OLD RESIDENT CALLED BEYOND

Mr. Daussey Succumbed to The Grim Reaper Sunday.

Mr. Peter Daussey, an old and respected citizen, died at his home on Ave. Saturday afternoon after a long illness of four months suffering. The deceased was born in New York State, Aug. 15th, 1830 and was seventy years old at his last illness. When a young man he came to Illinois and later to Escanaba where he kept a grocery store for about twenty-five years ago. He came to Manistique and lived here until his death, working for the C. & N. P. for the last few years. He was at the time owner of the S. C. poor farm near Thompson.

Three years ago he was married at the old plant home on Main street to Emma Krulich, who with her children, are left to mourn his death.

Mr. Daussey was always a cheerful disposition and respected as a citizen in the community. The survivors are besides the widow, five children, Mrs. Fred Merwin Newberry and Mr. Peter Daussey (this city, who has been making his home with his parents. There are also three brothers as follows: Joe Daussey of Muskegon, Steve Daussey and Edward Daussey of Escanaba. Steve Daussey is at the present time a very sick man at the hospital and is not expected to live. The funeral was held from the Catholic church Tuesday morning at 10 o'clock and Rev. B. J. P. Schevers officiated.

The pallbearers were all old friends and neighbors of the deceased, John David, David Lamare, Antoine Vinet, St. Bonifacio, Napoleon Neveux and Richard Cooper.

The floral offerings were many and a large number of relatives and friends followed the remains to the cemetery.

We have just received a lot of tulip, geranium and hyacinth bulbs for fall planting. FRED GREENWOOD, 160 GARDEN AVE., Up-stairs.

The connection with the new water works is being made this week.

SHOT WHITE DEER FURNACE RUNNING FULL BLAST

J. E. Miller of Detroit Lands Michigan Deer First Day.

J. E. Miller a member of the Forest Home Hunting Club, of Detroit, who with other members are hunting Michigan deer the first day he was out. The deer is a buck weighing in the neighborhood of 80 pounds and is a fine specimen and Mr. Miller who is a justly proud of his luck has shipped the deer home and will have it mounted.

The white deer seems to be scarce in the woods and it is a number of years ago since W. L. Middlebrook succeeded in landing one that was later mounted by Cass, Howard, our taxidermist, and while exhibited in the Middlebrook store window created considerable attention.

HAD CLOSE CALL

Lozes Roll Off Car on Soo Line Tracks Narrowly Missing Brakesmen.

While switching two cars loaded with hardwood logs and a spring of emulsion from the Manistique paper plant on to the Soo Line tracks Wednesday afternoon the logs on one car became dislodged and tumbled to the ground on both sides of the car. Three brakesmen, Harry Albin, John Podelsky and Roy LaBar, who were riding on the empty, next to the logs, jumped and thereby escaped death or injury by the skin of their teeth.

CAUGHT IN THE ACT.

Two men, one married and two women, one married, were caught last Sunday night at the Alcoler cottage at Harrison beach by parties who for some time have been watching for just such an opportunity.

The names of the parties are not known and arrests will no doubt follow shortly.

Phone No. 41 for best quality poultry, oysters and celery for Thanksgiving.

CHARCOAL IRON CO.'S PLANT IS RUNNING TO ITS FULL CAPACITY IN PRODUCTION OF IRON AND BY-PRODUCTS.

The Charcoal Iron Co. of America's local plant is now making its full capacity of iron, alcohol and acetone and other by-products and manager Edmondson says that the trouble encountered since the plant started up is almost nil.

There are still many improvements going on and some under contemplation, among the latter being a new adequate office building.

The new laboratory is expected to be ready in about ten days. It is a 30x50 foot brick structure and will be modern in every way including a small ore crusher and backing bog for determining the qualities of the ore. Mr. Walter Simel is in charge of the laboratory.

A new house 32x176 feet has been completed into which eight cars of ore can be placed at one time in order to haul out the frost of the ore, preparatory to dumping it into the stack.

FRACTURED HIS HIP

Steven Mois a Greek Employed at Tannery Is Injured Saturday.

While working on a setting machine Saturday at Northwestern Tannery Co.'s plant, Steve Mois, a Greek, fell in such a manner as to fracture his hip by the weight of his own body.

The injured man was placed in an auto and rushed to the Rutledge hospital where the fracture was reduced and he is now resting comparatively easy.

GOV. OFFICIAL HERE

Mr. Louis Stoddard of Milwaukee Lighthouse Inspector for the Twelfth District Here Saturday.

