Meeting of U. P. Sportsmen Called for Marquette December 20th.

UNITY OF PURPOSE NEEDED

Believed that Game Legislation May be Secured if All Pull Together.

Mr. Thomas H. Wyman, president of the Upper Peninsula Sportsmen's association, has called a meeting of the clubs forming the association, at Marquette on Tuesday Dec. 20th. He feels the importance of the appointment of the upper peninsula together and working in harmony for favorable game legislation, and feels that more can be accomplished in this manner than by individual effort. He has written the local gun club urging them to send one or more representatives to the meeting in question, and a meeting of the has been called by President Schuster and Secretary Christensen, which will be held at the city hall next Wednesday evening. It is hoped that every citizen will be in attendance and that strong, representative men be chosen to represent the club at Marquette.

Portions of Mr. Wyman's letter follows:

"The legislature of our state will convene next month and it is important that the sportsmen of the upper peninsula get together upon game legislation to be urged at the coming session. Past experience has proven that nothing can be gained by individual club recommendations. Strength lies in unity. We must agree upon a course of action, upon needed changes, upon new laws, and upon harmoniously seeing them through. There must be some hanging back or making counter recommendations. To bring this about a meeting of the Upper Peninsula Sportsmen's association is called for 10 o'clock on m. December 20th at the Marquette court house, supervisors room, and we urge your club to appoint one or more official representatives to attend this meeting, and place your club upon record as to your ideas but please give them the power to compromise, for without the privilege nothing will come of the meeting."

Congressman Young Succeeds in Having Recommendation of Engineers Incorporated in Rivers and Harbor Bill.

IN RIVERS AND HARBOR BILL

The Completion of Manistique Harbor is now Assured. Bill will be Reported This Week.

The editor of the Pioneer-Tribune received the following telegram from Congressman Young last evening: "The river and harbor bill to be reported to the House this week will contain an appropriation of \$138,462 to complete the improvement of Manistique harbor." In last week's issue attention was called to the fact that the engineers had recommended the expenditure of \$138,462 for Manistique harbor. The River and Harbors committee of which Congressman Young is a member, were called upon by the president to materially scale the grand total of estimates, and it is a matter of congratulation that Manistique's original estimates were not cut a cent. Manistique is indebted to Mr. Young for this. His loyalty to Manistique saved the day. Again it is proven that he attends to the business of his constituents in a painstaking loyal and able manner.

The deceased was about eighty years of age and a long illness caused her death. She was a devout member of the Baptist denomination, and the funeral services, conducted by a minister of that faith, were held from the home last Saturday afternoon. Six of her grandsons were the pallbearers. The immediate family, consisting of six daughters and four brothers were in attendance. CARELESS PEOPLE CARRY CASH

It costs \$1,000 sometimes for a skeptical person to learn that a bank is a safer depository for money than a hand bag. That is what it cost a lady recently to learn this bitter lesson. An enterprising burglar who was aware of her foolish distrust of banks watched his opportunity and the money was gone. The savings of almost a lifetime were lost merely because of the foolish fear that the bank would break. Think of the millions and millions of dollars in banks every day and night and the loss by the breaking of a bank is not one dollar in a hundred millions. Don't try to be your own banker. You may regret it.

CHRISTMAS TREES.

Capt. Schuneman Given Publicity at Chicago.

HE IS WELL KNOWN HERE

Has Been a Frequent Visitor at Manitowish in Years Past.

Mr. Henry Schuneman, who annually visits the north shore of Lake Michigan in quest of Christmas trees, was given considerable space in a recent issue of the Chicago Inter-Ocean. An excellent picture of the genial captain and his craft and cargo accompanied the article, which is reproduced below.

Chicago will not suffer from a dearth in the Christmas tree market this year. Whatever may happen to beefsteaks and butter, this one necessity of life will remain within the reach of the average man's purse.

Trees big and small reached this city yesterday. Skipper Henry Schuneman, first aid to Santa Claus, brought in a whole ship full of them last as he had done for the last thirty-two years. With trees in the hold, trees in the gallery, trees about the wheelhouse and trees piled high on the deck, his ship sailed into port.

