, but also to maintain the high standard of living and the wage earners of this country who are the most direct beneficiaries of the protective system. Between the said purposes of the policy we believe in a free interchange of products, with such limitations as will prevent the export of any article to be sold in foreign markets, and will avoid injury to domestic interests.

Currency.

We approve the emergency measures adopted by the government during the recent financial disturbances.

MR. GEORGE BOUSCHOUR.
Manistique, Mich., April 24, 1908.

FOR PROBATE JUDGE.

I hereby desire to announce my candidacy for the nomination of probate judge of Schoolcraft county, subject to the decision of the Republican party, to be held at its annual meeting on the 15th day of September next, at the residence of Mr. J. H. Adams, at Manistique, Michigan.

W. H. FORSHALL.
Manistique, Mich., April 24, 1908.

and especially commend the passage by congress at the last session of the law designed to protect the country from a repetition of such a strike. The Republican party is committed to the development of a permanent currency system, responsive to the needs and the appointment of the national monetary commission by the present congress which will investigate all proposed methods, insure the early realization of this purpose.

Postal Savings Bank.

We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift.

Trusts.

The Republican party passed the Sherman anti-trust law over Democratic opposition and entered it into Democratic legislation. It has been a wholesome instrument for the benefit of a wise and fearless administration. Its experience has shown that its effectiveness can be strengthened and its real objects better attained, by such amendments as will give to the federal government greater supervision and control over, and secure greater publicity in, the management of that class of corporations engaged in interstate commerce having power and opportunity to effect monopolies.

Railroads.

We approve the enactment of the railroad rate law and the vigorous enforcement of the provisions of that statute of the statutes against rebates and discriminations, as a result of which the advantages formerly possessed by the large over the smaller shipper have substantially disappeared. In this connection we commend the vigorous enforcement of that statute by the interstate commerce commission to the accounts of interstate railroads.

We believe, however, that the interstate commerce law should be further amended so as to give railroads the right to make and publish traffic schedules, and to give the interstate commerce commission, not maintaining always the principle of competition between railroads, the authority to prevent the avoidance of such conditions by any means whatsoever. We favor such national legislation and interstate commerce law will prevent the future avoidance of such conditions by any means whatsoever.

Employers' Liability.

The enactment in constitutional form at the present session of congress of the employers' liability law, which will give to the injured party the additional protection secured for engineers and firemen; the reduction of the hours of labor of railroad employees; the enforcement of the law making the exercise of the powers of mediation and arbitration between employers and their employees and the law making a beginning in the policy of compensation for injured employees of the government are among the commendable accomplishments of the present administration. But there is still much to be done for the people to be done and the Republican party pledges its continued devotion to every effort to make for safety and the betterment of conditions among those whose labor contributes so much to the progress and welfare of the country.

Court Procedure.

The Republican party will uphold all the laws of the country and will enforce their process and to protect the rights of property shall be served inviolate. We believe, however, that the rules of procedure in the courts should be amended so as to insure the prompt trial of cases and the prompt issuance of the writ of habeas corpus to more accurately define the issues and to prevent the delay of cases by unnecessary orders, and to insure that no party shall be injured by delay, except where irreparable injury would result from delay which can be speedily hearing thereafter should be granted.

The American Farmer.

Among those whose welfare is vital to the welfare of the whole country is the American farmer. The progress of the country rests peculiarly upon the prosperity of agriculture. The Republican party during the last twenty years has accomplished extraordinary results in bringing the resources of the national government to the aid of the farmer, not only in advancing agriculture itself, but in increasing the convenience of rural life. Free mail delivery has been established, and we favor the extension into every community in the land, revenue of the full benefits of the postal service. We recognize the social and economic advantages of good country roads, maintained more and more largely at public expense and less and less at the expense of the abject owner. In this work we commend the growing practice of state aid and we approve the efforts of the national agricultural department by experiment and other wise to make clear to the public the best methods of road construction.

Natural Resources.

