Inflation No Cure For Farm Problems

Fast Lansing, June 22.—Michigan farmers should not be deceived by a present rise in farm prices partly due to inflation into a belief that inflation is the correct solution for farm problems, according to Henry A. Wallace, secretary of agriculture, who points out that, while the farmer gets an initial benefit from rises in prices of raw materials, this benefit is nullified by increasing on goods which must be bought.

The 100 per cent increase in the price of wheat and of cotton between the early days of May and the middle of June are in a measure due to inflation and are partly due to faith in the government's plan to make adjustments in the production of basic crops. The benefits from inflation vanish when the farmer gets the price of wheat to be paid for a dollar rise in manufactured goods, but price gains obtained from crop increases will not be wiped out by increased expenses.

Michigan farmers are adding to the surplus of basic crops when unrestricted acreages of wheat are planted and when uncontrolled numbers of hogs are marketed.

No steps are being taken to limit this year's wheat crop but hearings have been held in Washington to work out plans to adjust the next crop to the visible supply and to the world's needs.

Potato growers in Michigan who remember the 1924 and 1925 crops know that big crops and increased acreages are not a sure source of adding to farm incomes. The total value of the 1924 potato crop was \$180,900,000 and the price per bushel was 78 cents. The 1925 crop was 85 million bushels smaller, sold for \$1.83 a bushel, and had a total value of \$327,770,000.

Potato growers in the United States paid \$146,610,000 for the surplus of potatoes which no one wanted and which could not be sold.

Mistakes of this kind, whether in the production of potatoes, wheat, milk, or pork, can not be cured by inflation. Crop adjustments are the correct answers, says Secretary Wallace, and these adjustments on the basic crops will be made under the Farm Act if farmers will cooperate with administrators of the Act in carrying out its provisions.

No Michigan farmer will be urged to join with his neighbors in obtaining relief for all agriculture. The plans will be explained through newspapers and by extending to each place, the pulling of the little wheels. A large "Jack Horner" pie served as a centerpiece with ribbon, streamers leading to each place, the pulling of which produced numerous varieties of toys. Original water color glass cards, the work of Catherine Glendon, representing "button babies" marked each cover. A delicious repast was served by Mrs. Pearl Miller assisted by Mrs. Craver, assisted by Mrs. Pearl Miller, Catherine Glendon, Miss Effie Carrington and Mrs. J. W. Gilligan, after which the pretty birthday cake containing seven candles was brought in and cut by the little hostess. Among those present were, Elizabeth Shinar, Louise McNamara, Doris Saunders, Zilpha Moulton, Jane and Betty Foudren, Dorothy Glendon, Dorothy Pray, Louise Bolthe, Carter and Knowlton White, Esther and Ruth Sidebotham, Morris Barton, Betty Culver, George and Lyle Saunders, Leon Willoughby, Nan Gayar, Beulah Miller, Jeanette Craver Saturday afternoon.

Leland Harvey has averaged one prison break a year since he was sentenced in Georgia nine years ago for robbery.

A wedding ring lost 50 years ago by Mrs. Elizabeth Looney of Manistique, Ind., has been found by Mrs. Ida Powell on a farm near Bentonville.

Mr. and Mrs. Bert Williams, Mrs. John Williams and sons, and Evelyn Terrian enjoyed a picnic at Gulliver Lake Sunday. They also visited Mr. and Mrs. Lee Carey near Blaney.

Evelyn Mitchell visited friends Sunday.

Chas. Witter, Mrs. John Reid and children, Mrs. Geo. Ra-mussen and children, visited Mrs. Chas. Rogers and D. McGreevy Sunday.

Sid Emerson called at the Kane home Tuesday.

Leo and Thurlow Bebee called

THOMPSON

(Mrs. Ole Edvardson, Corres.)

A number of local residents and outsiders attended the school and community picnic at Parker's resort, Indian lake on Wednesday. A beautiful day for the affair and plenty of eats.

