WHO CARRIES YOUR FIRE INSURANCE?

The London Assurance Corporation was organized in 1730. It is one of the oldest and strongest of the English companies, and bears a high reputation for liberal dealing with claimants. It has a United States branch, the assets of which amount to \$2,516,236.00. These are the assets of the United States Branch alone, as like all other foreign companies doing business in the United States, the London Assurance Corporation is not allowed to advertise the financial standing of the Home Office. This company has paid over \$33,000,000.00 in fire losses since entering the United States. The London Assurance Corporation and nine other strong companies are represented by

Where is Your Hair?
In your comb? Why so? Is not the head much better placed for it? Better keep what is left where it belongs! Ayer's Hair Vigor, new improved formula, quickly stops falling hair. There is not a particle of doubt about it. We speak very positively about this, for we know.

Does not change the color of the hair.

Formula with each bottle

Ayer's

Show it to your doctor. Ask him about it. It is the best hair restorer.

Indeed, the one great leading feature of our new Hair Vigor may well be said to be this—it stops falling hair. Then it goes one step further—it aids nature in restoring the hair and scalp to a healthy condition. Ask for "the new kind."

EDITORIAL COMMENT.

The man in a dandy who can be ticked in a fair fight and still not complain.

And now a car shortage is predicted by railroad men. Prosperity is certainly here.

A miller says that the manufacturers of breakfast foods buy the cheapest grades of flour.

Old potatoes are like old men. They have to get out of the way when the new crowd comes in.

The trouble with too many men is that they are never at home when opportunity knocks, but are always there when some promoter with a graft happens to drop in.

To encourage a boy in idleness, to allow him to grow up without the ability to do any useful thing, is to do him the greatest possible harm. He is entitled to better treatment.

The ministers who are compelled to prepare and preach sermons to empty pews during the rainy period, will hail with joy the return of the parishioners that, at the present time are spending restless Sabbaths.

The street car line of Marquette says that it is allowed to increase the price of rides five cents straight. It is not on a paying basis, with rates now in vogue, and if the request is not granted the line may be discontinued.

The various fraternal societies on the United States carry insurance risks totaling \$8,000,000,000. Eight billions is such a large amount that it is hard to comprehend. It shows that the citizens of the United States believe in protecting their families.

Becher once truly said: When a man sells eleven ounces for twelve, he makes a compact with the devil, and sells himself for the value of an ounce; he sells himself as many devils as the number of times that he sells eleven ounces for twelve.

Hitching racks should be placed on the side streets for the convenience of the farmers. There was a time when there was but few farmers in the territory contiguous to the city, but this is not the case now. Racks would be a great convenience, and are really needed.

I do the very best I know how—the very best I can; and I mean to keep doing so until the end. If the end brings me out all right, what is said against me won't amount to anything. If the end brings me out no different, then angels swearing I was right would make no difference.—Abraham Lincoln.

It will be some consolation to the grief-stricken parents of the lad killed at the mill last Saturday, to know that his last moments on earth, were spent in offering a prayer, and that when death was gazing his eyes, a bystander heard him petition for the "Father, Son and Holy Ghost." The impress made upon the bystander, by this exhibition of resignation and simple faith can never be effaced.

The local picture theatres are certainly giving their patrons an opportunity of seeing the best there is in that line. The programs at the Star and Princess theatres this week have been exceptionally good, all week, and the program for tonight and tomorrow afternoon and night, have rarely been excelled here. Attend both shows and encourage, both proprietors who are sparing no pains or expense in securing high class service.

Aside from raising ore, many of the iron mines are compelled to expend much money in treating the mine's water. At the Chapin mine at Iron Mountain, a monster pump is kept in operation constantly. Its capacity is 3,000 gallons a minute. It is estimated that ten tons of water must be raised for every ton of ore hoisted. The stroke of the pump is ten feet, and the fly wheel turns forty feet in diameter and the weight of same is 1,500.

One good feature about the new liquor law is the fact that no surety can go on more than one bond and he cannot obligate himself to a greater amount than the assessed valuation of his property in this county free from all incumbrances and indebtedness. Therefore one man has gone on more than one bond, even if he did not have tangible assets to legally qualify. Bonds offered by surety companies will be more popular in the future, providing that the county does not go "dry."

One of our exchanges says that the state is spending \$50,000 a year on the experiment station at Chatham. How about it Mr. Geismar?

According to the last census, men have a death rate of 19 to 1,000 in this country, while the rate among females is 16.6 per thousand.

Hon. "Tip" Aplin, who was for many years a power in Republican state politics, and who was the recipient of many honors in the lay district, is at the point of death.

