## FATAL ACCIDENT AT R. R. CROSSING.

Michael Smith Instantly Killed  
Thursday on M. & L. S. Cross-  
ing on Westside.

A very deplorable accident happened Saturday afternoon about 3 o'clock when Michael Smith of Hiawatha township was instantly killed on the M. & L. S. crossing near the Waddell lumber Co.'s office in a collision with a train of forty empty cars. One of the horses was also killed, the wagon demolished and two cars derailed. Smith who was in the employ of Mr. Roy Graves a Hiawatha farmer, on the day in question, took a load of hay from Carl Ekstrom's farm, starting early in the morning in company with his employer, who later on got in a friend's automobile and rode to work.

When about thirty feet from the track something went wrong with the horses and Smith got down between the horses to fix it and then climbed on a load again, evidently without seeing the approaching train until it was too late to avoid the accident. It is thought that the lines became loose and the road being slightly elevated he was unable to stop. The trainmen did all in their power to prevent the accident and Mr. Roy Graves, who was standing on the second last car, called out to Smith, and then when he saw something was wrong he gave the signal to the engineer to stop, and the brakes were put on at once.

Precisely at that the whistle was blown and the bell ringing as the train was passing over the bridge and near the crossing. The train consisted about forty box cars or Russell's as they are called and were pushed by the locomotive, coming from the Consolidated Lumber Co. mill.

Mr. Riley saw an accident was unavoidable and jumped from the car he was standing on to the ground and barely no doubt saving his life as the two first cars were derailed in the wreck. When the crash came the first car struck between the wagon and the horses, forcing the wheels from under the wagon, throwing Smith in the air, hitting him and the horses along with the train was stopped.

When the unfortunate man was about to be crushed, his head being crushed, the lower jaw was, collar bone broken and the left arm crushed.

Coroner Kefauver was notified at once and took the remains to the morgue and after examining a few wit-

nesses impounded the following jury: J. Blomness, J. Heiman, Thos. A. Kelly, John Patisin, H. S. French and H. G. Hart.

The wagon was a total wreck and one of the horses was badly hurt, though it got up and started to cut out, but later while being led over on the tracks it dropped dead in the street in front of the city hall.

Michael Smith who is a Russian Pole and leaves a family in his native country, and has been in this vicinity about a year, doing part of the time for Carl Ekstrom and A. Crayton's farm and lately for Roy Crayton in Hiawatha township.

The inquest was held Monday afternoon at 2 o'clock at Gunnerson & Kefauver's store by Coroner Kefauver and Presiding Attorney C. W. Duran, who examined the witnesses, Mr. J. Riley, conductor of the train, and saw Smith on the load of hay when about fifty feet away and that he called to him, and next sign which he impounded to stop, after which he jumped to the ground.

Mr. Chas. Heylichok, the engineer, stated that when he saw the hay load it was about ten feet from the track and under the impression that Smith had stopped his team. Next he saw the conductor signal to stop and immediately put on the brakes.

Mr. Fred Carroll was next examined stating that when he saw Smith it looked to him as if he was trying to stop the horses but could not control them for some reason.

Mr. John Parshin the last witness, said he saw Smith on the load when about thirty feet from the track and heard Mr. Riley's call of warning.

The jury then retired to the office and after a short session returned and made the following verdict:

"We the jurors impounded and swear to inquire into the cause of the death of Michael Smith, after hearing the testimony of the witnesses we find that Michael Smith came to his death Saturday, Aug. 21, at a railroad crossing on their street, he being accidentally killed by a train of cars of the M. & L. S. railroad Co.

Mr. Blomness, Thos. A. Kelly, H. S. French, J. Patisin, H. G. Hart, A. Heiman.

What Michael Smith's real name is seems hard to find out, one party stating that his name is Jundifin and claiming him to be an Austrian, while another party gives his name as Mike Kovac.

Kovac means blacksmith, which is supposed to be his trade and so he adopted the last of the word and called himself Smith.

The funeral was held Wednesday from Gunnerson & Kefauver's establishment and Rev. F. R. Leach conducted short services at the grave.

## PIONEER RESIDENT CALLED BEYOND.

Mr. Alex Durmo of Manistique  
Township Called by Death  
Early Friday Morning.

Mr. Alex Durmo an old and highly respected citizen of this community, born in Manistique township from a general household dating back several months. Although he was not counted in his last census than during the last two days, death came not a surprise to those nearest him.

Mr. Alex Durmo, Sr. was born at Aberdeen, Scotland, on January 1, 1840 and was sixty-five years of age at the time of his death. When only thirty five years of age he came to Canada with his parents, who settled down on the farm of Alex, Ont., and there grew to manhood.

About twenty-eight years ago he came to Manistique when the Soo line cut their right of way through here and at first worked in the mill at South Manistique and later became section foreman on the M. & L. S. road. During Corcoran's administration he was policeman on the westside.

Late years he has been living on a farm near Marquette, which he owned in company with his twin brother, William, who have been constant companions during the last twenty-eight months all that very few people could tell them apart.

Deceased was a member of the latter order of Old Fellows for many years and was also a member of the Ironie order.

Those nearest to mourn his demise were a large circle of friends, are also Mrs. Jane Green at L'Anson, Mich., and five brothers, James, Durmo of Milton, Ont., Archie Durmo of Leeward, Ohio, Thomas Durmo of San Francisco, Calif., James Durmo, the twin brother and John Durmo, both of this city.

The funeral was held from the home in Manistique township Sunday afternoon at 2 o'clock where services were held by Rev. J. R. Mitchell and was very largely attended by friends of the deceased.

The funeral procession was met at the corner of Old Fellows by the Masonic order and the Old Fellows who escorted their brother to the last resting place where the Masses performed the ritualistic services of the order.

The large attendance and the many floral contributions showed the high esteem in which the deceased was held in the community.

## GREENWOOD-MOR- RISON WEDDING.

Miss Gertrude Greenwood of  
this City Becomes the Bride  
Early Friday Morning.

