Mr. James A. MacNaughton Is No More, His Death Occurring Saturday

HAD A WIDE ACQUAINTANCE.

Had Been Engaged in Newspaper Work Here for Seventeen Years.

This community was shocked Saturday evening when the news was quickly spread that Mr. James H. MacNaughton had passed away. The immediate cause of his death was Bright's disease. He has been ill for some time, but continued his work in the mechanical department of this office until three weeks prior to his death. Notwithstanding the fact that he was ill he was not confined to the house until a few days before his death. The community was not aware of his critical condition, and when his demise was announced the surprise was general.

The deceased was born in Chatham Ont., March 17th, 1851, where he spent the greater portion of his youth. Later he went to St. Thomas Ont., where he learned the printer's trade. He lived in Rochester, N. Y., after leaving St. Thomas. From Rochester he located at Milwaukee where he followed avocation of traveling salesman for a time. He became acquainted with Chas. S. Omer, who was engaged as reporter on one of the Milwaukee newspapers, and when he decided to embark in the newspaper business at Florence Wis., he gave Mr. MacNaughton the position of foreman of his office. This in 1882, and from that time until the day of his death he has been identified with the newspaper business in the upper peninsula. After leaving Florence, he moved to Menominee where he worked for "Hank" Filled on the Herald. He also was employed on the Marquette Eagle. From the Twin Cities he went to Norway, where he was employed on the Current, then as now owned by Jim. J. B. Knight. In 1893 Major W. E. Clarke secured his services and he came to Manistique in September of that year and was employed in the Pioneer office until December 1896, when the paper was acquired by the Tribune Co. and continued with the Tribune under the cognomen of the Pioneer-Tribune. Shortly after he founded the Courier,

which he conducted for a number of years, until he was induced to consolidate same with the Record. Two years ago he accepted a position in the mechanical department of the Pioneer-Tribune office, which position he held up to the time of his illness.

The deceased was well known in the newspaper circles of the upper peninsula. He was an active Republican and at various times served the party as delegate to state and district conventions, and was secretary of the party's county organization. He was a firm believer in the tenets of the party, was a loyal friend of Manistique and Schoolcraft county, and devoted time, energy and money in advancing the interests of party and community.

He was well acquainted throughout the county and had the faculty of making and retaining friends. He was united in marriage to Miss Elizabeth Thompson at Potsdam, N. Y., on Nov. 8, 1888, who with two sons, John aged nineteen years, and Wallace aged sixteen years, survive to mourn his untimely end.

He was a member of the Knights of Pythias and the B. P. O. Elks. He was secretary of the former organization, and it had charge of the funeral, which was held from his home on Oak street Tuesday afternoon. Rev. J. R. Mitchell, pastor of the Presbyterian church, officiated. The pall bearers were selected from the Pythian organization and the members attended the funeral in a body. The floral offerings were numerous and handsome.

The bereaved family have the deepest sympathy of the entire community.

TWENTY-FIFTH ANNIVERSARY

Mr. and Mrs. August Erickson Surprised Monday Evening.

Monday of this week was the twenty-fifth anniversary of the marriage of Mr. and Mrs. August Erickson, and their relatives to the number of twenty or more gave them a surprise party in honor of the event. The evening was very pleasantly spent.

Wednesday was Miss Clara Orr's birthday anniversary. Some of her friends planned a surprise party in honor of the event. Mrs. Orr took the participants to the Princess theatre during the evening.

GLADSTONE GAME.

Roberts Won Laurels by His Efficient Work.

LOCALS HIGHLY COMMENDED.

Gladstone Newspaper Speaks Highly of Their Clean and Fair Playing.

At the ball grounds Saturday afternoon a crowd of about two hundred "rooters" witnessed the first scheduled game of the season. The contest was between the Manistique and Gladstone high school teams, and resulted in a victory for the local team by a 12 to 0 score, thus the Gladstone team clinched the first step of the high school championship ladder Saturday. Throughout the game was fast and snappy and marked by numerous spectacular plays. The visitors were weak on forward passes, and were unable to gain ground consistently. The Manistique ends and guards played a brilliant game, in the work of Roberts for Manistique was noticeable at every stage of the game.

In the third quarter, Manistique came very near scoring, when MacNaughton received the ball on a punt, and with a clear field ahead of him. But somehow he fumbled it, and before he again had time to recover the ball M. Keriel had the oval. In the fourth quarter Gladstone advanced the ball across the Manistique line, but after being penalized, the locals lost the ball on a fumble. Manistique then punted the ball out of danger. The Gladstone defense work could scarcely have been improved upon. The team held their opponents for down at every opportunity. Had the boys been more selected at catching forward passes, it is believed that the locals could have easily defeated the Manistique team.

