## SECOND NUMBER

### NOVEMBER 3rd.

Chicago Mustel Club to Furnish Second Number of Women's Reading Club Entertainment.

Wednesday evening, November 3rd, at the Opera House, music local will have an opportunity to spend a evening with the Chicago Mustel Club as the second number in the Women's Reading Club entertainment course.

In organizing this club Mr. Louis A. Kanner has selected soloists from some excellent organizations. Many leads heads the company and is a young violinist that cannot help but play the most engaging critic. She is a member of the Metropolitan Ladies Orchestra and the Chicago Ladies Orchestra. Mr. Harry Higbee has been chosen as the soloist for the past four years as soloist with several concert bands, among them Oberlin's, Kryn's, and the Kitties. He is probably the best cornetist in the string band today. Miss Holzgerger, the string bass soloist, draws from her instrument a tone which does not resemble that of the cello. Miss Gantline, the trombonist, is rapidly rising to the front rank of lady trombonists, while Miss Gerhart, the pianist, has had concert and lyceum experience for several years. The program itself completes the organization with unusual ability as a fluid.

The programs are made up of an instrumental music and song, music that is loved for its own sake. Songs will be on sale Saturday, Oct. 29th, at the Manistique Light & Power Co.'s office. Single admissions 75c and 50c, owing to the size and excellence of the company.

## DR. RUTLEDGE IS SOME NIMROD.

### Dr. Rutledge Brings Down Big Timber Wolf While Hunting in Hiawatha.

Dr. S. H. Rutledge brought down a big timber wolf while hunting in the woods Sunday near Fletcher's farm above the colony and justly proud of his success as a nimrod.

The animal measures over seven feet in length from tip to tail and as a heavy builded brownish fur, thickly matted with gray, and a fine head.

Dr. Rutledge will have a rug made of the skin which no doubt in years will adorn his study and remind him of his hunting experience in the northern woods.

In relating his experience Dr. Rutledge said he had only been in the woods a short while when he first noted the animal and fired at it with a .30 caliber. It appeared again when he fired with the same result. The third time he saw it the wolf came straight at him and when he fired the bullet striking in the eyes.

The wolf bounty in this county is \$100 which will be due Dr. Rutledge at the county clerk's office.

The new additions comprise of a modern solvent plant, retorts and re-heating solvent plant, a new stack, a new boiler house besides numerous additions to buildings, installation of new boilers to furnish additional steam and the machinery has been installed and repaired. It still will require about six weeks before every part has been completed.

The Manistique plant when completed will rank with the foremost of its kind in the United States and is of the same capacity as the plants at Grand Haven, Boyne City and Newberry, Mich., and by the company.

The output of the plant when in operation is 1200 gallons alcohol daily, 92 tons pig iron every two hours and 120 tons solvent per day. Two hundred cords of hardwood is consumed per day.

## DOINGS OF THE CITY FATHERS.

### Purchasing Committee Given Full Power to Buy Suitable Property for City.

At the council meeting Monday Mr. Joseph Pattison was given a permit to erect a two-story building next to his residence on River street.

Justice McKinley was given permission to use the police court room for a public office.

A communication was read from Mr. C. L. Harmon, vice president of the C. L. G., offering the building known as Ore's livery barn with 120 feet frontage on Main street to the city for a sum of \$2,200 cash, also 50 feet between said barn and Issanous property for \$600, and frontage between Issanous property and Hands building for \$100 per foot.

The purchasing committee was given instruction to look these propositions over with full power to buy if suitable for use.

The city has for some time been looking for additional ground on which to put up buildings for storage of machinery, which heretofore has been standing in the open during all winter weather.

Negotiations were under way to buy additional ground adjoining the present city property but this does not seem to be in prospect.

The Ore livery barn seems to be the most suitable as the city would not have to go to the expense of building. The structure is large enough to house all of the city machinery and after necessary work had been done such as cement floors, repainting etc., would be very suitable.

A lively interest was taken in the statewide prohibition movement and a majority will be reached in fall.

A feature of the meeting was a Men's banquet at the Presbytery church, Wednesday evening, where nearly 100 men were present.

## HAVE OWN TRASHING MACHINE.

Messrs. Thomas and Albert Smith of Thompson were the first to purchase a trashing machine. They mentioned the fact that nine of the farmers down there bought a new trashing machine in the county and they are not only doing their own trashing but for all the farmers in that section as well.

During the past they always had to employ a trashing outfit to come along till late in the fall sometimes until there was snow on the ground and they were unable to decide to form a company and buy a machine of their own.

This they are doing and they have decided to form a company and buy a machine of their own.

