

## EXPRESSED MANY

Wm. Leighton of Grand Rapids Was Here in Interest of His Candidacy.

William Leighton of Grand Rapids, one of the aspirants for the position of representative for this district, was in the city yesterday looking after the interests of his constituents. He met a number of business men of the city during the day, and received much substantial encouragement. Mr. Leighton is much interested in the completion of a trunk line road leading from Michigan to Lake Superior, and will be remembered that he had an appropriation from the legislature of \$40,000 for the year 1914. The money in question has been spent in Schoolcraft county, and he is anxious to secure an appropriation from the state for completion of the road in question.

Notwithstanding the fact that he is not a member of the legislature, he is anxious to acquaint himself with the men of affairs through the state, he is a private individual, and is successful in securing the cooperation above referred to, and he is in a much better position to be elected as the representative of the district, to secure additional for the project.

Leighton's personality is such that he materially strengthens his candidacy every minute that he is doing his prospective constituents like the frank and honest man in which he discusses matters of interest to the district. No mistake is made if he is nominated and elected to the representative of the district. He is assured practically unanimous vote in Benzie and Lake counties, and with a meretric candidate for legislative office coming from Mackinac county, Editor Clyde Hecks, who is very popular in that county, it looks as if Mackinac county would be a negligible quantity in the fray. Leighton will receive a very satisfactory vote in Schoolcraft county. He

is much superior to the man that represented the district in the recent past, that the district can partially redeem itself in the eyes of the remainder of the state, by nominating a clean, energetic, honest business man of the Leighton stamp, this year.

Dr. Hartford and son Clinton, and Mr. Blair of Allenton, and Dr. Earl Estor of New York City, arrived in the city yesterday night via the railway, and will spend their vacation in this vicinity. They brought their auto, driving it from Allenton to Frankfort. The doctor's many friends are pleased to see him again. Mr. Usher was at one time a resident of this city, and is now a prosperous dentist of New York.

## MADE AN ADDRESS

Candidate Ellis Spoke in Manistique Last Friday Evening.

Candidate-for-Governor, Geo. E. Ellis, of Grand Rapids, was in the city last Friday, and delivered an address to a fair sized crowd at the Manistique bank corner in the evening.

Mr. Ellis has served Grand Rapids for nine years as mayor and is the present executive of that city. He devoted much of this talk to how he was elected mayor, and what he had accomplished during his tenure of office. He endeavored to prove that he was the "Indiana's friend," and it appears that he is making a strenuous effort to secure that portion of the vote. He may or may not be the true friend of labor yet in Ex-Governor Osburn, who is a candidate for re-nomination, has his friend that has been tried and not found wanting, for under his administration the compensation law was passed.

Ellis is a wholesome sort of fellow, has a pleasing personality and while he cannot be considered an eloquent speaker, possesses the faculty of being able to state his position in such a manner as to be understood by even the humblest of his auditors.

## A NEW FIRM

John J. Hruska Purchases a Half Interest in Business of J. H. VanDyck

Mr. John J. Hruska, of Thompson, has purchased a half interest in the business of J. H. VanDyck, and the firm will be known as VanDyck & Hruska. Mr. VanDyck also secures a half interest in the 400 acre farm and the 135 cattle owned by Hruska, and he has added the cattle owned by him to the Hruska herd, which now numbers nearly 200 head. It is the intention of the new firm to raise the over supply of wool so that it will not be dependent upon the packing houses for its supply. It also intends engaging upon the raising of pigs upon a large scale. The farm is equipped with a silo, and sufficient land is under cultivation to furnish an inexhaustible supply of forage for keeping cattle the year through. It is the intention of VanDyck & Hruska to enlarge their store building, and they have in contemplation the branching out in other lines of activity, which more will be said as soon as all plans are formulated.

This firm is one of the strongest financially in the city, and its members are very well and favorably known. Hruska has been a resident of Schoolcraft county for nearly thirty years, much of that time he has been in business with Thompson. VanDyck first came to Schoolcraft county eighteen years ago. Nine years ago he returned to the city from Republic, and purchased the business of J. Schaefer, which he has been conducting successfully since that time. He has enlarged the business to such an extent that he was compelled to enlarge the place of business within the past few years. Mr. Hruska has just purchased residence property in the city, and has moved his family here, and will devote all of his time assisting Mr. VanDyck in the operation of the business.

## To Report

The Austrians living in this city, who have not made themselves of the particulars of leaving naturalized citizens during their stay here, have been notified to report at the Sax next Sunday morning for the purpose of returning to their native land and doing military service. The number is quite large, and some of them are married, and very highly respected by those knowing them. This is a hard time made to feel the ruthless hand of war, even if it has cost many thousands of miles from the European continent.

