## THE LAST DAY OF THE FAIR.

Record Breaking Crowds Attend Last Day of Fourth Annual Fair.

Friday, Manistique Day and the last day of the Fourth Annual County Fair proved to be the largest so far as attendance is concerned the weather man did his very best in producing a fine day for the occasion, and it is estimated that about 3,000 people were present.

Most of the manufacturing plants were closed as was most of the business places in order to give all the employees a chance to attend the fair, and everybody seemed to enter with the right spirit.

The races proved one of the main attractions during the afternoon and at the close everybody seemed bent on taking another last look at the exhibits and the different concessions outside the building did a hand-ful business for a while.

Many of the lake staff, fruit, preserves and other exhibits were sold and Mr. Mills in charge of the honey and wax was a very busy man disposing of his goods.

The refreshment stands conducted by the ladies of the different church organizations did a very thriving business as everybody seemed to be hungry and thirsty after the races were over.

All through the day the W. O. W. band rendered some of its best selections adding to the gaiety of the day. It is estimated that there were about 100 automobiles parked on the ground during the races in the afternoon.

Mr. Middlebrook, the president and Mr. Ed. Kallfleisich deserve great credit in the manner everything was arranged, leaving no stone unturned to make the Fourth Annual County Fair a success.

Mrs. Wm. Burns will move to Milwaukee shortly. She will reside permanently.

## CAUGHT FINGERS IN SAW.

John Nessonman Loses First Joint On Middle Finger on Right Hand Monday.

John Nessonman while notching cleats at the Goodwillie box factory Monday ran his right hand into the saw by the breaking of a cleat, with the result that the first and second fingers were badly cut by the saw. It was found necessary to amputate the first joint on the middle finger while the first finger was found to be badly lacerated.

Mr. Nessonman has been acting as linoleographer and inspector since February and had only lately been helping out in the factory.

## BROKE HIS PAROLE WAS ARRESTED.

Jerry Bolis of Munising Arrested in This City on Serious Charge.

Jerry Bolis of Munising and formerly of this city, was arrested at the Manistique Hotel Thursday of last week by Sheriff Orr, who had been notified by the Munising authorities to be on the look out for Bolis. The charge against Bolis is robbery from a drug store in Munising, estimated at about \$180 in cash and two gold watches. The fact that he was out on parole from Jackson prison will no doubt cause him to be taken back to that institution without trial and serve the balance of his term.

Jerry Bolis used to live in Manistique about five years ago and worked part of the time at his trade as a barber and later was lander at the Barnes Hotel.

Sheriff Joseph Pellissier of Munising arrived in the city and took the prisoner and also a woman who was in his company back with him to Munising.

## BULLET PASSED THROUGH THROAT.

Herbert Terrien Accidentally Shot by Companion Tuesday near Seul Choix.

The first shooting accident of the season occurred Tuesday about noon, when fifteen year old Herbert Terrien, son of Mr. and Mrs. Chas. Terrien of Seul Choix was accidentally shot through the throat with a twenty-two caliber rifle in the hands of his companion Fred Savage who is about eighteen years of age.

The scene of the accident was near Seelmers Point about two miles from Seul Choix and happened while Savage was walking along with the gun on his shoulder, young Terrien the gun was discharged and the bullet passed clear through Terrien's throat.

The young lad was carried back to his home by a younger brother, James and from there he was taken by his father to this city in Isaac Godreau's gasoline boat the I. N. G. and placed in the Rutledge hospital.

At the hospital it was found that none of the vital parts had been injured by the bullet and unless unforeseen infections set in the young man will recover in due time, and is now resting comparatively easy.

## PLEADED NOT GUILTY.

Wm. Delfutt, Joe Osterhout and Chas. Duell were arraigned Wednesday in Judge McKinney's court, charged by Game Warden Guinan with having headlights in their possession.

The trio pleaded not guilty and demanded a jury trial which was set for Oct. 25th and were put under \$160 bonds for their appearance at that time.

Uniform Rank and band W. O. W. will give a dance at K. of P. hall next Saturday evening.

Some of the choicest spring chickens weighing from 3 to 5 pounds at Frank Peterson & Co's meat market.

## RETURNS AFTER TWENTY YEARS.

Mr. Chas. Salter Visits our City After Many Years.

Mr. Chas. Salter, son of Mrs. Selma Salter, arrived in the city from Chicago Tuesday to visit his mother, who about two months ago returned from California.

Mr. Salter is now working in the Rock Island Railroad company's shops as a machinist and is doing well. It is not necessary to state that Mr. Salter finds many changes wrought in the city as well as in the farming districts since his departure.

Mr. Salter left today and will accompany his mother as far as Denver, on her way to California and will then return home.

## SUPERVISORS ANNUAL MEETING.

Many Things of Importance to Come up Before Board at That Meeting.

The annual meeting of the Board of Supervisors of Schoolcraft county will be held next week starting Monday and promises to last nearly all week as many things of importance will be brought before that body. The board on equalization will have their hands full in spreading the taxes for the coming year.

There is also a large amount of claims against the county that will be acted on at this meeting.

The petition asking for a local option election to be held at the general election next spring will also be presented to the supervisors at this meeting.

One poor commissioner is also to be elected in place of John Bruska whose term expires.

## CHICAGO BANKERS ARE INTERESTED.

W. H. George, President Marine Abstract & Land Co. Here With Interested Land Buyers.

Mr. W. H. George of Marinette, president of the Marinette Abstract and Land Co., was in the city the last day of this week in the interest of his company, who has a contract with the Consolidated Lumber Co. to interest prospective land buyers in some of the fertile Cloverland owned by the company in this county.

Mr. George who has sixteen years experience in the land business, has unlimited confidence in the farming possibilities of Schoolcraft County, and if every resident was imbued with the same spirit, the now idle land would in a few years be occupied by thirty farmers.

Mr. George stated that his company intends to open an extensive advertising campaign in order to bring settlers in here even from Illinois and Iowa.

Among those who Mr. George brought here with him on his trip and who were taken to Island Lake in Hinawth were: L. L. Smith of Rock Island, Ill., who bought eighty acres of land and Harry Ross of Kewanee, who also bought eighty acres, both to settle down and cultivate their property.

Benson Bros. of Chicago were also here in the interest of some Chicago bankers who have bought 400 acres in the vicinity of Island Lake, and intend to organize a Bankers Club.

