## WHISKEY DID IT.

William Berg Murders Chas. Meier in Vicinity of Blaney Junction Sunday Afternoon.

Shortly after one o'clock Sunday afternoon, William Berg murdered Chas. Meier, at a point about a half mile from Blaney Junction.

It appears that the men involved in the tragedy were working at William Nelson's camp, along the line of the Blaney railroad, and came to the junction to secure liquor, which they evidently secured because Berg was arrested and the men congregated at the scene of the tragedy were in a similar condition.

Berg told the sheriff that Meier confronted him as he was walking along the railroad, and demanded his money. He shot into the ground to scare the "highwayman," and as he persisted in his demands, and continued coming toward him, he shot again, aiming for his abdomen. Meier fell to the ground and Berg went to camp and informed the men that he had killed a man. When the men reached Meier he was yet alive, but very weak. He died within an hour after being shot. The story seems very "fishy" as Berg was armed with a .24 Winchester rifle, while Meier was unarmed and had an insignificant jack-knife in his pockets.

Berg has been in trouble before. He was arrested and heavily fined for killing deer for a camp last year. He also was placed under bonds last year as the result of having intimidated the Italians working on the Soo line railroad at Whitelake. He said that there were too many diggers at Whitelake, and at one time when intoxicated, he fired a shot through the upper floor of the quarters occupied by the Italians.

He always carried his rifle wherever he went, and many times his companions told him that the custom would get him into serious trouble—and it certainly did. When drunk he was of a quarrelsome disposition, but when sober he was very jolly and

## FIRST NUMBER TOMORROW EVENING.

Old Kentucky Jubilee Quartette opens the Reading Club Lyceum Course.

The opening attraction of the Women's Reading Club Lyceum course, is the Old Kentucky Jubilee Quartette, and they will appear at the local Lyceum tomorrow evening. The program is versatile and is bound to please everyone. There will be vocal music, violin solos, stringed instruments of every description, humorous monologues, etc.

The ladies were fortunate in securing this attraction, and the patrons of the course will have a pleasing foretaste of what the course has in store for them during this season.

If you have not secured a season ticket you should do so at once. The ticket costs only \$2.00 and entitles you to attend five entertainments. Single admissions will not be less than 75 cents, therefore the wisdom of securing season tickets is apparent.

## IN HONOR OF MISS ACKERMAN.

Numerous Parties Given by Friends for Her.

Miss Ella Ackerman, one of Manistique's most popular young ladies, who will wed Mr. Victor Bergstedt of St. Paul, on Oct. 28th, has been the guest of honor at numerous social functions, the number of which prove her popularity.

On Monday evening, Oct. 19th the "Blumrosen store crowd" entertained her at the home of Mr. and Mrs. R. S. Waters. On the following evening Mrs. Rev. Nelson gave a shower in her honor, and on the 16th she was the guest of honor at a shower held at the home of Mr. and Mrs. Jack Nelson. The Narcissus club entertained in her honor at the home of Miss Nancy Johnson Wednesday evening of this week. The decorations at the Johnson home was most elaborate. Mrs. Ray Stone will entertain in her honor this evening.

For rent, furnished room, modern, 421 Oak street.

## AN ELABORATE WEDDING.

Miss Edna Blanche Grandin and Rev. Gustav Adolph Sward Wedded at Swedish Baptist Church Wednesday Evening.

The Swedish Baptist church was the scene of a very beautiful wedding Wednesday evening of this week when Miss Edna Blanche Grandin, the daughter of Pastor and Mrs. Theodore Grandin, was united in marriage to Rev. Gustav Adolph Sward of Greeley, Colo.

The ceremony was performed by Rev. Garvid Hagstrom, D. D. of St. Paul, Minn., in the presence of 200 invited guests. The bride was attended by her sister, Miss Myrtle R. E. Grandin, as maid of honor and Misses Edna Linsley and Evelyn Peterson acting as flower girls. The bridegroom's brother, Mr. Victor H. Sward of St. Paul, acted as best man, and the bride's brother, Hartley Grandin, and Clay Anderson, were the attendants. To the strains of Lahngren's Wedding March, played by Miss Bertha Peterson, the bridal party marched through the prettily decorated church to the wedding bower where the father, Rev. Theo. Grandin, gave his daughter to the bridegroom.

The decorations were beautifully wrought out with festoons, ferns, palms, potted plants, cut flowers and electric illuminations, eliciting the unanimous comment of all present as being the most and attractive ever displayed in the church.

The evening was spent in congratulations, speeches by President G. Arvid Hagstrom, Mr. August Norman and musical selections rendered by Miss Myrtle Grandin and Miss Bertha Peterson.

Some thirty or more telegrams of congratulations were received, also a large number of valuable gifts from relatives and friends in the city and from a distance, among these being a large purse from the church and Young Peoples society, were presented to Rev. and Mrs. Sward.

The bride is a beautiful and accomplished young lady who has been

educated in the east, and with her winsome disposition will be an inspirational and helpful companion to her husband in his ministerial work. During her short residence here she quickly won the admiration and esteem of all meeting her.

The bridegroom is a graduate of the Swedish Baptist Theological seminary at Morgan Park, Ill., and has accepted the pastorate of the Swedish Baptist church at Greeley, Colo., where he has already done an excellent work. A church edifice has been erected, and is to be dedicated next month.

Rev. and Mrs. Sward will leave for their future home Tuesday evening of next week.

Among the out-of-town guests at the wedding were the bride's grandmother, Mrs. Rev. E. Wingren, of Chicago, Ill., the bridegroom's brother, Mr. V. H. Sward of St. Paul, Minn., and the officiating clergyman, Rev. G. Arvid Hagstrom, D. D., president of the Bethel academy and theological seminary of St. Paul.

The host of friends of the contracting parties wish them a long, happy and successful future.

## FOOTBALL TOMORROW.

Locals to Meet Sooites Tomorrow Afternoon—Attend and Encourage the Boys.

The strong Soo aggregation of avid football artists will battle the local high school eleven at the fair grounds tomorrow afternoon. The locals are practicing daily, and hope to give the visitors a hard drubbing.

It is hoped that there will be a large attendance of the citizens generally at the game. Purchase your tickets at the drug stores and by your presence encourage the spirit of athletics, and cheer the boys.

## SPECIAL NOTICE!

Please bring your special premium tags to assistant secretary of fair committee at Manistique bank and they will be taken care of. Fair Committee.

## JOHN C. STOOR WAS KILLED.

Well Known Farmer of Thompson Township, Fell from Wagon and Received Fatal Injuries.

Mr. John C. Stoor, a well known resident of Thompson township, died Tuesday noon of injuries received the evening before, when he fell under the wheels of his wagon.

It appears that Stoor came to Manistique with a load of potatoes Monday, which he disposed of here. Enroute home late that afternoon, parties from this city passed him and a companion and saw them drinking from a bottle. He remained at Thompson until evening, and started for his home in the Lockhart settlement, alone. After nightfall the team arrived at home without him, and his little daughter started for Thompson to find her father. When the team reached the spot where Stoor was lying, they refused to go farther. She found him in a helpless condition, and managed to get him into the wagon.

A doctor was summoned, and he ascertained that the wheels of the wagon had passed over his chest, causing grave injuries from which he died as stated above.

Stoor was about fifty years of age, and was a native of Finland. He was considered a temperate man, and was highly esteemed by those knowing him. His wife died about a year ago.

President V. A. Green Tells of the Benefits of the Development Organization.

Thornton A. Green of Ontonagon, president of the Upper Peninsula Development bureau, who has been in his annual tour of the upper peninsula counties in an effort to convince the boards of supervisors of the wisdom of contributing public funds to the purposes of the organization, was in Houghton yesterday. He is on his way home to Ontonagon, after a successful tour according to the bureau.