Mr. Louis Stoddard of Milwaukee, lighthouse inspector for the twelfth district, was in the city Saturday looking after the work that has already been completed and that which is under way.

On account of the lateness of the season, causing much delay in the progress of the work in construction of the lighthouse and fog horn service, it was decided to discontinue the work for this year and leave the remainder until next spring.

The Smaas which has been here during the past two weeks, working on the lighthouse tower left yesterday on its way to pick up lightships and boys preparatory to the closing of navigation.

WILL INITIATE CLASS

Manistique Encampment to Initiate Large Class of Candidates—Will Banquet.

The Manistique Encampment, No. 13, I. O. O. F., will initiate a large class of candidates into the mysteries of the order on Thanksgiving day, Nov. 25th in their new quarters in the Castello-Blumrosen building and all members are requested to be present.

After the initiation an elaborate supper will be served.

SCHOOL OFFICERS MEETING.

School officers of Schoolcraft county will meet at the court house, Tuesday, Dec. 21 at 10 a. m.

William Chapman fell against the door of his car Tuesday in such a manner as to break one of his ribs.

AGED MAN SEVERELY BURNED

Thomas Powers While Intoxicated Tips Over Lamp and Fatally Burned.

Thomas Powers an old lumberjack, 71 years of age, living in a shack near Camp 22 near Cooks, was brought to the city Saturday in a serious condition from burns received when he tipped over a lamp while intoxicated.

The old man was visiting at Net. Johnson's, another shack and together they became intoxicated and none of them really remembers how it happened. He had severe burns about the shoulders and upper body.

Poor Commissioner John Hruska and Dr. Roos were called later and took Mr. Powers to the county hospital in order to give him proper care, but not much hope is held out for him on account of his advanced age.

Thomas Powers is a veteran of the Civil war and at one time had a wife and a child but in late years lived alone in his shack at times working in the woods.

BIG SUCCESS

M. Blumrosen Reports Cash Konverter Sale Largest in Years.

Judging from the pleased and well satisfied people that attended the Cash Konverter sale at Blumrosen's, one would have no difficulty in seeing that this sale offers some very attractive as well as unusual savings.

Almost any minute of the day one may see people with their large bundles passing out by their large bundles.

Mr. Blumrosen said that this is the largest and most satisfactory sale he has ever conducted and the reason is real bargains; not the make believe kind that has fooled the public time and again.

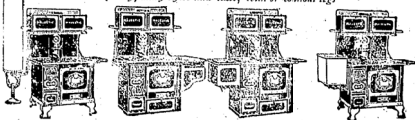

This sale is to continue for only 5 more days and will close Saturday, Nov. 27th.

Great Majestic Range

Makes Thanksgiving a sure success!

Thanksgiving Day emphasizes the importance of a good range. When all eyes are averted with prospects of a local turkey and dressing when minds are busy on the evening of pumpkin pie; when young and old folks and relatives are eagerly questioning "When's dinner going to be ready?" and when your best interest is making a big success of the big meal—then is when you fully appreciate the range that always makes a success.

OFFICIAL COUNTY AND CITY PAPER

EDITORIAL COMMENT.

Strange, isn't it, that the man who persists in stirring is never troubled with insomnia.

Hunters are rejoicing of the fine fall of tracking snow that fell Sunday morning which will no doubt enable them to fill their license and they may be some.

Constantinople is preparing for a visit from the Kaiser. It is now known that the expedition of the Allies to the Dardanelles, was a rank failure.

The writer was visited at Chicago during the past week by Moses P. Winkelman, D. G. Currie and Leonard Winkel. Their visits were very much appreciated.

A prominent Bull Moose states that Roosevelt would run for the presidency if he were certain of being elected. So would a number of other fellows, no doubt.

What is the matter with Iron county, is there an unwillingness upon the part of officers to enforce local option or has everyone in the county turned "blind-pigger?"

Commencing with Monday of this week, the Pioneer-Tribune office has inaugurated a nine hour day. The office therefore closes at 5 o'clock instead of 6 o'clock as heretofore.

A Democratic editor who is whistling to keep up his political courage says that no one has thus far been ascribed that would stand in protest of a show of defiance Wilson. What's the matter of Hughes or Osborn?

The Ann Arbor carriers touching at this port will hereafter carry no passengers. The change in policy is due to the weakness of the seaman's bill which is now in effect. The provisions of the law make it impractical for the company to continue in the passenger business.