## METAL TAGS FOR DEER.

Hunters will face a new feature in their handling of deer this season. In addition to the one deer law, each hunter is provided with a metal seal which he must attach to his animal immediately after it has been killed. The new seal is a small metal tag with the lock on one end of the strip of metal which is to prevent the animal from being shot again.

Each seal is provided with each deer license and as there are no duplicates, each seal bearing the number of the license issued in connection with the hunters must exercise care that they do not lose their seals before killing the deer.

Miss Gahn Buckner and Carl Schim Meyer were married at St. Francis De Sales church Tuesday morning at 10 o'clock by Rev. J. P. Schewers and acted as bridesmaid by Miss Rev. Starvo and Jack J. Berry.

After the wedding ceremony a wedding breakfast was served at the home of Mrs. Mina Brooks of River street of which about fifteen invited guests partook. The honors were beautifully decorated for the occasion.

An elaborate dinner was served to the bridal party at the home of Dr. and Mrs. And. Nelson, where the newly married couple will have a honeymoon.

## MANISQUE VS. MEMONIEE.

The game played by the Manistique team at MemonIEEE resulted in defeat, the score being 44 to 0. The boys left here Friday evening and returned Sunday.

The game was called at three o'clock. MemonIEEE kicked off to Manistique who received the ball with great speed and dashed up the field. Down after down was gained with Manistique being the winner. The home boys led MemonIEEE to almost a defeat in the first half. The team was also crippled up by a great deal from the Gladstone and Newberry games.

MemonIEEE star end was put out of the way in the 3rd quarter on account of two broken ribs. He played an all around game as well as his teaming and kicking. Even MemonIEEE rooted for him so I guess they didn't try to kill him. He is in fair condition and it is fully recovered for the Sox game we will do some more scrapping for him. It is feared he will not be able to play any more this season.

Manistique was rendered poor decisions at times, but of course one coach is enough. The home boys won two games yet to play and we can feel sure they will make up for the games they lost.

They are taking a week's rest now and then will be in training again under the expert coachmanship of Mr. Culver.

Mr. Culver also deserves credit for his team work and sure is a fine coach. Ask the boys, they'll tell you.

The line-up:

Manistique: L. E. Patterson, Burns, Haines, Claussen, Kohlbeck, Christensen, Erditz, Moran, Truett, Daniell, Smith, Reforpe-Baumen.

MemonIEEE: L. E. Patterson, Burns, Haines, Claussen, Kohlbeck, Christensen, Erditz, Moran, Truett, Daniell, Smith, Reforpe-Baumen.

## FOUND DEAD IN BUNK IN STROM & SUNDLIND'S CAMP.

### Matt Anderson Found Dead in His Bunk Saturday in Strom & Sundlind's Camp.

Coroner Kefauver was notified Saturday morning that Matt Anderson was found dead in his bunk that morning in Strom & Sundlind's camp about fourteen miles north of this city.

Deceased in company with several of his friends had been in Manistique the day previous and had been drinking heavily. On their return to camp they also brought a supply of whiskey with them of which Anderson partook freely and late in the evening threw himself across the bed with removing his clothes.

The next morning when it was time to get up and to go to work some of the men tried to arouse Anderson when he failed to rise he was found dead, not having died from the effects of alcohol sometime during the night.

The body was brought to the city and was prepared for burial at Gunnarson & Kefauver's undertaking office. Matt Anderson was a native of Finland about thirty-five years of age and single and had been in this country for a number of years, and lately employed by Strom & Sundlind who employs about twenty-five men.

A funeral was held Monday from Gunnarson & Kefauver's establishment.

## HALLOWEEN OBSERVANCE.

HallowEen, which occurs on Sunday, Oct. 31, will be observed in its usual manner this year. It is expected that the celebrated football falls on a Sunday will not deprive the youngsters of the fun that HallowEen always affords. It has been customary, in a case of this kind, to celebrate on the Saturday previous.

The celebration of HallowEen, which was formerly known as All HallowEen Eve, has been established by long years of custom. The feast occurs always on the last day of October, or the vigil of Saints day, the feast of which occurs on November 1st.

The evening of HallowEen is also an occasion for parties and social times, where both young and old enter into the spirit and forget all worries and cares. The authorities do not molest the perpetrators of the more innocent pranks, but violators of the law will be dealt with severely, and some jokes that are a little too practical will have to be dispensed with.

E. J. Neville Chosen Grand Warden—1916 Session to be Held in Saginaw.

E. J. Neville and W. G. Stephens returned from Bay City Saturday night where they attended the Grand Lodge Session I. O. O. F., the former a member of the Grand Lodge and the latter as a delegate from the Manistique Lodge.

