MANISTIQUE, MICHIGAN, FRIDAY SEPT. 11, 1914

\$1.50 PER YEAR

A NEW DEPARTMENT STORE To Be Known As The PEOPLES STORE

Now Being Organized by
L. Yalomstein and Others

Construction: Concrete and Dull Brown Paving Block trimmed with White Tile. Improved "Kawner" Glass and Copper Front. 528 feet of glass; 100 feet on Cedar street and 138 feet on Oak street. A floor space of 27,600 feet. Main floor has 18 ft. ceiling. Basins Basement has nine ft. ceiling. Latest up-to-date Fixtures, Equipment, Lighting and Heating System.

The "PEOPLES STORE," now being organized, will occupy a modern department store building to be built on the corner of Cedar and Oak Streets. The building will be 100x138 feet, with bargain basement. It will have the latest style of glass fronts; and entrances from both Cedar and Oak Streets. The store will own 98x170 feet of additional frontage on Cedar St. for future growth.

The "PEOPLES STORE" will be incorporated for \$75,000.00, which may later be increased to \$100,000.00.

One-half of the stock has already been subscribed. It is the intention to make this the "PEOPLES STORE" in fact, as well as name, and one-half of the stock is to be sold to the general public on the following conditions, viz:

- No subscription will be received for less than \$50.00 or for more than \$500.00.
- If the stock is oversubscribed, the subscriptions will be reduced, and stock allotted proportionately, except that not less than \$50.00 will be allotted to any one person.

There will be no watered stock in the stock of the "PEOPLES STORE." Every dollar invested in this stock represents actual value. Of the \$75,000.00 capital, \$10,000.00 to \$12,000.00 will be invested in a controlling interest in the store building. The balance will be invested in a complete up-to-date stock of merchandise.

At the present time there is not a department store in Schoolcraft, Alger, Luce or Mackinac Counties. With the extension of good roads a large proportion of the trade from these counties will come to Manistique if the proper trading facilities are afforded, which the "PEOPLES STORE" proposes to do.

This large modern "PEOPLES" department store and commission house will do a large volume of business (both wholesale and retail), will be in a position to buy over large quantities direct from the mills and manufacturers, consequently can and will sell merchandise of better quality just as cheap as Chicago mail order houses, and will keep the trade at home. In fact we propose to make the "PEOPLES STORE" a Mail Order House for the people of these four counties when they can't come to Manistique to do their trading, and a Trading Center for all that can come.

The "PEOPLES STORE" will buy farm produce by the wholesale and will form connections with reliable commission houses in Chicago and other cities to dispose of the product. By reason of its large volume of trade, the "PEOPLES STORE" will be in a position to demand and obtain fair treatment. What chance has one farmer in dealing with a commission house? The "PEOPLES STORE" will make a market for all our farmers can produce.

The "PEOPLES STORE" will feature the following:

1. A Schoolcraft County Crop Report revised weekly.
2. General Information Bureau, posting Current Prices, Experimental Farm Reports, Etc.
3. Rest Room and Lunch Room in Basement.
4. Hitching place for Farmers' horses and Parking Place for Automobiles.
5. Auto Truck Delivery Service.

The "PEOPLES STORE" will operate an up-to-date auto truck service and make daily deliveries in town and weekly deliveries as far as Whitdale, the River Road, the Colony, Thompson and Cooks (when the County Road is finished). As the country grows and the roads are extended this service will be extended.

The "PEOPLES STORE" will take over the retail merchandise stock of the Consolidated Lumber Company at actual cost inventory value. The "good will" and the business of the C. L. Store will go with the trade.

The results of the C. L. Store conducted on most conservative lines, and under the disadvantages of location, retrenchment, etc., have been very profitable, and we leave it for you to decide how much more trade a modern glass front "PEOPLES STORE" conducted along aggressive lines and located on the best corner should draw. The store will be under the management of Mr. L. Yalomstein who has been in the mercantile business in Manistique for the past 15 years and Manager of the C. L. Store for the past eight years. Under Mr. Yalomstein's management the C. L. Store has been remarkably successful.

