WHO CARRIES YOUR FIRE INSURANCE?

No. 7

The Liverpool & London & Globe Ins. Co. has a world wide reputation for its fair dealing and financial strength. It is probably the best and most widely known insurance company which is doing business today. This company paid all its losses at the San Francisco fire in full without discount, and was commended for its fair dealing.

Why place your insurance in a weak company, or in any company which has not a long record behind it when you can get a policy in a company like the Liverpool & London & Globe Ins. Co. for the same money.

Mrs. Beckwith of Blaney spent some days visiting her parents this week, Mr. and Mrs. Lomnie.

The M. E. Sunday School will picnic at Dickie's grove next Thursday, weather permitting. A good time is promised to all.

Excavations are started on the new schoolhouse, the same to be built in the center of the town between the home occupied by Dr. Campbell and A. S. Duncan's property.

The eight year old son of Mr. and Mrs. George Conners, Portage township, died last Thursday. The funeral was held Sunday at the Germfask cemetery. A large number paid their respects by attending the funeral. The services were conducted by Rev. Callister of the M. E. church, Germfask. The sorrowing parents have our sympathy in their hour of sorrow.

A brother of R. N. Culver, our present teacher has been engaged to teach the next school for next term. The parents of the children in that district feel that they have been wronged as a petition signed by almost every parent for the return of Miss Bell was placed in the hands of the board in ample time to act upon. Miss Bell was one of the best teachers the school has ever had. Her moral standing in the community was without reflection. Her teaching cannot be disputed. It is not always wise for a school board to ignore the wishes of the people who placed them in office.

A Better Play Never in the City.

Eugene Moore invites us to take a jaunt with him to the mountains of eastern Tennessee. It's a pleasant trip through the masses of blue-tinted, the forests of walnut, poplar and majestic oaks, up to the pines, to the "Skyway" here we are shut off from the world below by thin vaporous clouds in all directions in the distance we see Mt. Lookout lifting its head above a sea of white mist around which was waged one of the above terrific battles of the Rebellion. In another direction we see the little old schoolhouse of Shell Creek, here Gladness has been burning her three "R's" and dotted here and there on the mountain sides are the cabins of the mountaineers, the most pretentious one being the home of Gladness. The Lees occupy almost the entire county and are all powerful, they are a strange people, holding very little communication with their old world, content with the bare necessities of life. Gladness had never been over to the foot of the hills, never seen beyond the mist which enveloped her mountain home and until the new schoolmaster has come to Shell Creek, she lived a life of drudgery and darkness, when Richard Clay the young schoolmaster came and told her the wonderful stories of the world below and beyond, she listened in awe, devoured all he told and hungered for more knowledge, and when it came time for the schoolmaster to go away, she awoke to the fact that there was never such a man, there was no one half so good, he has made her see all that was beautiful in the world and she loved him, and was willing to follow him to the end of the world. The love of the schoolmaster for his pupil was no less than hers, and Eugene Moore, in his beautiful play "The Tiger and the Lamb," with a kindly hand, has galloped the two lovers down the tortuous mountain sides, threatened by death on every hand, into the smiling valley of life. Take a jaunt with Mr. Moore to the opera house on August 10th.

Revolt at Cold Steel.

"Your only hope," said three doctors to M. E. Fisher, Detroit, Mich., suffering from several years' trouble, lies in an operation," "then I used Dr. King's New Life Pills," she writes, "and I'm wholly cured. They prevent Appendicitis, are constipation, Headache. 25c at E. N. Orr's drug store.

Ekimo Graves of Stones.

To the Ekimo mind everything animate or inanimate possesses a soul. Thus in their graves we found they invariably placed every stonehenge position, that their spirits might serve the departed spirit in the same capacities in the life to come. There is little room for burial beneath the frosty earth in Labrador, even if the earth would permit. So the grave consists of upright stones, with long and once laid across. These not only serve to keep the waves from the body, but white shells also afford the spirits free passage in and out.—Wittred T. Gruffell in Century.

Uncle Sam's Human Hinges.

One often thinks the doors of public buildings are set on springs and slip to and fro as the visitor wills, but in Washington it appears necessary to have a special man to open and close the doors—human hinges, as it were—on undisciplined bands of doors there. This custom has died out in other places, but there are many veterans who live in Washington who have seen years of such service for the government. They have a slightly way of performing this office, which gives a close an official and undisciplined swing—see Mitchell Chapple in National Geographic.