Mr. Green was aware that there had been some implied or actual criticism of the development bureau at the meeting of the Houghton county board last Monday. At least some questions were asked as to the benefits accruing to the Houghton county from its contribution to the bureau.

**Matter of Land Values.**

"The assertion was made, I understand, that the prices of lands had been boosted as a result of the bureau's advertising," said Mr. Green. "This criticism I can make only this answer: I would consider the prices of the Upper Peninsula Development bureau to have been a failure if the prices of upper peninsula lands had not increased.

"The bureau has thus given a value to something that had no value before. Do you think that it is not worth it?"

He pointed out that the development bureau that anybody in the upper peninsula could go among farmers in other states and sell farm lands? They could not. We had the experience. At first no land agents in this country, such as Chicago, could be induced to consider the upper peninsula. They looked upon this peninsula as a barren waste on which nothing could be grown. Now they are clamoring for appointment as upper peninsula representatives.

"The Upper Peninsula Development bureau cannot dictate the terms on which land owners sell their lands. We flood the country with upper peninsula literature. We pave the way. We create a demand and the price of the commodity for which the demand is created naturally rises."

**Criticism Land Owners.**

"I'll say this," said Mr. Green, "that if there were public spirited land owners in the upper peninsula, I'd put it that way—who would go out and take advantage of the promotional campaign we have been waging, the results would be such as would silence the loudest and most unreasonable critic."

"The Worcester Lumber company's land department is getting results, selling lands, bringing settlers into Chassel township. Do you think they would get these results if the development bureau had not opened up the field for them? Ask C. H. Worcester. He'll tell you how easy it was to sell upper peninsula lands before the development bureau began its advertising campaign."

"I have sold, myself, three thousand acres of land this year in Ontonagon county. I could not have sold it if the Upper Peninsula Development bureau had not made the possibilities of the lands of the upper peninsula known. And I do not want anyone to consider that as president of the bureau I get any advantage over any other land dealer."

**May Publish a Bulletin.**

The development bureau hitherto has expended its funds, about \$12,000 a year, in its advertising campaign outside the peninsula. Mr. Green sees now that there must be something sent at home to keep the counties of the upper peninsula advised of what the bureau is doing. At a meeting of the directors in Menominee next week he is going to advise the publication of a monthly bulletin for this purpose.

**UPPER PENINSULA NOTES.**

The Alger county board of supervisors has fixed the county road taxes at a little over \$14,000, to be spent as follows:

Munising-Westmore road, \$2,700; Chequamegon-Chatham road, \$1,400; Chequamegon-Delta county road, \$3,500; Munising-Alger Train road, \$2,500; general office expense and engineering, \$2,900. Total, \$14,115.

Beginning Oct. 20, the Cleveland-Ohio Iron company will put into effect a lower mill rate on all wood products. Woodchoppers will be paid 30 cents a cord for hard wood instead of 20 cents. Teamsters will suffer a reduction of 25 cents a day. Car-loaders will be cut 25 cents a day, and consumers and common laborers, 40 cents a day. Depreciation caused by the European war is the reason given by the C. O. I. company for the reduction.

Mr. George Tucker of Marquette, was recently elected a thirty-third degree Master Mason in the northern jurisdiction, with headquarters at Boston.

Small post is reported in Delta county.

Representatives of prominent Glencoe lumber buyers, are visiting various portions of the peninsula and urging jobbers and lumbermen not to cut over this coming winter owing to the lack of demand. If this advice is followed times will be quiet in cities and villages dependent upon lumber operations for existence.

Deers are reported as being unusually numerous in various portions of the peninsula.

Charles and Leo Smith bagged two black bear Monday near the wood camps of the L. S. L. & C. Co. The boys were out bird hunting and ran across a young cub in a tree which they shot. About this time the cub shear appeared on the scene growling savagely. She was promptly attacked by a small dog, with which the boys were hunting but the dog was the bear having seized the dog in the act of cutting it, when the boys blazed away at her with their guns loaded with fine shot. With a howl of rage the bear dropped the dog and charged directly at the boys. At this time they had reloaded with buck shot and the next round finished Mrs. Dean. Bears are reported to be unusually numerous in the woods this fall—Newberry News.

Pickford, that enterprising little city in Chippewa county, is to be riched with electricity. The current, which is to be conducted from the Soo, will be turned on about January 1st.

Announcement is on foot for the organization of another county with Engadine as a county seat. The idea is not a bad one. Their should be several changes made in county boundaries. For instance, the three townships lying east of Little Bay de Noquet in Delta county should be added to Schoolcraft county, and the north end of Schoolcraft county should be attached to Alger county. Engadine is growing rapidly and is surrounded with a fertile farming country which is being rapidly settled.

Mrs. Hazel Peterson was burned to death at Trout Creek, as the result of an explosion of kerosene in which gasoline had been mixed. The unfortunate lady kindled a fire with the fluid, and the house was destroyed by the resultant explosion and she died of the burns received. Others at Trout Creek also report that their oil is similarly mixed. Evidently the result of carelessness upon the part of a dealer.

Attorney F. A. Bell of Neguamee, one of the leading attorneys of the upper peninsula, was married at Detroit recently to Mrs. Frances Taylor Obeur. They are spending their honeymoon in California.

Ex-Newberry ministers appear to "be mad." Rev. Isaac Wilson, a former Methodist minister, it is claimed, stabbed himself in the neck, and claimed that he was held up and robbed of \$4,500. Later he confessed that the hold-up story was concocted by the idea of saving himself from difficulties at home. Then there is Rev. Wm. Colman of Detroit, also a former resident of the celery town who is being accused of setting fire to the parsonage he occupied for the purpose of securing the insurance money.

Delta county's auctioneer has been fixed at ten million dollars, Gladstone claim to be about as large as Manistique, yet its valuation is less than the valuation of one of the four wards of Manistique.

The Garden Bay farmers are conducting a store at Escanaba, where produce raised on the farms of the Bay de Noquet peninsula are offered for sale. The idea is a success.

**TEACHERS ARE FOR SUFFRAGE**

In resolutions adopted by the Upper Peninsula Educational Association at Houghton last week, a strong stand is taken by that organization for Woman's suffrage.

Among the important recommendations made by the association are the following:

"That systematic supervision of play as a regular part of the school curriculum should be provided. In all of the larger school units such supervision may properly fall under the direction of a competent supervisor of physical training, since well organized play should be a first medium of physical development.

"That the school course should be strengthened by the extension of vocational and industrial work to the degree of preparing the masses of students who may never enter college for a practical and specific livelihood; yet, 'Let us forget and run rampant in specialization.

"That the utmost care be exercised to preserve a proper balance between vocational and cultural subjects, and that we recognize the value of requiring certain subjects for the mental and ethical training which they provide.

"That since education without morality is truly a curse, greater emphasis be laid upon ethical instruction. That the purity and integrity of the teacher is the first requisite in such instruction. That choice literature in particular, and all instruction in general, be made to conduce to the end of higher morality.

"That not only shall school boards and superintendents refuse to hire a teacher who has not secured an honorable release from any existing contract, but

"That a state law be urged providing that the superintendent of public instruction, or other proper authority, may revoke the certificate of any teacher who shall thus break a contract, whether oral or written, for cause wholly selfish and illegal. That the reputation for business honor in the teaching profession renders this measure particularly advisable and timely.

"That greater emphasis be laid, both in primary and secondary schools, upon social civility, as an essential means of securing more efficient and correct thought.

"The object, that we favor a high practical and espousal of the principle, by school course of instruction in civility, health, school, and the conduct of these years, each year, memorial by the faculty of the department of literature, science and the arts, and by the records of the University of Michigan."

