## SUPERVISORS ACT FAVORABLE.

Petition for Local Option Election to be Held Next Spring in Schoolcraft County Granted Tuesday.

A large number of spectators were at hand in the court room at the court house Tuesday morning to be present when the petition for a local option election was presented to the Board of Supervisors then in session.

After the regular routine of opening the meeting was disposed of, Clerk Forshar read the petition.

Supervisor Stephens made a motion that a committee of three be appointed to act on the petition.

This motion was amended by Supervisor Aug. Miller to five members, which was carried.

Chairman Baggott then appointed the following supervisors to act on the petition: Stephens, Miller, Middlebrook, Williams and Olson who retired to the committee room, but later came back to the court room, in order that the audience could follow the proceedings.

Mr. Cuddy an attorney from Escanaba and representing the "wet" in a lengthy argument, tried to prove to the committee that the petition was not legal inasmuch as more than one of the wards and townships contrary to law and the same applied to the line of the petition in the different precincts, which was not done in conformity with the law.

According to Mr. Cuddy's statement there should only be 226 legal signatures on the petition and the balance were illegal because they answered on more than one petition and it requires 359 signatures the committee should be justified in throwing out the petition on that score, in spite of the fact that the petition contained 359 signatures or nearly half of the voters in the county.

His statements were backed up by several copies of supreme court decisions where similar cases had been decided in favor of a supreme court decision Mr. Cuddy was scored Supervisor Stephens, as the case decided was not parallel to the case before the board and therefore had no weight. His plea in favor of his clients was taken up all forenoon and a business took up the afternoon.

While Mr. Cuddy was in the middle of his argument an aged lady got up to the audience and slowly wended her way to the door where she

stopped and excusing herself for leaving out of order, addressed the speaker as follows: "If you would not so much energy in keeping men out of dumbdrunk graves as you are using in the question of whether you could do some good in this world."

In the afternoon a large audience had gathered to listen to the final arguments in the case.

Mr. V. I. Hixson in a short but convincing statement gave his reasons to the committee why the petition of almost half of voters in Schoolcraft County for a local option election should be granted as long as the signatures were genuine, the posting and also the filing done in accordance with the law.

After a few closing remarks by both sides the committee retired and after a short deliberation returned a unanimous report in favor of the petition.

Chairman Baggott then put the question before the board and a resolution was offered by Supervisor G. Stephens and seconded by Supervisor Milton Williams that the question of prohibition be submitted to the electors of the county at the general election next spring.

An attempt was made to have a secret ballot but this was overcome and the clerk called roll as follows:

Ayes—W. L. Middlebrook, Axel Olin, Hill, Milton Williams, Thompson, Norman Stauffer, G. W. Burnett, Albert Bjorkquist, Nels Kingstad.

Nay—Aug. C. Miller.

At the meeting of the Upper Peninsula Educational Association held at Marquette last week, Mr. T. W. Clemo, superintendent of the local schools, was elected treasurer of the association for the coming year.

The list of officers follows: President—Supl. King of Escanaba, Vice President—S. O. Clinton of Baraga.

Treasurer—T. W. Clemo, Secretary—J. E. Lautner of Marquette.

Members Executive Com.—Supl. Hill of Crystal Falls, and Jesse Hubbard of Menominee.

The next annual meeting will be held at Menominee.

## INSTANTLY KILLED BY CARS LAST WEEK

Edward Krummich Run Over and Killed by Train on M. & L. S. Road Thursday of Last Week.

A very deplorable accident happened Thursday of last week, when Edward Krummich was run over and instantly killed near Klondyke about 20 miles from the city on the M. & L. S. road, while in the act of jumping on a moving train.

Mr. Krummich together with Fred Monroe and Fred Hurley had been making some repairs to the bridge near Klondyke on the road in question, during a couple of days.

On the day of the accident the men walked to the top of the hill at Spur #1 in order to jump on the train which was slowed up. The other two men got on all right but when Edward's train came he missed his hold in some manner and was thrown under the cars, the wheels of the cañosa passing diagonally over the lower part of his body, crushing it to such an extent that death followed about five minutes after the accident.

The body was taken aboard the train and brought to the city and prepared for burial by Gunnarson & Keener. No inquest was deemed necessary as the death of the unfortunate man was purely accidental.

Edward Krummich was born in Escanaba Aug. 25, 1874 and was therefore 41 years of age at the time of his death. He came to Manistique in company with his parents when only four years of age and lived the remainder of his life in this city with the exception of eight years spent in Newberry, where he worked for the Manistique Iron Co.

For the last two years he made his home, with his aged parents on Lakeside and was during that time employed by the Manistique & Lake Superior Railroad Co. in different capacities.