Through the activity of Editor Barton of the Rhineland News, the Sunday edition in that city is a thing of the past. He started the agitation and the W. C. T. U. petitioned the mayor to close them. As a result of this agitation, the mayor notified the saloonists to close shop Sundays and they are doing it.

With the snowfall this week came the jingles of sleigh bells, the laughter of children who enjoy the snow more than anybody with their sleighs or battle of snowballs. Next week is Thanksgiving and then a few weeks and we have Christmas with its "Peace on Earth and good will to men."

How would you like to be in a business that telephone companies cannot legally serve. In Escanaba the question is being agitated to prohibit the Michigan Telephone Co. from doing business in the state because private residences and saloons and houses of prostitution are being given service on the same lines.

President Wilson, such as it may "grind" him, is contemplating another revision of the tariff—this time an upward revision. He sees that the downward revision was a failure and now he will try the Republican theory of raising sufficient money to pay the running expenses of the government. It must be bitter medicine for a Democrat to concede the correctness of any Republican policy.

England will have to resort to the draft to compel its citizens to bear arms. Able bodied men falling to enlist before Nov. 30th, will be impressed into service. Steamship companies are also ordered not to accept for passage on outgoing vessels any men that are of military age and able bodied. It looks as though the men will have to fight.

A Delta county supervisor, who was urgent in his contention that the valuation of Gladstone be raised \$62,000, because its personal valuation was too low, forgot to assess his own horse, according to the Gladstone Delta, and when his attention to the oversight was called he stated that he and the horse had been traveling about so much that the horse had not been long enough in any one place to be eligible to taxation.

A spectacle to make angels weep is to see those fat-jawed pot-bellied Chicago saloon-keepers, making pilgrimages to the state capitol to confer with the governor relative to legislative action changing the liquor laws so that the saloons of the "Windy City" can remain open Sundays. A special session of the legislature is scheduled for this month to take up other matters and the saloonists deem this an opportune time to take their plaint to the legislature.

The possession of money is not always conducive to happiness. A young fellow in Chicago recently committed suicide notwithstanding the fact that he had recently inherited a million dollars. He lived with his mother in a handsome home on Michigan Ave, possessed three automobiles, a bull dog and other junk that the rich must surround themselves as hall-marks of their standing. During his training he had taken a wrong viewpoint of life. He had been "buffeted" about as in the average boy. He met a disappointment in love and did not have the force of character to withstand defeat.

EDITORIAL COMMENT.

Michigan owns automobiles to the value of \$91,000,000.

The crisp atmosphere heralds the advent of luck-about cakes and little pig sausages.

This is the season of the year when the cemeteries are filling with men who were mistaken for deer.

An expert in the matter, Mr. L. M. Gelsmar, states that no farmer possessing ten or more cattle can afford to be without a silo.

Germany is to observe "meatless days" at frequent intervals. That's easier than to do without meals of a substantial nature for a month or two.

While you have it in mind, forward your check or a money order to this office to apply an subscription account. We need the money, and we have earned it.

A Russian general had the misfortune to have his fortress captured by the German army, and as a result was presented with a fifteen year sentence at hard labor for his "neglect of duty."

When a preacher, so-called, comes out in public print; in opposition to local option and prohibition, one instinctively senses the close of the article to ascertain the name of the brand he is using.

Three people were killed by autos in Chicago Sunday. This makes eleven killed and twenty injured in three days. It is more dangerous to traverse the streets of the average large city than it is to go hunting in the north-land.

The Anti-Tuberculosis Society of Michigan will endeavor to sell four million Red Cross Stamps during the holiday season. This makes eleven times in years past and it is sincerely hoped that the record of previous years will be exceeded by our little city.

The meetings of the city council at P.M. are opened with prayer until a regular chaplain is appointed the various ministers of the city will donate their services. The idea is not a bad one, and P.M. can lay claim to being the first city in the state of Michigan to adopt the plan.

Much of this page was written while the writer was undergoing a long fast, and it is certainly a hard task to write when one's thoughts tend toward pork roasts, ribs roasts, porterhouse steaks and sausage and pan cakes. At the end of the seventh day even grass would taste good.

Serbia is really getting what it deserves. The present king of that country gained ascendancy as the result of the brutal assassination of his predecessor and his queen, several years ago. Then, so the present war was really caused by the assassination of some scion of Austrian royalty during a visit to Serbia.