For some time these people have been about in order to find a suitable location for summer resort homes for the members of their organization and finally decided on Schoolcraft county as the best place.

Mr. George expects several other prospective buyers here while in the city.

Mr. Coleman has purchased the property on Lake street which is at present occupied by the De Zeng's.

## In Line With Leading Sportsmen of the World

Anyone who is interested in shooting can tell you that the leading rifle shots, sportsmen and hunters use Remington-UMC and Winchester.

And we just want to remind you that the Sportsmen of this community are as critical as any world-famous sportsman you read about.

The reason we get their steady trade year after year is that we make it a point to prepare for their trade. See to it that our stocks are complete—show the new features as fast as they come out.

We count it a point of honor to be able to sell a man the Shot Shells or Metallics he wants, and to be able to show him the Remington and Winchester Rifle or Shotgun that he will like to own.

You yourself, if you are interested in shooting—come in and see our Remington-UMC and Winchester display.

**"The Barn Will Help Build the House"**

but the house will never help build the barn. It is a common saying amongst farmers. It's good business when making the first permanent improvements on the farm, to put up first the buildings that help most to the money.  
Every dollar put into a good modern barn is returned many-fold to the farmer. Good comfort and horse comfort mean man profit. Live stock kept well and vigorous pays handsome dividends.  
There is no need to argue the case for the modern barn. Most farmers admit the necessity of it. Anything that we can do to help you obtain the best sort of barn for your farm, we will gladly do. Let us get together on it.

### WHAT THEY THINK OF IT.

Judges Speak Highly of Schoolcraft County Fair.

After serving as judges at the Schoolcraft county fair at Manistiquette, Miss Helen Simonson, head of the domestic science department in the Escanaba public schools and J. Wade Weston, potato expert for the Michigan Agricultural college in this section of the peninsula, returned to Escanaba last night. Miss Simonson announced that the showing of women's handiwork and baking at the Schoolcraft county fair easily excelled all former records in that county and made up an exhibit that would prove a credit to any county in Michigan. Mr. Weston was enthusiastic over the showing of potatoes and other garden and field crops that were shown at the Manistiquette fair, declaring it to be the equal of any fair visited by him this season. Mr. Weston will leave this morning for Menominee to judge exhibits at the Menominee county fair.—Morning Press.

### MOVED INTO NEW HOME.

Mr. and Mrs. Chas. Ackerman moved into their new home Monday, although the building is not fully completed as yet. The new home is located on the corner of Michigan Ave. and Stouhen street, off of California boulevard style, built of brick with a large porch running the full length on the north side. There is a basement running the full size of the building with pipes put in ready for a hot air furnace. The main floor consists of living room, dining room, kitchen, parlor, clothes closets and halls. In the living room a large fireplace is being built. Upstairs are two bedrooms, bath and hall and all other conveniences. When completed Mr. Ackerman will have a modern comfortable home and most of the work has been done by himself and sons. This is the third home Mr. Ackerman built in the city and as a queer coincidence it can be mentioned that he built his first home on the same street.

Their intention is to float back to Manistiquette on the Manistiquette river, a distance of about 100 miles, and expect that the trip will take them about four days.  
That the voyagers will have all kinds of adventures and experiences there is no question. They expect to finish their trip Saturday.

### GUESSING CREATED BIG INTEREST.

Four Hundred and Sixty-three Guessed on When Big Ben Would Stop.

A. S. Putnam & Co. conducted a guessing contest at the fair as to the time a Big Ben alarm clock would stop after being wound.

Every guesser was requested to enter his name and the time in a book. Four hundred and sixty-three persons availed themselves of the opportunity to win the prizes. A handsome ring was offered for the nearest guess and Big Ben himself for the next nearest.

The clock stopped at 4:22 and Mr. Victor Carlson who guessed the nearest to 4:22 was awarded the ring. Miss Lela Wright and Miss Ester Nelson were tied, both guessing 4:20 and the winner was decided by drawing, resulting in Miss Wright being declared the winner of Big Ben.

### MADE VERY GOOD RECORDS.

Chief Wendland, R. H. Teeple and Prof. Cleo Viseth Schools and Time Fire Drills Friday.

During last Friday Chief of Fire Department Wendland, Prof. T. W. Cleo and R. H. Teeple, members of education met the rounds in the attorney's automobile to all the schools in the city in order to put the children through the fire drills according to instructions of the State Fire Warden.

No previous notice had been given the children or teachers but notwithstanding this fact the children in each school made very good records and marched out in good order. In no instance were the fire escapes used by the children.

Below follows the number of children in each school and the time required in employing the buildings:  
Central school, 339 pupils, 62 seconds.  
Central Grade school, 930 pupils, 26 seconds.  
Lakeside school, 216 pupils, 48 seconds.  
Westside school, 306 pupils, 53 seconds.  
Riverside school, 79 pupils, 32 seconds.  
St. Francis de Sales school, 280 pupils, 51 seconds.  
During the week the teachers in the various schools have been giving lectures and instructions in prevention of fires, as well as instructing them in the different fire signals used in the schools, by which they will know whether the fire escapes are to be used or not.

Besides the schools Chief Wendland has visited a number of Manistiquette's manufacturing plants, business plants as well as residence sections and in very few instances found any reason for complaint. This work will be carried on until every place of business as well as residence have been visited.

It is to be hoped that the citizens of Manistiquette will co-operate with the officials in doing all in their power to prevent fires.

"Tomorrow is Fire Prevention Day and if you have not done so before, take the time to look around your premises and see if there is not something that you could do that will lessen the danger of fire during the coming winter.

### HARVEST BALL.

### MANISTIQUE MAN MARRIED.

Completely surprising a host of friends Miss Ruth Hammond, of Gladstone, and Harry E. Woolford, of Manistiquette, were married last evening by Rev. W. J. Dutton, rector of St. Stephen's church, at his home. All plans for the wedding had been made secretly and immediately after the ceremony the couple left the city for a honeymoon trip. The groom has been employed during the past season as first baseman for the Manistiquette baseball team and last season held down a similar berth with the Gladstone team. It was while serving with the Gladstone squad that he met Miss Hammond and the acquaintance ripened into a closer relation that had its culmination in this city last night. The bride is one of Gladstone's most popular young women and who, like the groom, had kept her wedding plans a profound secret.—Escanaba Press.

### FOR SALE.

### JAR CONTAINED 1867 BEANS.

Jas. Christensen and Wm. Stewart Both Guess 1870.