"We had a hard time finding our cargo, but we finally got a load of as fine trees as I ever carried—and I've shipped with several," said the ruddy faced captain, when he finally tied up at the dock.

"I get my trees in the Lake Superior region, and if you have read the papers you know that that district was nearly all swept by the big fire.

"It took us seven weeks to sail the 600 miles home, but we got here without losing a twig. Besides the trees we have enough evergreens to make a wreath for nearly every window in the city. Tomorrow we will begin to unload."

The captain takes his three daughters—Elsie, Hazel and Pearl—with him on his tree gathering trips. The latter two are twins, twelve years old, and they feel that the responsibility of a happy Christmas for thousands of Chicago children rests with them. Consequently their interest in the trees is the keenest, and their father declares they are as good judges of proper timber as he is.

Captain Schuneman is forty-five years old. He was but 15 when with his father's consent, he loaded 800 small trees on their boat and brought them to Chicago. They did well and the next year the experiment was tried again with a larger number of trees. From that year he

has never failed to make port with a holiday cargo. But, like all tales of men who go down to the sea in ships this one has a note of tragedy. In 1858 his brother August, who was also in the same business, went down with a cargo of trees in Lake Superior. The ship S. Tall and all aboard her were lost. Every year the skipper must go further into the interior for his trees and some of those in the present cargo were cut 100 miles from shore.

Twenty-five men have been at work cutting and hauling them. If you are suffering from biliousness, constipation, flatulency, dizziness, headache, insect, or other ailments, send to Chamberlain's Medicine Co., Des Moines, Iowa, with your name and address plainly on the box, and they will forward you a free sample of Chamberlain's Stomach and Liver Tablets. Sold by all dealers.

TO REOPEN CHURCH

from the floor. The second furnace supplies heat for the vestibule, cloak, lecture and choir rooms. The basement has a cement floor and is 22x31 in size giving ample room for furniture and fuel. An inside stairway and entrance to the basement has been built from the choir room back of the pulpit.

To the building committee composed of Messrs. Ward, Wise and Stephens, much credit is due for the completeness of the improvements, and the Methodist people are to be congratulated in having for their use such a beautiful, convenient and comfortable home of worship.

In this connection it may be well to give a brief outline of the history of the Methodist Episcopal church in Manistique.

The first regular pastor of the Methodist church in this city was the Rev. H. W. Thompson, who was appointed by the Rev. John Russell, at that time presiding elder of the Lake Superior District of the Detroit conference. For several years various Methodist ministers from time to time had preached here but no regular services were held until the coming of Mr. Thompson. He arrived in Manistique November third and preached his first sermon on the following Sunday Nov. 6, 1881. The services were at first held in the school house and afterwards in the old Band hall, which at that time was now and known as Union Hall.

Mr. Thompson also filled appointments at Thompson village, Kates Bay, Fayette and Sac Bay and later at South Manistique, having a circuit of 88 miles to travel, preaching in Manistique alternate Sundays.

The church society was not formally organized till Sunday August 12, 1883 when W. C. Bronson, J. S. Crowley, Mrs. J. S. Crowley, Hiram Smith, H. M. Penny, A. Rapico, Wm. Raplee and Wm. Griffith were elected Stewards, and at an adjourned meeting the following Thursday August 15, the following trustees were elected, W. C. Bronson, J. S. Crowley, Hiram Smith, Jas. Vastlander and Wm. Codwell. Later the same year a Sunday school was organized with W. C. Bronson as Superintendent. The Ladies Aid society began its existence Dec. 5, 1883 with Mrs. W. E. Clark as President. The Epworth League Chapter was organized in 1889. These organizations have had a continuous existence ever since their formation. The church building was erected in 1887 and dedicated later. At this time when the Methodist Episcopal congregation is about to reopen its place of worship,

Rev. E. H. Scott, Pastor M. E. Congregation.

built in 1896 during the pastorate of the Rev. J. M. Shank and in 1905 while the Rev. J. H. McCune was pastor, the wine was added to the church.