## FOR TREASURER

Milton Williams Announces Candidacy for Important Office.

Milton Williams of Inwood township, announces his candidacy for the nomination of county treasurer, subject to the decision of the voters at the primary election to be held August 25th.

Mr. Williams has been a resident of this county for nearly thirty years and for the last fifteen years has been supervisor of Inwood township. For several years he was chairman of the board of supervisors. Thus it will be seen that he has enjoyed the confidence of his neighbors to the fullest extent during all of these years. He is a man of prudence is the personification of honesty, is competent to personally attend to the duties of the office and will in case he is honored by the county move to Manistique and give the office his personal attention. He will not delegate the work to a deputy. He is a laboring man having tilted the soil and having engaged in lumbering during the many years that he has resided here. The laboring men, as well as the voters that believe that a county officer should personally attend to the duties of his office are for Williams, and that he will be a vital factor in the forthcoming fight as conceded by everyone.

## SOME GAME

The Pig Iron Giants Defeated the "Live Wire" City Team last Saturday.

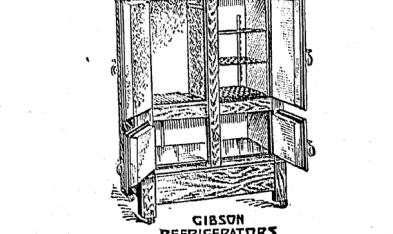

The "Pig Iron Giants," a team comprised of employees of the Lake Superior Iron & Chemical Co., were defeated in a ten inning game by the "Live Wire" City team, and the umpire, at the fair grounds last Saturday afternoon in a score of 14 to 12.

The game was fairly well attended, and while it was more or less in the nature of a parody on base ball, yet some good plays were made, and some of them a double play - also many laughable and costly errors were made.

"Eddie" Morrison pitched for the "Live Wires" until his arm absolutely refused to put the ball to the plate, and he was succeeded by J. N. Parshar, who pitched the remaining eight innings. Roy Laffin caught for the "Live Wires" and his work was good. Messrs. and occupied the points for the Giants, and their work was excellent. Messrs. Birnham and Edmundson distinguished themselves, the latter catching a fly - also missing some. Earl Hoop for was the umpire, and owing to his work the scores were mutually reduced. He found it necessary to utilize the two revolvers he carried to keep the "fans" from wreaking vengeance upon him from some of his decisions.

## ANNUAL MEETING

### First Baptist Church Shows Gratifying Increase in Membership.

The annual business meeting of the First Baptist church was held Monday evening. Officers were elected as follows: Owen Quick, clerk; M. H. Quick, treasurer; W. W. Owen, trustee; W. McEldan, Supt. of the Bible School; Mason Quick Asst. Supt.; W. McEldan, Supt. of the Primary School; Lillian Quick, assistant Supt. Officers: Alex Davidson, John McEldan, James Quersbaunt, George Stigham, Herbert Hammil, Standing Committee: Finance: E. W. Miller, Mrs. Alex Quick, Mrs. W. S. Crowe, Mrs. Lillian Quick, Miss Lillian Quick. Officers: G. G. Quick, Dr. D. E. Selter, Mrs. Davidson, Baptismal: G. G. Quick, Mrs. Davidson, Calling: Mrs. H. O. Burley, Mrs. Severy, Mrs. Lindenthal, Mrs. John McEldan, Mrs. G. T. Thurman. The reports of the various departments were very encouraging. The report showed that 50 new members were added to the church during the year. Thirty six baptisms, a net gain of 42 members. The present membership 269. The treasurer's report showed that \$974.86 was raised during the year. Contributions to the church, \$33.52 were contributed to missions. All bills reported for the year are paid. The average attendance in the Bible school for the year is 135. The present pastor, Rev. Leach has been in the field only six months. During that time 35 members have been received, 27 of them being baptisms. He has inaugurated a new program, a series of lectures, a bi-weekly campaign of publicity, which has resulted in audiences that are at times taxed the seating capacity of the church. The outlook for the new year is very promising. Next Sunday morning Rev. Leach will give a message appropriate to the new church year.

### SEVERE BRONCHIAL COUGH

Doctors Feared Lung Trouble, Restored to Health by Vinol.

The medical profession does not believe that lung troubles are inherited, but a person may inherit a weakness or tendency to them. Mrs. Kate Heckman, Springfield, Ohio, says: "A few years ago I was in a very bad run-down condition, and the physician told me I had consumption. I tried another physician, and he told me I had tuberculosis and lung. I quit the physicians and lung. I got the Vinol. Today I am perfectly healthy, and that is why I recommend 'Vinol.' Vinol soothes and heals the inflamed surfaces and allays the cough, Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off the incipient pulmonary disease. Try a bottle of Vinol with the unflinching certainty that your money will be returned if it does not help you. P. S.—For any skin trouble try our Bazo Salve. We guarantee it. A. S. Putnam & Co.