The man that buys liquor illegally always tells about it. He is in the same category with the fellow that happens to get a free ride on the railroad by giving the conductor a small fee.

Amos S. Musselman of Grand Rapids, has declared positively that he will be a candidate for the governorship, and says that when he makes his formal announcement his platform will accompany it.

The busiest man in Eccanania is Rev. Frederick Spores, pastor of the M. E. church. He appears to be a human dynamo. Aside from his ministerial work, he makes from one to six addresses weekly.

Since the cow ordinance has gone into effect at St. Ignace, it is so distressingly quiet night, that the inhabitants are considering the advisability of hiring some one to carry a cow bull through the streets in order that they should be waked.

The editor of a newspaper deserves more pity than he is in the habit of receiving at this time of the year. There is "nothing doing" but he is expected to issue a new paper, notwithstanding this overwhelming handicap.

"He is not particularly well liked," we heard a citizen say of his neighbor. None of us are. Anybody seeking recommendations can get a lot of handsome ones, and were he to ask for the other kind, an equally large crop would be forthcoming.

The new Lincoln ponies are too large to be used in the pony sack machines, an effort will be made to have them recalled. It will require a more convincing argument than that to convince the government that they should be taken from circulation.

J. J. Hill has so much faith in the prospects of the country under the new tariff adjustments, that he has purchased a million dollars worth of new engineering and railroad stock. By the way, such things help to lighten good times, for the bulk of the money expended goes to labor.

There are people that show great disappointment when editors are chummy, and treat each other as satisfied beings. The people in question would be better satisfied were the editors to "claw" each other, and give a continuous bull-fighting performance. The reason why they desire this, is the text for another story.

The persons that do not attend Sunday laws ball games, should patronize the week day games that are scheduled by the Tigers. If necessary, give your clerks a half holiday when the games are played, but if it is impossible to attend, purchase a ticket or two and encourage Manager McPhail in his laudable effort.

Tobacco is a life saver after all. A man that ran afoul a live wire a few days ago and received a current of 2,300 volts, involuntarily swallowed a quid of tobacco when he grasped the live wire. He was unconscious for several hours, and his recovery is attributed to the fact that the tobacco acted as a stimulant and kept up heart action.

If every smoker in the city was to patronize local cigar manufacturers, at least fifteen more men would give employment in this line of business. The wages paid these men would help to make Manistique more prosperous. Have you ever thought of this? The next time you buy a cigar, ask for a Manistique brand. Dealers could assist materially were they to push the sale of the home product.

Hon. James T. Bennett has been named by President Taft as census supervisor for the Twelfth district. Mr. Bennett is a resident of Chippewa county. His appointment meets with universal satisfaction in this section of the district. He is amply qualified for the responsible position, and is popular with all knowing him. We congratulate President Taft upon the wisdom he has displayed in the choice of supervisor of this district.

Chemical plant tar for macadam street dressing, is found to be the cheapest and best covering ever used. It is durable and withstands the wear of heavy traffic. Why wonder it is a good idea to use the Preparation on Cedar street and the other streets that have been properly graded? An extended account of the result of the experiments at Marquette, appears in another column.

A citizen of Owosso, who has devoted much time to the study of penal institutions, recently visited the prison at Marquette, and gives his observations and deductions in an extended article which recently appeared in one of the daily newspapers of Owosso. He thinks that the institution is a model and the best conducted he has ever visited. He also speaks very highly of Warden Russell. He interviewed the prisoners and visited their cells and workshops.

A newspaper can give free space in its columns to religious and fraternal societies, make excuses for the mistakes of mankind, draw the veil of charity over the lawlessness of youth and the weakness of womanhood in general, boost every private and public enterprise without hope of financial reward, give money to every charity and tell of people's beneficence, but if the editor of a paper goes wrong counter to anyone's opinion there is the devil to pay, and if he makes a mistake in printing there will be a hundred critics to point it out to him.

CATAVAPIC DISEASES OF SUMMER TIME.

Most people think that catarrhs do not move in the summer time, but the fact is generally regarded as a mistake.

It is certainly true that catarrhs of the throat, bronchial tubes and lungs are more prevalent during the summer months, but it is also true that catarrhs of the stomach, bowels and kidneys are more prevalent during the summer months.

These catarrhs are the result of the heat and the abundance of food, and the fact that the system is not accustomed to the heat and the abundance of food.

It is probably true that the most of the cases of catarrhs of the stomach, bowels and kidneys are the result of the heat and the abundance of food, and the fact that the system is not accustomed to the heat and the abundance of food.