The association, in conclusion, adopted the European war and expressed its regret at the recent death of A. N. Davis, superintendent of the Menominee schools, who was an active and valuable member. The committee on resolution was composed of W. D. Hill, E. E. Scovelius, H. H. Lee, M. J. Walsh and P. R. Alonick.

OFFICIAL COUNTY AND CITY PAPER

FRIDAY, OCT. 23, 1914.

**Editorial Comment.**

The United States is facing a shortage of cigarette paper as the result of the war. This is one of the very few blessings of the present war in Europe.

The war in congressional circles is now officially on in this district, for Baker, the Bull Moose candidate characterizes Scott, as "a briefless lawyer and flamboyant tax exempt candidate of the special interests."

An Iowa farmer set aside ten acres of his farm for the growth of wild flowers. He was prompted to do so by sentiment. Up here in Schoolcraft county there are farmers that are setting aside many acres of their farms for the propagation of Canada thistles. Don't believe that sentiment prompts them to do this, but believe that shilliness and down-right careless and laziness can be given the credit.

**A PASTIME.**

Estimating the upper peninsula vote may be an interesting pastime, but it has no great political importance. Governor Ferris is going to poll some thousands more votes than he polled in 1912, and Mr. Patterson will get many thousands fewer votes than were cast in 1912 for Whitney Watkins, the Progressive candidate, who carried the district, but speculation as to how the three candidates will divide the vote must, in the nature of the situation, be largely guesswork. But few well-informed men seriously question that the Republican candidate for state office will go to the straits with substantial majorities. The prediction that Governor Ferris will split even up here appears to be an extreme one. He can fail to do this by a large margin and still make a most noteworthy run north of the straits. The final disposal of the vote as between the governor and Mr. Osborn will depend largely on what Mr. Pattengill accomplishes in the district. Many of the certain alphas of G. O. P. newspapers on Osborn are defending their own purpose and, by creating an impression that he is being ruthlessly and unfairly assailed, are having the tendency to build up support for him in certain quarters where otherwise it would not be found.—Mining Journal.

**MANISTIQUE NEEDS A HOSPITAL.**

Why not convert the county poor house into a general hospital? It seems encouraging that such a good building should be utilized for its present purpose. A farm could be purchased near the city, and with the aid of the inmates, many of whom are able to do some work on the farm, could be made into a self-supporting Manistique hospital building badly now, and that need will be accentuated in the future as Manistique is rapidly becoming a manufacturing center and accidents will necessarily increase. Manistique now has a surgeon, that is able to do anything done in the hospitals of the larger cities. There is really no need for Manistiquians to take their sick to the city hospitals and run the chances of having them die as the result of the discomforts of the journey. Lives have been saved as the result of the fact that operations can be done here. We have in mind a young man who was operated on for appendicitis last week. His condition was such that he would have been a victim of peritonitis, had the operation been delayed a few hours. Manistique possesses the surgical ability, why not provide this ability with a proper hospital.

Schoolcraft county might be induced to sell the present magnificent county house to the city, and with the money thus secured, purchase a farm where the soil is productive and where the human element, made so by booze would be compelled to at least earn their living.

**THE COUNTY TICKET.**

No valid excuse can be offered by any Republican in Schoolcraft county why he cannot vote the Republican county ticket straight this year. All of the candidates are competent to fill the various offices to which they have been nominated. The Democratic ticket is made up of men that are also highly respected in the community, but none exceed the Republican candidates in ability, honesty and experience.

Mr. Danton, the candidate for prosecuting attorney, has held the position before, is considered one of the leading attorneys in the upper peninsula, and will fill the office to the full satisfaction of all. He is unopposed and will therefore receive the vote of all parties.

Fred M. Orr, has been a deputy sheriff and undersheriff for a number of years and is conversant with the duties of the office. He will give the county economical and competent service and will make one of the very best sheriffs that the county has ever had in its history.

John N. Forsnar, who has so acceptably filled the position of county clerk and register of deeds for the past two years, both being under the office naturally, belongs to the party. He has been careful in the administration of the office and has given the office practically all of the votes of the county irrespective of political beliefs.

Ar J. Smith, who is serving his first term as county treasurer, will also be re-elected as the result of the careful and satisfactory administration he has given the office. The routine work of the office has been done by Mr. Verne Smith, and the administration of the affairs of the office was never exceeded by any of the previous treasurers of the county.

Messrs. Kaffauer and Johnson will succeed themselves as coroners. Both being undertakers, the office naturally belongs to them. They have been careful in the administration of the office and have saved the county many dollars annually in deciding not to hold inquests only when they are deemed imperative.

Joseph Chemard, a land-looker and surveyor of well known ability, is the candidate for county surveyor.

**Editorial Comment.**

Isleping is in the throes of a diphtheria epidemic. Ten cases are reported. One death has occurred.

The champion mean man resides in Milwaukee. He sold his wife's winter supply of canned food and spent the proceeds for the stuff that has made Milwaukee famous.

On account of mere technicalities the board of supervisors of Delta county decided to refuse the voters of that county the privilege of expressing their wish relative to the local option question next spring. A careful of names were promptly secured, and it began to look as though the liquor interests of that ram-ridden county were in grave danger of getting it where the chicken got the ax, and therefore the resorting to technicalities in order to temporarily defeat the expressed desire of a considerable portion of the voters of the county. The matter will no doubt be taken to the courts, and stranger things than that the people of Delta county will be given an opportunity of voting on the proposition in question next spring, have not occurred. This temporary set-back will only increase the interest, and make the "dry" more active. When they will have an opportunity of expressing themselves, they will ebbuke the timid board of supervisors, and will clean up in the "wets."

**DO NOT TEMPORIZE WITH THE ENEMY.**

This country is passing through a period of Democratic times and in no section of the state of Michigan is the depression of business felt to a greater extent than it is in the iron and copper countries. Notwithstanding these unfavorable evidences of Democratic misrule, such newspapers as the Houghton Mining Gazette, insist on "rooting" for a Democratic candidate for governor, at the expense of the Republican candidate. Because Ferris sent the state troops to the copper country during the strike period, that section thinks that it is under overbearing obligations to that worthy. Come to think about it no governor that has ever been elected or will be elected in Michigan would hesitate in doing the same thing if it were needed.

Republicans cannot afford to allow sentimental "puppy love" to dictate their votes this fall. A party that finds it necessary to levy a war tax when the country is at peace with all the world; a party that has been wasteful with public funds and that has wasted the high water mark in the matter of expenditures in the state and nation; a party who promises to reduce the cost of living have proven to be empty platitudes to catch the voter; a party whose destructive tariff policy has been the cause of shutting down thousands of factories and throwing American workmen out of employment, is a party that does not deserve the support or vote of any Republican that is sane. The party that usually sane on every question, should be willing to root for the party that has caused such an unprecedented slump in the wage market of the copper country is one of the unsolvable foibles of newspaperdom.

**THE TIMES IS FOR A FREE MAN;**

Two years ago The Times supported Woodbridge N. Ferris for governor when all other Detroit newspapers were against him.

This year, when every other Detroit newspaper is supporting Mr. Ferris, The Times finds itself unable to get in line.

Times believes a FREE man should sit in the governor's chair in this state.

Mr. Ferris is NOT a free man.

R. R. Pattengill, the National Progressive candidate for governor IS a free man.

Chase S. Osborn, Republican candidate for governor, IS a free man.

Neither of these two men owes his nomination to any clique or machine.

They are committed to no political gang.

They ARE committed to principles.

Chase S. Osborn has been tried by the people of Michigan and has proved that a promise from his lips is binding and means something.

Woodbridge N. Ferris failed to meet the test.

He deserted the side of principles and the side of the people, and went over to the machine crowd in his party and he is the candidate of that machine today for re-election.