Miss Gertrude Greenwood of this city, became the bride of Mr. George McKay Morrison, at the home of the bride's parents, Mr. and Mrs. Fred Greenwood, last Thursday evening at eight o'clock. Rev. F. R. Leach of the First Baptist church officiating, the wedding was distinctly a home wedding, and none were present save the near relatives of the contracting pair.

A wedding supper was served after the ceremony, and Mr. and Mrs. Morrison left the following morning for Niagara Falls and Buffalo on a week's honeymoon.

The home was handsomely decorated with pink roses.

The bride is the only daughter of Mr. Fred Greenwood, and has been a life long resident of this city. After graduating from college, she engaged in school teaching, and for some time has been a teacher in the high school at Hudson, Mich. She is universally esteemed for her many good qualities, and her friends in Manistique are legion.

Mr. Morrison is engaged in the grocery business at Ypsilanti, and is one of the rising young business men of his city.

The newly wedded couple certainly have the best wishes of their many friends, for a long, happy and prosperous life.

## CORNELL-M'GREGOR WEDDED TUESDAY.

Two Well Known Young People  
Wedded Tuesday Evening at  
Home of Bride's Parents.

Mr. John McGregor of Manistique township, and Miss Mabel Cornell, were married at the home of the bride's parents, Mr. and Mrs. W. T. S. Cornell Tuesday evening at 8 o'clock. Rev. F. R. Leach of the First Baptist church officiating. The wedding march was rendered by Miss Leona Quick, and the ring service was used. The bride's bouquet was white roses. The ceremony was performed under a wedding veil of pink sweet peas.

The bride was attired in a white net over white silk, and the veil was caught with white sweet peas, and she was indeed a handsome bride. Her going-away gown was of dark blue silk.

The home was handsomely decorated in pink and white, and gladioli, sweet peas and dahlias were utilized in the color scheme.

An elaborate wedding supper was served after the ceremony, and the tables were also decorated in pink and white, and the confectations were also in keeping with the color scheme.

The bride is the only daughter of County School Commissioner and Mrs. W. T. S. Cornell. She has spent her whole lifetime in this city, and graduated from the public schools of this city in 1914. She taught in one of the county schools after graduation. She is highly esteemed by a wide circle of acquaintances and friends.

The groom is a son of Mrs. Edwin Cookson, and graduated from the local schools in the class of 1908. He is also universally esteemed.

After the wedding supper was served, Mr. and Mrs. McGregor left for the farm home of the groom, where they will make their home.

They have the best wishes of a wide circle of friends, for a long, happy, and prosperous future.

This store of ours is a business with a purpose—and if you have been dealing with us for any length of time, you will have guessed what that purpose is.

The shortest way we can state it is that we aim to give standardized service in standard goods.

By "service" we mean a good bit more than handing you what you ask for and punching the cash register—more than courteous treatment and quick deliveries.

It means keeping alive—with the new things.

It means looking for better grades, wider assortments, progress all along the line.

It means going a little further than many a hardware store usually thinks of going.

It means carrying bigger stocks, more satisfying range, greater freedom of selection—and every article backed by us, to give satisfaction to the customer.

In Arms and Ammunition, for instance, it means that we make a feature of rifles, shot-guns, cartridges, steel shells. It means keeping right up-to-the-minute in our display of guns—the new models as they come out. And in Ammunition it means that our stocks are always fresh—often replenished, boxes clean and ammunition dependable.

### EVINRUDE DAY AT HARRISON BEACH.

About 300 People Present at the Race at Indian Lake Sunday.

The day being ideal nearly 300 people availed themselves of the opportunity to witness the Evinrude motor race at Indian Lake Sunday afternoon by Mr. Angus McLeod, the local agent.

About forty boats of all descriptions were on hand some following the leaders and others anchoring along the course. The distance to be covered was between Mueller's dock on Harrison Beach and Gero's dock on the Osawamawick side and return, a distance of about two miles.

There were seven boats equipped with Evinrude motors that started in the race owned by the following names: Ed. Jewell, Ernest Knuth, Albert Christensen, Fred Baker, Miss Edith McLeod, Harry Allen and Magnus Klugstad. There are still five more Evinrude motors that were not in the race last Sunday but which will come next Sunday.

At the finish there was only three boats in the race and Ed. Jewell was the winner and Christensen third and the time was about twenty-two minutes.

The judges and starters were Messrs. "Jack" Nelson and Bert Waters. The cup will be on display at Harrison Beach Sunday which is expected that a still bigger crowd will be present to see the second race which will determine the winner of the handsome trophy.

### THINKS MANIS-TIQUE IS LOADED.

Escanaba Afraid that Manistique Will Bring League Pitcher to that City Saturday.

Unless all indications fail, baseball records in Escanaba will be smashed by southpaw pitcher in the present week-end series at South park when Manistique's crack team will battle with the Escanaba baseball team which has been the only aggregation in the peninsula able to win a majority of its games on Monday nights. The Manistique team is expected to be a public market, where the merchant can purchase his supplies of appliances daily. This means fresh and satisfactory stock, and the farmer will never again be compelled to peddle his surplus and return home with a portion of his load outside the Manistique business forestalls that.

The committee in charge of the Manistique work of organization consists of Messrs. Fred B. Ekstrom, G. A. Miller and Richard Edwards. These gentlemen will be in the city to give support of all grangers, so that the plan may be put into effect this season and that the surplus be successfully drawn from its inception.

### AEROPLANE IS WRECKED.

Frederick Hoover Who Made Flights Here During Tournament Meets Accident.

From a Tuesday's Chicago paper we take the following account of an accident to the machine of Frederick Hoover who made a number of flights here during the aviation tournament.

Frederick Hoover's flight to Elgin— he was going to carry the "Aerial Edition" of the Chicago Evening American with the results of the big road race to the course—was postponed and abandoned.

Despite the gale that was blowing, Hoover tried to get into the air at the Cleveo aviation field. One of the wings of his biplane was smashed and he narrowly escaped serious injury.

Everything was ready for what was expected to be a record-breaking trip through the air—everything was ready, the weather. The aviator was ready, his machine was ready and the passengers containing the race results were being eagerly awaited.

A strong wind was blowing from the west. It swept across the aviator's field.

Hoover tried three times to get his plane into the air. Once up to the top of the field he was in the air three times his attempts failed. The wind was too strong.

