MANISTIQUE IN THE MOVIES

Moving Pictures of Manufactur-ing Establishments, Streets and Points of Near-by Interest to be Taken.

Director A. N. Dietze of the No Director A. N. Dictze of the Newman-Dictze combination, is in the city, perfecting preliminary arrangements for taking motion pictures of Manistique, and near-ly points of interest, and the manufacturing establishments, run of the fire department, etc., which will be exhibited at the Princess Theatre as soon as completed. Mr. Nowman, the photographer of the company, will arrive in the city next week, and will take from 150 to 2000 fect of film. After the film is shown at the Princess theatre, it will be sent in the Princess theatre, it will be sent fect of film. After the film is shown at the Princess theatre, it will be sent to the various eities of the upper peninsula and will be shown for the purpose of boosting the city for the forthcoming firemens' tournament. Mr. Machauria, who is president of the local committee in charge of the

arrangements for the forthcoming tournament, is sparing no pains or expense to place Manistipue in the proper light, and to insure a big at-tendance.

When every industry of Manistique is placed in picture form, even-local residents will be amazed at their

reasons will be a mazed at their rangitude.

Messrs. Newman and Dietze are first class men in their line of endeavor, and the pictures will, without doubt, be more than satisfactory. They should have the hearty cooperation of the citizens, for the films will not only be a great advantise.

The students of the local high school will exceed 250 next autumn, hadring from the numbers that shall bass from the grades into the high school next autumn, This means that students of the lower grades now accommodated in the building, will have to be moved elsewhere, and it will sorely tax the capacity of the other ward schools to care for them, and it may be found necessary to rent apartments to accommodate them all. Supt. Clemo and the board of education have a lancity problem to solve and they are convinced that something should be done and done quickly to furnish room for the school children of Manistique.

children of Manistique.

The only way whereby the congestion can be combatted is by the crection of a new high school build erection of a new high school build-ing. For years it has been apparent that Manistique has needed a new high school building. The old frame building, which by the way was never a thing of beauty or conveniently ar-raged, was rebuilt and remodelled, when it should have been torn down and supplanted by a modern structur The time has now been reached, whe

ll no longer can accomodate the pupils, and no one in the city would have
the hardihood to opine that another
addition should be added to it. It
must be supplanted by a new building, and the only way in which it ean
be crected is by voting a bond issue
sufficiently large to build a modern
building.
A series of long term bonds could
be floated, so that the children at present in the high school, who will
in a few years supplant the present
business men, will assist in paying
for the improvement in queetion.
Manistique is just awakening to the
fact that it is permanently anchered,
The hectic feeling of instability has
been throttled for all time to come.
It was the custom in years past to
teach to patch-work rather than in
permanent improvements, "because
the death of the lumber industry
yould sound the denthinell of Manisique." There is not a citizen of Mansicique but that believes in the future
of the city, and practically all of them of the best of the best of the property of the best of ention include some of our largest taxpayers. They are in favor of a new building, because they appreciate he crying need for one to a much greater extent than the average citiwen who does not about the matter. If they favor it, and are convinced that Manistique needs it, the average voter should endorse the proposition of bonding the

down the proposition of bonding the city.

Personally the Pioneor-Tribune farwars the idea of voting a sufficient amount of bonds, so that a modern high school building, and a separate beating plant could be creeted at one time. The present building, with its half dozen or more hot air furnaces in the basement, is a veritable fire trap, neither is it a thing of beauty, and while the city is in the moot to build why not make a clean sweep, and anticipate the wants of the community for years to come.

Manistique is emerging from its swadling clothes, and it is up to the voters of the city to take the forward step in supplying adequate accommodations for the most important work any community can engage in—the

For fear that the average citizen above the straits is not aware of it, it might be well to call attention to the fact that Wednesday was the first day of summer.

Governor Slaton of Georgia, has commuted Frank's sen-tence to life imprisonment. He was to have been hanged Fuesday, but the governor, after investigating the case thoroughly, arrived at the conclusion that he would be a murderer should be permit Frank to hang, for he believes is his important.

The way is being payed in England for the introduction of rostum Cercal. The English people are advocating the use of college as a beyerage instead of bonze. Then wen they become confirmed coffee drunkards, along will come rosum to curve them of the coffee habit, and then they will resort to booze to neutralize the taste of Postum.

Governor Ferris intimates that conditions might arise that would tempt him to make the race for a third term as governor. Just what he expects to gain by flaying bryan as he does has not yet been revealed. EDITORIAL COMMENT.

American horres are serving a double purpose in arope. The French soldiers kill and cat the horses ounded in battle.

Manistique is proud of its public schools but that priddenes not include the building used for school purposes and named the Central building.

Thresday was "Fathers' Day," and everyone that ever-had a futher was expected to wear a rose on that day, As usual the average "father" was ignored. His province is to slave and pay the bills.

Lace county petitions, asking for a vote on local option have ben posted up and forty-nine per cent, of the voters of the county have signed them. In Mackinac county fifty per cent, of the vaters will appear on the lists wher posted.

When you write to former Manistique residents do not forget to invite them to spend home coming week in Man-istique. We are all proud of the advancement Manistique has made, during their absence, and we want them to be-ume personally convinced that Manistique is the best little city in the state of Michigan.

While Escanaba won two games from the Manistique leam in scores that read not unlike those of league games, yet the Sandy City aggregation have a higher regard for the Lake City's team than they ever had before. Swanson of Ishpening, was pressed into service by the Escanabaltes, and without him, the result would have been different.

success the punishment that has been meted out to the Relgians and Polos, would be the fate of England in tended space.

Revery sixth family in Kansas owns a motor car, says a state official of that state. And yet this is the state that the liquor interests claim is rapidly going to the demention how-wows because liquor is barred from the state.

The cost of keeping an autorobile depends wholly on how a man figures. If he buys and then kisses the money good-lye, then he hand't such a heavy expense. But if he lays and then adopts the husiness method and charges each year for interest and depreciation the cost is increased. It is heter to call an auto purchase just the same as money spent—not as money invested. When you buy matto, just say that you have so much money kicking about that you desire to spend and that you have decided to luy one. Then forget about the original cost. The upkeep will keep you busy cough.

Looks as though Manistique would have a sane Fourth of July. There will be base ball games here on July 3-4-54, but from appearances, there will be no other effort made to celebrate the day. Manistique has a surfeit of good things this summer, and a majority of the business men feel that the demands upon tean for founds to finance a Fourth of July celebration, is "mibling it in." First, we shall have a week's Chuntumpa, and close upon its heels comes homecoming week, and the annual firemen's tournament. On the first Monday in September, Manistique will entertain the Odd Pellows of the upper peninsula, who hold their annual meeting here.

UNIQUE SCHEME TO RAISE MONEY.

The Red Jacket firemen have adopted a novel scheme to raise money for their expenses at the upper peninsula tournament, to be held in Manistique the first week in August. What is known as "The African Silde" will be installed on street corners for the amusement of the public, and those who have seen the outfit in working order promise no end of fun. The apparatus consists of a series of iteps, at the bottom of which is a tank full of water. On the top step will be seated some local character, and a metal dise will be used as a target will be: part of the outfit. The diremen will be in a the outfit. The firemen will be in a the first of three for a nickel. The object is to hit the target with the base ball; and when this is accomplished the steps vanish and the man sitting on top will be given a didle into the water tank. Any person hitting on top will be given son hitting the target three times in succession will be given a dollar. The firemen have loopes of raising nearly services when the surface of the expenses at the tournament. As is usual, the village council will contribute part of the expenses.—Kweenaw Miner.
