VOL. NO. 36, 2,766 NEW SERIES 1,286

MANISTIQUE, MICHIGAN, FRIDAY, MAY 14, 1915.

\$1.50 PER YEAR.

## MEMORIAL DAY ARRANGEMENTS

Committees Chosen and Preliminary Arrangements Perfected for Observance of the Day.

A meeting was held at the Pioneer-Tribune office Monday evening at which time committees were selected to take charge of the forthcoming Memorial day observance.

The meeting was largely attended by representatives of the Civil war veterans, Spanish-American war veterans, Sons of Veterans, W. O. W. and the Manistiquette band.

The following plans were perfected: John Cooper, Henry John and Chas. W. Adams were chosen as marshals, Attorneys V. I. Hixson and J. C. Wood were chosen as speakers.

Dr. Mitchell and Rev. F. K. Mumby will be the chorists.

Floral arrangements will be color bearer. The following committees were appointed:

Music—Arthur Owen, Geo. Hamann and Norman Worth.  
Solicitation—Norman Worth, Robt. Farley and A. Balthaupt.  
Flowers—Henry John, John I. Jennings and Fred Greenwood.

Conveyance—W. H. McMillin, John E. Edelson and Ed. Ashford.  
Program—Mayor Middlebrook, Geo. E. Edelson and H. J. Neville.  
Treasurer—A. S. Putnam.

Invitation—Norman Worth.

The union memorial services will be held at the Presbyterian church Sunday evening, May 23rd, at 7:30 o'clock, at which time the veterans, Spanish-American war veterans, the W. O. W. and S. O. V. will attend in a body. They will meet at the Pioneer-Tribune corner at seven o'clock for the purpose of marching to the church. Rev. Mr. Mumby will preach the sermon.

All fraternal societies, labor unions and organizations, and especially the school children are invited to attend in a body.

The following committees will meet at the Pioneer-Tribune office, next Monday evening at 7:30 o'clock: Committees on music, flowers, finance and solicitation.

## ARRESTED ON CHARGE OF DESERTION

Ray Bayless, an employee of the Manistiquette Co., was taken to Charlevoix county Sunday morning by the sheriff of that county, being charged with desertion.

Mr. Bayless is a valued employee of that company, having been in their employ at East Jordan, Mich., prior to the founding of the company here. It appears that Mrs. Bayless refused to move to Manistiquette, preferring to remain in Charlevoix county, and had her husband arrested because he persisted in working here. If she will become acquainted with Manistiquette she will decide that her husband has acted wisely in selecting this city for a permanent home.

## COMMERCIAL CLUB ELECTS OFFICERS

Mr. Geo. J. Nicholson elected President. Mr. Bruce Odell is Vice President.

The directors of the Commercial club met at the club headquarters Tuesday evening for the purpose of electing the officers for the coming year. The selections made follow:

President—Geo. J. Nicholson.  
Vice President—Bruce Odell.  
Treasurer—A. S. Putnam.  
The office of secretary will be filled at a later date.

Mr. H. J. Neville presided at the meeting and Mr. Culver was acting secretary.

The newly elected officers are bright, energetic business men, and no doubt the good work during the past year will be duplicated by them during the year to come.

**WARNING.**  
Automobile drivers are hereby ordered to keep within the speed limit, and slow up at all street corners, and blow their whistle, as complaint of recent accident has been made that drivers are careless in turning corners.

JOHN PETERSON,  
Chief of Police.

## MIDDLEBROOK'S APPOINTMENTS

Old Officers Given Reappointments. Only One Contest for Preference.

Mayor Middlebrook made his appointments last evening. There was very little interest manifested by the general public as it was conceded that there would be very few if any changes in the list of officials.

There were two aspirants for the city attorneyship, viz: Gottfried Johnson and J. C. Wood. The latter received the appointment. The list follows:

Chief of Police—John Peterson.  
Patrolman—Frank Jaehor, Ole Arneson and Mr. Barry.  
Chief of Fire Dept.—H. P. Wendland.  
Street and Water Commissioner—V. J. Marin.

City Attorney—J. C. Wood.  
The reappointed officers, with the exception of one, have been faithful in the performance of their duties. They have been on the job every day during the past year, and deserved a reappointment.

Mr. Marin is considered one of the most faithful and efficient officials the city has ever had.

He has become one of the most efficient street and water commissioners in the upper peninsula, for he not only knows how to correctly estimate the cost of work, but is able to do the work of an experienced engineer and contractor if he is called upon to do so.

Mr. Peterson is considered one of the most faithful and efficient officials the city has ever had. He has had charge of much construction work during the past year, and the construction of the new gray iron main during the past winter under his direction is a monument to his ability and worth as an official.

Chief of Police Peterson, who has served one year in his present capacity, has made good, and deserved a reappointment. Previous to being elevated to the chiefship, he was night patrolman for seven years. Patrolmen Arneson, Barry and Jaehor also deserved their good fortune.

Chief Wendland of the fire department is also a man that has made

## TWO AUTOMOBILE ACCIDENTS

Narrow Escapes from Death Sunday. Postmaster Carroll Thrown Under Auto.

Two automobile accidents occurred Sunday and narrow escapes from death distinguished both of these.

Postmaster Carroll was driving his car on the west side Sunday morning and when he reached the W. L. Middlebrook corner, he turned from Deer street to Houghton avenue. A car driven by Chas. Gallagher was following the Carroll car closely and when the turn was being made, crashed into it. Carroll's Ford was thrown under the car. Luckily he escaped injury, and his car was not badly injured.