The house and store being built by Tom Arnold, on the old Haskin lot, is going up rapidly with five men on the job. They expect to have the house ready to move into by the first of next week.

Mr. and Mrs. John Olson have gone in the turkey business. They have about 400 turkeys at present.

The commencement program on Thursday evening closed the various activities held throughout the school year. Attorney Sheehan gave a splendid address which was greatly enjoyed. This was followed by a short talk by Mrs. Katharine Beal, our new school commissioner. A 100 per cent examination was written by students taking state and grade examinations.

Vivian Zollner left for Escanaba on Saturday having attended school here the past year.

Mr. and Mrs. Stanley Shusts and children left for Reed City where Mrs. Shusts and children will spend the summer months.

Mr. and Mrs. H. G. Squires and infant daughter spent the week end at Norway as guests of relatives. Mrs. Arthur Erikson and sons accompanied them home for a brief visit.

Mrs. H. M. Squires entertained a few friends on Saturday, it being her 57th birthday anniversary. She was the recipient of many beautiful gifts. Ice cream and cake were served to the guests.

Kenneth Ouler left for a brief visit with his daughters, the Misses Virginia and Martha Cutler, at St. Johns and Dewitt, Saturday.

Helen Zundorf, of Green Bay, and Bernita Johnson, were present callers on friends here Sunday.

Mr. and Mrs. Cecil Johnson

NATIONAL AFFAIRS

There has been undoubtedly a pickup in business in some parts of the United States, and this is written, there is a more hopeful feeling so far as the immediate economic future is concerned than in many months. There has been a rapid increase in the price of common and preferred stocks in the New York and other stock exchanges. The average price of stocks recently "went" through the September 10, 1932. According to the "reports" of the students put it, which means that the price of common stocks is now higher than it was in September last year, the high point of the rise which started shortly after July 1, 1932.

According to the "reports" of the students put it, which means that the price of common stocks is now higher than it was in September last year, the high point of the rise which started shortly after July 1, 1932.

According to the "reports" of the students put it, which means that the price of common stocks is now higher than it was in September last year, the high point of the rise which started shortly after July 1, 1932.

REPORT ON STATE CROPS ANNOUNCED

Lansing, Michigan, June 22.—The Michigan winter wheat crop continued to improve during May, indicated total production as of June 1 being 1,130,000 bushels, or the equivalent of a yield of 18.0 bushels per acre. Prospects are still look on June 1 and Grand Traverse area with a somewhat better yield than the state average yield was 22.0 bushels per acre resulting in a total production of 1,658,000 bushels, from an average 15 per cent smaller than that for the harvest this season. The State's wheat crop is estimated at 1,658,000 bushels compared with 2,133,000 bushels harvested in 1932. The crop season outlook for oats and barley is poor in nearly all sections of the State, according to the Michigan Co-operative Reporting Service. The crops were handicapped by frequent rains at seeding time. Less than half of the usual acreage was planted before May 1 and some fields were not seeded until late in May. The condition of the crop on June 17 was reported at 71 per cent of normal and that of barley at 74 per cent whereas the wheat crop is in condition for each is 82 per cent.

Prospects for a good hay crop in 1933 are exceedingly favorable. The season outlook for clover and alfalfa is good. The crops were marked improvement in meadows during the past month. The condition of all time hay, reported at 86 per cent for June 1, is the highest for that date in the history of the Michigan crop reports. The condition of 90 per cent on June while that of all clover and timothy was 84 per cent. Pastures also show good progress during May, the current condition on figure of 90 per cent being the highest for June 1 since 1927.

