THANKSGIVING DAY.

Union Services Well Attended at Presbyterian Church Yesterday Morning.

THE GRACE OF GRATITUDE.

Was the Theme of Dr. Schoemaker's Sermon. Appears in Full.

The annual Thanksgiving services were held at the Presbyterian church yesterday morning, and were largely attended. The services were in charge of Dr. Mitchell, pastor of the church, and the annual sermon was delivered by Dr. Schoemaker of the First Baptist church. The service was furnished by a quartet consisting of Mrs. C. H. Cox, Miss Hargrave and Messrs. McLellan and Webber. A feature of this year's service was an excellent dunt by Mrs. Cox and Miss Hargrave.

A union service was held at the Methodist church in the evening, and Dr. Mitchell was the leader.

The burden of Dr. Schoemaker's discourse was the grace of gratitude. It was an able effort, and for the benefit of all, was reproduced in this issue. It follows:

Text—"And Jesus answering said: Were not the ten cleansed? But where are the nine? Were there not found that returned to give glory to God, save this stranger?" (Luke 17:17, 18)

The grace of gratitude is not one of the prominent virtues of our age. Perhaps no nation has more to be really grateful for than ours and yet to a large extent we take our blessings as a matter of course. The incident from which our text is taken illustrates its tendency to ingratitude in the human heart. Jesus had just cured ten men of that loathsome ailment, leprosy, and only one of the ten returned to express gratitude to his benefactor. The Savior's heart was hungry for a single word of appreciation, but only one out of the ten who had been so signally blessed, sought the opportunity to give it. And if, as we believe, the heart of God is revealed in the heart of man, we may truly say that our heavenly Father is hungry for a word of appreciation from His children for what He has done for them. Do you, my friend, belong with the one who renders thanksgiving or with the one who went on their way in the full

A SLIGHT BLAZE.

Fire Department Was Called to the Court House Wednesday Morning.

VERY LITTLE DAMAGE DONE.

By Fire But Several Rooms May Need Reconstruction. Caught From Furnace.

The fire department was called to the court house shortly before noon Wednesday to extinguish a blaze that had its inception above the furnace. Aside from cutting a hole into the floor in County Treasurer Forshar's office to reach the seat of trouble, and the damage done by smoke and steam to the decorations of the various offices, the damage was slight.

It was ascertained that the asbestos covering the top of the furnace had ignited, and set fire to the ceiling of the basement in the vicinity of some of the hot air flues. A hole was cut into the floor of the lobby of the county treasurer's office and the incipient blaze was fought from the basement and the first floor and quickly extinguished. Aside from the damage done to the flooring by the smoke and steam the damage was nominal. The loss is covered by insurance carried through the Manistique bank agency.

The top of the furnace is close proximity to the top of the basement, and the danger from fire will ever be present as long as conditions remain as they are. The county should install a central steam heating plant between the court house and the jail. By so doing the danger from fire would be nil and after its installation its economy of operation would pay for itself in a few short years.

A FAMILY REUNION.

Also Betrothal of Miss Lillian Winkelman and Mr. Saul Saulson Announced.

WOMAN MURDERED.

Mrs. Carrie Lewis Killed in Resort at Shingleton.

Charged With Committing the Deed. He Was Jealous of the Victim, it is Said.

Shingleton was the scene of a cold blooded murder at an early hour Wednesday morning, in which Mrs. Carrie Lewis, a woman of unvarying reputation, and Frank Fitzpatrick, a so-called prize fighter, enacted the principal roles. Mrs. Lewis was shot through the head and died instantly, and Fitzpatrick, who was alone with the victim at the time the shot was fired, is under arrest, charged with murder.

The murder occurred at the house of prostitution conducted by Mrs. Riley, which is located south of Shingleton in Manistiquet township, at two o'clock Wednesday morning. Fitzpatrick and Mrs. Lewis were occupying a room in the front portion of the house, at the time the shooting occurred, and when the other occupants of the house, were roused by the shot and rushed to the apartment, they found Fitzpatrick outside of the house, and as he was approached he threw something into the woods, presumably the revolver. He, the mistress of the house and two others were placed under arrest by Deputee Bowman and Tild and taken to Manistiquet, as was also the body of the unfortunate woman.