An automobilist from Nahma, while essaying the corner at Lake and Walnut streets Sunday morning, ran into an electric light pole on the corner in question. The impact dislodged the heavy transformer attached to the top of the pole and it struck the front of the machine. Had it struck the occupants of the car, someone would have been killed. The car was badly wrecked.

Mr. Cooper, who was riding in the car, had his face badly cut from the broken windshield.

Mr. James Osterhaut and Miss Leva Gill were married at Newberry Tuesday afternoon. Mr. Osterhaut is a saw filer at the White Marble Lime Co.'s mill and is highly regarded by many friends and acquaintances in this city. The bride is a resident of Garnet where her father is engaged in business. They will make their home in this city.

Mr. Magnus Anderson left for Frankfort on the ferry Thursday morning, to bring his family here. Mr. Anderson is employed in the new drug store of Neville & Nevenaux.

## SCHOOL OF METHODS

Will be Held at Presbyterian Church May 19-23. Rev. Atwood in Charge.

A "school of methods" will be held at the Presbyterian church from May 19 to 23 inclusive, and the school will be in charge of Rev. Atwood of Lansing. Anyone interested in religious education is kindly invited to attend the afternoon and evening sessions.

The afternoon will be devoted to Bible study, Teacher training and departmental work. Each evening there will be a course on Sunday School Pedagogy, followed by a popular address.

The "School of Methods" is held under the auspices of the synod of Michigan; upon invitation of Alma college trustees, and in co-operation with the State Sunday School association, the synod's Women's Home and Foreign Missionary societies, etc. Everyone interested in Sunday School work is cordially invited, irrespective of church affiliations.

Rev. Atwood is dean of the movement, and educational superintendent for the Michigan synod.

## Does It Pay to Paint?

Weigh the cost of painting against the money loss through depreciation. Weigh it against the satisfaction of living in attractive dwellings, against the certain prestige which is given to owners of attractively painted buildings—against the sky-rocketing cost of building materials—against the higher rentals secureable, against the way paint increases real estate values and aid sales.

Weigh the cost of painting against its advantages—put everything in the scales and you will find that it pays—and pays big—to keep your buildings well painted.

**THE HORROR**

**OF THE AGE**

The Devilishness of War Brought to Naive of America by Death of its Citizens in Lusitania Tragedy.

On Thursday afternoon of last week the civilized world was shocked to hear that a German submarine had destroyed the magnificent steamer Lusitania, and had caused a loss of life exceeding 1,300, including 118 Americans.

Prior to the sailing of the ship from New York, advertisements warned passengers not to travel on British ships as there was grave danger owing to the blockade now in effect in waters adjacent to Great Britain. The warning was scoffed at, and passengers were handed to individual passengers as they went on the boat.

However, the unexpected happened. The pride of the sea came to an untimely end about ten miles off the coast of Ireland on the afternoon of Thursday as stated above. The only warning the passengers had that they were in grave danger was when they saw a submarine rise from the depths short distance from the vessel. A torpedo was shot at the boat which entered the engine room of the boat. In an instant later another torpedo tore away the bow of the boat, and it was doomed to swift destruction. The vessel began to list so rapidly that only a portion of the boats were launched.

The first cabin passengers were thoroughly convinced that the boat was unsalvageable that most of them left their lives, preferring to remain with the boat rather than entrust themselves to the small life boats. The vessel sank in about fifteen minutes. Most of the lives were lost when the boat divided as they were caught in the swirling vortex and drowned. Owing to its size everybody within a hundred yards of the vessel sank beneath the waves.

Only 702 of the list of 2,000 passengers and crew were saved.

Included among the list of dead, are Charles Frooman, Charles Klein, Albert Hubbard and wife, and Alfred F. Vanderbilt, prominent and well known Americans.

The loss of American lives makes the situation a grave one, and may involve the United States and Germany to such an extent that war may be declared against the latter country. The Germans contend that the boat in question was an auxiliary war vessel; that it carried reservists and a large quantity of munitions of war; that it was therefore entitled to attack, and as passengers had been warned not to sail on the vessel, their deaths are clear. This is a matter for the state department to settle. However, it is proven that the Germans were justified in sinking the ship, yet it does seem a crime to snuff out the life of more than a thousand non-combatant men, women and children.

This are the horrors of war brought to our immediate attention, and it is again proven that this is not the time to take a European trip. The Germans have sunk more than 150 ships since they announced their blockade of English ports, and more than 5,000 lives have been lost. Thirty-three vessels have been sunk since May 1st.

**ALMOST AN ENDLESS CHAIN.**

One of the results of the operations of a real estate man is shown by the removals that will take place within the next two weeks. A single house, No. 128 North Houghton Avenue, was recently vacated by Al Shasta, who moved to his farm, Leonard Parker purchasing the house, moves from No. 119 North Houghton Avenue to Joseph Daust moves from No. 145 North Houghton Avenue to the house vacated by Parker, Joseph Daust moves to the house vacated by Martin Johnson moves from the Werve house on North Cedar Street to the house vacated by Forshar on Weston Ave. George Harshman has purchased the Werve property and will move to the house No. 220 23d St. No. 229 23d St. will be occupied by Mrs. Florida who moves from No. 171 Maple Ave. The removal will leave No. 171 Maple Ave. free for the rental of the White Marble Lime Co., who have purchased the same.

The above illustrates one of the chains of moving operations only and there are several of these which show the number of people now purchasing and will hereafter reside in their own homes. This means a bigger and better city as everyone knows the results when a person owns his own home. Improvements will always take place to the betterment of the home.