Four years ago The Times supported Chase S. Osborn because a housecleaning was needed in Lansing, and he promised to see that Lansing got it.

True to his promise, he drove out of office all questionable characters and gave us a clean and progressive administration.

Two years ago our supporter Mr. Ferris was extended because of his public utterances in urging the Democratic party to rid itself of its discredited bosses.

We thought he was going to go right ahead and do for his party what Osborn did for HIS party.

In Bay City, in April, 1912, at a big meeting of Democrats held the night previous to the state convention for the election of delegates to Baltimore, Mr. Ferris was the principal speaker and we never heard language any stronger than that which he used in denouncing Wood-Shields and Connolly.

He went so far at that time as to say that if the Wood-Shields-Connolly brand of Democracy was to be recognized, he was no longer a Democrat.

Upon another occasion, Mr. Ferris said Democracy did not DESERVE success under such leadership.

When Mr. Ferris consented to be a candidate for nomination for governor two years ago, it was with the understanding that the Wood-Shields-Connolly combination would have nothing to do with conducting the campaign.

Nothing has been attempted to change this attitude toward the "gang" Mr. Ferris so bitterly denounced.

Does Mr. Ferris expect to change our views because he has changed his, or does he expect his party to reverse itself every time he pulls the string?

The men in Mr. Ferris' party who are fighting for principles which mean more to them than political jobs have refused to disown themselves by taking distance from the organization of vote-swappers which controls Mr. Ferris and his party.

Mr. Ferris' surrender to the machine has secured for him the support of the wholesale and retail liquor dealers and the gamblers.

He will have the benefit of large contributions toward his campaign from the wets who want him to be governor again.

These are facts which ought to convince the fair-minded among our readers who we positively cannot support Mr. Ferris.

Chase S. Osborn happens to be running for governor again at a time when extravagance and mismanagement are getting another hold on the state.

He will be free to sink the probe as he did before, and none other but a free man can do it.

The Times is for a FREE man.

The Times, therefore, is NOT for Ferris.—Detroit Times.

Thanksgiving comes on November 26th this year. Wonder if the Farmers war will raise the price of whiskey.

Belgium will go down in history as the doom of history. She's a precedent example of what happens to the innocent bystander.

Sugar and flour are being reduced in price by wholesalers evidently made all the money their consciences could permit them to make.

Why will local grocers continue to purchase imported cabbage when they can secure the best cabbage in the world from Schoolcraft county farmers.

The soldiers of the French army are going to change shirts, evidently for the government has ordered a million shirts from American manufacturers.

Michigan has 74,800 people within its confines that cannot read or write the English language. Suppose that numbers includes a number of country editors.

A campaign slogan that is catching on among workmen who voted for Wilson is "I love my party, but oh my job."

Congress has adjourned. "Praise God from whom all blessings flow," etc.

"Deutschland über Alles," is the cry of the German national hymn, and a literal translation of same is "Germany Over All." A song that would suit some people would be Deutschland Untar Alles.

A little girl, engaged in canvassing the city in selling tickets for an annual supper, asked her prospective customers to buy a ticket for the "animal" supper. As man is an animal she was not so far off after all.

That Chase S. Osborn is a versatile speaker was shown last week when he addressed an audience of Germans in their native tongue. It is a safe bet that he could also make addresses in the Scandinavian languages and Spanish and French as well.

Many ex-Ferris Institute students, knowing Ferris' antipathy to liquor, wonder what has happened that the booze sellers should line up for him in the present campaign. For that reason they will not look for him this year as they did two years ago.

Liquor has another crime to answer for in the Blaney Junction tragedy Sunday. It appears that the principals in the tragedy were drunk, and the coroner could not secure a clear version of the affair because "everybody was drunk."

Hon. Francis T. McDonald, of the Sea, who is the Democratic candidate for congress from this district, was a Manistique visitor late last week. He feels much encouraged with the outlook throughout the district and as the Republican majority in the Schoolcraft district is normally not very large and as Baker, the Progressive candidate, will be more or less of a factor in the counties below the straits, the result may or may not be a Republican victory.

Some Detroit newspaper claims that Osborn will not receive 250 plurality in Schoolcraft. Well, Schoolcraft county is a staunch Republican county and the present high cost of living under the Democratic administration is not conducive to converting the Republican majority in the Schoolcraft county to the Democratic party that promised much and was short on delivery. Osborn may receive 600 plurality, and if the voters of Schoolcraft vote as they showed the plurality may exceed that.

Dr. A. W. Seidmore of Three Rivers, who was defeated for the Republican nomination for auditor general at Kalamazoo was in the city today and called at the state house. Seidmore is very chagrined his defeat and has gained the reputation of being a "red head." He called on Auditor General Fuller while in the city. Dr. Seidmore predicts a republican sweep of his district, the fourth congressional. He claims the moose enthusiasm is on the wane in the southwestern part of the state. He predicts Osborn's election by 50,000 and says the progressives will not poll more than 25,000 votes in the state.—Lansing Evening Press.

The fellow that predicted that Bayliss wouldn't carry Chippewa county at the recent primaries, is now predicting that Osborn will have serious trouble in getting a plurality in his home county. Bayliss' plurality was so large that it looked to a non-resident that everybody, including the late Billy Webster's Indians from Sugar Island, had cast their ballots for the home man. Same will be the case in November, Osborn is Chippewa

county's most valuable asset, and he has done most to keep it on the map than any other factor. Chippewa county will not, and cannot afford to snub its foremost citizens. However, Osborn is paying the penalty that is the lot of any man that is successful either in politics or business. No doubt of it that there are persons in Chippewa county that will knife him, but it is safe to say that they are infinitesimal in number.

**HOW HE SAVED MONEY.**

Osborn made an explanation in a recent speech that should be read and passed over by every taxpayer. It follows:

Mr. Osborn denied that any veto of an appropriation, while he was governor, seriously affected any state institution. He explained how the most of the money he saved was through increased efficiency.

"Warden Fuller, of Inola prison, asked me for a new lining hall to cost between \$40,000 and \$50,000," said he. "I replied, no, you can't have the money to build the structure. You can have the money to buy the material. You have inmates here representing every trade. Buy your material and let the convicts do the work. Mr. Fuller followed my suggestion and today it is one of the things he points to with pride. Instead of costing \$40,000, it cost but \$9,000."

Some Savings.

"At Lapeer the same thing happened. They wanted a new reservoir to cost \$20,000. They put the inmates of the institution on the job and the work cost only what it took to buy the cement, \$1,600. But Governor Ferris tells you I crippled these institutions. Why, I was the first governor to visit some of the institutions in over 17 years."

WILLIAM A. WOOD,  
JOS. W. SCOTT,  
NELS KLINGSTAD.

On motion of Eugene Conlon, supported by Ezra Aldrich, and carried by a unanimous vote, the above report was accepted and placed on file, and the Committee discharged and a vote of thanks was given the Committee for the splendid work they did.

Moved by Joseph W. Scott, supported by Nels Klingstad, that we adjourn until tomorrow morning at 9:00 o'clock a. m. Carried. J. N. Forsyth, clerk. G. W. Baggett, Chairman.  
Tuesday, Oct. 13th, 1914.  
The Board was called to order at 9 o'clock a. m. by C. W. Baggett, chairman. All members were present and answered to their names. The minutes of yesterday's proceedings were approved as read and signed by the chairman.

The petition of the City of Manistique, asking for permission to construct a dam across Indian river at a point in said petition. Set forth, was presented to said Board by the Clerk, thereupon the matter of said petition was considered by the board and after hearing thereof the following resolution was presented by Jos. W. Scott who moved its adoption was seconded by Ezra Aldrich and carried by a unanimous yeas vote.