The following is a list of the pastors who have served the church and the years of their service:

H. W. Thompson	1881-1883
S. R. Williams	1883-1884
Robert Pattinson	1884-1886
C. I. Porritt	1886-1887
G. H. Whitney	1887-1888
S. Polkshorne	1888-1893
J. M. Shank	1893-1898
David Casler	1898-1900
F. L. Osborn	1900-1903
J. H. McCune	1903-1906
Wm. Edmunds	1906-1908
E. H. Scott	1908

The present membership of the church is 105 and the officers are: Trustees, Joseph Pattinson, Luke Shinar, D. J. Ward, Wm. Mueller and A. M. Wise.

Stewards, A. S. Garland W. C. Stephens, B. A. Craver, R. S. Ward, Mrs. E. A. Craver, Mrs. D. J. Ward, Mrs. M. Bondy, Mrs. John Little, C. T. Allen, W. J. Shinar, and O. Coleman.

Sunday School Superintendent, Joseph Pattinson. President of the Ladies Aid society, Mrs. John Little. Superintendent of Queen Esther circle, Mrs. B. A. Craver. The pastor of a church is usually the mainstay of its congregation, and its success or failure is usually attributed to him, especially the latter. At this time when the Methodist Episcopal congregation is about to reopen its place of worship,

after a rebuilding and improvement that has transformed the old structure into a new and modern building, a resume of the life of the present pastor, to whom can be given much of the credit for the transformation, and who has had the undivided assistance of his loyal congregation in this important undertaking, would not be amiss.

Ernest Hunter Scott, pastor of the Methodist Episcopal church, was born 38 years ago in the township of Brandon, Oakland county Michigan. His father, Theodore German descent and was one of the pioneers of southern Michigan, coming to this state from New Jersey, with his parents, when a mere boy. Mr. Scott's mother was Mahala I. Van Antwerp a woman of strong and excellent character. Through her the subject of this sketch traces his ancestry to the Dutch, the English and the Scandinavian.

This mingling of the nations in him may account somewhat for his cosmopolitan spirit. There being five boys in the family the small farm of his father's was not sufficient to keep them all employed, so at an early age he was thrown upon his own resources and began to work away from home, for several years accepting employment as a farm hand, working on the farm in the summer and attending district school during the winter. He was converted at sixteen years of age and at once became an active worker in church, Sunday school and Epworth League. At eighteen he

obtained a teachers certificate and began to teach school. Though successful in his work as a teacher he felt called to the ministry of the church and left the school room for Alhambra college, there to prepare for his chosen life work.

He united with the Detroit conference in 1895, received deacon's orders in 1897 and was ordained an Elder in 1899.

In 1902 he was married to Miss Daisy M. Davis of Melrose, Michigan. They have two children, Martha and Katherine aged seven and four respectively. For several years Mr. Scott has had charge of churches in the upper peninsula, having been pastor at Pinckford and Vulcan before his appointment to Manistique two years ago.

Mr. Scott is a member of the K. O. T. M. M. and of the I. O. O. F. For three years successively he has been elected to the office of statistic in his conference. During the recent local option campaign he was chairman of the county Local Option Association and for several months labored almost incessantly for the cause. His zeal for moral reform and his activity in regard to the enforcement of the liquor laws brought to him before he had been six months in Manistique an anonymous letter, undoubtedly from the liquor men, warning him to leave the city or take the consequences. Mr. Scott has strong and definite opinions as regards right and wrong and has the courage of his convictions, he has however a broad brotherly nature and wears well as a friend.

THE THIRD NUMBER

Of the Local Entertainment Course is Best of the Series.

ANDREW GILLIES LECTURER

Will Appear Here Thursday Evening of Next Week. All Should Hear Him.

Mr. Andrew Gillies of Minneapolis a lecturer known throughout the length and breadth of this country for his eloquence, logic and humor will appear here under the auspices of the local entertainment course on Thursday evening of next week. The ladies in charge of the course deserve praise for their judgment in including him in the list of attractions this season, for those having heard him in other cities are his strongest endorsers.

Especially, the Troy Daily Press endorses him as follows:

"In the person of Andrew Gillies, pastor of the State Street Methodist church, Troy, has a lecturer conspicuous for his eloquence, force, firmness, pathos, patriotism and power in winning the sympathy of his hearers. He has something to say, and has the rare knack of saying it well."

