## MIDDLEBROOK WAS ELECTED MAYOR.

Victory of Pattinson by 223 Majority—McKinney Defeated Teuple by Large Majority.

The election Monday resulted in the election of Mr. William L. Middlebrook for mayor, his majority over Mayor Pattinson being 223. Mr. Wm. McKinney defeated Mr. R. H. Teuple by a large majority for justice of the peace. McKinney was the regular candidate, and Teuple essayed the slip route.

Mr. Middlebrook has served the city in years past as its chief executive, and it goes without saying that his previous good record as an official will be duplicated during the coming year. He possesses the confidence of the voters to a remarkable degree, as is evidenced by his defeat of Pattinson, who waged an arduous campaign against his opponent, and against the Pioneer-Tribune for being loyal to the cause of the ex-mayor, who headed the Republican ticket. By carrying every ward in the city his victory is all the more sweeping.

Mr. McKinney achieved a notable victory in defeating Teuple for justice of the peace. He also carried every ward. Teuple was under the heavy handicap of making the race on slips, and as there were four tickets to be voted, the slips were lost sight of to a great extent. He takes the office on July, and after that time the justices of the peace for the city will consist of Messrs. George Benson and Wm. McKinney.

In the second ward Seymour Graham essayed the slip route against Chas. Landstrom, the regular candidate for alderman. Landstrom won at the ratio of about two to one.

## AGED LADY PASSES AWAY.

Mrs. Anna McAfee, 60, of City's Pioneers Died Last Saturday.

Mrs. Anna McAfee died at her home on Manistique Avenue Saturday afternoon of last week after a prolonged illness with the ailments incident to old age.

The deceased was born of Quaker parentage at Norwich, Conn., in 1850. She was married in 1870 to Mr. Angus James McAfee, who preceded her to the spirit land twenty-four years ago. She was the mother of five children, four of which are living at present, viz: Thomas and John McAfee of Alger county, Mrs. John McGregor of Plummer, Ont., and Mrs. Jean Mutart of this city. She also has twelve grandchildren and twenty-nine great grandchildren.

The deceased came to Manistique on Sept. 8, 1870, and has resided here continuously. During the winter of that year there were only nine families residing in the city, and with the exception of James Norton's family she was the only one left of that number. She recounted much interesting data concerning Manistique's early history. Her faculties were very well preserved considering her age eighty-five years.

During her last illness she had the constant and faithful attendance of her daughter, Mrs. Mutart.

The funeral services were held from 11 o'clock Tuesday afternoon, Rev. P. R. Leach of the First Baptist church officiating. The services were largely attended by friends and neighbors.

Among those present from a distance were the sons, Thomas and John McAfee, the latter being accompanied by his wife Mrs. Howard Fox of Shingleton and Mrs. Geo. Lossage of VanDoren, grand daughters, were also in attendance.

## DEATH OF CHAS. SWANSON

Was a Victim of Tuberculosis and Died Sunday.

Mr. Chas. Swanson died at his home in Indiantown last Sunday evening after a long illness with tuberculosis.

The deceased was born in Sweden in 1870 and was therefore forty-four years of age at the time of his demise. He was a resident of Manistique for a great many years, coming here as a young man. He was industrious and highly esteemed by all knowing him. He invested his savings in the handsome residence property located at the corner of Oak and Steuben streets, at present occupied by Mr. Pouch.

The funeral services were held from the Swedish Lutheran church of which he was a member, last Wednesday afternoon, Rev. A. Nelson, the pastor, officiating. The funeral was largely attended.

A sister of the widow from Galveston, Ill., attended.

Mr. and Mrs. John I. Jennings and Mrs. Geo. Bouschor leave late this week for Muskegon where they will attend the state Woodmen convention.

## WILL BE THE LAST ATTRACTION

The Last Attraction of the Local Lyceum Course Here Monday Evening.

The last attraction in the Women's Lyceum Club Lyceum Course is an entertainment by the Maude Stevens Lyceum Company, Monday evening, April 12th, at the Gera Opera House.

This company is composed of Maude Stevens, an impersonator of boys and girls. Miss Stevens does not make the mistake, so often made, of trying to imitate children and she does more than merely to "study them"; she is one of the few who understand how to enter unreservedly into the thought and life of the boys and girls whom she impersonates. Miss Stevens is of the slender girlish type well fitted to assume the costumes and character of children.

Mr. P. W. Clemo, Supt. of our schools, has heard Miss Stevens twice and speaks most highly of her work.

Miss Charlotte Chamberlain is a fine warbler and whistler, and her whistling is said to be a song without words, but having all of a song's sweetness and express. This will be somewhat of a novelty to Manistique audiences, and no doubt much enjoyed.

The third member of the company, Miss Edith Welch is a violinist of ability, having not only excellent tone and technique, but a keen appreciation of each composition she plays.

Seats will be on sale Friday morning, April 9th, at the Manistique Light & Power Co.'s store. Single admissions 75c and 50c.