Whereas, the city of Manistique, a municipal Corporation, has filed with the Clerk of this Board a petition praying for permission to construct a dam across Indian river, at a point and in the manner in said petition set forth and in accordance with the plans and specifications for said dam filed with said petition, and

Whereas, before a hearing upon said petition by this Board it is made to appear to this board by affidavit on file with said clerk that notice of such application for permission to construct such dam signed by the petitioner, and stating substantially the contents of such petition, has been published in a newspaper printed, published and circulated in each county through which said Indian river

runs, to wit, the counties of Alger and Schoolcraft, for four successive weeks previous to October 12th, 1914, (that being the date of the convening of this board for this present meeting, and also that such notice has been published in one newspaper printed and published in the city of Detroit, Michigan, to wit: The Detroit Journal, for at least three weeks previous to the date of the convening of this meeting, and

Whereas, the board fixed the time of hearing upon said petition to Tuesday, October 13th, 1914, at nine o'clock, a. m. at which time said city of Manistique appeared by its city attorney and in favor of said petition and presented their arguments and facts concerning said petition and the construction of said dam, and no person or persons appeared before said board in opposition to said petition and

Whereas, this board is fully advised in the matter of conveying said petition and the construction of said dam. Therefore be it resolved by the Board of Supervisors of the County of Schoolcraft, Michigan, in regular meeting assembled, and after full hearing, that the prayer of the petition of the City of Manistique for permission to construct dam be granted and permission be and hereby is given to the said City of Manistique, a municipal Corporation to construct a concrete dam across the Indian river, at or below what is known as the Rapids; at a point eighty feet below the railroad bridge of the Manistique & Lake Superior Railroad in Section One (1), Township Forty-One (41) north, of Range Sixteen (16) West, in Schoolcraft County, Michigan; said dam to be constructed for the purpose of storing water to supply the water system maintained by said city and for such other purposes as said City shall in the future determine.

The said dam shall be constructed to a height of four (4) feet from the river and shall be a concrete dam about One Hundred Ninety (190) feet from a point on the west bank of said river in Lot Five (5) said Section one (1) to a point on the east bank of said river in Lot Four (4) in said Section One (1) and shall have concrete wings or abutments at each end with cut-off walls located at the west end in said Lot Five (5). The base of said dam to be five and one-half feet wide, gradually tapering towards the top to a width of about one foot and shall be constructed by cutting into the bed rock two channels, one two feet wide and one eighteen inches wide, both to extend along the entire length of said dam and to extend one foot into bed rock and shall have a concrete apron one foot wide, four feet long, extending three feet into bed rock and split at the bottom with iron wedge inserts; such bolts to be set four feet apart along the entire width of said dam and to be grouted in the rock, said apron shall be vertically reinforced at intervals of six feet, three inch galvanized pipe to be used as fish bridge supports in the construction of said dam provision shall be made for the construction therein of a fish ladder to conform with State specifications, to be a sluiceway way for the passage of timber, both said fish ladder and said sluiceway to be constructed at the east end of said dam; said sluiceway to be twelve feet wide with a clearance of seven feet high for fish loads; the bottom of said sluiceway to extend one foot above the river bottom and to have across the top hereof an eight-inch reinforced concrete slab two feet wide to be used for a passage way. In the construction of said sluiceway there shall be constructed between the west end of the same and the west abutment a concrete screening chamber at least fourteen feet long, six feet wide and seven feet high and connected therewith and about twenty feet above said dam shall be placed an intake crib for the city grout main immediately adjoining the west bank of said river, said crib to be three feet four inches in height from bed rock and to be four by four feet in width, and

To be further Resolved, that in the construction of said dam as herein specified and for which permission is granted, said City of Manistique shall conform in all particulars to the plans and specifications thereof as at the same are presented to the board. The report of the Jail inspectors and the Soldiers and Sailors Relief Committee was read and on motion of Axel Olson supported by Fred Miller, were ordered placed on supported by Jos. W. Scott and adjourn until 2:00 o'clock p. m. this afternoon.

**Afternoon Session.**  
The board was called to order by C. W. Baggett, chairman at 2:00 o'clock, p. m. and all members were present and answered to their names. The following resolution was offered by W. G. Stephens, and supported by Ezra Aldrich who moved its adoption and was carried by a unanimous yeas vote.

Resolved, that all orders drawn on the various funds of the county draw interest at the rate of six per cent per annum from the date where same are presented to the County Treasurer

and payment refused for want of sufficient funds, such interest to cease January 1st, 1915.

**TAX QUESTION A REAL ISSUE IN THE STATE**

Republican Campaign Based On "Your Tax Receipts" Likely To Be Popular.

**HOW DEADLY PARALLEL SHOWS UP THE RECORDS**

Chase S. Osborn Wiped Out a Large State Debt and Left Full Treasury and With a Lower Tax Receipt Than Past Two Years.

"Look at your tax receipts" will be the slogan of the Republican campaign, which was formally opened the day following the Republican state convention.

"Look at your tax receipts" is one slogan upon which every taxpayer, whether he be farmer, laboring man or business man or small property owner may safely hang his hat.

Two candidates for governor, each with a single term in the office, are opposing each other. Each has a right to point to the accomplishments of his two years on the job. Each, when he entered upon the duties of his office, promised reductions of the taxes of the state, promised economy in the handling of the state's finances, promised business methods in the handling of the state's institutions, promised necessities with no frills, thus to relieve the burden of taxation so far as was consistent with good government. Each, therefore, has a right to point to how well he fulfilled his pledges.

Chase S. Osborn, the Republican candidate for governor, was first elected to the office in 1910. He took his seat as the executive head of the state Jan. 3, 1911. He was not a candidate for re-election and retired after filling the office one term of two years.

Woodbridge N. Ferris, the Democratic candidate for governor, was elected to the office in 1912. He took his seat as the executive head of the state January 1, 1913. He has served one two-year term.

Now the two men are examining opposing each other. Let's see how well each fulfilled his pledge of economy, of lower taxes, of business methods in the handling of the state's finances, of lower State in Debt.

When Chase S. Osborn took his seat January 3, 1911, he found the state nearly \$100,000 in debt. That he had to be increasing year by year, he spent as the money in the state treasury was expended, the great debt of Michigan, with a valuation, a capital stock, of \$2,288,000,000, nearly 100 millions of dollars were now on the books to meet its financial needs. Some of the borrowed money he state was paying a varied rate of interest. On some of it the banks charging no interest in the hope of securing state deposits in the future.

Chase S. Osborn was elected on a platform pledged to wiping out this debt. He did it. He cleaned up the entire state indebtedness, and at the end of two years left the office of governor, and at the same time left a surplus balance in the state treasury. He fulfilled that portion of his party's pledge and his personal pledge to the very letter.

But he was also pledged to reduce the taxes, to keep the taxes low. How well did he fill that pledge? An avalanche of taxation bills was thrown into the legislature. Governor Osborn took a personal hand in attempting to keep these bills within reason and to keep appropriations low. When the work was all over, he presented to the legislature appropriation bills and, after personal investigation of the needs in each instance, voted in whole or in part a large number of them.

By his personal hand he lopped off from the appropriations passed by the legislature in his year \$780,550.32. That much money saved to the state and to the taxpayers may be credited directly and personally to Chase S. Osborn.

The total tax levy for the two years in which Chase S. Osborn was governor, and as a result of his fulfillment of his pledges amounted to \$11,976,849. Included in this sum was the debt which had been wiped out and which must be placed to his credit.

What Ferris Did

Woodbridge N. Ferris was also elected on a platform of lower taxes and economy. How did he fulfill his pledge?

When he entered upon the office of governor, January 1, 1913, instead of finding a state nearly a million dollars in debt, he found it with almost that amount balance in the treasury.

