Miss Helen Crowe, Miss Edith Orr, Stanley Crowe and Paul Crowe left the city Monday for Ann Arbor after spending a short vacation with relatives.

New Y. M. C. A. Home in Jerusalem • Will Be a Symbol of World Peace

New Y.M.C.A. Building to be Dedicated by Field Marshal Almonby, British General Who Made Peaceful Capture of the City in 1918. Inset, left, the late James N. Jarvis, of Montclair, N. J., whose generosity made the building possible; right, Waldo Heinrichs, General Secretary, who will direct the association's work in Jerusalem.

An international effort to promote peace in the most turbulent city in the world, Jerusalem, has taken tangible form in the Young Men's Christian Association's new buildings which will be dedicated in the near future by Field Marshal Edmund Lord Almonby who conquered Palestine in 1918.

Overlooking a scene that has witnessed forty innsations, thirty-four centuries, the new million dollar plant of the Association will mark one of the most significant experiments in international and inter-racial understanding in the history of the world. Included in the buildings are reading, writing and music rooms; social halls, game rooms, lecture halls, a cafeteria, swimming pool, gymnasium and dormitory rooms.

Waldo Heinrichs, an American with a war record that won him the Victory Medal with five bars and four citations, and a Croix de Guerre with palm, is architecturally the "Holy City." The Jesus Tower, rising high above the other buildings, provides a view of more historic ground than can probably be seen from any other eminence in the world.

The new buildings, which were made possible through the generosity of the late James N. Jarvis, of Montclair, N. J., dominate architecturally the "Holy City." The Jesus Tower, rising high above the other buildings, provides a view of more historic ground than can probably be seen from any other eminence in the world.

LEGISLATURE GETTING HOMESICK; WORKING COALITION IS NEEDED

By S. L. Marshall
"Just now it's BEER."
"No one dare guess what it may be."
This is the way Rep. Vern J. Brown explains why the Michigan Legislature is slow in accomplishing the thing it faced and still faces.

Mr. Brown calls attention to the fact that a great many new and inexperienced men were sent to the Michigan legislature this year.

Some of the committees were made up almost entirely of new members. It took them five or six weeks to sort of learn their way about.

Then came the bank holiday.

As this is written the day of politics was the order of the day.

Then came the beer bill with 100 proposed amendments of one kind and another. Every Senator had an idea which differed slightly—and some times greatly—from that of another. It took hours of talk that was as frosty as the proposed 3.2% subject of the controversy.

Spring election over and politics should have been laid on the shelf. But they are still at it. This is a politically-minded legislature with a score of vitally important problems on its hands.

The new beer bill has been in the committee in the House and—'you've guessed it—there are another 100 amendments which have sprouted from the berries laid in that branch of the legislature.

What will the final beer bill look like?

Vern Brown says "No one dare guess."

One of the old-timers at the Capitol commented Saturday "The bill may fly off any minute."

One thing is being demanded by the administration.

Mr. Brown said he will back such a bill as only an amendment will be needed to change the law when, and if, the Eighteenth Amendment is finally repealed.

Gov. Constock is insisting on that.

Someone who goes without the new beer until its tongue hangs out, but he does not intend that there shall be another chance to bicker away weeks and weeks at one later date.

There is now a solution to POND-EROUS PROGRESS and DISTURBING DELAY in Lansing? The legislature needs a coalition leader—needs TWO of them—one in the HOUSE and one in the Senate.

As we observe it, there are about

Forty good, honest, level-headed, straight-thinking Democrats in the House.

There are TWENTY-FIVE or TWENTY-SIX Republicans who come under the same classification.

To date they have not gotten together.

They could and they should.

Such a group in both HOUSE and Senate could easily have their leaders agree with Gov. Constock on a program and put it through.

After all, this is Michigan. They are the representatives of Michigan citizens and taxpayers. They are elected and paid a salary for doing business.

All the counties, all the towns and hundreds of school districts are waiting for the Michigan legislature to act.

In the light of the recent election, Michigan members should know they are on the thin ice. By the same token, Democrats should recall that it was an avalanche of heretofore Republicans who elected them.

While the Democratic slogan was a NEW DEAL, what people really voted for was a BETTER DEAL.

Somebody had better get together or the people back home may decide that the NEW DEAL is not a deal and ask to cut the political cards again.

ITEMS
Twenty-six breweries have incorporated to do business in Michigan since July, 1932.

Ex-Governor Fred F. Green was in Lansing one day last week inquiring about the new horse-racing bill. Mr. Green is still weak from his recent operation. He walked with a cane.

A woman (married) secretary of a state official, disseminating Rep. Atte Debye's "married woman" bill, said "I had always heard that state employees had a snap. I've worked until nearly midnight ever since I've been on this job. What's the matter with that old Dutchman from Grand Rapids?"