It is a chronic congested inflammation of a mucous membrane. The mucous membrane of the stomach is so liable to catarrhs as the mucous membrane of the bowels, and the mucous membrane of the kidneys.

It is the same kind of a disease as the catarrhs of the bowels, catarrhs of the kidneys, catarrhs of all the other internal organs.

Catarrhs of the stomach, sometimes called gastritis, sometimes of the bowels, sometimes called enteritis, sometimes of the kidneys, sometimes called nephritis, sometimes of the bladder, sometimes called cystitis, sometimes of the prostate, sometimes called prostatitis, sometimes of the urethra, sometimes called urethritis, sometimes of the testis, sometimes called orchitis, sometimes of the epididymis, sometimes called epididymitis, sometimes of the vas deferens, sometimes called vasitis, sometimes of the spermatic cord, sometimes called spermaticitis, sometimes of the scrotum, sometimes called scrotitis, sometimes of the penis, sometimes called penitis, sometimes of the urethra, sometimes called urethritis, sometimes of the testis, sometimes called orchitis, sometimes of the epididymis, sometimes called epididymitis, sometimes of the vas deferens, sometimes called vasitis, sometimes of the spermatic cord, sometimes called spermaticitis, sometimes of the scrotum, sometimes called scrotitis, sometimes of the penis, sometimes called penitis.

We regard Poruna as an excellent remedy for these various catarrhs. Dr. Hartman's practice, which covered a period of many years, is now being carried on by Dr. J. J. Hill, who has been successful in curing many of these cases.

The following letters that we received from all parts of the United States in which the effect of Poruna is described in various instances, are so interesting, and so convincing, that we are compelled to publish them.

In this and other instances, Poruna is used in the treatment of all the various catarrhs of the internal organs, and in all the various cases of indigestion, flatulence, and other ailments of the stomach, bowels and kidneys.

THE BEAUTIFUL BIBLICAL DRAMA
BY HENRY THORN HUM

**MOSES,
PRINCE OF EGYPT**

CHILD MOSES ON THE NILE.

LOVE, HATE, AMBITION AND INTRIGUE ARE BEAUTIFULLY BLENDED IN THIS PLAY.

MOSES BREAKING THE TABLES OF LAW.

A semi-sacred romance woven around the young man Moses, afterward the great Hebrew law giver and builder of a great nation. In all the world's history, no man has left such an impress upon the human race as did Moses.

CONTAMINATED MILK

Simple Method by Which It May Be Sterilized in the Home.

This is the season of the year when the summer complaints of infancy and other diseases due to contaminated milk may be expected to be most prevalent, and a word of caution at this time may be the means of preventing many cases of sickness and fatalities from these diseases.

not in a condition for consumption in the raw state, due, principally, to the lack of hygienic measures in the milking and handling of the milk; and, unless the purity of the milk is actually certified to be the vendor, it should be subjected to sterilization, particularly when it is to be fed to infants. The following simple and inexpensive recommendation by Dr. M. L. Holm, the state bacteriologist, will fully answer the purpose.

"Set a quart bottle of milk with the stopper in it, just as it comes from the milkman, on two small flat sticks in a two quart granite boiler or pot. Fill the boiler with cold water to within an inch or two of the top of the bottle. Then take it off the fire without removing the bottle from the hot water.

by the pathogenic varieties, such as typhoid and tubercular bacilli. If careful attention is paid to these directions the milk will be practically free from the cooked qualities which will not be impaired. Such a bottle of milk, if kept in a cool place, will remain sweet for about a week.

"Moses, Prince of Egypt."

One of the legends connected with the death of Moses, the great Hebrew law-giver, is to the effect that he died on Ader 7, the anniversary of his birth, at the age of 120 years. The legend goes that the angel of death was sent to the earth to bring back the soul of Moses. He said to the angel who went back: "Give me your son." Moses replied: "The angel who went back reported to God what had occurred and God said to earth: 'Bring me the soul of Moses.'" But when the angel came to earth, Moses had disappeared and could not be found. The angel went to sea to look for him, but the sea answered that Moses was not there. The mountains said that Moses had been hidden away and so the angel returned to heaven without the soul of Moses.

Concerning Moses and his life, a play has been written called, "Moses, Prince of Egypt." It will be seen at the Gero Theatre, August 25th, and it is said to be a gorgeous spectacle with a wealth of special scenery, electrical effects, and historically correct costumes.

Burdette's Definition of the Automobile.

The automobile is a large iron and rubber contrivance for transforming gasoline into speed, luxury, excitement and obituary. It consists of a handsome leather upholstered carriage body mounted on four rubber-tired wheels and containing a gizmo (all of machinery suffering from various ailments). It is the most modern and most stylish form of transportation known. It has run over 100 miles an hour and costs \$1000 per minute. It can transport seven people from the front porch to the police station, the bankruptcy court or the golden gates in less than any other known method.

