NEW DEPARTMENT STORE

To Be Known As The

PEOPLES STORE

Now Being Organized by
L. Yalomstein and Others

The "PEOPLES STORE," now being organized, will occupy a modern department store building to be built on the corner of Cedar and Oak Streets. The building will be 100x138 feet, with bargain basement. It will have the latest style of glass fronts; and entrances from both Cedar and Oak Streets. The store will own 983179 feet of additional frontage on Cedar St. for future growth.

The "PEOPLES STORE" will be incorporated for \$75,000.00, which may later be increased to \$100,000.00.

One-half of the stock has already been subscribed. It is the intention to make this the "PEOPLES STORE" in fact, as well as name, and one-half of the stock is to be sold to the general public on the following conditions, viz:

No subscription will be received for less than \$50.00 or for more than \$500.00.

If the stock is oversubscribed, the subscriptions will be reduced, and stock allotted proportionately, except that not less than \$50.00 will be allotted to any one person.

There will be no watered stock in the stock of the "PEOPLES STORE." Every dollar invested in this stock represents actual value. Of the \$75,000.00 capital, \$10,000.00 or \$12,000.00 will be invested in a controlling interest in the store building. The balance will be invested in a complete up-to-date stock of merchandise.

At the present time there is not a department store in Schoolcraft, Alger, Luce or Mackinaw Counties. With the extension of good roads a large proportion of the trade from these counties will come to Manistique if the proper trading facilities are afforded, which the "PEOPLES STORE" proposes to do.

This large modern "PEOPLES" department store and commission house will do a large volume of business (both wholesale and retail), will be in a position to buy every thing in large quantities direct from the mills and manufacturers, consequently can and will sell merchandise of better quality just as cheap as Chicago mail order houses, and will keep the trade at home. In fact we propose to make the "PEOPLES STORE" a Mail Order House for the people of these four counties when they can't come to Manistique to do their trading, and a Trading Center for all that can come.

The "PEOPLES STORE" will buy farm produce by the wholesale and will form connections with reliable commission houses in Chicago and other cities to dispose of the product. By reason of its large volume of trade, the "PEOPLES STORE" will be in a position to demand and obtain fair treatment. What chance has one farmer in dealing with a commission house? The "PEOPLES STORE" will make a market for all our farmers can produce.

The "PEOPLES STORE" will feature the following:

1. A Schoolcraft County Crop Report revised weekly.
2. General Information Bureau, posting Current Prices, Experimental Farm Reports, Etc.
3. Rest Room and Lunch Room in Basement.
4. Hitching place for Farmers' Horses and Parking Place for Automobiles.
5. Auto Truck Delivery Service.

The "PEOPLES STORE" will operate an up-to-date auto truck service and make daily deliveries in town and weekly deliveries as far as Whitdale, the River Road, the Colony, Thompson and Cooks (when the County Road is finished). As the country grows and the roads are extended this service will be extended.

The "PEOPLES STORE" will take over the retail merchandise stock of the Consolidated Lumber Company at actual cost inventory value. The "good will" and the business of the C. L. Store will go with the trade.

The results of the C. L. Store conducted on most conservative lines, and under the disadvantage of location, retrenchment, etc., have been very profitable, and we leave it for you to decide how much more trade a modern glass front "PEOPLES STORE" conducted along aggressive lines and located on the best corner should draw. The store will be under the management of Mr. L. Yalomstein who has been in the mercantile business in Manistique for the past 15 years and Manager of the C. L. Store for the past eight years. Under Mr. Yalomstein's management the C. L. Store has been remarkably successful.

These big stores pay immense dividends to their stockholders, and are owed by a few enormously wealthy men who employ an army of poorly paid clerks living in crowded cities on starvation wages. Why should country people patronize such conditions?

The "Peoples Store" Building

Construction: Concrete and Dull Brown Paving Brick trimmed with White Tile. Improved "Kawner" Glass and Copper Front. 238 feet of glass; 100 feet on Cedar street and 138 feet on Oak street.

Ample room for all departments. A floor space of 27,600 feet. Main floor has 18 ft. ceiling. Bargain Basement has nine ft. ceiling. Latest up-to-date Fixtures—Equipment—Lighting and Heating System

(Owing to delay in receiving the cut of Building same will appear in this space next week.)

