ROTHVINDSON-AND DERSON NUPTIALS.

Popular Calumet Teacher is Bride in Home Wedding.

The marriage of Miss Judith Rothvindson, the daughter of Mr. and Mrs. Frank Rothvindson of Hilda street, Hilda and Harold V. Anderson of Rich City, Tenn., was solemnized at the home of the bride's parents at 10 o'clock last Friday morning. The ceremony was conducted by Rev. A. E. Monell of the Swedish Lutheran church in the presence of a small group of immediate relatives. There were no attendants.

The bride is a popular Calumet young lady, a graduate of the Calumet High school and the State Normal College at Upsland and for several years she has had supervision of physical training in the public schools. The groom is a graduate of the University of Michigan and at present is associated with the Dixie Cement Company of Richland City, Tenn., as a chemist. Mr. and Mrs. Anderson left Tuesday afternoon for Manistique after which they will include in their trip. They will be at home in Richland City after Oct. 1.—Molvak Miner.

MADE LONG AUTO TRIP.

Rec. Rugeles Covers 1,576 Miles in Ford Through Breakdown.

Mr. Rec. Rugeles returned Thursday last from his trip to St. Louis, Mich., to attend the wedding anniversary of his parents, Mr. and Mrs. Rugeles. The distance covered is about 1,576 miles going by way of Chicago and returning on the east shore of Lake Michigan and made the whole trip without any mishap to his auto. The first part of the way he encountered road ruts except between St. Ignace and Epifanette, through the so-called Sugar Hills. Mr. Rugeles visited Calceonia now called Rollid his boyhood home, where his father used to own a grist and saw mill. The machinery out of the saw mill was later shipped to Manistique and used in the Jimestone mill.

various samples submitted, the cost of the equipment and maintenance of a laboratory would be comparatively small.

Health officers in the various counties could train themselves in the work necessary to secure good results and constant application should make an expert in the analysis of an analysis submitted for the purpose, or from belief.

In the experience of the Lansing laboratory may be taken as a criterion as to how long before the health situation will be overtaken. In the capital city the laboratory was only occupied by the local laboratory, the operation of the public and medical profession of the great benefits to be derived from an institution of the kind being widespread and it was not long before the board of health found the laboratory working well. It has been made from time to time to expand its capacity. Enlargements for this increase in the use of the laboratory until now it is one of the most important of its kind in the mid-west.

Work on the Houghton laboratory is progressing carpenters and electricians being employed in putting in the alterations necessary for the completion of the work. An office and store room will be built at one end of the room to be occupied by the local laboratory. It is necessary sometimes to use electricity throughout the day and night in the examination processes. The collecting plant in use in regular operation only for a few hours after 6 o'clock in summer months in order to have a constant temperature in the apparatus it is necessary to make a connection with the public service power lines. It is being done this week and will not necessitate any great alterations in the wiring system at present in use in the building.

COMMENTS THIS SECTION.

ALSO MR. FRENCH.

Wm. Westcott of Traverse county, who has been in the upper peninsula recently, knows that the Upper Peninsula is the coming fruit belt of Michigan, and has the following to say concerning the subject; in a letter received at this office.

He says: "I have a seventy acre fruit farm in Traverse county, Mich. in this portion of the upper peninsula. I am persuaded to do this on account of the fact that for the past ten years the upper peninsula has beaten us out in the quality of fruit at the state fairs. I find it means more money and apple raising. I expect to locate in Mackinac county, and will plant 400 acres to cherries, apples and plums. This orchard will be planted by Mr. French, a former resident of Antrim county, who has been in the upper peninsula thirty-seven years ago, while he lived in my district. I desire to say for the benefit of the people of upper Michigan, that his work in pruning and grafting is wonderful. He certainly is a great service while he resides here in the straits. I cannot say too much in his praise, as he has been the best authority on fruit that we have in the state, and I take pleasure in recommending him to anyone who contemplates planting an orchard."