Person conversant with the matter claim that Fitzpatrick was jealous of the woman and that she was the shooting was no doubt preceded by a quarrel.

The victim had a marriage license in her trunk showing that she was the wife of William Lewis, and that marriage occurred at Portland, Oregon. It is claimed that her husband resides in the vicinity of St. Ignace. She was known in Manistiquet and vicinity under other names. Fitzpatrick is also known here, as a so-called pugilist, but he has been making his headquarters at Searcy and Shingleton most of the time for the past two years. He and his victim are about thirty years of age. Fitzpatrick claims that some one shot through the window and killed the woman, and called attention to a shattered window to support his

CONTRIBUTED TO SUFFERERS.

Local K. of P.'s Sent Money to Cherry, Ill., Sufferers This Week.

REASONS FOR BEING LAKE.

Owing to the fact that the Pioneer Tribune carries has a penchant for turkey and other things that are used in preparing a Thanksgiving feast, the management decided to close the office at noon yesterday, so that the employees would have a respite from labor, and the time to enjoy their friends. In consequence the paper was not issued until this evening, instead of in the morning as is our usual custom. This will not happen again until next Thanksgiving day.

When it is remembered that there are nearly 10 widows and more than a thousand orphans as the result of the fire in the coal mine at Cherry, the needs for funds is clearly shown. The money sent by the local lodge, while not large, will materially aid in the work of relief, and it is hoped that charitably inclined persons, as well as the factors of the community, whose teachings banks on the common brotherhood of mankind and charity, shall supplement the donation sent from this city by the Pythians.

Miss Beatie McGinnis left for Nashville, Tenn., last evening, where she will resume her position in the telephone exchange in that city.

How Local Option Effects Poor People.
Mrs. Charles Haynes, head of the philanthropic work of Cadillac, who has carte blanche from one of the wealthy lumbermen of that city to fill in his checks for all sums she needs to alleviate the distress in the city caused by poverty, says that there is nothing doing in her line, that she is having no calls for assistance and that the customary contributions taken at Thanksgiving time for poor families will not be taken this year, as there is actually no need of it. Asked why conditions are so good she replied that no seasons there makes the helping of poor families unnecessary.—Manistiquia Herald.

"It affords me great pleasure to add my testimony to that of the thousands who have been benefited by Chamberlain's Cough Remedy. My child, Andrew, when only three years old was taken with a severe attack of croup, and thanks to the prompt use of Chamberlain's Cough Remedy his life was saved and today he is a robust and healthy boy," says Mrs. A. Coy, Jr., of San Antonio, Texas. This remedy has been in use for many years. Thousands of mothers keep it at hand and it has never been known to fail. For sale by E. N. Orr, A. S. Putnam, and Laflair & Neville.

How Local Option Effects Poor People.

Mrs. Charles Haynes, head of the philanthropic work of Cadillac, who has carte blanche from one of the wealthy lumbermen of that city to fill in his checks for all sums she needs to relieve the distress in the city caused by poverty, says that there is nothing doing in her line, that she is having no calls for assistance and that the customary contributions taken at Thanksgiving time for poor families will not be taken this year, as there is actually no need of it. Asked why conditions are so good she replied that no saloons there make the helping of poor families unnecessary. —Manistiquet Herald.

E. church, Miles' Grove, Pa. Sold by A. S. Putnam & Co., E. N. Orr, and Laflair & Neville.

OFFICIAL COUNTY AND CITY PAPER.

EDITORIAL COMMENT.

Hunting is as bad as drinking, is the way a fellow
put it this week.

That it is dangerous to drink liquor was again
proven this week by the fact that a small meteorite
struck a fellow who was standing in front of a Boston
bar.