How much better for this community if the profits which now go to these large stores would stay at home and pay dividends to local stockholders, and furnish employment for local girls and boys.

Why not, instead of sending outside for your goods buy some shares in the "PEOPLE STORE" and trade at home and get the profit on your own trade back in dividends on your stock. Every person in these counties who has been in the habit of sending to mail order houses for their goods should do this. We believe they will, and believe the reason why people send to a mail order house in large cities is because of the lack of proper trading facilities at home, which the "PEOPLES STORE" intends to furnish.

The present field for the "PEOPLES STORE" looks bright, but the future looks even brighter. The country is building good roads as fast as possible. It will only be a few years until macadam roads will cover all the territory. The farmers are buying automobiles. With good roads and automobiles, the farmer will come to town often and purchase at home instead of buying goods he has never seen from people he don't know.

It is easy to go with the tide. The tide today is drifting toward the establishment of moderate sized Department Stores in the smaller cities, serving a territory big enough to supply the trade to support such a store, but not so big that the people cannot see whom they are trading with. The "Community Spirit" is developing all over the United States. An up-to-date Department Store which will attract the trade that now goes to the mail order houses will do more to develop this spirit in Manistique than anything else. People are looking for their opportunities where they are at home and do not pay so much attention to the enchantment of distance as formerly. The "Unit" idea is spreading. Manistique is the natural trading center of a "Unit" large enough to supply most of its own wants.

An investment in the "PEOPLES STORE" will give employment to builders and workmen, and will add to the taxable wealth of the community and materially improve your home city.

This is an opportunity. When have you ever been offered a chance to invest in the stock of a department store? These stores are usually owned by one or two men. The "PEOPLES STORE" will have the advantage over the ordinary department store on account of its large number of stockholders who will naturally trade with it.

The "Motto" of the "PEOPLES STORE"

**Co-Operation and Profit-Sharing. Keep the money and trade at home.
See what you buy. Sell to people you know.**

You will have to act promptly. One half of the stock has already been applied for. There are over 10,000 people in the territory tributary to the "Peoples Store", and if only one person out of every eight applies for the minimum amount of \$50.00, this stock will be oversubscribed twice over.

OFFICIAL COUNTY AND CITY PAPER

FRIDAY, AUG. 28, 1914

EDITORIAL COMMENT

To draw has reason is supposed to be at an end for this year.

Again it has been demonstrated that the slip route is a very poor way to secure official recognition from a city, township or county.

Hon. Francis T. McDonald of this city this year. A wise selection for Mr. McDonald is an eloquent speaker.

Hiawatha township did a commendable thing when it voted to bond itself for the purpose of completing the macadam road across the plains in the upper end of the township.

Well, the agony is over, and the voter now knows the personnel of the candidates on his party ticket. Some good men were defeated at the primaries Tuesday and some good ones were nominated.

Things are always evened up some way in this good old world of ours. The girl who thumps the piano and never helps mother, usually goes through mother's experience after she marries and has daughters of her own.

The new store building erected by Geo. MacLaurin on the west side is ready for occupancy. It is a neat and commodious structure, and reflects great credit upon the public spirit and progressiveness of this pioneer town, which now has a permanent location, all its own.

One thing is certain, and that is the women of America, will wear more and better looking clothes during the coming winter for American styles will predominate. The designers of Paris have closed their shops and have gone to the front, therefore the United States will be compelled to act upon its own initiative in the matter of fashions.

The time is here when Manistique should have more than one bridge between the east and west sides of the river. The present bridge is not conveniently located for the bulk of the population, and wide detours have to be made to cross the river under present conditions. If the present bridge should become impassable practically all communication between the two sections would cease.

No county seat in the upper peninsula has better located farm grounds than has Schoolcraft county. The grounds here are high and centrally located, being only two or three blocks from the business center of the city. That the Consolidated Lumber Co. should consent to sell property that was so desirable for residence property, at a nominal sum for the purpose above mentioned, shows its officers to be public spirited to a marked degree. The county also showed good judgment when it availed itself of the opportunity of securing the big tract in question. Every person that visits the grounds since the improvements have commenced, speak in terms of high praise of the site, and the manner in which it is being improved.