Most of the members of the legislature are talking about "getting out of the trenches" by May 15.

Rep. Adolph F. Heidkamp of Lake Linden says it takes six weeks to make good beer. Every day of delay on the beer bill, he says, gives Michigan brewers a better chance to compete with the big outside brewers who will be bidding for the Michigan business.

He favors Michigan beer for Michigan people.

Some of the legislators and most of the new appointees are arguing that the 50% cut in salary does not apply to them.

Howard C. Lawrence, former state treasurer, is handling the tough assignment of conservator of the American Home Security Bank at Grand Rapids, much to the disgust of a host of deserving Democrats.

Gov. Constock is blamed by members of his own party for Geo. R. Hogarth remaining as director of the Dept. of Conservation. They evidently do not know that the director is chosen by the commission, not the Governor. Further, they fail to take into account that two of the old members of the commission, Democrats, appointed by former Republican governors.

Claude Carney who said many mean things about Gov. Constock when they were primary candidates last summer, landed the chairman job in the Labor and Industry Commission. Field farm-Mayor Seegmiller of Owosso, is also a member.

Some observers think the 50% salary cut divided in last week will make easier sledding for the Governor's sales tax measure. If there is to be a pay check, the money must come from some source.

cial market in favor of varieties for which the market is more uncertain. The change in prohibition laws have stimulated an interest in the production of barley but the records show that the additional demand for grain will not be met. It is thought to compensate the possible loss from changing varieties.

For three consecutive years James Crosby, Jr., of Grand Rapids, Mich., has paid more than any other motorist in the state of the parking privilege.

New Bills About Conservation

Lansing, April 20.—The following bills relating to conservation have been introduced into the State Legislature:

H. B. No. 187. Introduced by Representative Brouwer. Would prohibit Sunday hunting in Ottawa County. Passed the House of Representatives and referred to Senate Committee on Conservation.

H. B. No. 189. Introduced by Representatives Clines and Emunson. Would authorize the Board of Supervisors of the several counties of this state to establish open and closed seasons for the taking of game animals and birds and fish and to repeal all acts and parts of acts inconsistent with the provisions of this act. Referred to the Commission on Conservation.

H. B. No. 206. Introduced by Representative Wilson. Would amend the inland fishing law to permit use of set-over nets not to exceed five feet in diameter between sunset and sunrise from April 15 to May 15 for the purpose of taking suckers from such inland lakes as shall be designated by the Director of Conservation. Referred to Committee on Fish and Fisheries.

H. B. No. 324. Introduced by Representatives O'Neil, Barr, Kellogg and Stas. Would amend the "frog law" and provides for the issuance of permits for the taking, propagation, possession and sale of frogs or parts of frogs. Passed the House and referred to the Senate Committee on Fish and Game.

H. B. No. 355. Introduced by Representative Tibbitts. Would amend the general game law to permit the taking of either a buck or doe under a camp license. Referred to Committee on Conservation.

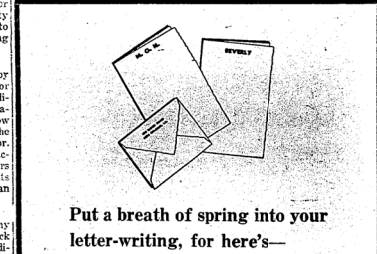

H. B. No. 374. Introduced by Representative Watson. Would authorize the spearing of certain fish in St. Clair County. Referred to Committee on Fish and Fisheries.

H. B. No. 420. Introduced by Representatives Schoenfeldt and Collins. Would repeal the shooting Preserve Law. Referred to Committee on Conservation.

FACTS AND FIGURES
Many times in the course of a year a property owner says to us, "Nobody ever told me that before!"
Frankly we deal in facts and figures. We have found that sooner or later estimates in insurance facts affect the figures. Play safe. Consult us.

PRESIDENT'S DAY

Governor Comstock has issued a proclamation setting aside Sunday, April 23, as "President Day" in gratitude for the accomplishments of Franklin D. Roosevelt...

PREVENT FOREST FIRES—IT PAYS

Citizens in upper Michigan recognize this prevention of forest fires as being good sound business judgment. The far-sighted farmer realizes the safety to property brought about by having his brush in piles before the snow is off the ground...

Recreation seekers have seen the destruction of valuable recreational lands through careless leaving of unquenched camp fires. They know that the few minutes required to completely extinguish their camp fires may prevent the burning over of acres of upper Michigan's forest and recreational land...

Probably the outstanding menace to fire prevention is the careless motorist who thoughtlessly flips his lighted cigarette or cigar from his car to the side of the road. Fanned by the wind these often ignite grass and debris and cause tremendous damage to the upper Michigan forest areas...