There will be a children's matinee concert at 3:30 o'clock with general admission at 10 cents. 25c for teachers and mothers accompanied by children. The program will be arranged especially for girls and boys, not only for the younger children, but high school pupils as well. The Women's Reading club feel that they have been especially fortunate in securing this company for their children's matinee as it cannot help but appeal to them. Supt. Clemo is dismissing the schools a few minutes earlier to permit the concert to commence at 3:30 p. m.

## FOOT CRUSHED IN RUNAWAY.

David Pragnette, a driver for the White Marble Lime Co. sustained a crushed foot as the result of a runaway accident last Saturday morning.

He was taken to the Rutledge hospital where his injuries were attended to, and later was removed to his home.

## DIED SUDDENLY.

Miss Josephine Jandacka, aged seventeen years, was stricken with pneumonia at the Manistique hotel where she was employed and died at the city hospital last Friday after a few days illness. The funeral services were held from St. Francis de Sales church Monday morning. The mother and a sister, residing in Wisconsin, attended the funeral.

## THE "DRYS" WIN EVERYWHERE.

Every Lower Peninsula County Went "Dry" and Chippewa went "Wet" by 37—A Tie in Algier, Iron "Dry" by 600.

Sixteen counties of Michigan—three upper peninsula counties and thirteen located below the straits voted on an overwhelming victory for the "drys." Every lower peninsula county went "dry" by tremendous majorities, while "John Barleycorn" was given the fright of his life in Cleveland. Iron county went "dry" by 600 majority; Alger county's vote was a tie, and in Chippewa county the first returns show a "wet" majority of 37.

A recount will be held in Alger county at once and one may also be held in Chippewa.

That state wide prohibition is coming in the near future is an assured fact. More than half of Michigan is "dry" at the present time.

## PERSONAL DAMAGES.

J. E. Quinlan, Proprietor of the Hotel Murphy is the Defendant in \$10,000 Damage Case.

Alleging that he has received serious and permanent bodily injuries, John Niemi has brought suit at this term of court for \$10,000 damages against J. E. Quinlan, proprietor of the Hotel Murphy whom he alleges is responsible for his injuries.

The action grew out of a row that occurred at the Murphy hotel two years ago. Niemi is said to have been crowded with spectators each day. Legends & Driscoll of Calumet and R. W. Nield of Munising are attorneys for the plaintiff. F. T. McDonald of the Soo and A. L. Slayles are looking after the defendant's interests.—Newbury News.

## HOW TO CURE A CHRONIC COUGH

Told in the Following Letter by a Jackson Man Who Knows from Experience. His Word is Good.

Jackson, Miss.—"I am a carpenter, and for trips left me not only with a chronic cough, but I was run-down, worn out and weak. I took all kinds of cough syrups but they did me no good. I finally got so weak I could not do a day's work, and coughed so much I was alarmed about my condition. One evening I read about 'Vinol' and decided to try it. Before I had taken a quarter of a bottle I felt better, and after taking two bottles my cough is entirely cured. Two bottles of 'Vinol' has disappeared and I have gained new vitality."  
—John L. Dennis, 711 Lynch Street, Jackson, Miss.

The reason 'Vinol' is so successful in such cases is because the active medicinal principle of cod liver oil contained in 'Vinol' retobin restores tissues and supplies strength and vigor to the nerves and muscles while the tonic iron and zinc assist the red corpuscles of the blood to absorb oxygen and distribute it through the system, thus restoring normal conditions to the weakened, diseased organs of the body.  
If 'Vinol' fails to help you, we return your money.

## REPUBLICAN TICKET SUCCESSFUL.

The State Ticket Elected by a Majority Exceeding 40,000.

A very light vote was cast through out Michigan Monday, and the entire state Republican ticket was elected by majorities ranging from 40,000 to 50,000.

The only ticket the Democrats made was that on Junius Beal, of Ann Arbor, in the race for the University of Michigan regency. While the effect showed somewhat in the returns, it is evident that Beal is elected along with the remainder of the ticket.

The vote was light all over the state, except in counties where local option was an issue.

In practically every county the Progressive vote was almost negligible and apparently had to a large extent either rejoined the Republican ranks or failed to come out.

The candidates whose success is indicated by early returns tonight are: Justices of the supreme court—Aaron V. McAlvay, Lansing; Flavius L. Brooke, Lansing.

Regents of the University—Junius E. Beal, Ann Arbor; Frank B. Leland, Detroit.

Superintendent of public instruction—Fred L. Keeler, Mt. Pleasant.  
Member state board of education—Fred A. Jeffers, Painesdale.  
Members state board of agriculture—William H. Wallace, Bay Port; I. Roy Waterbury, Highland.

## GOULD CITY CAUCUS.

John A. Brawley is the nominee for supervisor of Newton township, there being but one ticket in the field. Some misunderstanding arose in the caucus; Representative Sly, who came up from Lansing for the caucus and for re-nomination as supervisor and claims he was actually nominated on the second ballot; on the other hand, a third ballot was actually taken, in which Mr. Brawley was successful.