The pernicious activity of the brewers of Menominee and Escanaba in their efforts to defeat Bayliss, shows that the liquor interests are taking much interest in politics, and that any effort to divorce that interest from politics would be a waste of energy. The only way to make that interest of negligible quantity in political affairs is to put it out of business through state wide prohibition. Then too, the duty of any intelligent voter that resents the activity of that interest in naming candidates for local or district offices, should be clear. He should not vote for any man at the polls next November who is a stamp of the liquor man, even if he is a Democrat. When the Democratic heeler engaged in the wholesale liquor business, succeed in nominating candidates on the Republican ticket, these candidates should be defeated.

Bayliss from all appearances, was defeated for the congressional nomination by Scott of Alpena. The brewers of Menominee and Delta county assisted materially in bringing about the defeat of Bayliss, and if the good people of the district resent the pernicious activity of the liquor interests, by voting against the candidate that has been handicapped by the interests in question, they would not commit an unpardonable crime. A mistake was made in nominating Scott for the position in question. He may and he may not be elected, in November Bayliss is a typical product of this north county. His nature is a composite of the rugged Lake Superior shores, the stately pine, and the driven snow. He is not "ah, smooth" or versed in political chicanery, but he is the product of a section where a man must be a man to be considered such.

Good Ticket.

The voters decided that Smith and Forster should be given a renomination, which a large majority deemed them entitled to. They have been making good in their respective offices during the past two years, and without the shadow of a doubt, will be reelected at the November election. Their friends are pleased to hear of their good fortune.

Fred Orr, will be the next sheriff of Schoolcraft county. Although opposed by the good and strong candidates at the primaries yet he received more nearly as large a vote as that received by his combined opposition. He will make good, and we believe that the county shall never have cause to regret his nomination and election.

EDITORIAL COMMENT

Unreasonable weather hampered the farmers of this county in harvesting their oats crop. Much of the crop is so ripe that the kernels are lost in the handling of the straw.

The defeated candidates for the various nominations for official preference, now live it out of their system, and will be enabled to resume their regular routine of work again.

If nothing else has been accomplished than the freedom of the Pole, and the decision of the Czar of Russia to treat his Jewish subjects as human beings, the present war in Europe shall not have been wholly in vain.

Too little attention is being paid to the situation of the Canada distillate problem. Many fields are practically ruined as the result of the indifference of the owners, in curbing the pest. There is a state law relative to their destruction, and it should be rigidly enforced.

Commencing with Saturday of next week, this office, will be open Saturday afternoons, as is the rule during nine months of the year. For several years the office has followed the custom of giving its employees a half day holiday weekly for three months, and finds it appreciated by the workmen.

The newspapers admit that the Germans are advancing and giving the allies more or less trouble. Dogged persistence is one of the traits of the Teutons, a race, and if the order of our kraut does not ferment every nook and cranny of Paris before the end of the present war, some people will be very much disappointed.

Osborn stated in one of his addresses that he believed in the sort of socialism that Lenin professed in. The fact that he used the word socialism, gave some news the cue, and they at once proceeded to roast him. That they are unacquainted with the doctrines that The Man of Galilee taught, is self-evident, or they would not criticize Osborn for bearing testimony that he believes in the Christ and that he endorses His teachings.

Three good and popular men were defeated for the nomination for county offices Tuesday, in Milton Williams, Dolor LaFolle and Gottfried S. Johnson. Williams' plurality at home is evidenced by the fact that he received sixty of the sixty six votes cast in his township. Johnson, county clerk, came out smiling the next day, and harbors no resentment. Johnson made a phenomenal run for county attorney, and will no doubt become a formidable factor in the politics of Schoolcraft county in the future.

To the credit of the average editor in Cleveland, it may be stated that very few of them were sufficiently "hard up", to accept Mr. Ellis as a candidate for "publishing a ten line advertisement, written by yourself giving the reasons why I should be nominated Aug. 25th, and send me your bill" Ellis is being severely arraigned by his Grand Rapids neighbors through the medium of circulars. He is charged with having made his fortune at a gambling table. The editors now in the state are the ing on trout, mackerel and the finest vegetables in the world, and they do not feel the need of dragging upon their imagination and committing perjury to help out any candidate for office.

Will Install Linotype.