The true sportsman is conservation minded and knows that fires ruin the hunting and fishing in the region. He is careful with his camp fire smoking and it is a wonderful thing to hear him tell his brother sportsman to be careful with fire. The other fellow may not be fully acquainted with the dangers and damages of fire, but will realize these points if carefully and continually reminded of them...

THE MISSING FRIEND

I had a friend named Business That used to live with me, And he was always on the job As helpful as could be.

He kept the home fires burning With funds that he'd bring in, Bought groceries for the family And put coal in the bin.

One day he turned up missing, We don't know where he went, And tho' we searched everywhere We can't find the gent.

We've looked around every corner, And followed every clue, Say, folks, if you see Business, Tell him he's overdue.

—W. H. Berkey.

SMALL LOAN MARKET

It is heartrending to witness the deep concern some people seem to profess over what is going to happen to the small borrower should the legal rate on small loans be reduced to a point somewhat comparable to his ability to pay. We are being warned that the small loan market will be destroyed and that the small wage earner will become the prey of the salary loan sharks at much higher rates of interest than he is now being forced to pay...

Why not provide a section in our banking laws for his help and protection? Would it not be possible to allow state banks to handle loans of this character by allowing them to charge a slightly higher rate of interest? This increase in the interest rates on loans up to \$300 would guarantee a reasonable profit and at the same time help the man in the street who is most in need of assistance. A graduated rate of one or one and a half percent a month, according to the size of the loan, would add a profitable bit of business to the banks, we are told. As for the salary sharks: A statute making it a felony to loan money on anticipated wage earnings would make it both difficult and dangerous for this class of gent to prey on the small wage earner. We shall continue to be interested in seeing just how much our legislators are concerned over the plight of those who are forced to borrow money with only their chattels for security.

Planning for the Unemployed

CHICAGO, famous for the efficiency of its school system, now tries to set an example to the nation by the systematic way in which it is carrying on its food relief. It provides the unemployed with a monthly order of staple foods, delivered by a grocery firm under contract, fresh milk and grocery orders. This combination of plans into one does not only the problem of a diet adequate to maintain health and growth, but also the sanitary habits of the varied peoples to which it is furnished and the amount of work which they are performing as well.

The general monthly rations of staple groceries on the list of the Cook County Bureau of Public Welfare, for instance, differs directly from the rations which are provided for a Southern, a North-Italian, a Jewish and Polish, a Sicilian, a Mexican, a diabetic or a diabetic Jewish family. Calculations are made according to the number of persons in each family, and the diet differs for men and women and for persons of different ages, and takes into account whether they are unemployed, doing light work, doing sedentary or hard work, or performing hard muscular labor.

Canned Foods Important It is not possible to publish the full lists of the monthly rations and of all the commodities which can be purchased in the grocery orders of the Unemployment Relief Service of the Cook County Bureau of Public Welfare, but a few of the items are listed here.

Every precaution is taken in this relief work to make it clear that the various monthly rations of staple groceries are not a completed ration, and that other foods will need to be added, particularly fruits, vegetables and milk. That is where the grocery orders come in. From these the recipients can choose any of the foods listed which they prefer. The rations are varied from month to month. Valuable information is also given to the unemployed on the uses and values of the various foods. Under the heading "Milk" for instance, this information says in part: "Milk should be the foundation of every diet. Money spent for milk will bring a greater return in nutritive value than money spent for any other food. The sweetened evaporated milk is just as nutritious as fresh milk in...

SEEN AND HEARD IN OUR TRAVELS

In mentioning the constitution were few buildings in the upper peninsula that would come under the provisions. The Alger representative district and the Michigan Senatorial district are ably represented at Lansing.

"In times like the present," said one of our readers recently, "when every item of expense either personal or otherwise is viewed with some measure of suspicion, it is comparatively easy to hang some cynical or disparaging tag on any enterprise, no matter how necessary or worthy it may be the subject."

"Such belittling phrases have a habit of creeping recurrently into conversation, where they at times pass for mature judgments and have a tendency to build up unreasoning prejudice in the minds of ill-informed hearers. A case in point is the glib characterization of the public school curriculum of the day as one of 'frills and fads, never was there a more absurd or unenlightened viewpoint than is reflected in this phrase. It is inconceivable that a parent should ever be guilty of as little realization of what the school is supplying his or her child as to think in such terms. 'The blame, then, may right-

Entertain Friends
Maurice Baker, of Minneapolis, was honored one evening last week when he was presented at the home of Mrs. Ralph Arndt, Michigan avenue, next Tuesday evening, April 25. The evening was enjoyable and refreshments were served. Guests were Jean Craver, Louise Boltho, Jane Vintz, Catherine Hebert, Bob Orr, Dick Katzenstein and Maurice Baker.

