MANGLED BY CARS

Mr. Milton Buchanan, Son Line Conductor, Received Serious Injuries Saturday

COMPOUND FRACTURE OF LEG

Both Legs Lacerated and Crushed by Collision With the Wheels

Mr. Milton Buchanan, a freight conductor on the Soo Line, while engaged in coupling the hose between two cars of his train at noon Saturday in the yard, was thrown to the rails by the force of several cars that were switched to the line of cars under which he was working. He realized his danger and endeavored to throw himself outside the rails but was unable to do so and the wheels passed over his legs. He sustained a double fracture of the left leg and severe lacerations on both legs. The front truck of the car which was unhooked, passed over his limbs, and the car was derailed. The left limb was broken and cracked at the knee and also broken above the knee, and the right limb was lacerated above the knee. It was placed up temporarily and taken to the hospital. His relatives, Messrs. Alex Davidson and Bert VanMarter were also unharmed. Dr. Ross was called in consultation by the relatives, and it was decided that he might survive without resorting to amputation. Dr. Kece of Gladstone, surgeon for the Soo Line, arrived in the city Sunday morning, to examine him, and an expert from Minneapolis, sent here by the Soo Line, arrived in the city Monday morning. Everything that medical skill can accomplish is being done for him, and it is thought that he will ultimately recover, and have the use of both limbs. Just prior to the accident he had given his brakeman the switch list, and was passing along the cars en route to the depot. While thus engaged he noticed the air hose unhooked between two cars, and crawled under the cars to adjust it. No one was aware of the fact that he was disengaged and cars were slung to the track where the stationary cars were located, with such momentum that the striking anyone had that the accident had occurred when he was seen to emerge from beneath the cars and drag himself to the side of the

HARBOR IN DANGER

Available Money is Practically Expended and Harbor is More Exposed Than Ever

DOCKS WILL BE DAMAGED

During Coming Winter If the Government Does Not Take Prompt Measures to Complete Work Commenced

That Manistique's harbor is in grave danger if the original plans of the government engineers are not taken, in that to all that have given the matter attention. Owing to the meager amount available practically all of the harbor work done this summer, in work that should have been done after the extensive plan of break water protection was completed. Since 225 feet of the pier on the south side of the harbor has been broken away, the entrance to the harbor now approximates 1,400 feet in width, and the heavy seas from the south have already encroached upon a portion of the north pier to a depth of forty two feet. During the night blow of Tuesday, the waves rolled into the river to such an extent that their force had an appreciable effect upon the vessels tied at the docks above the C. L. warehouse, and Grilling Bros. were compelled to take their dredge across the river and anchor it in the slips. While the blow was a slight one the height of the waves in the river exceeded twenty feet and would have affected the stability of ferries at the ferry dock. The wash of the waves was noticeable in the lumber slips. When the autumn and winter storms prevail, an immense amount of damage to the harbor will result. The shape of the harbor at present is not unlike a monster funnel with the wide opening inward, while the correct method of making the harbor and the reverse of course when the improvements contemplated are completed, conditions will be reversed, as compared to the present state of affairs. Much of the work done this summer will have to be done over as the on-coming winter will fill up the water so far.

IS A GOOD MOVE

The Rod & Gun Club Will Make an Effort to Supplement the Work of the State

EVERY MEMBER A DEPUTY

A Series Enforcement of the Game and Fish Laws in the Vicinity

For some time past the state has done very little in enforcing the fish and game laws in this vicinity. The game warden's department has been handicapped for an effort has been made to punish violators by an inadequate force of deputies. In fact, Schoolcraft county has been practically without protection since the late of affording protection by means of district deputies has been in vogue. Being in favor of preserving game and fish, the board of rod and gun club at its annual meeting held last week, decided that every member of the club, now numbering seventy members, would personally see to it that the laws governing hunting and fishing be more rigidly enforced. The club has spent money in providing with rifle in nearby lakes and streams, is planting fish in the lakes, and in other ways, is showing a commendable spirit in making this section a mecca for the legitimate hunter. Here as in every community, a few "game laws" that wantonly and deliberately violate every law on the statute books relative to hunting and fishing, and thus cause the club in after. Illegal fishing has made Indian Lake fishing a jest, and it is the exception, not the rule, to catch a fish in that body of water, which should be with fish. That body of water is capable, owing to its area, to furnish sport for a city twice the size of Manistique, but the commercial fishermen, with their dynamite, set lines and nets, has made it a barren waste as far as hook and line fishing is concerned. This club will be able to accomplish much more than the state can under present arrangements, and its members are to be congratulated upon their determination to improve local conditions.