E. J. Neville brought home with him the promotion of Grand Master and will soon be in line for the highest office.

Mrs. John Erickson who represents the local order of Rebekahs at the Grand Lodge session returned last Monday.

Mr. John Gillingham who also was delegate from the local order went on a trip to Toronto and vicinity after a member of the Grand Lodge and will return until later.

We take the following from the City Times in regards to the session.  
The Grand Lodge of Old Fellows may decide to hold the next session of the order at Saginaw in 1916. The name of no other city has been brought before the session. The session vote on the election of officers was taken last June was cancelled yesterday afternoon, and this morning the result was raffled. The following officers were elected:

Last evening at the Armory the session of the Grand Lodge was continued, followed by the compilation of the Grand degree by Fenton Lodge, of Fenwick.

A grand ball followed the session and the hall was artistically decorated for the occasion. The attendance was very large and the affair proved enjoyable in every sense of the word.

The Rebekah assembly was awaiting action by the grand lodge on revision of the constitution and this important action will be taken, it is expected, on a few unimportant changes in the laws of the auxiliary.

### PRESIDENT E- PRESSES THANKS

Sets Thursday, Nov. 25, as Day to Send Up Prayers.

President Wilson today in a proclamation designating Thursday, Nov. 25, as Thanksgiving day called attention to the fact that the most of our soldiers are in the army.

"Another year of peace has been vouchsafed us," he said; "another year of our duty to ourselves and to mankind but also to the many responsibilities which have been laid upon us by a gracious Providence by more and more abundant crops."

Rev. C. M. Knighton, Havana, Fla., writes: "For three months I suffered intense pain in the kidneys and legs and while we have asserted rights we have been able also to perform duties and exercise privileges of success which have been denied us to serve to demonstrate our desire to make the offices of friendship the means of truly disinterested and unselfish service."  
"Our ability to serve all who could avail themselves of our services in the midst of crises has been increased by a gracious Providence by more and more abundant crops"

EVERY WOMAN A LOVER OF FURS

"Every woman is a lover of Furs" says A. B. Shubert, president of A. B. Shubert, Inc., Chicago, U. S. A. The largest House in the world is making the American Raw Fur. Their love for Furs demanded that all garments for women wear be trimmed with Fur. The garment makers said, "This Fall we will trim all ready to wear garments with em-broidery." "Nix on embroidery, we said. Fur trimming and they got it. The result was, everything we light the exception of her nightie, is trimmed with Fur. That is what cleared out the old storage Raw Furs and depleted the stocks in the hands of the Raw Fur dealers, the dressed Fur dealers, the manufacturers and retail American First" if you want to sell your goods and brought to light the fact that we could get along without Europe if we had to, and still Market the collection of American Raw Furs. It was a case of "See me when you buy." You can't keep a squirrel on the ground nor can you get the price of American Raw Furs down so long as women want them.

Mr. Lawrence Tucker of Marquette arrived in the city Monday evening. Mr. Tucker will be employed in the acetone plant at the furnace.

**CORNER STONE**

**LAI D TODAY.**

Michigan's formal recognition of the largest woman's fraternal benefit society in the world will take place in Port Huron today, Friday, Oct. 22nd, when the corner stone will be laid for the new Home Office Building of the Woman's Benefit Association of the Michigan Territory. The society, Miss Bina M. West is the supreme head.

This structure, when completed, will represent an outlay of \$200,000 and is the only one of the kind exclusively for women in the United States or, in fact, in the world which has built and owns its own building. The corner stone will be laid with Masonic ceremony by the officers of the Grand Chapter of Michigan. Governor Ferris and his staff and men prominent in the public and professional life of the state will be invited to attend and many have signified their intention to be present. Among these, at the present time, are Messrs. Townend and Smith, Attorneys General Fellows, D. P. Markey, Supreme Commissioner of the Macceze and many other distinguished persons.

The Woman's Benefit Association of the Macceze, formerly known as the Ladies of the Macceze of the World, today boasts of 186,000 members, has a balance reserve fund of nearly nine million dollars and has paid benefits since its inception in the sum of over twelve million dollars. These figures are given to convey some idea of the magnitude of the Association.

This building is not erected at the expense of any of the 186,000 women who compose the membership of the organization. No member will have to go down in her pocket to contribute one penny towards the construction. Every cent that is put into the fund will be raised from profits in values so property already owned by the organization.

The Woman's Benefit Association was founded 23 years ago by the Miss Bina M. West. At that time Miss West went into debt for the million cent sum of \$150 to launch her ideal. Today the Association has nearly nine million dollars in its exchequer and is growing rapidly.