Jesse Freeman, the retiring clerk, is nominated; E. Hummer is candidate for treasurer and Elmer Blanchard for highway commissioner.—St. Ignace Republican.

## THE ODELL BILL IS PASSED.

Was Passed Over Veto of the Governor—Date of New Stands Show-up Remaining.

Almost as soon as they had received Governor Ferris's message vetoing the Odell bill that transfers the game wardens' department from the control of the governor to the public domain commission, the house and senate passed the measure over the governor's veto and as result of its immediate effect clause the act is now a law.

The vote in the senate was 28 to 7 and in the house 85 to 8.  
In a special message to the president of the senate the chief executive declared that there was no demand for the passage of the bill by the people of the state.

Doubts Not of Law.

The governor declared that the bill was rushed through without adequate discussion. He wanted to know why the bill was not considered at greater length if it was immediately necessary for the "preservation of public peace, health and safety."

The message follows, in part: "I herewith return without approval the bill to provide for the transfer of the powers and duties of the state game, fish and forestry warden to the public domain commission."

"I have duties and those of the public domain commission so important that the work of the two departments is duplicated? I find no public demand in any part of the state for this transfer."

Duties Differ.

"The duties of the state game and forestry warden are essentially police duties. Those of the public domain commission are constructive, creative, scientific, and apply chiefly to the newer sections of the state. The result will be an increase in expenditures, a decrease in efficiency and a marked diminution in the statewide influence of both departments."

"This bill was rushed through both houses without adequate discussion. If this act was necessary for the preservation of public peace, health or safety, why this absence of discussion?"

## Senators in Hit.

The passage was accompanied by oratorical fireworks in both houses. Senators Martha and Fitzgerald had quite a tiff in which the former asked the latter to explain his vote on political grounds. In the talk-fest the "Good Governor" was referred to.

"There is no question," said Senator Fitzgerald, "that Mr. Ferris is a good governor, in some respects. He is fair. He is open-minded. The trouble is that he is too excellent a Democrat."

"Ever since his second inauguration he has done all that he could to make the boards and commissions of the state Democratic. There is no use in us trying to discard the political end of the bill."

In the house Representative Keen of Isabella, moved to give the bill immediate effect. The motion was adopted unanimously. When the senate heard of it a few minutes later, it decided to do the same thing.

## Ford Mileage Figures Interesting.

Sales Manager N. A. Hawkins, of the Ford Motor company, has some interesting figures in regard to Ford mileage. He says:

"There are now 500,000 Fords in use. Each one certainly averages no less than 20 miles daily for twelve months in the year. These 500,000 Fords, therefore, are traveling and showing themselves over a stretch of 10,000,000 miles a day, or 300,000,000 miles each month—or thirty-six hundred million miles each year. This is a distance equal to 144,000 times around the world."

If these 500,000 Model T's started on a tour around the world and kept within a half mile of each other they would encircle the globe ten times.

"Every city street, boulevard, parkway; every village street, every country road is lined with Fords. So persistent is this constant and ever-increasing parade that men, women and children who never know anything about motor cars, can pick them out. The Ford is the easiest car to think about, because it is seen most frequently."

OFFICIAL COUNTY AND CITY PAPER  
FRIDAY, APRIL 9, 1915.

**EDITORIAL COMMENT.**

The Easter hats were out in full force Sunday morning, and then it rained and snowed.

The redemption of Mexico is not as far distant as it may seem, as one of the generals that appears to have that country in the hollow of his hand, says that he will banish all saloons from Mexican territory if he has the power.

The attendance at the various churches last Sunday morning is reported as being exceptionally large. Of course the music, and the helpful messages of the pastors assisted to draw the crowds, but the Easter hat was also a magnet that should not be overlooked in giving the reasons for the outpouring.

It looks as though the county treasurers of Michigan will be given the opportunity of serving their counties more than two terms as such a law has been passed by the senate. The office of sheriff should also be added to the list. It seems to be the height of folly to believe an efficient county official at the end of four years. Officials should be retained just as long as they do their work in a satisfactory manner.

Manistique is fortunate in having four supervisors that rank high for efficiency. They are Messrs. Scott, Craver, Stephens and Olson, and their annual re-election and reelection proves that they possess the confidence of their constituents. Mayor Middlebrook, who by virtue of his office also is a member of the board is an invaluable member of same during his previous terms as mayor, and the board will have the benefit of his experience as well.

It would be a serious charge to attempt to saddle upon any one's shoulders the authorship of the Pattinson stuff that appeared in his "statement" published in the Pioneer-Tribune two weeks ago, and the article that appeared in the initial number of "The Blunder," issued last Sunday. He insists that it is strictly a home production, and it evidently is, for he possesses all the em-marks of familiarity. We retract all hints that the mayor had assistance in compiling his articles, for it is a serious charge to make against anyone to attempt to saddle their authorship upon an innocent party.