### GERMFASK NOTES.

The dance given by the base ball boys on the 24th was a decided success from both a social and a financial standpoint. The ball game on Sunday between the McMillan and Gernafask teams drew a large crowd. Blaney Lakeland

Louis Ratway will soon close out his business here and move to the city of Manistique where he will engage in the mercantile business.

John Cornell had the misfortune of cutting himself just below the knee while building a shaft fence.

John Lynch of the Soo, one of the pioneers of Gernafask, is again visiting relatives and old time friends.

## DEEDS NOT WORDS

Manistique People Have Ample Proof of Deeds at Home.

It is not words but deeds that prove merit.

The deeds of Dunn's Kidney Pills, for Manistique kidney sufferers, have made their local reputation.

Proof lies in the testimony of Manistique people. Mrs. F. Luffrecht, 211 N. Houghton Ave., Manistique, Mich., says: "I had a steady dull ache through the small of my back and when I got up in the morning, I was all tired out. I often had headaches and dizzy spells. I knew that I had kidney trouble, for the kidney secretions gave me a great deal of trouble. I had sharp pains through my back if I stooped and was in misery when I tried to straighten it. I caught cold, it acted on my kidneys and made the trouble worse. I doctor and tried a number of remedies but they did not help. Finally I used Dunn's Kidney Pills and two boxes relieved me. Price 50c, all dealers. Don't simply ask for a kidney remedy—get Dunn's Kidney Pills—the same that Mrs. Kuffrecht had. Foster-Milburn Co. Profes., Buffalo, N. Y."

## EDITORIAL COMMENT

In life's circus the loudest shouting is done in front of the cheapest shows.

In Escanaba couple held a reception in honor of their three weeks old baby girl. Writing to waver a dollar to a doughnut that was their first child.

The majority of the newspaper men of the state are espousing Osborn's cause. This was revealed in a recent poll of newspapers taken by a Grand Rapids publication.

Every emergency develops a hero. The captain of the treasure ship, Cecelia, who turned the course of his vessel in mid-ocean, and saved his ship and the millions of dollars it bore, from falling into the hands of the enemy's warships had planned to intercept it, proved that he was the man for the job.

After reading the Escanaba Journal of last week one is apt to come to the conclusion that Yelland, erstwhile candidate for congressional honors, toyed with a buzz saw when he publicly criticized Editor Baldwin. What Baldwin did in him makes interesting reading and Editor in question will go down in upper peninsula history as a "man" classic.

While the assassination of two members of the Austrian royal family at the hands of the Serbians is to be deplored, yet it does seem that the incident in question is not sufficient provocation, to cause a world wide war, and all that that will mean. If the European nations do not settle their differences at once, many thousands of lives will be sacrificed upon the altar of war, and many of treasure will be squandered. Such a war would have its effect upon this old world of ours for many centuries.

An eighteen year old boy was picked up in a drunken condition by one of the officers last Monday evening. He was arraigned in Justice Teeple's court Tuesday morning and the case adjourned for a week. The boy claims that he was given the liquor by two lumber jacks. However he also stated that it was not necessary for him to sneak about the alleys to get liquor but that he was able to purchase liquor in the saloons whenever he felt like having a drink. The fact shows that seemingly very little care is exercised by some of the liquor dealers of the city regarding the sale of liquor to boys.

Good roads develop a new country more rapidly than anything else. Leighton is a consistent believer in good roads, and the platform upon which he is making his campaign for the legislature is "Good Roads, Good Jobs." He has thrown himself to be the friend of Scholeraft county, for it was through his efforts that the \$40,000 appropriation was secured for the Seney-Grand Marais road, and the entire amount has been expended in Scholeraft county. He will, if sent to the legislature, endeavor to secure a state appropriation for the completion of the road from Grand Marais to Seney. When this particular link is completed it will be possible for residents of this section to make the trip to Grand-Marais, on Lake Superior's shore via auto. Not in a decade had this district sent a man to the legislature that has the wide acquaintance with the men that do things, that Leighton possesses.

One of Seney's organs in the upper peninsula is misrepresenting Bayliss. First it claimed that he was a "dry" candidate and should for that reason be defeated. Now it claims that Bayliss is a "wet" candidate. Bayliss has often reiterated that in case the question of national prohibition should come up before congress he should be a member of that body, he would be in favor of allowing the voters of the United States to have an opportunity of expressing themselves on the question. Nothing can be fairer than that. The people always should be given the privilege of expressing their desires, and any candidate for official preferment that is unwilling that the people should have the privilege of exercising that inherent right, is entirely too narrow to be elected to any office. If you vote for Bayliss, you will not vote for a smooth, oily proposition, but for a square-told, honest man that will endeavor to serve all without showing partiality to any interest or faction.