A Mystery to Father.

"So your daughter has gone to Europe after all," said Mr. Baysse. "Yes," drawled Farmer Haysse; "she's been busy 't' go ever since she left school. CARRIES GREAT CARGO

Steamer De Graff Brings in 12-887 Tons of Coal to Milwaukee

The steamer Le Grande S. De Graff arrived at Milwaukee last Friday afternoon with the largest cargo ever carried on the Great Lakes—12,887 tons of coal—which surpasses any cargo heretofore carried by over a thousand tons. The De Graff is said to be the largest craft on the lakes, with a total length of 606 feet 7 inches, and a beam of 60 feet. One other boat surpasses the De Graff in length by 18 inches but is narrower in the beam by 2 feet, which, according to officers and crew of the De Graff, more than makes up the difference in length.

The big boat belongs to the Western Transit company, Tonawanda, N. Y., and was built in the spring of 1907, this being her third season on the lakes.

It is estimated that take it will three days to unload the De Graff at the docks of the Central Coal company. Twenty-seven and a half Canal streets. She drew 29 feet entering the harbor.—Evening Wisconsin.

A LAZY LIVER

Is Responsible For Most of the Constipation in the World.

There are many Laxative Pills, but it is doubtful if any are so efficient in compelling a lazy liver to perform its duty as Booth's Laxative Pills. Their action on the liver and bowels is certain yet gentle and effective. They promptly cure constipation by toning of the liver, stomach and bowels. They create an appetite and will cause an improvement in the general condition of any run down person. Booth's Laxative Pills act so gently and easy on the bowels, that they give a joyful surprise to sufferers who have been using ordinary laxatives.

A. S. Putnam & Co. sells them for 25 cents a box and he knows they are all that is claimed for them. "I have been a victim of constipation for a long time. Several remedies were used by me without any apparent relief. Seeing Booth's Laxative widely advertised, I procured a treatment. I found this remedy was far ahead of any other that I had used."—Malcolm Gow, 88 Marshall St., Battle Creek, Mich.

A Prescription From Old Ireland

E. N. Orr & Co., druggists, have broken all records and have received the first shipment of Irish Liniment ever made to this section of the United States. Irish Liniment was prescribed by Dr. DeCoursey, who in his day, was the best known man in Ireland, and whose name still tells of his wonderful article was a household word. It will cure any case of Rheumatism on top of each and for Rheumatism in any form, the results are beyond expression. It will bring the impurities to the surface, which means a cure, and which no other preparation was ever known to do. Book with every bottle. Tells of other ailments that will surprise you.

Go to E. N. Orr & Co. drug store, get a bottle of Irish Liniment and you will know the day you did it.

Cut this article and keep it for reference.

If Irish Liniment will not do all you claim it, go back to E. N. Orr & Co.'s drug store and they will give you 50 cents for the empty bottle on your honor as an American citizen. 50 cents by express prepaid. Company, Gilbooth Irish Liniment Company, St. Paul, Minnesota.

Aliens Should Lose No Time Getting Papers.

All aliens who desire to become citizens of the United States should do so without delay. The Department of Commerce and Labor recently petitioned Congress to enact more stringent laws governing the naturalization of aliens and also to double the present fees. In all probability some action will be taken at the next session of Congress.

Any alien of the age of 18 years may declare his intention to become a citizen. For this he requires no witnesses.

For second papers the petitioner requires two witnesses who have known him for a period of five years continuously and who themselves are citizens.

Those who have taken out their first papers should lose no time in taking out their second, as declarations under the old law will be cancelled in 1911.

First papers cost \$1.00. Second papers cost \$4.00.

Soldier Bats Death Plot.

It seemed to J. A. Stone, a civil war veteran, of Kamp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed so fast that it took me, in spite of remedies for 2 years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." For sore colds, obstinate coughs, hemorrhages, asthma, and to prevent influenza, take a box of Dr. King's New Discovery. Guaranteed by E. N. Orr & Co.

Cures Hay Fever and Summer Colds.

A. S. Putnam, Batavia, Indiana, writes: "Last year I suffered for three months with summer colds, and it was so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case and I took several remedies which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has also used Foley's Honey and Tar with the same success." For sale by E. N. Orr & Co.

CRUELITIES IN CHINA.

Torture of Prisoners Carried to Point of Refinement.

HOME OF THE WATER DEATH.