Apple promise relatively the best production of any of the Michigan tree fruits this season. The condition of the total apple crop on June 1 this year was 81 per cent compared with 62 per cent reported for June 1, 1932 and a 10-year average of 74 per cent. Rains have interfered with and delayed spraying in some orchards which may tend to increase the extent of injury from scab. The seed in general, late apples was relatively light. The Michigan peach crop will be the lightest since the present crop of 1932. Improved business conditions are also credited with the increase in the number of motor vehicle operators' licenses that are being issued daily from the department. In the past two months the average number of licenses issued daily has increased from 800 to 1,500.

bushels, the second largest production on record. The condition of the Michigan cherry crop was 75 per cent on June 1 this year, 9 points better than for the same date a year ago. The outlook for June 1 is in line with what higher production indicated for the Mason-Owens district. In the southwest corner of the Fruit Belt, the crop was injured by frosts and frequent rains during the blooming period. The condition of other fruit crops in the State as reported on June 1 by commercial growers was: plums, 58 per cent; blackberries and raspberries, 81 per cent; strawberries, 86 per cent; and grapes, 82 per cent.

The United States winter wheat crop, on the basis of June 1 conditions, is estimated at 3,110,000 bushels, a gain of 300,000 bushels over the indicated production as of May 1 this year. It compares with 462,000 bushels harvested last year and a 5-year average production of 889,000 bushels. The Nation's rye crop is estimated at 30,374,000 bushels compared with 28,855,000 bushels harvested in 1932.

The condition of the United States apple crop on June 1 this year was 71.7 per cent of normal. This compares with 55.5 per cent for June 1932, 75.7 per cent for June 1931, and a 10-year average of 59.9 per cent. The 1933 peach crop for the Nation is estimated at 140,000 bushels based on the June 1 condition of 55.1 per cent. Last year the total production amounted to 42,284,000 bushels. The June 1 estimate of the United States pear crop is for a production of 23,280,000 bushels as against a total of 22,107,000 bushels in 1932.

A COMPANY THIRTY YEARS OLD

Last Friday the Ford Motor Company completed 30 years of automobile making.

It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Patent Suit—which took the motor car out of the exclusive class and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

GIVE THE KID A BREAK

School's out! 1,000,000 of children all over the country are pouring forth from the classrooms to spend their days out of doors during the summer months. It's time for motorists to be more alert than ever—unless they are, many of these children will be injured or even killed as they traverse the streets and highways to find job training youngsters to watch out for themselves. In consequence, when the statistics of adult and child pedestrian accidents are compared, the children are shown to be better. They are more safety conscious.

In spite of this good work 3,400 boys and girls between the ages of five and fourteen were killed last year and 152,550 were injured, according to the national bureau of casualty and surety underwriters.

Drivers, give these youngsters the right of way; drive slowly and cautiously through residential districts; and don't ever let your child who darts out from behind a parked car. Every daylight hour should be a safety hour now that school is over. Help to reduce child fatalities, and give break!

THE SESSION ENDS

Session of the Michigan legislature is now his closing days presented a scene of mad dash as he roared frantically to clean up as much pending legislation before the final hour for adjournment. The session was a work of superlatives, a decent thing to do, to withhold our opinions and adequate analysis of their work may be obtained in a situation at Lansing was most unusual this month it seemed impossible for either party to agree on any definite program. This fact is shown to remain in session for a longer period of legislation in the history of the state.

Long period of inactivity has meant for both sides yet to be determined. To an unbiased observer it seems that the greatest handicap the legislature has been supplied, many misunderstandings and have been eliminated. But in spite of this, legislation has resulted and as good citizens we verdict which only time and experience can

LONESOME

ary of State Frank D. Fitzgerald will be a loner, individually, politically speaking, after July 1st. On date his two remaining colleagues on the administrative board, Grover C. Dillman and Webster Pearce, will pack up their books and papers and take their departures into private life, leaving Mr. Fitzgerald the sole survivor of a once proud host that ruled for years the political destinies of Michigan.

OLD AGE PENSIONS

Michigan now has an old age pension law, which will be available in 1934 for relief to persons over 70 years of age, who have been citizens for 15 years and who have resided continuously in the state for 10 years or more.