Yours truly,
WILLIAM WESTCOTT,
Williamsburg, Mich.

ATTENDED UNVEILING OF CASS TABLET

Mr. and Mrs. John McKnight Were Present at Ceremonies at Mackinac Island.

Mr. and Mrs. John McKnight returned to this city Monday after a recent day visit with friends in St. Ignace. On Saturday they attended the unveiling ceremonies of the Cass tablet at Mackinac Island.

In speaking of the event, the *Ming* Journal has the following to say: "The memory of one of Michigan's most distinguished statesmen was honored Saturday at Mackinac Island when with befitting exercises was unveiled on the parade grounds of historic Fort Mackinac, the second oldest fortification now standing in the United States, a bronze tablet commemorating the life and public services of General Lewis Cass. As was appropriate to the occasion, the commemorative chief executive and many of the state's most prominent men participated in the ceremonies. The day was pleasant and halcyon. A military torch with given to the event by the presence of the Chequamegon company of the National Guard, a contingent of jockeys from the revenue cutter *Morrell*, and military staff, among them was General King. The soldiers and sailors paraded the streets of the city directly prior to the exercises and stood at parade rest in front of the speakers' stand during the progress of the program. A brass band from Chequamegon furnished inspiring music. It is estimated that fifty hundred people were in attendance as spectators. Many states of the Union were represented. Patriotic ardor was manifested to an unusual degree."

RESOLUTIONS OF CONDOLENCE.

KILLING FROST VISITED SECTION

Many Farmers Report Heavy Loss from Frost that Visited Section Last Week.

This section was visited with a heavy frost last Wednesday and Thursday nights, that raised seed with growing crops such as corn and potatoes and garden truck. The frost also extended through Wisconsin and the upper portion of the lower peninsula, where as much or more damage was done as in the upper peninsula.

This is the first time in a quarter century that the upper peninsula was visited with a killing frost so early in the season.

In the city some of the potato patches escaped unscathed, as did the corn. Some of the farmers residing in the vicinity of the city, report an almost total loss of corn and potatoes. The Company's farm in Livestock report especially heavy losses. Mr. Brink had six acres of good corn that was totally ruined.

THE CO-OPERATIVE ASSOCIATION.

The proposed cooperative association is now in process of formation by the Grangers of the county. They have secured a plot on the old Ann Arbor depot building near the laundry, which, if purchased, will be used for the warehouse purposes. The building, while small, will be ample as no stock will be carried. It is the intention of the grangers to build a store.

It is their intention to capitalize for in the sum of \$10,000. The stock will be incorporated under the Michigan Cooperative law and will allow one vote to stock holders regardless of number of shares and pays a dividend of 6 per cent when stock is sold. The balance of surplus goes back to the stockholders who are not members of the association.

Stock subscribers will be secured by the following grange members: C. R. Miller of Birchday Grange, Richard Edwards of Hull Grange, Harry Blanford of Hutchins Grange, Len Byers of Hawatha Grange, Edward Sowers of Thompson Grange. The plans of the proposed organization and its scope of endeavor were explained fully in the Pioneer-Tribune.

We believe that there is room for such an institution in this county, for the farmers have had no opportunity of disposing of their surplus products, in the past, save in the matter of potatoes.

OFFICIAL COUNTY AND CITY PAPER

FRIDAY, SEPT. 5, 1915.

EDITORIAL COMMENT.

The average town gardener chortles with glee when he notices the invasion of a pest on the golden glow path. In this case the pests are hunched.

No use denying the fact that Escanaba is able to take the measure of the Manistique ball team. It appears able to capture the major position of the games it plays with the local team.

If that one hundred miles over which the Georgia mob carried Frank in an automobile were like some of the roads in this county the victim was probably glad to be lynched.—Jackson Patriot.