THE FIRE DEPARTMENT HOLDS MEMORIAL SERVICES NEXT SUNDAY

The fire department will hold memorial services next Sunday afternoon at 1:30 o'clock and will decorate the grave of the late Dan Scott, who was a member of the department at the time of his death. A music quartet selected from the troupe will furnish the music, and Rev. Schumaker of the First Baptist church will deliver an address. The procession to the cemetery will be headed by the Jackson band. The bereaving of Mr. Scott's grave is annually observed by the department.

WHILE ASSISTING Mrs. Thorell in driving a horse out of her premises in Lakeside avenue last week, Cecil Gray was kicked by the horse and sustained a severe cut in the face. She certainly is fortunate in escaping no light, but there is an ordinance against allowing horses to roam at large in Manistique.

CARD OF THANKS

Our most grateful thanks is hereby extended to all who so kindly showed their love and sympathy, during the illness and death of our dear son, Floyd, Alice, Charles and Palma Duell.

THE DUEL FUNERAL

Was Held Saturday Afternoon at Thompson and Burial at Local Cemetery.

The funeral of Mrs. Eva Duell, whose death was mentioned in last week's issue, was held at the Swedish Lutheran church at Thompson last Saturday afternoon at 1:30 o'clock. Rev. Siljstrom of the local Swedish Lutheran church officiated and was assisted by Rev. E. H. Scott of the M. E. church. The services were largely attended. The young ladies of Thompson furnished the music. The floral honors were Messrs. J. J. Hruska, Fred Miller, Henry Pieren, Andrew Anderson, Lafayette Williams and Henry Hursh. The remains were brought to this city by barrel. A friend of the deceased contributed the following lines: Rest gentle lady, thy land is bright Sing for thy heart was always light No speaker's voice was given Than this, to sing the songs of Heaven. Rest precious dust and o'er thy head We will teach the fairest flowers to bloom And loving hearts and moistened eyes Guard the spot where Eva lies.

 the city Saturday. The health officer  
 sent him out of the city as soon as  
 the fact that he was afflicted, was as-  
 certained.

Hiram Quick, without doubt has  
 the best garden in Manistique. Prop-  
 erty owners are engaging in garden-  
 ing to a much greater extent now  
 than they did in past years, and very  
 many families raise a sufficient  
 quantity of vegetables, including po-  
 tatoes, to tide them through winter.  
 The soil of Manistique is the best  
 in any portion of any in the county, but  
 the large quantity that a thrifty  
 householder can raise by cultivating  
 it proves that, by proper cultivation,  
 the average farmer can realize an  
 amount of money from an acre of ground  
 in Schoolcraft county, as he can in  
 any section of the United States.

The subject of Egbert M. Hayes'  
 sermons at the Wood's district and at  
 Gulliver next Sunday, will be "The  
 Awakening of China." The services  
 at the Wood's chapel will be held at  
 10 o'clock and at Gulliver at 3 o'clock.  
 Mr. Hayes, who is supplying the con-  
 gregations above named, is a student  
 at Ann Arbor, and was born in China.  
 He is thoroughly conversant with con-  
 ditions in the Celestial kingdom, and  
 it is hoped that he will give an  
 opportunity of delivering the sermon  
 in question in this city.

**BREVITIES.**  
 The next regular meeting of Man-  
 istique Legion No. 188, will be held  
 next Tuesday evening.  
 Matt West has practically recover-  
 ed from the effects of his serious ac-  
 cident in which he figured July 6th.  
 The quarantine was lifted from the  
 Carpenter residence yesterday, and  
 there isn't a happier man in the city  
 than Will.  
 D. G. Currie, who has been spend-  
 ing a two weeks' vacation with his  
 family in this city, resumed his  
 travels yesterday morning.  
 Miss Campbell of Escanaba, who is  
 the vocalist at the Star Theatre, has  
 a good voice and appears to please  
 the patrons of the theatre to such an  
 extent that she is frequently engaged.