The building will be a two-story fire proof construction. The plan of the building forms a rectangle one hundred and twenty-three feet by one hundred and four feet. It will be modern in every detail and nothing will be overlooked to make it ideal for the purpose for which it is constructed.

Women of action are the guiding spirits of the Association. Miss West has surrounded herself with some of the brightest fraternal workers in the country, included among them are Miss Frances D. Hartig, Supreme Record Keeper, and recognized as one of the most reliable actuarial authorities in the United States; Mrs. Alice B. Locke, Assistant Supreme Commander; Mrs. Nellie C. V. Heppert, Supreme Lieutenant; Commander, who resides in Akron, Ohio; Dr. Elizabeth M. Hooper, Supreme Medical Examiner; Mrs. Alberta V. Drouelle, Great Commander of Michigan; and others.

**To the Potato Growers of the Upper Peninsula of Michigan:**

The Department of Agriculture at Washington, D. C. and the Michigan Agricultural College, have for two years been doing special work on potatoes. There were four men employed in 1914 from July 1st to Oct. 1st. In 1915 there were eight men employed in the work of instructing the growers of potatoes in the identification of potato diseases and the methods of eradicating and controlling these diseases, also the standardization of varieties, seed selection, better cultural methods, spraying to prevent late blight, in fact, all that pertains to better potatoes. When better potatoes are grown, better markets will be secured.

These departments co-operating in the Upper Peninsula are making the experiments to see if the grower will co-operate with them in all this work. If he does, the work will be done. If he does not co-operate, the work will cease.

Last year the Commercial Club at Marquette with the co-operation of the Upper Peninsula Development Bureau, held a potato congress at Marquette. This year, Oct. 27, 28 and 29th, the Marquette Commercial Club will hold the Potato Congress at Marquette. The men that were responsible for the work on potatoes in the Upper Peninsula from Washington and from the College were at Marquette last year and will be in attendance at Marquette this year and unless the potato growers can show an improvement in the number, exhibits and quality of exhibits, this work will cease. I know it has been a bad season, but any potato grower that wishes to do better, send an exhibit to the Congress. It is up to the potato grower. Will you co-operate? Do you wish to do better? If so, send a good exhibit to the Congress. Write John D. Mangum, Secretary, Marquette, Michigan, for tags and instructions. DO IT NOW.

W. F. RAVEN, Extension Specialist and Representative for Michigan College.

**EDITORIAL NOTES.**

Reports from Menominee convince the average citizen that in his own brewery controlled city to report fairly upon local option positions is not a matter to pass through a needle's eye.

Some of the politicians say that Roger A. Andrews, publisher of the Menominee Herald-Leader, came back from California just for the purpose of running for congress. From the kind of errors the present congressman in that district, Frank Scott, makes every time he opens his mouth, we imagine that beating him for the republican nomination would be a comparatively simple matter. At the same time we believe that Mr. Andrews can do more valuable service to his town and the people thereof if he sticks right to the job of running that newspaper and keeping it filled with "pep."—Mining Gazette.

No lover is as ardent as an old lover, is again exemplified in President Wilson. He has recently installed a private telephone line from his dressing room in the White House, to the boudoir of his affianced. They now can talk wherever the spirit moves them, and no outsider can "cut in" on them while they are engaged in conversation.

The best speech made before the board of supervisors Tuesday forenoon, was made by a lady, and her remarks were addressed to Attorney Cuddy. The remarks were so direct that the veteran attorney now on option fights, momentarily hung his head.

HALLOWEEN DANCE. There will be a Halloween dance and supper at the Miller Hall at Marquette, on Saturday evening, Oct. 30th. There will be good music and a good time, everybody is invited.

DISPOSED OF HIS PROPERTY. Mr. And. Rian of Metropolitan has sold his property on Oak street to Mr. E. O. Clement. The property is occupied by a barber, and has a garage and repair shop and has made arrangements with the new owner to remain in the building.

TWO CHILDREN DEAD CROUP. The two children of J. W. Nix, Cleveland, Ga., have died of croup. Both got so choked up they could hardly breathe. I gave them Foley's Honey and Tar and nothing else. It completely cured them. Contains no opiates. Cuts the phlegm; opens all passages. Sold everywhere.

### THE MARQUETTE POTATO CONGRESS

The Second Annual Potato Congress Held at Marquette This Week a Success.