Both teams fought hard, but the spirit of fair play prevailed, and there was no wrangling with the officials.

A reception was given in honor of the Manistique team Saturday night at Sweden Hall by the high school students.

Manistique ought to be proud of their team, even if they did lose, as everyone of their players conducted themselves in a very gentlemanlike manner. The lineup was as follows:—
Manistique: L. E. Mason
Gladstone: L. E. Mason

DEATH OF MRS. JENNINGS

Had Been Ill for Some Time. Was Buried Yesterday.

Mrs. Phoebe Bliss Jennings, aged seventy-eight years, died at the home of her son Mr. J. I. Jennings last Tuesday evening at six o'clock, after an illness of long duration.

The deceased was a sister of the noted evangelist and musical author, Mr. P. P. Bliss who lost his life in the Ashland disaster in Ohio many years ago. She was a talented lady, and had been a resident of Manistique for the past three years. The funeral was held from the home of her son yesterday afternoon at 2:30 o'clock, Rev. E. H. Scott of the Methodist church officiating.

The bereaved relatives have the sympathy of the community in their hour of sorrow.

Mrs. Oren G. Quick planned a surprise party on her husband Tuesday evening in the nature of a six o'clock dinner at the home of his parents, Mr. and Mrs. M. H. Quick, to which a number of his old time schoolmates were invited. The classes of 1894-5-7-9 were represented, and the tables were decorated with the class colors above mentioned. The evening was very pleasantly spent in a social way. Those invited were: Messrs. and Madames Wm. H. Crowe, B. A. Craver, B. J. Van Marter, R. B. Widdell, Louis Yalomstein, E. W. Miller, and Misses Tucker, Jacher and Clifford. Misses Mildred Quick and Pearl Davidson assisted in serving.

Are You in Need of a Range?

Our line of Majestic Malleable Charcoal Iron Ranges is complete. The only Range in existence with Charcoal Iron body which withstands rust and crystallization 300 per cent more than steel.

We have the new style, arch top oven, smooth nickeling, etc. The Majestic has been sold from this store for more than TWENTY years.

AND WHY?

Because it gives absolute satisfaction in every respect. In the past seven years we have not ordered to exceed five dollars worth of repairs for the hundreds of Majestic ranges in and around Manistique. That's why it pays you to buy a Majestic, because once you own one, you bear no more trouble about the stove that helps prepare your meals. No repairs. AVOIDS TRUTH AND FAIRNESS

Democratic Candidate For Governor Plays the Demagogue.

THE FACTS IN THE CASE

Many Corporations in His Home County Pay Taxes on Less Than 20 Per Cent of Their Actual Value, Yet He Demands That They Pay Full Value.

Mr. Lawton T. Henman, the Democratic candidate for governor, interested in the slightest extent in the question as to whether or not the corporations of Michigan shall pay their share of taxes, or is he playing the part of a political demagogue?

Thus far in his discussion of the tax subject, Mr. Henman has referred only to the upper peninsula property, but already has it in mind that the properties represent a very limited territory and a comparatively small number of people and that an attack in that direction will yield very largely to his political candidacy through prejudice and the sectional division he hopes to create.

But as a matter of truth and fairness, is Mr. Henman at all interested in the question of equal taxation in Michigan? Is he even interested in the matter of having all the corporations of Michigan pay their fair share of taxes? Let us see as to that.

In Michigan county, where Mr. Henman lives and which he has represented in the state legislature, there are 26 corporations. The aggregate amount

of the real and personal property of these corporations subject to assessment, as represented to the secretary of state, in sworn statements, amounts to \$7,424,932.

Yet these Michigan county corporations are paying taxes on a valuation of only \$1,035,272, less than 20 per cent of their actual value, as shown by the sworn statements filed with the state by the corporations themselves.

When Mr. Henman says that the valuing companies of the upper peninsula are not assessed to exceed 20 per cent of their actual value, he should also include the further statement that the corporations of Michigan county are assessed at less than 20 per cent of their actual value and on less than 17 per cent of their value based on the amount of capital stock subscribed.

It is known to be true, however, that Mr. Henman's comparisons are not based on the value of mining properties as shown by sworn statements, but largely on the market value of their stock. If he will apply his same market value test to the corporations of Michigan county he will find that the percentage of assessed valuation to market value will not exceed 10 per cent.

The market value of the Hoop Motor Car company, for instance, is over \$5,000,000. Just recently it was announced through the newspapers that stockholders were under way for the purchase of this fine company by the General Motors company and that this price asked was \$7,000,000. This company is on the assessment rolls of Ingham county for only \$431,000. Based on its market value it should be on the assessment rolls for \$4,000,000.