The Orr Drug Store held a guessing contest at the fair on the number of beans contained in a glass jar and over 1,000 persons were present for the opportunity to register their guesses.

The jar contained 1,867 beans and James Christensen and Wm. Stewart both guessed at 1870 and being the nearest guessers will draw lot as to who shall have the first prize tonight. First prize consists of a handsome vase while the second prize is a box of fine candy.

R. H. Teeple is clearing a portion of his recently acquired acreage in and about the city limits, so as to show prospective purchasers the nature of the soil. He intends disposing of the tract in acre lots, and judging from the numerous inquiries he is receiving, the tracts will be rapidly disposed of. The soil is excellent and the low price at which he will sell them, will quickly move them. As soon as the complete running of the line, he will be ready to make sales.  
Frank Jane is treating his residence to a coat of paint.

OFFICIAL COUNTY AND CITY PAPER  
FRIDAY, OCT. 8, 1915.

**EDITORIAL COMMENT.**

Game Warden Oates has ruled that it is unlawful to hunt birds with an auto. Some fellow has written him to ascertain whether or not it is permissible to hunt from a Ford.

According to the Bulletin of Vital Statistics for August, Schoolcraft county reported seventeen births and seven deaths. Manistique is credited with eight of the births and five of the deaths.

Henry Ford was recently quoted as saying that he not only would be refused to subscribe toward the Anglo-French war loan, but he would withdraw his funds from any bank that would do so. Now a Great Britain financial hints that his people will remember Ford's utterances when they are in the market for automobiles in the future.

Speaking of the two candidates for mayor that will fight it out at the special election Oct. 16th, the Manistique News says:

It would be difficult—next to impossible—to find men more opposite than Dr. Trueman and the present mayor of Manistique. The first progressive, heartily supporting all that any one in his community or any one interested therein is doing for its betterment, the second reactionary and dogmatically "right" everything that does not provide big pickings for himself and a few crumbs for his useful friends.

Certainly this is a great age in which we live. There are men living that can remember the time when the first railroad train was put in operation in the United States. The older of today can well remember the invention of the telegraph, the laying of the Atlantic cable, the harnessing of electricity for power, the invention of the automobile, the telephone, the wireless telegraph. During the past week, the wireless telephone has been improved to such an extent that the human voice can be carried to almost any portion of the world. The heavier than air mode of travel has also been perfected during the last decade. These are just a few of the big things that have been invented and perfected during the last few decades.

The feathered songsters that revisit Manistique with such regularity every spring, and after having gladdened the hearts of its inhabitants during the summer months, migrate to their southern homes for the winter, but one that is not aware of the fact, but it is nevertheless true, that one of their best friends is Mrs. A. S. Putnam. Her love for the birds impelled her to present an Audubon exhibit at the fair, and this booth was one of the most interesting in the building. Different styles of bird houses were shown, methods of providing the hardy birds that brave our northern winters, with food are also a feature. It is hoped that the boys closely studied the plans of the bird houses, and that they will build duplicates during the winter months, so that they can be installed next spring. Birds are coming to Manistique in increasing numbers every year owing to the fact that there are more trees, and the boys are slaughtering them in lesser numbers owing to the crystallization of local sentiment as the result of the efforts of Mrs. Putnam in their behalf.

It is commendable spirit that prompts one to open his purse to the appeals for aid from representative of orphan homes, etc., no matter where the homes are located. There is a little of the good in any man that will aid helpless infancy when he is not bound by ties of relationship with the object of his solicitude. Yet, we sometimes feel that the inhabitants of the upper peninsula are donating too freely to lower peninsula institutions, while the Good Will Home in Houghton county is not as generously assisted as it should be by the people who reside above the straits. Every few days a solicitor from some lower peninsula home makes the rounds here. They find the upper peninsula fertile field, because the people up here are whole-hearted, rugged yeomen that partake of its climate and physical characteristics. Such men never turn down a plea for aid. However, if a portion of the money now being expended for the lower peninsula institutions would be diverted to the Good Will Farm, that institution's field of usefulness would be appreciably increased. It cares for upper peninsula waifs exclusively.

Some of the "wet" literature that appears in newspapers that will publish it, makes interesting reading. A recent "wet" writer admits that there is two billions of dollars expended for booze in the United States, annually, and figures that the per capita consumption amounts to but \$20.00 per annum, and that each man, woman and child spends but six cents per day for booze. This same article is "reminiscent" that the country has been abandoned to the enemy, and that the navy has gone "dry" and insists that such things tend to increase drunkenness. Then, too, the same writer, says that the money collected from the traffic by the government, keeps the wheels of the government in motion, and without the money the nation would go bust. He also says that 2,000,000 men would lose their jobs if the liquor business were abolished. The "dry" literature has in mind the fellows that stand before the bar and devote their time to croaking their elbow while their wives are at home doing family washing for neighbors in order to provide the necessities of life to the children.

**EDITORIAL COMMENT.**

Rev. T. E. Collister, formerly in charge of the Methodist church in Germafsk, has been transferred from the Republic charge to the Newport branch of the Ironwood church.

The Newberry News thinks, and rightly too, that Congressman Scott is making a grand stand play in opposing the abandonment of Ft. Brady, in order to carry favor with the Soo voters.

One of the reasons why county fairs rarely make any money is because if "they are ahead of the light house" they are compelled to spend the profits in answering communications as to how it was done, from the other fair associations.

While the local race course is considered as good as any in the peninsula, yet it will require a thorough rebuild before it can be considered a fast track. Portions of it was very heavy last week and it was impossible to make the best time on it.

Mayor Sullivan of Manistique, who is subject to the recall at a special election to be held October 16th, says that the Cleveland Chiff Co. and the "drys" have combined to "get his goat." To an outsider, it looks as though that sort of combination will accomplish the trick. Dr. Trueman is his opponent at the polls. The doctor is extremely popular, and no stronger man could have been selected to go up against Sullivan.

General Von Hindenburg, the famous German general, recently celebrated his sixty-eighth birthday anniversary. The Russians, whose nemesis he has been ever since the war started, evidently wish that the assertion that every man over forty years of age, should be chloroformed because he has outlived his sphere of usefulness, would have at least been made operative in Von Hindenburg's case.