**BIDS FOR CONSTRUCTING CONCRETE DAM.**

Sealed bids will be received up to 3 o'clock p. m. Monday, May 24th, 1915, by the City of Manistique, Michigan, at the office of the City Clerk, City Hall, Manistique, for furnishing certain material and constructing a concrete dam and sluiceway, screening Chamber and other structures for the new Gravity water supply for the City of Manistique.

Plans and specifications may be secured at the office of Alford and Burdick, 1417 Hartford Building, Chicago, or at the office of the City Clerk, Manistique.

**FAVORABLY IMPRESSED GLADSTONIANS**

The W. O. W. band gave a concert and dance at Rapid River last Saturday evening, which was largely attended. The boys spent Sunday at Gladstone, where they gave street concerts during the day. The band made such a favorable impression upon the Gladstonians that it was hurriedly urged to make a return visit. The band has been strengthened by new additions, and is now twenty-two strong.

**SECTION MEN ON STRIKE**

Soo Line section hands have struck for higher wages. The men have been receiving \$1.60 per day and want an increase of ten per cent. They also want the return of their schedule cards which will permit them free passage aboard passenger trains while on duty. This is the biggest ever decided by organized labor on the Soo Line as the strike affects every section man on the system.

The ladies comprising the Iron River graduating class are about the most sensible we have heard of lately. They have fixed the maximum cost of safety to those aboard. Another says: "It's not only \$1.00 and every girl is expected to have a merchant ship on the open sea make her own dress."

**MISTAKES ARE COSTLY**

Legislature to Reconvene to Correct Error Made in Date Appearing in Bill.

Members of the Michigan legislature are being asked by the governor to return to Lansing May 19. If a majority of both houses does not return, the state highway department will be without funds for repairs and state road work this summer and all plans of Highway Commissioner Rogers will fail for want of money.

**Auditor-General Finds Error.**

Auditor-General O. B. Fuller found today that in the bill Senator James C. Wood introduced for a \$350,000 appropriation for this year for the highway department, the year "1916" was written instead of "1915." Therefore no tax could be spread upon the bills for this year.

Under ordinary circumstances the money could be taken from the general fund and carried over, but indications now are that the general fund will not be able to stand the strain.

Soon after Fuller discovered the blunder there was a conference. Attorney-General Fellows suggested that by sending a note to each member the governor might get a majority on final adjournment day present. Tonight the letters are going out. They read in part:

"It is provided that the auditor-general shall incorporate in the state tax for the year 1916 the sum of \$350,000 and for 1917, \$500,000. These years should have read 1915 and 1916. The appropriation will fail for want of funds unless the mistake is corrected."

"I most respectfully urge you to return May 18, at 2 o'clock, that this mistake may be corrected."

**Governor's Vetoout in Danger.**

If a majority of both houses is present it will take but a few minutes to amend the law.

There is danger also for the governor in urging the legislators to return. If the two thirds come back there is a chance that some of the vetoes which he will undoubtedly make will be over-ridden. While the order may work to the disadvantage of the chief executive, he wants the road work to go ahead.

The members of the legislature will get no pay for their return, having received their stipends the day before they left. They will even have to pay their own traveling expenses. It is believed here that a sufficient number will come back to fix the Wood bill.

City Clerk.

OFFICIAL COUNTY AND CITY PAPER

FRIDAY, MAY 14, 1915.

### EDITORIAL COMMENT.

Detroit is yet at the top of the heap. 'Tis had the basal human does not close this week.

A man was growling about the town the other day. He said it is a dead one. Right he is—as far as he is concerned. Growlers can't find it lively anywhere. Manistique got along fairly well before he came and now he leaves it will continue to be the best little city of its size in the state.

One thing has been demonstrated and that is that the liquor business dominates Great Britain. The officials concede that the sale of liquor should be discontinued during the present war, and cite reasons therefor. The liquor interests are so powerful that they have been able to thwart the will of the government.

The citizens generally heeded Mayor Middlebrook's proclamation, and cleaned up their premises. The city team was busy four days in hauling debris to the dumping grounds east of the city. As a result, Manistique looks very neat at this time. The street force has also cleaned up the streets of its accumulated debris.

Elbert Hubbard, the noted editor and lecturer, lost his life when the Lusitania sank. He was one of America's best known public men, and while many did not endorse all that he said and did, yet it must be conceded that he was an able writer and speaker. He was the founder of the Roycrofters at East Aurora, N. Y., and published The Philistine.

Sometimes a newspaper makes a typographical error, and is criticised for so doing. However, errors of that nature are not as expensive as typographical errors made in the drafting of a bill by the legislature. The members of the legislature have been asked to re-convene by the governor for the purpose of changing a date from 1916 to 1916. The members of the senate and house must bear their own expenses, including carfare.

Editor Baldwin really has experienced "a change of heart." Recently he said:

"The Republican party made a bad mistake two years ago in becoming split. Let's not waste any time, however, holding post mortems. Let's get together for the fight. We want to see a Republican elected president in 1916, even if it should be Uncle Joe Cannon himself."

Now he says that Theodore Roosevelt should be elected president, and as the Chief Bull Moose has shown but little desire to climb under the Republican tent, it looks as though our friend Baldwin was not as enthusiastic a Republican now as he was two weeks ago.