The profits of the large mail order houses are enormous. These big stores pay immense dividends to their stockholders, and are owned by a few enormously wealthy men who employ an army of poorly paid clerks living in crowded cities on starvation wages. Why should country people patronize such conditions?

How much better for this community if the profits which now go to these large stores would stay at home and pay dividends to local stockholders, and furnish employment for local girls and boys.

Why not, instead of sending outside for your goods buy some shares in the "PEOPLES STORE" and trade at home and get the profit on your own trade back in dividends on your stock. Every person in these counties who has been in the habit of sending to mail order houses for their goods should do this. We believe they will, and believe the reason why people send to a mail order house in large cities is because of the lack of proper trading facilities at home, which the "PEOPLES STORE" intends to furnish.

The present field for the "PEOPLES STORE" looks bright, but the future looks even brighter. The country is building good roads as fast as possible. It will only be a few years until macadam roads will cover all the territory. The farmers are buying automobiles. With good roads and automobiles, the farmer will come to town often and purchase at home instead of buying goods he has never seen from people he don't know.

It is easy to go with the tide. The tide today is drifting toward the establishment of moderate sized Department Stores in the smaller cities, serving a territory big enough to supply the trade to support such a store, but not so big that the people cannot see whom they are trading with. The "Community Spirit" is developing all over the United States. An up-to-date Department Store which will attract the trade that now goes to the mail order houses will do more to develop this spirit in Manistique than anything else. People are looking for their opportunities where they are at home and do not pay so much attention to the enchantment of distance as formerly. The "Unit" idea is spreading. Manistique is the natural trading center of a "Unit" large enough to supply most of its own wants.

An investment in the "PEOPLES STORE" will give employment to builders and workmen, and will add to the taxable wealth of the community and materially improve your home city.

This is an opportunity. When have you ever been offered a chance to invest in the stock of a department store? These stores are usually owned by one or two men. The "PEOPLES STORE" will have the advantage over the ordinary department store on account of its large number of stockholders who will naturally trade with it.

The "Motto" of the "PEOPLES STORE"

Co-Operation and Profit-Sharing. Keep the money and trade at home. See what you buy. Sell to people you know.

You will have to act promptly. One half of the stock has already been applied for. There are over 10,000 people in the territory tributary to the "Peoples Store", and if only one person out of every eight applies for the minimum amount of \$50.00, this stock will be oversubscribed twice over.

EDITORIAL COMMENT

A number of Manistique citizens have relatives in Germany and many of those, no doubt, have long ere this sacrificed their lives upon the altar of war.

One of Manistique's estimable citizens received a fake telegram from the Kaiser asking him to help the Fatherland fight its battles, and to bring 3000 Germans with him. "And in case the 3000 cannot come, bring two Irishmen."

Pat O'Brien, of the Iron River is going to worthily represent his district in the state legislature. Geo. E. Holbain is going to put in a new model R. Lintype composing machine in his office. Each has earned money, time over the usual to new enjoys.—Manistique News.

A perfect town is defined as one where the farmer patronizes the local storekeeper; where the laboring man spends the money they earn in the town where they make their living, and where all are animated with a spirit that will not purchase articles abroad if they can be bought at home.

A move is on foot to secure two more rural road routes in Schoolcraft county. The farmers in the vicinity of Cooke want the service and are preparing a petition with that end in view. The residents of Doyle township also want a route established from Whitelido. Both ideas possess merit, and it is hoped that the postal authorities will act favorably upon the applications.

Autoists will hear with alarm that Wilson proposes to make them pay a portion of the proposed new tax imposing a tax of one cent per gallon on gasoline. That commodity, with beer, tobacco, picture show tickets, etc., are considered luxuries and users will pay their share of the \$100,000,000 war tax that the government deems necessary to pay the deficit caused by the present European war.