The corn crops in the United States  
 in 1908 amounted to 2,505,000,000  
 bushels. Of that amount 12,000,000  
 were used in the production of distill-  
 ed liquors.  
 Mr. William Stewart, who has been  
 employed in brick construction work  
 at Houghton, returned home early in  
 the week. He expects to return to  
 the copper country in a few days.

Bad Effect of Cheese.

Mary, the infant daughter of W. A. Lennox, accidentally got hold of some pieces of cheese and before she could be prevented swallowed a considerable quantity. The cheese in due time made the little one alarmingly ill and her father, her aunt and Dr. Mackenzie, accompanied her to a Marquette hospital on Wednesday afternoon where she arrived in a critical condition. Happily the case, extremely serious at first, finally yielded to treatment and an operation was avoided. The child last night was considerably out of danger.—Manistique News.

The child is a niece of Mrs. John Mosher and well know here.

HARBOR IN DANGER

(Continued from page 1) the situation, but if any step is to be taken to correct them, it must be done through the medium of congress. Congressman Young has always shown a disposition to assist Manitowish in every way possible, and as Congressman Wheeler of Pennsylvania, is a stockholder in the C. L. Co., and as Congressman Swamp of Ohio is vice president of the Lake Superior Iron & Chemical Co., it is safe to conjecture that "there will be something doing" if the influence of these gentlemen is exerted in our favor. Manitowish is destined to become the leading port on the north shore of Lake Michigan. It has the location and natural resources behind it. It is now up to the citizens if they will assist in attaining the ultimate goal, by prompt and effective effort in carrying the work already done in the line of harbor improvement, and its consummation upon the extensive and broad lines as proposed by the engineers in their survey. Under present conditions the situation is so grave that the entire available dockage in the harbor is in danger.

Congressman Young is one of a number of statesmen who are preparing for a junket to Hawaii in response to an invitation from the Hawaii legislature. The party will sail from San Francisco Aug. 24 on the steamer Sibira.

Eighteen days will be spent in Hawaii, during which the four largest islands of the group will be visited.

NEW LAWS BULKY. Book of Laws Enacted by Last Legislature Contains 940 Pages.

The volume of public acts containing the laws enacted by the legislature of 1909, which is to be ready for issue about the first of August, will be one of the bulkiest of volumes ever compiled by the secretary of state for the law makers.

It will contain 940 pages, which is 300 more pages than in the public acts of 1907. The particular reason for this increase in size is the huge highway code, which takes up after page in the book. In the number of acts,

however, the book is somewhat of a surprise, as it contains eighteen less general laws than were passed by the legislature of 1907 and ten less than the session of 1905. It has been estimated that as the last legislature was bound to pass only general acts and had to enact the necessary legislation to place some features of a new constitution on effect, that this book would be a record breaker. Instead, however, there were a long number, the total number being 922 acts.

The state publishes 14,000 volumes of the public acts for the use of state, county and municipal authorities and for general distribution throughout the state. The text is all in print and it is expected that the work of distributing the acts will begin about the first of August, as is required by the new constitution.

A Fashion Garble Killed. Women of Ionia in the eighteenth century wore large hats. Sausage fogs were traveled to Hawaii in the same coach with a woman who was compelled to sit on a stool on the floor of the coach on account of the inconceivable height of her headpiece. This woman, who was all for stylishness in costume, writes in her diary that she has seen women wearing on their heads "an acre and a half of starch, berries, slopes, grass plait, tully buds, clumps of poodles, kitchen garden and greenhouses." The result of killing this fashion is given to Garble. He appeared one night on the stage with a mass of vegetable on his head and a carrot suspended from each side, to the shame and confusion of many fair members of his audience.

Dr. Johnson's Resolutions. Dr. Johnson compiled this list of good resolutions on his fifty-first birthday in 1795: "Resolved, 'No jurant, to combat notions of obligations; to apply to study; to revivify imagination; to consult the passions on Petty's cult; to rise early; to study religion; to go to church; to drink less alcoholic liquor; to keep a Journal; to oppose idleness by doing what I can do tomorrow; rise as early as I can; and for books of history of war; put books to order; scheme of life."

**PREFORT PROGRESS**

Local Optimists Claim That More Than 300 Persons Have Signed Petitions

**WORK BARELY BEGUN**

The Honorable Member of Senate, with the Honorable Secular is Conceded.  
Those in charge of the local option campaign in this county, report that official and unofficial reports from the city and county show that more than 300 persons have thus far signed the local option petitions and that a thorough canvass of the county has barely commenced. Some are so sanguine that they predict that a majority of the voters in the county will be secured to sign the petitions before the campaign of solicitation is completed. The voters in the county are practically a unit in favor of the proposition, while in the city sentiment is very much divided. Good arguments, pro and con are being heard on every hand, and it is safe to say that the pot which is at the present time simmering, will be boiling in a short time.