It has been demonstrated that the Germans usually do what they say they will do. The public was warned that the Lusitania was to be torpedoed. Advertisements were placed in the New York newspapers, and every passenger of the boat before leaving New York was given a letter repudiating the threat. It certainly is regrettable that innocent persons should suffer and lose their lives in such a manner. The sinking of the vessel in question has startled the civilized world, and accentuates the fact that war is all that Shevran said of it. It also demonstrates the fact that submarines are an efficient and reliable factor in war. May the time speedily come when human life and property shall be safe on every ocean, and when swords shall be modeled into pruning hooks.

Every patriotic American citizen should uphold the arms of President Wilson, in this, the most critical period, as far as America is concerned, since the European war has commenced. It is believed that the president and his cabinet will do the right thing at the right time, and when they announce the decision in the Lusitania matter, they should have the undivided support of every American citizen. The United States has an opportunity of going to war with an hitherto friendly nation, because more than a hundred American citizens lost their lives as the result of the sinking of the vessel in question. Whether the United States will or will not engage in such a way is up to the president and his advisors. Loyalty to country is the duty of every American citizen, and whatever the president shall decide to do, should be endorsed by every one irrespective of political faith.

Columbia, Missouri conducts a "Journalism Week," annually which is attended by many editors and noted speakers are invited to address the school. Ex-Governor Chase S. Osborn was one of the speakers last week, and his subject was "The Journalism that Serves." The editor of Collier's Weekly preceded him, and Mr. Osborn vigorously answered him, and the Daily Tribune of that city given Osborn the credit for verbally trouncing the New Yorker. Editorially, the Tribune says:

"The applause that greeted Governor Osborn's defense of the newspapers last night shows that his audience believed him fundamentally right. If the audience could be extended to include the nation the response would be as prompt. Some newspapers are false to the truth, but they are few. Nearly every newspaper realizes that the newspaper business is a public service business. The newspapers, as a whole, are far better than they were ten years ago or five years ago. They are striving to get better results for their communities. They are bringing about material improvements. One newspaper agitator for a month ago and another for a month before that, before which the papers were true to the trust, and the former governor of Michigan was right last night."

### EDITORIAL COMMENT.

The idealist stuff that they are selling at Escanaba is more effective than the beer manufactured at Menominee. Escanaba had thirty criminal cases on its docket recently while Menominee County had two.

The average teacher has but little use for the teachers' pension bill recently passed by the legislature. No state aid is given, and teachers desiring to avail themselves of the pension are compelled to pay their money into the fund, and only receive what they pay in.

Ex-President Roosevelt in a blatant manner "rocks the boat" by giving public utterance as to what course the country should take in this critical hour. Ex-President Taft is keeping discreetly silent, and is awaiting the decision of President Wilson. It is a good thing for the United States that Roosevelt is not at the head of the government at this time. The final decision of the present president should be upheld by every American citizen. Vice President Marshall evidently had no objection to Roosevelt and his associates being in a position of selling goods to a commissary. I trust the president, and not until he says I will speak in favor of war."

Must Eat "Greens."

The St. Ignace Enterprise states that liver is selling at twenty-five cents a pound in that city. The increase in price was evidently caused by the abnormal demand in that Democratic city. With liver at that price, one can imagine the "Saints" feasting on dandelion and smoked chubs.

Wait Until They Have a Chance.

Wrong is wrong, and so amount of theorizing, or twisting of language can ever make it otherwise. The one useful thing when a wrong is recognized, is to get rid of it as quickly as possible and replace it with what is right.—St. Ignace Enterprise.

The American people are realizing that they were unkind when Wilson was elected president, and the wrong will be righted in 1916.

A Little Humor.

There must be a good deal of humor in the activities of the state legislature at Lansing if one had the time to listen to it. In the discussion over the proposal to give the railroads some relief from the two cent passenger rate, Mr. Wiley, one of the upper peninsula leaders in the fight against the railroads used this argument:

"The situation is something like this: a child is sick. We do not know what the matter is. 'We send for the doctor to find out, but before the doctor comes we give it a dose of medicine not knowing what the disease is.'"

And then, a little further along Mr. Martin arose and said:

"In carrying Mr. Wiley's argument a little further, what would you think if a doctor were called to see a very sick child and said 'I will give you any medicine you but will investigate and give him some medicine in 1917?'"—Houghton Gazette.

Honor the Heroic Living and Dead.

From present indications, Memorial day will be observed on Sunday, May 30. It is hoped and expected that on the day in question every citizen shall participate in the parade, and that every scholar in the public schools shall also be in line. The idea of having the children participate in the Memorial day exercises is a good one, and one which should be given the most careful consideration when they will be pleased to tell their posterity that in 1915 they escorted a few survivors of the war of the rebellion, to the cemetery, and assisted in decorating the graves of their fallen brethren. We who have had the pleasure of seeing veterans of the war of 1812 march to the cemetery with the young veterans of the Civil war, will never forget the veneration that filled our childish hearts as they were pointed out to us. The time is not far distant when Memorial days will be held and there will be no survivors of the Civil war to take the place of honor in the parade. We who were born fifty or more years ago can well remember the long line of robust manhood wearing the blue of the army and marching with quick and firm step to the city cemeteries in the long ago to pay homage to their fallen brethren. The lines as at present constituted consist of a very few heavy-headed veterans, halt and lame, and staggering under the infirmities of old age. Here, in Manistique, the line has grown patriotically short, for during the past few years many veterans have gone to the home from which no traveler returns.

Therefore honor the few remaining veterans by participating in the march on the day in question. Show them by your presence that you honor them for what they have done. You will be a better citizen for having done so, and the veterans will appreciate your attendance to a greater extent than they will the flowers that loving hands shall place on their graves a very few years hence.

