LOOKS VERY BRIGHT

Congressman Young Predicts Passage of River and Harbor Bill

MANISTIQUE TO RECEIVE SLICE

He Thinks That Estimate for Manistique Will Not Be Cut.

Congressman Young writes a Manistique friend that all indications point to the passage of a \$60,000 river and harbor bill during the present session of congress, and if this is done the estimate for the completion of the harbor will not be scaled.

This will be good news to the citizens of Manistique, for if the money is expended during the coming season it will materially and favorably influence the volume of business done here during the year 1910.

The completion of the harbor will place Manistique in the fore as the leading harbor on the north shore of Lake Michigan. This will favorably affect Manistique in the future. Situated as Manistique is, which the best harbor along the north shore, other industries will be attracted here and shipping will be increased via the carry lines. It also shows that Manistique has a brilliant future before it for the government is not disposed to spend hundreds of thousands of dollars on a short lived proposition.

Congressman Young, who has at all times shown a disposition to do anything in his power for the city, will deserve a medal of praise for assisting in bringing the matter to a successful finale.

Second Annual Ball

The Manistique Gun club will give its second annual masquerade ball at the Castello hall on Friday evening, Feb. 4th. Four prizes will be given as follows: Two to the best dressed ladies and gentlemen and two to the most comely dressed ladies and gentlemen. The theatre orchestra will furnish the music and a good time is guaranteed. Tickets will be sold at 50 cents.

For sale cheap—A team of mares weighing 1400 pounds each. Call on or address August Hillier, R. D. No. 8.

WAS ACCIDENTLY SHOT

Geo. Arnold Brought Here Monday From Trout Lake With Bullet in Hand.

Mr. Geo. Arnold was brought to this city Monday evening by Mr. H. J. Williams, foreman for Street & Chaffin, who are lumbering in the vicinity of Nubia, Wis., for surgical treatment, having been struck by a stray bullet Sunday, while he was walking along the Soo Line track within the limits of Trout Lake. He was going to fish at the time, and the ball, evidently of 22 calibre, entered his left hand between the thumb and fore finger and lodged in the vicinity of the wrist. He was taken to Sogndine, but the physician there was unable to do anything for him owing to the swollen condition of the hand, and because no one in the town who could administer the anaesthetic. He sent him to this city.

Arnold is a resident of Cadillac.

Week of Prayer

The Week of Prayer will be observed by the Presbyterian church next week commencing Sunday evening. The leaders for the various evenings will be as follows: Monday evening, Wm. B. Thomas; Tuesday evening, C. R. Orr; Wednesday evening, John Mohr; Thursday evening, Dr. Mitchell; Friday evening, Dr. Livingston.

WAS KNOWN HERE

Mr. Grant H. Rouse, Dies of Injuries at Detroit.

Mr. Grant H. Rouse, vice-president of the Detroit Cigar Manufacturing Co., who has been making this territory for the past ten years as representative of his company, who was injured by being struck by an automobile in Detroit a week ago, died as the result of his injuries last Saturday.

The funeral was held from his home Tuesday under Masonic auspices.

Mr. Rouse was a genial gentleman and during the years that he visited Manistique made many friends that sincerely regret his demise.

The police have been unable to learn of the driver responsible for his death.

JOINED ASSOCIATION

Local Gun Club Has Joined U. P. Sportsman's Association

MEMBERS WERE UNANIMOUS

Formation of Association Recently Completed. Preliminary Steps Taken at Meeting in January.

The organization of the Upper Peninsula Sportsman's association, has been completed and the local club, at its meeting held last week decided to join same. The preliminary steps of the organization were taken at the shoot held at Manisting last October.

The various gun clubs of the peninsula have also joined and the association's success is now assured.

The next annual shoot will be held at Channing early in September. The Manistique club will have an especially strong team at that shoot for the very best shots in the club will be carefully trained. While the club made a very good showing at Manisting in October, it is believed that with a little more practice a much better showing will be made at Channing.

President Whyte has purchased a twelve gauge trap gun of the Latave make, and after testing it, feels sure that he can break 100 straight when weather conditions are right.

EARLY CLOSING IDEA

Its Success Not Wholly Assured as Yet

SEVERAL OBSTACLES

At Least 90 Per Cent of the Business Men a Unit for Its Adoption.

During the current week an effort has been made to have the business houses, notably the dry goods and grocery stores and meat markets of the city to close at six o'clock every evening during January and February, save Saturday and pay nights. A petition for that purpose was circulated, and practically every business man in the lines above mentioned cheerfully signed the petition, but owing to the fact that a few did not seem it advisable to do so, the matter is at present in the air. The business men that did sign are very anxious to push the matter to a successful consummation. The public holds the key to the situation. If every one would decide not to make any purchases after six o'clock the stores would all close at that hour, without the necessity of circulating a petition. The business men and clerks are the hardest working people in the city. The average employe works at least twelve hours each day, and the business man puts in as much if not more time than his employees. They are away from home so much of the time that it is almost necessary for them to be introduced to their children every Sunday.

The press, the pulpit and the public generally should become interested in the matter and if all do their duty, the desired end will be attained. Every dealer on the west side signed the petition without protest, as did men like Sam Winkelman, L. Rosenthal, Ross Winkelman, the C. L. store, Frank Clark Co., John Castello est., John Anderson, Ekstrom & Nelson and many others that might be mentioned. Men in other lines will follow suit if the idea is consummated.