The Alpena Daily Echo has been revitalized to a remarkable degree under the management of Fred N. Fetter. It now possesses an interesting editorial page, and the paper is exceptionally well printed.

A body was fished out of the bay at Escanaba last week. An empty whiskey flask was found in his pockets, silently attesting to the cause of death. Such incidents will assist in making Delta county "dry."

Next Tuesday the school bell will call the leader-footed scholar to his task and the streets will be filled with bright and winsome teachers, rejuvenated by a three months respite from their exacting toil.

The government reports that there are only forty-one persons in the United States that have an income in excess of \$1,000,000. We thought that there were more than forty-one country editors in the United States.

Editor Holden of the Munising News, who attended a Shrine function in a Pacific coast city recently, is regaling his readers with an interesting continued story of what he saw and experienced while on his trip.

A Russian that predicted in 1913 that there would be a war between Germany and Russia, is being tried for the crime of his utterance. Had he said "running match" instead of war, he would have escaped arrest for he then would have not falsified.

The press agents of the Allies must have a vivid imagination. A short time ago, the news of a big naval battle near Riga, and the loss of Germany's \$12,000,000 worth, the Maklitz and other ships was noted. Germany denies this and brands the story as a fabrication.

Georgia will feel the effects of its brutal murder of Leo Frank for many years to come. Wholesalers and manufacturers of the North refuse to fill orders for goods from that state and affirm that this attitude shall continue until the murderers of Frank are brought to bay.

The \$3,000,000,000 subscribed to a single British loan is greater by some hundreds of millions than our entire interest bearing national debt, after four years of civil war. Even faster than the cost of living rises the cost of killing one's fellowmen.—New York World.

A city's health in the long run is its greatest asset. Employing a sanitary inspector, a health officer, and keeping efficient track of diseases and remedying the cause whenever possible are methods that lower the death rate and the sick rate and make for the highest measure of happiness.—Owosso Argus.

Commencing with tomorrow afternoon, this office will be open Saturday afternoons. It has been the custom for several years for this office to give its employees a half day holiday during the months of June, July and August, and as that period has been reached, the regular schedule will be resumed with the first Saturday in September.

Notwithstanding the fact that Mayor Sullivan of Munising insists that the charges made against him by the people that are signing the recall option, are false and unfounded, a sufficient number of citizens have signed the petition to satisfy the laws demands, and they are bound to "get his goat" at the special election to be held shortly.

Notwithstanding the fact "that there is as much liquor sold in dry territory as there is in wet territory," yet the government reports that there is a falling off of more than \$25,000,000 in the revenue on liquor. The internal revenue Commissioner admits that the increased "dry" territory was a potent factor in the decreased revenue.

The colonel is spouting again. No, not Colonel Bryan, but Colonel Roosevelt. And the worst of it is that he is getting a lot more cheap advertising because the secretary of war took notice of his declaration of war on Germany. We are not here to hand bouquets to the democratic administration at Washington. There are many things about it we don't like, never did like and never will. But this is not the time to be kicking about them too strenuously. Whatever else has happened the president is not going to have war with anybody if it can be helped. Particularly is his using good judgment in handling this German situation, from what we can observe. Heaven knows this nation does not want to declare war with Germany if it can be avoided. And everybody in this country knows that if Roosevelt was president we would have been at war with Germany months ago. And most everybody in this country realizes whether they like it or not, that nothing could be gained for the United States by such a war. This is the time when party politics ought to be forgotten, when every man ought to stand behind the president, whether he considers him right or wrong. It is our country, our president, first, last and all of the time. Whether that man happens to be of one party or another matters not.—Houghton Mining Gazette.

EDITORIAL COMMENT.

Sept. 10th is Michigan Day at the State fair.

Schoolcraft county's state tax this year is \$22,070.00, and the primary school fund the county receives will be \$21,240.00.

Landmen have placed the lid on litigation. They are compelled to pay an annual license fee of \$25.00 and must furnish a \$100,000 bond.