The usual flood of appropriation bills came into the legislature. They were pared by the legislature without influence from the governor. When the legislature had passed all the bills, they went to the governor for his signature. Governor Ferris did not veto a single bill, either in whole or in part.

What was the result? How did his administration fulfill the pledge of economy and lower taxes?

The total tax levy for the two years of his administration with 102 institutions in part and lower than it will be because it contains only the known expenses and appropriations amount to \$14,616,397.

The Deadly Parallel

Briefly the two men fulfilled their party pledges to lower the taxes as follows:

Two years' tax under Osborn	\$11,976,849
Two years' tax under Ferris	14,616,397
Excess of tax under Ferris	\$2,641,048

And Osborn cleaned up the state debt in addition.

Let's analyze this just a bit further, just to show how each governor fulfilled his party pledge for lower taxes and economy in state government.

State tax, 1911 (Osborn) \$ 6,523,041

State tax, 1913 (Ferris) 8,589,620

**"A SHINE IN EVERY DROP"**

Black Silk Stove Polish

Two years' state tax, 1913, estimated (Ferris)	6,523,041
Excess of one tax under Ferris	579,001
Two years' state tax (Osborn)	\$11,976,849
Two years' state tax (Ferris)	14,616,397

Two years' state tax under Ferris	14,616,397
Two years' state tax under Osborn	11,976,849
Average rate per \$1,000	2.85
Average rate per \$1,000 state tax, 1913 (Ferris)	3.75

Excess rate per \$1,000 under Ferris	.90
Average rate per \$1,000, 1912 (Osborn)	2.38
Average rate per \$1,000, 1913 (Ferris), estimated	2.63

Excess rate per \$1,000 under Ferris	.26
Average rate per \$1,000	5.23
Two years under Osborn	6.39
Two years under Ferris	6.39

Excess rate per \$1,000, two years under Ferris	1.16
Two years under Osborn	5.23
Two years under Ferris	6.39

Thus, while Chase S. Osborn as governor of Michigan has wiped out a long standing and burdensome debt and put Michigan on her financial feet, Woodbridge N. Ferris, taxing the state more than \$2,600,000 and made every property owner pay \$1.16 more on every \$1,000 of his valuation than he had paid under Osborn. This was the manner in which the two governors fulfilled their party and their personal pledges of economy and lower taxes.

How Osborn Saved Taxes

It has been shown that Chase S. Osborn in his year under Osborn. This was the manner in which the two governors fulfilled their party and their personal pledges of economy and lower taxes.

Just a glance at the appropriations for educational institutions during 10 years becomes interesting in view of the action of the former governor and in view of the action of the present governor in allowing all appropriations to pass without interference or veto by him.

In 1904 the total taxes levied for the support of educational institutions of Michigan—the university, the Agricultural college, the Mining college and the four normals—amounted to \$823,606.16. During the two years of Osborn's administration these same institutions were given by way of support \$1,291,060.71 in 1911 and \$1,482,483.43 in 1912. Surely, more than \$400,000 more in 1911 than in 1904 and with more than \$600,000 in 1912 than in 1904 these institutions could not have been seriously crippled. This becomes particularly interesting when it is considered that many of these appropriations asked by the institutions and voted by the governor were made on the plea that the institutions were crowded.

Normals Fight Each Other

Not long ago many of the Michigan newspapers contained long articles from each of the normal schools, each setting forth its great advantages and bidding for students. They were bidding against each other, even though all are maintained by the state, and it matters not to which institution the students go. But they paid out large sums in advertising against each other, even though they charged they had been crippled because Osborn failed to give them the various large appropriations they desired.

Just a glance at the actual large appropriations made by Osborn shows the character of the uses to which it was the desire to put this money, even though the state was financially embarrassed, and Osborn was trying and succeeded in pulling it out.

Lapeer Home for the Feeble Minded asked two cottages to cost \$61,000. No institution in Michigan is larger, why than this home. But Michigan was in debt. Osborn determined the home must get along with one cottage, and consequently allowed \$34,339 for the construction and equipment of this one. He had a good reason for this, too. He declared no epileptics and the feeble minded ought to be separated, and that if this were done, if a new institution were established for the epileptics, the crowded condition of the home could not be obtained. The farm colony was provided for. Osborn has since been proved correct.

What did Governor Ferris do with the appropriation for this institution in 1913? The farm colony for epileptics was provided for with an appropriation of \$200,000. But while this, when completed, ought to relieve the congestion at Lapeer somewhat, Mr.

Ferris also allowed an appropriation for the Lapeer home alone of \$175,000.

Wanted a New Auditorium

Michigan Agricultural college asked an appropriation of \$150,000 for a new auditorium. Governor Osborn went to the college several times to see what was the need of this expensive building. He found the college equipped with a fine army which he never was able to find filled. He therefore determined that it was his duty to see that the college was not left in a state of neglect. He therefore determined that it was his duty to see that the college was not left in a state of neglect. He therefore determined that it was his duty to see that the college was not left in a state of neglect.

The Michigan Normal college asked an appropriation of \$125,000 for a new auditorium. Osborn visited the institution and found it had struggled along many years without this structure and determined that under his pledge to keep the taxes down, the college could continue to get along without it at least until the state was out of debt.

Governor Ferris allowed an appropriation of \$700,000 for special purposes for this institution to meet without a veto. This vast sum included—\$125,000 for the auditorium as asked of Osborn, but \$150,000 for the same purpose. It included also a new gymnasium and several other new structures.

Demands Increased and Allowed

The Kalamazoo normal asked \$70,000 for a new science building and equipment. Chase S. Osborn realizing that the University of Michigan is only just getting a science building decided Kalamazoo could wait a few years and consequently vetoed the appropriation.

Governor Ferris allowed an appropriation for this same purpose—not of \$70,000 as asked two years before but of \$85,000 and \$49,500 for the construction and improvement of other buildings, making a total of \$134,500.

The Pontiac state hospital asked Osborn for \$60,000 for an infirmary. Osborn trying to fulfill his pledges to keep the taxes down, vetoed it.

Governor Ferris permitted an appropriation not of \$60,000 as asked of Osborn, but of the \$92,000 for building and \$4,300 for equipment plus \$15,000 for a home for the nurses and \$15,000 more for a cold storage plant.

Newberry state hospital asked of Osborn \$67,200 for a new cottage for some of the nurses. Osborn vetoed this was needless since if the institution was crowded, patients could well be taken to Traverse City. He therefore vetoed the appropriation.

Governor Ferris allowed this appropriation and \$26,300 for additional buildings.

Four Other Vetoes

Governor Osborn also vetoed the appropriations of \$60,000 for new army buildings for the National Guard, not because he had no sympathy with the National Guard, but because of the financial condition of the state he believed they could wait another year or two.

Osborn also vetoed a \$12,000 appro-

riation for the Mackinac island state park. This is one of the best historical spots in Michigan and is something of which Michigan may well be proud, but the governor took the stand that the park would remain standing as it has stood for centuries. He vetoed it under the financial conditions of the state an appropriation could wait. Governor Ferris allowed for the same purpose not \$12,000 as asked of Osborn, but \$16,750.20.

These constitute the largest items vetoed by Osborn. The balance was made up of smaller items, such as \$1,500 for investigating the diseases of bees, etc. Osborn held that his pledge to keep the taxes low meant, first of all, to prevent appropriations for things which could be gotten along without. He investigated in every instance, and cut where he believed it was possible without crippling the institutions.

Governor Ferris has explained his tremendous tax levy on the ground that he has forced to make up for the things Osborn vetoed. Yet Osborn's vetoes totalled \$780,550.32, while Ferris' tax levy was more than \$2,000,000 higher than that of Osborn. Had Ferris merely placed in the tax levy the things which Osborn cut out and had run the rest of the state on an even keel, he has his tax levy would have been less than \$1,000,000 higher than Osborn's. Now, with the Republican slogan of "Look at Your Tax Receipts!" ringing up and down the state, Governor Ferris must explain why his tax levy was \$1,300,000 more than Osborn's, even giving him credit for the \$780,550.32 vetoed by Osborn.