Finance Committee Meets
Mrs. Anton Weber entertained members of the Finance Committee of the Ladies Aid Society at her home on Cedar street Monday evening. Bridge was enjoyed with four tables in play. Honors were achieved by her friends.

Celebrates Birthday
Joseph Van Dyck, Jr., celebrated his birthday anniversary last Friday evening. Mrs. Edna Johnson, entertained at the home of Mr. and Mrs. Henning Herman, in his honor. Dancing and cards were enjoyed.

Rich Red Soups

weather like this you want nourishing soups that look hot but with little heat. To accomplish this there is nothing like tomatoes which impart their fiery energy of warm red. So we're going to tell you about our rich red soups.

Tomato Soup with Asparagus
Slicer ginger for fifteen minutes the contents of a No. 3 can of tomatoes, one also onion, one-fourth teaspoon pepper, one-fourth teaspoon salt, one-half cup chicken stock, or two and one-half cups water with one chicken bouillon cube, the

latter with a No. 1 can of asparagus tips, and the tips themselves, cut in pieces. Heat to boiling and serve.

Quick Soup
If you're in a hurry, here's a way to have a warm red soup that's made much easier.

Quick Vegetable Soup
Simmer one slice onion with the contents of a No. 3 can of tomatoes for five or ten minutes; then press through a sieve. Add one can of bouillon, or an equivalent amount of water, containing one bouillon cube, the contents of a No. 3 can of vegetables for soup, and one cup water. Season to taste with salt and pepper, and boil several minutes. Serves six.

Helpful Hints
Mildew stains on black silk should be rubbed with soap and hung out in the sun. Keep the silk wet all the time. Two or three days' treatment will be necessary. Be careful to wash out all the soap, rinse, dry and press with a warm iron.

Requested Recipes
Egg Foo Yong
Five eggs, one-half cup of shredded onions, one-half cup finely chopped bacon or ham, or cold roasted meat of any sort, one-fourth cup sliced water chestnuts, one cup bean sprouts. Beat the eggs with the other ingredients until a thick consistency is secured. Divide into six portions, mold into a soup bowl, and cook carefully into a shallow pan of hot frying fat or oil. When one side is brown, turn over and cook the other. This recipe serves three persons.

Rhubarb Pie
Two pint-sized rhubarb, one and one-half cups sugar, one-fourth cup cold water, one and one-half teaspoons cornstarch, two eggs. Wash and strip outer covering from rhubarb, then cut in dice. Measure required quantity. Add water and sugar, cook in covered saucepan until it begins to boil, then remove cover and cook slowly until rhubarb is done. Five minutes before removing from fire add cornstarch dissolved in a little water. Beat eggs light, add cooked rhubarb and mix well.

Roast Partridges, Grouse, Pheasant, Quail, Prairie Chicken
Do not stuff. Partridge is ready to dress. Sprinkle in boiling hot water so the feathers may be plucked easily without the skin being injured. Wash thoroughly, wipe out with a clean wet cloth. Part of the game may be removed, but do not cook in the water before before placing in oven. Strips of salt pork or bacon may be skewered separately from side to cup across the bird. In baking, use two or three times as much salt pork or bacon as for a fowl. Coarse bread crumbs, fried brown in butter, may be sprinkled over the bird on the platter before being brought to the table. Bread sauce or brown gravy may be also served. Serve hot, with three tablespoons of butter may be put into the dressed bird. When liver is used, cut up and roll to a paste, mix with butter, salt, pepper and spread on the toast.

ONE OF THE HILTON
"SIAMSE TWINS TO WED" Read next Sunday, in "The American" and "The Evening Star" distributed with The Detroit Sunday Times, the article in which the happy husband-to-be confesses his love and embarrassment during the courtship with the inseparably joined sister around.

CARD OF THANKS
We wish to thank the many friends and neighbors for their many acts of kindness shown us during our recent bereavement, and for the generous contributions, donated cards or in any way assisted us.

By Home Economics Specialists Michigan State College
An inexpensively prepared wall paper cleaner which will prove very handy in cleaning the walls is ready to dress. Sprinkle in boiling hot water so the feathers may be plucked easily without the skin being injured. Wash thoroughly, wipe out with a clean wet cloth. Part of the game may be removed, but do not cook in the water before before placing in oven. Strips of salt pork or bacon may be skewered separately from side to cup across the bird. In baking, use two or three times as much salt pork or bacon as for a fowl. Coarse bread crumbs, fried brown in butter, may be sprinkled over the bird on the platter before being brought to the table. Bread sauce or brown gravy may be also served. Serve hot, with three tablespoons of butter may be put into the dressed bird. When liver is used, cut up and roll to a paste, mix with butter, salt, pepper and spread on the toast.