The Pioneer-Tribune has outgrown primitive methods of typesetting, and will install a new No. 8 Linotype in its mechanical department during the coming month. By so doing, this office is but following the course that the great majority of its management, viz: keeping up with the times in the matter of equipment, and keeping step with the growth of the city. This office was one of the first in the peninsula to install a cylinder press; it discarded hand composition six years ago by installing a "Unifone", and having outgrown this machine has decided to install a Linotype of the latest model so that it will be enabled to do all sorts of work quickly and satisfactorily at the least possible cost, and that will make it possible to issue a larger and better newspaper each week than has been done in the past. When the city requires it, we will be in a position to issue a daily newspaper with the new equipment just purchased, for no office in the United States had a better machine than the No. 8 Linotype. Manistique has been good to the Pioneer-Tribune. Its merchants have liberally patronized it during all the years that it has been published. Its editor has been lavish with his time and energy in giving to Manistique a newspaper that has enjoyed the confidence and respect of the community during the quarter century that he has been on the job. He has spent the best years of his life working for the advancement of Manistique and has never hesitated in the purchase of equipment that would make the Pioneer-Tribune bigger and better. Manistique has been good to the editor and his newspaper, and it can be said without boasting that he and his newspaper have always been loyal to Manistique and its best interests, and that they have materially assisted in putting Manistique on the map and keeping it there. With the new equipment we will be in a position to do more for the city than we have done in the past, and the Pioneer-Tribune will rank with the progressive weekly newspapers of the state.

Osborn Nominated.

The returns indicate that Ex-Governor Osborn has been nominated for the governorship by a plurality of over 15,000. This is certainly good news to his friends in this county, and the fact that Schoolcraft county gave him a substantial plurality Tuesday, despite the organized effort to place the county into the Greenback column, is also a matter of congratulation to those that have consistently advocated his nomination. He not only carried the city, but the majority of the townships also. The upper peninsula also remained loyal to its former son. Houghton county being the only county in this section of the state that gave him little comfort. That Osborn will be elected to succeed Ferris, is a foregone conclusion. The people like Osborn for the record he has made during his first term; they admire him as a man and citizen, and are proud of the fact that he is a resident of Michigan, and it is safe to say that this good old state of ours does not press a citizen as well and so highly respected nationally as is the stalwart travel-bronzed statesman of Chippewa county. Schoolcraft county has always supported Osborn at the polls in the past; it gave him a substantial plurality at the recent primaries, and it will, in all probability, do so again in November. The Pioneer-Tribune is very much pleased with the nomination of Osborn, and has always prized him as one of its own and as a citizen of this great county, and knowing him as well as we do, we are sure that no mistake was made by the rank and file of the party in again selecting him last Tuesday for the important position of governing the commonwealth.

STRINGING BEARS

Only the Choicest Sires are Used For the Best Results.

TYING KNOTS AS A FINE ART.

The Perfect Hang of the No-Knot-Down Upon These Ties, Try Them, Are Formed, and it May Take a Year to Master the Knack.

The pearl stringer themselves call it a "trade". They are not the kind of people to talk about art. If they see anything of their work beyond the prosaic fact that "stringing" is a good employment that is "only" an indirect and somewhat vague appreciation of the delicate attraction of the pearls they handle.

Although not professing to be expert judges, I have never met a pearl stringer yet whose eye and taste were not trained to a fine perception of the form and color of the beauty of the pearls. It would be as impossible for them to mistake an artificial pearl for a real one as it would be for a lapidary to begin to polish a piece of glass under the impressor it was a diamond.

It is often said that the little known industry of pearl stringing is dying out, but this is not the fact. No machinery is yet invented to supersede the ten clever fingers of the practical stringer. The industry is exclusive, too, and a business has been built up from grandmother to granddaughter. Drilling and mounting of pearls is quite a different branch of the industry.

Good light is one of the essential needs of the pearl stringer, especially when she is employed in making or repairing seed pearl ornaments. All beads have to be arranged according to their size and then separately and most carefully sewed into place on their delicate framework. For instance, if the design is that of a dove or leaf, the skill lies in graduating from the biggest pearl to the one that touches the extreme point. Some of these ornaments, by the way, are very old, for they are carried on by hand, there is no reason why they should not be a joy, if not forever, at all events for as long as the handsome, antique pearls and pearl-studded neckties of the daint and pearl-studded neckties of that one still adumbers in the British museum.