At the present time Europe is a powder house to which a lighted fuse is attached, and it will be a miracle if every country on the continent is not shortly involved in a war that may bankrupt the civilized world. The recent assassination of members of the Austrian royal family in Serbia, appears to be the prime cause for the mix up. The various nations of Europe are so bound up with alliances and treaties that when two countries become involved in a quarrel, all are brought into it. With Germany, Austria and Italy on one side, and practically the remainder of Europe opposed to them, it would seem that a drastic step before the war ends, as they are woefully out-numbered by their opponents. Europe has been armed camp for a hundred years. Only last year Germany spent \$800,000,000 in preparing for military contingencies, while the other nations also spent colossal fortunes. A general war in Europe under present conditions would be a calamity. Modern civilization and the numbers involved would mean the loss of hundreds of thousands of lives, and billions of treasure. America is not likely to be drawn into the conflict but it will feel and is already experiencing economic disturbances incident to war. No man centuries ago our ancestors stalked about unclothed and carried a club over their shoulders. Now clothed and the world appears to have a veneer of civilization, yet it seems that much of the barbaric nature in mankind is yet extant, and that it is only satisfied in rapine, pillage and blood.

## EDITORIAL COMMENT

Candidate for Congress Scott has been endorsed by the liquor dealers Delta county. That sort of a lead ought to swamp his craft.

Rev. Scott, former pastor of the local M. E. church, now located at Noveborac, is a candidate for the legislature on the Prohibition ticket.

It does not pay to be too hasty in jumping at conclusions. The man that greets you with an offensive hand shake, and says "Hello, man" is not always an old time friend. He may be an office seeker.

The secretary of state may be a good Chautauqua speaker, but one shudders what might happen should the United States become tangled in the European war. Bryan has shown an utter lack of diplomatic ability in dealing with the Mexico situation.

The peace conference to have been held at Vienna has evidently been postponed indefinitely. Looks as though the world was not ready for universal peace. It may be after the week that will be inevitable should the whole of Europe become involved in the present flurry.

With two candidates for the governorship, viz: Grosbeck and Ellis, conceding that Osborn is between them and victory, and knowing that Osborn is lead one to believe that the ex-governor stands a good show of getting the honor.

Just when Fred M. Orr thought that he would have no opposition for the sheriffship, two fellow citizens have decided to make the race. They are Victor P. Doerner and Geo. Henschel. The voters of the county will have at least three candidates from which to make a selection for the office in question.

Editor Clyde Isaac of St. Ignace is the Democratic candidate for legislature from this district. That he will be an important factor in the legislative election is a conceded fact. It would be deplorable should the Democrat fail to be represented by a Democrat, yet more serious things than the election of a man of capabilities possessed by Isaac, might befall the district.

The five candidates opposed to Osborn are now planning to form a coalition with the idea of defeating him by the nomination. They concede that he is gaining strength so rapidly that he stands a good show of out-distancing the field, hence their solicitude. It will be a hard matter for Grosbeck, MacDundas, Ellis, Gavilner and Linton to get together, as they are ambitious, and really hate to lie down.

Editor E. A. Stowe of the Michigan Tradesman, published at Grand Rapids, claims that Grand Rapids is the worst governed city in the state on account of Mayor Ellis' appointments. Stowe claims that Ellis is duping union labor with the tale of how he stood for union labor during the strike at Grand Rapids, and that he incited the strike and kept it going when he knew the case was hopeless, and simply to supply stage setting for his alleged friendship for union labor. Ellis asks Stowe to retract or submit proof.

## Why Not Fuller.

The Pioneer-Tribune has been a supporter of Auditor General Fuller for many years. It assisted in sending him to the senate and also was his supporter when he was nominated for the legislative district. It supported him for his first, second and third term as auditor general, and is giving him the same sort of loyal support for the fourth term. Fuller has always made good no matter where he has been placed. During his tenure of office as auditor general he has saved the state \$123,000 in clerk hire, notwithstanding the fact that he is constantly in the office personally. He keeps his force busy, makes the employees put in their full time and he is well to do under his management. He has a little looking out for the interests of the state in that all important office second only to that held by the governor, should be kept in office just as long as he desires to hold the position. We hope and believe that Scholeraft county will send a Fuller delegation to the state convention, and we also hope and believe that the delegates from various counties of the state will also do the same. An employer of labor, when he finds a man that gives him faithful and efficient service, such as Fuller has given the state, gives him a position for life when the commonwealth confests its business principles. There will be fewer misfits in office.

## Is The Science of Government.

Into Bay City the other day there came an old man, who was journeying about the country for the sole purpose of interesting people in politics. He believes that the voters of today are not properly educated as to their duties to the government.