In our news columns this week much space is given to the forthcoming election to be held at Manistique next month. Schoolcraft county should be represented at the congress, and we believe that our farmers will secure many of the prizes should they enter into competition. Cut out the articles in question for future reference for it contains the rules, prize offered, and all other data that will interest you in case you decide to make an entry.

Earl Huepfer can be given the credit for making the defeat of Newberry possible last Sunday and Monday. He collected the money to secure outside talent, and that he made wise selections is proven by the results. With a little financial encouragement and a base ball team that could give any other ball aggregation in the peninsula pointers as to how the game should be played, he organized here. This should be done, and Manistique should secure a place in an upper peninsula league next season.

One feature at the coming fair should be wisely advertised, and every teacher and pupil in the schools of the city and county should show sufficient interest in same to make it a success. We refer to the school exhibit. The handwork of the pupils from the kindergarten department to the senior class should be placed on exhibition. Next examination papers, map drawing, painting, and in fact everything that is required of the pupils in our schools should be exhibited. A large concession has been made for the exhibit in the main building, and we hope that every portion of the space shall be filled.

One of the prominent railroad systems in the east rewards its faithful engineers by painting their names on the engine they run. There is merit in the idea. Employers give their employees too little recognition. Most of us spend our lives in the employ of others. We may work faithfully and do our allotted tasks to the entire satisfaction of our employer, yet said employer never finds time to commend the faithful servant, and takes the service as a matter of course. However, times are changing in one respect. The faithful old employee is no longer discarded as one discards a worn-out horse, when the infirmities of age and the results of a life of toil creep upon him. The streets of many a Russian city have run red with Jewish blood in recent years, and members of that people have been the objects of ardent persecution and bigoted hate. When Russia engages in war the Jewish residents do their full share of the fighting, and the czar promises that Russia will treat them with more consideration, but he has always broken these promises, as he will the one he has recently made to that people. The Jewish people may be found in every country in the world. While cherishing their inherit traits and characteristics, and their child-like belief in God, it can truthfully be said of that race that it furnishes fewer criminals and fewer paupers per capita than any other race upon the earth. The persecution they have undergone in Russia is a blot upon the present century, and its boasted civilization.

EDITORIAL COMMENT

A doctor says that about one-third of the food that enters the human system is lost.

Vacation days are so few that it is well to plan to take a vacation this year well by getting to the point before the event for an early year.

A. C. Canton wants to be governor two years hence. Little while, Gibson has made no pretense that he will be satisfied with but one term.

In the cities you blow your auto horn one long blast if going straight ahead, two blasts for the right, three for the left. Do it in Manistique.

The school bell these days reminds the patient mother that her tears are adding up the burden that she has carried during the vacation period.

When a big, healthy fellow, wearing better clothing than you can afford to wear and whose breath heralds the fact that his previous cropping place was a boozing joint, it is safe to refuse him a dime or any other sum of money, when he "blows in" and "hits" you for the price of a meal.

The Gaylord Advance says:—"The defeat of Baylies is a blot upon the Eleventh Congressional district of which he was one of the finest men in character and principle who ever lived in Michigan. But you can't down Baylies. The time will come when this district will have need of such as he."

In 1870 the celebrity with which the Germans marched to Paris was attributed to the unpreparedness of the French. This time lack of preparation cannot be given as the excuse for the celebrity of the Teuton. Credit must be given to the prowess and bravery of the soldiers of the German empire.

It takes very little to start a quarrel. At Trent Lake Monday of this week a fellow with abnormally large feet was occupying a seat in the crowded depot, when a stranger came along, and pointing to the feet in question, said: "If those are your antenae, pile one on top of the other so that there will be no room." And the fight commenced.

The newspapers say that there will be a shortage of dolls this winter—the kind that sleep when laid down—because America receives its supply of the dolls in question from Germany. It is safe to say that many a doll-maker that has abandoned his heart of American children during Christmascide is also sleeping the sleep that knows no awakening.