A fourth attempt was made. Hoover had sent his machine scudding over the ground. He had just pointed

### YOU WILL HAVE TO KNOW ALL ABOUT YOUR AUTOMOBILE

Applicants for 1916 automobile licenses under the Newell-Smith automobile law will have to fill out a blank answering the following questions: Name of manufacturer, make, model, name of vehicle, style of body, kind of motive power, factory serial number, 1915 registration number, and car auto registration number, weight of car, manufacturer's rating of horsepower, number of cylinders and diameter of cylinder, number of valves, diameter and length of stroke, if gasoline driven; type of motor if horsepower rating; if electrically driven, make, name, address, place of making, for tags, etc. The application blank must be sworn to by a notary public and, when properly filled out, the state's experts will figure out the license fee according to horsepower and weight.

### GUN CARRIERS IN DANGER.

Another feature of the game law on which Mr. Oates is laying much stress is the fact that any person found in the woods with a gun before Oct. 1 will be arrested. Since the rainfall and partridge season will open at the same time this year, a person who takes his gun out for the purpose of hunting partridge cannot evade arrest by asserting that he is out after rain.

It is expected that all hunters will be aware of the provision that only one deer may be killed during the deer season. The hunter's license law provides that each hunter must carry a license which must be shown to deputies on demand. Licenses must even be secured for rabbit hunting and for hunting either in or outside the county in which one resides.

### GRANGERS TO ENGAGE IN BUSINESS.

Will Organize a Cooperative Warehouse Association, and Will Have Warehouse in this City.

The members of the grange in Schooner-Cove are contemplating a grange cooperative ware house association, with headquarters in Manistique. The stock will be \$100.00 a share, and will be sold to members of the grange only.

The purpose of the association is to dispose of the products of the farm on the best possible advantage, and to purchase feed and seed grain wholesale lots. The organization will be a wholesale business with the local business men, and the surplus product will be marketed elsewhere where there is a demand for same.

The plan has been generally adopted by the grangers of Wisconsin, and these clearing houses are all doing a successful business.

There is room for such an institution in this county. The individual farmer sometimes finds it difficult to dispose of his surplus products. By thorough cooperation the surplus will be disposed of elsewhere where there is a market for same. It will not only be of great benefit to the farmer, but it will be a convenience to the local business men.

The committee in charge of the Manistique work of organization consists of Messrs. Fred B. Ekstrom, G. A. Miller and Richard Edwards. These gentlemen will be in the city to give support of all grangers, so that the plan may be put into effect this season and that the surplus be successfully drawn from its inception.

### LOCAL MOOSE TO ATTEND CAMPFIRE

Between twenty-five and thirty of the members of the local order of Moose are making preparations for going to Munising, Sept. 5 to 8 to attend the camp fire to be held by the members of the order at that place.

The Munising News has the following to say in regard to the celebration:

Local No. 1386, Loyal Order of Moose, is fast perfecting arrangements for its camp fire to be held in this city Sept. 5, 7 and 8, next, which its 150 members believe with confidence will be the most largely attended of any celebration ever held in this city.

During the three days' celebration fully 15,000 visitors are expected, chiefly from the cities of Ishpeming, Marquette, Escanaba, Manistique and Sault Ste. Marie. The big named cities is expected to bring a hand and with the local band will give six bands for the celebration.

Temporary buildings and stands are being erected at the fish hatchery grounds where the monster picnic and barbecue will be held on Monday, Sept. 5th, the opening day of the celebration.

Among the attractions at the camp fire will be parades, band music, speeches, ball games and athletic sports.

On Wednesday night, September 6th, a grand ball will be held in the roller rink.

A diamond ring will be given away to the most popular young lady. Voting will take place in Munising stores.

On Wednesday night, September 6th, a grand ball will be held in the roller rink.

A diamond ring will be given away to the most popular young lady. Voting will take place in Munising stores.

### HELD SHOOT HERE SUNDAY.

Members of Gladstone Gun Club Here Sunday.

The following members of the Gladstone Gun Club were here Sunday: James T. Johnson, Charlie Hawkins, Charles, Frank, Dubny, Chas. Green, Vict. Williamson and Wm. Martell.

They were taken to the Club grounds and an informal shoot was held during the afternoon, after all of partaken of dinner served on the grounds.

### ICE CREAM SOCIAL.

The Mission Circle of the Swedish Baptist church will give a social at the church Saturday evening at 8 o'clock.

A good program will be rendered, after which ice cream and cake will be served. Tickets 25c each, children 15c.

### MARRIED WEDNESDAY.

Mr. Francis K. Roblin and Miss Elsie Addison, both of Garmfash, were married in this city, Wednesday, Sept. 25 by Dr. D. C. Lins.

Miss Ethel Shunk and Mr. J. Little of this city were the attendants.

### CITY WATER IS PURE.

City Clerk Received Report from Lansing Wednesday.

About two weeks ago City Clerk Harrison sent two jars of city water to Lansing to the State Board of Health to be analyzed and received the report Wednesday.

The report is signed by A. A. Sponer, State Bacteriologist, and states that the city water is pure, safe to drink, the water from the tap being the purest and naturally could be as it has passed through a filter.

### GOVERNMENT ELECTRICIAN HERE

Manistique to Test Station for Long Distance Central for Light and Fog Signal.

Messrs. W. E. Skinner and his assistant, C. Hiller, electricians, have installed the long distance central light house keeper's residence, in course of construction.

They will return later to install the electric light and fog signal in the light house and if there is money enough available it is the intention to make this a test station for long distance control of light and fog signals.

This will mean that the keeper can control the light as well as the fog signal right to his home.

EDITORIAL COMMENT.

The trout season closes Aug. 31st.

The only real "yellow peril" we know of is the yellow that is visible on the finger tips of only too many of our young men.

The Newberry News has arrived at the conclusion the Manistique possess the strongest baseball team in the upper peninsula.

Mueller township lies almost wholly in the hardwood belt, and when its lands are cleared and improved, that township is destined to become one of the most productive townships in the upper peninsula.