Menominee's best sugar company on Saturday, Nov. thirteen sent out to Menominee county and other nearby county farmers checks amounting to \$814,898 for sugar beets delivered in October. Next month the same company will send out checks to the farmers for one hundred and sixty thousand dollars. Can you "beet" it?

A few days ago the writer who is yet in Chicago for treatment, met a fellow patient that became interested in Cleveland as the result of the conversation. We presented him with a Schoolcraft county booklet, and he has now decided to locate in the county next spring. He thinks that the north is the coming country, and has given the writer a list of names to which he desires similar literature sent.

Now another big boat has been sent to the bottom. This time by an Austrian submarine. That will mean that the secretary of state at Washington will find it necessary to write another note. If there are Americans among the people lost on her the note will have to be very harsh indeed. And we shall have another crisis. Following which nothing will be done and the administration at Washington will get another credit mark for keeping us out of war.—Mining Gazette.

CHASE S. OSBORN AS A DARK HORSE.

If the Republicans next year should pick a dark horse candidate from another state they would have hard work to find a man of presidential calibre more acceptable in Indiana than would be Chase S. Osborn, formerly Governor of Michigan. Mr. Osborn was born, reared and educated in Indiana. He was engaged in newspaper work in this state before he went to Chicago and Milwaukee and afterward to Michigan, where he has had a career in which Indiana takes particular pride.

Mr. Osborn, if he were the choice of his party, would appeal much more widely than some who have been mentioned as Republican possibilities. He made an enviable record as Governor of his state. He has fought machine politics, stood consistently for efficiency and economy in public business. While his sympathies were with Col. Roosevelt and against those in charge of the steam railroads at the Chicago convention, he remained in the Republican party.

It is likely that the Michigan delegation next year would give his favorite son, endorsement, on preliminary ballots, to Senator William Alden Smith and Mr. Osborn would do nothing to interfere with the interest of the senator's friend. But, as a second choice, he might be chosen for nomination in the convention and certainly would be throughout the country if he were selected to head the ticket. He has energy, initiative and a record that would appeal alike to those who are strong for Republican regularity and those who place principle above party. He is of the type of man who could rally to the G. O. P. standard and those who were alienated in 1912, who could rescue it from the clutches of standstillism.—Terry Hunt Star.

SOO VS. MANISTIQUE

The Lock City Boys Beat the Manistique Lads 33 to 0.

A whole year's hope was completely satisfied when Central high school's football team won through the Manistique lines at Port Huron Saturday afternoon and hung up a 33 to 0 victory in the final game of the 1915 season. Ever since last season, when the Manistique held the locals to a 8-8 score in the former city, the teams of the town have been patiently waiting to settle old scores with the visitors. Tales of last year's game with the result, that every member of the squad went to the game with a determination, and that same determination was more particularly in the second period.

During the first half the Soo team did not play in its customary form. Manistique really outplayed the locals, although this period ended with a 6 to 0 score in favor of the Soo. Only at intervals did the Soo show any of its usual aggressiveness while the visitors were plugging every minute of the time. And the Soo braced up in the second half it is likely that Manistique would have scored had not the conference with his men apparently had its effect and the Soo showed some of its old time form in the second period.

Manistique's backfield was its big asset. Quick and Goudreau pulled remarkably well, both pulling off goals and running the line hard. The backfield invariably got the runner good interference and at times in the first half the Soo line was unable to stop the rushes of the visitors.

Faure and Laundry were the Soo's best ground gainers although Pohl and Johnson advanced the ball quite a good deal. Kelly and O'Neil, tackles, were brought out a number of times and sent through the line for gains. When the Soo's backfield "lets" they are freed up in a second period it was practically impossible to stop them. Laundry picked big holes and at one time ran about 35 yards for a touchdown. Parsille plunged and battered the opposing line in his usual form and the husky fullback never failed to gain.

Although intense rivalry existed between the two teams all "rough stuff" was practically eliminated. Time was taken out a number of times for Manistique men who were slightly injured.

WHY POTATOES WILL BE HIGH IN PRICE.

Law M. Gelsmar, agriculturist of the Houghton county farm bureau, says it is necessary to explain why potatoes are going to be high in price this winter. Gelsmar has asserted that prices are high because of erroneous statistics of short crop. Mr. Gelsmar has been at some pains to get the figures.