A Worse Infliction Than That of Being Tied to a Beam by the Thumbs and Dig Toes—The Gastaingo and Flopping With Spilt Bamboo.

China is a land of contradictions and mysteries. It baffles with surprise. The abstruse nature of its institutions is in marked contrast to their laborious execution.

"What a poor, weak looking baby you might say to a Chinaman about his odorous and ill smelling shavers he will reply: 'Just wait in a month's time and ask him how the youngster is getting on.'"

"The disease was a fatal one," he will answer, with another significant shrug. If the child were a girl you could safely draw your own conclusions as to its fate. John Chinaman has no use for deformed or very sickly children, particularly girls.

Torture of prisoners has been carried to a point of refinement. One of the most terrible was surely the case in which a man was killed so that his head just protruded at the top, while his toes only touched the ground sufficiently to prevent dislocation of the neck.

The limbs were bound behind him so that he could not relieve himself, and he was left to fester in his public toilet hunger and exhaustion put an end to his sufferings.

The day of the execution, too, is by no means over. The prisoner is strung up in a severe condition, and the chief aim of the far famed Amoy was with a case, with the result that the victim seldom recovers.

When the man comes back from flogging he is tied to the back with the concave side of a split bamboo, which cuts at every stroke into the flesh.

China, by the way, was the home of that terrible death by water drops. The victim's head was placed on a wooden barrel, and water was poured at short intervals were allowed to fall from a height on to his forehead—a far, far worse infliction than that of being tied to a beam by the thumbs and big toes.

The corpse is regarded as a contemptible article of rubbish. This consists of a wooden cart, about four feet square and four inches thick, which is placed over the prisoner's body, so that its full weight falls on the shoulders.

A description of the odious is also attached to the victim's body, and he cannot feel himself to be any longer on the public for sustenance.

Conservative to a degree, it is not surprising to find that the whistler as a passenger vehicle is still in vogue, as, too, is the ferry, consisting of a boat, loaded with water, and nowing the staple diet, rice, is of the simplest and most out of date description possible.

The rice is placed in a cement basin, over which is a heavy stone at the end of a long lever. This is worked up and down by two hands, in the form of a cross, attached to the axle of a huge hand turned wheel.

For staples of keeping a city informed of the news the Canton would be hard to beat. In one of the temples are four large earthen jars on successive shelves.

Water descends by slow drops from one to the other, a brass scale on a float in the bottom one indicating as it falls the hour of the day.

WESTERN CANADA
320 Acres Instead of 160 Acres

An further introduction to settlement of the Western Canada lands. The Canadian Government has increased the area of land available for homesteads by taking by a homestead act of 1908 160 free and 160 to be purchased at 50c per acre. This is the greatest raising in the history of the West.

A railway will shortly be built from the city of Medicine Hat, Wyoming, to the city of Calgary, Alberta, and will pass through the Western Canada lands. This will give the homesteaders a direct line to the great markets of the West.

Send for a free pamphlet describing the Western Canada lands and the homestead act of 1908. The pamphlet will also contain a list of the names of the homesteaders who have already settled on the Western Canada lands.

Presbyterian Social.

The C. E. social at the parsonage on Wednesday evening was a success in the fullest sense of the word. It was largely attended and everyone enjoyed himself to the utmost. The young ladies brought in such delicious viands and in such abundance, that there was a regular feast. A short musical program was then followed out that was most thoroughly enjoyed by everyone. A male trio consisting of Mr. Hansley Weber, Mr. Allen Birch and Mr. Alton Norton rendered a piece of music in such an excellent manner that they were called back and asked for another song. Mr. Chester Weber sang a solo to the great delight of all and an encore brought him back. Miss Ward sang in her usual manner with such pleasing effect, that she was also compelled to appear again. Miss Peterson, then delighted everyone by her skillful render of a difficult and exquisitely sweet piece of music. And she too was asked to favor the gathering with another, which she did with pleasing effect. There were then some games that showed each one's ability in drawing and which afforded a lot of real fun and enjoyment. It was not until near the middle of the night that the young people dispersed.

Mr. Joseph Lerville of Cooke, was adjudged insane in Judge Ashford's court Tuesday, and was taken to Newberry Wednesday by Sheriff Smith.

Henry Schuetter Committed Suicide Last Saturday Afternoon. Died in Terrible Agony

WAS EVIDENTLY INSANE

Had an Unconquerable Aversion With- out Reason to the Day Preceding. Was Hurling Fireballs.