Has Not Experienced Change of Heart.

Editor Baldwin of the Escanaba Journal, has not experienced the change of political heart that one was led to believe by his previous utterances. The Pioneer-Tribune felicitated him upon his change of heart, and as a result was informed in the last issue of his newspaper that he stands where he did two years ago, and that Roosevelt is his choice for president. Baldwin and his like are responsible for this country having a Democratic president, and it looks as though the Republican party would be taking a long backward step should it place the party wreckers in control. The Pioneer-Tribune would rather send a Democratic president in charge of governmental affairs for an indefinite period than to be a party to the elevation of a traitor.

Editor Guck of the Houghton Gazette, evidently had Bro. Baldwin in mind when he penned the following editorial:

"Kind of interesting to read all the bull moose newspapers that now are back in the republican fold, again insisting that there has been no change of principles with them, simply they made the republican bosses want a lesser man, that the lesson is learned they are coming back to run the party again. Sounds rather strange too, that these same chaps who are really responsible for the fact that we now have a minority president in the person of Professor Wilson should be so sure that they are going to change over from republican party wreckers to republican party members. The very idea of a party man controlling which they concern they insist on continuing, and they personally wish to take charge of the important positions, too. The more you see of politics and the chaps who talk so much about principles and think so much about it, the better you think of the"

### UP TO THE BANKERS

The Upper Peninsula need development.

To be sure it is copper and iron mines, its lumber camps and its cities have been developed with about the same speed and results as those in other parts of the nation. To be sure, as people have grown wealthy in some of our business lines, they have lost their poverty here than in most other places, but just the same it needs development.

In many places Chiverland is far behind the times. Most important among these is agriculture—that part of our country's business which needs development more than any other. It is no easy task to make Chiverland an agricultural region. The people are not farmers and the soil has never been tilled with the same degree of intensity as that in other sections.

But these deficiencies can be corrected. The soil is here. It is fertile and needs only cultivation to make it rank with the best in productivity. Nature has provided us with that as well as proximity to markets. Thus our cultivation has to be neglected.

But how will we get there?

The Upper Peninsula Development Bureau has been striving for several years to interest real farmers in the opportunities here. The bureau has done well. It has induced thousands of farmers to open up this vast tract of fertile land to agriculture.

But the bureau cannot do it all. Neither can it accomplish its ends fast enough owing to a lack of county co-operation. Therefore help is needed. In securing this help the finer points must be met by the men, to the men who have money to invest and to the men who will be able to induce farmers to come here.

The bankers at one stand out foremost. They are the men who must come to the aid of the bureau and assist in the mighty work which that organization has so well begun.

The Upper Peninsula bankers have an opportunity to do something for the people who do business with them this year. They have an opportunity to advertise the country in which they live with but very little expense but with considerable work. That method is just this:

Get together and send a big delegation to the Michigan Bankers association meeting in Grand Rapids in July. A delegation does not mean one or two or even six. It means a score or more. Then boost for the next convention being held in Cleveland. Do everything to create an interest in the Upper Peninsula and sooner or later the result will be attained.

If these bankers in southern Michigan once see Cleveland it is safe to assert that they will be interested and that some of their money now going to develop the coast and Minnesota will stay here in Michigan.

What a glorious thing it would be for the Upper Peninsula if the money men of Michigan—the bankers—would take up the idea recently originated by Col. C. W. Mott, manager of the Upper Peninsula Development Bureau, and come to Cleveland and take the trip as Col. Mott has outlined it. This is the idea:

Have the bankers rendezvous at Detroit and go to the Soo on the boat, holding their meeting on the way, so that when they arrive in the Soo there would be nothing on hand to attend to but the trip of investigation.

At the Soo a sufficient number of sleeping and dining cars could easily be provided, and then proceed to "loop-the-loop" by going to Marquette and spend a half day, spend a half day at Ishpeming and Negaunee, where a thorough investigation of the iron and agricultural interests could be made. Then spending a day at Houghton and Calumet, where the copper interests are located, and from there a beautiful drive can be made. Through Keweenaw County, which is quite historical and embellished with a great deal of scenery; then leave for the Copper Country that night, and arrive the next morning at Ironwood, spending that day at Ironwood, Iron River and Iron Mountain, and it would be easy to arrange for an auto trip in each town, and possibly lunches and banquets at the meal hours, which the citizens would gladly furnish, and which would be much welcomed to; go that night to Menominee and spend the forenoon there, arriving in Escanaba in the afternoon; leaving there the next morning and making a stop at Manistique; leave Manistique the next morning and arrive in St. Ignace in the afternoon, and from there take the boat to Detroit, or if the members desired they could take the train right through to Detroit.

What a thing it would be for Cleveland if the bankers here put their interest and money into the project just outlined for a while and just boosted for the country in which they are making their money. What an opportunity lies before them!—Menominee Herald-Examiner.