Chase S. Osborn, former governor, who was in Bay City when the aged traveler arrived, says we need more such teachers.

"Politics," said Osborn, "and I do not mean the cheap, petty Tammany kind—is the science of government. It is the duty of every citizen to study political affairs and to elect only the best men to serve them. The world is passing through ruins of cities that lived before the time of Greece and Rome. If the cities of our nation ever come to that, it will be because the servants of the people have been recreant. War closes through us here, and continues to be in place because the only thing which can bring us to ruin is an administration of our government affairs."

An odd feature of Osborn's campaigning—it is odd when compared with the methods of most office seekers—is that in all his speeches making through the state, he has refused to let any one ask him his auditors to vote for him in the primaries for the Republican nomination for governor. "Vote with your conscience, vote with patriotism, and vote for the best interests of our government," is the plea of the former governor. After you have done that, I care not for whom you have voted. Michigan will be more or less already done. And if the people decide some other man is the best one to serve them as their governor, I have a home to go to, and there, as a private citizen, do all I can to make Michigan the greatest state in the Union.

SIMPLEST OF ALL FAITHS  
Religion of Islam Makes Minimum Demand on Intellect and Nature of Man.

It was afternoon in a small village of the Zizans. I was seated on a straw mat in a little garden-space just outside the cafe, and I was looking at the sky through the vine leaves trellised overhead, which floored me with their shadows. An old Arab was praying just in front. Two groups, one on each side of me, were peacefully seated on clean mats—made—young men, whose dark, and faces, thin-fleshed and large-eyed, contrasted with their white robes. They were smoking light—a translucent, cold in their clear bronze skin, a languor of light in their immobile gaze, content. The garden made off before me, topped with many distances, the silent street on one side was a place of peace, it was not. It was a place of peace, I had finished my coffee and dates. I filled my pipe with tobacco. The heat was great, intense, and I sought myself to a long smoke, and fell into reverie and recollection.

How simple it all was! That praying Arab—what an amazing thing! God! What a nonchalance in the dreamy pleasures of those delicate-fleshed youths! What a disburdenment was here! I had only to sit, to let the mind flow, and heaven dying, to be one of the faithful; and the fact was symbolic, exemplary, of the simplicity of Islam. It makes the minimum demand on the intellect and the nature of man. I had but lately placed the faith in its true perspective, historically, Mohammedanism, the Jehovahism of Islam, was the older brother of Protestantism, notwithstanding profound differences of racial temperament between them. The occidental mind—Western mind—was the more materialistic, more materialistic, more materialistic. It is not content, like the Mohammedan, to let things lie where they fall, disintegrate, crumble and sink into oblivion. Western education, the mind with the angle-foot of the past, Catholicism was of this racial strain. It had a genius for absorption. It was the genius of the religious past, and that resulted after centuries was an amalgam, rich in dogma, ritual and institution, full of inheritance—Baltimore American.

Good Argument.  
Leaders in the new thought, feminist, equal suffrage and similar movements are pointing with pride to a woman of Hutchinson, Colo., as proof positive that a woman can work at anything a man can. This woman is running a successful business, raising her own, raising chickens, looking out for a herd of cows, and doing about everything that a regular farmer does.

Some of her experiences, while not very exciting, show that she has plenty of nerve. On one occasion a cow which had fed on frozen potatoes managed to get into the hen house, and started to choke to death. The woman farmer rolled up her sleeve, brought down into that cow and reached up the potato.

On another occasion two pigs got loose and led the woman on a cross-country hike. She not only recovered them, but she "wailed" the life out of them after she got them back and brought a fear into their hearts that prevented them from wandering again.

Transplanting Hair to Eyelids.  
Transplanting hair to the eyelids in order to replace lost lashes is performed successfully in Germany by Dr. Prunke, who has used his method in the Deutsche Medizinische Wochenschrift. He clips the hair on whatever spot he may select for his kind of little more than an inch, sterilizes the region with benzine, and removes single hairs with a suitable trephine, taking the skin and hair glands together in a piece of tissue about one and a half millimeters in diameter. Then by a specially designed instrument each hair is separately inserted into the lesion of the eyelid, so that this hair is completely imbedded and its free end projects in the normal manner.

Doctor Krutina says that not more than one hair can be transplanted at one sitting. He adds that these transplanted hairs tend to grow and have to be kept trimmed to the desired length.

## WITH BOGUS PISTOLS

INSTANCES OF THIEVES HAVING BEEN CAURED OFF.

Trick is an Old One, But Seldom Falls of Success—Frank of New York High School Boys That Looked Serious.