A table was recently prepared by one of the prominent liquor dealers, which gave his estimate as to the number of persons that would sign the petition in the county from the various townships and wards of the county, and his estimate has been exceeded by the solicitors at that time. In the three townships making official reports, thus far exceeded the estimate of said liquor dealer more than 100 per cent, and the work is not completed in the townships in question. At this early stage of the campaign it is impossible to forecast victory or defeat for the factions involved. That the campaign will be vigorously prosecuted by both sides goes without saying. Many have predicted all the time that if the requisite number of signatures were secured the proposition would carry, so many that do not relish the publicity that their signatures would entail, would quietly vote for it. A number of persons that are customers of the saloons, are signing the petition in the city, an they say that they will vote for local option, so that the temptation to drink may be placed out of their reach.

**UNVEILED MONUMENT**

Members of the Woodmen of the World Unveiled Monument on Grave of A. A. Howes.

Twenty five members of the White Pine Camp, W. O. W., went to the Woods' district last Sunday morning

for the purpose of unveiling the monument over the grave of their brother, A. A. Howes. The party spread a lunch in the grove near the cemetery shortly after their arrival, and Mr. W. H. Wood kindly treated them to ice cream. At two o'clock the ceremony of unveiling was held, under the direction of Norman Carr, the marshal and Counsel Commander Carrington. The beautiful ritualistic work was very satisfactorily and impressively presented, and a chorus consisting of Miss Mary McLellan, Mrs. John McLellan, Miss Ellie Carrington, Miss (quick and Fred Greenwood, furnished excellent music. Miss Carrington also gave a reading that was very much appreciated. This order, in addition to promptly paying its death losses, also placed a \$100 monument over the graves of its deceased brethren, which is unveiled with appropriate ceremonies. The day spent in the little rural cemetery was one of profit by all the participants.

**OLD SETTLERS PICNIC**

The Holding of One Being Agitated by Many That Realize the Benefits Therefrom.

At various times the Pioneer-Tribune has agitated the advisability of holding an old settlers picnic or reunion in the city of Manistique. The agitation, while favorably commented on, has never brought the matter to a successful finale. During the current week a number of persons have expressed their desire that some effort be made to hold such a function, and the idea is certainly heartily sanctioned and supported by this paper. The old settlers of Manistique that were here during the pioneer days over the present generation such a treat. All would be pleased to hear the tales of early experiences of those who came here when Manistique was a little hamlet, and when the trails that led to and from the city were the runways of deer, and when nine tenths of the present town site was dotted a swampy, valueless tract. There are men here today that were residents more than forty years ago. Addresses from such old settlers as Mr. Martin (quick, Henri Brunel, Nick Irandorshy, and others, who lived here when the present city was an Indian village, would certainly be of interest to those who came here at a later period, and who have witnessed its transition from a pretentious village to a large and prosperous city with all of the modern improvements.  
Why not decide to hold one, and to hold it this year.

Born, to Mr. and Mrs. R. S. Walters, a son, Monday of this week.

**LEVI RIVERS DEAD**

Was Oldest White Man in the State of Michigan, Having Been Born 105 Years Ago

**DIED AT GARDEN LAST WEEK**

Came to Upper Peninsula When Manistiquois and Other Cities Were Not Thought of.

