## MAD DOG SCARE LAST WEEK.

Some of the residents of Lakeside had a mad dog scare last week and everybody that possibly could took to the tall timbers for safety. A little yellow dog was seen running around some of the houses with froth at his mouth and it was surely thought he was mad and some of the residents were even getting out their guns to shoot him.

He was later found playing peacefully with some little children and it was claimed that the pup had been eating a piece of ivory soap.

## "The Barn Will Help Build the House"

but the house will never help build the barn," is a common saying amongst farmers. It's good the farmer, to put up first the buildings that help most to make money.  
Every dollar put into a good modern barn is returned many-fold to the farmer. Cow comfort and horse comfort mean man profit. Live stock kept well and vigorous pays handsome dividends.  
There is no need to argue the case for the modern barn. Most farmers admit the necessity of it. Anything that we can do to help you obtain the right sort of barn for your farm, we will gladly do. Let us get together on it.

We always meet price competition and then some.

Roger M. Andrews is back and as a result the Upper Peninsula Development Bureau is beginning to be more active. It is not being said that the bureau did as soon as he left but it is said that when he came back the bureau began to feel the tonic effect of his presence.

Mr. Andrews was in Houghton yesterday. He was on his way home from a meeting held at the Soo on Wednesday, in which the Soo and Chippewa county businessmen were induced to take a more lively interest in the development bureau. He is going home in a roundabout direction because he wanted to arrange similar meetings at Houghton and L'Anse.

He has arranged for a meeting in the Baraga county seat the latter part of the present month. At this meeting several prominent directors of the bureau will make speeches. At Houghton, at the meeting of the upper peninsula group business in mid-October, it is expected that the bureau can arrange to have speakers present to urge upon the bankers the desirability of giving the bureau aid and encouragement. Mr. Andrews had this arrangement in mind yesterday in coming to Houghton.

**Profit-Sharing with Retail Buyers**

On August 1, 1914 we made the announcement that if we could make and sell at retail 300,000 Ford cars between August 1, 1914 and August 1, 1915 we would share profits with the retail purchasers, to the extent of from \$40 to \$660 on each car. We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date.

WHEN sun and work are boiling the juice out of a fellow's hide, a satisfying chew beats a smoke.

Some reasons why you hear so much about the Real Tobacco Chew: the good tobacco taste is there, it lasts, less grinding, less spitting. One small chew takes the place of two big chews of the old kind.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

ASK YOUR DEALER FOR W-B CUT CHEWING TOBACCO. IT IS THE NEW REAL TOBACCO CHEW—CUT LONG SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it's the Real Tobacco Chew. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

(Notice how the salt brings out the rich tobacco taste.)

There are also complaints of young ladies in an age where they should know better stealing flowers from gardens about the city and it is to be hoped that they will not give cause for complaint again, especially as some of them are known to the owners of the flowers.