Only the finest silk is used for stringing the finest pearls, great beads, round and shiny, unblemished artificial and with no more real luster than white marbles, with the exception of glass, and many years ago—may be allowed to hang together on a cutgut, but pearls must be threaded, pearl kissing pearl, on allien strands worthy of their shape and their luster.

Now, the art of the stringer lies in the apparently simple manner of tying the knot that attaches the strand. Some of the best knots used in making a knot between bead and bead, a method that adds to the length of the necklace, but detracts from the beauty of the line of pearls. The kind of knot used in this matter; the perfect hang of the beads, neither too loose nor too tight, depends on how it is made.

There is not so little as enough for threading small seed pearls, so the stringer makes her own out of a piece of wire as thin as a hair. She arranges the pearls as they are of different sizes, on a crooked board covered with billiard table cloth, any other material, such as green baize, being much too rough. When she is making a tassel or loop, it is pretty to watch her hand work at arm's length every few minutes, measuring its size and effect with the eye and the hand.

It is hardly necessary to speak of the strict integrity and unflinching care that must go into the making of a pearl stringer. She is in a great way, for great possibilities for the value of pearls is continually on the increase. There are some ladies who never trust their treasures out of their own houses, but arrange, through a jeweler, for a pearl stringer to call so many times a year to repair ornaments or restring necklaces.

The work of the pearl stringer is so little known, so quiet and dignified, it is doubtful if one in a thousand women who stop to admire and covet the things they see, would ever give a thought to the patient fingers that have threaded the beautiful beads and tied the almost invisible, cunning knots that hold them in their diamond clasps. The little band of stringers are very simple, but businesslike people in their humble workrooms—devotes of beauty, and they are all unconscious of the fact, and true artists in the perfection of their work—London Chronicle.

Both Played the Game.

The head of the Orr, approached his son. "What was the idea when I looked in your room just now? You and that traveler appeared to be walking round and round the office."

"Oh! It says in this Business Manual that one should always be careful when interviewing anybody to have one's back to the light. But I think the only fellow who must have even up to that door. When we went down at the fish he was still on the window sill," was the disconcerting reply—London Answers.

BIGGEST AND BEST

Manistique's New Department Store the Finest in the Peninsula.

The work of excavating for the Peninsular department store, was commenced yesterday morning, and the erection of the mammoth building will be vigorous and prompt, as it must be ready for occupancy before January 1st.

The building will have a frontage of 200 feet on Cedar street, and 128 feet on Main. The main entrance will be on Cedar street and will be twenty feet wide with an attractive Marquette extending along the sidewalk. The entrance to the grocery department will be on Oak street. The building is to be constructed with walls having brick and terra cotta, and finished in white tile. Eight hundred incandescent lights will be placed in the cornice of the Cedar and Oak street sides. There will be 288 feet of the latest style Knauer copper glass pane, including picture glass, in the building. The basement will have a hall, Bargain Basement. The upper floor will have eighteen foot ceilings, and the entire floor space in the building will be 27,000 square feet. In the center of the main floor will be a twelve foot wide elevator landing, in the basement a freight elevator will also be installed. From the stairway there will be a skylight twenty-four feet square which together with the picture glass will make the building practically daylight.

The main floor will contain the following departments: Dry Goods, Clothing, Hardware, Shoes, Ladies Ready to Wear, Millinery, China, Sporting goods, and Groceries. In the Bargain Basement will be found wall paper, rugs, carpets, toy hardware, a rest room for women, a retiring room, a bureau and washroom, and a rest room, where women can eat their lunch. Other departments are in contemplation.

The entire building is to be equipped with the latest and up-to-date fixtures, and will be complete in every detail to select an up-to-date department store of all kinds of merchandise at retail and wholesale. A feature of the store will be the commission department, to handle produce.

The building will be steam heated, and will have a concrete foundation. Going to the depth of the basement, an independent sewer will be constructed. E. L. Yahnstein, present manager of the Consolidated Lumber Co.'s store, will be the manager of the new store.

LABOR DAY

The Union Men Making Great Preparations for Event.