We endorse the movement inaugurated by the administration for the conservation of natural resources; we approve all measures to prevent the waste of timber; we commend the work now going on for the reclamation of arid lands and reaffirm the Republican policy of free distribution of the available areas of the public domain to the landless settler. No one who has the least regard for the future of the country is more insistent and none will more heartily blessings to posterity. In line with this splendid undertaking is the further, the equally important, to carry out a systematic improvement upon a large and comprehensive plan, that to all portions of the country, the waterways, harbors and Great Lakes, whose natural adaptability to the increasing traffic of the land is one of the greatest gifts of a bountiful Providence.

The Army and Navy.

The Sixtieth congress passed many commendable acts increasing the efficiency of the army and navy. Although at peace with all the world and

secure in the consciousness that the American people do not desire and will not provoke a war with any other country we nevertheless declare our opposition to a policy that will keep this republic really at all times in a state of military readiness to defend her traditional doctrine and secure her appropriate part in promoting permanent tranquility among the nations.

Merchant Marine.

We adhere to the Republican doctrine of an encouragement to American shipping and urge such legislation as will permit the merchant marine to receive the mercantile marine protection and security her appropriate part in promoting permanent tranquility among the nations.

Veterans of the War.

Another Republican policy which must be ever maintained is that of generous provision for those who have fought the country's battles and for the widows and orphans of those who have fallen. We commend the increase in the widows' pensions made by the present congress and declare our support of a liberal administration of all pension laws to the aid and the people's gratitude may grow deeper as the memories of heroic sacrifices grow more sacred with the passing years.

Cuba, Porto Rico and Philippines.

The American government, in Republican hands has freed Cuba, given peace and protection to Porto Rico and the Philippines under our flag and begun the construction of the Panama Canal. It has shown the government of the United States is meeting loyal and patriotic support; order and prosperity prevail and the wellbeing of the people is in every respect promoted and conserved. In the Philippines insurrection has been suppressed, law established and life and property made secure.

Democratic Inactivity.

We call the attention of the American people to the fact that none of the measures here advocated by the Republican party could be enacted and none of the steps forward here proposed could be taken under a Democratic administration or under one in which party responsibility is avoided.

Supper Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Stomach Troubles are very common in the summer time and you should not only be very careful about what you eat just now, but more than this you should be careful not to allow your stomach to become disordered, and when the stomach goes wrong today Kodol. This is the best known preparation that is offered to the people today for dyspepsia or indigestion or any stomach trouble. Kodol digests all food, is pleasant to take. It is sold here by A. S. Putnam & Co.

No Humbug.

No humbug claims have to be made for Foley's Honey and Tar, the well known remedy for coughs, colds and lung troubles. The fact that those who have used it have not only been cured of any other cough remedy is the best testimonial of its great merit. Why then risk taking some unknown preparation, such as Foley's Honey and Tar, when you can have a safe and sure E. N. Orr & Co.

Honey.

It's not best to take honey unless you get Gold Medal Flour—no ash. MARK.

No Need of Suffering from Rheumatism.

It is a mistake to allow rheumatism to become chronic, as the pain can always be relieved. In almost all cases a cure effected by applying Chamberlain's Pain Balm. The relief from pain which it affords is alone worth many times its cost. It takes speed and rest position. Even in cases of long standing this balm should be used on account of the relief which it affords. 25 and 50 cent sizes for sale by E. N. Orr & Co., A. S. Putnam & Co., and LaBar & Neville, west side.

Just made some splendid biscuits—Gold Medal Flour. BERRY.

Nature has provided the stomach with certain natural fluids known as digestive juices, and it is through these juices that the food we eat is acted upon in such a way as to produce the rich, healthy blood that flows through the veins of our body and thereby makes us strong, healthy and robust, and it is the weakening of these digestive juices that destroys health. It is our own fault if we destroy our own health, and yet it is so easy for anyone to put the stomach out of order. When you need to take something that is promptly, but not something that is slow, it is reliable and is guaranteed to give relief. It is sold by A. S. Putnam & Co.

A Wagon's First Cost
is not all there is to it. There are plenty of low priced wagons (nearly dead) in the end,
but actually look well and are really covered with "pithy," "dead" in the end,
defective axle-wood, or forsooth the shattering, rattling, jouncing of rocks, the thumping and
constant repairs, that will rise up to trouble you in time. All and sundry. It pays to buy
one for all a dependable wagon.