The newly elected officers of the K. of P. Lodge will be installed next Monday evening. An oyster supper will be served at the conclusion of the work.

Mrs. M. Ingalls of Duluth, is in the city, the guest of her sister, Miss Mary C. Anderson.

Sometimes "the men behind the gun" are overlooked, unintentionally. When a saw mill or any other industry operated by machinery makes a record season's run, you may depend that the millwright or the machinist, has assisted materially in making that record possible. While the foremen of the C. L. and W. L. mills deserve praise, the millwrights should not be slighted.

Mr. Sherman McNeil of the W. L. mill and Mr. Wise of the C. L. mill, can be given much credit for the good work done during the past season. Both are experienced mill-wrights.

To the Citizens of Manistique and vicinity:

We heartily extend a New Year greeting to our patrons and thank them for their liberal patronage during the year now almost one of the past. It has been a good year with us and we hope that the one to be ushered in to-morrow will be as kind in a business way.

Again thanking all and extending well-wishes for your future prosperity, I remain,

Yours respectfully,

EDITORIAL COMMENT

A Happy and Prosperous New Year to you.

Start the new year bright by subscribing for the Pioneer-Tribune.

"I intend to go to farming," said a citizen, "when I can find a country as fertile as a real estate dealer's imagination."

There are fellows that are cranks on the individual cup proposition, that are not so particular about the individual plot of tobacco.

W. R. Hearst, at a recent dinner went so far as to say that "what the Democratic party needs is not re-organization but resurrection."

It costs like smoke to live these days and if you try to get out of it by dying, the coffin trust and the inheritance tax will get a whack at your estate.

Every man who advertises and thereby brings trade and good will to his town is a public benefactor, helping not only himself but his town, his home.

What a good old word this would be to live in if the good cheer and philanthropy which surcharges the air on Christmas day were to continue during the whole year.

This office has received several inquiries concerning Schoolcraft county land from lower peninsula residents that are desirous of becoming permanent residents of this county.

"King Leopold is at Rest," has been the phrase used by numerous papers of late. Those who have been reading the tales of the Congo atrocities, and who believe in future punishment for misdeeds done during life, feel disposed to think that rest will not be his portion for ages to come.

The United States Brewing association admits that the sales of beer have fallen off one million barrels during the past two years on account of the prohibition wave. The reduction in output far exceeds that amount, but a portion of the decrease is attributed to economic conditions. Prohibition may not prohibit, but it appears to have the faculty of shrinking thought.

Mr. Osborn is endeavoring to make it clear that he is not interesting himself in the politics of the congressional contest that is framing up in this district, nor yet in the contest for the Manistique collectorship. Knowledge of Mr. Osborn's political acumen ought to be enough to assure that he would make no such mistake as having a hard time of it, preyed on as he is by all the interests that make a living out of his necessities.—Mining Journal.

On the threshold of another year, the Pioneer Tribune desires to wish every inhabitant of Manistique and Schoolcraft county a happy and prosperous New Year. What the year will bring forth for the various persons that will pass this item, is more conjecture. To many it will bring sorrow and disappointment; to others joy and prosperity. But whatever it brings in the wake, may it be for the best of the individual and the community.

That Manistique will be a more prosperous city at the close of the coming year than it is at the close of 1909 is a safe prediction for its growth has ever been upward. The indications for a snug appropriation for harbor improvement are very bright, and these alone will assure the expenditure of many thousands of dollars here. Then, too, every industry in the city is running full speed, except the mills, which from necessity are shut down every winter, and this means much for the city during the coming year. The year 1910 will be the kindest year in the city's history.

EDITORIAL COMMENT.

Write it 1910.
Did you get what you wanted?
Are you going to "resolve" tomorrow?
The Iron River Reporter now appears as an eight page home print newspaper.
Eventually you will be a Pioneer-Tribune subscriber. Why not subscribe now?
When you call a number on the telephone don't say, "who is this?" but tell who you are.

"The water wagon" will have far more passengers tomorrow than it will have a month hence.

A new course has been established at the Marquette normal school, viz: domestic science.

Every man who will get up early in the morning and try to collect it has a living coming to him all right.

Make an effort to be a better citizen during the coming year than you were during the year which closes tonight.

Resolve to make Manistique a bigger and better city during the year to come. Resolve to assist in so curing new industries.

It is now estimated that the Panama canal will be opened in 1916 and that its costs will be in the neighborhood of \$375,000,000.

Manistique has a set of clever, intelligent prosperous business and professional men, and an enterprising and law abiding class of citizens.

There is a time in a man's life when he wants to play in the band and go to lodge, but after he goes by that stage you can't get him to do either.

A naughty editor says: "I often wonder at the nerve that school girls have in repeating recitations before their teachers in which old maids are made a topic of jest."

A political machine is in process of formation in this county at the present time, which hopes to control the situation when a county road commission is to be placed in nomination. What the people will do to that particular machine when they have the opportunity to get at it will surprise the builders.

If you are bound to steal it is better to take a snag than a loaf of bread. Warriner, the defaulting treasurer of the "Big Four" railroad company, took about \$650,000 and received a prison sentence of six years. Had he broken into a bakery to secure bread for his starving family he might have received an equal sentence.