Root, all but announced himself as a candidate for the presidency, in an address made before the New York Constitutional convention.

Ponder mills are being blown up with such alarming frequency and trains laden with that commodity are being wrecked, that one is almost led to believe that a concerted effort is being made to retard shipments of munitions of war to the Allies.

A meeting of the "dry" forces of the Upper Peninsula will be held at Marquette Nov. 5th. At this meeting plans will be formulated for the local option elections to be held in six of the upper peninsula counties. The counties in question are Schoolcraft, Baraga, Menominee, Lake, Mackinac and Delta.

Ex-President Taft, in an address at Berkeley, Calif., recently said that California was conducting a clinical laboratory for political and social experiments for which it would have to pay. This is the home of "Ili Ram" Johnson, the Hull Moose governor, who is being groomed for the presidency by Roosevelt.

Attorney General Fellows rules that any person arrested in a "dry" county for intoxication must tell where and from whom he purchased the liquor or be guilty of contempt of court. Now if Indians and miners in "wet" counties were similarly treated convictions of liquor law violations would be easy to secure.

Governor Ferris has designated next Sunday as "Thrift Sunday." In his proclamation designating the day he calls attention to the lack of thrift upon the part of the youth of America, and says that this nation, in order to maintain its high position in civilization, needs to train American youth to habits of thrift.

Mr. Clemens is the Monte Carlo of the United States, and judging from newspaper reports it has honestly earned that appellation. It is so "wide open" that Governor Ferris has been shocked. There is a reason for its draughty condition. Bill Nank one of the "wet" apostles in the recent legislature, is mayor of that city.

When a boy, who has been devoting the entire summer in rustication at the lake; who goes "in swimming three times a day; who devotes the remainder of the time in fishing and boating, is compelled to return to the city, don good clothes and a pair of shoes, and trudge to school, that is the time when he needs a friend.

While Cleveland sustained more or less loss as the result of Jack Frost last week, yet it fared better than other sections. Snow fell in portions of Nebraska, Wisconsin, Dakota, and Minnesota, and the temperature in Chicago was the lowest ever recorded in August. The damage to upper peninsula crops is confined to corn and potatoes.

Hereafter persons and institutions soliciting funds for charitable institutions or objects, must secure a permit from the state board, and if they persist without said permit, the persons so doing, can be arrested. Wonder if the new law affects the halt, lame and blind that make a business of mauling the business men of dimes and quarters with such alarming frequency.

Next Monday is Labor Day, and the day will undoubtedly be spent in Manistique by everybody working. While it was deemed proper not to celebrate the day as has been the usual custom in the past owing to the many demands made upon our business men for money during these various hard things of a public nature, during the past year, yet it would be a fine idea were every man in the city that earns his daily bread by toiling with brain or brawn, to participate in a march on the day in question.

Congressman James of the Twelfth district has given his promise to a committee of ladies that he will support and vote for the "equal suffrage amendment during the next session of congress. Once having given his promise it will be wholly unnecessary for a committee to keep tab on him and remind him of his promise and to bolster up a waning enthusiasm. James always does what he agrees to do, and possesses the ability to at once forget a threat and become Michigan's most popular and efficient representative in congress.

One of the reasons why running races are no longer a feature at firemen's tournaments is the fact that the boys are becoming too old and too fat to indulge in such pastimes. If the word "tournament" was tabooed, and the word "reunion" used it would more nearly express the situation. The firemen have been meeting for years, and are closely bound by ties of friendship. They look forward to their annual reunions for the purpose of re-creating acquaintanceships and having a good time. The article on tournaments, appearing on another page and gleaned from the Ishpeming Iron Ore, is pertinent and should be read by all that have given the question any thought.