Mr. Gillies has been on the lecture platform for the past fourteen years and he has never yet disappointed an audience with his work. His lectures are entertaining, instructive and inspiring. He is orator, teacher, leader—a rare combination.

He is very highly recommended by the press and pulpit everywhere, and he should be greeted with a capacity audience at the opera house next Thursday.

Holders of season tickets will have the privilege of reserving their chairs at the Light & Power Co.'s store next Monday morning at 8 o'clock. Purchasers of single tickets will have the privilege of securing reservations and tickets on and after Tuesday morning. Tee prices will be 75, 50 and 35 cents.

Thinks Gillies is Good.

To Pioneer-Tribune:—I want to congratulate the people of Manistiquette upon their approaching opportunity to hear Dr. Gillies, of Minneapolis. I seldom have I heard anything to compare with his lecture on Jean Valjean. Your readers ought to know what is in store for them and this is my only purpose in this writing. Use my name in any way you think best in enthusiastic commendation of Dr. Gillies.

Yours truly,
J. M. Rogers

U. P. NOT EXPLOITED SHOULD NOT OCCUR AGAIN

Great Opportunity Neglected at Chicago Recently.

Good Suggestions Made by a Loyal Citizen of this Section.

Upper peninsula people who attended the land showing in Chicago last week were surprised and ashamed to find that there was no exhibit from this section of Michigan, and that visitors from other states would go home with no knowledge that the upper peninsula possesses any agricultural resources or that any crops are raised here. Practically every state in the union was represented to the land show in a manner to impress its respective advantages of soil, climate and municipal conditions on the minds of prospective settlers.

Michigan was represented, too, with apples from Grand Rapids county, peaches from Oscoda county, berries from Schariat county, berries from Emmet county and farm produce from acres of counties. Thousands of booklets with a multi-colored cover showing a map of Michigan were given away. Yet the upper peninsula was not mentioned in the booklet nor shown on the map, nor was there any single exhibit from north of the straits to be found at the land show. Speaking of this matter, one man who has the agricultural interest of the upper peninsula at heart says:

"The upper peninsula is either unknown or erroneously known by 95 per cent of the people of this country. We can raise apples that Oregon cannot produce, we have farms and farm lands richer than Iowa, we have sugar beets sweeter than Colorado, we have strawberries larger than California, we have farms, factory sites, town sites, and splendid forests. The good roads of western Michigan look like country lanes compared with the county roads of the upper peninsula. Yet the people are inactive and are permitting thousands of settlers to pass right by to take up homes in the northwest."

Residents of Illinois, Indiana and other states in the East and the middle west have a wrong impression of the upper peninsula of Michigan. They look upon this spot as the early settlers looked upon the land beyond the Alleghenies. They think this country is still back woods. For all the effort that has been made to advertise this section of Michigan people would still think that bears were still killed daily on the streets of the principal cit-

ies. To rid the people of this idea and to give prospective settlers an idea of the upper peninsula as it is, an Upper Peninsula Development association is needed. Such a movement is now on foot in Menominee county and it should receive the support and co-operation of every county north of the straits.

"Minnesota furnishes a nearly perfect example of what can be accomplished in the way of development by organization. In the first year of promotion work in that state, the state and land sales increased by \$482,250 with an expenditure of \$5,000. This was in 1905. An upper peninsula tax of one third of one tenth of one mill would give a fund of \$10,000, or twice what Minnesota expended. Michigan laws provide for such an organization and such a tax. Counties in the western part of the lower peninsula in 1908 formed a similar

organization, as the result of which those counties have made more progress in two years than the peninsula has in twenty. "The incipient organization Menominee county will shortly make an effort to interest the entire peninsula. The number are mainly of the opinion that the crop be raised in the upper peninsula equal of any shown at the land show and in many cases the superior western states have taken to advertising their farming, and the effort have proved successful, as can be seen in pictures from the last census. The exhibit at the land show the western states however, made most by business and official organizations of cities in the northwest, advertised.