SEEN AND HEARD IN OUR TRAVELS

The kingdom is within you! This is the own of Brennan was of the "dearest, widest, most beautiful and ever known. It is your responsibility to this learning, not in any of values clearly and firmly in

CONGRESSMEN SEEN AS HARD WORKERS

Banker Tells of Labor Put in by Members of Congress on Mass of Technical Measures

WASHINGTON, D. C., June 22.—That literally incalculable millions of dollars are being expended on the part of the government in the preparation of technical measures, and the amount of labor put in by members of Congress on these measures, was the subject of a talk given by Mr. Fleming today in the House.

Mr. Fleming said that the most important part of organization of the two branches of congress is election of standing committees. There are 21 committees in the Senate and 46 in the House. These are the workshops of Congress and the real work of law-making is done in Committees.

Time To Kill Grasshoppers Here

"The time for killing grasshoppers has arrived," says Lee Stearns, county agricultural agent. Poison should be spread immediately if the hoppers are to be killed. The best time to spread is before they move into the grain and other crops. In order to secure control, every farmer should see that his old lands are covered with poison bait to protect his own and also his neighbors crops.

Cost of Poison Small

A study of Sodium Arsenite, molasses and Banana Oil is on hand. Materials, necessary to make 100 pounds of bait, which includes: 10 pounds of Sodium Arsenite, 10 pounds of molasses and 3 ounces of Banana Oil, will be furnished free of charge. When it is not possible to pay cash for these materials, they may be secured by signing up an agreement to furnish labor for 2 hours. One hundred pounds of bait covers 5 acres, spreading at the rate of 20 pounds per acre. All that is needed is 1 quart fruit jar for the materials listed above, is some salt and either banana or hardwood shavings. When 100 pounds of bait has been reduced to 1 gallon, thus lowering the cost of the bait necessary for 5 acres from 75c to 60c.

Bait Materials to be Distributed From Agent's Office

Supplies of the arsenite, molasses and Banana Oil will be distributed from the county agent's office at Manistique during office hours. Farmers are invited to purchase for cash or they will be furnished, providing a labor agreement is signed furnishing 2 hours of labor between now and January 1, 1934, for each one hundred pounds of bait materials furnished.

Preparation of the Bait

One quart of Sodium Arsenite, 1 gallon of molasses and 4 pounds of salt should be added to about 10 gallons of water. One hundred pounds of bran or sawdust are then moistened with the above mixture. Just before the material is spread, add the 3 ounces of Banana Oil to the bait and thoroughly mix again. The bait should be spread very thinly, about 20 pounds per acre, and sawdust bait is sufficient for an acre. Spread in the heat of a bright warm day for it is then that the hoppers are most active. The Sodium Arsenite is a poison and should be handled as such. If the bait is properly spread there will be no danger to cattle. However, for safety's sake where poison is spread in pastures, be again advised keeping the cattle out of the pasture when bait is being spread, until after a good rain. Cattle should not be allowed to eat anything that is not leaving around containers with which poison has been carried in under a mattress. Properly, the grasshopper bait will do away with the hoppers and not poison livestock. Just be careful!

Among other reasons offered for divorce, Mrs. Lulu Gooch of Kansas City, Mo., alleged she paid with her own money for her husband's false teeth for her husband.

Mrs. W. F. LaFollette of Amherst, Mo., discovered what had caused the pain under her left shoulder for the past 12 years when a needle emerged from the flesh.

Flushing Bar Saves 1500 Bird Eggs In Mowing 123 Acres

WASHINGTON, D. C., June 22.—That literally incalculable millions of dollars are being expended on the part of the government in the preparation of technical measures, and the amount of labor put in by members of Congress on these measures, was the subject of a talk given by Mr. Fleming today in the House.

Mr. Fleming said that the most important part of organization of the two branches of congress is election of standing committees. There are 21 committees in the Senate and 46 in the House. These are the workshops of Congress and the real work of law-making is done in Committees.