If Cook is the gross impostor that it now appears he is, yet a man that is cute enough to fool the entire world for a sufficiently long time to amass several hundreds of thousands of dollars, has some ability, after all, and that he might be successful in selling mining stock is evident. He could recastulate Golden Star, J. O. 41, Alice A., Kettle Curlew and other members of the same family so well known by Manistiqueans and make the people of some other section believe that they are bonanzas.

Every farmer of Schoolcraft county should attend an agricultural school for at least six months, or send one of his sons in his stead. Farming is more of an art at the present time than it has ever been before, and every farmer should be conversant with the best and most modern methods of tilling his soil and conserving it for future crops. A farmer that owns a good farm and who possesses the knowledge necessary to get all out of it that the soil will stand without impoverishment, is more independent than any business man we know of. The time is past when a farmer can harvest an annual crop of hay, pay no attention to the enriching of the soil and expect to realize a profit.

A Duluth paper relates the experiences of meat dealers there who rose in rebellion against the "poultry trust" and found the result satisfactory. Instead of placing their orders for Christmas turkeys with the commission houses, they obtained their supplies directly from the farmers, and were thereby enabled to supply their customers at a price about five cents a pound below what they would be compelled to charge had they dealt with the "trust." It is being asserted that the high prices prevailing for meats of all kinds, as well as butter and eggs, are due in a great measure to a combine among middlemen, who gather up and store these products and make their own prices on them to the retail dealers. When their exorbitant profit and that of the retail dealer are added to what is paid the producer, the figure obtained is one of a nature to make the consumers hair stand on end. Really, the poor consumer is having a hard time of it, preyed on as he is by all the interests that make a living out of his necessities.—Mining Journal.

That the business men of Manistique, notably the merchants, grocers and meat dealers are planning to close every evening of the week except Saturday and pay day nights, at six o'clock, is a matter for congratulation upon the part of the business men, clerks and the public generally. Merchants and their clerks are human beings and the long hours heretofore scheduled for a day's work, worked a hardship to all parties. Conducting a business requires brain-propping and exhaustive work upon the part of the proprietor and twelve or fourteen hours of this sort of work is more than the average man is capable of doing. Clanking in the hardest sort of work and when one is compelled to give them an opportunity for recreation and recuperation. The agreement if entered into will be for the months of January and February—and it is sincerely hoped that during that period the merchants and the public will be so impressed with its good features that the plan may be combined for an indefinite period. Other cities no larger than Manistique have been following the custom for years and it is entirely satisfactory. The public can materially assist in bringing this condition of affairs about, by deciding not to make any purchases after six o'clock should the new schedule of hours become operative after March 1st.

WILL TELL TAFT ABOUT STRIKE

Labor Leader to be Received by the President.

MAY USE GOOD OFFICES

Chief Executive Greatly Concerned Over the Railroad Situation in the Northwest and the Breaking Off of Peace Negotiations—Hopes to Avert a General Walkout of Granite Affiliated with the Switchmen.

Washington, Dec. 26.—President Taft will use his good offices to end the strike of the switchmen in the Northwest and thus avert a threatened general strike of granite affiliated with the railroad department of the American Federation of Labor.

This was decided on when a conference was held at the White House on Monday for the purpose of arranging for the meeting of the granite representatives of the American Federation of Labor and the switchmen which will be held at the White House on Tuesday. President Taft, Chairman Knapp of the Interstate Commerce Commission and United States Labor Commissioner or Nell.

The meeting will be held at the request of Chairman H. H. Burton of the railway department of the Federation of Labor.

President Taft is greatly concerned over the railroad situation and the failure of the peace negotiations at St. Paul, as explained by Mr. Perkins, head of the committee on the subject. He has received reports in reference to the status of the various branches with respect to their demands for increased wages.

ROADS' OFFER WITHDRAWN

Time for Switchmen to Return to Work Has Expired.

St. Paul, Dec. 26.—The railroad of the Twin Cities have formally withdrawn the only proposition which would make for the settlement of the switchmen's strike. This was their ultimatum, delivered through the American Arbitration Board. The proposition was that the railroads would accept terms made by the Chicago conference and take back their men as they went, when and as they wanted them.

"The proposition was ridiculous, if it was intended to be a single man, so far as I can learn, returned to work in any part of the affected territory. At this juncture, the railroads have withdrawn the proposition over the system of the switchmen hold meetings and adopted resolutions to stick and my telegraphic information shows that the strikers are as solid as the rock Gibraltar."

The railroad officials agree with President Taft that no men are needed, there being no need for them to return and the most reliable men wish to return places will be made for them by working out some plan which will draw the railroads from the strike of the new switchmen.

MARKET PRICE IS CHEAPER

Commission Opposes Paying Women Teachers Same as Men.

New York, Dec. 26.—That the market price of women's labor should be controlled and adjusted, their salary in the public schools and that, if the price was less than that of men teachers, the city should reap the profit was the tenor of a report by a special committee investigating the subject of teachers' salaries, which was made a forum among the teachers of this city.

The committee, composed of Gustave Schwab of the North German Lloyd Steamship Company, John B. Clark of the New York Central railroad and Charles H. Kim, declared that it would cost from \$7,000,000 to \$10,000,000 annually to equalize the salaries of men and women in the public schools.

WU'S ADVISE IS TO LIVE SILENT

Rolling Chinese Minister Has Parting Word for Americans.

New York, Dec. 26.—"You Americans do not talk; you talk too fast; you are too much concerned with your money; you are always worrying yourselves out and when I come back here in 1905 to impart new truths to you, I will be the youngest man in America."