A good-sized first day crowd witnessed the opening Wednesday afternoon of the second annual Governor and Potato congress in Guild Hall, the largest exhibition of potatoes that has ever been shown in the Upper Peninsula. The number of exhibits reached the 600 mark and it was almost impossible for the committee to find a place for exhibiting all the exhibits and placing them before the opening of the show. Those who visited the show were greatly surprised at the magnitude of the exhibition, as it had been feared that because of the poor potato crop this year the show would not be as large as was anticipated several months ago. Adverse potato crops had undoubtedly had some effect on the show and caused the number of exhibits to be considerably less than would have been the case had the crop been up to standard, but notwithstanding the crop barrier, every square in the peninsula is well represented at the show and there are many more bushels of potatoes on exhibition than were shown in Michigan last year.

The potato congress meets with the hearty approval and has the support of the majority of U. P. farmers. The committee in charge, which Secretary Mangum has removed from many to whom he sent requests for exhibits. A good example of the cooperation which Mr. Mangum is having in his efforts to make the show a success is contained in a letter from the Whittier Marble Co. of Manistique, prominent potato growers of Schoolcraft county, which W. B. Thomas, the manager, says:

"We are not enabled to make as large an exhibit as we did last year, but we want to help the Cleveland potato congress as well as the Marquette Commercial club in making the congress a success."

### USE OF SULPHUR FOR CONTROL OF POTATO SCAB.

An agricultural scientist has been carrying on investigations to obtain data regarding the effectiveness of sulphur in the control of potato scab and his preliminary report has been received by the Department of Agriculture. The results thus far obtained indicate that sprays of sulphur are more satisfactory than full applications. The benefits derived from the use of sulphur were readily applied to land where no cover crop had been given the preceding season than on land where such a crop had been used. Seed treatment with formaldehyde and the application of sulphur to the soil gave better results than the sum of these two treatments used separately. Broadcasting of the sulphur on the soil after planting is considered the best method of application. When used in connection with fertilizers, sulphur was found more effective with ammonium sulphate than with sodium nitrate, and acid phosphate than with steamed bone, and with maricite than with sulphate of potash.

### ENORMOUS EARNINGS.

Steel manufacturers are predicting that the United States Steel corporation will be able to show earnings of \$50,000,000 in the current quarter at the rate of \$200,000,000 a year. Financial experts point out that if the corporation could maintain its present basis of earnings for a year, it would be able to pay 7 per cent on its preferred stock at 5 per cent on its common stock and still have a surplus of \$100,000,000. It is estimated that the question of retaining dividends on the common stock is likely to be taken up at the January directors' meeting.

### THE OLMSTEAD FUNERAL.

Died at the Rutledge hospital, Manistique, Mich., of valvular heart disease, Robert Olmstead, aged 24 years.

The remains were brought to Garden on the 20th, to the residence of his aunt, Mrs. Theodore Hazen, and the funeral services were held at the congregational church of this village on the 21st. The Rev. Mr. Ainslie of Rapid River, was officiating.

Robert Olmstead was a son of William Olmstead, formerly of Garden, but now a resident of California. He was the son of Sheriff Alton Olmstead of this village. He was brought up and educated by his maternal uncle, Miles A. Coleman of Eagle River, Wis. He had attended a Chicago medical college for two years, but his health failing, came up to this northern country, thinking a short vacation would place him on his feet again. He had been in the village for some weeks, but about a week before he died, he was taken to the Rutledge hospital for treatment, but the case was hopeless, and the Grim Reaper claimed him for his own.

The funeral services were attended by a large concourse of sorrowing friends and relatives, among whom were his father, Howard Olmstead, and Miles A. Coleman, both of Eagle River, Wis.

### SAME CONDITIONS PREVAIL HERE.

The following item taken from the Press was handed to us by one of our business men, asking for its publication and stating that the same conditions prevail here.

We have finished, for the third morning in succession, cleaning off the fallow, soap, or whatever it may be, that has been smeared on by young vandals who are allowed to roam the streets nights and disgrace the store fronts of business men, who are spending much time and money decorating their windows in an effort to make them attractive.

We have a regularly constituted police force whose business it is to preserve the peace and protect property in our city but we never hear of any of these young rowdies, being called to account for any of these demerits that cost busy business men so much money, work and worry. If a business man should catch one of these boys in the act of smearing up his windows and should box his

ears for it, he would be hailed into court and fined or imprisoned for assault and battery and yet the police are either unable or unwilling to give us any relief. If they would catch a few of these boys and make their parents pay a stiff fine they could put a stop to it.

A number of Manistique bloods came to grief Saturday night when they tried to butt in at a private dance held at the Hutchins Grange hall, which ended in a free for all fight, in which the "city champs" evidently got the worst of it, judging from the mourning eyes, scratched noses, swollen chins and swaddled fingers that appeared in the city the following morning. The sheriff was called out but found everything quiet on his arrival but there is still talk of arrest.