During These Times

Automobile accidents are always unexpected. Yet, now more than ever, the unusual and unforeseen occur. In a moment of accident places an impossible strain on the over-worked budget. This agency offers low cost Automobile Insurance and safeguards your pocketbook.

Stanly O. Crowe Agent

kill or cripple her and to reveal the location of the nest in time for the operator of the mowing machine to lift the knives so as to leave in island of cover around the nest. When this is done, in most cases, the hen returns to the nest and continues laying or setting, whichever the case may be.

Mr. Rickert devised a flushing bar of his own. He attached cow-bells to straws about 2 or 3 inches wide and strung them to a wooden bar that was extended from the tractor and several feet in front of the mowing machine; this device worked fine, he said. Others attach kurlap sackings to a bar or pole and tie the pole to the neck of the horses, bracing the pole with rope or straps from the extended end back to the hames of the near horse; the sacks are weighted so as to drag low through the hay to be cut. There

DYING—PROBABLY THE RICHEST, CERTAINLY THE MOST MYSTERIOUS MAN

An article, revealing astounding events in the strange life of Sir Basil Zaharoff who is reputed to have built his enormous fortune on death, destruction and misery, stirring wars and revolutions, so that more than 15,000,000 guns have been built his munition factories—yet still hiding his real name and nationality, will appear in The American Weekly, with next Sunday's Detroit Times.

There is a theory that North and South America were once parts of Europe-Asia-Africa, but cracked loose and floated off.

W. L. Purdy of Memphis, Tenn., fashioned a cane from a worn out home (that part of the harness to which the tugs are fastened) and sent it to President Roosevelt.

SOCIETY

Lady Foresters

A regular meeting of the Lady Foresters will be held next Tuesday evening in the Knight's of Columbus hall at 8:00 o'clock.

Woodman Tea Party

The regular monthly tea party of the Woodmen Circle will be held on Thursday afternoon, June 22nd at the home of Mrs. William R. Roberts, Deer street. A pot luck lunch will be served and all members are asked to bring a dainty and novelties as they will be sewing.

Surprise Party

George Munroe was the guest of honor at a delightful surprise party given at his home on South Second street, Saturday evening. Five hundred was played with prizes being awarded to Mrs. Charles Cowman and Mrs. Ernest Smith for the ladies and to Frank Rydzak and William LaFreniere for the gentlemen. Lunch was served. Mr. Munroe received several lovely gifts.

Bethany Society

The Misses Signe and Lillie Carlson will entertain the members of the Bethany Society next Thursday evening, June 29, at their home on North Maple avenue. All members are urged to be present.

Bridge Club

Mrs. Antone Weber entertained eight friends at bridge Monday evening at her home on Cedar st. High honors were won by Mrs. Ray Besner and Mrs. William Berker secured second honors. Refreshments were served.

Birthday Surprise

A pleasant surprise party was given in honor of Miss E. Peterson at her home on Alger avenue, the occasion being her 14th birthday anniversary. Three guests of honor were played with first prizes going to Stella Frans, Margaret Asp and Doris Ekdahl and consolation prizes going to Evelyn Oberg, Martha McGregor and Wilfred Cook. After a delightful afternoon of games a delicious luncheon was served. The guests were Loretta Fountain, Anna Drkos, Evelyn Oberg, Lucille Arches, Eleanor Arches, Dorothy Dacy, Bernice Burrell, Norma Carstensen, Martha McGregor, Margaret Asp, Doris Ekdahl, Mildred Ite, Stella Frans, Dorothy Hasselblom and Wilfred Cook. Miss Barbara Sebastian was an out town guest. Miss Eva received many pretty and useful gifts.