Such was the farewell to America of former Minister Wu Tingfang, who on Monday left for Liverpool. Dr. Wu will spend two months in London with his son, Wu Chin Chiu, before returning to China.

Accompanying him are Madame Wu, his wife, his daughter-in-law, Madame Wu Chin Chiu, and her two daughters, and his son, Wu Chin Chiu.

Mr. Wu refused to be interviewed on Chinese affairs, but he finally consented to have a photograph taken with that of his wife and the rest of his party, taken near the dock and it was there that he gave his parting advice to America.

TROUBLE FEARED IN TURKEY

Immediate Establishment of Ministry Needed to Prevent Strife.

Constantinople, Dec. 26.—Only the speedy and firm establishment of a new Turkish ministry in the opinion of leading diplomats, can prevent a break in the ranks of the Young Turks following the resignation of Grand Vizier Hilmi Pasha and his cabinet.

Owing to the semi-anarchistic conditions prevailing throughout Turkey a division among the controlling party is likely to lead to grave disorders. The so-called liberals are also divided and the reactionary element may try to take advantage of the situation to rehabilitate itself in power.

BANK TRUST HAS GREAT SURPLUS

Immense Profits Made by New York Concern.

EXPERTS GO OVER BOOKS

State's Investigation Shows That Unreasonable Dividends Are Being Paid at Present Prices and Objectives—Will Do More to Promote Increase—Most of Capital Stock Represented by "Good Will."

New York, Dec. 26.—The investigation into the so-called milk trust by Special Deputy Attorney General Coleman was given added impetus by the startling discovery made by the state to go over the books of the larger milk companies in the city.

Concluded for the Boston Consolidated Milk company, controlling 28 per cent of the Sheffield Farms company, were suggested preparing to meet the analysis of Mr. Scudder, who presented his findings before the board.

Mr. Scudder stated that the books of the Boston company showed that more than \$15,000,000 of the \$20,000,000 capital stock represented "good will," which, the accountant said, represented nothing tangible but the way of account. On the company's books, a dividend of 6 per cent was paid on the preferred and 10 per cent on the common stock.

Mr. Scudder said the books showed a surplus of \$8,824,250, made in ten years, and a Special Deputy Attorney General Coleman in presenting to the company that if such profits are possible with milk at 4 cents a quart, what justification had milk companies for saying that they were losing money at that price and had to raise the price to 6 cents a quart?

Immense Dividends Paid.

Mr. Scudder further showed that of the Sheffield Farms company's capitalization of \$100,000 over \$200,000 was represented by "good will." The company paid 15 per cent dividends last year and in this year 22 per cent on its stock and the total amount was \$62,672, nearly double the capital stock.

Immense profits were shown to have been made by the Boston company at 8 cents a quart.

The Campbell company supplies more than 1,000,000 bottles of milk every month to Brooklyn families and Mr. Scudder showed that the net profits of the company for the six months ending last June were \$19,850, or at the rate of 26 per cent on the company's capital.

With the purpose of refuting the assertion that the companies lost money selling milk at 4 cents a quart, Mr. Scudder submitted figures from the books of the Boston company showing that during the nine months of this year, ending Sept. 30, last, the company made a clear profit of \$1,475,773 on 20,000,000 bottles of milk sold in New York and Chicago. This sum exceeds by \$122,947 the net profits in the same branch of the business in the corresponding months of 1903.

MANY SEATS ARE IN DOUBT

Liberals Will Have Hard Fight in British Election.

London, Dec. 26.—The English political situation is uncertain that the 953 aspirants, or already nominated or yet to be chosen for seats in the next parliament, not more than seventeen are considered to be absolutely certain of election. Of this number nine are Irish Nationalists and seven Irish Conservatives. The next election is the right Hon. James Lowther, speaker of the house of commons. By immemorial custom the speaker is chosen for life and consequently entitled to reelection after reelection. There are many others, however, practically sure of reelection.

The consensus of opinion of the best judges is that the Liberals will be returned to power by a considerably reduced majority.

FALL RESTORES HER SPEECH

Woman Unable to Talk for Years Cured by Slipping on Ice.

Neenah, Wis., Dec. 26.—Mrs. John Bawn has recovered her speech in a most peculiar manner, probably from an accident. Mrs. Bawn, who has been unable to speak clearly for several years as the result of sickness, fell on a slippery walk, striking the back of her head. To her surprise when she awoke she was able to speak and is now able to speak as well as any one.

POSTMASTER IS SUFFOCATED

Missouri Man Dies in an Attempt to Recover Stamps.

Chillicothe, Mo., Dec. 26.—Orrus Eastman, postmaster at Abingdon, was hurried to death in his home there. The fire was discovered and Eastman left the house in safety. He returned to get stamps and money belonging to the postoffice. He was overcome by the smoke and could not get out of the house.

How Our Doctor Successfully Treats Pneumonia.

"In treating pneumonia," says Dr. W. J. Smith, of Saunders, "Alb., the only remedy I would use for the lungs is Chamberlain's Cough Remedy. While, certainly I would treat other symptoms with different medicines, I have used this remedy many times in my medical practice and have yet failed to find a case where it has not cured the trouble. I have used it myself, as has also my wife for coughs and cold repeatedly, and I must willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge. For sale by E. N. Women Who Are Envious.

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood, give strength, nerves, bright eyes, pure breath, smooth, velvety skin, lower complexion. Many charming women owe their health and beauty to them. 50c at E. N. Orr's drug store.

