POMONA FAIR

Exhibits Started to Come in Thursday and Friday.

FAIR OPEN ALL DAY SATURDAY

There will be Surprises For Visitors to See What Schoolcraft County Can Do.

The Pomona Grange fair, the first one ever held in this county promises to be a success in every detail judging from the exhibits already brought in.

The fair which is to be held at the arena, will be open to the public all day Saturday and every person should make it a point to go there and see what the farmers of Schoolcraft county can produce and there will be many surprises in store for the visitors. The members of Pomona Grange deserve much credit for undertaking this fair by spending both time and money in making it a success and it is to be hoped that a permanent county fair organization will, be the result, and that a county fair will be assured from this on.

PRESIDENT WHEELER HOME

Been in Germany to Take Treatment for Heart Trouble.

On account of the fact that Mr. Chas. Wheeler of Tonawanda, N. Y., president of the C. L. and W. L. Co.'s was in Germany taking treatment for heart disease, the above named companies did not hold their annual meeting in August but will hold it in January, as Mr. Wheeler is now on his way home.

Among other questions that is to come up before the stock holders is the fate of the W. L. mill, which is generally understood is closed down for good. The W. L. mill was built in 1895 and has run every season since giving employment to about 100 men but after tomorrow there will be only one lonely watchman.

It is to be hoped that the mill will be turned into some new industry to take the place of the old, and the members of the members of the Businessmen's Assn. ought to get busy.

OLSEN'S NEW BRICK BLOCK

August Olsen Moved Into His New Store This Week.

August Olsen moved into his new brick building this week on Oak street and has now an handsome and up-to-date store as there is in the city. This is another evidence of what strict attention to business and honest methods will do, as Mr. Olsen started in on a small scale 20 years ago and besides having brought up a big family has worked up his trade so that he now runs a business in his own building. The building is modern in every way and an ornament to the street and city.

Mr. Olsen is worthy of all the encouragement that can be given him.

Oak street Bakery.

Having succeeded Mr. Girvin, we recommend ourselves with a full line of bread, doughnuts, cookies, pies, jelly roll, layer cake etc. We are prepared to furnish wedding or party cakes on short notice. MINNESOTA LAW IS HELD LEGAL

Express Companies Liable for Gross Earnings Tax.

CASE WILL BE APPEALED

Decision of Ramsey County District Court sustains the Constitutional Amendment Passed in 1936 and Overruling the State in a Tax Case Involving Taxes Due for Ten Years Past.

St. Paul, Oct. 5.—Express companies doing business in Minnesota are liable for 1 per cent gross earnings tax levied under the constitutional amendment passed in 1936. Such is the decision of Judge Owen H. Hanson of the Ramsey district court, filed in the case brought by the state to compel the United States Express company to pay \$2,156.66 back taxes on its earnings for the past ten years.

The court upheld the contentions of the state throughout.

The decision holds that all earnings produced by express shipments to a tax rate within the state, although the goods pass across the state's boundaries in the meantime are taxable under the gross earnings law.

This case was brought as a test and it will undoubtedly be appealed by the express company. Assistant Attorney General George W. Peterson made the case for the state, and State Solicitor General Sorenson appeared for the express company.

The Washington hearing was set for Oct. 12. The date for the Chicago hearing was not set, although it was stated officially that the session will be held the latter part of the month.

WEST POINT AFFAIR ENDED

Cadets Given Freedom After Nine Days of "Arrest."

West Point, N. Y., Oct. 5.—Although freed after nine days' confinement and arrest for "alleged" Captain Rufus R. Jones, the one question that agitates the West Point cadet corps is whether or not the military officers of the academy have won a victory.

Following the arrest of the corps for the "alleged" arrest cadet post, they refused to divulge to the court of inquiry the reasons or the names of those who instigated the episode. This put the entire cadet corps in jeopardy as a consequence of insubordination.

SENATOR LA FOLLETTE.

Physicians Say He Will Recover From Operation.

Attending Doctors Say That, While the Patient Is Not Out of Danger, the Outlook Is Hopeful—Operation Discloses Conditions as Diagnosed by Physicians Several Days Ago.

Rochester, Minn., Oct. 5.—Senator La Follette was operated upon at St. Mary's hospital here, the operation lasting about an hour. The findings were as previously diagnosed, eight stones being removed from the gall bladder, all small. The complications of the small stones to the gall bladder are the acute inflammation of the pancreas and enlarged lymphatic glands due to septic material which the gall bladder contained. The danger will not be over for several days. On account of these complications he stood the operation well and prospects of ultimate recovery are good.