Some of the boys that have been important factors in previous Labor Day celebrations deem it improper to make plans for a celebration this year owing to the proximity of the municipal tournament and the annual fair to be held Monday of September. The idea is a good one, for the average business man will be called upon to contribute heavily for the tournament, and most of them have reserved space in the exposition building. Why not have a mammoth parade on the day in question, and a snappy ball game at the fair grounds. This would be an inexpensive way in which to celebrate the day.

The Pioneer-Tribune editor has so frequently been classed as a political boss by gutter-seniors circulated on election day, that he feels like resenting the imputation. The men and things for which the editor has stood for have almost invariably been endorsed at the polls in the past. The editor never has attempted to influence any appointment made by a mayor; he has never assumed a position of preference, and the only local office he ever held was that of member of the board of public works, and he served without pay and fought for the gravity man proposition last spring, without the receipt of a cent from anyone for space and the printing needed to further the campaign. He always finds sufficient compensation in knowing that the men and measures he advocates are successful at the polls that they are endorsed by the majority of the voters. He and his newspaper are ever ready to give battle for what they deem is for the best interests of the community, county, state and nation, even if they know they shall meet temporary defeat. They never oppose a candidate's aspirations without a good or sufficient reason, and the reason is invariably given in such plain language that anyone can become conversant with it.

Mayor Pattinson, flounders when he attempts to give the reasons why the Pioneer-Tribune supported Middlebrook. We thought that that phase of the matter had been explicitly explained in the recent past, but it seems that the member of the board who is now being elected for his Honor's benefit, that just as long as he or anyone else shall make the race for preferment on the Democratic ticket, no non-partisan campaign can be waged. He accepted a nomination on the Democratic ticket; he has proven himself a "weak ass" as a reformer; the records show that he has done less in the matter of securing the arrest of liquor violators than has Mr. Middlebrook; he said immeasurably more about what he was going to do and has done less than any other mayor Manistique has had in two decades; that the Pioneer-Tribune is a Republican newspaper and just as long as party lines are drawn in municipal elections, just so long will it be found advocating the election of Republicans; but it refuses to be cajoled and inveigled into supporting a Democrat for office by some men that have never examined a Republican ticket sufficiently long to ascertain whether the picture of Abraham Lincoln, George Washington, or the Katzenbach Kids forms the vignette. It is an easy matter for some men to preach and advocate non-partisanship in municipal elections, but the most cases they will assert that they are aligned with the minority party on every other election. In conclusion, we will state that no man, faction or thing can purchase or dictate the policy of the Pioneer-Tribune. Its attitude in the local option campaign ought to prove that. It exposed the then "popular cause" in the community, made the fight without cost, while the opposition spent hundreds of dollars for publicity, and were willing to spend much more.

**EDITORIAL COMMENT.**

In Willard, the "white man's hope" has arrived. He vanquished Johnson, the "big snake," at Havana Monday in twenty-six rounds.

The Monday people have carried and the county will not be disappointed for the continuation of county government. The city of Manistique gave a small party to the victor, thirty and every township in the county will be glad, except Hiawatha township.

Only a few weeks until Memorial Day. Plans for its observance should be made now. Members of the Spanish Legion and their work has been so good that it is certain they will soon take upon themselves the self-appointed task of raising plans for the day this year.

The paper mentioned has been successfully invaded by the dry forces this week and the liquor interests have not been too successful in their efforts. Such efforts invariably injure the one resorting to them, and during the many years that the editor has been interested in the political game he has never heard of any candidate winning through such methods. They reveal the weakness of the candidate.

The Manistique Co-operative Co. has already required a five years supply of timber with which to keep its plant in operation. This company brought ten or fifteen expert workmen from outside points with which to operate its machinery, and the remainder of its employees are Manistique people. From all appearances, Manistique will never have cause for regret in having this company on its list of manufacturing establishments, for the men in charge know their business.

Noorbacks on election day or the day before never accomplish anything. The average voter makes up his mind early in the campaign as to whom he shall support, and a hedge-podge of misstatements and speeches are never so fallacious as they are unheeded. Such efforts invariably injure the one resorting to them, and during the many years that the editor has been interested in the political game he has never heard of any candidate winning through such methods. They reveal the weakness of the candidate.

The Pioneer-Tribune editor is not a boss, as the present mayor says. He is only a mere printer in the ranks of the Republican party, and is always pleased when the voters endorse the candidates of the party with which he is affiliated. He has never attempted to dictate the policy or appointments of any mayor during the twenty-two years that he has been in the city. He believes that a mayor should take office untrammelled by promises, and that he should use his own judgment when it comes to shaping his policies and selecting the members of his official family.

The report was circulated by several would-be politicians that Mayor Pattinson was compelled to go to Escanaba to have his Sunday Morning Edition printed, and that he refused to give the mayor free space in the newspaper for the rot in question, and we are sure that no one will concur so for so doing. However, he did not ask either of the newspaper offices of the city to print the sheet, which they would have promptly done, had they been given the job. When he failed to get something for nothing, he hid to Escanaba with the work.