Recently Solomon Barman of Manhattan scoured into flight two thieves who entered his store by selling him a bogus pistol and fooling them into supposing that he had a revolver. It is an old trick and yet it succeeds, as the confidence man can almost sell a good brick to a farmer who never heard of Hungry Joe.

A short time ago river thieves boarded a tug moored along the Hudson and attempted to enter the cabin and secure money and valuables from a small safe he had there. The engineer of the little boat heard the thieves, and creeping up on the engine room called: "Blitz! It's the engine room call!" At the same time he ran around the side of the cabin with a dipper handle.

Not until the thieves got ashore did it seem to occur to them that there could have been a pistol in their pocket. The officer who would have treated to a safe distance and then over near Hunt's Point a few months ago they had an instance of a cross country robbery. Several groups had been robbed and everybody in the vicinity became suspicious of the slightest unusual movement.

After dark, two high school boys after dark. They held up a citizen with shining barrels. After the other dark, they held him up all right, both presenting proper looking pistols. The citizen, however, did not know all of his valuables either, and when he revealed them, nothing more the boys revealed themselves.

In a great rage the citizen then blew a police whistle and a mounted officer galloped up. The boys protested they had only joked with a neighbor. The citizen declared they were punning. The officer was willing to look lightly on the affair until it was pointed out that pistols had been brandished.

This made the matter serious. The officer arrested the boys and took from them the weapons that might bring them a term of years in prison, so heavy is the New York penalty. The pistols to which were exposed the whole matter was dropped. The pistols were first rate imitations of the real thing, only in this case they could explode nothing more deadly than a cap—New York Herald.

When Poisoned by Ivy.  
After exposure to poison ivy, the ill effects can be warded off by prompt removal of the irritating substance. Vigorous washing with soap and water, preferably using a hand brush, and the use of antiseptic, will do this. This often prevents the ill effects, and often when the characteristic inflammation has become manifest it can be reduced to insignificance by prompt measures. This cannot be done, however, after the irritation has become intense; vigorous washings are impossible and alcohol painting, which has water, followed by application of dusting powder, is comforting. Salves are not well borne as a rule, and if the poisoning has reached a stage where the treatment is professional treatment, as few, if any, of the innumerable domestic remedies prove to be entitled to reliance.

Cat Led His Home.  
Smith and Jones met in the smoke end of a Pullman car one afternoon, and during a gallop Smith referred to the town into which he had just moved.

"The streets of the blooming burg," he eloquently described, "are the scene of a life of anything, but life on the face of the earth. You may not believe it, but a couple of days after we got there my wife had a cat that she wanted to lose and told me to take it over and leave it along the river about a mile distant. Well, sir—"

"I see, old pal," smilingly interjected the other. "That's where you lost the cat all right."

"You've got another guess," returned Smith. "If I hadn't followed the cat I would never have found my way back home."

Long and Merry.  
A short life and a merry one! The motto of the quip ever uttered. "Why should I be short to be merry? Rather make it a long and a merry one. There's more sweetness in a dollar's worth of sugar than in a cent's worth of salt. There's more life in a long life than in a long life."

Benedict's Dilemma.  
"You seem to be having a struggle over that letter."  
"Yes; want my wife to think I'm a liar, but I don't want her to get to feeling so sorry for me that she'll bustle home."—Kansas City Journal.

# A GENERAL WAR

## All of Europe Involved in a War that May Change its Map.

The summer had clouds of warfare hanging over practically the whole of Europe at the present time, and actual warfare has commenced in the line of the whole of Europe, save Italy, is lined up against Germany and Austria-Hungary.

It is believed that the war will be of short duration for it would be an efficacious blot upon the present day civilization should it be long continued.

Germany has invaded France and Russia, while the Austrians and French troops have also crossed the border. Several naval battles have been fought between German and Russian fleets.

Europe has an armed military camp for the forty years, and it requires but a spark to fire a train that may result in world wide disaster and the loss of thousands of lives and billions of treasure.

President Wilson has addressed the following note to the rulers of the warring nations, offering his good offices to bring about the close of the deplorable condition. It follows: "As official head of one of the powers signatory to the Hague convention, I feel it to be my privilege and my duty under Article III of that convention to say to you in a spirit of most earnest friendship that should welcome an opportunity to act in the interest of European peace, either now or any other time that might be thought more suitable, on an occasion to serve you and all concerned in a way that would afford me lasting cause for gratitude and happiness."

# PURCHASED LAND

Goodville Co. Purchases Fifteen Acres of the Consolidated Co.

During the current week a deal was closed whereby the Goodville Bros. Co., acquired fifteen acres adjacent to their plant from the Consolidated Co. It was rumored last year that if available land was secured by the Goodville people that they would move their Wausau, Wis. plant to this city.

Mr. and Mrs. C. W. Hart of Cooks, were in the city yesterday.