It is the policy of the Consolidated Lumber Company this season to lay saw logs rather than to operate its own camps. We are informed that the company has up-to-date contracted with three jobbers and purchased saw logs to the extent of eight million feet. We are informed by the officers of the company that they expect to provide in this manner, sufficient logs to run the mill at full capacity all year. This, of course, will be gratifying news to the people of Manistique and especially the present mill crew who are thus insured of steady employment during the year of 1916.

A number of Greeks employed in the local tannery, have gone to Europe in order to fight for their country in case Greece gets mixed up in the present war. Saturday evening, these sturdy young fellows were the center of attraction. They were given an auto ride over the city, and accompanied by a number of their friends. They left the city Sunday morning. Here's hoping that every one of them will escape unscathed, and that they will all return to Manistique in the near future. The prospective soldiers are a manly, clean cut lot—the sort of fellows that would make ideal American citizens. More of them would become naturalized citizens if they were given an opportunity of attending night schools and becoming conversant with the English language.

President Wilson is thinking seriously of having congress float a \$300,000,000 bond issue. He has decided that additional money must be raised somehow, and rather than conduct the business of the country, he is partial to a bond issue. Should he increase the tariff, he would endorse the Republican idea of raising money for governmental purposes, and a Democratic president would be bound to honor the issue rather than admit that he is wrong. Cleveland found it necessary to raise several hundred millions of dollars in order to supply the deficiency caused by tariff reduction under the Wilson bill. From every viewpoint Democratic national administrations are unsatisfactory and expensive luxuries. Wilson promised that the cost of living would be materially reduced as the result of the tariff tinkering of his party. This has not been the case. The necessities of life are higher than ever. In addition to the increased cost of living, you are compelled to pay an income tax, and affix revenue stamps to every document you execute. Catch-penny methods must be resorted to by the present administration in order to meet the expense of conducting the country's business, notwithstanding the fact that Democratic orators and newspapermen are loud in their assertions that the country is enjoying unexampled prosperity. Just as soon as the average voter will be given the opportunity, he will vote for and elect a Republican president, and thereby insure the prosperity that was enjoyed prior to the advent of the Wilson regime.

**THE "DRY" PETITIONS MEET OPPOSITION.**  
The "drys," no doubt are convinced ere this they will encounter strenuous opposition in their effort to abolish the saloons in this county. An imposing array of legal talent has been employed by the liquor interests in order to sidetrack the petitions at the meeting of the board of supervisors next week. Their activity shows that they are afraid of the cars, and are more than anxious that the people of Schoolcraft county shall not be given an opportunity of voting on the proposition next spring. They have discovered several "by apacks" on one or two of the petitions, and will make a vigorous attempt to defeat the proposition at its inception. No one knows the final result should the voters be permitted to vote on the question next spring, but when 500 voters petition the board of supervisors to order an election it is meet and proper that the people should be permitted to express their opinion by the ballot on this or any other question. The efforts of the liquor interests will be a boomerang, should their petulant contentions not be upheld by the board. We cite one of the objections whereby they hope to eliminate the Fourth ward petition. On the original petition appears the name of Geo. E. Holbein. When the petition was copied for posting the lady copying the list wrote the name Geo. S. Holbein. When they raised the next action, it certainly shows that they are afraid of the cars. Similar mistakes may have been made in other precincts, and it certainly would be stretching a point to eliminate any petition because of a clerical error, when the identity of the party is so well known. The liquor interests would fare better at the polls if they would cease their bickering on infinitesimal "errors." If the saloon keepers had always obeyed the letter of the law in closing the "dry" petitioners have in compiling the lists in this county, they might not be compelled to fight for their existence at the present time.

**SOLVENT PLANT IN OPERATION.**

The Iron Will Also be Made Very Shortly at Local Plant.

On Monday of this week, the solvent plant of the local furnace of the Chateaufort Iron Co. of America, went into operation, and about the middle of the current month the stack of the furnace will go in blast. During the year that the furnace plant has been in operation, it has been given a thorough rehaul and a number of large and substantial brick buildings have been erected, for the manufacture of solvent.

Speaking of the activities of the company, the Mining Journal has the following to say:

"With this plant active the Chateaufort Iron Company of America will have an ample stock of iron. The company, the Mining Journal has the following to say:

"The placing of this contract," he said yesterday, "means a continuance of the brick foreign trade of the past year. Exchange will be stabilized and American bankers, manufacturers and businessmen will be able to feel the pulse of the future. This means continued growth of wealth in this country and the piling up of money in the banks. This money will be pressing for investment, and should shortly start it a comparatively easy matter for the railroads to borrow on good terms all that they need. And when the railroads begin to borrow on as sane the iron market will have turned."

"This is a Steel Market. While there is great activity in the steel market at this time, the present market can be described as a steel market rather than an iron market. And there is a vast difference between the steel market and the iron market. The steel market is direct conversion of one into the other without any intermediary melting and casting into pigs. Thus there is a tremendous steel market at the same time that iron is lagged. It is the condition we have at the present time, and it will be likely to continue until the railroads get into the market on something like the old terms."

"For it is the railroads that are the principal support of the iron industry, they are buying freely, and making provision for the future they are making consumers of pig iron. It is not the iron market that is skipping along, from hand to hand, as they have been doing for the few years; the iron market is to be dull. If the piling up of iron permits the railroads to secure accommodations they need and if the iron market is long, postponed it will not be long, however, before the iron market will have turned."

United States army officers who assist that the present effort of the army on the western front is not the much heralded "big drive" of this opinion Mr. Webster bases on a belief that not enough time has elapsed to permit of the completion of the plans for this drive on which the allies have been working. These plans call for an unheard of provision of artillery, with numbers in proportion, and because of the comparative unpreparedness of the allies they have had a long time working out. The present movement on the western front, rather than being a final effort to drive the Germans out of France, is, Mr. Webster believes, designed to feel them out, secure some strategic points and influence the political situation in the far east, where the attitude of Bulgaria has appeared to be threatening.

**START CAMPAIGN ON TUBERCULOSIS**

This week marked the official beginning of the \$100,000 war on tuberculosis. To rid the state of this disease—that and nothing less than that is the object of the State Board of Health. They do not expect that this will be done in two years, or five years, but during the next two years they hope to build up an organization in each county in the state that will be able to carry on the work indefinitely.

The first county to be visited is Wexford. Next in order will be Barry and Ottawa. In each case Dr. DeKleine and his helpers will spend one or two or three weeks in a county trying to interest the people in their immediate health problems.