Some people think that it is an easy job to write three columns of editorial paragraphs weekly and to make them sufficiently interesting so that they shall be looked for and read by the average newspaper reader. Paragraph writing is the hardest sort of office writing, owing to the fact that one must touch on so many different themes, and not repeat previous thoughts and efforts. The lengthy development of a theme is easy work as compared to paragraph writing. Long editorials are no longer popular with the reading public. terse and to-the-point editorial comment is always read while the long and labored efforts are skipped by the average reader. The Pioneer-Tribune has followed the paragraph plan in its editorial page, and is pleased to know that many other newspapers are doing now likewise.

**SOME PEOPLE ARE HARD TO PLEASE.**

Volume 1 of "The Blunder" which was distributed free of charge about the city last Sunday in the view of assisting the candidacy of Mayor Pattinson, a number of humorous things appeared, and they proved conclusively what sort of a fool a man can make of himself when anger and bull-headedness form a combination.

One of the things that annoy one the most is the fact that it is a disgraceful thing to speak well of the dead or to exonerate their good qualities and what they accomplished while on earth. According to the doctory mayor it would be a crime for one to recount the good things done and accomplished by George Washington, Abraham Lincoln, James G. Garfield, or to even hint that other men were dead, were factors for good in this or any other community during their life time. We can clearly see why it would grate upon the sensibilities of the mayor to have anyone to praise George Washington, but why he should criticize the Pioneer-Tribune for giving praise to a man as prominent as George Wickwire was, and who so efficiently performed his official duties so faithfully and well as he did, is beyond our ken. It has always been the policy of this newspaper to speak well of any person that has done good things and what they accomplished in the community life, at the time when they can appreciate it, and when death calls them hence, it reiterates these things, and endeavors to give credit where credit is due. The real reason why Pattinson is angry is because Wickwire's efficient administration relative to the enforcement of the liquor laws, overtops his parrot efforts as Pike's ark overshadows the men at its feet. It is not a defamation of the dead to recount their efficient work for community cleansing. The average American never tires of discussing the multitudinous things that George Washington accomplished for the country we all love so dearly. Some of us had ancestors that reddened the snow of Valley Forge, as the result of an untold feet during hard winter days at which time the resources of the colonists were at its lowest ebb. We have never felt that we were committing an unpardonable sin by recounting the mighty deeds of the Father of His Country, or the men that gave up their lives to make the United States a vortity neither do we believe it is to recount the achievements of men in this community who have lived their lives to meretricious criticism and espoused an unpopular cause, and given their whole duty as citizens and officials when did the opportunity, even if they have passed to that bourne from which no stranger returns. Sometimes the official record of the present factors in municipal affairs suffer when compared to the achievements of the dead, and that was the milk in the coconut in the present controversy.

THE GOOD FRIENDS ARE SPREADING THE NEWS NOW.

TOBACCO, I'VE BEEN USING TOBACCO FOR FORTY YEARS AND WILL CONTINUE, BUT I'VE NEVER FOUND ANY THAT JUST SUITED ME.

WHEN MY FRIEND SIMPSON CALLED TELL YOU SOMETHING INTERESTING.

I'VE TRIED THEM ALL, AND THE REAL TOBACCO CHEW SATISFIES, GIVE IT A QUALITY TEST, THAT'S ALL.

**A MAN never forgets his first introduction to the little chew that satisfies.** Let him get the comfort of the *Real Tobacco Chew* and it's good-bye to the big wad for all time. More than that, he's glad to share the discovery with his friends.

A little chew of pure, rich, mellow tobacco—cut fine, short shred—seasoned and sweetened just enough, cuts out so much of the grinding and spitting.

Take a very small chew—less than one-quarter the size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

If it really chews, cut fine and short shred so that you can grind as you wish your teeth. Grinding on ordinary candied tobacco makes you spit tobacco. Grinding on ordinary candied tobacco. Notice how the rich tobacco taste in "Right-Cut."

One small chew rich tobacco takes the place of two big chews of the old kind.

## MARCHES BY GERMAN TROOPS.

Never Has Such a Record Been Made in History of the World.

The prodigious marches accomplished by some of the German troops, especially before the battle of Tannenberg and in the last battle of the Masurian lakes, have moved a local historian to make interesting comparisons with famous marches of other days. He concludes that no troops have ever before made such a record in this respect as the soldiers now in the armies in the east.

An average march, he says, is twenty to twenty-one miles, but on three days a day of rest is observed if this pace has been kept. On the famous retreat of the 10,000 Greeks under Xenophon, after the battle of Cunaxa in 401 B. C., from near Babylon to Trapezant on the Black sea, the average day's march was sixteen and three-fourths miles, but this average was secured by several forced marches of twenty-seven and a half miles, and the normal day's march was about fifteen and one-fourth miles.