"The operation," said Dr. Fox, in explanation of the above bulletin, "disclosed exactly what we expected and hours and an extraordinary exhaustive diagnosis of the gall bladder. I cannot say a thing when the senator may be pronounced out of danger, but we do not expect to make of previous statements that he will be out in three weeks."

"The danger as to internal organ operations when vital organs are involved—the inflammation of the gall bladder and gall ducts—is not extensive and the greatest danger at present lies in the possibility of the inflammatory area increasing. The danger from septic infection is a remote one. The appendix is not affected, and in general there is positively no occasion for alarm."

Senator Felix "Bore" but, by Senator La Follette began to rally from the effects before leaving the operating room and in the hallway, in answer to the doctor of Dr. Fox, "How are you feeling, Bore?" the senator replied, "Bore, but bully."

"This was but a few minutes after the operation. His mind was entirely clear. When he reached his room he asked for Mrs. La Follette, who had been waiting in an adjoining apartment, and she went to him at once. He told her that he felt very well. She remained a few minutes and they left to see a continuing message to her children in Madison, on the statement of the physicians that the operation was wholly successful. The message usually precedes where the other is not present.

Messages of sympathy and telegrams of inquiry are coming in from all parts of the country. It is Senator La Follette's wish that all publicity be given to his case. Bulletin will be issued every two hours if necessary. Owing to the widespread public anxiety over the operation the stringent rules of secrecy regarding all matters at St. Mary's hospital will be more or less relaxed.

The latest bulletin regarding Senator La Follette's condition says: "The senator has spent practically all the time since the operation conversing with Mrs. La Follette and the physicians. Excellent condition. Temperature and pulse normal. No pain and very little soreness. He is not sleep, but will be given an opportunity shortly."

Reported He Has Decided to Resign From Throne.

Constantinople, Oct. 5.—Colonel Theodor Roosevelt is responsible for the determination of Abbas Pasha, Khedive of Egypt, to resign his throne, according to a report current here.

By his speeches in Khartoum and Cairo, in which he pleaded for the strength of English rule in Egypt and urged the Egyptians to submit peacefully to such rule, Roosevelt is declared to have stirred up active opposition on the part of the Young Turks, who constitute the Nationalist party, that the Khedive has found his throne held by too many periphrastics and has decided to abdicate.

Ambushed While Pursuing Notorious Brigand.

Reinforcements have been sent against the outlaws, but the absence of roads in the mountain fastness hampers the operations.

The depredations of Zolna have been on such an extensive scale that the authorities were compelled to detail three companies of infantry and a company of Cossacks to hunt down the bandits to the borders of Turkestan province and surrounded their camp, which was pitched in an almost inaccessible gorge. The soldiers succeeded in capturing Zolna's family, his cattle and much booty, but further pursuit of the outlaws resulted in a reverse when the soldiers fell into an ambush.

For Visitors Only.

A young southern woman who moved to Buffalo went to her mother for a cook who had been brought up in the family. Aunt Venetia's first problem was that of the mother-in-law. The fish stew was to be eaten, hence the necessity of a lecture on poisonous food poisoning. "Now, be sure," Aunt Venetia said to the young woman, "to see that the crisis are alive and healthy before you put them on the fire."

The day the luncheon came, bringing with it the crisis, which looked all that could be desired as they were brought to table. Placed to one of them was a note from the cook reading:

"Miss Florence—They was all killed off except this one. Don't eat it yourself."—Buffalo Express.

MISS HAMILTON INJURED AGAIN

Fractured Limb by Fall at Crystal Falls, Last Week.

Miss Amanda Hamilton, a former teacher in the local schools, received well nigh fatal injuries last winter while a member of a coasting party, and last week, by a fall on slippery walks at Crystal Falls, she fell in such a manner as to fracture her limb for a second time. Speaking of the accident, the Diamond Drill says:

"Miss Amanda Hamilton, principal of the high school while walking alone on a Sunday night slipped and broke her leg again. The fracture is in the same place as the one last winter.

The sidewalk was slippery and in walking along her right foot slipped throwing all of her weight on the left leg. The weakened limb was not strong enough to sustain the strain and the injured fracture opened up again.

The injured lady was carried to her boarding house and later taken to the hospital.