When Mr. Henman is discussing the question of dividends paid by the mining properties he should also mention the fact that the Hoop Motor Car company has returned in dividends since its organization, less than ten years, \$10 for every dollar of the original investment.

While these facts must be known to Mr. Henman, unless he has given his attention to the subject of taxation for political purposes, only, he has

made no reference to it as a citizen, and not the slightest effort to bring about any of the conditions of fairness or equality in the sharing of tax burdens to which he is living so much of his life as a political speechmaker.

The purpose here is not to state that the corporations of one county are of a single section for discussion and criticism as Mr. Henman has thought best to do, but to make it very plain to the people of Michigan that the Democratic candidate for governor is either not possessing of the information which enables him to fairly and fully present this question or he purposely avoids fairness and truth in order to assist his personal and party purposes.

One declaration made to the assembled representatives of the Republican party at Detroit that was generously applauded not only because its expression was in harmony with all the actions and movements of the state convention but because it briefly yet fully expressed the position earnestly held and everywhere proclaimed by the Republican candidate for governor, Chase S. Osborn, was this: "We stand for efficiency in public office and pledge our nomination to an administration in which every public dollar shall buy as much as a private dollar whether in services or supplies. We likewise stand pledged to a businesslike administration, with the fewest possible employees and the lowest limit of expense consistent with good service and satisfactory results."

Obituary News.

When John Sherman of New Haven, preacher, anti-slavery, attorney, maker and father of twenty six children, heard of the death of his good friend Jonathan Mitchell, a Harvard pastor, he explained to the doctor and many people present:

Here lies the darling of his time. Mitchell expired in his prime. Who four years short of forty-seven was found full ripe and plucked for heaven.

When Thomas Dudley, father of the first American poetess, Anne Bradstreet, came to his deathbed, says the South Atlantic Quarterly, he showed where his daughter had received her surprising gift by composing such farewell lines as:

Dim eyes, dead ears, cold stomach show My dissolution is in view. Extra times seven year lived have I, And now God calls it willing day.

"Why is it that the butcher always weighs me more meat than I order, never by any chance less?" complained a young housekeeper to her husband. "Let me give him an order," said he, and stepping to the telephone, he called up the market.

He got the two pounds by the next delivery.—New York Sun.

How Old People May Prolong Their Lives

At advanced age the organs act more slowly than in youth. Circulation becomes poor, blood thin and watery, appetite, fitful, and digestion weak. This condition leaves the system open to disease such as Coughs, Colds, Grippe, Pneumonia, Rheumatism, etc.

VINOL is the greatest health creator and body builder we know of for old people, as it supplies the very elements needed to rebuild wasting tissue and replace weakness with strength.

HERE IS THE PROOF

A case is recorded in Albany, N. Y., of a woman who felt she was breaking down by age and was doomed to a weak and feeble condition of old people. She had strength and vitality restored by taking VINOL.

We ask every aged person in this neighborhood to try a bottle of VINOL, with the understanding that we will return their money if it does not prove beneficial.

It is always possible to buy cheaply made, inferior Pianos, at cheap prices, but the big important feature of our Summer Resort Sale is that it offers the **FINEST PIANOS** of the **WORLD'S LEADING MAKERS**, many of them absolutely new, at **BIG REDUCTIONS FROM REGULAR PRICES**.

These Rental Pianos were taken right out of our regular stock. People who have Summer Residences usually demand and can afford the BEST. In some cases only the finest Steinways would do, and for them we received about \$100 each for the seasons use. Every Piano was used only in a first class private home—the moving and shipping were done by our own men, under our own supervision—and now that the instruments are back in our warehouses, with the dust of travel and finger marks removed by our Expert Polishers, most of them cannot be told from brand-new-fresh-from-factory stock.

YOU SAVE ALL THE RENT

Read that line again and just think of what we offer you—Every dollar received as rent on these beautiful Pianos has been deducted from their lower net cash prices. This means a clear saving to you of \$50 to \$100, according to length of service. Could you make \$50 to \$100 any easier? And please remember—in saving \$50 to \$100 money you lose nothing in quality, for these Pianos would normally pass for new and we GUARANTEE them just the same. This is just as sure and positive a saving to you as though we handed you the amount in cash. Note the accompanying illustrations of a few of the Extraordinary Bargains.