A striking accomplishment was that of Napoleon's Guards, who covered 110 miles in six days, and their march took part in the battle of Jena, and that over bad roads through the Thuringian forest. The Ninth German army corps with exhausting marches behind it, covered forty-six miles from the vicinity of Blois to Orleans in thirty-six hours on December 16 and 17, 1870, over a muddy road, and was ready to fight the next day.

One East Prussian regiment marched 122 miles in five days to Min Hindenburg's army, and took part in the battle of Tannenberg in the afternoon of the fifth day without stopping to rest.

There are pending now in the senate

the following special from Lansing appeared in the Free Press of Wednesday:

Flushed with the success of the "dry" at Monday's elections, when they held Eaton, Genesee, Lenawee and Sanilac counties and won over the arc column Berrien, Calhoun, Emmet, Iron, Kalamazoo, Lapeer, Mason and Tuscola, virtually tied the "wets" in Alger, won a doubtful majority of 20 in Oakland and lost only in Grand Traverse and Chippewa, prohibition leaders tonight were predicting the speedy passage of the Straight state-wide prohibition bill by the legislature and its ultimate success before the people.

"A dry Michigan by May 1, 1917," is the prohibition slogan now.

To that end, the Straight bill may go through the legislature in a hurry, all other liquor measures in the senate will be sidetracked and it is expected that the same method will be followed in the house.

Will Sidetrack Others.

There are pending now in the sen-

ate four other liquor measures—the Straight bill, prohibiting the use of liquor within the corporate limits of certain places having higher educational institutions; the Damon bill, reducing the posting laws, and the bill of Senator Hilsendegen, stopping the sale of liquor within a mile of rifle ranges.

Leaves of Attorney Dickinson, one of the "dry" leaders, predicts the "passing" of the entire state in 1916.

"I said last week that if Berrien county went dry, state-wide prohibition would be easy," said the lieutenant-governor.

"I have no reason to take that back. I consider Berrien about what the average would be all over the state, and for that reason I was most concerned as to what that county would do.

And the vote in Berrien county goes ready for a state-wide vote; it proves, too, that the people want to vote on state-wide, for the simple reason that more than 500 more votes were cast at the local option election yesterday than were ever cast before.

"Yesterday's results to my mind made the possibility of statewide prohibition much easier. In fact, they made it certain."

While the vote of Monday may have driven some few members of the senate and house to vote for the Straight bill, there is no certainty as to the date of its submission to the people. The Straight bill calls for submission in November of 1916, at the presidential and gubernatorial election: The political organization leaders both the Republican and Democratic parties are against a vote at that time.

Party Leaders Balk.

The "old liners" in both parties look on the statewide question as a two-edged sword, politically. They are aware it is going to slash some party, but they do not know which party is going to get it. They want the referendum at a spring election and amendments to that end will be offered.

Although there will be no general spring election until 1917, good lawyers say there is nothing wrong in the legislature's calling a special election for the spring of 1916. This would have the entire affair over with before the presidential election.

Although there is no indication here as to how the "wets" will fight back, admitting that they have no chance to beat the bill in the legislature, there is a rumor to the effect that they will adopt the same tactics as they did in Ohio last year. By initiating an amendment to the constitution making the entire state "wet," they could have that voted on at a general election in the fall of 1916.

The Straight bill is now upon general orders in the senate and will in all probability be reached tomorrow.

More Than Half "Dry."

Leaving Alger county out of consideration because of the virtual tie between the "wets" and the "drys" there, the latest returns on the local option vote in the other 15 counties where the question was an issue mean that between 292 and 327 saloons will be out of business. Emmet has 16; Mason, 24; Berrien, 67; Kalamazoo, 47; Calhoun, 33; Lapeer, 20; Tuscola, 23; and Oakland, 35. Grand Traverse, which remains "wet," has 23, and Chippewa, which has gone "wet," but over which there may be a contest, has 30. Alger has 15.

More than half of the 83 counties in Michigan are now "dry." Not counting Alger, the "drys" have 43 counties and the "wets" 39, but because the strength of the "drys" lies in the more fertile areas, the prohibition territory contains only a minority of the population, the figures being approximately 1,097,353 under local option and 1,631,400 under license.

TEACHERS EXAMINATION.

Regular teachers examination for all grades of certificates to be held at the court room in this city beginning Thursday morning, April 29th at 8 a. m.

W. T. S. CORNELL, Commissioner.

WHY IT WILL HAVE TO GO.

Moral and Economic Reasons Causing Dry Upland in Michigan.

There are two salient reasons advanced nowadays why the saloon and the liquor business should be outlawed—moral and economic.

Few men need have the hardihood to advance any reasons from a moral viewpoint why the saloon should be permitted to exist. It leaves such a train of evil in its wake that, and baneful results are so apparent that no one possessing reason or good common sense will uphold it from a moral standpoint.