The accident is so much more deplorable by the fact that his brother Peter was engineer on the train that entered the accident.

The deceased was a good workman, valued by his employers, well liked by his fellow workmen and friends and to his aged parents he was a kind and devoted son.

The nearest relatives are the aged parents, Mr. and Mrs. Jacob Krummich, two brothers, Peter and William, and five sisters, Mrs. Pat. Quinn, Mrs. Maggie Redmond, Mrs. Peter Dawsey of this city, Mrs. Steve

## MEETING LARGE- LY ATTENDED.

Dowsey of Flat Rock and Mrs. Lemuel Rice of Westminister, R. C., the latter not being able to come on account of the distance.

The funeral was held from the home on Arbutus Ave. Sunday afternoon and was largely attended. Services were conducted by Dr. J. R. Mitchell and Mr. and Mrs. H. H. Hargreaves and Mrs. P. Baker, reading several vocal selections.

The Loyal Order of Moose of which the deceased was a member, were present to a number of about 75 members, also nearly all of the employees of the M. & L. S. road were in attendance besides a large number of friends who in carriages and on foot followed the remains to the last resting place.

The floral offerings were many and very beautiful and especially so those of the Moose and the employees of the M. & L. S. road. At the grave the ritualistic work of the order, which is very impressive.

The deepest sympathy is extended by all to the parents, sisters, brothers and other relatives in their affliction.

## WILL BUILD MODERN LAUNDRY

Mr. Joseph Pattinson has bought fifty feet of ground adjoining his residence on River street of the Consolidated Lumber Co. and will as soon as plans are completed erect a modern one story brick building.

The size of the building will be 370 with a small separate building in the rear for a large boiler to supply steam and hot water for the laundry, which will partly be run by steam power and partly by electricity.

Mr. Pattinson is the pioneer laundry man of the city, having been in the business since 1880 starting at first on a small scale with a hand laundry on Lakeside and later on the Park. He moved into his present location 24 years ago.

Mr. Pattinson still has some of the early laundry bills in his possession printed by the "News" with an elaborate heading on them.

Mr. C. L. Cook of Menominee county, is an extensive raiser of cauliflower, and this year has 165 acres planted in that vegetable. His profit per acre averages between \$300 to \$600 per acre each year. This is a crop that early frosts will no injure. Schoolcraft county farmer should investigate Mr. Cook's methods and get busy.

## MADE EXCEL- LENT ADDRESSES

Supl. Young of the Anti-Saloon League, Edited Large Audiences Sunday.

Mr. G. A. Young, the upper-peninsula superintendent of the anti-saloon league, delivered two addresses in this city last Sunday, and created a very favorable impression.

In the morning he addressed a large audience at the Presbyterian church, and in the evening he addressed a union meeting at the First Baptist church.

Mr. Young is an eloquent and convincing speaker, and he did the cause of temperance a world of good as the result of his addresses here.

## BEAUTIFUL NATURAL PARK.

### Visit to New City Dam on Indian River, Worth Your While.

A visit to the site of the city dam on Indian river will quickly convince you that the city made no mistake in acquiring the property. Aside from the fact that Manistique will be secured an unending supply of water for every purpose, and that it now has in a position to furnish its own power for pumping water and for lighting the city, should it become necessary to do so, it provides a most beautiful park.

The beautiful natural park surrounding the site of the dam will in a few years become the most beautiful of Manistique. Water Commissioner Mirin, who is conducting the dam, has a force of men at work clearing the banks of the river of underbrush, and thereby enhancing the appearance of the park. At this season for the year, 25 autumnal tints make the park a store worthy of the painter's skill. The park can be reached easily by bus, and one can cross the river without danger. When the dam is completed, the extent of it will be about a mile and a half, properly signposted.

The park is less than a mile from the city center, and will become popular for picnic parties. The grounds are high and dry, thickly wooded, and in every respect for the use for which it has been purchased. The city could acquire additional acreage at a present time, for it could be purchased for a nominal figure at the present time.

## HOME ECONOMICS SERVICE.

### adies Interested in Extension Service in Home Economics.

Some of the ladies in this city are trying to create an interest among women of Schoolcraft county for extension service in Home Economics, which has been made possible through the funds made available by the State Legislature. Miss Pauline Raven, who is in charge of the work of demonstrating giving lectures and is now being given the fair, will be prevailed upon to give next March, providing enough interest is shown for the work.

It requires thirty signatures accompanied by fifty cents each to warrant a course here. Further information regarding the movement will appear in this paper later on.

at the October issue of the Michigan Club Bulletin, we take the following regarding the work of Miss Pauline Raven:

The lectures and demonstrations given by Miss Pauline Raven, Extension Worker in Home Economics, are especially valuable and have been kept busy answering questions and giving information throughout the conference.