One of Manistique's citizens, who left for the woods
on his yearly hunt last week, was responsible for the
temporary increase in the price of cattle on the hoof, as
long as he remained in the bush.

The people who insist that foot ball isn't any more
dangerous than any other sport have had a hard time
convincing the families of the 27 young men who had
been killed this season.—Pittsburg Press.

Did it ever occur to you to go to the cemetery and
compare the graves of dead men with those of dead
women, and see which are the best kept? The next time
you go to the cemetery, look about and see for yourself.

That an editor who lives up to the traditions of his
profession, has a grave responsibility, it is only neces-
sary to quote the following from John Newton. He said:
"I read the newspapers to see how God governs the
world."

That Business Manager Campbell of the Iron River
Reporter is bustling, is evidenced by the fact that Editor
Patrick O'Brien was compelled to apologize to his
readers for the fact that the advertising patronage had
dropped out of his local matter.

The Pickford Clarion is one of the best newspapers
published in a town: the case of Pickford in the United
States, and it is bound to be better in the future for
Editor Baldwin has secured an assistant, in an estimable
young lady of that city, who became his wife last week.

The president of mine inspectors for Illinois, gave
the Scotch a genuine compliment when he said that he
believed that more miners would be found alive in the
Cherry mine because twenty-two Scotchmen were still
in the mine, and through their resourcefulness, many
might yet be alive.

This incident occurred in a court room in the state
recently. A woman testified in a trial for divorce that
upon one occasion her husband told her to go to hell.
"And where did you go then," asked her attorney.
"Why I went direct to your office," was the answer re-
ceived.

No wonder the "kerosene crowd" blaze away at
everything they see, for a Detroit newspaper informed
that a deer's tag is a white patch on the throat.
It would take a lot of "patching" to fix up a hunter that
might be indifferent enough to travel through the bush
with a white sweater on should he take his strolls in the
vicinity of a cash check.

Now it is claimed that the packing houses are to
inaugurate a campaign of educating the public up to
the nourishing qualities possessed by the cheaper cuts of
meat preparatory to raising the price thereof. The
meatmen expect to realize \$100,000,000 per year if the
demand for the cheaper cuts is created. If every citizen
in the United States should do without meat for six
months there would be a decided drop in the price.

Dr. Mitchell's address on "Grumblers" delivered at
the Presbyterian church last Sunday evening, was heard
by a very large audience. The excellent address the
Doctor is making Sunday evenings, are creating much
interest, and are instructive as well. In the absence of
a lecture course, during the coming winter the Doctor's
efforts in this direction, will be doubly appreciated, for
efforts in this direction, will be worth a big
price one that has thus far delivered is worth a big
price of admission, but can be heard free of charge.

The prosecuting attorney and sheriff of Delta
county, appear to be unable to find conclusive proof that
houses of ill fame exist in Escanaba, and to refresh
their minds, the Escanaba Journal of last week called
attention to the fact that a girl under the age of fifteen
years, was taken from a house of that class by the
police, and that the proprietor of the house, paid a fine
of \$50 for having harbored the girl. If Baldwin con-
tinues to pile up evidence he may be able to convince
those officials that they are mistaken in their contention
that Escanaba does not possess a red light district, un-
less said officials are deaf, blind, dumb and paralyzed.

EDITORIAL COMMENT

Why kick on the price of turkeys this year. They
are cheaper per pound than pork.

There must be something wrong with the diet in
Finland for one is dissolved in that country almost every
month.

The Narway (current cities as an example) of sublime
confidence, the man who says that he will take a run into
the woods Sunday to get a deer for himself.

The Saturday edition of the Detroit News contained
a breezy, interesting three column write-up of Hon.
Chase S. Osborn, which was read with interest by his
upper peninsula admirers.

Some of the "insurgents" are no doubt sorry that
the Cannon who was executed for complicity in the up-
rising at Nicaragua recently, was not the Cannon that
presides over the destinies of Congress.

Twenty-six young men were killed during the
foot ball season just closed, and seventy were injured.
The records read almost akin to the history of the Kere-
nese Krow's invasion into the upper peninsula.