GREAT PROGRESS
 Being Made Agriculturally in the Upper Peninsula

STATE'S GARDEN SPOT

What Supt. Geilmar Has Accomplished in Demonstrating Its Productivity.

At the state game meeting held in Traverse City last week, Leo M. Geilmar of Chatham, who is known as "the father of agriculture in the upper peninsula, being the straita apoke with extreme optimism of the agricultural possibilities of the upper peninsula. In an interview he is quoted as saying:

"When I went north in '87, the only farming districts were in Menominee and Chippewa counties. There, however, farm settlements in Mackinac, Marquette and Schoolcraft counties, but they were small, having been started some twenty years ago or so before by families who went out from the main roads of travel. The year I went to Ontonagon the Duluth and South Shore roads was completed from Neshoro to Duluth, about two hundred miles. At that time there was a very general impression that the upper peninsula would always be dependent on the outside country for a goodly part of its food supply.

From the beginning I was disposed towards the idea that much of the upper peninsula could be developed into farms. My first experiments were growing sugar beets. This was some ten years before the first sugar beet factory was built in Michigan and before there was any talk of trying to develop the beet sugar industry. I sent samples of the beets I grew to the agricultural department at Washington for testing. They were somewhat shrunken when they reached there and did not test like those grown in Michigan and before there was any talk of trying to develop the beet sugar industry. I sent samples of the beets I grew to the agricultural department at Washington for testing. They were somewhat shrunken when they reached there and did not test like those grown in Michigan and before there was any talk of trying to develop the beet sugar industry.

"I experimented with peas and became convinced that they were a crop that we could always depend upon. Time has verified my conviction. Thirty years ago Delaware was the center of the pea canning industry of the United States. Twenty years ago the center of the industry had moved to Central Ohio. Now it is the Shabogon, Wisconsin district. It has been steadily moving north and I'll tell you why. Peas thrive all right enough in a warm climate, but plant the peas so grown and the second crop will be small and more or less shriveled. To produce first grade peas in a warm climate the seed must come from a colder climate. There is no reason why the past few years have not seen the upper Michigan grown peas for planting has increased many times. Six years ago but a few hundred dollars worth of upper peninsula peas were sold for seed. This year some 400,000 bushels were sold. Nine factories outside of Michigan had buyers in Michigan buying seed peas this year.

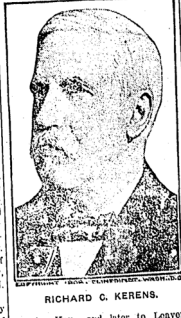

"In the warmer climates peas, even with the seed purchased farther north deteriorate after several crops. This is why I predict that in ten years the pea canning industry will have again shifted this time to the upper peninsula. We have now the large pea canning factory at Marquette and the goods it turns out command a price second to none in the country. We have now the pea canning factory at Marquette and the goods it turns out command a price second to none in the country. We have now the pea canning factory at Marquette and the goods it turns out command a price second to none in the country.

CHICAGO GOAL MEN INDICTED
 True Bills Returned Against Two Dealers.

IS ONLY THE BEGINNING

State's investigations Are Said to Include Persons Higher Up and May Reach Even to Officials at the City Hall—Those Already Under Indictment Are Charged With Defrauding the City.

Chicago, Dec. 30.—State's Attorney Wayman's case against alleged grafting in the sale of coal to the city last week has not been the end of the matter. True bills were returned against two officials of the coal concern charging common law bribery and obtaining money under false pretenses. The two men are James J. Conroy, secretary and treasurer of the Chicago Fire Appliance company, and M. H. Rogers, president of the M. H. Rogers Coal company.

RICHARD C. KERENS.

They are charged with taking money from the city for a certain grade of coal and delivering fuel much inferior in quality. The penalty for this offense is a fine of \$2,000 and a pecuniary sentence of two years.

It was reported in the criminal court building that a true bill was also voted against a city employee, but was not returned as he had turned state's evidence. The indictments are the result of an investigation that has continued for more than a month and that is expected to be reported several days later to the grand jury to catch city hall officials in the net, but that revelations should be expected from the January grand jury.

The return of the indictments created a sensation, inasmuch as they are regarded as the beginning of the state's attorney's attack on the grafting in the city. It is reported that the state's attorney stated some time ago that he proposed to go slow in order that no faulty indictments might be returned. He also indicated that "men higher up" would be the next target for the grand jury's fire.

ZELAYA AT MEXICO CITY
 Cheered by Large Delegation of Central American.

Mexico City, Dec. 29.—Don Santos Zelaya, former president of Nicaragua, who arrived in Mexico City, the government received him unofficially. A large delegation of Central Americans awaited his arrival and he was cheered when he reached here. He arrived in a special car on one of the regular trains.

Zelaya was not greeted by President Diaz, nor did he pay a call to the president, but it is said he will interview Diaz soon on the Nicaraguan situation.

It is generally believed here that Zelaya will be held virtually a prisoner and should he leave Mexico he will be watched to keep him from returning to Nicaragua.

HONOR GLADSTONE'S MEMORY
 Centenary of His Birth Observed in Many Countries.