Every campaign will include an attempt to locate each case of tuberculosis within the county and having nurses visit these patients in their homes to instruct them on how to live and how to get well. It will include moreover a complete sanitary survey of the county, which will be invaluable as an index to what the real health conditions are. Moreover, the physicians of each county will be asked to co-operate with the agents of the State Board of Health. It will be the aid of the physicians that Dr. DeKleine and his helpers hope to locate the cases of tuberculosis in a given county not only, but it is they who can carry on the work after the state board workers have passed on to another place. During the campaign in a county a specialist in tuberculosis will hold daily conferences with the physicians in regard to the latest and best methods of treating and preventing the disease.

"Health First" has been chosen as the official slogan of this statewide movement. It will be printed on all the stationery of the Division of Tuberculosis and it appears likely that it will become as well known as the industrial slogan "Safety First."

**JUSTICE STEERE DECIDES AUTO CASE**

Must Prove Drivers are Negligent in Case Where Children Run From Car and Are Hit by Car.

An opinion of the supreme court affects automobile owners throughout the state in dealing directly with the all-occurring incident of a child suddenly running from a car or roadside in front of a machine.

The court ruled that the mere accident itself is not a proof that the driver of the car is negligent, that his negligence must be absolutely proved in order that damages may be recovered.

Justice Steere, who wrote the opinion, ruled: "Drivers upon highways are not held as insurers against accidents arising from negligence of children or their parents, and though in law, such negligence in a particular case may not be a defense as contributory negligence, for a driver also guilty of negligence the fact of an accident does not establish liability or raise a presumption that the driver is negligent." The court has never before given the auto driver, in so many words, the good standing he has under this decision.

**ARE SMOOTH OIL AGENTS.**

Last week a car load of oil was disposed to the farmers of this vicinity, also a cartload of "iron tanks" to hold said oil. We are sufficiently loyal to the farmers of Schoolcraft county, to hope that the agent selling them the oil and "burels" are not the same fellows that have been operating in neighboring counties. This is what the Stephenson, Menominee county Journal has to say concerning them:

have on his premises. When the tank was empty, the company would come around and fill it at the same price, and the farmer would not have to bring his oil cans to the village merchant to have it filled. No, they would be independent of the merchant, and could burn midnight oil in spite of him. The farmers came in droves for several days and returned home with a black painted "iron" tank filled with the cheap gasoline. The smooth oil men received their cash from many farmers who are still owing the merchants if they had bought before the arrival of the smooth ones, others who had not the ready money, obliged the oil men with a promissory note which falls due at a certain date and by this time are sold to bankers by the smooth fellow. In the course of time the "iron tanks" will be empty and the promises of the return of the oil follows to fill the cans will also be empty.

Now these "iron tanks" for which the farmers paid \$4.50, are made out of common sheet iron, light in weight, and will not stand very much hard handling. They cost a little more than one dollar to make, painting included, so that the profit of the tanks also amounted to a large sum, let alone the profit on the oil.

Not being satisfied with this profit, the oil fellows, on arriving at the village at Martineau, took the first ferrying to the cartload of oil they would sell, borrowed \$15 from the hotel keeper to keep things oiled up, and also ran an \$8 bar bill to keep up appearances and spirits. On their hasty departure from the village last Saturday afternoon to catch a south bound train at Martineau, they forgot to file this bill, and on arriving at Martineau told their driver that he could get his pay out of a couple of "iron tanks" left with some farmers in our township. They were as slippery as the oil, and the owners of the iron tanks will now consider this crowd as smart as any who deal through the county acts, photographs of the farms, the cheap dress suits and other "promising" articles during the past two years."

The smooth oil men succeeded in disposing of a cartload of tanks and still a few more in the territory who they received here a couple of weeks ago. So far we have not heard of any of the purchasers complaining of the oil tank nor price they paid, but we do know that they could buy oil much cheaper right here in the village than the price they paid.

**Announcement**

The following prices c. o. b. Detroit, effective Aug. 2, 1915:

**Ford Runabout ..... \$390.00**  
**Ford Touring Car ..... 440.00**  
**Ford Town Car ..... 640.00**

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to August 1, 1916.

**Profit-Sharing with Retail Buyers**

On August 1, 1914 we made the announcement that if we could make and sell at retail 300,000 Ford cars between August 1, 1914 and August 1, 1915 we would share profits with the purchasers, to the extent of from \$40 to \$600 on each car. We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay. Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally, makes it advisable to defer any announcement of future profit-sharing until a later date.

### HOW TO BE EFFICIENT.

Nothing saps the vitality like kidney trouble. It causes headache, stings joints, sore muscles, "always tired" feeling, rheumatism and other ills. To be efficient, you must be healthy. Foley Kidney Pills strengthen the kidneys, help them to their work of filtering out from the system the waste matter that causes the trouble.

### CHARGED WITH NON-SUPPORT.

Vernon Parrot was arrested by Sheriff Orr Tuesday, in one of the Cleveland-Cliffs camps near the one brought to the city charged with not supporting his wife and three children.

The complaint was made by Mrs. Mary Brown, mother of Mrs. Parrot. Mr. Parrot had his hearing before Judge McKinnis Wednesday afternoon and after all sides of the case were heard the accused man was given several weeks time in which to make good and in case he fails he will be prosecuted.

### TWO CHILDREN HAD GROUP.

The two children of J. W. Nick, Cleveland, Ga., had group. He writes: "Both got so choked up they could hardly breathe. I gave them Foley's Kidney and Ur and nothing else and it completely cared them." Contains no opiates. Cuts the phlegm, opens air passages. Sold everywhere.

Mr. Julius Peterson and son Ruby, Miss J. Baker and daughter, went to Southside Saturday to hunt birds and loaded three.

Harold Sattergrove who for some time has been employed in McAdie's candy kitchen left Tuesday for Detroit where he intends to seek employment.

Mr. Bruce Miller of Manistique township, who was a member of the 1916 graduating class of the local high school, has gone to Ann Arbor, where he will enter the state university.

Geo. McNease a Menominee druggist, formerly employed in one of Manistique's drug stores, has purchased the Herman Drug store at Wausau, Wis., and has taken charge of his business.

The second eleven of the high school, is certainly doing excellent work this season under the tutorage of Mr. Milton. They succeeded in cleaning up the first eleven one day last week.

Mr. and Mrs. M. Blumrosen and family made a long trip to Gladstone and Escanaba Sunday in their machine, calling on friends in the latter place. The distance both ways is about 120 miles and considering that the roads were very bad in some places it is a record run.