Labor Day proved to be another Fourth of July celebration. Immense crowds were attracted to the fair grounds Monday afternoon, and the races and ball game certainly were worth the small admission fee charged. From all indications the forthcoming fair will be a huge success from the viewpoint of patronage, if suitable attractions are secured.

The Manistique Pioneer-Tribune is about to install a Model 8 Lintype. This is evidence of the prosperity that has come to the publisher of that most excellent newspaper. The addition of a Lintype will equip the Pioneer-Tribune for daily newspaper work—and Editor Heibeln hints at the possibility of a daily. The Pioneer-Tribune is one of the few upper peninsula newspapers that has the grit and grace to stand for everything that is clean, and Editor Heibeln richly merits all the good things that go his way.—Escanaba Journal.

A humble colored barber did recently in a western city about the size of Manistique, and on the day of this funeral, every business house was closed during the time of the funeral, all attended, and the casket was covered with flowers. Aside from being a good barber, and a model citizen, this man, followed the custom of visiting the business men an annual chicken banquet. He raised the chickens, and his estimable wife, who was a good cook, personally attended to preparing and serving the fowls.

President Wilson has set aside Sunday Oct. 4th as a national prayer day. In his proclamation he asks the people of the United States to pray for peace in Europe. The proclamation says in part: "I designate Sunday, the fourth day of October, next, a day of prayer and supplication, and request all God-fearing persons to repair on that day to their places of worship and that they offer in their prayers to Almighty God, that, occurring the counsel of men, and setting aright things they cannot govern or alter, and taking pity on the nations now in this conflict and in his mercy and goodness showing a way where men can see none, he vouchsafe his children healing peace and glad restore once more concord among men and nations."

The liquor dealers of Escanaba appear to be afraid of the care, for they are occupying space daily in the Morning Press in which they decry the demoralizing effects resultant from "dry" conditions in a community. No use denying the fact that the adoption of local option in Escanaba as well as in every other community does work a hardship on the liquor dealer and his family, for the head of the family is compelled to earn a livelihood in some other line of endeavor, and the chances are that he will ascertain that it is harder to make a living by honest toil than by using a bung starter and jelling over the mahogany and raking in the shekles from customers that can ill afford to spend their money in that manner. However, there is a class of persons, and this comprises the majority of people in a city like Escanaba that are not filled with the "dirt" results of prohibition. This class consists of the druggist, the hardware merchant. When the head of a family does his duty as a man and parent and expends his wages for the creature comforts of his household, they will be better fed and better dressed than they are now. Then, too, the merchant will sell more goods, and do a smaller credit business. Aside from the fact that the business gives the liquor dealer an easy living, the dispenser and manufacturer of liquor cannot offer a plausible excuse for his avocation. The average citizen has been doing a deal of thinking and has given opportunity to retire to the question of whether the saloon shall exist, it is quite certain that he will vote in favor of its abolition. Stranger things than that Escanaba shall become "dry", have happened in the past, and the anxiety of the "Hotel Men" and Liquor Dealers association at Escanaba, shows that its members are cognizant of the danger their business is in.

LEGAL BAN ON SPITE FEUDS

San Francisco Welcomes Court Decision on Spiteful Who Erects Many Commemorations

The new state law prohibits the erection of monuments or structures on public property by a San Francisco court, and this decision is affirmed in the supreme court. We shall see the elimination of these structures, and the monuments Union.

In the case under consideration, a certain rich man, who had built his home on the summit of Russian hill, commanding a view of the bay and the bay, which was not the chief attraction of the building, but which had been constructed so that they overlooked his residence.

He demanded that the topography of the building be cut off, and when this was refused he erected a great wall which cut off not only the view of the bay, which was not the chief attraction of the building, but which had been constructed so that they overlooked his residence.

The court has ordered the fence cut down to ten feet.

This decision is in the interests of fair play and common sense. While no one will deny to property owners the right to make the best possible use of their property, with due regard for the rights of other people, who are entitled to the intentional destruction of others it is a menace to the public.