Given Hard Blow.

According to the American Issue, the hardest blow given the liquor interests of Ohio since the enactment of the county local option law is now being delivered by county commissioner and council throughout the dry territory of the state. It has been the favorite argument of liquor men and liquor dealers that to close the saloons would mean a heavy increase in taxation. The temperance advocates have found this one of the heaviest objections to meet, because it takes time and expense to disprove it. It was to be expected that in the larger cities and more populous counties the loss of saloons would temporarily increase the rate of taxation. The temperance advocates did not claim that taxes would decrease immediately, but insisted that if the rate should increase it would only be for a year or two, until affairs had adjusted themselves to the changed condition. While the rate tax for the year 1910 has not been fixed in all dry counties and towns, enough has been reported to prove conclusively that even where there is an increase it is exceedingly slight and in no way burdensome. Many of the counties and towns have a decreased levy, something not anticipated by the drys, and certainly most disappointing and discouraging to the wets. In fact, so far as reports have been received, while great wet counties have increased the levy, most of the decrease can be traced to the towns and counties that have closed their saloons.

FREE BAKING SCHOOL

Noted Chicago Woman Coming Here to Explain It in Detail

Mrs. Louise Goggin, who lectures on the science of baking and serves as president of the Cook County Baking School, will be in Chicago on Tuesday.

To the ladies of Manitowish, the central invitation to meet with the noted Chicago woman is extended. Louise Goggin of Chicago and her husband, who are lecturers on the science of domestic economy, will be in Manitowish on Tuesday. Mrs. Goggin is an expert in the art of baking and her lectures are certain to interest you and instruct. There will be no dread of bake day after seeing this expert and receiving her helpful suggestions. Mrs. Goggin is an exponent of the art of baking as taught by Mrs. Janet McKintos Hill of the widely famed Boston cooking school and has many new and practical ideas that you are sure to find helpful. These lectures are free, there is no charge whatever. Tastes of delicious breads will be served to all who attend, hot from the oven while you wait. Chairs will be placed so that you may sit in comfort during these lectures and demonstrations. Classes will be held promptly at 2 p. m. Monday, August 23rd, and on each succeeding afternoon throughout the week. Mrs. Goggin uses the well known K. C. baking powder in her work. She thinks it is superior to others for reasons she will explain.

The following dainties will be baked and served at Monday's class: Biscuits, cake, date nuttin, tea biscuits and peanut cookies.

Don't miss attending the free baking school.

Representatives of the K C Baking Powder will call at your home and tell you of its great merit.

Ask them to show you the Janet McKenzie Hill "Cook Book," which contains the finest choice of recipes ever compiled. It is beautifully illustrated.

First Vice Pres., Nellie Bundy
Second Vice Pres., Mrs. John Little
Secretary, Mrs. W. H. McFallin
Treasurer, Mrs. John Robinson

The heavy rains that visited this section last Sunday were of incalculable benefit to the potato crop as well as to the other crops. The heavy crop was more better and many hundreds of dollars have been realized by the farmers and others in picking and marketing blueberries. The precipitation has been sufficient this season to insure a bumper crop.

A BIG TIME

Escanaba Will Hold Triple Attraction Next Week, A Three Days' Celebration.

A big program will be presented each day and if there is an unoccupied minute in the three days, the committee is not aware of it. Among the attractions will be horse ball games every day, balloon ascensions and parachute drops, horse races daily two bands, no stop parade on the 25th in which the city departments and officials, state naval brigade, fifty floats representing the business interests of the city, all of the secret orders, etc., will participate. Mr. N. P. Hall of Diamond Lake, C. L. Liles, and Supt. Geismar will deliver addresses.

Free street attractions will be of daily. Escanaba rates on land and rail routes. These rates will be in force from the 25th to the 30th.

On Serious Charge.

Joseph Smith of Grafton, was arrested by Sheriff Smith Wednesday on the charge of mayhem, preferred by Fred Mead of the same town and was brought to the city Wednesday afternoon. He was arraigned in Justice Knox's court and placed under bonds of \$500, and will be given a hearing tomorrow morning at nine o'clock. It appears that Smith and Mead were engaged in a fight, and that Smith hit the latter's nose.

The Governorship.