AN OLD INDIAN CUSTOM

"NO WAMPUM... THEY SWAP 'EM"
The romance of the good old days of Barter and Exchange are revived every week in the SWAP COLUMN. We can all do what our ancestors did, when they didn't have the money to buy the things they wanted or needed... we can SWAP for them. See for yourself. They are fascinating and VALUABLE to read at 10 USE!

TRY IT YOURSELF... THE TRIBUNE SWAP COLUMN

Swap—One A-1 cow for lumber pine or hemlock. W. Ray Robbins, Curtis, Michigan.

Swap—One five gallon churn. Will trade for kindling or what have you? Inquire at 623 Garden avenue.

Swap—Maple syrup for heavy bodied bees. Mrs. A. L. Byers, Hiawatha, Michigan.

Swap—Araldo dog for \$3.00 cash or what have you? H. A. Lang, Newberry, Mich.

Some interesting facts concerning newspapers and advertising are contained in a new book by Fred J. Haskin, veteran advertiser of information, from which the following are condensed:
Egyptians used advertising 3,000 years ago. Most of the advertising was pictorial in character. The first newspapers were said to have appeared in Greece many in 1591.

It is estimated that about a billion and a half dollars are spent annually for all kinds of advertising in the United States. More than 500 American advertising agencies are equipped to produce advertisements in color.

The fastest modern newspaper presses can turn out about 10,000 pages a day, and some of the larger number of pages or 16-page papers.

The first news agency in modern sense is believed to have been that organized by Charles Havas of Paris in 1845. In 1850 established a news service in London. Paris, London and New York, using carrier pigeons. James Gordon Bennett had the publication of the first newspaper of financial news in the New York Herald in 1855.

America's two most famous publishers are getting along in years. Adolph Ochs of the New York Times was 75 on March 12. William Randolph Hearst will be 70 on April 20.

Newspaper editorial writers are lated by John Dillingham, English journalist, and one of them got him into jail in London. Some of the editors are somewhat unjustly, other editors have a similar fate many times since.

Department of Conservation of the State of Michigan: Lansing, March 23, 1923. HERBERT OGDEN

That pursuant to the provisions of Sections 127 and 131 of the general Tax Law, the following described abandoned tax lands in the county of School and decided to the State by Auditor General, has been drawn from the homestead of the Auditor General and disposed of by public sale to be held at the county house, Escanaba, Michigan, Wednesday the 10th day of April, 1923, at ten o'clock in the forenoon, Central Standard Time.

In case of sale the deed of said land will contain a reservation to the State of Michigan all mineral, coal, oil and gas rights, together with the right of ingress and egress over the surface lands. The above is a true and correct copy of the order of the Auditor General, approved and signed by me this 23rd day of March, 1923.

Department of Conservation By George R. Hogarth, Director. Township 41 North, Range West SW 22, receiving a line right of way, Section 5, Township 42 North, Range West NW SW, Section 10, City of Manistique. Part of Lot 5, commencing at the northeast corner, thence South 20 degrees West 130 feet, thence North 20 degrees West 130 feet to beginning, Block 2, April 6 May 15 1923.

Section 2 of Act 290, Public Act 1923, as amended, and reserving to the State of Michigan all mineral, coal, oil and gas rights, together with the right of ingress and egress over the surface lands. The above is a true and correct copy of the order of the Auditor General, approved and signed by me this 23rd day of March, 1923.

Kitchen Information

EVERY once in a while we are asked how many cups there are in a can. That is because a modern kitchen would seem an anomaly without several shelves of canned foods ready to heat and serve, or on the door of your kitchen cupboard. There you can refer to it readily, and order a No. 24 can when your recipe calls for about three and a half cups of tomatoes. And, incidentally, the same table is practically accurate for other vegetables and cans of fruit as well.

THE TABLE: Average Net Weight, Average Cups. Columns for Cans, Average Net Weight, and Average Cups. Rows for No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, No. 9, No. 10.

THE MANISTIQUE PIONEER-TRIBUNE, MANISTIQUE, MICHIGAN

NATIONAL AFFAIRS

As yet nothing along this line has been done and it is becoming evident that probably the first thing accomplished will be in the way of raising rather than lowering tariffs. The reason for this is hard to find, but the administration desires to see the tariff structure in line with the provisions of the law effective, it is to be enacted, it is becoming evident that there will have to be some change in our agricultural tariff rates, but the changes most necessarily be in the direction of higher tariff rates, rather than lower ones. Additional protection will have to be granted all of the farm commodities which it is hoped will be helped under the new farm bill. If such higher schedules are not enacted the farmers will benefit from the present tariff rates, but the protectionist in foreign countries will immediately take advantage of the higher protection which is hoped to offer to the farmers of the United States. This will doubtless be a blow to the ardent free trader who told us in the last campaign that the protective tariff does not and cannot benefit the American farmer, but it is now a blow he will have to take on the chin and like it.