The spite feud is simply the visible evidence of bad temper. Because we own property we have no right to deny others of free air and light. The erection of a legitimate building which cuts off the light of others is one thing, but the construction of a hideous structure for the specific purpose of injuring another is a radically different thing. It cannot be defended.

Let us hope that the new law will be upheld in the higher courts and that we shall have an end of these physical evidences of ill-nature for a disorderly litigation.

There is one man in the world who has had his lungs filled with lead. He is a Boston man who had his lungs filled with lead. He is a Boston man who had his lungs filled with lead.

FIXED HIM FOR THE EVENING

Wherever He Went, Wife Was Pretty Sure Hubby Would Not Do Any Roof Gardening.

Dr. A. F. Christian, a Boston physician, announces that ice cream is the best remedy for alcoholism. At a recent luncheon, Doctor Christian, apropos of this fact, told a story.

"I had a patient who was a 'roof gardener, during the wife's absence at the seashore, one responsible for a good deal of midsummer alcoholism. But, if the wife was home, she could not do it. The roof-gardening tendencies on her husband's part."

"Thus, a would-be roof-gardener said to his wife the other evening after dinner:

"I'll have to return to the office right away, my dear. And I'm afraid I'll be kept rather late. I've got to stop in at the office upon said Collins."

"Will you be going anywhere else besides the office?" she said, calmly.

"Yes—no," he replied.

"Then," said she, "I'll just ask you to stop in at the office grocery before it closes and get me a couple of nice salt mackerel. You can bring them home with you afterward."

"I'll be right back," he said.

"Then," said she, "I'll just ask you to stop in at the office grocery before it closes and get me a couple of nice salt mackerel in his pocket."

Latest Edition of Warfare.

A terrible weapon of warfare has been invented in the British Naval Annual for 1914, just published, there is a description of a contrivance that might almost be described as devilish.

It is of the L-shaped mine, which has been acquired and is being manufactured by a British firm. This engine is so constructed that it can be set to hover between any depths below the surface of the water. When placed in the water it has a slight negative buoyancy, and sinks until automatically a propeller is brought into action which drives the engine up to the surface of the water. In the case of tidal waters, it could be released by a vessel outside so as to make its way into the tide into the harbor, and perhaps destroy shipping there. A touch on the deadly steel "whiskers" which project from its upper surface, and the enemy would be sent to the bottom.

Hard-to-Fit Men

Practical Danish School.

In the school and in Denmark, reading and spelling are not mechanized and treated as arts complete in themselves, but taught in an incidental way. Separate spellings are unknown. These schools have been carefully studied by non-settled by Commissioner Claxton to find out how they have the surface, they are combined and changed to a poor, war-crippled country side for many years. Character development is one of the chief aims of the folk high school, and men and women of all ages go to school to learn how to live. The men attend mainly in winter and the women in summer.—The World's Chronicle.

"Of course you know what our curriculum?" said the head of a young woman's finishing school to Mr. Newrock, who had called to enter his daughter.

"No, I don't," answered Mr. Newrock, "but that in the bill, too, and I'll pay for it."

MY POUCH OF THE REAL TOBACCO CHEW HAS VANISHED

YOU DIDN'T EXPECT TO KEEP IT AFTER ALL THE GOOD THINGS YOU'VE SAID ABOUT IT DID YOU?

THE GOOD JUDGE LOSES

GET steady tobacco satisfaction—all day, every day, from a clean, small chew.

"Right-Cut" is the Real Tobacco Chew. Made of pure, sappy, full-bodied tobacco—seasoned and sweetened just enough. It's glad news that a man can't help telling his friends about as soon as he learns the facts himself.

The taste lasts longer. You use less tobacco.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Still nippin' as it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

It is ready chew, out fine and short stored so that you may have it to grind on at any time. Grinding on ordinary tobacco makes you spit too much. Grinding on ordinary tobacco makes you spit too much. Grinding on ordinary tobacco makes you spit too much.

One small chew takes the place of two big chews of the old kind.

DOMESTIC BEEF

Schoolcraft County Should be Self-supporting as Far as Beef is Concerned.