London, Dec. 30.—The centenary of the birth of William Ewart Gladstone was commemorated not only in his own land but also in countries like Greece, the Balkans and Armenia, where people still cherish the memory of the statesman's great services to their country. Many foreign delegates, representative of Finland, Russia, Holland, Bulgaria, Greece, Serbia, Armenia and other states, joined in services which were held at Westminster. At Haverhill, where his birthplace stood on May 19, 1838, and at other points throughout the country, largely attended memorial meetings were held.

Young Woman Swallows Hairpin.
 Pittsburgh, Dec. 29.—Miss Katie Letch, eight years old, daughter of Nicholas Letch, proprietor of the Hotel Clifton, McKeesport, accidentally swallowed a hairpin in a glass of water, and a delicate surgical operation will be necessary to recover the jagged wire from her stomach. Her condition is serious.

GREAT INCREASE IN VALUES
 Thirty Billion Dollars Invested in American Farms.

Chicago, Dec. 30.—The United States has \$20,000,000,000 invested in farm lands, their buildings, machinery and live stock, according to a census of the industry which has just been made public in the Orange Judd Farmer. From 1,000,000 in 1880 the number of farms has increased to nearly 7,000,000 in 1910 and the report adds: "No such increase in agricultural land investment was ever known before in the history of the world in any country. The value of farms in the United States has increased 44 per cent more than in 1900, the figures of that year showing an increase of 77 per cent over the previous decade."

FAVORS RESERVATION PLAN
 Governor of Moro Province Says His Constituents Are Opposed.

Washington, Dec. 30.—Seventy per cent of the inhabitants of the southern group of the Philippine Islands are barbaric tribes of Moros, Pagans or non-Christians, says in a report with a fanatical disregard for their instincts, fighting for religion or for a material desire for death, and in many years behind the people of the Northern Philippines in intelligence and general civilization. United States military, governor of the Moro province, recommends that these islands be constituted a separate government and the natives relegated to reservations.

ELEVEN VESSELS AND CREWS ARE MISSING
 Great Destruction of Life and Property in Newfoundland.

St. John, N. F., Dec. 30.—Eleven Newfoundland schooners and their crews of sixty men are believed to have been lost in the Christmas gales. All telegraph lines in the interior of the colony are now slow or inoperative. The storm, which reached its height on Sunday, raged for six days and down reports from infant points are slow in reaching here.

The town of Placentia was flooded for three days and the principal business street of the town resembled an ocean beach, being piled high with floats and up by the unusually high tides.

The village of Blackhead, three miles from this city, was almost swept away.

This December has been the stormiest the Newfoundland coast has ever experienced. It is estimated that its cost to the fisheries and general trade is more than \$750,000.

EPIDEMIC GROWING WORSE
 One Thousand Cases of Typhoid at Montreal Since September.

Ottawa, Ont., Dec. 30.—An alarming attack of typhoid fever in the city of Montreal, which has been threatening an epidemic of typhoid fever since September.

The epidemic, which has continued four months, is becoming worse and the hospitals are so crowded that patients are refused admission at many of them.

A contaminated city water supply is blamed for the outbreak of the disease, which is baffling the attempts of local physicians and health officers to curb it. Nearly 700 cases have been treated since September in the hospitals and 1,000 cases, it is believed, as many more cases have not been reported.

Classed "Dixie" as Patriotic.
 Washington, Dec. 30.—Because he said in an official government publication that "Dixie" was the most popular "patriotic" song of G. T. Sonneck, chief of the division of music of the library of congress, has received a verbal reprimand from the board of librarians for disseminating and circulating in kind of dereliction and in violation of his title to receive an "honorary" diploma.

THE CENSUS TAKERS

Qualifications Necessary to Fill Position.

WOMEN ELIGIBLE FOR JOB.

Applications Must be Filed with Mr. Bennett of Detroit, before Jan. 25th.

Any person of good judgment, who has received an ordinary common school education can readily and easily pass the test to be given applicants for census enumerators' places on Saturday, February 7, the date finally set by United States Census Director Darrand, according to an announcement from the census bureau. This will be a comforting assurance to the several thousands who are believed to be contemplating application for the places. It was emphatically stated at the bureau that the test will be an amply reasonable and practical one, similar to that applied to applicants at another existing office. It will consist of filling out a simple schedule of population from a description, in narrative form, of typical families; and in the case of enumerators whose work will be in the rural districts, they will be called upon to fill out an additional sample schedule of agriculture from information furnished by the census bureau.

All persons, whether women or men, who may desire to become census enumerators must be citizens of the United States; residents of the district for which they wish to be appointed; must be not less than eighteen or more than seventy years of age; must be trustworthy, honest and of good habits; must have at least an ordinary education and must be able to write plainly and with reasonable rapidity. Those who can comply with these requirements are invited to put their applications, as there will be at least 65,000 enumerators' places to be filled by the middle of March in preparation for the enumeration, beginning April 15.

Application forms, with full instructions for filling in, and complete information concerning the test and the method of appointment, can be secured by writing to the supervisor of census for the supervisor's district in which the applicant lives. All applications properly filled in, must be filed with the supervisors not later than January 25, as any received after that date cannot be considered.

THE NEW AUTO LAW.

Several Commendable Features of the New Law.

The new auto law that has gone into effect, while possessing many things of vital interest to the owner of such vehicles, also contains a provision that may materially lessen another existing evil. It gives the auto driver right of way over any other kind of road traffic. The law makes it imperative for the driver of a vehicle which is obstructing highway to turn aside in order that an automobile may pass. The driver of the car is required to use every precaution to avoid frightening horses attached to the vehicle passed, and it becomes the legal duty of each member of an auto party to render to the owner of such teams as are passed on highways every assistance in their power to prevent trouble.