This injury puts Miss Hamilton permanently out of the local schools, a fact that everyone regrets. The wound will take several months to heal sufficiently to allow her to move about and when it does she must be very careful for a long time in order to give the break strength enough to sustain such sudden shocks as the one she sustained last Sunday night.

It is her intention to go to her home as soon as she is able to be moved there.

IS BADLY NEEDED

Place to be Provided Where Young Men Can Spend Their Evenings.

Mr. Crabtree, who has been actively engaged in prison reform and who has been preaching in the mission churches in the vicinity of Manistique, sees the need of a place where young men can secure a lunch, and spend their evenings, thus removing them from the temptations that abound in the saloons. With that in view, he has rented the Mosher building and will fit it up for that purpose. It will be supplied with daily newspapers, and every young man in the city who will conform with the rules, is welcome to make it his headquarters. A number of the influential citizens of the city have expressed their willingness to assist Mr. Crabtree financially, and the venture will no doubt fill a long felt want.

Y. M. C. A. MEETING

Reading Room will be Provided.

COMMITTEE SELECTED

Modern Y. M. C. A. Building may Follow.

Tuesday night a meeting was held at the Presbyterian church consisting of ministers and laymen of the different denominations to discuss the organization of a Y. M. C. A. in this city. It was agreed by all present that it was very much needed, and a committee of five business men was elected to meet and discuss the matter as to raising funds and organizing the movement.

The members of the committee are as follows: Messrs M. H. Quirk, Chas. Orr, Mason Quirk, Alfred Dorfstrom and Mr. Wise. The idea is a good one as Manistique is sorely in need of a place where the young people can come together, especially during the coming long winter evenings.

Most cities of any size have provided for at least a reading room and Manistique has now reached that stage when it is necessary that something be done in that line, and it is to be hoped that this movement will meet with success and be the stopping stone to a fine modern Y. M. C. A. building where our young people can congregate and develop both mind and body and every man and woman should put their shoulder to the wheel and make it a success.

Has Remodelled His Studio.

Mr. Nequette has installed the newest picture show-window in this studio that has ever been seen in this city. It is not only neat but is displayed with beautiful photographs, which surely would take the prize.

Mr. Nequette believes in doing things right and his window display shows his skill and ability in his line. He has had many years of experience in this city and larger cities and can turn out any grade of photographs that is wished for. It is clearly seen that Mr. Nequette has been very successful since he returned to this city. That his work is so much superior to what has been produced heretofore that he should be credited with his share of the patronage. With an appointment with him he will surely select a pose that will become you. He has recently added two more new backgrounds and several pieces of furniture such as sofas, chairs, tables and pedestals.

Mr. Norman W. Fox left for the lower peninsula Wednesday.

Did You Ever Stop to Think of the Benefits to be Derived from a Good FANNING MILL?

If you clean the grain that you will grow clean grain. If you clean the grain that you feed, you will have healthy horses. There is no satisfaction in feeding dirty grain or in growing weeds.

We will sell the "Chatham Fanning Mill" famed the world over for its good qualities. Try it and see for yourself.

Fashions Show Exclusive Styles

We have endeavored to make this the most complete exhibition of authentic fashion this store has ever undertaken. It is first of all a thru representative display of the best American Designing developed to meet the requirements of the American Women, shown not only in the Millinery Cloaks, Suits and Furs, but in the fabrics and trimmings for those who prefer to have their clothes made. In arranging this exhibition however our efforts have been toward the practical avoiding those extreme conceptions which almost before the season opens have had their day. Because you have the assurance that the styles we show are absolutely correct. You will find a great deal of pleasure in careful survey of the NEW MILLINERY, COSTUMES and SUITS, COATS and WRAPS, the fine showing of Furs, the beautiful Waists, the Dress Fabrics, Silks and Trimmings. We dare say there is not a woman in the vicinity interested in wearables who won't be interested in examining the new arrivals.

In referring to the store and store service we can only repeat what we have said often times before. However excellent the values we offer there would be but little pleasure in making this your store were it not for the spirit of co-operation which makes buying here a pleasure. Misrepresentation of quality or value finds no place in our publicity or with our salespeople. Merchandise is sold on its merits and its a very important part of our business policy that every customer be absolutely satisfied with every purchase, both as to value received and methods employed from the time you enter the store. As your requirements put us to the test you will find us better prepared than ever to meet every demand and you will acknowledge the superior ability of this store to serve you as you should be served.