The committee in charge of the forthcoming Labor Day celebration is making elaborate plans for the day that means so much to organized labor.

There will be a parade, a tug war, horse races, motorcycle races, two ball games, between Manistique and Newberry teams, all sorts of sports, a big dance at the armory in the evening, and last but not least, an address by Hon. F. T. McDonald of the Soo, Democratic candidate for congress. He is an eloquent speaker and should be heard.

The two bands have been engaged for the day. Prizes will be given for the best appearing societies and orders in the line of march.

Every minute of the day will be occupied, and the celebration promises to be the best ever held in the city.

MRS. WOOD DIES

Mrs. Alvin Wood, Passed Away at Home in Doyle Twp Sat-urday.

Mrs. Alvin Wood, one of the pioneer residents of Schuylers county, died at her home in Doyle township, last Saturday, at the ripe age of seventy-two years, eight months and twenty-eight days. She was born in Canada, Nov. 25, 1844, and was the daughter of Truman and Ruth Halbert. She was married to James Gardner, in Canada, on Sept. 14, 1862, who departed this life in 1864. From this union one child was born, James Marion Gardner. She with her husband moved to Lapeer county in 1868. She was again married, on July 31, 1867, to Alvin Wood, who departed this life on December 13, 1907. To this union ten children were born. Of her eleven children only three remain to mourn the loss of their mother, viz: J. M. Gardner and Wm. A. Wood of Doyle township, and Mrs. Thomas Edwards of Cassville, Mich. She was a member of the Presbyterian church.

The funeral services were held from the West chapel in Doyle township and was very largely attended. Dr. Mitchell, pastor of the local Presbyterian church, officiated. The deceased was very highly esteemed by all knowing her and her demise is sincerely regretted. The members of the bereaved family have the sympathy of their friends.

DIED MONDAY

Mrs. Antowine Weber Passed Away Monday Morning.

Mrs. Antowine Weber, died at the family home on Fourth street at an early hour Monday morning, as the result of gangrene diabetes, after a two year's illness. Her condition was such that she was not confined to the bed until two weeks ago.

The deceased was born in Germany fifty-eight years ago, and became the wife of Antowine Weber in that country. With her husband she emigrated to this country twenty-seven years ago, and located in Manistique one of the leading timber operators of the peninsula. Mr. Bonifas was known to scores of people and was honored by all who knew him. Of a kind and generous disposition he made friends to hold them and to many his death has brought sincere sorrow.

Mr. Bonifas was born in Luxemburg 51 years ago. He came to the United States in 1884 and located first in Iowa. In 1886 he came to Delta county, locating at Garden and had since made that place his home continuously. He is survived by his wife and an adopted daughter, together with two brothers and four sisters, who are: William Bonifas, of Bonifas Mich.; John Bonifas of Garden; Mrs. William Nepper, of Isabella; Mrs. R. R. Shier, of Bonifas; Mrs. Mary Bennett of Garden and Mrs. Celia Bonifas of Garden.—Escanaba Morning Press, of Saturday morning.

BONIFAS IS DEAD.

Was a Prominent Lumberman of This Section.

John Bonifas, of Garden, one of the most prominent lumber men of the peninsula, and for many years one of the leading citizens of Delta county, passed away yesterday morning at St. Francis hospital in this city, after a comparatively short illness from a acute Bright's disease. Mr. Bonifas became ill while on a business trip to Manistique three weeks ago. His condition gradually grew more critical. Some of the most eminent specialists of the country were called to his bedside, but without avail. That he might be provided with every possible care he was brought from Manistique hospital in this city on Wednesday evening. Physicians were constantly in attendance but the patient weakened rapidly and at 5 o'clock yesterday morning, surrounded by members of his family and relatives he passed away. The body was removed to the undertaking rooms of J. A. Alla where it was prepared for burial and yesterday afternoon was taken to the family home at Garden.

Funeral services will be conducted over the body at the Catholic church of Garden at 2 o'clock on Sunday afternoon. Interment will be made in the family lot at the cemetery of that village.

In the death of John Bonifas, Delta county has lost one of its most estimable citizens. Coming to Delta county as a young man he with his brothers engaged in lumbering in the east shore district and became one of the leading timber operators of the peninsula. Mr. Bonifas was known to scores of people and was honored by all who knew him. Of a kind and generous disposition he made friends to hold them and to many his death has brought sincere sorrow.