The fact that Schoolcraft county is capable of raising primo beef is proven by the excellent meat sold by Hartwick & Huskin, at their west side market. The firm is killing practically all the beef sold by them, and the meat is of such excellent quality that their trade is rapidly increasing. That this section of the country possesses ideal conditions for beef raising, is self-evident. The grass there is plenty of forage. The ground is always green and luxuriant. The numerous streams and lakes furnish an falling end pure water supply, and all the crops solve the question of keeping the cattle in good condition through the winter season. The firm mentioned is feeding about 200 head of cattle at this time and will endeavor to keep sufficient cattle on hand to satisfy the demands of their trade. John Schuster is also raising cattle extensively for his own market. Schoolcraft county would be self-sustaining as far as beef is concerned, and should not be dependent upon the packing houses for its supply.

Cattlemen of other states are investigating conditions in this progressive section, and now and then one of them makes a purchase that runs into the thousands of acres. They appreciate the manifold advantages that Schoolcraft county offers to the cattle raiser, and are taking advantage of the inducements it offers. The raising of cattle will be the mainstay of this north county. It is especially adapted to dairying, and is well adapted to the big market centers of the middle west, solve the question of disposing of the surplus product.

Herbert Baker the progressive candidate for congress from this district, will stamp the district during the coming campaign, and it is needless to say that he will receive a heavy vote. There are a large number of Republicans in the district that believe that a serious mistake was made when Bayliss was defeated for the nomination, and the big way they know of righting the wrong at this time is to vote for a man that possesses many of the same qualifications that distinguished Bayliss.

HOUSE WON

The Ten Mile Motorcycle Race Monday was Won by a Harley Davidson Machine.

The ten mile motorcycle race at the fair grounds Monday afternoon was won by Bert House who rode a Harley Davidson machine. He made the twenty laps in 16:20. House had the misfortune of being behind when the signal to go was sprung. He was also on the outside by clever riding, and using his gray matter every moment of the time, gradually moved ahead of two of his antagonists, long before the race was completed, and traitor Koshin thereafter. At the home stretch he turned a little valve and increased his rollers' worth by using more gasoline, and forged ahead of Koshin, winning by a inches.

There were four entries in the race, viz: Brazil, Cochran, Billings and House. It was the prettiest race of the kind ever seen in the city, and it is hoped that a motorcycle race will be a feature of the fair this autumn.

LABOR DAY

Most Successful Celebration Ever Held in the City.

The celebration of Labor Day by organized labor in Manistique last Monday, was the biggest celebration of the kind ever held in the city. Business was practically suspended throughout the day, and several hundred laboring men participated in the parade which was held early in the morning. Several floats and handsomely decorated autos also participated in the parade. The Shinglermen were awarded the first prize for having the best float representing labor. The fire department also won a first prize for a handsomely decorated float. Joe Devroy as usual carried off the honors for having the most comical

float. The St. Francis de Sales a Catholic society received first prize for being the best appearing order in the parade, and Postmaster Carroll received the first prize for having the best decorated auto in the parade. No second prizes were given. At the conclusion of the parade, the crowd congregated at the band stand, where Hon. Francis T. McDonald of the So., delivered the address of the day. Chas. Trowsell, president of the Fishermen's Union, and chairman of the committee in charge of the events of the day, presided at the band stand. Dr. J. H. Mitchell of the Presbyterian church delivered the invocation, and Mayor Pattison, in a few well chosen remarks, introduced the speaker of the day. Mr. McDonald is an eloquent speaker, and it is a genuine matter of regret that we are unable to reproduce his address in full owing to present lack

of facilities for so doing, and must be content with giving excerpts from same. Mr. McDonald is the Democratic candidate for congress from this district, and made many "hit" during his stay in the city. The committee made no mistake in naming him as the speaker of the day. Thoughts from his address:

"The thoughtful citizen of today realizes that labor is the foundation of all growth and progress. Nations and individuals alike are dependent upon it for their peace and prosperity. Labor is the source of the people's strength, the basis of her enterprises, and the revenue producer of her treasury. No question should appeal more strongly to the statesman and patriot than the condition of the workingman. His life, his health and the situation of himself and family concerns every citizen of this land.