Speaking of the death of Levi Rivers, who was well known here, the Manistiquois Press has the following to say:  
Levi Rivers, the oldest resident of both county and one of the first settlers in this district, died on Wednesday at the home of relatives at Garden, at the age of 105 years. Mr. Rivers at the time of his death was not only the oldest white resident in the upper peninsula of Michigan but was the oldest white resident of the state. Coming to the upper peninsula more than 60 years ago Mr. Rivers first settled at what is now Massouville where a saw mill had been established and since that time had made this county his home constantly.  
Funeral services will be conducted over the body at Garden this morning and the body will be taken to Cook's Mills for interment.  
Mr. Rivers came to this district before Escanaba was even a village. He was employed for some time at the mill at Massouville and later was employed at Flat Rock and in what is now the city of Escanaba. He witnessed all of the many transitions of this district from the luckwoods station to the coming commercial center of the upper peninsula and up to the final moments of his life exhibited a lively interest in the affairs of the peninsula.  
He witnessed the transition of Escanaba from an Indian village, 60 years ago to the prosperous city which it now is and has many friends both in Escanaba and throughout the surrounding district.  
Since 12 years of age, Mr. Rivers had been a constant smoker and up to the final days of his life offered his life as an argument favoring the use of tobacco.  
Mr. Rivers was the father of Mrs. Rufus Spalding of this city and was the father of eleven children, eight of whom are dead and three are living.  
That the people of Schoolcraft county want to read the Pioneer-Tribune is not only necessary to state that more than 100 names have been added to its subscription list during the past three weeks. Our offer of 50 cents from date to January 1st 1910, still holds good.

**SPORTSMEN TO MEET**

The Gun Clubs of the Upper Peninsula Will Hold Two Days' Shoot at Munising

**MANISTIQUE TO BE REPRESENTED**

Plans Being Made to Send Five of Our Best Shots There.

The Upper Peninsula Sportsmen's association will hold a meeting at Munising August 6th and 7th. It is hoped that the local Rod and Gun club will send a number of its best shots to that city at that time. Speaking of the proposed meeting the Munising News says:  
The program for the coming meeting contemplates a business meeting of the association some time before dinner on Friday, August 6th, to complete the organization of the Association.  
The afternoon of the sixth will be devoted to a prize tournament the particulars of which will be printed in these columns in the near future. There will be several prizes well worth competing for hung up to this tournament. Among these will be a handsome Association cup.  
Friday night will be taken up either with a moonlight ride on the bay or a banquet Saturday that is not taken up by Capt. and Mrs. Topperman, who are to give exhibitions of fancy shooting trick said to be almost marvellous, will be employed in seeing as many as possible of the number-

ous sights in the vicinity of Munising. On Saturday night the visitors will be handsomely entertained by the members of the local rod and gun club, by the members of the Business Men's Association and by the citizens in general.

**IN DRY DOCK**

Ann Arbor No. 4 Placed in Dry Dock at Milwaukee.

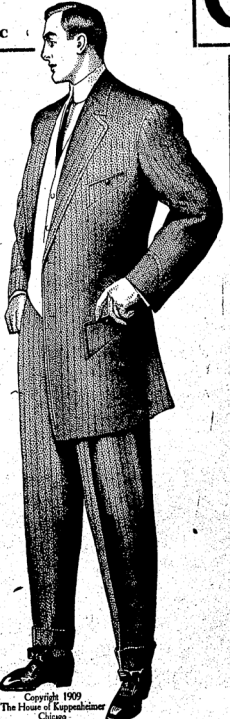

Ann Arbor ferry No. 4, which burned turtle in the local harbor two months ago, was towed to Milwaukee from Frankfort by the tug W. H. Meyer, last week, and placed in the south dry dock for repairs. Speaking of the best the Evening Wisconsin says:  
It is expected the work of restoring the ferry to navigable conditions will take several months. The port side bulges outward several feet and a large hole was cut into the starboard side through which the wrecking tug favorite lifted the loaded cars.  
When the ferry turned over on her side she filled with water and the work of taking the cars out and raising the boat was a difficult undertaking. An adequate estimate of the damage cannot be made at this time, but it is believed that it will cost nearly \$100,000 to restore the ferry to her former condition.

Mr. William Buchanan, father of Milton Buchanan, who was injured here this week, arrived in the city from Wisconsin early this week. He was accompanied by his two daughters, who came from Madison.

DEPARTMENT STORE

At the launching of this great Clearance Sale we offer you more complete lines in every department than at any other previous sale. It is our plan at this season of the year to put in force a vigorous and decisive low range of prices in order to accomplish quick and absolute clearance of SUMMER MERCHANDISE. We don't carry merchandise over from one season to another but dispose of it ere the season is ended, that is if price inducements will move it, in pursuance of this policy prices have been marked down without reserve. Manistique has had her usual assortment of sales, in fact they have been as plentiful as the proverbial sands of the sea. Perhaps you have been disappointed in some of them, the values haven't come up to your expectations. But here is a sale that's different, this ad. tells you in plain language the advantages that await you here, and when you come you won't be disappointed.