# DON'T SPLIT TICKET

## You Will Lose Your Vote if You Attempt to Vote Split Ticket at Primaries.

One thing every voter participating in the primary election on August 25th, should remember is that he cannot vote a split ticket as he is enabled to do at a regular election. While all tickets appear on the same primary election ballot, yet the voter is supposed to confine his voting to the ticket of his choice. If you split your ticket, you lose your candidate on the Republican ticket so that everyone can figure out a suitable ticket, without wandering into tortuous pastures.

Of course you can use slips, or can vote for someone not on the ticket if you so desire, but you must do all of your scratching and writing on the ticket of the party to which you belong.

# SECURED POSITION

## Supt. Geo. P. Edmonds to be Michigan Representative of Big Publishing House.

Ex-Supt. Geo. P. Edmonds, of the local schools, has accepted the position of Michigan representative of the World Publishing Co., of Minneapolis and Chicago, and has entered upon his duties. He has been assigned the entire state, and will no doubt do well for the firm in question in publishing books that are popular with school boards as well as with the reading public.

## Rev. Simmons to Preach.

Rev. W. H. Simmons, former resident of this city, who arrives in the city tomorrow as the guest of Mr. and Mrs. Chas. Orr, will preach at the Presbyterian church Sunday morning. His many friends will be pleased to have this opportunity of hearing him. He is now located at Atlanta, N. Y. Sunday School and Christian Endeavor at usual hours. No evening service.

Matt Miller of Gladstone, was in the city during the fore part of this week.

# Commercial Club.

The commercial club have many interesting propositions brought to their notice these days. The opportunities for helping different wood-wearer manufacturers with new styles, were never more plentiful. And now comes the state manufacturer and for his cause states that while his business in a southern state is a complete failure, he is nevertheless willing to make the trial again if he will lease his plant to Manistique and will give him a free site, location, exemption, and take a liberal box of stock in his concern.

The chief Brothers Cooper Co. of Cleveland, Ohio, are very much interested in the matter of locating one of their mills in the upper Michigan. They have expressed a decided preference for Manistique because of the excellent shipping facilities, etc. Negotiations have been under way with this company for some time and the chance of having them locate in Manistique are good.

The membership in the Commercial Club is steadily growing. The new members this week are W. S. Bannan, Julius Peterson, A. M. Lettogy, Johannes Anderson, G. T. Thurman, Wm. Do, Inutt.

# For Sheriff.

I am a candidate for nomination as sheriff subject to the Republican primaries to be held August 25th, and promise to give the office careful and economical attention should I receive the nomination and election. Geo. Bauschler.

# Bonding Proposition.

Havatha township, will vote on a proposition of bonding the township in the sum of \$4,000 for the purpose of macadamizing the road leading to the upper settlement across the village, from a point where the county road ends. The Delta Contracting Co. have offered to furnish the stone at net cost of crushing, and it is doubtful whether the township will ever have another opportunity of securing stone as cheaply. The company in question must dispose of the stone secured in the cut where the new road drops into the swamp, and is certainly making a liberal offer to the township which will no doubt vote affirmatively upon the bond issue.

Mr. W. J. Barendon of Rosenthal's store is spending his vacation at Florence Wis. He is accompanied by his family.

# MULGTED OF BIG SUM

## Frank Fox Settled Case Against Him for \$2,000 at Pontiac Recently.

The Detroit Free Press has the following to say concerning the settlement made by Frank B. Fox in a case that has been pending a constant in the circuit court at Pontiac.

The breach of promise suit of Lelah Cooper, Cheboygan county school teacher, against Frank Fox, wealthy Rochester, farmer and contractor, was dismissed this afternoon when the attorneys announced that Fox had paid the woman \$2,000.

Fox met Miss Cooper when she was a school teacher in the upper peninsula and he a lumberman. She has since given birth to a child, which is with her parents in Cheboygan county. At the commencement of the suit the woman offered to settle in the sum of \$2,000, but Fox had declined, and the suit has been pending since.

# Lowering The Cost of Living

How we enter into this "Home" question of Vital importance.

James J. Hill, the Minnesota railroad man, says, "It's not the high cost of living, but the cost of LIVING HIGH that is troubling the American people."

And living high means, in the most cases, giving a dollar for less than a dollars worth of value. Things are not necessarily cheap because the price is low. It's quality that counts. That is where we do our duty. No matter what price you pay, you get at least your dollars worth of quality here.

The foundation of this store's business is "QUALITY", that's the feature we take care of first.

## THE ARMY WORM

Has Made Its Appearance in Schoolcraft Co., Should be Vigorously Combated.