But there is another angle. Mr. Roosevelt and his assistant orators told us in the campaign that property would be restored through foreign trade and this would be brought about by tariff agreements between the United States and foreign countries. One of the alluring examples cited was Canada and it was predicted that foreign trade between the United States and the Dominion would be increased by a tariff agreement. But Canada, it is to be remembered, has nothing to ship us except grain, butter, cheese and other agricultural or dairy products. If we lower the barriers, it will be the Canadian farmers and not the American farmers who will benefit by a new farm bill. So it is going to be a little difficult to arrange a tariff agreement between Uncle Sam and Canada. The same will go for all other agricultural nations which are the ones most anxious to arrange reciprocal tariffs with us.

It is when these questions come to the fore, that the Republican minority, it may be predicted, will come to life. The Republican tariff policy is clear and consistent, and the minority is clear and consistent. The majority program to offer. For what the majority offers is bound to be rather nebulous because of the multitude of conflicting opinions which the majority statesmen will have on the floor. The Republicans will then have the advantage of fighting with a united front ground made familiar to them by hundreds of conflicts in the past.

LEAP YEAR WEDDINGS DROP: The year 1922 as leap year proved a dismal failure, marriage records at Eugene, Ore., show only 353 couples took the leap, as compared to 443 in 1921.

BREWING COMPANY IS RE-ORGANIZED

The following story is taken from the Manistique Herald:
Articles of incorporation for the new Manistique-Marquette Brewing Company, which will operate River beer were widely sold in the upper peninsula and northern Wisconsin before prohibition. Soon this vast district will again be supplied with good beer that will prove superior to any other. The company is to be incorporated with a capital stock of \$150,000, all subscribed and paid. Work of rehabilitating the local brewery, which has been neglected in the manufacture of near beer and soft drinks since the advent of prohibition, was started today. The improvement and extension program being undertaken by the new company calls for expenditure of \$50,000 during the next year.

Two City Organization: The new company is a twin city organization, both in plan and in fact. The stock has been subscribed by about 500 persons in Manistique and Marquette.

The new company represents a merger of all the brewing companies of the river in original brewing companies, the Leisen & Henes and Manistique River Brewing Company, and in the United Beverage Company.

The Henes and Leisen families, identified with the Leisen & Henes company, and the Erditz family, prominent in Manistique River Brewing in the new organization, Manistique capital in the United Beverage Company.

The Manistique River Brewing Company interests, made Ogdin Avenue was sold to the American Rule & Block company for conversion to serve as a wood working plant.

The Manistique River Brewing Company was started about 1860 and was incorporated in 1863, when the large brewery on Sheridan street was constructed. Frank Erditz and Wolfgang Reinold, who has since disposed of his brewing interests, were the heads of the company.

The Leisen & Henes brewery was started in 1880 and the company was incorporated in 1891, when the large brewery on Sheridan street was constructed. Frank Erditz, general manager of the Manistique River Brewing Company secretary-treasurer.

Mr. Erditz was one of the officers and executives of the United Beverage Company. When the Michigan Legislature legalized 3.2 alcoholic beer in Michigan, the Manistique-Marquette Brewing Company will supply to the twin cities and to a large trading area in the upper peninsula and northern Wisconsin for some of its products the company has adopted and widely advertised "The Best What Is."

"The Manistique River Brewing Company is proprietor of a brewing plant which though established on a small scale in 1880, has now grown to large proportions, and its beers find sale throughout a large surrounding territory. The company has a capitalization of \$100,000. W. Reinold is president, and Frank Erditz secretary and treasurer. Its principal brands are "Golden Drops," "Silver Cream" and "Special Eagle Brew Export."

The United Beverage company, although reorganized several times, continued to operate the former Leisen & Henes brewery until organization of the new company.

Many other corporations, however, have made application to change their charters to permit them to handle beer. While most of the applications have come from the Detroit area, the brewery applications are well scattered over both Upper and Lower Peninsula.

The past two months also have shown a marked increase in applications for incorporation of companies seeking to conduct investment businesses and companies seeking to sell both men's and women's clothing.