### THE LUCKY TEACHER

A school teacher is a person who teaches the young when they are young. The teacher comes to school at 8:30 o'clock, and when she has gotten enough children for a mess in her room she teaches them reading, writing, geography, grammar, arithmetic, music, drawing, cooking, book-keeping, crocheting, deep breathing, bird calls, scientific eating, patriotism, plain and fancy lathing, forestry, plants and other sciences so numerous in mention. When school is out she stays behind with five or six of her worst scholars and tries to save the souls of the reforming them later on. After that she hurries home to make herself a new dress and snatch a hasty supper before going back, to attend a lecture by an imported specialist on the history of tribal law in Patagonia, which the superintendent thinks may give her some information which may be useful in her school work some day. A great many lecturers roam the country preying on school teachers, and some of them are very cruel, talking to them so long that the poor things have to sit up all night mourning when they get to get their test papers corrected. School teachers' salaries range from \$30 a month up—but not far enough up to make them dizzy. On her salary the teacher must dress nicely, buy herself things for her work which the city is too poor to get, go to twenty-nine lectures and concerts a year, buy helpful books on pedagogy, pay her way to district, county and state institutes, and enjoy herself during a three months' vacation which her salary does not cover. In addition, the teacher is supposed to have to buy some sums of money, so that when she becomes too nervous and cross to teach, at the age of fifty or thereabouts, she can retire and live happily ever after on her income.—Philadelphia Bulletin.

KNOW HOW TO PREPARE LAND.

A trip through the farming sections of the county at this time will convince the most skeptical that Schoolcraft county has land the equal of any to be found in any state of the Union, also that it possesses farmers that thoroughly understand how to prepare the soil for the planting of crops. Field work along the "Marblehead road" is as smooth and finely pulverized as though the farmer had finished the job of preparation with a garden rake. Frank Cookson may devote more time to lumbering than to farming, but he has a field so thoroughly prepared for crops, that it could serve as a criterion for any farmer in the United States. He, the men in his employ certainly know how to farm.

IT makes everybody feel good to know that a little of the Real Tobacco Chew gives a lot more satisfaction than a mouthful of the old big chew sort. There you have the reason why men like to tell each other about the Real Tobacco Chew.

A little chew of pure, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!  
W-B CUT IS LONG SHRED. RIGHT CUT IS SHORT SHRED!

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

Notice how the salt brings out the rich tobacco taste.

# HOW A DEEP SEATED COUGH

And Sore Lungs Were Overcome by Vinol—Mr. Hillman's Statement of Facts Follows:

Camden, N. J.—"I had a deep seated cough, a run-down system and my lungs were sorely weak and sore. I was an electrician by occupation and my cough kept me awake nights so I thought at times I would have to give up. I tried everything every night suggested and had taken so much medicine I was disgusted. One evening I read about Vinol and decided to give it a trial. Soon I noticed an improvement. I kept on taking it until I am a well man. The cough is all gone from my lungs, I do not have any cough and my gained fifteen pounds in weight and am telling my friends that Vinol did it."—FRANK HILLMAN, Camden, N. J.

It is the curative, tissue-building, influenza-cold's livering and blood-purifying strength created by the proprietary compound contained in Vinol that made it so successful in Mr. Hillman's case. The following communications were received and read:  
May 1, 1915.  
Board of Supervisors, Manistiquette, Mich.  
Gentlemen:

Some two years ago, I recommended Mr. Alexander Davidson for appointment as assistant probation officer of this circuit, his work to be confined to Schoharcraft County. Upon my recommendation he was appointed by the Governor and has since then acted in that capacity. The statute provides that his compensation shall be set by your Board and I wish to recommend that some provision be made by you for his services.

I am heartily in favor of the use of the probation law wherever proper and the success of that plan depends largely upon the interest which the probation officer takes in those placed in his charge. Investigations are also made by him in advance of sentence to determine whether imprisonment or probation shall be ordered.

I have but little occasion in this county, as yet, to use the probation law, but have put one respondent in the State Prison for a year, while the system whereby you propose to use it. I understand that Mr. Davidson also is in an official capacity for the other courts and it would seem to me advisable to provide a reasonable compensation in the way of a stated salary to honor his work. While I plan I have recommended in Chippewa County and was adopted by the Board. Under this plan the various courts feel entirely at liberty to call upon the probation officer for such investigations, either before or after pronouncing sentence in this office. While I have not felt at liberty in any county to recommend a specific amount as salary, I would recommend that some provision, which may seem to you reasonable be made for his services in this office.

Trusting the matter may meet with your consideration and approval, I am, Yours truly,  
L. E. Feal.  
The Board of Supervisors, Schoharcraft County.

Gentlemen—  
Enclosed you will find a letter to the Honorable Judge L. H. Feal, of this Judicial District, relative to the office of Probation Officers.

I was appointed to this office on Nov. 26th, 1913. In Governor Woodruff's N. Ferris. I have had cause to consider the office of Probation Officer. During the present year have had cases from the State Reformatory at Ionia and Lansing and may have more cases from Ionia at any time. Also those from our own County.

I do not think it would be asking too much of your honorable body, to ask that I might receive a stated salary of \$40.00 per month from April 1st, 1915 for this service.

Respectfully yours,  
May 6th, 1915.  
It was moved by Thomas County, supported by Fred. Miller and carried by a unanimous vote that Alex. Davidson be allowed \$40.00 per month for his services as probation officer.

It was moved by W. G. Stephens and supported by Fred. Miller that \$500 be appropriated to the Agricultural Society for the erection of a Poultry Building and Grand Stand on the County Fair Grounds. It was carried by a unanimous vote that the Board adjourn until tomorrow at 10 o'clock A. M.

submitted to the electors of said County at the general election held in said County on the Fifth day of April, A. D. 1915.

And Whereas it appears from the certificate of the Election Inspectors of the several townships and wards in said County and by the certificate of said Board of County Canvassers, that the whole number of votes given for and against said proposition was Three Hundred and Fifty-eight (358) and that the number of votes in favor of said question was Seven Hundred and Seventy-eight (778) and the number of votes against said question was Five Hundred and Eighty (580).

It is therefore hereby determined that the said question was carried. The following resolution was offered and supported by Milton Williams and carried by a unanimous vote.