That is to be the real issue in the present campaign. "Look at your tax receipts" is to be urged upon every property owner. From that let them judge which of the two governors, which of the two candidates for a second term as governor, best fulfilled his pledge of economy and keeping the taxes down.

POSITIVELY MASTERS CROUP

Foley's Honey and Tar Compound cuts the thick choking mucus, and clears away the phlegm. Opens up the air passages and stops the hoarse cough. The gasping, strangling fight for breath gives way to quiet breathing and peaceful sleep. Harold Berg, Mass, Mich., writes: "We give Foley's Honey and Tar to our children for croup and it always acts quickly."

Notwithstanding the fact that Rev. Scott of Newberry, has been transferred to a charge in the lower peninsula, he continues to retain his residence at Newberry, and his name appears on the official ballot as Prohibition candidate for member of the legislature, from this district.

Turney Wharfield and his brother James Wharfield left for McDonald Lake Monday where they will hunt for two weeks.

**CUT loose from the big bulgy Chad.** For a clean, small chew there's nothing like "Right-Cut." It is the Real Tobacco Chew that you hear men boosting to their friends. Pure, sappy tobacco—seasoned and sweetened just enough. You get the taste of the richest tobacco grown.

Take a very small chew—less than one-quarter the size of a regular chew. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that you want. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

It is a really slow, soft and short chew so that you won't have to grind on it with your teeth. Grinding on ordinary chews is bad for your teeth.

One small chew takes the place of two big chews of the old kind.

Owing to the absence of Mr. Edmundson it looks as though the Lake Superior Iron & Chemical Co. would not commence the contemplated improvements at the local plant, and that same would be inactive during the coming winter.  
Notwithstanding the alluring plaudits favoring the proposed amendment relative to fraternal orders, which emanate from Grand Rapids, and urgent requests to publish same, the Pioneer-Tribune continues to insist that no member of a fraternal order or society that pays sick and death benefits, can afford to vote yes on the amendment next month. We believe that it is the province of a newspaper to safeguard the interests of its readers and the community in which it is published, and no amount of money would be an inducement for us to favor a proposition that we think would have a deterrent effect upon the community. The fraternal insurance orders doing business in the state have done and are doing a vast amount of good. They furnish insurance at a low rate and make it possible for the day laborer, who is receiving mediocre wages to carry insurance for the protection of his family. Why support some new-fangled notion that may jeopardize that protection, those organizations are arrayed against the proposed amendment, and their resources must be sufficient to warrant that stand. Why, then, rock the boat. Vote NO on the insurance amendment.

The picture theaters will have to pay their proportion of the "war" tax. There is a graduated tax according to seating capacity. Theaters seating 300 must pay a \$25 tax annually. Larger houses will have to pay more. Opera houses are included in the schedule also.  
Progressive, republican, democratic, socialist, prohibition, women's labor. This is the order in which the various political parties will appear on the ballots at the November election. This is based on the vote cast in 1912 for presidential electors and is a different order from the primary election held in August.  
Joseph Morrow, district organizer for the Loyal Order of Moose, is in the city this week for the purpose of beginning the preliminary work for the election of a lodge in this city. He comes from Escanaba where he founded a lodge with 700 members, and 300 additional applications for membership awaiting initiation.  
Judging from the newspapers published in various portions of the upper peninsula, it appears that C. N. Dewey of this city, who is the state fire warden for this peninsula, is carrying his salary through fines imposed for violations of the laws governing the operation and safeguarding of moving picture theaters.  
In "Royal Ark" circles in Detroit, they are betting that Ferris will be elected, at least so hints the Free Press. The long-shouters may be betting that way, but the solid substantial, sober-minded citizen, that believes in an economical administration of state affairs, and who resents the activity of the liquor interests in politics, will vote for Osborn, and defeat with such support is preferable than victory resultant from the support of the rabble. The rabble is no in the majority in Michigan.  
The Republican voter have been wont to find their ticket occupying the first column of the official ballot at the November election, for so many years that they may make a mistake this year. The Progressive ticket occupies the point of vantage this year, while the Republican ticket comes second. Of course this arrangement is temporary, for a united party this autumn will place the ticket of the Grand Old Party in the first column where it should always have remained. So when you cast your ballot November 3rd, be sure and see to it that you mark the ticket headed "Republican."

The mill of the Consolidated Co. has reduced its hours of work in the night time. The day crew now works a day and a half three nights in the week. When a fellow has been in the newspaper harness for thirty-three years, and is dubbed a veteran, he wonders what appellation they give an editor that has celebrated his fiftieth anniversary. ## WILL STRIKE 100,000 MICHIGAN HOMES

**ARE YOU AWARE** that if the proposed Amendment to the Constitution of the State of Michigan, to be known as Section 10, and to be voted upon on Election Day, November 3, 1914, is adopted, its provisions will strike One Hundred Thousand Michigan homes, and affect the interests of Three Hundred Fifty Thousand Michigan citizens, who are carrying Fraternal policies. The citizens of this State must look to the Insurance Department for protection in all insurance matters. The Insurance Department supervises all Insurance Companies, and seeks to keep fraudulent companies out of this State. Let us look to the Department for information in this crisis.

**READ, BROTHER, AND PONDER WELL**

Commissioner Winchup, of the Michigan State Insurance Department, says:  
"The adoption of the proposed Amendment would, in my opinion, limit Fraternal Societies to the payment of death benefits only, and would destroy State supervision."  
Rufus M. Potts, Superintendent of Insurance for Illinois, says:  
"Permit me to say that I have carefully examined this Amendment and am of the opinion that it is a vicious piece of legislation."  
Judges, eminent lawyers, numerous insurance companies, well-known fraternalists, and citizens generally, condemn the provisions of the proposed Amendment. Every Fraternal Society, including Railway, Commercial, Trade Unions and Commercial Travelers, have taken up arms against the proposed Amendment. Fraternal Societies are being served. THIS AMENDMENT MUST BE DEFEATED, for your part, Brother, at the polls. (Times, Nov. 3.)

(Continued from Page One.)  
companionable. Since he has been placed in jail his spirit of bravado has deserted him, and he comprehends his position. He admitted that liquor was the cause of his present trouble.  
After the shooting, Sheriff Howard and a physician were called for, and the sheriff, accompanied by Dr. Sanders made a hurried trip to the scene of the tragedy. Meier was dead when they arrived and Coroner Johnson was summoned to come and take charge of the body.  
Berg was given a hearing in Justice Teeple's court Monday. He waived examination, and stated that he would state his story in the higher court. He was remanded to jail without bond, for his appearance in the January term of the circuit court.  
The coroner's inquest was held at the office of Sven Johnson, one of the

coroners of the county, Tuesday afternoon.  
The coroner's jury was composed of the following persons: Alfred Dufstrom, Geo. Lesnard, Abe Holman, Julius Peterson, Emil Nelson and John Corcoran.  
After viewing the body, the following witnesses were examined: Mrs. Mickelson, Carl Mickelson and Dr. Saunders.  
Mr. Mickelson was the first witness: He said in part: I live at Blaney Junction, and my business is that of saloon keeper. I saw the body in the morgue. It is the body gotten at Blaney Junction Sunday. I never saw him before Sunday last. I do not know his name. I first saw him at the Soo line track at Blaney Junction. He was perfectly sober when I saw him. I again saw him after he was shot, lying fifty rods up from Soo Line on Blaney. I then went back

home, and sent my mother back to look after him. I rolled him off the track into the gutter. He was left there about three and one-half hours from time I first saw him. I did not help to move the body. I first knew of its being shot at about two o'clock, and he died about 4:15 o'clock, or earlier. He told my mother his name, but he could not talk to me.