The government reports for September apparently fixed the price of potatoes for the year because it showed at that time the prospective crop equal to that of 1914 for the entire United States. But analysis of that reports shows a shortage in Maine, New York, Michigan, Pennsylvania, Wisconsin and Minnesota of 20,000,000 bushels. That fact would not affect the price in September as the potatoes are scarce. These states are dependent on to furnish the potatoes of the United States in the winter. The crops of all other states are exhausted by the time those potatoes begin to come on the market.

The Detroit government reports shows a shortage of 37,000,000 bushels in the six states named and an additional shortage in other states to make the total deficit for the entire country 90,000,000 bushels. There is as a matter of fact only 50 per cent of the winter supply of the United States available. Another reason for a probable high price in the winter is that Wisconsin and Iowa, the two states which grow the light and Wisconsin growers are marketing their potatoes as rapidly as possible because they know their potatoes are likely to keep through the winter.

Houghton county has not a normal crop of potatoes but those on hand are of good quality. The farmer can get seventy-five cents per bushel for his crop, as compared with forty cents in 1914, and he will not receive as much money all told as he did last year. Because of the shortage in the county Mr. Gelsmar was unable to fill an order for a carload of potatoes for Captain Cochran of the Greenway Michigan football team. No farmer in Houghton county was prepared to put a price on his potatoes at that time.

Pennsylvania is one of the big potato states but there is evidence of a shortage of potatoes there also. Yesterday received from the Allegheny county insular asylum a report from the asylum that the quantity of potatoes that might be available in this county. The asylum evidently cannot supply its demand in its own state.

CITY TO BLAME.

The following is taken from a Chicago paper about the Eastland disaster:
"Divers went to the bottom of the river to examine anew the spot where the Eastland capsized on July 24 with a loss of more than 800 lives last night strengthened the theory that three great timber piles, protruding three or four feet above the bottom of the river, may have overturned the boat. Instead of being close to the dock, the timbers are eight and a half feet in the river, and instead of being flimsy affairs, they are four feet in diameter. Two of the divers were sent down by a law firm which represents the St. Joseph-Chicago Steamship company, the officers of which were indicted for their liability for the disaster. The third went along to observe the work for the city.
"William Downey, Frank Sullivan and Fritz Bidhausen are the divers, they assisted in removing bodies at the time the boat sank, and Downey saw the one pile then. Last night he said there are three.
"These piles are out from the dock eight and a half feet," he said. "They are forty-eight inches in diameter, and stand up between three and four feet from the bottom. They are fourteen feet below the surface of the water."
"Edwin F. Sweet, assistant to Secretary Roddick of the Department of Commerce, announced on September 21 that it was three wooden piles in the bottom of the river which caused the boat to turn over. He said then that two were 14 feet below the surface and one only 10 and one-half feet.
"At that time the story was denied. Harbor-master Adam Wood said that government divers had inspected the place and found no piling at all except one slight pile, which would not have overturned the boat."
"The United States District Attorney's office, also, announced at the time that divers had platted every foot of the bottom, and that the prosecution was sure of its position that no piling was there.
"Divers for the steamship company tried to examine the river bed on October 26, but were hindered by Harbor-master Mouthouse of the city public works department.
"They were permitted to work yesterday on condition that a city diver accompany them."
"Mr. Oren Quick who with Mrs. Quick has been in Chicago for the past ten days, returned home Monday morning. Mrs. Quick's return late this week. While in Chicago they called upon the Manistique contingent at the McFadden Healthorium."

TO THE CITIZENS AND TAXPAYERS OF MANISTIQUE.

I wish to thank all my friends and supporters for the support given me both during my election to the office of Alderman, also for the manner of conducting the election. I took a long holiday that office.
"Of the number of meetings at which I am shown up to have been absent occurred some time ago while I was absent from the city at that time, but at all times when I was present I was very attentive to the duties of my office. In several other instances and in one particular case I was absent for a much greater time than in my case and the affair was handled over without mention. I was at my place of business at which place it was agreed if anything of note was to be brought up I was to be called, for this purpose I had a phone installed in the theater. Since will not allow me to give a list of the stands I have taken but a glance at the council proceedings will show that I have always stood for what was right and beneficial to the citizens of our city regardless of what the other fellow wanted. Often the stands I have taken has incurred the enmity of the other ring. Records speak for themselves and a glance is sufficient to see that changes or other acts of importance have generally been enacted when a certain few were present and at which time the others present being the minority were mere figure heads.
"In closing I wish to state that I am the working man's friend, have been and always will be whether in a public office or out, my career speaks for itself. Again thanking you for the time taken to read this article, I remain,
W. H. McMULKIN.