Some stole Nicholas Kaiser's automobile in the copper country. Evidently the thief was a reader of European war dope, and figured that he had a right to confiscate anything owned either by Nicholas or the Kaiser.

Ex-Senator W. E. Mason of Chicago, who was an attraction during the recent Chautauque, is a candidate for the congressional-at-large of Illinois. When a fellow gets the office-holding fever, he becomes persistent, and will not cease his activities until death claims him.

They will be indulging in wifematch in Escanaba shortly. A charivari was interviewed, relative to the fate of the little boy at Rapid River, that has been missing for two weeks. He described the "murders" of the boy, and two men were arrested charged with the crime.

Why is it in these modern times of education and physical training that swimming is not included in the routine of the country school. A little instruction in how to keep afloat in the water would go a long way towards lowering the records of drowning accidents we read about in the newspapers during the summer season.

A sufficient number of names have been secured to insure the submission of local option at the spring election in this county. The petition will be submitted to the board of supervisors at the October meeting, and if found to be a legal petition, the fight will be on. Men that were openly opposed to local option five years ago are now allied with the proposition. Indications are very favorable for its success at the polls this time.

Mayor W. P. Preston of Mackinac Island, writes the Pioneer-Tribune editor to extend through the medium of this paper a cordial invitation to every resident of Manistique and Schoolcraft county to attend the exercises of Manistique and Schoolcraft county on Saturday, Aug. 28, when held at the Island tomorrow. Saturday, Aug. 28, when an tablet in honor of Gen. Lewis Cass shall be unveiled. Governor Ferris and other prominent in state and national affairs will be present and participate in the program.

Ferris will be a candidate for a third term as an out-and-out "dry" man succeeded in heading the Republican ticket. Ferris believes in local option, but does not look with favor upon state wide prohibition. By straddling the issue he hopes to gain political preferment. The time is not far distant when the man that has an idea and is willing to stand pat on it, will be more popular than the fellow that is wispy-washy and willing to stifle his better judgment simply to be in the swim.

If you are sufficiently adept at rat catching; you can receive a bounty of five cents per head if you present them in batches of five to city Clerk Christensen. The state has appropriated a sum of money to pay the bounty. Some city clerks have announced that they shall refuse to oblige anyone brought to their office. They cannot be censured for so doing. Rats caught outside of the city must be presented to County Clerk Forshar.

Again, in the fate of the Arabic of the White Steamship Line, it is demonstrated that the Americans are running a dangerous risk when embarking upon boats of countries at present engaged in war. Americans, it seems, do not fully comprehend what risks they are taking when doing so. American boats are plying between New York and Europe, and no effort has been made to molest these particular boats. Why not, therefore, use American boats during these perilous times, and not tempt Providence by taking passage with ammunition trolleys.

After serving seven months as mayor of Manistique, Mayor Sullivan is up against a recall petition, and either he or his successor will be elected at an election to be held Sept. 5th. The factions in Manistique are badly divided, and whether the recall will or will not be effective in Sullivan's case will not be known until the last vote is counted. The reason for the movement is to place the skids under the doughy mayor is the fact that he is credited with running a wide open town, and the people that do not believe in such sort of government are up in arms, and will change the complexion of things if it lies in their power.

The United States is wont to point the finger of scorn at Russia, for the manner in which it has and is persecuting the Jewish people, but it has remained for Georgia to prove it self less tolerant in its treatment of Leo Frank a Jew, than Russia is. Frank was never proven guilty, by the evidence at his trial, and ex-Governor Statton would have been amply justified in pardoning him instead of committing his sentence to imprisonment for life. Frank was hanged because he was a Jew, and Georgia will be everlastingly disgraced as the result of murdering him. The men that so brutally lynched him are murderers, and Georgia should ferret out the murderers and hang them in a neck measure, at least for the murder of Frank. When racial prejudice or religious fear shall inspire men to do to the human life, and prove that some so-called human beings are beasts.

EDITORIAL COMMENT.

The Grand Chapter meeting of the Eastern Star, is to be held at Battle Creek on Oct. 12th.

Manistique has some autoist that do more whistling than does a locomotive engine pulling a Twentieth Century Limited train through a city of 50,000 inhabitants, at a seventy mile an hour gait.

The newspaper that covers its field so well that everyone wants to take it and is taking it, does not have to resort to catch penny methods to boost its circulation. The sort of circulation that is dependable is the kind that comes unsolicited.

If the Gormfask farmers bring samples of their grains and grasses to the county fair this autumn, they are going to carry off some of the prizes. John I. Bellare has samples of grains and grasses on exhibition at the company's store at Blaney, that will also worry them all.

The Newberry News says that the sound spanking that the Manistique team was to give the Newberry team, dwindled into a mere slap on the wrist. In this particular case, the youngster was almost a match for the old man, and the old gent was lucky to get in any sort of a slap-and comes unsolicited.

The principal industry of St. Ignace, the Jones and Kerry mill has fallen a victim of these prosperous Democratic times, for its owners have been compelled to shut down the mill for an indefinite time. Not being able to effect any sales, and lacking piling room are given as the reasons for the move.

Do you believe in fatalism? When a man brings a load of hay from upper Hiawatha township, as an accommodation, "and manages" to reach a railroad track upon which a string of cars are being shunted, and loses his life as a result of the collision, it begins to look as though the fatalist had the better end of the argument.

A New York anti-trust lawyer, who owned stock in a corporation, awoke to the fact that his stock had increased in price to such an extent that he was now worth \$5,000,000. Safe to say that he will be an anti-trust lawyer no longer. The most blatant anarchist will become a decent citizen if he happens to strike it rich, and gains a competency.

MANY BUSINESS MEN HANDICAPPED.

Many a business man miserably handicapped because of the lack of loyalty upon the part of his employees. When the clerical force of a store hold dirty pennies in the store during the absence of the proprietor, and hide from customers that happen to come into the store, and become angry when they have to wait on them, it is high an em-ployee accepts wages; he or she should be willing to work hard and show an abiding loyalty to the interests of the employer, whether he is in the city or out of it. The average employer of labor is "up against it," because the average employee is content to do as little as possible for the money he receives, and diverts his mind to watching the clock. These persons never attain positions of importance, and that they do not is plain to be seen. Never in the history of the country are there as many high priced positions going begging for men that at the present time.