Birthday Party

Miss Phyllis Stewart celebrated her sixth birthday anniversary at her home at 507 Arbutus avenue, on Monday afternoon, from 2:30 to 4:00 o'clock. The afternoon was spent in playing games after which a delicious luncheon was served and each little guest received a favor. The color scheme was pink and white and a large birthday cake decorated with six lighted candles formed the centerpiece. Pink and white streamers reached from the chandelier to each party. The little guests enjoyed themselves and wished Phyllis many more happy birthdays. The little hostess was the recipient of many nice gifts. Those present were Leah Lou Brasseur, Jane Baldwin, Sarah Oulson, Lois Doloria, Phyllis Huggison, Dawn Van Eyck.

Announcements have been received in the city of the marriage of Miss Roma Baker, daughter of Mr. and Mrs. J. H. Baker, of the city of Lansing, Michigan, to Theron E. Daw, of Lansing, which took place last Saturday at high noon at the Memorial Chapel. The bride has been supervisor of fine arts in the Grand Rapids public schools for the past ten years. Mr. Daw is employed in the land economic survey department of the State of Michigan and is a member of the Manistique on numerous occasions. Mr. and Mrs. Daw will make their home in Lansing. They have the best wishes of their many friends.

Mid-Summer Party

Members of the Golden Star Lodge of this city and their friends are cordially invited to attend the Young Men's Banquet to be given at the Dutch Mills dancing pavilion, Saturday evening, June 24. Dancing will begin at 9:00 o'clock and music will be furnished by Rhodes Court Huskers, with tunes you will enjoy. There is no admission charge. Will be made but a free-will offering will be taken to cover the cost of the music. Seats can be secured from either Gust Larson or Gust Nelson.

Rev. Joseph Gross, pastor. Sunday, June 25, 1933. 10:00 a.m. Morning service. The pastor will preach. There will be special music. 11:15 church school with a class

B & P Meeting

The regular special meeting of the Business and Professional Women's Club will be held Wednesday evening at the Leon Schwolson cottage Indian lake.

Presbyterian Church

June 25, 1933. 11:30 Calvary Mission Sunday School. 7:30 p.m. Evening service. The pastor will preach. There will be special music. This is the last evening service during the summer months. Thursday 7:30 p.m. Prayer meeting. The public is cordially invited to all these services.

Pre-Nuptial Shower

Mrs. Louis Oliver will entertain thirty guests at her home on River street this evening in honor of Miss Madeline LaVigne, whose marriage to Nannon Oliver will take place July 1. The party will be in the form of a miscellaneous shower. Five hundred will be the division.

Birthday Anniversary

Mrs. Robert Williams entertained a few friends on Friday afternoon at her home on a miscellaneous shower. Five hundred will be the division. Mrs. Williams received several pretty gifts. Those present were Mrs. James Nason, Mrs. Cecil Johnson, Mrs. Ernest Williams, Mrs. Harry Marks, Mrs. S. Shampine and Mrs. Ed. Harrington.

Surprised on Birthday

Mrs. Arthur W. Crocker was pleasantly surprised last Friday when twelve friends came to her home to celebrate her birthday anniversary. During the evening party Mrs. Crocker was surprised by Mrs. Ira E. Crawford and second prize was won by Mrs. Alvin Johnson. Refreshments were served following the games. Mrs. Crocker was presented with a lovely gift in memento of the occasion.

Golf Club Elects

The first meeting of the year was held on Tuesday afternoon at the Indian Lake Women's Golf Club. Election of officers took place with Mrs. C. W. Wood being re-elected as president and Mrs. Paul R. Baldwin as vice president. Mrs. Cecil Johnson was elected treasurer. Luncheon was served at Arrowhead Inn and an afternoon of golf was enjoyed. Mrs. Adeley Peterson achieved prize for bling bogey. The next meeting of the club will be held on Monday afternoon at 8:00 o'clock at Arrowhead Inn.