In addition to the Rental Pianos we are including in this sweeping clearance sale all our recently exchanged Pianos. These have been carefully repaired and refinished by our Factory Experts and are in finest possible condition. Included are such well-known makes as STEINWAY, GRINNELL, STERLING, KNABE, CHICKERING, VOSE, HAINES BROS., MASON & HAMLIN, CABLE, CONOVER, HALLET & DAVIS, etc. Regular prices \$300 to \$600, but look at our sale prices.

proportion of the vote and in many instances it also entered the law with regard to the election, something which had been a dead letter, and in some cases was voted in collected statistics on freight and passenger rates, fatalities and other matters relating to railroads, gathered from every section of the world, so that we might understand just where Michigan stood on railroad matters.

The central question given to Mr. Osborn and the earnest approval expressed for his position in this campaign and the times, he had decided to, and had assisted in accomplishing for Michigan, shown by the Republican of that county, made it quite evident that the interests of the state will generally and naturally respond to his leadership and keep step with the current demands they have given to Mr. Osborn his present position in the Republican party and in the state.

OSBORN WILL MAKE GOOD GOV.

If Elected, Soo Man Will Give Michigan Grand Administration.
W'S GOOD R. R. COMMISSIONER

He Accomplished Things, and Made the Office a Substantial Benefit to the Public—It Cost Money to Do Business His Way, but He Got Results, Says C. S. Brown.

"I see that Lawton T. Hosanna the Democratic nominee for governor, is making campaign remarks to the effect that Chase B. Osborn, the Republican nominee, conducted the most expensive administration the state ever had, during his term as state railroad commissioner," said Charles B. Brown, of Grand Rapids, in a Detroit Free Press representative.

"I want to say, and say it with all the emphasis I can, that since the office of state railroad commissioner was created, Michigan has never had a man in the position before or since who accomplished so much good for the traveling public as Chase B. Osborn. Every commercial traveler in the state who knows anything about it will bear witness to that fact. He did things, and the office under him was not a sinecure, but a real and substantial benefit to the public. I take it for granted that it cost more to do business in that way, but we not regret for the money he saved."

Brown has been a commercial traveler for upwards of 30 years and is one of the best known in the state throughout the middle west. He did things, and the office under him was not a sinecure, but a real and substantial benefit to the public. I take it for granted that it cost more to do business in that way, but we not regret for the money he saved."

He is the man who was selected by President Roosevelt in 1906 to be inspector of the government printing office at Washington, an office which the president created for the purpose of cleaning out the graft which had infected the big establishment, for as

many years that it required the keenest kind of an expert to ferret it out and get rid of it. Brown stayed there one year and made a house cleaning that made him famous all over the country. He was arrested all kinds of inducements to results, but after the cleaning was done he preferred to return to private life and business.

"I have known C. S. Brown," said he, "for more than a quarter of a century, and he is not only a big man mentally, but one of the equal and most efficient men I ever met. Michigan will have one of its fine fine administrators if he is elected governor. He will do in that office just what he did as railroad commissioner, accomplish results for the good of the state and its people. I shall be glad to point to him in Michigan on election day so as to vote for him."

15 YEARS OF PROGRESS.

State Banking Business Shows Increase of 62 Per Cent.

If the Democratic candidate for governor in this state cared to give a fair review of what has been accomplished in Michigan during the past 15 years, he could present a review that would not only add to his pride in his state, but would prevent the use of any sort of criticism upon which his sole hope for election seems to be based. A very important line of development which Mr. Hosanna does not even, directly or indirectly, refer to is that which is indicated through the recent history of the Michigan state banking department.

When the present banking law went into effect in 1888, there were 92 state banks, transacting an aggregate business of \$39,000,000. According to the last bulletin issued by the commissioner of banking for 1910, there are now 387 banks and five trust companies, with total footings of \$360,000,000, constituting a gain of 299 per cent. in point of number since 1888, while the volume of business transacted has increased \$321,000,000.

Since 1888 the increase in deposits amounts to the enormous sum of \$220,000,000. For the same period there have been created \$200,000,000 and there has been added to banking capital \$175,000,000, and by additions to surplus \$100,000,000.

A large part of this increase has occurred since the year 1900, deposits having a gain of \$130,000,000, capital stock \$100,000,000 and surplus fund \$100,000,000.

In the ten years ending Dec. 31, 1909, the number of depositors in state banks increased from 296,000 to 747,000.

At the close of the year 1889 there had been made 22 examinations of state banks at a net cost to the state of \$2,800.00, or at a cost of \$30.52 per examination. Seven hundred and thirty-eight examinations of state banks were made in 1909 at a net cost to the state of \$7,958.11, or \$10.16 per examination, a decrease in actual cost to the state per examination of 67 per cent.