The chief reason for this is that the employee is not sufficiently interested in his work, to give it his best thought and energy. He is in a groove, and is content to remain where he is, and masters every detail of the business in which he is engaged, and is striving to attain new heights, is hailed with glad acclaim by his employer; and he is the one that is promoted. If he outgrows his position, he will always be in demand in a higher sphere. Many a business man that has attained old age, and is carrying the burden of an immense estate, stands ready to shift his responsibilities to younger shoulders, and is willing to pay from \$10,000 to \$50,000 per annum to the man that can walk away with the burden. Men and women that fritter away their time and opportunities are not eligible to attain such positions, and will always be "two spots" in business. When business is dull, or when their period of usefulness is narrowed by old age, they are the first to lose their positions. They become enemies of society, become embittered and are the objects of charity when they face the western sun of life. Had they shown loyalty, and an earnest endeavor to progress, they would not be in such deplorable plight. Every employer of labor takes a mental inventory of every one in his employ. When he finds a man or woman that is willing to work for his interests; you can rest assured that he will keep such a person in his employ as long as he lives.

SHOULD REMAIN NEUTRAL.

The London newspapers are decidedly anxious that the United States shall go to war with Germany, but the American people, judging from sentiment expressed everywhere, are not anxious to get into the bloody war. The United States cannot afford to go to war, sacrifice countless lives and billions of treasure because a few fool-hardy Americans are willing to traverse the war zone on foreign ships carrying munition of war. The United States cannot afford to go to war at the present time, owing to its woeful unpreparedness on sea and land. No country in the world has more loyal soldiers than the United States. They are willing to die and die for their country, as they have been killed on many a battle field in the past, but they are not seasoned veterans, and could not successfully combat the trained forces of any country of Europe. This country has been held in sleep by the fact its isolation was deemed a military asset. With munitions that can cross the Atlantic, and with a navy that can provide relief in twenty-four hours, and with an overwhelming number of war vessels, there are at least two nations of Europe that could make it decidedly uncomfortable for Uncle Sam. No foreign power could permanently occupy this country, for by mere force of numbers the invaders would be driven into the sea, but the fact nevertheless remains that they could hold this country for a long time. The United States must be constantly prepared for war. It can have the men and the ships to insure its standing as a world power. The European powers divide the United States. Germany has shown its contempt upon more than one occasion recently. A returned American from the war zone, says the Republic and English and Dutch states, without doubt, they will be necessary because they need American money and munition of war. They find the present war so costly that they are doing all in their power to embroil the United States with Germany, for if this war is accomplished, much of the burden of furnishing munitions of war, and the money to finance the present war will fall upon the United States. Uncle Sam will be extremely wise if he continues to keep in the middle of the road, furnish the ballast with the goods they need for cash in advance, and at the same time get extremely busy in preparing for any eventuality that may be upon us.

THINKS U. S. MUST

ENTER WAR SOON.

With not a single friend among the nations of Europe, the United States must enter the war, and will be almost impossible for this country much longer to stay out of the conflict, in the opinion of the W. J. Moore, who has returned to Detroit from the seat of war, where he made in the field a three months study of tetanus among the wounded.

"England and France dislike us for our failure to rest physically the invasion of their country," said Mr. Moore. "While Germany and her allies deem us to be unfriendly for supplying them with their munitions, men, everything American is held in contempt."

Believe war almost inevitable. When the slaughter in Europe has been completed and peace is restored, attention will be turned toward this country, if Germany means to fight the United States the Teutons will be as well prepared for the campaign as they were for the war with the allies. I do not know whether Mr. Moore's figures as to the German reinforcements in this country are correct, but I repeat that if Germany means to fight us she is prepared.

"I do not respect for the United States in Germany. I have seen men insulted in Berlin because they spoke English by any citizen, and they themselves to be Americans. After the sinking of the Lusitania I told a German official that it was a very serious matter, and he merely shrugged his shoulders and asked: 'What can the United States do?' That expressed the attitude of the German officials toward us. They believe the United States powerless to resent anything that Germany may do."

England and France regard us in much the same way and if victorious in the present conflict will make demands on the United States which will mean war. And what defense have we made for the defense of our 3,000 miles of Canadian frontier and our thousands of miles of coast which would be at the mercy of the allied fleets of England, France, Russia and Japan? They would take our principal cities and have the nation at their mercy in three months.

"It is time for the United States to wake up. Mr. Moore is correct when he says we have 18,000,000 men, but have not devised means to prevent their slaughter. We should have a standing army of 500,000 men on a basis of two years' training. This army should be raised by conscription if possible and by conscription if necessary. The principles of military service should be recognized by every man, woman and child.

LIKE THE VISIT OF AN OLD FRIEND.

In remitting on subscription account, Mr. A. S. Garland enclosed a 'colder' showing the town of Brementon, Wash., and the navy yard located there. He also wrote a letter from which we take the following that may be of interest to Mr. Garland's friends here. I enclose a folder which will give you a little idea of my surroundings here, though the picture is too small to convey much of an idea of the beauty of the town and the island of Puget Sound on which it is located. I look every week anxiously for the Pioneer-Tribune. It is like the visit of an old friend. Archie Wise, I must have used to be merrily in it w days last winter. He's the only Manistique visitor that I have had, I was sure glad to see him, and would be very much pleased to see more of them.

The summers here are about the same as at Manistique, only it lasts from April to November. The remainder of the year is winter, and the temperature is from 35 to 50 degrees above zero. Have seen no snow during the two winters that I've been here."

STILL IMPROVING

By purchasing Marblehead Canary Paul Longfield for junior sire of Marblehead herd. This sire is backed by some of the best records of the breed. The average record of this dam and his sire's dam four years old as follows: Milk 556.60 lbs. in 7 days; Butter 30.40 in 7 days; per cent fat 4.38. This backing gives this sire some of the best strains of breeding blood to be found, and it will pay you to thoroughly investigate the placing of a thoroughbred Holstein bull at the head of your herd.