Resolved, That the Board of Supervisors do hereby certify that the said question was carried.

The following resolution was offered and supported by Milton Williams and carried by a unanimous vote.

Resolved, That the Board of Supervisors do hereby certify that the said question was carried.

Yes: W. L. Middlebrook, Axel Olson, W. G. Stephens, J. W. Scott, Nels Klugstad, Milton Williams, Nels Klugstad, Thomas County, Aug. C. Miller, Norman Stauffer, C. W. Baggett and Albert Bjorkquist.  
Nays: None.

Whereas, the Board of Supervisors of the County of Schoharcraft by a majority vote of all the members thereof resolved to contract for the indebtedness and issue bonds to the amount of Seventy-five Thousand Dollars for the construction and maintenance of County Roads, and that such question to be submitted to a vote of the electors of said County at the general election held in said County on the Fifth day of April, A. D. 1915.

And Whereas, a majority of the electors voting on such resolution voted in favor thereof.

Therefore, Be It Resolved, That there shall be issued bonds of the County of Schoharcraft consisting of One Hundred and Fifty bonds (150) of Five Hundred Dollars (\$500) each aggregating Seventy-five Thousand Dollars (\$75,000) to be dated April 15, 1915 and to become due and payable Two Thousand Five Hundred Dollars (\$2,500) on the Fifteenth day of April in each year from 1916 to 1925, both inclusive, and Ten Thousand Dollars (\$10,000) on the Fifteenth day of April in each year thereafter from the year 1926 to 1930, both inclusive, with interest from and after their date at the rate of five per centum per annum, payable semi-annually on the Fifteenth day of October in each year, and to be evidenced by coupons attached to each bond. Both principal and interest to be payable at the office of the County Treasurer in the City of Manistiquette, Michigan, or at the office of the Commercial National Bank of Chicago, Illinois, at the option of the holder. Said bonds shall be designated "County Road Bonds" and shall be numbered from one (1) to one-hundred and fifty (150) in the order of their issue.

Be It Further Resolved, That said bonds and coupons shall be in substantially the following forms, to-wit: UNITED STATES OF AMERICA. STATE OF MICHIGAN. COUNTY OF SCHOHARCRIFT. COUNTY ROAD BONDS.

Know all men by these presents, that the County of Schoharcraft, in the State of Michigan, acknowledges itself to owe, and for value received, hereby promises to pay to bearer, the sum of Fifty Dollars (\$50.00) on the Fifteenth day of April, A. D. 19... together with interest on said sum from the date hereof until paid at the rate of five (5) per centum per annum, payable semi-annually, on the Fifteenth day of October in each year, upon presentation and surrender of the interest coupons hereto attached as they severally become due. Both principal and interest payable in lawful money of the United States of America at the office of the County Treasurer in the City of Manistiquette, Michigan, or at the Continental and Commercial National Bank of Chicago, Illinois, at the option of the holder.

For the prompt payment of this bond, with interest as aforesaid, the undersigned do hereby pledge and warrant that they shall credit all resources of said County are hereby irrevocably pledged.

This bond is one of a series of like form, except as to maturity, issued for the purpose of paying bonds for the construction and maintenance of a system of County Roads in said County, authorized at an election duly called and held in said County and at which more than a majority of the qualified electors of the County were present and voting on said proposition, voted in favor thereof, and in accordance with the provisions of a resolution duly passed by the Board of Supervisors of said County, and in all respects in full compliance with the laws of the State of Michigan.

And it is hereby certified and recited that all acts, conditions and things required by the laws and the constitution of the State of Michigan to be done precedent to and in the issuing of this bond have been properly done, happened and been performed in regular and due form and time as required by law; that the total indebtedness of said County, including this bond, does not exceed any constitutional or statutory limitation, and that provision has been made for the collection of a direct annual tax, in addition to all other taxes, on all the taxable property in said County sufficient to pay the interest hereon as the same accrues, and to liquidate the principal hereof as it matures.

In Testimony Whereof, the said County of Schoharcraft, by its Board of Supervisors, has caused this bond to be signed by the Chairman of the Board of Supervisors and countersigned by the County Clerk. (Form of Bonds.) \$12.50

Britain's Great Enemy, Herself.

Great Britain's most threatening danger today comes from within herself, not from the attacks of the German submarines or Zeppelin airships or long range guns. There are indications in recent dispatches from London of a serious lack of united patriotic and self-sacrificing sentiment among the men of the nation. Sir John Jellicoe says in essence that the efficiency of the navy, Britain's chief reliance, is threatened because workers in the shipyards care more about high wages and intoxicating liquors than they do about the safety of the country. He declares, that repair work proceeds with dangerous slowness and that sometimes when it is finished it is found to be carelessly done and useless. His plea is for temperance and industry, for the sake of the nation.

The labor leaders, instead of receiving Sir John Jellicoe's outbreak sympathetically or even patiently, exact themselves in recrimination because, as they say, Sir John has lifted the sober British workmen, and they threaten a strike unless there is better treatment in the future. The country and the war can go hanging while domestic squabbles are prosecuted.

No nation, however strong or well prepared for war, can suffer much of this sort of internal disease and survive a desperate conflict. The old saying, "United we stand; divided we fall" is a bromide, but it expresses an axiomatic truth so far as existence and prosperity are concerned.

One of the great sources of the German strength, as shown in the wonderful preparedness of the country for the task in which it is engaged, is the unity of sentiment among the people, their willingness to make sacrifices, their abhorrence to the ruling powers. The same unity is manifested in France. In Germany there is at least no evidence of wrangling, and even the Austro-Hungarian empire exhibits no such spectacle as the one furnished by the British Isles.