This community was startled Saturday afternoon with the news that Mr. Henry Schuetter had committed suicide. He took a large quantity of paris green in dry form, evidently about a half pound, shortly after dinner, and expired almost immediately after taking a drink of water, given him by his son. As soon as the family ascertained what he had done, a physician was called but he passed away before the doctor reached the house.

On the previous day he swallowed a quantity of chloroform, but it failed to kill. Mr. Schuetter was evidently insane for some time. A brother it is stated died in an asylum.

He deceased was born in Pommer, Germany, about 20 years ago. He came to America twenty-nine years ago and located in Manistique. Prior to coming here he acquired the trade of cigar making. During the first few years of his residence here he was in the employ of the C. L. Co., and when Peter Zimmerman established his cigar factory where he worked for him for many years. About eight years ago he purchased a tract of land on the lake shore east of the city, and engaged in market gardening, which he followed up to the time of his death. He worked at cigar making during the winter. He made the change for no other reason, as he could not stand the confinement of his trade.

He was an industrious, hard working man, but possessed traits and idiosyncrasies, which his manner of death certainly prove were the result of a diseased brain. He was well liked by his associates, and always had a cheery word for friends that he occasionally met.

The funeral services were held from on the home Monday afternoon at 2:30 o'clock. Rev. Schoemaker of the First Baptist church, officiated, and preached a sermon in the German language. The members of the German society, Sons of Herman, attended in a body, and the pall bearers were selected from the membership. He was a member of this order as well as of the Macabees. The funeral was largely attended by friends and relatives.

Aside from the widow he leaves eight children, and several sisters.

TO BOOM FAYETTE

The Cleveland Cliff's Co. Has Decided to Rebuild the Town of Fayette.

Taking up the matter in their characteristic manner, the Cleveland Cliff's Iron Company has decided upon the practical rebuilding of Fayette as a summer resort and the deal was closed when C. V. R. Townsend, land agent for the company, closed orders for the work which is to be done. The cottages will be practically rebuilt, and will be replanted and placed in first class condition again. The summer hotel will receive a similar treatment and the large hall where the dances are held will not be neglected. Grounds will be cleared up and the beautiful spot will appear in its best light to visitors. George English will have the work of rebuilding the cottages and the hotel and expects to rush the task to completion as soon as possible.

It is the intention of the company to boom Fayette in every possible way. The land agent of the company has seen the possibilities which it offers if rightly conducted and has induced the company to make the guarantee of the fact that the project will be pushed to the limit.—Eagles Mirror.

HAS A NEW OWNER

The Manistique & Lake Superior Railroad Co. Now Owns the M. & N. Ry.

CLEVELAND CLIFFS BEHIND DEAL

Will be Connecting Link Between the Iron Mines and the Coal Fields of Ohio.

The Manistique & Lake Superior Co., mention of whose incorporation was made in last week's edition, acquired by purchase, the Manistique & Lake Superior Railroad on Saturday of last week. The local officials received notice last Saturday afternoon to that effect. The Ann Arbor railroad company is ostensibly the purchaser, and the following persons are named as incorporators in the articles filed at Lansing: C. L. Horton, Isadore L. Carroll and Clarence J. S. Shover. The Cleveland Cliff's Co., if rumors are correct, is the real power behind the throne in the matter. It is also said that the Lake Superior & Ishpeming railroad, one of the lines owned by the company in question, now owns the controlling interest in the Ann Arbor system. Through its lines, the Lake Superior & Ishpeming, the Marquette & Soudan, and the Manistique & Lake Superior roads, a direct line now extends from the company's iron fields in Marquette county to Lake Michigan. An extensive acreage in Toledo, it is certainly plausible that the company should have a very close traffic relations with the Ann Arbor, if it is not the real owner.

The gap between the newly acquired road and the Manistique road at Evelyn, is being constructed, so that it is safe to predict that the main line of the Manistique & Lake Superior Ry. will not touch Shingletown when the link is completed. The local railroad officials know very little concerning the future plans of the new owners, and know little if any more concerning the personnel of the new owners, than the public does. For the present there will be no changes made in the force at the general office.

One of the directors of the road, Mr. Geo. K. Lowell, was in the city yesterday looking over things and making a trip over the main line and the various branches. The road has had a checkered career since it was sold by the C. L. Co. to its builders, and it is hoped that in the near future under its present ownership, it will attain the importance in the railroad world that it deserves owing to the strategic position it occupies. It is too early to predict