For most of the murders committed; it causes infinite suffering to young men and children, and thousands of women and women are denied a proper start

This is the Best Polish YOU Should Use

Makes a brilliant, glossy polish that is not only safe for the face, but also for the hair. It is the only polish that does not dry out the skin, and it is the only polish that does not contain any harmful ingredients. It is the only polish that is safe for the eyes, and it is the only polish that is safe for the hair. It is the only polish that is safe for the skin, and it is the only polish that is safe for the hair. It is the only polish that is safe for the skin, and it is the only polish that is safe for the hair.

in life and suffer from a life long handicap because of the intemperance of their fathers. The average man who earns his livelihood by manual labor, or by his brain, takes pride in his avocation and gives it his best endeavor. Did you ever run across a saloon keeper that boasted of his avocation?

Employers of labor are a more popular factor in the present tight money situation than any other factor. The compensation laws hedge the average employe, and make it mandatory upon the employer to pay certain compensation when employes are injured or killed while on duty. Therefore the average employe will not keep a drinking man in his employ for any length of time. It is also right and proper for it is a fact that a man that drinks intoxicating liquor, even in very small quantities, is not as efficient as a total abstainer, and cannot do as much work as the sober man. For that reason big employers of labor resent the establishment of saloons in proximity to their manufacturing plants. Men like Henry Ford, who pays millions of dollars annually to the laboring men of Detroit, are compelled to fight the encroachment of the saloon, and who such men become thoroughly aroused and show a willingness to engage in a death struggle with the traffic the defect of booze is a certainty.

The pernicious activity of the saloon in politics and its persistent violation of the law are two causes of its decadence. The people everywhere are resenting its activity in these lines, and the daily occurrence of murder, rapine and crime which are its legitimate fruits are making the observant man think. When nations such as Russia and England decide to banish the traffic because of its deleterious influence upon the soldier, it seems other countries not now at war should adopt the same course. If its abolition spells better and more efficient soldiery, does it not also mean that artisans and business men will also improve their efficiency. There are no living today that will see the day when it will be as hard to secure intoxicating liquor in this good old world of ours, as it is to secure a drink of ice water in the orthodox hotel.

A drunken Indian in police court this week stated that he secured his liquor at a certain westside hotel. It is high time that the government should investigate the selling of liquor to Indians by Manistique liquor dealers. It is a punishable offense to sell liquor to them, but the law is flagrantly disregarded here.

 The Civic league will meet at the Central school building this evening. The aims and objects of the league are very much misunderstood. It is non-political and non-religious in the sense that it invites good citizens of every creed or religious belief to align themselves with it. Its objects are the moral and physical uplift of the city and every good citizen can unhesitatingly enroll himself in such a worthy cause.

**BREVITIES.**  
 Mr. Ray McKesson was in the city a few days this week.

 The junior hop will be held at the Armory on April 23rd, and the Senior hop is scheduled for a week later. owing to the fact that the building has changed hands and will be used for garage purposes the dates were fixed unusually early.  
 Mr. R. H. Teeple desires to thank those that did vote for him and those who did not and is convinced that the right man was elected for the office of justice of the peace. He however regrets the circulation of falsehoods used in the campaign to mislead his defeat.

This plan will be followed until the close of the present school year.

**UPPPER PENINSULA IS WELL TREATED**

Fared Well in the Allotment of the Rivers and Harbors Appropriations.  
 Upper peninsula harbors and waterways fared well in the distributions of the \$50,000,000 appropriation carried by the rivers and harbors bill. "The Homelike Church"

### EASTER SERVICES.

The Easter service Sunday evening at the First Baptist church drew a large audience in spite of the bad weather prevailing. The life of Christ, as presented in song by the large chorus choir elicited strong words of commendation. It was something novel, and was an unusually affective presentation of the story of Christ's life. All present were the better for the service.

The Bible class of Calvary mission recently gave an entertainment which drew a full house. The proceeds of some twenty-five dollars will be used in purchasing pulpit furniture for the mission. The work at the mission was never more encouraged. The prayer meetings Tuesday evenings run from 7:30 to 9:00 p. m.

George Scott was in the city Sunday and Monday.

### MASONS TO CONFER DEGREES.

The M. M. Degree to be Conferred on Six Candidates Next Wednesday.

A special communication of Lakeside lodge, No. 371, F. & A. M., will be held Wednesday afternoon and evening of next week, at which time the Master Mason degree will be conferred on six candidates. Work will commence at 2 o'clock and dinner will be served at 6:30 p. m. Every Mason in the city is cordially invited by the officers to be present at the afternoon session, dinner and evening session.

### TO AUTOMOBILE OWNERS.

Automobile owners are hereby requested to verify themselves with license for 1915 according to the provisions of the state law. J. PETERSON, Chief of Police.

### NEW FARMERS ARE COMING TO SCHOOLCRAFT.

A number of well-to-do farmers from Winchester, Ill., are locating in Schoolcraft county. They are impressed with the fertility of the soil, its cheapness and the good roads that traverse every portion of the county. One man says that he can sell his farm land in Illinois at \$200 per acre, but is looking for cheaper land. He bought a large number of horses, chickens and other livestock with him.