ERROR IN GEOGRAPHY: The geographical mistake most frequently made by easterners, the Arizona state historian points out, is an assumption that the Grand canon of the Colorado is in Colorado. A close second is in assuming the canon the Grand

THE MANISTIQUE AGENCY TELEPHONE No. 1 Manistique

BREWERIES INCORPORATE

Lansing, Mich., April 20.—In the last nine months, articles of incorporation have been granted to 26 breweries, according to records of the Department of State. Most of the applications have been received in the last two weeks since the question of legalizing the manufacture and sale of beer has been under consideration by the legislature.

Many other corporations, however, have made application to change their charters to permit them to handle beer. While most of the applications have come from the Detroit area, the brewery applications are well scattered over both Upper and Lower Peninsula.

The past two months also have shown a marked increase in applications for incorporation of companies seeking to conduct investment businesses and companies seeking to sell both men's and women's clothing.

DISCUSS BEER, BETTING RULES

By Don R. Eaton

As passed by both the house and senate, an objectionable amendment to a bill to amend the act to regulate the sale and distribution of beer and wine, these sections as to the most important questions just about the welfare of the people.

Legislation has come as a result of the vote of the legislature on the larger news, there has been an indirect influence of the legislature on the important bill, the state of Michigan, both the house and senate, that the state is to bring into the state treasury. But these same legislators, on the other hand, are careless in their method of doing business. The bill went so far as to specify the number, their location and their method of doing business. The bill went so far as to specify the number, their location and their method of doing business. The bill went so far as to specify the number, their location and their method of doing business.

SCHOOL DAYS - By DWIG

The Compass

The University of Michigan and the Michigan State college at least know what is really going on in a group of axe wielders who really know up to use these tools. The legislature has made it quite evident to these two educational institutions as well as all the others in the state that it is not a matter of 'if' but 'when' a law is issued to "cut." People drawing pay checks made out by the state seem to have the idea that there is an unlimited supply of money somewhere and that the state government has direct access to it. They are not aware of the fact that the legislature is hard to realize that they too have had to economize just like everybody else. The special legislative committee on the Representative Vernon J. Brown and Gus Hartman served on, tried to impress this fact upon the Representative. Some saw the handwriting on the wall. Others did not, and those that did not are just now beginning to realize that order payers who can no longer pay taxes cannot pay salaries and expenses of representatives. The officials of the same amount they have always had. The ways and means committee of the house plan a reduction that really amounts to something in the operating costs of the state's educational institutions. Friends of the schools are running over to Lansing each day in an effort to prevent just drastic cuts as have been proposed, but from the sentiment expressed by members of the legislature, their efforts will be useless. One member of the legislature had had three vice presidents drawing salaries as

Early Seeding Aids Stands Of Alfalfa

East Lansing, April 20. Seeding alfalfa at the proper time does not cost an extra nickel and may mean the difference between a good stand and a poor one, according to members of the farm crops department at Michigan State University.

The department bases its statement upon studies made in two years in the past two years, and upon the experimental work done at the Culture, Alfalfa seed before June 10 and planted about a month later, showed the best chance of developing a root system which will carry most of the plants through the first winter.

Cass county alfalfa fields were planted in 1930 by farmers who found their soil and seeded soil well prepared ground but who sowed later in their year than neighbors had poorer stands of alfalfa in 1931. Seeding made by St. Joseph county in 1931 showed similar results in 1932.

The quality of the stands in the two counties were judged on the basis of thickness of stand, vigor of growth, and freedom from weeds. The fields sown in the spring or the first of June were markedly superior to those sown later in the year.

The comparisons were made on fields which had received equal advantages from the application of lime or fertilizer so the only element of difference was in the date of seeding. The crops department still recommends the use of lime and fertilizer where necessary and the inoculation of seed, but also advises early seeding dates so the plant can get the benefits of a longer growing period.

During the past three months the most popular game in North America will be baseball. The boys will be playing the game of baseball. The boys will be playing the game of baseball. The boys will be playing the game of baseball.

Old But Good
Lady Doctor, you get a big fee for moving Jimmy Smith's head. Last night, well, don't forget, my wife, though the heck.

Short Pokes
The only cure for spring fever that I know of is winter. . . . A young man with a "I'll take your advice and sell my roller skates, if I had some oil. I'd oil my roller skates, if I had some roller skates." Another boy says, "Give me some tips on pitching. Every time I go to the bus, the pitcher yell, 'Get a pitcher, get a pitcher!' Do you know the feeling?" . . . The first case of sunburn was reported to me on Wednesday, April 12. Bobby Berglund was the victim. . . . Play hard and use your head. . . . Don't forget the burning sunbathers. We'll be making some important announcements before very long.

And
Do your best to prevent spring fever from getting you into trouble in school on account of dreaming.

Doing my best,
CAPTAIN LARRY.