Miss Raven's time is spent in going over the State lecturing at many fairs, granges and women's clubs and is available for such services in application to the Extension Department. M. A. ## THIS CASE IS FULLY PROVEN.

### "Prohibition Don't Prohibit" Conviction of Perjury by the Defendant's Witness.

In atrocious grammar the loozers delight in telling us that "prohibition it will be prohibited." Well, it prohibits entirely too thoroughly to please those individuals who serve notice that they will drink any and all laws calculated to control their nefarious trade or traffic.

The Year Book of the United States Brewers' Association, which should be an authority that they will accept gives some figures of interest in the following: Year Book for 1911, on page 11 of the appendix, is a table of statistics showing the number of gallons of intoxicating liquor of all kinds used in each state. The answer to the claim that more liquor is sold in dry territory than in wet will be found in the following figures:

Saloon states, average per capita, 26.25 gallons.

Local option states average per capita, 4.37 gallons.

Prohibition states, average per capita, 1.25 gallons.

This is a case of using their own best witsness to convict them of perjury.

## WORK PROGRESSING RAPIDLY.

The work at the new intake on Indian River is progressing very satisfactorily favored by good weather most of the time. About two-thirds of the dam has been completed and Monday the men started to tear up the cofferdam and when that is completed work will be commenced on the remainder of the dam about fifty-six feet besides the screening chamber and vault.

The banks on both sides of the river has been cleared of windfalls and rubbish and the location is one of the most beautiful in the city and especially at the present time when the trees have their many colored autumn leaves. The city owns about five acres of land around the intake and will not take very much work to convert the same into a park as it is convenient to the city.

People with large families that cannot afford the luxury of a automobile would here find an ideal place to spend their leisure time.

## MUST BURN RUBBISH IN IRON RECEPTACLES.

Chief of Fire Department, Wendland received a notice from the state Fire Warden this week in which he advised that all places of business must have an iron receptacle in which to burn their papers and other refuse. It has been customary in years past that every business man would place his papers in papers and rubbish back of their places of business irrespective of the proximity of wood buildings or sheds and causing great danger of easily configurations.

To lessen this danger it has been decided that every piece of business must have suitable iron receptacles for this purpose.

### HOWARD AN EFFICIENT OFFICER.

In last week's issue of the Pioneer-Tribune, in mentioning the officers of the fair association, the name of Mr. Chas. Howard, the vice president and ground manager was omitted. Mr. Howard has done invaluable service for the association in that capacity, and the excellent condition of the grounds can be wholly attributed to his efforts. Prior to every baseball game during the past summer he has experimented the footing of the ball diamond, and was at work Sunday mornings long before the average fan was out of bed. Mr. Howard has been connected with the fair in an executive capacity ever since it was founded, and his efficient services certainly warrants his reelection in common with the other officers of the association.

## HUNTING ACCIDENT AT BLANEY

John Bobbitt Receives Laid No. 6 Shot in Jaw While Hunting Sunday.

John Bobbitt, an Austrian, about 25 years old, was brought down Sunday evening from Blaney on a hauldeer to receive medical attendance for a gunshot wound which he received while out hunting the same day with several friends.

The accident happened while Mr. Bobbitt was trying to climb up on a stump which collapsed under his weight and in coming to the ground the hammer of the gun caught in some manner exploding the shell and contents of a No. 4 shot under his chin lacerating the lower part of his face in a frightful manner.

Despite of his injury Mr. Bobbitt walked a distance of five miles back to Blaney and was taken to this city where he received temporary relief at the Rutledge Hospital.

Being without funds the unfortunate man was taken in charge by superintendent of Poor H. J. Neville, who on consultation with Dr. Ross decided to take him to Ann Arbor, Mich. He was nearly five years of age and a native of Austria. During the past eight years he had been working in Blaney for the Wisconsin Lumber Company. His recovery is doubtful as his jaw and tongue was shot to fragments and being unable to lie down he was nearly as much in pain and weakness from loss of blood.

## EDITOR FRENCH TO LEAVE.

Editor of the Courier-Record Decides to Locate on the Pacific Coast.

Mr. H. S. French, who has had charge of the Courier-Record during the past fourteen months, has resigned his position and leaves the city Saturday. He contemplates purchasing an interest in the Tribune and Publishing Co., which publishes a daily and weekly newspaper, and will hold an executive position on the paper in question. He is located about ninety miles from Los Angeles.

Mr. French worked hard, as in addition to the management and editorship, he was superintendent of the job office. Professionally he was ever courteous, and the Pioneer-Tribune management regrets to learn of his determination to leave the community. He will carry with him to his new field of endeavor the best wishes of many of our citizens.