The Chicago & Northwestern Ry. Co. has issued a four page circular in which "Cleveland" is given a big boost. The officials of the company in question made a personal investigation of the peninsula, and collected a number of affidavits from an agricultural standpoint. The question should be given the widest possible circulation throughout the middle-west. It shows that the railroad companies are not the soulless corporations the average man believes them to be. They are, or should be vitally interested in the development of the territory which its lines traverse. Only by such development can its business be augmented. The Soo Line has also been liberal in its contributions of that portion of the peninsula which its lines traverse.

Col. Mott of the U. S. P. Development Bureau, because of his wide and close personal acquaintance with the officials of the railroads, has the faculty of securing vast quantities of the best sort of advertising for the peninsula without cost to the bureau.

WHAT HE THINKS

OF TOURNAMENTS

Editor Newell Notes Deradence of the Tournament Spirit.

Editor Newell of Ishpeming, in a recent issue of his newspaper alludes to the radical change of complexion in the observance of the annual firemen's tournaments on upper peninsula, and predicts their annihilation. He says:

There is still a pretty lively bidding for the honor, if such it may be termed, of entertaining the firemen of the upper peninsula in their annual "tournament" as styled. The firemen still hold the staid ideas of many people, but a good lot of facts nevertheless. But so far as the "tournament" feature of the annual meeting is concerned there was divorced many years ago. "Tournament" as we understand it, is the work of body that has to do with their profession. Time was when this annual exhibition was a very fine thing, and it has been so ever since. These exhibitions were given. These took a lot of practice, which means hard work. For weeks there was the busy running of the picket men, and it was carefully as the best athletes at a training table, who were rubbed down following the last day of games, and wonderfully well developed. There were criticisms of this plan, too, as the various departments anxious to win for their towns, sometimes sought in "rings," fast fellows to appear in the events, and use whatever money was left with the usual results. This was overdoing it, and was the crying need of the day, and the running features altogether. So we now fail to see these exciting races, the scuffling contests, the hot and cold and all that went to make the old meetings so full of interest to the spectators. Needless to say they also added to the so efficiency of the departments in regular service.

Now the boys get together for a picnic and a general social time, a great change from the former days, and much easier on their muscles. Now there are automobile trucks invited to do the running, these being machines that makers want to attract attention. And there is a banquet and speeches, and a picnic, dancing on the streets and in the halls, and much showing of contentment and jockeying about as boys will. But the change seems to have been too great, and we note, from year to year, the disintegration of the former interest, which suggests that there might be something new brought into the meetings to take the place of the run of the old days and the foolishness of the later ones. There's a middle ground that might be occupied with good results to the companies and the communities they represent, and it might be well to get a suggestion on this. It's an altogether friendly suggestion with only the good of the departments in view.

STILL IMPROVING

By purchasing Marblehead Canary Paul Longfield for junior sire of Marblehead herd. This sire is backed by some of the best records of the breed. The average record of his dam and his sire's dam, at four years old as follows: Milk 556.60 lbs. in 7 days; Butter 30.49 in 7 days; per cent fat 4.38. This backing gives this sire some of the best strains of breeding blood to be found, and it will pay you to thoroughly investigate the placing of a thoroughbred Holstein bull at the head of your herd.

The following is a remark of Chet Miller of Manistique township: "Since putting one of your bulls at the head of my herd, find it as easy to carry two pails of milk as it was formerly to carry one pail." A pure bred will do the same for you. The following have pure bred bulls:

- Jim Sheridan, Son of Travers Little Bess Lad out of Queen Bess High Lake French, Gernfask. King Ultra Johanna
- C. R. Miller. Marblehead Pierrier De Mal
- Guy D. Welton. Sir de Kol Mineral Rose
- Peter Nelson. Marblehead Pierrier De Mal 2nd

Doughnuts.

That will remain moist.

Every housewife who bakes her own bread knows that if a little potato is added to the sponge, the bread will not dry out as quickly. This recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K C will be found to have distinct advantages over any other Baking Powder for doughnuts. K C is a double acting baking powder with which a large batch of doughnuts may be baked and finished a few at a time. The best will be as light and nice as the first.