Wesley Kaplan leaves for the state of Washington tomorrow evening, where he will remain for an indefinite time visiting relatives.

As the supreme court has ordered the board of supervisors to show cause January 4 why a writ of mandamus should not be issued requiring the boards to reconvene and recount the signatures of the local option petition, it is evident that the court intends to lose no time in disposing of the case that has originated in this county. Its members will probably take the question at issue under advisement, after the arguments are heard, but the celebrity with which it has acted to secure the submission of the case suggests

that it will take no more time than is absolutely necessary to arrive at its decision. This is certainly satisfactory. The interest of all concerned lies on the sides of clearing up the legal points in dispute as early as possible.—Mining Journal.

The Michigan Democrats are preparing for an aggressive campaign next year. The opening gun will be fired during the next few weeks at meetings planned for Grand Rapids and Detroit, which are to be notable for the high standing in the party of the men who will address them. Lawton T. Hennam will hold an informal reception on both occasions. Mr. Hennam has expressed some disinclination to again taking up the Democratic standard in the state, but nevertheless it appears to be taken for granted that he will be his party's nominee for governor. The Democrats seem to be united in the opinion that he is the most available man. Their Republican friends will agree with them. Hennam is a strong campaigner and would have made an unusually good showing in the fall of 1908, even if circumstances unfavorable to the Republicans had not faced him within an ace of being elected. The thing most unfavorable to Hennam as a candidate next year according to time and the practical certainty that no family falling to the Republicans can get into during the primary next fall is likely to leave them as badly off as they were in 1908.—Mining Journal.

TWO COLLEGE MEN FREEZE

Dead Hunters Are Pennsylvania Instructor and Student. Withwood, N. J., Dec. 26.—The two hunters who were found frozen to death near here were identified as Lewis C. Krauter, aged twenty-two years of Philadelphia, an instructor in the University of Pennsylvania, and Ernest J. McFarlane, aged twenty-one years, a student, son of Professor McFarlane of the University of Pennsylvania. It is supposed that McFarlane fell overboard from the skia and that Krauter, enticed by his efforts to bring the body to shore, succumbed to exposure.

Big Financiers Charged With Being in Conspiracy.

Chicago, Dec. 26.—An amended bill of particulars was filed in the municipal court today in a \$1,000,000 suit brought in July, 1908, by William Armstrong against the Lake Shore and Michigan Southern Railroad company, the Chicago, Indiana and Southern Railroad company, William C. Brown of New York, Charles W. Hotchkiss of New York, the Rock Island company, the Chicago, Rock Island and Pacific Railroad company, the Chicago and Rock Island railroad and Robert Mather.

The amended bill states that Hotchkiss, Brown and Mather, who at the time of the rising of the Chicago

thermometers touched the below zero point for the first time this winter during the current week.

The milk dealers of Marquette, have boosted the price of milk to ten cents a quart.

Mr. August Simonette of Duluth, is visiting relatives in this city.

Mrs. Flynn Burt who has been visiting in Detroit this week, will return home tonight.

Thermometers touched the below zero point for the first time this winter during the current week.

American Aviator Tries to Go From Liverpool to Manchester.

London, Dec. 26.—Captain J. H. Coyle, the first American aviator, who has been experimenting with an aeroplane of his own construction for the British war office, made an unsuccessful attempt to fly from Liverpool to Manchester, a distance of thirty-two miles. When he had been about forty minutes and had covered a third of the distance his aeroplane struck a telegraph wire, which forced him to alight. Neither Coyle nor his machine was hurt, but as he had not out to make the trip in a continuous flight he did not assume the aviator's title being forced to the ground.

ENROLLMENT DAY

Every Voter Should See that He is Properly Enrolled.

CITY ENROLLMENT JAN. 10TH.

If You Are Not Enrolled You Should Do So at that Date.

Every voter in the city and county that has not heretofore enrolled himself should attend to it when the enrollment boards meet.

The city boards meet on January 10th. Announcements of the places where the boards of the various wards will meet, appearing in this issue. If you desire to vote at the city primaries you must be registered in the ward in which you reside. Do not confound this with registration. One can be a registered voter and qualified to cast his ballot at the city election yet be unable to vote at the primaries.

Later will come the enrollment for the county and state primaries. If you have any doubts concerning your status as a voter visit the board in your ward on January 10th. It is highly essential that every voter in the county be enrolled so

that they can participate in the state and county primaries. Schoolcraft county should roll up a vote of at least \$50 for Hon. Chase S. Osborn and the only way that this can be done is to see to it that every Republican voter in the county shall be enrolled.

Is Practicing Medicine.

Dr. Sattler has disposed of his ranch in the vicinity of Denver, having traded it for an \$8,000 stock in the best residence section of Denver. He quickly learned that one cannot successfully do two things at one time and decided that he much preferred to practice medicine to ranching. He has opened an office and is doing well.

Marriages.

Mati Lampi and Panny Luukkala both of Ilwaco, were married at the M. E. parsonage by Rev. E. H. Scott last Monday evening. As both were unable to speak the English language or to understand it, an interpreter was used.

Mr. Samuel Brown and Miss Flossy Jones, both of Ilwaco township, were married by Rev. E. H. Scott at the parsonage Tuesday afternoon. Walter Anderson and Miss Martha Courmaye were married by Rev. E. H. Scott on Monday of last week.