The following is a remark of Chet Millar of Manistique township: "Since putting one of your bulls at the head of my herd, find it as easy to carry two pails of milk as it was formerly to carry one pail." A pure bred will do the same for you. The following have pure bred bulls:

- Jim Sherlar, Son of Traverse Little Bess and out of Queen Bess Aggie; Luke French, Gormfask, King Ultra Johannes; C. R. Miller, Marblehead Pieterie DeKloof; Guy D. Welton, Sir de Kol Mineral Road; Peter Nelson, Marblehead Pieterie De Kol; William Stewart, Sir Mineral Rose de Kol; Frank Sanlberg, Marblehead de Kol.

We still have a few good ones left and our offer is open to sell on time payments. Inquire of office for particulars.

STARTED WORK  
ON THE DAM.

Commissioner Marin Com-  
menced Work Monday on  
Building New Dam.

Work on construction of the dam on  
the new property acquired by the  
city on Indian River for supplying  
water for the city, was started Mon-  
day by Commissioner Marin and a  
crew of men.

The first question that arose was  
to get bridge across the river a dis-  
tance of about 200 feet which was  
solved by Mr. Marin in this way. He  
secured a supply of 30 inch sewer  
pipes, put them on end about ten feet  
apart, filled them with stone and put  
planks on top.

Work was then started to clear the  
banks of trees and brush and prepare  
the banks for the building of the  
dam.

The dam is to be of concrete four  
feet high and 5 and one-half feet at  
bottom with one foot blasted in the  
work in the river bottom. The length  
of the dam will be 185 feet, leaving a  
27 feet allowance for letting the logs  
through and fair feet for fish ladder.

The abutments on the east side of  
river run twenty-six feet including  
width of dam. The intake pipe and  
screening chamber will be placed on  
the west side of river and will meas-  
ure 144 outside dimensions. The  
water runs through the intake arch in  
to screening chamber after which it  
goes through trash rack made of iron  
bars and flows through a steel wire  
screen before going into the city  
pipes.

The screening chamber can be shut  
off below dam and cleaned out any  
time desired.

The drilling in the river bottom was  
started Thursday and is quite an un-  
dertaking as the machine will have to  
be placed in the river and the current  
is stronger than usual at this time of  
the year.

Mr. Marin expects to have the  
work finished in a couple of months.  
Everything works right. The grav-  
ely man which was laid last winter is  
only a short distance from the dam.

WILL ATTEND BASEBALL  
GAMES IN ESCANABA.

The following parties leave tomor-  
row morning for Escanaba in auto-  
mobiles to attend the baseball games to  
be held Saturday and Sunday:  
Messrs. Gordon Bebeau, Jack Berry,  
Francis Zimmerman, Walter Hessel  
and Joseph Odenhout will make the  
trip in Debeau's automobile.

On Sunday morning Messrs. Wm.  
D'Hutt, Bob and Robt. Attwood, Ar-  
mond Remmonsen, will leave in Le-  
Hart's auto.

NOTICE.

The premium rocker at Marblehead  
store will be given away Saturday  
night at 7:30. The holder of the  
ticket number must be present to  
draw the chair.

BROUGHT HIS  
BRIDE HERE.

Mr. Richard Anderson Was Mar-  
ried in Calumet Tuesday and  
Arrived Here Wednesday.

Mr. Harold Anderson of Richard  
City, Tenn., and son of Mr. and Mrs.  
Johannes Anderson of this city bring-  
ing his bride here Wednesday.

The wedding took place in the  
bride's home in Calumet Tuesday  
evening and only the nearest rela-  
tives and a few friends, the ceremony  
being performed by Rev. Mottell of the  
Swedish Lutheran church.

The groom was born in this city,  
graduated from the high school and  
later taking up chemistry at Ann Ar-  
bor graduated from that institution  
with high honors. Mr. Anderson now  
holds a position as chemist with the  
McKe-Portland Cement Co. at Richard  
City, Tenn.

The bride Miss Judith Davidson is  
the daughter of Mr. and Mrs. Frank  
Davidson. She held the position as  
instructor in Physical Training in the  
Calumet Public schools and is highly  
esteemed.

The young people first became ac-  
quainted some years ago when both  
attended a Luther league convention  
is delegates in this city.

Mr. and Mrs. Anderson will remain  
at home a few days when they will  
be followed by the best wishes of their  
relatives for their future happiness.

MOTOR PARTY  
TO MARQUETTE.

Messrs. R. H. Teeple, Dr. H. Stun-  
ders, F. M. Cookson and James Mc-  
Callough and their families leave this  
morning in their automobiles for Mar-  
quette.

With Mr. McCullough were Mrs.  
McCallough and children who  
have been visiting here during the  
summer.

The party expects to return to Mar-  
quette Monday.

SPENT EVENING AT  
HARRISON BEACH.

A number of the clerks in the Peo-  
ples Store dined to Harrison Beach  
Tuesday evening after closing hours  
and visited the families of Messrs.  
Jack Nelson and Ralph Green.

The visitors were treated to a  
sumptuous supper after which they  
had a royal good time. Those present  
were: Miss Blanche DeZeugh, Mrs. Vic-  
tor Tank, Miss Clara Windel, Miss  
Marie Lager, Miss Charlie Lundquist,  
Mr. Herb Strasser, Arthur Drexel and  
Oris House.

Sept. 1 and 2 is the date when J.  
Leahy the optometrist will again be  
here.

BOARD EMPLOYEES  
ARCHITECTS.

Robinson & Campeau of Grand  
Rapids, Selected to Submit  
Plans for New High  
School Building.

At a meeting of the board of edu-  
cation held this week, the firm of  
Robinson & Campeau of Grand Rapids  
was employed to submit plans for the  
proposed new high school building.  
This firm was chosen after a thorough  
investigation of their ability and the  
class of work they are capable of do-  
ing, upon the part of the board and  
Supt.

Mr. Campeau was present at the  
meeting of the board, for the purpose  
of becoming conversant with the  
wishes of the city, and the opinions of  
the members of the board. His firm  
will submit a preliminary sketch for  
the consideration of the board some  
time next week.

The board was fortunate in secur-  
ing the services of this firm for their  
reputation as architects is the very  
best.