Roma Baker Weds

Announcements have been received in the city of the marriage of Miss Roma Baker, daughter of Mr. and Mrs. J. H. Baker, of the city of Lansing, Michigan, to Theron E. Daw, of Lansing, which took place last Saturday at high noon at the Memorial Chapel. The bride has been supervisor of fine arts in the Grand Rapids public schools for the past ten years. Mr. Daw is employed in the land economic survey department of the State of Michigan and is a member of the Manistique on numerous occasions. Mr. and Mrs. Daw will make their home in Lansing. They have the best wishes of their many friends.

Complete directions on spraying and dusting potatoes will be available in a bulletin now being published by the Michigan State College. The bulletin is No. 254 and can be obtained free by writing to the bulletin clerk at the college. It will be off the press before July 1.

that within twenty (20) days from the date hereof plaintiff cause a copy of this order to be published in a newspaper of general circulation in said county of Manistiquic, and that said publication be continued therein once in each week for six (6) weeks in succession.

Dated, July 19th 1933. Herbert W. Runnels, Circuit Judge.

James C. Wood, Attorney for Plaintiff, Business Address: Manistique, Michigan. (June 22-29 July 6-13-20-27 64.)

BUFFETS SAY "HAPPY DAYS!"

WHEN THE STEINS ON THE TABLE—The proper cheese is bound to be the very thought of the steaks and amber-hung liquid condenses up in the masculine breast thoughts of generous steaks of nut-sweet Swiss cheese, scotch of pungent Old English, wedges of ruddy American. From fresh to political canons the joys of the foaming stein and the buffet supper are endeared to memory the world round. Americans will have to learn the joys of the proper thick-slicing appetizing steers which properly belong with the foaming beverage according to the educational department of the Kraft-Phenix Cheese Corporation. There are more than 400 different varieties of cheese—and all of them will enjoy renewed popularity now that buffet suppers are the thing, according to the cheese company.

Swiss, full-flavored American, English, sharp and ruddy Old English—these are some of the cheeses which are expected to enjoy unparalleled popularity on the buffet tables of the nation now that beer is back.

TEA CUP TOPICS

Preposterous, you say—certainly not, just a misnaming of a beverage. The new dinner hats for dining on summer roofs and in the new beer gardens. With one left hand the hostess, Hattie Carnegie has whipped up the most gorgeous lot of tie with satin ribbons. The ribbons are tied in the hands, just a couple of them crossed like a tennis ball "fish" with a splatter of veiling and two pearls tucked into the ends of the tie. To look well, the hair must be really loose and unincumbered by the ribbons. To prevent your folding up in appoplexy the hair must be styled in a way that the style is surprising and restful in spite of the eccentric informality.

The mid-season Paris collections couldn't resist the temptation to coat in gray, add a bouillon coat. Worth slipped one in called "Tortoise," which has built out the shoulders with black velvet and it fastens with a large black velvet bow and falls straight, with the main interest centered in the sleeves and collar.

There will be a lot of black linen cloth and rub them out this way. Always long, very trim, trimmed with white or your favorite color. Black satin is another spotlight and offering. It isn't only an offering, it is now an accepted fact; so get of all to remove and lukewarm water is more efficacious here than any other cleaning substance. Dry show.

Shoes in Paris have decided very definitely against going mannish. With one voice they chorus, "We and you will find it will turn out to be the most successful offering going to keep the feminine line looking shoes for our shops." "We will have a much glossier appearance. For the strictly tailored suit—Which, if they do not exactly

approve of, they tolerate—a pin-tucked kieliskin outfit is advocated. An alternate choice is an oiled, but not oiled, fabric of pin-tuck. Of course, in either case the pocketbook can be had to match, and on special order you can get a best and gloves.

Purple is one of the most effective evening colors of the moment, especially when it is blended with gaudy chiffons. Black evening gloves look very effective in light weight, wool crepe or dull auvergne. Dishes that bounce are the good news to greet this year's crop of husbands who often find them selves dropping wife's new china during the process of wiping. This new kind of dish, made of rubber, has recently been perfected. There will be kitchen appliances as well as dishes for the table in a large variety of colors and types, some with mottled and opalescent effects. The new dishes are said to be tasteless, odorless and resistant to scratches.