PATHETIC INCIDENT

True Friendship Bound Them Together.

Speaking of the aftermath in the tragic death of Harry Brownell, the Grand Marshal Herald has the following to say:

A pathetic incident of the final chapter in the tragic death of Harry Brownell, the St. Charles lost hunter in the woods of the upper peninsula, is the fidelity of Brownell's chum, Jesse Crandell. Crandell is the young man who came north with Brownell, and who was with him when he disappeared. The two had been inseparable friends for years.

Although the scores of searchers long ago gave up the futile quest for Brownell's body, and even the father and relatives of the missing man have been forced to acknowledge themselves baffled, Crandell alone remains in the forest, which is deep with snow and tramps it all day long. Although there does not appear to be any possible chance of finding the body, young Crandell declared when Brownell's father left home until his quest is successful. Crandell is heartbroken over Brownell's fate, and although the other men and Brownell's father tried to persuade him to give up, he refused to listen to them. Joseph E. Brownell and John W. Brownell, father and uncle of the young man returned home convinced that the body will not be found. From 60 to 100 men searched the woods three weeks.

Recounted His Experiences.

Many visited the Star theatre last Friday and Saturday to see and hear Geo. Stiman, who was one of the twenty-one survivors of the Cherry mine disaster at Cherry Hill, Stimson is an Austrian, about twenty-one years of age, and has been a resident of this country for three years. He does not speak the English language fluently and at the completion of his little narrative in which he recounted his experiences, his manager repeated his monologue. Numerous slides showing scenes about the mine and the village were also shown.

Water Rent Due.

Notice is hereby given that the water rent for the quarter ending April 1st, 1910, is due and payable January 1st 1910, if same is not paid on or before February 1st 1910, 5 per cent additional will be charged. J. Christmann, City Clerk.

FEARS GREAT CIVIL WAR

Social Conditions are Wrong. Civil Strife May Follow.

That recent strikes are signs of growing anarchy and that civil war in this country will follow them in the future, is the opinion of G. N. Howard S. Bragg, commander of the Iron brigade. "The government has not done its share in suppressing strikes which have arisen all over the United States," says the general. "These outbreaks are nothing more than signs of anarchy which are sending warnings which must be heeded. If present social conditions continue, civil strife is inevitable. At times I think it is not far away, but again it appears to be a great distance from us. The French revolution should serve as an example for the United States."

Speaking of the Aldrich tariff bill, the general said, "The Dingley bill was not enough, but the latest one is much worse. I cannot see how the average man receiving a salary of \$50 a month or less can keep a family. I think I am very coming a pessimist, for it is very hard for one to be an optimist at the present time."

The general is also of the opinion that there is little danger of a war between Japan and Russia. He says that neither country has any right to claim to Manchuria. "The attitude taken by Senator Knox toward Tetuya is entirely wrong," says Gen. Bragg. "In dealing with the situation he should have refrained from making the usual grandstand play and satisfied himself with handling the matter in a quiet and less repulsive manner."

GOVERNOR WARNER'S IDEAS

Concerning Direct Vote on U. S. Senators.

In connection with the pending discussion of how the vote in the direct primary on the candidate for United States senator should be interpreted next year, Governor Warner has issued the following statement:

"In my judgment there is no reason why candidates for United States senators and their friends should be interested in who are nominated in the various districts for members of the legislature, except as all good citizens are interested in having capable, honest members who will legislate for the best interests of the state and vote for the primary nominee for United States senator. "The primary law now in effect provides in plain terms that the can-

didate for United States senator receiving the highest number of votes in the primary in the whole state shall be the nominee of the party. "I am certainly at a loss to understand how anyone can construe the law in any other way than that the senatorial candidate receiving the highest vote in each party in the whole state shall be the party nominee. Those representatives who state that they will be governed by the vote of their individual districts have an entirely wrong conception of the law and their duties as members of the legislature. I am in entire accord with the views expressed by the acting chairman Miller, of the house elections committee.

"Section 16 of the primary election law provides that a general primary election for all political parties shall be held the first Tuesday after the first Monday of September preceding every general November election, at which time the enrolled voters of each political party shall vote for party candidates for the office of governor, lieutenant governor and United States senator. Of course this section contains the provision that no nomination for the office of United States senator shall be made unless there is to be a senator to be elected at the next session of the legislature.

"Section 29 of this act provides that the candidate of each political party for nomination for any office who receives the greatest number of votes cast for candidates for any such office as determined by the board of canvassers shall be declared the nominee of that political party for said office at the next general November election or at the next city election or at the next election for United States senator, as the case may be.

"This section further provides that the board of canvassers shall certify such nomination to the respective boards of election commissioners, and also provides that in the case of a candidate for the office of United States senator the board of state canvassers shall forthwith certify the result of the formal election to the secretary of state, who in turn, has to certify said result to the next succeeding legislature on the first day of the session.

"I believe that each and every candidate for United States senator should make his position clearly understood upon this matter. Of course the method of electing United States senators cannot be changed by the lawmaking body of any one state, but the result of this primary election should be just as binding upon the members of the legislature as though it was provided for by the federal constitution. Neither should there be any doubt about the position of prospective candidates for the legislature. The constituents have

a right to know that they will carry out the plain provisions of the law. They should be selected because of their fitness for general legislative duties and their individual choice for United States senator should not be a factor in their selection."