K C Potato Doughnuts.

By Mrs. Nevada Briggs of Baking School fame.

3 cups flour; 2 eggs; 1 cup sugar; 1 level teaspoonful K C Baking Powder; 1 teaspoonful salt; 1 teaspoonful spice; 1 cup cold mashed potato; 1 cup milk, or more if needed.

Sift three times, the flour, salt, spice and baking powder. Beat eggs with rotary beater, then add sugar, then the potato with rotary beater, then the flour mixture. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat. When the doughnut is hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it sinks to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take ice in frying and will stay moist for days.

WHY, JIM, IT'S THE GREAT TOWARD CHIEF HAD SOME OF IT WHEN I VISITING DACK HOME, AND I'VE BEEN INQUIRING FOR IT AT ALL THE STORES ROUND HERE.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!!!
W-B CUT IS LONG SHRED, RIGHT CUT IS SHORT SHRED!

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and how much less you spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

Do You Know

There are many articles in use about your farm, which you are sure you would not be able to do without. Imagine starting out in the field to cut your oats or rye with a scythe or what if you had to pitch off load of hay in the barn by hand, instead of using the hay fork. You would think it pretty slow work, but your father went at it that way. He thought nothing of it either.

The idea of having a telephone in your home may not appeal to you much now, perhaps a luxury you can't afford you say. Let us place one of our telephones in your home. Let us give you speedily and sure connection with your neighbors and your business associates. In six months, this, you, your wife and other members of the family will thank us we ever did without it.

Let us talk this over with you now—today. You are sure to thank our service—why not now?

MANISTIQUE LOST BOTH GAMES.

On Sunday 15 to 9 in Saturday Games. Favor of Windy City Boys.

The Manistique team left Friday for Escanaba accompanied by a party of about ten to cross bats with the Escanaba aggregation but failed to hit home any barrels that night. The 45-000 rivets the following account of the two games:

The coached hits on the part of the Escanaba outfit during Sunday's game at South Park was responsible largely over the first Manistique aggregation.

The cold weather caused a lot of misplays, evident in a glance at the score column. Escanaba is credited with three "boners" and Manistique four. However, a classy game was needed for the benefit of the fans who braved the chill blasts during the afternoon.

Krause, working on the hill top for two weeks, held his opponents to a few hit game while the Escanaba batters got to O. Freedland for eight safeties.

The visitors went to the plate at the start of the game and Britton immediately connected for a safe one over left field. McLaughlin hit and should have been an easy out but the crowd allowed him to get on by advancing Britton a peg. Blackmore sacrificed both men another notch and O. Freedland got on by way of an error, killing the bugs. Oakes slugged the ball for a safety, scoring Britton. McLaughlin scored immediately afterwards on a long fly to left.

In Escanaba's half of the initial game, Baum, recently of Berkley, slammed the horseshoe for a three egg trip and scored a few moments later on a hook of Beron's grounder. Aronson then walloped the leather or two bases following immediately afterwards by another of exactly similar nature by Nolden. Aronson scored on Nolden's slam to center as did Beron.

In the third frame, Manistique scored again, this time showing Blackmore over after he had hit for two bases. The next inning gave Escanaba another two markers, Lantz and Plath still scoring. The locals scored twice again in the sixth when Plath and Krause slipped across. Krause got over the only circuit smash of the game, in the sixth when he connected with one of Freedland's shots for a homer over left field fence.

The Saturday game proved a runaway for the Escanaba crowd, as indicated in the score of 15-0, registered. Garland worked for the Escanaba team during the first five frames when he blew up and was replaced by Hoffman. Opposing the local pitcher was F. Freedland. Escanaba scored four runners in the initial inning, one in the next, another one in the fifth and four more in sixth and five in the seventh frames. A big crowd witnessed the game.