HAS RELATIVES HERE.

Noel Mares of Escanaba and a new friend of Emory Trudeau of this city was instantly killed last Thursday on No. 5 ore dock where he was working as a car checker.
"In some manner Mr. Mares fell into an ore pocket, just as it was being unloaded and slid through the chute into the hold of the ship and buried under 50 ton of ore. It took the men an hour to get him out and then life was extinct.
"Mr. Mares was 49 years old and leaves a wife and seven children.
"Mrs. Emory Trudeau and Mrs. P. Sangren of this city attended the funeral and returned home Wednesday.

SHIPPED CARLOAD PAPER.

The members of the Dorcas society of the Swedish Lutheran church shipped 17,353 pounds of old paper last Friday to a paper mill at Kalamazoo.

It took the ladies nearly a year to gather this amount of paper and to see it to rest the highest price possible.
"The money received for the paper will be added to the treasury of the society who no doubt at some opportune time will use it to the best advantage.

FAYETTE WEDDING.

Mr. John Gensleise of Escanaba and Miss Lydia Watson of Fayette, were united in marriage on Nov. 17th by the Rev. Dr. Mitchell of this city. The reception took place at the church at Fayette which was filled to its capacity. A large reception was then held at the hotel where a most sumptuous feast was served to over a hundred or more invited guests. After that most of the guest were taken to a hall across the way where hours were spent in dancing.

Andrew Rian, the Felch business man, has caused it to be believed that he is the victim of cattle thieves or fool hunters. Two members of his herd recently disappeared and a persistent search for the animals has thus far been without results. It is known that cattle thieves have operated in the Wausauban district and it is surmised that Mr. Rian's animals have been butchered by the same gang from Mountain View.

A rat will not gnaw the head of a match, but takes a keen delight in gnawing the wood part. A rat gnaws the wood part away from the head and the finished job looks very much like a log cut by a beaver. He will, however, run with a match in his mouth and when it is against his striking it against a wall as he goes and he also takes a match or two sometimes to his nest. He will build a new against a chimney during the summer and when the fire is started in the fall there is generally quite a number of rats. For a source, Safety Engineering.

The Autopiano

has many and varied uses — as a song accompaniment — for dancing — for playing the classics — Grand Opera selections — the latest topical "hit" — a stirring march or patriotic chorus.

The Autopiano has no equal. Can be played by anyone.

You will surely have something to be thankful if you buy your turkey, goose, duck or chicken, at Frank Peterson & Co.

While scuffling in a friendly manner Saturday in the doorway to the candy kitchen, Sam Wilson and Walter Peterson broke the side window to the store into small pieces, and it was only luck that somebody did not get hurt. About ten years ago the large plate in front was broken and in putting in a new one, one of the work men was badly cut. Inasmuch as Mr. Graphos intends to make some improvements to the front, the glass broken Saturday would have to be taken out anyhow but of course not in its present condition.

YOUNG WOMAN CALLED SUDDENLY

Mrs. John Nessman Died Suddenly Sunday Morning from Heartfailure.

Maria Louisa, wife of Mr. John Nessman of Garden Ave was suddenly taken away Sunday morning while in the act of cooking breakfast and without any previous sickness.

Death resulted from heartfailure and seized her just as she was lifting a bottle from the stove when she stumbled and fell to the floor. A physician who was called immediately tried in vain to bring the heart into action and in a short time she was no more among the living.

Her death is especially sad as she leaves behind six children between the age of four and thirteen, all of whom so well needed a mother's care.

Mrs. Nessman was born in Partom, Vasa Provin, Finland, Sept. 24, 1877 and was just past 38 years of age. She came to this country in 1896, settling down in Thompson, where she in 1899 was married to Mr. John Nessman, who with six children, Aina, Edith, Ingrid, Elna, Stella and Walter are left to mourn her untimely death.

There are also two brothers John and Charles Soderbeck and an aged father and a sister in the old home in Finland. She was a devout member of the Swedish Lutheran church and a member of the Dorcas society and also belonged to the sewing society of the Swedish Finnish Temperance society.

The funeral was held Tuesday afternoon from the Swedish Lutheran church, Rev. A. Nelson officiating, and was very largely attended by relatives and friends both from this city and Thompson. The floral offerings were many and beautiful. The mourning husband and motherless children have the deepest sympathy in their bereavement.