BEAUTIFUL GATE

Entrance to Fair Grounds will be Constructed of Stucco Work.

The design for the main street entrance leading to the grounds of the Schuylers county fair association shows that it will be very artistic as well as commodious. It will be constructed of stucco work, and will resemble the marble work now completed. The gate will be twenty feet high and thirty-two feet wide, and will have three entrances, two for foot passengers and one for automobiles. The main arch will be thirteen feet in height and ten feet wide. The arches for foot passengers will be seven feet high and four feet and six inches in width. Ticket offices will be provided for, and the top of the mammoth arch will carry the sign, "The Schuylers County Fair Association." Mr. Albin, who is in the employ of the Lake Superior Iron & Chemical Co., drew the design, and it proves that he possesses artistic foresight to a remarkable degree. The stucco work will be done by the White Marble Lime Co., who have an expert in that line of work in Mr. Taylor.

BAD ACCIDENT

Leonard Parker Sustains Broken Ankle in a Collision Tuesday.

Leonard Parker, a fireman on the Manistique & Lake Superior Ry., while riding a motorcycle, collided with an automobile driven by Duran Carroll, at the corner in front of Middlebrook's store, about four o'clock Tuesday afternoon, and sustained the fracture of an ankle. The motorcycle and auto were both moving slowly at the time of the accident or more serious results might have followed. One of the front wheels of the auto was put out of commission, and the motorcycle was also badly damaged. Parker was taken to the hospital where the fracture was reduced. This accident again accentuates the danger of crossing intersecting streets, where buildings obscure the view of the drivers.

Carload of Horses.

Wm. Fortfield has a carload of draft horses at the Hiawatha hotel here, that will be sold for cash on reasonable time. Every horse guaranteed as representative. If you need a team, this is your opportunity to secure one at a low price. The horses are heavy and young and are the equals of any carload for sale in the city.

THE ANNUAL FAIR

Will be Held Oct. 1, 2, and 3rd, Everything will be Readiness.

The officers of the Schuylers County Fair association have decided upon Thursday, Friday and Saturday, October 1, 2, and 3 as the dates for holding the annual fair. The buildings will be completed and the truck will be in prime condition. The officers have worked unceasingly to get matters in shape for the holding of a fair in the new grounds, and the county owes them an everlasting debt of gratitude for their self-sacrificing efforts. Whether or not the fair will be a success depends not upon the citizens themselves. They must furnish the exhibits, and must attend in order to insure its success.

Concessions will be sold at the price of \$1 per front foot, and it is hoped and expected that every business man will take a concession.

One booth will be reserved for candies, and one for sandwiches, and societies desiring these concessions, should communicate with President Middlebrook or Secretary Nicholson. It has been decided to hold a benefit ball at the exposition building on Friday evening Sept. 18th. The mammoth floor space is ideal for dancing, and one of the bands will furnish the music. It is expected that every one will attend.

Masons Here.

A number of Newberry Maçons are in the city today, attending the special sessions of Manistique Chapter No. 127 R. A. M. Six of the visitors are taking degrees, while the others are here to see to it that the work is artistically and correctly done. The candidates are C. W. Russell, L. P. Keegan, R. G. McLeod, A. L. Sayles, W. J. Nichols, and Edward L. Mason. Messrs. Bradley, Westlin, Reid and Brady, came along to see to it that their fellow townsmen were not overlooked by the torturers. The M. M. degree was conferred on the class last evening, and the remaining degrees are being conferred today and this evening. A banquet will be served this evening at 6:30, and the R. A. M. degree will be conferred during the evening.

STUNNING NEW DRESSES

Novelties in materials are the most important features of the new dresses. The skirts are very narrow at the hem but full through the hips, and of course, the full waist line. Draperies are used in abundance and blouse effects are a conspicuous feature. Some models are made with fancy collars and silk sashes. Soft clinging silks are favorites and the best colors are Russian green, various shades of blue, brown and prune red. Double, Sponge, Crepe Cloth and Bedford Cords are in the tailored dresses. You'll want to post yourself concerning the new styles. Here is your opportunity. Come!