It is difficult to conceive that either Germany or France can be utterly and finally crushed in the present war as long as their people are united and devoted; but can Great Britain be certain of similar immunity from destruction if its people persist in their present blind, disaster-inviting course?—Detroit Free Press.

faith in ultimate German success, which reflects anything but weakness or demoralization.

Analysis of the basis for this German faith, Senator Beveridge pursues a number of convincing and prophetic reasons. First of all he emphasizes the incalculable advantage to Germany that comes because the war is being fought on the soil of hostile countries. As a result as he points out—the country occupied by the German army furnishes much of the provisions consumed by the army and therefore what would otherwise be a heavy drain upon Germany's natural resources is pre-empted. In the second place, Beveridge leads Germany to be still industrially superior—one of the few countries in Europe which has not yet found it necessary to declare a moratorium. The gold stock in the imperial bank amounted to \$1,370,000,000 on Jan. 1, 1915, as compared with but \$1,250,000,000 on Jan. 21, 1914. In the third place Beveridge says that men should not be able to get more than five million men in the field until 1921, and with it, at least, her resources. He finds that in case of necessity 11,500,000 men could be put on the frontiers almost in the twinkling of an eye. In the fourth place, he declares that German science is meeting the needs for ammunition in a manner which precludes possibility of famine in this deadly direction. These scientists are even reclaiming nitrate from the air. In the fifth place, he declares that Germany can never be starved. The German has used applied science in agriculture as well as in manufacturing. For example, the production of wheat was 54 per cent. more per acre in 1908-12 than in 1886-90, and much greater than that of any other country on the globe.

There has unquestionably developed an opinion on the side of the water that the forces of nature plus the preponderant strength and resources of the enemy will ultimately defeat Germany; that the end is only a matter of time. The Beveridge analysis squarely changes this opinion and leaves little room for doubt, that so far as ability to fight is concerned, the German is equal in every respect to the combined onslaught of his enemies.—Grand Rapids Herald.

Every housewife who makes her own bread knows that if a little potato is added to the sponge, the bread will not dry out so quickly. In this recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K C will be found to have distinct advantages over any other Baking Powder for doughnuts. K C is a fine, light, baking powder with which a large batch of doughnuts may be mixed and fried a few at a time. The last will be as light and nice as the first.

K C Potato Doughnuts  
3 cups flour; 2 eggs; 1 cup sugar; 1 level teaspoonful salt; 1/2 level teaspoonful soda; 1/2 level teaspoonful yeast; 1/2 level teaspoonful molasses; 1 cup cold mashed potato; 1 cup milk, or more if needed.

Sift three times, the flour, salt, and soda together. Beat eggs with rotary beater, then stir in rotary beater, then add sugar, then work in the mashed potato with fingers and fry in deep fat. Make a soft dough, roll out in a sheet, cut into rounds, slip a hole in the center with a finger and fry in deep fat. Fry until cooked. This recipe is excellent they do not take the fat and will stay moist for days.

### A BIG CHANGE ALREADY APPARENT

Individual Property Owners Commencing to Improve Newly Acquired Residence Property.

If you traverse the various residence streets of the city at the present time you will be impressed with the vast amount of improvements inaugurated by individual property owners. Practically all of the many persons that have recently acquired property, are engaged in improving same. Here and there you will see homes on stilts preparatory to having stone foundations and cellars placed thereunder. Yards are being graded and trees planted, and many things are in evidence to prove that individual property owning is preferable to the company owned, when it comes to improving the appearance of the city.

A man that owns his own property takes a pardonable pride in keeping

his premises in good condition. A renter, on the other hand, does not feel like devoting much time or money in improving his transient quarters for his stay may be limited, and others shall reap the benefit of his labors.

Then, too, the plan of having the city teams gather the garbage helped immeasurably in ridding the city of the accumulated garbage. Sometimes one will hesitate to pay a dollar or more to have his rubbish removed, but if he knows that it will be carted away free of charge, he will take the time to gather the garbage together.

Another thing that will impress you is the number of town gardens apparent in every portion of the city. Practically every portion octoan nbside of the river has a large garden in the rear yard, and the preparation of the ground shows care and a thorough knowledge of that sort of work.

No one will ever regret that Manistique is becoming the city of homes. That it will rapidly increase in beauty is apparent on all hands, for a lit-

tle time spent in caring for the lawn, planting of trees and shrubs, and the expenditure of a little paint, will soon wonders.

### THE GOOD

#### WILL FARM

Upper Peninsula Institution Doing Much for Homeless Children.

Mattie Rice, representative of the Good Will Farm at Houghton, has been in the city this week in the interest of that excellent institution. During her stay she received many contributions, including two pigs from a farmer. She took a child to that institution from this city, and reports that the institution has a number of boys and girls which it is desirous of placing with good families. She also reports that a boy twelve years of age, now located on a farm can be adopted by proper parties. The boy is anxious to live on a farm, and those interested can secure desired information by writing the institution.

Mrs. Rice is desirous that anyone desiring to place children in the care of the institution should feel free to write its management.

The institution now has thirty-seven children and the management is improving the building this spring by the addition of porches and enlarged fire escapes.

The upper peninsula should be vitally interested in the material welfare of the institution. It has done much good in the past in caring for the unfortunate children of this section of the state, and every citizen of the peninsula should feel it his duty to subscribe liberally for its maintenance.