D. A. J. McPhail returned Monday from a business trip to Escanaba, Gladstone and Rapid River.

WILL MEET HERE MONDAY.

The Upper Peninsula Association L. O. O. F. to Hold Degree Contest Monday.

It is expected that a large number of Odd Fellows from the Upper Peninsula will be in the city Monday attending the meeting of the U. P. Association L. O. O. F. who will hold a business meeting and degree contest. The meetings will be held in the opera house starting with a business meeting at 9 o'clock in the morning. After dinner a contest in the First Degree will be put on which as far as known only the Saw Lodge No. 123 and Manistique lodge No. 232 will take part.

The officers of the association are: President, Geo. A. Blair, Sec. Secretary, James Christensen, Manistique; Treasurer, Tom Conklin, Crystal Falls.

No program or entertainment had been arranged according to a resolution passed at the last meeting in Escanaba and most of the visitors will leave the same day.

TO MAKE MANY IMPROVEMENTS

Manistique Light and Power Co. Will Expend \$10,000 in Improvements.

The Manistique Light & Power Co. are contemplating some extensive improvements in their involving expenditures amounting to about \$10,000. Superintendent Roberts informs us that a new dynamo has been ordered from the General Electric Co., Schenectady, N. Y., which is expected to arrive here inside of four weeks. This dynamo will be the latest pattern and will change the system to three phase, 60 cycle 300 volts, which is the standard system used in modern plants.

The old timber dam on the westside of the pond will be replaced by one of concrete, the dimensions of which will be 700 feet in length, from five to ten feet in height and ten inches thick.

With the advent of the new dynamo several changes will be made to the system, such as changing some of the meters and transformers, but the housewiring will not be changed. The new system will insure better service as to lights as well as power and superintendent Roberts asserts that when these improvements as well as many others that are not yet completed are made the plant will be modern in every respect.

Mr. Eugene Scott is reported being very low.

A NEW FIRM ESTABLISHED.

A deal has been completed during the past week whereby D. E. Seller has purchased the lease held by Donohoe & Miller on his building formerly used by the Manistique Implement Co. Dr. Seller now becomes a partner with Adolph Descombes in the blacksmithing business now being conducted by the latter in one of the buildings on Main St.

It is the intention of the new firm to establish in connection, a first class garage, and to make a specialty of repairing Ford cars. Dr. Seller says they are doing this for two reasons: First, "we believe we can serve our customers to better advantage by always having someone on the job when interested in the welfare of the Ford as in latter position to look after the welfare of those who own Ford cars than we could be otherwise." They will have a first class mechanic in charge of the repair department, and the public can rest assured of having cars treated at their hands.

The blacksmithing department will be conducted by Mr. Descombes in the same manner. Mr. Descombes has had many years experience in his line, and his work as a mechanic and especially as a householder has been spoken highly of in our city.

These gentlemen will be fully prepared to take care of the tires which are a general utility service in their business life, and we hope that the business now launched may be the foundation for the establishment of a profitable industry, in the manufacture and distribution of their goods.

HAD NARROW ESCAPE FROM DEATH

Edwin Larson Fell Sixteen Feet in Stock House at Furnace.

Mr. John Larson had a narrow escape from death or serious injury at the furnace Wednesday while helping to replace some of the timbers in the stock house. He was walking on the cross timbers overhead and in order to balance himself held on to a six by six timber that had been placed there temporarily.

The timber however proved not to be fastened and both man and timber tumbled to the ground sixteen feet below. Mr. Larson's eye was nearly fatally bruised and cut but no bones were broken.

He was taken to the Ruddegas hospital and had his injuries attended to.

TO GIVE DANCE.

Birthday Grange will give a dance at their hall Friday, Saturday, 3rd.

His dance will be given by the young ladies of the Grange.

Cardin's orchestra will furnish the music.

The steamer Edwin Schelle left Thompson Friday with a cargo of lumber for Chicago.