DULL HEADACHES GONE
SIMPLE REMEDY DOES IT
Headaches caused by constipation are gone after one dose of Adolfin. This cleans all poisons out of BOTH upper and lower bowels. Gives better sleep, ends nervousness. A. S. Putnam & Co., Druggists—Aix.

without paying taxes on it for this effect. Its introducer is a several years to come. Then when the back tax was spread it could be charged against the property and with the coming of better business, the lots would again be sold and the buyer would have to pay the back taxes as well as the property tax. It was this feature in the Moore bill that led to its rapid execution in the house.

Members of the Michigan state senate have been placed in an unfair light before the people by certain of the metropolitan newspapers. If one was to believe some of the material appearing in many of the larger dailies, they would have the idea that the senate is a body composed of obstructionists and know-nothings. This is far from the truth say legislative observers. True there have been differences of opinion among the senators. However it can be honestly said that Michigan has never had a group of men in the upper house, who are more anxious to serve the best interests of the state than most of the present membership of the senate. Of course there are one or two members who do not measure up to this high general standard. There are few ties to special interests and selfish group but a struggle hold on the senate. They are mostly careful in the legislative act they have taken and time and again they have demonstrated the fact that their one purpose is to serve the best interests of the state. Unfortunately through propaganda in the eyes of the daily newspapers, the legislature entirely worthy of the high honor bestowed upon him.

He will go down in Michigan history as another chief executive officer of the lower branch of the legislature entirely worthy of the high honor bestowed upon him.

A Detroit representative thinks the florists of the state are able to pay a license fee of \$10 per year to do business in addition to the other taxes they pay. He has introduced into the house a bill to

Cities Need Make No State Reports

Repeat by the present State Legislature of a 1931 Public Act abolishes the statute which required officers of Michigan municipalities to make detailed reports to the State Treasurer of their budgets and financial transactions.

This announcement was made today by State Treasurer Theodore I. Fry.

The Commission of Inquiry into State Governmental Expenses, created by State Legislature during the 1932 Special Session, recommended the repeal of this act. The present administration concurred.

The repeal of this act does not affect in any way the statute which requires officers of counties, cities, village townships, and school districts to make annual reports to the State Treasurer of the outstanding bonded indebtedness of their respective municipal units. Blanks for these reports will be distributed during June.

"We Serve Michigan"

Do Motor Trucks and Buses really pay taxes?

Heavy duty motor trucks and passenger bus owners complain they are heavily taxed. Signs are displayed on giant motor vehicles: "This truck pays \$1950 per year in taxes."

Gasoline and weight fees are not taxes

They are simply payments for part of the expense of building and keeping up concrete roads which cost the real taxpayers approximately SEVENTY-FIVE MILLION DOLLARS annually to maintain, exclusive of city streets.

One-third of this money is spent solely to build and maintain roads strong enough to stand heavy motor bus and truck traffic.

These giants of the highways actually contribute a pitifully small share of the enormous burden now being carried by owners of pleasure cars and light trucks.

It Takes More Than Salts, Calomel, Mineral Waters, Oils, or Laxative Pills to Arouse a Sluggish Liver

They Give Only Temporary Relief From Constipation and Bloating, Because They Have No Effect Whatever on the Liver or Its Production of Bile

This is nature's own laxative and it takes only one quart of fresh bile every day to keep them clean, pure, free from fermentation, indigestion and disease germs.

When your liver becomes torpid, you are no longer able to produce fresh bile. The contents of your bowels become stagnant, they do not digest—it just decays and decays and becomes a stinking mass that poisons you, suffers from constipation, bloating, indigestion, biliousness, nervousness and sour stomach.

Sargon Soft Mass Pills will remove the cause of this condition, purify your entire system in a few days. They are not like other medicines which have ever been. They are so gentle, that they are natural in their action and there is nothing about them to remind you that you have ever had a medicine, and must rely on the dose until you no longer need it. A laxative of all these years ago it was generally thought that colonial and laxative pills stimulated the liver, but modern science has proved that salts, mineral waters, oils and laxatives have no effect whatever on the liver.

Sargon Soft Mass Pills act directly on the liver because they

Wake Up Your Liver Bile - Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes the good old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't take for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the label. Resist a substitute. See all stores. ©1931, C. C. Co.

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

DOROTHY DARNT

Railroads are the heavy taxpayers

Motor transport pays practically nothing in the form of taxes to help defray the cost of government.

The railroads of this state are paying approximately TEN MILLION DOLLARS PER YEAR toward this cost. They are using no publicly owned property in the conduct of their business. RAILROADS PAY AS HIGH AS \$2800 PER MILE PER YEAR IN TAXES.

How long will the taxpayers of this state stand for this discrimination?

MICHIGAN RAILROADS' ASSOCIATION