While political reformers urge legislators to conserve our natural resources, organized labor demands that our great capitalists and most prodigious forces, viz. the men, women, and children of our land should be conserved. Organized labor is to be congratulated for what it has done for itself and for our civilization. It has not accomplished all that it may, but it has placed the American workingman on a higher plane in the social order which bespeaks wholesome progress.

But while we wait for further progress in the social uplift let us not forget to be thankful for the peace and prosperity of our beloved country. Picture the hosts of stalwart Americans as essential at a thousand peaceful places today celebrating the holiday of the sons of toil, with a gulf of blood and tears and untold human agony afflict nearly the rest of the civilized world. With pity and compassion in our hearts for those in distress because of this awful ravage, we think God that we are Americans, and that the stars and stripes float today, as we hope it ever shall, over a peaceful, and prosperous people."

In the afternoon the crowd gathered at the fair grounds, and it is estimated that at least 3,000 people were in attendance. The races, which are mentioned in another column were full of interest, and were the best ever held on the grounds. The track is being whipped into first class condition, and the time made Monday shows that good work is being done in that direction.

One of the features of the afternoon was the second of a series of two games between the Manistique and Newberry base ball teams. The Manistique team defeated the Coleray-town aggregation Sunday in a score of 8 to 0, and took the second game in a score of 10 to 7. MacLaurin pitched the first five innings for

the locals, and went to pieces in the fifth allowing practically all of the runs. In the previous times he shut out the victors. He was replaced by the pitcher from Nahun, who had pitched such phenomenal ball the previous days for the locals, and he won his game.

The locals furnished much pleasure during the entire day, no accident marred the enjoyment of the day, and from every viewpoint the 1911 celebration will go down in local history as being the best heretofore held.

STABBING AFFRAY

John Rozisch Given Vicious Knife Thrust in Jaw by Stranger.

John Rozisch, an employe at the Consolidated Lumber Co.'s mill, was set upon by two fellow countrymen, shortly after midnight. Wednesday morning while returning from home to the mill after having eaten his mid-night lunch.

It appears that his assailants were standing in front of their boarding house on Elk Street, and were in an altercation, and from indications had been using a knife, as one thumb who was arrested later in the morning had a cut over his fingers. As Rozisch came along the men attacked him. He received a knife thrust through the cheek and the force was sufficient to dislodge two teeth. His clothing was also badly slashed. Rozisch yelled for aid and the villains immediately decamped. The officers were notified promptly and the sheriff and chief of police trailed their men through the mill and over the train to the westside where all traces were lost. Late in the night the night-pollman who had been watching the boarding house more or less found their men in front of the house but when they ascertained that they were being shadowed they decamped. About seven o'clock, Louis Custic was found sleeping in the wood shed on Cedar street, in the vicinity of the furnace, and was captured and held until the officers arrived. He was placed in jail and had his preliminary hearing in Justice Temple's court yesterday forenoon, and was bound over to the circuit court in the sum of \$500.

It has been ascertained that Custic came from Cleveland about three weeks ago, where he had served six months for stabbing a fellow countryman. He has been working in a camp near the city for a week,

and came to the city to celebrate. Rozisch says that he knew his assailants only by sight, and had never talked to them. Rozisch is a hardworking and respected citizen, and it is regretted that he was made the victim of drink crazed men. John Kover, a Catalpa partner in crime, is yet at large.

A Student's Night Service.

In recognition of the opening of the public schools, next Sunday evening will be set aside as "Student's Night" at the First Baptist church. Rev. F. R. Leach will speak on "Live's Ideals." A special invitation is extended to teachers and scholars to be present.