Mr. W.M. Raven, field agent for the Agricultural college, in the upper peninsula, was in the city this week in response to a telegram from Schoolcraft county farmers in combating the army worm which had made its appearance. Geo. J. Nicholson as soon as he discovered the worms at the White Marble Lime Co's farm at Marblehead notified the M. A. C., and asked for instructions. The letter he received follows, and should be carefully preserved by every farmer reading this article, in order that he may successfully comb

the worms, should they appear on his farm. The letter follows:  
August, 1914.

Dear Sir:

The army worm is becoming very bad over a good portion of the state right now. The most you can do is to keep these creatures from spreading beyond the parts of the fields already infested. The best way to do this is by means of ditches or by plowing furrows. If plow three furrows about six feet apart around the infested region. Turn the furrows toward the worms; the worms will fall into the furrows and being poor climbers, very few of them will get past these furrows. When the first one is half full, turn it under, making a new furrow. The worms work at night and lowery weather and for this reason it will

pay you to watch at night for a few days until the attack is over. They like night and early hours better than any other time. In fact, they will not come out in the daytime. Other traps, such as attractive iron points, traps, shovels and wire traps, when they get into ditches at night, I would advise you to use. The following may give you some idea of the amount of damage they do: In a field of corn twenty rows of corn, half a million of worms may be found in a single day. The whole mass; and these worms proceed up freely in a field of corn, skins and all, broadcast this over about five acres of land using most where the army worms are advancing. We send you under separate cover, our Bulletin on field crop insects, which will give you a picture of the worm and a little more information. I need not urge you to get busy with this matter, because you will realize the danger when the worms start to move to new fields.

Yours very truly,  
Professor of Entomology

## MAKING PROGRESS

The Stumping at Marblehead Farm being Energetically Pushed.

Mr. Clarence Shepard, who is the representative of the A. J. Kerstin Co., of Escanaba, has commenced the work of stumping fifty acres of cleared wood over land at the Marblehead farm owned by the White Marble Lime Co. With the aid of three of the Kerstin Co's stump pullers, three teams, and twelve men, he is clearing from one and one half to two acres daily ready for the plow. A pulper manufactured by the Kerstin Co. was moved to the grounds Tuesday, and is doing efficient service. The efficiency of the Kerstin pulper is being certainly demonstrated at the farm in question. It looks as though the company has solved the least possible cost. The machine in question will no doubt come into general use in the upper peninsula for the growth and development of the peninsula depends wholly upon the rapidly with which the crop of stumps is gathered, and the soil fitted for agricultural pursuits.

Mr. Shepard is showing his efficiency and thorough knowledge of the work in hand, and is making friends for the Kerstin machine daily. Kerstin was in the city during the fore part of the week, to see and supervise the work.

## FOR TREASURER

A. J. Smith Seeks a Renomination as County Treasurer.

Mr. A. J. Smith, who is serving his first term as treasurer of Schoolcraft county, is a candidate for renomination, to be held August 25th. He believes that he has given the county an efficient administration of the office during the past two years, and that he is justly entitled to another term, as has been the custom in years past.

He promises to give the county the same sort of an administration during the coming two years, should he be chosen to be his own successor.

Mr. Smith has a wide acquaintance throughout the county, is a good campaigner and will energetically push his candidacy, with the hope that he may be successful.

## Teachers Examination

An examination for all classes of certificates will be held at the court-house August 13th and 14th, 1914. W. T. S. Cornell, Commissioner.

Mr. V. L. Hixson was in Chicago during the fore part of the week.

## COMPLIMENTS FARM

Mr. Raven, the State's Potato Expert, Praises White Marble Lime Co.'s Potato Crop.

State Potato Expert Raven visited Manistique during the past week, and while here visited the White Marble Lime Co.'s farm at Marblehead, and inspected the twenty-five acre tract of potatoes belonging to the company in question. He stated that it was the best field in the state, and he believed that the yield would exceed 300 bushels to the acre. He also complimented Mr. Nicholson upon the perfect manner in which the field was cultivated and its freedom from weeds.

He was very much pleased with the outlook for a bumper crop in Schoolcraft county, and said that there was a refreshing freedom disease in the acreage of the county.

According to the printed schedule, Michigan's pure food and health special train, will reach Manistique next Tuesday evening and remain here until the following morning, going from here to Gladstone and Escanaba.

# MONUMENTS

Manistique now has, in the Manistique Marble and Granite Co., an institution that can furnish Monuments in any design wanted and at any price. It is wholly unnecessary to patronize outside concerns, for you are offered as wide a range for selection as any else can offer, and the prices, considering workmanship and material, are very reasonable.

At our office in the old Ann Arbor depot, near the Manistique Laundry, you will find the junior member of the firm who will give you careful and competent advice and assist you in selecting what your fancy dictates.

At our office you will also have an opportunity of seeing the material used, and have countless designs from which to make your selection.