Joe Van Dyck and John Schuster, two of our local butchers, returned Wednesday from Gould City, England, and their report is that they bought three car loads of hogs and lambs, every animal in prime condition which will be sold at their local markets. See their advertisement.

Martin Iisenbeck, Ed. Hellgren and Chas. Peterson drove to Forest Home Sunday and on the way stopped at Geo. Roberts place at Cooks where the visitors were royally treated.

Charlie Chapin will be at the Colonial Theater every Thursday night. During the past week the theater enjoyed the best business since it was opened under its present management.

Geo. Richards was last week appointed turnkey by Sheriff Fred Orr and has already entered upon his new duties. "Bal" as he is generally known is well fitted for his new position and will no doubt give general satisfaction.

Mr. W. H. McLutken on Wednesday bought all the dry wood on hand of the Manistique Coopersage company, consisting of 1,500 cords, both chest and small wood. Mr. McLutken will put on extra teams and retail the wood in the city.

### INDIAN MOUND HAS STORY

Archaeologists Will Make Excavations in Order to Study Lives of Ancient Race.

Atlanta, Ga.,—Dr. L. C. Gardner went up to his Nacoochee Valley farm recently, to superintend the excavation of an Indian mound which possesses an interesting history.

There, Nacoochee, an Indian princess, was buried, and tradition holds a fascinating romance connected with her life and death.

Archaeologists, representing a New York museum, will excavate the mound in order to make a scientific study of the lives of the race which once inhabited that section of the country in the years ago.

The utensils used their war paraphernalia, and even the skeletons of the people buried there, will afford interesting research work.

All the interesting excavations will be carried to the New York museum, and the mound will be rebuilt just as it stands today.

### COPPER AS HARD AS STEEL.

Maine Blacksmith Claims to Have Discovered Centuries' Lost Art of Tempering Copper.

Milbridge, Me.—James Walter Fess, the village blacksmith, sixty-seven years old, says he has discovered the centuries' lost art of tempering copper. He shows copper knives that will whittle long shavings from a history wagon spoke, and a copper saw blade that slices the knots in the toughest oak hoop pole. He cuts a mortar in an oak block with a single copper chisel and he has a copper razor which the village barber uses in about the slickest tool he ever handled.

These tools were formed of discarded softening coppers from the sawing canner, bits of copper wire, and "old" copper kettles. "The way is old ground," says Fess. "The way is old." Fess says he can make a copper file or a copper hand saw, or anything with a cutting edge and of any degree of hardness. He says that he has spent out of his discovery to spend his last days will work and then the world is welcome to it. He is sixty-seven years old and thinks he has worked long enough, but until he made his discovery it looked like years more of labor for him.

"I Don't Feel Good?" This is what a lot of people feel. It's the same old story—lack of vitality.

### LEASE COUNTY ABSTRACT BOOKS

We are informed by the officers of the Consolidated Lumber Company that the County abstract books owned by them and in charge of Judge Ashford during the past twenty years have been leased to Judge Ashford for a term of years and that he will continue in the abstract business the same as heretofore.

### CURIOS FACTS ARE ATTACHED TO NINE.

There are some curious facts and fancies connected with numbers. The number 9 is perhaps, the first as regards such experiments. When you once use it in multiplication you can't get rid of it. It will turn up again, no matter what you do to put it down and out.

For instance, twelve 9 equals 18; add 8 and 1, and you have 9. Three times 9 equals 27; 2 and 7 make 9 again. Go on until you try 11 times 9-99. This seems to bring an exception. But all the digits-9 and 9 make 18; and again, 1 and 8 make 9. Go on to an indeterminate extent and the thing continues. Take any number at random: For example, 450 times 9 equals 4050, and the digits, added, make 9 once more. Take 6000 times 9, equals 54,000, and again you have 9 and 9.

### WHERE WILL HE LAND?

There goes a big boy down street, hollow chested, a light on the back of his head and a big pipe in his mouth. He is going home from school. He might stay at home for all the good he will do in the world. If he gets no better impulse at school than to light a pipe when school is out, when he leaves the school at last he will be lighting a pipe, and all the hopes of noble destiny will go glimmering from his life.

In the formative period of a boy's life he ought to get away from all narcotics, opiates and stimulants. It is the chief part of his education that he get rid of them. Poisoning his mind with these things weakens his will, drives away his high ideals, depresses his thinking and leads his life with all sorts of distressing burdens. For a boy to go from a good habit to a bad one is far worse than if he failed to parse a sentence or work a problem. It is the man's education is after, and not the parse or the problem. That boy should stop his smoking or leave school.

### MORTALITY OF MICHIGAN DURING AUGUST, 1915.

There were 2,059 deaths reported to the Department of State, as having occurred during the month of August. This number corresponds to an annual death rate of 11.6 per 1,000 estimated population. In addition to the above there were 2.3 still-births returned as deaths. An increase of 27 deaths is noted as compared with the month preceding.

By ages there were 560 deaths of infants under one year of age; 169 deaths of children aged one to four years, both inclusive; 800 deaths of elderly person aged 65 years and over.

Important causes of deaths were as follows: Tuberculosis of lungs, 209; other tuberculosis, 47; typhoid fever, 22; diphtheria and croup, 23; scarlet fever, 4; measles, 7; whooping cough, 27; pneumonia, 70; diarrhoea, 113; meningitis, 14; influenza, 2; cancer, 174; violence, 242.

In addition to the above there were two deaths from pellagra; one from Bay City and 1 from Grand Rapids, and death from leprosy returned from the City of Detroit. There were also 2 deaths from tetanus for the month.

As compared with the month immediately preceding an increase is noted in the number of deaths returned from tuberculosis of the lungs, other tuberculosis, diphtheria, scarlet fever, whooping cough and violence. A slight decrease is noted in the number of deaths returned from typhoid fever, measles, pneumonia, diarrhoea, meningitis, influenza, and cancer.

The different State Institutions (Hospitals and Asylums) reported deaths as follows: Truvere City, 14; Kalamazoo, 15; Soldiers' Home, 6; Lapeer, 2; Newberry, 3; Pontiac, 11; Ann Arbor, 6; Wayne County House, 31.

There were 6,771 births reported to the Department as having occurred during the month of August. This number corresponds to an annual birth rate of 26.2 per 1,000 estimated population. An increase of 368 births is noted as compared with the month immediately preceding.