### SUNDAY SCHOOL ELECTS OFFICERS.

The Presbyterian Sunday school elected the following officers last Sunday for the coming year:  
Supt.—Chas. R. Orr.  
Assist. Supt.—C. E. Kelson.  
Secretary and Treasurer—Richard Carr.  
Librarian—Ed. Monroe.  
Organist—Geo. C. Greenway.

### COUNTY MADE GOOD SHOWING.

According to the bulletin for March issued by the Michigan Anti-Tuberculosis Association, there occurred eight deaths as the result of tuberculosis in Manistique during 1914. There were two deaths from the same disease in Schoolcraft county outside of the county seat. In the matter of stamp sales, Schoolcraft county holds the honor of selling more stamps per capita than any county in the state. It sold 21,000 stamps and as its population is 8,681 the sale per capita is 2.41. Kent county was second with a per capita sale of 2.04. Of the \$210 received the local society retained \$140 and the amount given for state work was \$70.00.

Murlock McNeil of Detroit, well-known here, was injured on the streets of Detroit on April 1st, by being struck with an automobile in the congested business district of that city. Dr. Livingston attended him professionally, and he was taken by the doctor to Providence hospital where a dislocation of the left shoulder was reduced. A Manistique man, who leaves the winter camp life in the frozen north, and breaks "jams" on the spring drive is not in as much danger as he is in a city when he catches a city street crossing. Murlock's friends here hope that he will quickly recover from his injuries.

The annual parish meeting of St. Alban's (Episcopal) church will be held Monday evening, April 12th.

### LOCAL OPTION FIGHT TO COME.

The success of the "dry" in two of the three upper peninsula counties last Monday and the loss of Chippewa by only 37 votes makes certain an invasion of the anti-saloon league in the territory above the straits next year, and Schoolcraft county will be included in the list of counties in which the fight shall be made. Delta, Dickinson, Mackinac and Marquette counties are also included in the list.

### BAKE SALE

The Boreas society of the Swedish Lutheran church will hold a bake sale at Gunnarson & Kefauver's store, Friday, April 23.

### REPUBLICANS CARRY CHICAGO.

W. H. Thompson was elected mayor of Chicago by a plurality of 130,000 and a majority of the board of Aldermen is also Republican. Schweitzer, the Democratic candidate, favored a wide open town while Thompson's slogan was "drive out the crooks." About 150,000 women voted and their vote was responsible for the defeat of Schweitzer.

### THE PRESBYTERIAN CHURCH.

10:30 a. m. Owing to the absence of the Pastor who is attending the meeting of Presbytery, there will be no preaching services.  
12 m. S. S. Every member of the church is urged to attend the S. S. 6:30 p. m. The C. E. meeting will be led by Miss Grace Holheim. Will all the young people please attend this service.  
7:30 p. m. No services.  
Prayer meeting always on Thursday evening.

The hour for holding the evening services has now been changed from 6 to 6:30 for the young people's societies, and the hour for the evening services has been changed to 7:30.

The pastor of the Presbyterian church is out of the city attending the meeting of the Presbytery of the Upper Peninsula at Marquette. Hence there will be no preaching on next Sabbath. But the S. S. will be held as usual and the Y. P. S. C. E. meeting will also be held.

The excellent picture service that Manager MacLaurin is furnishing the patrons of the Princess, evidently pays, for that popular place of amusement is thronged to capacity every night.

### FIRST BAPTIST CHURCH.

Rev. F. R. Leach will speak Sunday as follows:  
10 a. m. The Problem of Contentment.  
7:30 p. m. Sleeping in the Church.  
11:15 a. m. Bible School and Men's class.  
7:30 p. m. Calvary Mission.  
6:30 p. m. R. Y. P. U. Mildred Quick leader.  
Tuesday, 7:30 p. m. Prayer meeting at Calvary Mission. Thursday 4 p. m. Junior Society and Boy Scouts. 7:30 p. m. Prayer and Praise meeting for all.  
Don't miss the evening service next Sunday.

12 m. Sunday School.  
7:30 p. m. Evening Prayer.  
Sermon Subjects:  
a. m. Waiting.

A mortgage covering the timber holdings of the Sack Lumber Co. in Schoolcraft, Alger, Mackinac, Delta and Lapeer counties, was received by County Clerk Forshar this week for recording. The mortgage runs to the Continental Trust Co. of Chicago and is for \$250,000. The document has nearly 100 pages and must be recorded in the various counties where the property is located.

The Negaunee Herald closes an extended recent birthday anniversary as follows: "The Pioneer-Tribune is one of the largest and best weekly newspapers in the upper peninsula, and the Iron Herald trusts that there are many years of happiness and prosperity still in store for Mr. Holheim."

County Clerk John N. Forshar was at Escanaba Tuesday.