That Escanaba is not far removed from the unbeat-
en paths, it is only necessary to say that a deer ran the
full length of Ludington street a few nights ago, and
dodged the street cars and autos with sylvan-like grace.

The time to have defeated Cannon was when he was
a candidate for re-election to the Speakership. Pursuit
of him now results the dog with tailow legs chasing an
sabbos cat through the internal regions.—Recheat-
Herald.

Hon. Chase S. Osborn's gubernatorial campaign is
becoming more evident in every portion of the state.
At the present it looks as though Mr. Osborn would
receive nearly as many votes as all of the other candi-
dates combined. So note it be.

It is a poor law that makes it impossible for an
editor to thank his friends in a public manner for a
plentiful supply of venison, but it does not make him a
culprit to say that it was good and that he was very
much pleased for being remembered.

Wagglah upper peninsula editors are republishing
the article that recently appeared in one of the lower
peninsula papers in which the manification of the Kere-
nese krow, is pictured in glowing colors, and are plac-
ing it among the fancy items. It belongs there.

The Escanaba Journal announces that after January
1st, its subscription price will be advanced to \$2 a year.
There are newspapers published in this state, but they
are not worth \$1 a year, for it has something of in-
terest in every issue, and is one of the few progressive
papers published in this section of the state. The con-
tinual advance in the price of paper is compelling news-
paper men to make a radical increase in the price of
subscription. Under present conditions, few if any
papers are being published at a profit.

OSBORN AND FULLER.

Hon. Perry Powers, one of the best known men in
the lower peninsula, points the following in a recent
issue of his paper, the Cadillac News: "The state-
ment which has appeared from some source evidence
unfavorably to both Auditor General Fuller and Chase S.
Osborn, that Mr. Fuller would probably not be nominated
in case of Osborn's nomination for governor, is certainly
not based on Republican traditionary party procedure.
Mr. Fuller is in the second year of his first term of an
auditor general. He has shown himself to be a vigorous
state officer, intelligent, alert and courageous enough to
do what he thinks to be the right thing in the right
time, no matter whom it may please or displease. It
will be a most desirable privilege for the Republicans
of Michigan to renominate Mr. Fuller by unanimous ac-
tion. No other name will be mentioned or referred to
in that connection. Mr. Fuller lives in Chase
Osborn's own district. Mr. Osborn was one of his
most helpful friends when he was a candidate. Ordin-
ary gratitude will demand that Mr. Fuller should be
friendly and helpful to Mr. Osborn, and there is not a
man in Michigan regardless of politics with an ounce of
red blood in his veins who would not think much of Mr.
Fuller and be willing to do more for him because of his
favor for one who was friendly and helpful to him at the
time when he greatly desired help and friendship. There
is no other name of the world, sounded another warning
against extravagance, the Lucullan way of living, and
said it should get back to the old way of life, honesty
and milk, or else go to destruction.

"Not only in America, but in Europe," he said,
"is afflicted with the germ of recklessness. The country
gives the word. It provides the lesson. Our national
legislature sets the pace.

"We are spending millions on top of millions for
the army, for the navy, when we need neither.

"Germany, England and France are advancing and
preparing territory which naturally belongs to us.
We can recover that trade only by encouraging shipping
industry, by more marked competition, the latter after
all the real keystone of commerce.

"If I were in control of the finances of this govern-
ment I should spend more for the development of the
farm and less for the finances of firearms. I should
have agricultural stations situated in all parts of the
Union, where one might come to be taught how to grow
two blades of grass where but one grew before.

"I should like to see the government spending mil-
lions in the encouragement of men and women going
to the country, there to live as God intended they should
live, to raise children, produce grain, meat and milk.

"The country, as a government, ultimately must go to
backwards unless we induce the people to go to the
farms, out in the country, where health may be obtain-
able.

"We must learn to be less extravagant. We must
be taught to understand that the rate our people are
living destruction to the whole moral fabric of the
nation is inevitable.