In addition to the above there were 264 still-births returned as births, but not included in the above total.

### BREVITIES.

Judge Ashford and family made a trip to Newberry and returned Sunday. Mrs. Agner Delhin returned yesterday morning from a few days visit with friends at Gladstone. Mr. Frels Boucher and Miss Marie Welser were married yesterday at the St. Francis de Sales parsonage. Mrs. R. R. Kensil and son, Morrell left last night for Escanaba where they will spend about a week visiting friends. Mr. and Mrs. Gust Leaf of Escanaba have decided to make their home in this city and are staying with Dr. and Mrs. And Nelson. Thomas Valier residing with John Shampo on the Westside, received a telegram yesterday morning stating that his father is dead. The steam roller was taken across the river Wednesday morning in order to finish up the work of rolling on Elk street from Chippewa to Schoolcraft and also on the Forty.

### GLAD TO GET BACK

Major Gen. George W. Goethals, governor of the Canal zone, arrived in New York recently on board the S. S. Pastores. He said he would offer his resignation to take effect in November. Colonel Goethals is accompanied by his wife and son Thomas, and is here on a leave of absence to visit the Panama-Pacific Exposition. The colonel expects to be put on the active army list, and if this is not possible, he will ask for his resignation with the rank of brigadier-general. He told newspaper men that he intended to visit the exposition as a private individual, and desired that he be made no mention by any of the officials. That Mrs. Goethals is anxious to leave the Canal zone permanently was shown by a remark she made shortly after the ship left quarantine and started for the pier: "I hope never to go back," she said.

### STAND ON ANCIENT RIGHTS

Northwestern Indians insist on Fishing Without Licenses According to Old Treaty. Bellingham, Wash. — Attorney-General W. V. Tanner came here to confer with County Attorney W. P. Brown relative to issuing information for the arrest of Indians for alleged illegal fishing. County Attorney Brown having declined to issue information recently for the arrest of five Lumbee Indians who had been picked up by a deputy State fish commissioner. Mr. Tanner was advised that until cases now in the courts are settled one way or the other no more information will be filed. The Indians are defending their stand under the treaty of "Territorial Rights," giving them the right to fish where and how they please on ancient and accustomed fishing grounds. The fish commissioner is attempting to compel the Indians to "take out" licenses.

Kansas Man Rides on the Pods to Reach Farm Job Promised Him. Wichita, Kan. — Peter Coughlin is hard at work in the harvest fields despite his ninety-one years, and likes it. He so wrote to W. M. Woods, superintendent of the Sodgrass County Home here, after reaching Great Bend where a job had been promised him. Coughlin has a son in Tonkawa, Okla., but refuses to accept aid from him. The old man assumed the name of Joseph Munson to save his relatives from humiliation. A week ago he went from here to Great Bend on the "roads" of a Missouri Pacific freight.

### RICH IN RESOURCES

#### Russia Faces Indefinite Future of Warfare Undismayed.

"The Most Powerful Country of the Future" Was Just Finding Itself When War Broke Out—Wealth Untouched.

Washington, D. C.—With the greatest wholesale destruction of treasure in all history taking place, and with war-wrought economic losses piling up in such stupendous aggregation as no panic ever caused, the question as to how long each of the belligerents can stand the fearful strain upon its resources is becoming an important and fully as interesting as are any of those more stirring questions growing out of the purely military phase of the world-war, is a bulletin just issued, the National Geographic society sketches the pre-war economic condition of Russia, which has a total wealth of \$5,500,000,000, having lost hundreds of millions of dollars in foreign trade, and cities and provinces worth hundreds of millions more. It is finding an indefinite future of warfare undismayed, confident. The bulletin reads: "Commercial and industrial revolution were striking in Russia before the war; the work upon its magnificent domain was being rapidly carried forward; plans for developing its almost unlimited resources were in process; a creditable organization; modern cities were springing up; the mushroom in rich Siberia; oil, metal and other industries were laying firm foundations, and foreign trade had been brought up to about \$1,000,000,000. What has been called 'the most powerful country in the future' was finding itself, and was preparing to enter upon the century of expansion that it will need to exhaust the possibilities of its boundless natural wealth.

About two and one-half times larger than the United States with an area of 8,650,000 square miles and a population of 170,000,000, which is increasing at the rate of 3,000,000 a year, Russia's natural resources resemble those of this country, and are proportionately. It has nearly 900,000 acres of forest—compared with the 54,000,000 acres of the United States—much of which, even now, is carefully administered, and which, one day, will be the world's first source of timber. It has 250,000,000 acres of land under cultivation, while this country has a cultivated area of about twice as great; but Russia can expand her farm lands twenty-fold and still leave virgin land to the future. It can become the granary and the stock farm of the world.

Scarcely two score years have passed since Russia began with serious purpose the task of her internal development. Progress, during the first thirty years of this period was constant and rapid. In 1860, when it has doubled its foreign trade, of which 50 per cent is exports; still this foreign commerce is less than half that of the United States. But since before the war had scarcely begun to gather steam for the prosecution of her tasks. There remain hundreds of millions of acres of fat lands to be brought under the plow; tens of thousands of factory plants to build; rich mines to be opened; great railways and canal systems to be built; millions of acres of land to be moved into Russia, the silver East of the czar's empire, and many millions of illiterates to be educated to a higher standard of life and efficiency.

"Russia is a vast storehouse of raw materials, and must for many years continue a purchaser of machinery and manufactured goods; in increasing quantities. Yet the mills of Russia consume \$100,000,000 worth of raw cotton annually, and Russian iron and steel are already found their way into competition in the markets of the world. Germany bought more from Russia than any other three countries in the world. In the Russian about half of all their imports. These two empires did a tremendous, thriving business with one another before the war; and a great stream of German capital flowed into the northern empire for investment. England, Holland, Austria-Hungary and Italy, in the order named, followed Germany in business with the Russians. German trade promotion was thoroughly organized throughout the land, and the Russian Government, in return, made a vast number of concessions to thousands of German firms could be seen.

"Russia, as are but few other great nations, is self-sustaining in the matter of raw materials. Her vast Russian empire is dependent upon the factories of other lands for every step that it may take in the upward scale; it is even dependent upon foreign manufactures to maintain standards in its wide-sweeping territory as high as they are today. There is fabulous riches awaiting transportation by Russian industry, but Russian industry has hardly passed the birth.