In 1889 20 examiners were employed to inspect the 92 state banks. At the present time the services of ten examiners are necessary in order to make 720 examinations of state banks in 1910.

In other words, 44 banks, with an average total business of \$500,000 were examined by a man in 1888, while in 1910, 78 banks, with average total footings of \$3,000,000 each, were examined by one man.

The total reserve maintained by Michigan state banks, according to the last bulletin issued by the commissioner of banking, amounted to \$94,800,000, or 19.41 per cent, or \$100,000 over the requirements of the banking law. Of this total cash on hand amounted to \$17,400,000, or 16.41 per cent.

The mortgage and bond investments of Michigan state banks exceeded the requirements of the law by \$21,000,000, and the total savings investments exceeded the requirements by \$22,000,000.

FOUGHT FOR TWO CENT RATE

Chase Osborn Also Was Instrumental in Forcing Railroads to Pay Their Share of State Taxes.

"I am appealing for a united Michigan, a greater Michigan, a Michigan that knows no Straits of Mackinac." This declaration by Chase B. Osborn, the Republican candidate for governor, was heartily cheered by the more than 500 Republicans of Berrien county participating in the fourth annual Republican banquet of that county held in the auditorium at St. Joseph, Wednesday night.

Mr. Osborn had been returning to the effort being made by Mr. Hosanna,

the Democratic candidate for governor, to create class and sectional divisions in Michigan, and to secure political profit for himself through creating these and securing protection along lines not legitimately related to the present campaign or to any campaign.

Mr. Osborn called attention to the fact that the demand for equal taxation in Michigan had been a feature of his political faith and an important purpose of all his political efforts since the early days of his acquaintance and cooperation with Governor Parsons.

He had made the demand for equitable taxation applicable to the mines of the upper peninsula and to the great productive properties of the lower peninsula an important plank in his primary campaign platform, notwithstanding the fact that he was many times told by members of his own party that he would be inviting defeat through so doing.

Mr. Hosanna was raising the growth of expense in Michigan to the most prominent feature of his campaign work. Mr. Osborn said that if the Democratic candidate failed to be fair in his argument he should state the further fact that the state in Michigan had not so greatly increased its income during these many years as had been claimed.

"It was a privilege I will always prize higher than even a nomination or election to the office of governor that I had an early part of an important part in the general movement for equal taxation through which the railroads of Michigan are paying \$4,000,000 or \$5,000,000 each year into the state treasury, while when this light was entered upon the total income from all the railroads of the state was less than \$1,000,000.

"It is further true that when it became known that the state was to have a law on the statute books which compelled the railroads of the lower peninsula to grant a fare of two cents per mile when the earnings reach a certain figure per mile, but so effort had been made to ascertain whether the earnings had reached the point fixed in the statute.

"I took the matter up immediately, and after fighting for some time the United States supreme court, compelled a half dozen of the big roads to grant the two-cent fare. This saved hundreds of thousands of dollars to the people of Michigan and it is today saving other thousands. The investigation which led to the successful

Washington's Tips and Compliments to Patty and Polly. Those who have dipped into the something of the social inventor may find their minds cultivated by the perusal of an excerpt from the writings of our first president, which shows what a graceful turn appreciation and courtesy may give to the custom.

In 1789, on his return from his New England progress, Washington lodged at Taff's inn, at Hingham, Mass., where the domestic services were performed by the landlady's daughters. Some time later Washington wrote to Mr. Taff:

Hartford, a November, 1789. Sir—I am informed that you have given my name one of your waiters and call another after Mrs. Washington's family, what noble spirit of service and respect with the modest and innocent looks of your two daughters, and my two girls, who were dressed in more than Polly did, I am a contented man, with which also may be heard of Mrs. Patsy, who I dare say is equal to it, with one of her own hands, I wish you would direct me to the treatment of the United States at New York. I wish you and your family well and am your humble servant. GO. WASHINGTON.

The Shark is a Slow Swimmer. One ill service nature has done the shark—namely, that of placing a triangular fin on his back which acts as a rudder and gives warning of his approach. Happily the shark has not been gifted with sufficient sagacity to be aware of this peculiarity.

Sardine Fishing. In sardine fishing there are many varieties. There is a twenty-eight foot rise and full of tide in the bay of Pandy, and especially convenient for the fisherman. The fish are taken in the water to gather in the bay. Last season a man erected an ice-creamery in what is supposed to be the best fishing territory, but got nothing out of it.

What's the Use? "What's the use?" he replied. "Let me try it!" the other persisted. "Yes, and you may have all the data you need on that subject." The other man pulled out \$1,700 worth at one haul.—Frank Leslie's