A sixteen year old boy was found lying in a westside ditch last week, and from all indications he was dead. His parents were notified, and brought the "remains" to their home. A doctor was summoned, who quickly ascertained that the boy was not dead but stupefied with liquor. The liquor dealer that sold the boy the liquor should have his license revoked, and be given additional punishment.

HOME TALENT SHOW

"All Gadsby's Fault" Benefit W. O. W. Opera House Wednesday Sept. 23.

A treat is in store for the people of Manistique on Wednesday Sept. 23, when "All Gadsby's Fault" makes its appearance at the Opera House for the benefit of the Woodmen of the World. The production is a musical comedy in three acts, and is brim full of fun and humor. Gadsby the lead-in man, in order to win a bet, sets out to make love to three girls at one time, and much trouble follows. Groups of hay-makers, milk maids, Jack-O-Lantern girls, Rose girls, penicews, etc. flock in and out singing and dancing, then there is a rubo quartette and abundance of other musical numbers which go to make up a lively show. The production is under the direction of Miss Edna Getzenanner.

"All Gadsby's Fault" comes well recommended. The Iron Mountain Press says: "Positively the best home talent ever given in town." Watch for next week.

ORR'S DRUG STORE

M. Blumrosen Presents An Unrivalled Exposition of The Newest Autumn Fashions

Starting Monday, September 14, 1914

A wave of new things—ever so smart—exemplifying the various types of garments that are faithfully representative of the new modes will be found in the Autumn fashions we shall present to the public beginning Monday

These are the new things that are new in Paris. For instance, reports of what was worn at the Auteuil Steeplechase—an event which crystallizes the advance fashions in Paris—stated:

"There was to be noted a decided change from the brilliant draped effects that have ruled and a return to simplicity of lines with long-waisted Moyer's dress in dress which will remain as a base of ideas for the new models for the Fall and winter.

"Drapes were conspicuous by their absence and long tunics hung to within nine inches of their hem. These were in high favor.

Garments embodying just such ideas are to be found in this display which takes into consideration wraps for all occasions, for sport, street, semi-dress, afternoon and evening wear

This display is unexcelled in the presentation of the new and beautiful and unsurpassed in the faithful interpretation of present fashions; it is an event of universal interest to women—an occasion, so to speak, of their personal education in the art of dress.

Here are models showing the rippling, swinging back exploited by Cheruit; Coats having the Moyer Age long waist-line accentuated by a wide belt as sponsored by Premet; the modernized Redingote model that Paquin approves; the straight boxy suit jacket with belted back and velvet bow trimming as originated by Poiret for the youthful figure; and last but not least, the odid belief, swagger, flaring mixture coats that have the hallmark of "dear old England."

Many of the models show a demureness that is almost classic in its simplicity. The front belt treatment lends a sauciness that is irresistibly fetching. The sprightly side-belts emerging from pockets and dodging into plaits are quite picturesque; the military touches, the Epaulette notions, the Basque deign, the cavalier-like cape treatments and the bright touches of printed velour have much in common with the dainty appeal of these new garments make.

Of Tweed novelty mixtures, plaids, wave riblines, broad-ribbed and cobbler yarn coatings in autumn's favored shades, they are smart and becoming

By suits for fall there does not exist such a thing as "The Style." There are many styles all equally good, and all equally vouched for. Hence there are shown jackets in various lengths and in various stages of looseness and fitting qualities.

Many of them are designed with Callots's cut-out front; Piernard's flaring back; suit is charmingly duplicated in rich ripple suiting; braid bound suits are particularly effective in g aberdine. The Country Club suit with low belted coat and pockets in the skirt is made of splendid storm serge. Suits which have the suggestion of the Basque and those with Tunic Skirts or Skirts cleverly cluster plaited below a yoke. Fashionable materials are ripple suiting, broad cloth, gabardine, solid chevot, burrlet check, mannish serge. Most desirable colors are Black, Navy, Russian Green, Seal Brown and plum.

These are Autumn's garments! As fresh and free as Autumn itself; as new as the new season; and as modern as they are attractive. You are cordially invited to see all these new things and many others we have no space to mention.