"Fricked" Muncie Cop. Muncie, Ind. — The newest pick-pocket in the city is being kept in broad daylight. "Fricked" the pockets of the superintendent of police, William A. McVaine, of his annual pass to the county fair. The "annual pass" was issued to the chief of the central police headquarters, and became known when Dr. Fred L. Bunch asked Chief McVaine for the use of the pass during the afternoon.

### SAYS the man, who's learned how good rich tobacco really is:

"Tie your bull on the outside and come on in where the good tobacco is. You've been wasting your opportunity with unnecessary grinding and spitting; rest your jaws and content your soul with a little nibble of the Real Tobacco Chew."

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

ASK YOUR DEALER FOR WB CUT CHEWING TOBACCO. IT IS THE NEW REAL TOBACCO CHEW—CUT LONG SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

(Notice how the salt brings out the rich tobacco taste.)

### Do You Know THE VALUE OF THIS HOME COMFORT?

There are many articles in the about your farm, which you are sure you would not be able to do without. Imagine starting out in the field to cut your oats or rye with a scythe or what if you had to pitch off each load of hay in the barn by hand, instead of using the hay fork. You would think it pretty slow work, but your father went at it that way. He thought nothing of it, either.

The idea of having a telephone in your home may not appeal to you much now, perhaps—luxury you can't afford you say. Let us place one of our telephones in your home. Let us give you speedy and sure communication with your neighbors and your business associates. In six months time, your wife and other members of the family will wonder, "how we ever did without it."

Let us talk this over with you now—today. You are sure to install our service sometime—why not now?

## WHY FAIR

WAS A SUCCESS

The Officers and the Farmers  
Certainly Did Their Full  
Duty.

The annual fair last week was an unbounded success because of the unremitting efforts of the officers, Messrs. Middlebrook, Nicholson, Kallfelch and Jewell, and the executive committee, as well as the loyal support given it by the farmers of the county. The exhibits were unusually numerous and good, and without exhibits, no fair would be a success.

The loyalty of the farmers more than pleased the officers, and they hope that the officers that shall shortly be chosen for next year, at the annual meeting, will have the same loyal support.

The Pioneer-Tribune believes that a grave mistake would be made should any of the present officers be re-elected. No officers have ever given more efficient and loyal support to any business venture than have President Middlebrook, Vice President Geo. J. Nicholson and Secretary Kallfelch. They have devoted many days of valuable time in their endeavor to make the fair a success, and what they have accomplished with but little money at their command, is remarkable.

If you have not paid your membership fee, do so at once, therefore be annual eligible to participate in the annual meeting. By doing so and voting for the present officers, you will only be doing your duty as a citizen. Whether or not the present officers would accept a re-election, is not known to the writer, but if they can be prevailed upon to make the sacrifice of time and talent, why they should be re-elected by acclamation.

The first few years of any fair association are the most critical in its history. With the proper management they will emerge from the swaddling clothes period into full stature and strength. Without that care and solicitude, such organizations die in infancy.

The local organization is a healthy youngster, as the result of excellent management since its birth. No fair association in the upper peninsula has advanced more rapidly than the Schwanitz County Agricultural society. It will continue to grow just so long as it is efficiently managed.

## OFFICERS SCENT

A MURDER.

Fear Young Man May Be Victim  
of Revenge; Not an Accident.

Escanaba officers here are working on the theory that Harvey Devette, who was found dead on the Kipling road in Delta county with a large hole in his head was not the victim of an accident, but was murdered. Some days ago Devette visited the prosecutor and stated two Cornell men threatened to "get" him for killing a horse while riding his motorcycle. It was at first believed Devette had collided with a wall while riding his motorcycle and thus met death.

## FIND WOLVES

DEVOURING DEER

While walking down the road near Lilly Lake in Alger county, Deputy Game Warden Thornton came suddenly upon three wolves who were devouring a freshly killed deer. Mr. Thornton, who was armed with a shot gun, fired upon the wolves and succeeded in wounding two of them but all three bolted into the woods. An examination of the deer showed that one of its hind feet had been shot off, probably during the hunting season last fall, which, Mr. Thornton thinks, accounts for its being overtaken by the wolves.

## 'WETS' VICTORS IN

MINNEAPOLIS;

'DRYS' SAY FRAUD

Hennepin county, of which Minneapolis is the county seat, voted to retain its 433 saloons in a county option election today, according to returns available tonight. When 105 of the 138 precincts of the county had reported the "wets" led by 5,000 votes, the count standing:

"Wets".....20,831  
"Drys".....16,894  
Of the 433 saloons in the county 399 are in Minneapolis proper.

Rev. George B. Safford, head of the "dry" organization, in commenting on the vote said:

"It now appears that the 'wets' have carried the election, but we do not yet concede it. If it had not been for the grossest frauds and illegal voting there would have been no doubt about the result. We are still in the ring, however, and if we are defeated, shall fight our time."

"There has been the most shameful violation of law by the 'wets,' widespread after widespread of illegal voters having been taken to the polls."

During the day charges of fraud were freely made by both sides and much bitterness was shown at the polling places. Three men were arrested, charged with violating the corrupt practices act. It was said by the police these men were employees of a brewing company and that they were distributing "wet" handbills.

## KILLED WHILE

SPPEEDING.

Cousin of Mrs. Joe Miller of this City Killed Near Rapid River Thursday.

The Morning-Press gives the following account of the death of a cousin to Mrs. Joe Miller of this city:

"Speed claimed the life of Arthur Devet, 20-year-old son of Mr. and Mrs. Louis Devet, of Kipling, yesterday. Running at a rate of at least 50 miles an hour, down the second hill south of Day's river bridge, between Rapid River and Kipling, Devet's machine struck a short piece of lath in the road. In the lath was a short nail. It caught the tire and was hauled up into the machine chain. The machine stopped suddenly and the rider was hurled 102 feet through the air. He landed on his head on the hard road, or Holmberg, of the Gladstone Auto Company, following the speeding cyclist, picked up the body and rushed it to Gladstone. It was found that the entire top of the skull was crushed in and an operation was necessary. He was rushed to a local hospital and physicians started the operation but the effort was in vain and the young man passed away. The bones of the skull over the entire expanse of the top had been plunged into the brain. Parents of the unfortunate young man and his brother, were rushed to the hospital and reached that place just as life was ebbing away.

The unfortunate young man was but 20 years of age and was exceptionally well proportioned, being over six feet in height and weighing about 140 pounds.