Mrs. Mickelson testified that she lives at Blaney Junction and that keeping boarders is her business. She says: I did not see the man before he was shot and never knew him. I first saw him lying on the railroad track—the Blaney line. Do not know distance from my house. When I first saw him he was lying on track, his feet partially in the ditch. Wm. Berg called me to go to him, and handle me his gun and his pipe and said that he had shot a man. I asked him if it was so, and he said, yes, he had shot him. When Berg told me this I called Carl, who was in the dining room. I left him lay there, and removed him when he got orders to do so. He died there, his head in my lap. After Dr. Saunders came he told me to remove him. I saw this man and Billy Berg together when the man laid on the ground. I had not seen them all day previously. This happened Sunday last.  
Dr. Saunders testified that he was called to Blaney Junction Sunday afternoon by telephone from Gladstone and Soo Line. Did not know who it was. I went there. Found a young man lying a fourth mile up the Blaney track from the saloon. He had his feet toward the ditch, and was dead. He had a shirt wrapped around him, also a sheet, showing that some one endeavored to stop the flow of blood. I took them off and found that he had been shot, the bullet entering about two and one-half inches internally to anterior superior spine and had passed out in the hip. I took them to take the body to the Mickelson house, Mrs. Mickelson and several strangers were there. Was called at 3 p. m. and arrived there at five p. m. He died in death.  
The jury rendered the following verdict:  
The deceased, Chas. Meier, came to his death in the township of Mueller in the county of Schoolcraft, on Sunday, Oct. 18th, 1914 between 4 and 4:20 o'clock, p. m. of said date, and that he came to his death from a gunshot wound.

Gladstone is certainly a tail-ender when it comes to playing football. That team was defeated by the Menominee team in a score of 100 to 0 last Saturday.

#### ORGANIZED BASEBALL.

Executive Committee Elects Officers for Manistique Team This Evening.

On Thursday evening, of last week, at a well attended meeting of the baseball "fans" held at the K. of P. hall, the following executive committee was selected: Wm. Delitt, Norman W. Fox, Fred Carroll, O. Hueffer and Clarence Scott. At this meeting the advisability of playing independent baseball, or listening to the overtures of the Escanaba, Gladstone and Rapid River clubs who are seeking the organization of a Schoolcraft-Delta league for next season, was thoroughly discussed. The consensus of opinion leans toward playing organized ball. This would insure regular Saturday and Sunday baseball during the entire season, and the clubs comprising the league are not far removed, hence transportation expenses would be reduced to a minimum.  
The committee meets this evening at Delitt's livery shop for the purpose of selecting officers for the coming season.

#### WAS A HUGE SUCCESS.

Teachers of City Guests at a "Kid Party" Given by Kindergarten Teachers.

Every lady teacher in the city was invited to a "kid party" given by Misses Pregitzer and Short, at the Lakeside building and practically all of them accepted. The function was held last Saturday afternoon and the invitation read as follows:  
"Our teacher said we could have a party Saturday afternoon from half past two to four o'clock. All the little girls who play at teaching school in Manistique are invited and we want you to be sure to come."  
Not only were the "little girls" there but also a number of the cutest "little boys" attended the party. The afternoon was spent playing children's games, such as "Hit the feet," "lounge ball, marching, etc. The festivities of the afternoon closed with the Virginia Reel. "All Day Suckers" and gum were the refreshments served. The affair was one that will never be forgotten by the participants.

Someone borrowed Herbert Baker's auto Wednesday afternoon, and in turning the corner at Main and Maple streets, failed to make the turn and struck the curling with such force as to demolish one of the wheels.

#### MANISTIQUE TEAM DEFEATS NEWBERRY.

Locals Defeat Celery Town Aggregation Last Friday.

The Manistique High school team defeated the fast Newberry eleven on Friday. Newberry field by the score of 13 to 6. The game was featured throughout by the most sensational work in the forward passing line. The Newberry boys were especially fine in this line of work but at the old style game the locals were far in the lead. Newberry gained by the forward pass route over twenty different times but the Manistique secondary defense always stopped them before the ball could be put across. In this respect the playing of the Manistique ends was nearly perfect at all times.  
It was not until the last whistle was sounded that the local team could safely say that the game was their own, and the game ended with the ball in Newberry's possession on our 40-yard line.  
Manistique's first score came when Smith grabbed one of the Newberry passes and went 20 yards for a touch down after which Smith kicked goal. Score: Manistique, 7; Newberry, 0.  
The second quarter was about even until Newberry recovered the ball on our own 10 yard line and a fake pass carried it over left tackle for their only touch down. Newberry failed at goal. Score, Manistique, 7; Newberry, 6.  
Third quarter, Newberry kicked to Manistique who returned the ball to the 40 yard line. A forward pass, Smith to Quik, gained 40 yards. Quik made 15 yard right end. Smith hit right tackle for 10 more, missing the line by inches only. Brunet then carried the leather through the center for the second touch down. Smith missed the goal by a hair. Score, Manistique, 13; Newberry, 6. This ended the scoring and the last quarter was without advantage to either side. The game was perhaps the best exhibition of good red football that has been seen on a high school field in many moons.

#### BUILD MILL IMMEDIATELY

Stack Lumber Company Begins Work Of Constructing Mill At Massville.

The Stack Lumber Company's saw mill, that is to be erected at Massville, is certainly making a good record. Last month a stack of eight was initiated, and with the mill to be initiated next Wednesday the total increase of membership during the past two months equals fourteen.  
Mr. Wm. G. Stephens, the present Noble Grand, is certainly making a good record. Last month a stack of eight was initiated, and with the mill to be initiated next Wednesday the total increase of membership during the past two months equals fourteen.  
"I WAS DRUNK."  
The unfortunate man, now awaiting trial in this county for killing fellow citizen at Blaney Junction Sunday, deeply feels the position he is in, and his only excuse for having committed the crime is that "I was drunk at the time and did not know what I was doing." Of course excuse will not save him from serving a lengthy prison sentence, but will be done with the person who him the liquor that fired his brain converted him into a demon. Did purchase his liquor Sunday? If you sold it to him.  
The fact of the business is there are junction points and hamlets such as Blaney Junction, Shingleton and towns of various size that maintain saloons where little effort is being made to obey state laws regulating the liquor traffic. These saloons are supported by heavily patronized by the public, make them their rendezvous Sunday, and where the chief occupation is drink liquor.  
The time will specifically come there will be no saloons in Michigan in the meantime more than saloons such as we have mentioned above should be refused licenses in the townships in which they are located. There would certainly be no crime were this done, had it been possible for men to secure liquor there would have been no murder in Sunday. Friends and relatives in Austria would not receive breaking news of the death of their loved, and a Russian Fin would not be weeping in the county jail, blaming liquor for his plight.

BRANCHING OUT.  
Rumor has it that M. Blumrosen Has Leased a Large Store Building at the Soo.  
Rumor has it that M. Blumrosen, the pioneer merchant of the city, has leased one of the large store buildings at the Soo and intends to make a very decided change in his business in Manistique. The Pioneer-Tribune man interviewed Mr. Blumrosen Tuesday on the subject, and while he was reticent, he assured us that the rumor was correct, and that he had already formulated plans for the organization of a big company at the Soo, but for the present had not decided on just what he would do in Manistique. However, he assured us that he would inform his many patrons and the public in the very near future.

#### TO CONFER DEGREE ON LARGE CLASS

Manistique Lodge No. 353, L. O. P., will confer the third degree upon a class of six next Wednesday evening. Refreshments will be served and every member is expected to be present.