When the plans are finally adopted,  
the matter will be brought before the  
voters of the city, as a bond issue  
is sufficient to erect a modern  
high school building, will be sub-  
mitted to them. The city certainly needs  
such a building, and as its need has  
been apparent to every citizen for a  
number of years, it is believed that  
the question of a bond issue would be  
popular with the average voter.

Munistic is making rapid pro-  
gress, and is considered the "lively"  
little city in the upper peninsula. It  
has shown its enterprise in many  
ways, but it is a conceded fact that  
in the matter of school buildings, it is  
outstripped by many smaller cities.

Our schools are the equal of any in  
the upper peninsula, but the buildings  
have not kept pace with the curricu-  
lum. Owing to the crowded condition  
of the schools, a larger building is in-  
operative.

REV. HARPER  
READE WILL PAY.

Cables from Bath, England Of-  
fer to Settle All Debts.

Rev. G. G. Harner Reade, who re-  
cently spent several weeks in the jail  
in this city charged with defrauding  
local men through the passing of  
worthless checks, has offered to settle  
in full with his creditors. Reade was  
released on order of the prosecutor  
on condition that he go to England,  
where he said he could raise money  
sufficient to meet his debts. This he  
has evidently done.

Attorney M. M. Larnmonth, Reade's  
attorney, received a cablegram from  
his client, sent from Bath, England.  
In it he offers to pay fifty per cent  
of all claims now and fifty per cent  
within six months. This includes  
creditors in both American and Can-  
adian States. He states that because of  
the condition of the money market in

England now he cannot market his  
securities to advantage, and is there-  
fore unable to make payment in full  
at this time.

Reade's youngest child is seriously  
ill with brain fever at Bath, accord-  
ing to a letter received recently by  
Mr. Larnmonth.

Reade also informed his attorney  
that he crossed to England on the in-  
fated liner Amphic, sunk on her return  
trip supposedly by a torpedo from a  
German submarine. He states that  
the Amphic carried 2,000 tons of shells,  
a large quantity of copper, 3,000 tons  
of ammunition, twelve aeroplanes,  
valuable scientific instruments, motor  
parts, etc., and other war material valued  
at between two and three millions of dol-  
lars. See News.

BREVITIES.

The tournament committee held  
their final meeting the city hall  
Wednesday afternoon and the item-  
ized report will appear in this paper  
next week.

Heavy frost was noted Wednesday  
night in several places.

Mr. John Quick has moved into the  
house next to the First Baptist  
church.

Mr. Egnar Johnson was operated  
for a large abscess on his neck yester-  
day morning.

Mrs. Frank Cookson returned from  
California Wednesday morning, where  
she visited relatives and attended the  
two expositions at present being held  
in that state.

Mr. Walfrid Frances who has been  
running a small store in the Martin  
building, has discontinued the same  
and sold his stock to the Peoples  
Store.

Mr. Ed. Anderson of Thompson who  
has been sick for some time is grow-  
ing better and in a critical condition.

WANTED—2 dozen chickens 6  
weeks old. Apply at this office.

Mrs. Bessie Parker, who has been  
visiting her aunt Mrs. W. E. Clarke  
for some time, returned yesterday  
to her home in Montana.

The farmers will commence to cut  
their oats this week and all indications  
point to a bumper crop. The grain is  
colder and heavier than usual.

Misses Ruth Stout and Ruby Carl  
of Adrian, Mich., are here on a tan-  
savs visit as the guests of Mr. Chet.  
aunt of Manistique township.

Mr. Geo. Wickwire is visiting at the  
home of Mr. John Witter in Manistique  
township during the alterations of  
her home. Mrs. Wickwire expects  
that the work on her home will be  
completed in about two weeks.

Mrs. Wm. Boyce and daughters  
Dahl and Doris of Eberhart, Mich., are  
here on a visit and are staying at the  
home of Mr. and Mrs. Harry Adams.

The Boyce family were formerly resi-  
dents of this city for many years.

While on the west side this week the  
writer was shown some home grown  
beef in Mr. John Schuster's refrigera-  
tor that looked very fine. During the  
last two years most of the meat con-  
sumed here is raised right here in the  
county and it is predicted that within  
a few years Schoolcraft county will  
export beef.

BREVITIES.

The road to Harrison Beach has re-  
cently been improved with the aid of  
cedar bark and saw dust. The under-  
growth through the swamp is also be-  
ing cut on each side which will give it  
a little chance to dry out.

Rev. Theo. Grandin returned Tues-  
day from Haggott where he attended  
a conference meeting. Rev. Grandin  
was chosen chairman of the confer-  
ence board during the coming year.

Mr. and Mrs. W. J. Rardone and  
children returned from Florence, Wis.,  
Wednesday morning where they have  
been the guests of relatives and  
friends for ten days.

One nice thing about the proposed  
change in time schedule on the So-  
lar, is the fact that a fellow will be  
able to attend a baseball game at Es-  
canaba without spending a day and  
two nights in making the round trip.

Bessie admits that Manistique has  
the strongest baseball team in  
the peninsula, next to Escanaba's  
team. Manistique will win the games  
scheduled for tomorrow and Sunday  
at Escanaba, and then Manistique will  
hold the championship.

The members of the executive com-  
mittee of the Upper Peninsula De-  
velopment League, will hold a meeting  
at Escanaba this evening. At this  
meeting plans will be discussed that  
may result in making the future of the  
peninsula.

The Upper Peninsula Educational  
Association will hold its annual meet-  
ing at Marquette on Oct. 6, 7 and 8  
a. m. and a very interesting program  
has been prepared. Governor Willis  
of Ohio, is to be one of the speakers.  
Judging from the program, it will be  
a meeting that no teacher can afford  
to miss. Mr. Wm. T. S. Cornell is a  
member of the committee on resolu-  
tions.

Mrs. Frank Clark who has been ill  
for some time died yesterday after-  
noon at the home of Mr. James Tra-  
vey. The obituary will appear in next  
week's issue.

Mrs. Richard Cooper leaves tomor-  
row for Milwaukee, where she will be  
the guest of Mr. and Mrs. John Cut-  
ler and other friends during the next  
five weeks.