"The situation in Kent county, with its two candidates for governor, the funniest more than entertainment to the friends of Chas. S. Osborn, who are soon to see that gentleman slip his castor into the gubernatorial ring," remarks the Soo News, in connection with Mr. Musselman's revelation of his intention to be a candidate. "The more heated the contest between the two candidates from western Michigan, the greater the chance they may derive from the situation, knowing that should Mr. Osborn yield to their demand and become a candidate he is sure to have at his back the united, almost unanimous, voting strength of his home district, the upper peninsula, and the northern part of the lower peninsula, with numerous and potent friends and supporters throughout the eastern part of the state. The past two or three months has done naught but increase the enthusiasm of Mr. Osborn's supporters, who find the gubernatorial situation increasingly to their liking."

Mr. Arthur Burton is to place a furnace in his new Oakland residence.

UNABLE TO MOVE

Will S. Adams Edited Newspaper from Invalid's Bed for Sixteen Years.

In the death of Will S. Adams there has passed from life probably the most unique figure that the newspaper world has ever known. He was the editor and publisher of the Marquette Chronicle, an eight page evening daily.

The unusual fact in connection with this journalist's work is that it was accomplished from a couch from which he never arose and which he had occupied continuously since 1883. He was aged 32, yet his weight did not exceed 60 pounds.

Notwithstanding the fact that he was entirely helpless physically, that he could not handle a book, pen or typewriter, and that his eyesight was such that he was unable to read, his daily duties were attended to with that coltury not exceeded by that of any person in the full possession of his natural powers.

Lying on his cot year in and year out, not able to move any part of his body, and with a vision so dimmed as to be of no service, the achievement of this young man in publishing a daily newspaper was a feat so remarkable as to really pass comprehension. His hearing was acute, however; his voice was unimpaired, and his brain was keen.

Before the entire dismemberment of Marquette's unique journalist, he traveled extensively and there is not a town that he was not as familiar to him up to the time of his death as when he saw it years ago.

He had the distinction of being the first American boy introduced to the President Diaz of Mexico. He was a personal friend of former Commander-in-Chief of the Mexican army, now, governor of the state of Nuevo.

Yard Engine Gone to Frankfort.

The Ann Arbor engine, doing duty at the terminal in this city, was transferred to Frankfort and was taken across the lake on ferry 2. Messrs John Downey, engineer, and Noel Montague, fireman, accompanied the locomotive. Mr. E. O. Clark, switchman, left the following day, going to his home at Owasco. Mr. Charles Moody, for some time yardmaster here for the Ann Arbor, remains here in the same position.

Miss Sadie Tryon, who has been spending her vacation with relatives in this city, left for Green Bay last evening, where she will resume her duties as nurse in the St. Mary's hospital.

BREVITIES.

There is a fair sized crop of poor losers in this city.

Mr. W. E. Richard of Hiram, was a pleasant caller Wednesday.

Miss Edith Krause, of Milwaukee, the most unique guest of her parents Mr. and Mrs. Carl Krause.

Mr. S. Winkelmann left for Chicago Tuesday evening to purchase fall and winter goods. He intends making heavy purchases.

Mr. M. P. Winkelmann and Mrs. Joseph Wiseman left for Chicago and the east Tuesday for the purpose of purchasing a large stock of fall and winter goods.

Mr. and Mrs. Robert Allison and their guest, Miss Dady, and Mr. and Mrs. Frank Lane are camping at the lake. They are occupying the Teeple cottage at Harrison beach.

Sam Chapman who was sent to the hospital at Newberry some time ago, wrote a friend in this city that he never felt better, and wishes that means he taken to secure his release.

Mrs. J. A. Falk and son, Paul, returned home Sunday morning from a two month visit with relatives at Tacoma and Seattle. They enjoyed the trip and their stay in the far west.

Mr. William Luton, Jr., of Marinette, arrived here Sunday and is a guest of his uncle, Mr. Asa Parker. Since leaving here he has grown into manhood and is a husky, fine looking fellow.

Mrs. William Bragg and three children of Kendall, Mont., arrived here Monday on a visit to the former's parents, Sheriff and A. J. Smith. They expect to remain for several weeks.

Victor Remall of the postoffice force, is spending his vacation at Detroit. He left Saturday, and will remain there as long as the Tigers play on the home grounds. The presence of such an enthusiastic "fan" as "Vic" will no doubt assist the Tigers in regaining first place, and retaining it.

The excursion to St. James given by the Manistique ball team Sunday on Goubeau's gasoline boat, the Harvey G., was enthusiastic "fan" people including the members of the club. The ball game was an exciting one, the lead being maintained by the visiting team until the ninth inning, when the Beaverites tied the score, then 9 to 9. In the eleventh inning the home team succeeded in sending a player over the home plate, making the score 10 to 9. The excursionists had a pleasant trip both ways and the little boat made excellent time.