Misses George was arrested Tuesday  
and pleaded guilty in Judge McKen-  
ney's court Tuesday to being drunk  
and disorderly and was fined \$5.00,  
which he paid rather than stay in the  
city jail for five days.

Miss Eva Sturgeon, who has been  
visiting relatives and friends at Mar-  
quette and Escanaba for the last three  
weeks will return to the city Monday.

Miss Marguerite Bartley who has  
been the guest of Adelle Cooper, dur-  
ing the past two weeks, will return  
to her home in Milwaukee tomorrow.

Mr. and Mrs. Stevenson and son  
Francis, of Petoskey are visiting at  
the home of Mr. and Mrs. Chas. Akay  
this week.

Miss Diana Beaudin left the fore  
part of the week for Kenoosa, Wis.,  
to visit friends and relatives for a  
few weeks.

Bishop Mott Williams will conduct  
services at San Alon's church next  
Sunday at the usual hours.

**IN HONOR OF MISS MILDRED QUICK.**

Me at me. E. W. Miller and E. G. Quick Give Luncheon and "Shower" Tuesday Evening.

At the home of E. W. Miller, a six o'clock luncheon and "shower" in honor of Miss Mildred Quick, at the home of the former's sister, Mrs. E. G. Quick, on Sept. 7th. The parlors were decorated in yellow and white, consisting of sweet peas, roses, veronica and sweet lilacs. The favors were miniature pink and white umbrellas containing rice with which the twenty-one guests showered the bride to be. The hostesses presented their guest of honor with a handsome hampered bag (flower basket). In presenting the basket, Mrs. Miller read an original poem.

The evening was spent in "showing" the bride-to-be, and in the making of kitchen towels and dusting cloths.

Mesdames Quick and Miller proved themselves to be ideal entertainers.

**MAY START OPERATIONS SOON.**

Cheshbrough Mill at Thompson Expected to Start in Oct.

Considerable repair work is going on in and around the Cheshbrough mill at Thompson and it is rumored that the mill will start operations in October.

A new feature is a hot pond which is being constructed and which will greatly improve the facilities for handling the logs during the winter season.

Several new trucks are being laid out on new timber sections indicating that camp operations will be increased the coming winter.

**HAS NEW STORE BUILDING.**

Mr. Emeril Trudeau to Erect Brick Building on Deer Street.

Mr. Emeril Trudeau who conducts a grocery store on Deer street east of the M. & L. S. depot has decided to build a modern brick store building on a lot next to the present frame building in which the business at the present time is conducted.

The building will be 24x60 one story with a basement running under the whole building. The excavating was done last week by Mr. J. H. McJulken and the contract for the building has been let to Mr. Fridolf Danielson.

Next year Mr. Trudeau intends to remodel the old store building into a dwelling house.

**MARRIED MONDAY MORNING.**

Mr. Frank Lesica and Miss Kate Goeschel United in Wedlock.

Mr. Frank Lesica and Miss Kate Goeschel two young Austrian people, were married early Monday morning at the St. Francis de Sales church, Rev. P. J. H. Schavers performing the ceremony. The witnesses were: Peter Kosick and Miss Mary Goeschel, sister of the bride.

The usual supper and dance followed which was held at the home of the groom's brother, Joe Lesica on Cedar street where about 150 guests were entertained in great style.

The newly weds received many valuable presents and in accordance with the Austrian custom the bride went down cash money which in this case amounted to \$122.00.

The groom has bought a home on Loudon Ave. which has been furnished and after the wedding festivities they moved in with the best wishes for their future happiness following them.

**UNDERWENT SERIOUS OPERATION.**

Aged Rexton Lady Brought Down to Rutledge Hospital Friday.

Mrs. J. Schlagel was brought down from Rexton Friday night by her son Frank Schlagel and Dr. J. W. Pringle and taken to the Rutledge hospital Friday night.

Saturday morning she was operated on for the removal of the appendix and gallstone duct and gallstone and a spite of the fact that she is sixty-nine years old stood the operation well and the best hopes are entertained for her recovery in due time.

**ARTIST GIVEN RECEPTION.**

August Klagestad, the artist, who has been a resident of Marinette for a number of years, was tendered a reception last evening by the members of the Norwegian Lutheran church at Marinette at the church. The Rev. Karl made the presentation speech and gave Mr. Klagestad a cut glass bowl, several pieces of silver and a purse. Mr. Klagestad leaves Friday or Saturday for Minneapolis, where he will make his future home.—Menominee Herald.

**ARE BUILDING CAMPS.**

The Delta Construction Co. of Escanaba, who were awarded the contract for building the Manistique-look road have started operations and are building camps.

The construction work will be in charge of Mr. Dan. Murphy who will have a crew of men under him.

**PROMINENT VISITORS HERE.**

Col. Matt and President McCorkick of the Development Bureau, and Roger M. Andrews in City Wednesday.

Col. C. W. Matt, secretary of the Upper Peninsula Development Bureau, President McCorkick of the same association, and Mr. Roger M. Andrews, who came here to see the map, were in the city yesterday and delivered addresses at the meeting held at the Gros theater last evening. This triumvirate is a hard one to beat. Col. Matt has been engaged in the logging business for so many years, that if he were to awaken on an Arctic ice floe, he would immediately commence learning the position and would make good too. McCorkick is one of the upper peninsula's best young men, being connected with the big sugar factory at Menominee in an executive capacity. The bureau made no mistake in selecting him as its president. Roger Andrews was not a resident of Menominee very long until he ascended the throne as its president. He had that has been the slogan ever since, and the city in question is "sincerely pleased to live up to its reputation Andrews has given it."

These three gentlemen addressed by meeting last evening, but the former-Tribune goes to press too early to give a report of the meeting.

**REBEKAHS HONOR MEMBER.**

Mrs. E. Gillingham who was 75 years of age Thursday last week, died very pleasantly surprised Monday night at the meeting of Rehekahs, which order Mrs. Gillingham has been a member and regular attendant for years.

After the meeting she was invited to stay and all had refreshments consisting of ice cream and cake, afterwards Mrs. Gillingham was presented with a handsome emblematic pin of the order.