Helpful Hints To use the fatness of cold meat, coated in gravy, add a bouillon cube dissolved in water; also two tablespoons of minced onion softened in broiled butter, and one tablespoon of finely minced parsley or celery tips. If lukewarm water doesn't remove those rug spots that the moths like so well, dampen a cloth with carbon tetrachloride and rub them out this way. Always long, very trim, trimmed with white or your favorite color. Black satin is another spotlight and offering. It isn't only an offering, it is now an accepted fact; so get of all to remove and lukewarm water is more efficacious here than any other cleaning substance. Dry show.

Mix a piece of cloth with a dash of ammonia while it is still damp and you will find it will turn out to be the most successful offering going to keep the feminine line looking shoes for our shops. "We will have a much glossier appearance. For the strictly tailored suit—Which, if they do not exactly

HERE'S HOW—WITH PINEAPPLE!

Another food innovation—the served as a breakfast fruit at an appetizer or dessert at dinner. Eaten regularly, the dietetic studies showed the fruit also aids digestion and in the prevention and correction of acidosis and nutritional ailments. Teaching himself about pineapple might seem like carrying coals to Newcastle. But after all, it took America to give the blue dance, the pineapple the beach at Waikiki an international reputation.

and two parts linseed oil, when applied with a soft cloth to suitcases and bags, will clean and polish them.

Save gas bills by boiling food slowly over a low flame. Rapid boiling does not raise the temperature or decrease cooking time.

Blueberry Cobbler

There are blueberries now for a juicy pie or for a cobbler. Make the cobbler with two cups of berries or more, four tablespoons sugar, one cup flour, one teaspoon baking powder, one-half teaspoon salt, one-half cup sugar, one egg, well beaten; one-fourth cup milk, one-half teaspoon vanilla, two teaspoons butter.

Cover baking dish with blueberries. Sprinkle with sugar. Sift in dry ingredients. Combine egg, milk, vanilla and melted butter (slightly cooled). Turn liquid into dry ingredients, stirring just enough to combine. Spread batter over blueberries and bake in a moderate oven, 350 degrees Fahrenheit until the batter is done (about 40 minutes). Invert on a platter; serve with cream.

Scalloped Rice and Mushrooms

Two cups hot seasoned rice, one can tomato soup, one green pepper, four-ounce can of mushrooms, one-half cup milk, one-half cup salt and pepper to season. Combine all the ingredients, including the liquid from the mushrooms. Pour into a buttered casserole and bake in a moderate oven (375 degrees) for 30 minutes.

One-third Pound Prunes, whites of five eggs, one-half cup sugar, one-half tablespoon lemon juice.

Wash prunes in several waters, then soak over night in enough cold water to barely cover. In the morning, pour off the water and, if not as thick as marmalade, add a few minutes longer, then set aside to cool. Beat whites until stiff, add sugar gradually, then fold in prunes and lemon juice. Rub until beaded with sugar, and bake in a slow oven until dry and brown on top, about one-half hour. Serve at once.

MICHIGAN GIRL MAKES GIFT TO WHITE HOUSE

East Lansing, June 22—Unusual honors were acquired by Hazel Madsen, a Michigan 14th club girl, when a footstool made by her handiwork work was selected as the gift to be presented to the President of the United States during the national club encampment at Washington, D. C., June 15 to June 21.

Hazel is 15 years old and has been in handiwork clubs only two months. The article of furniture which she made so perfect in design and craftsmanship that it is well suited in combination with the work of all other club members. Handiwork is supposed to be the boys' province, but the Alma girl has shown that woodworking tools are just as much more household equipment.

The footstool was made from black walnut and was upholstered with sericeable and attractive fabric. Upholstery as well as the cabinet work was completed by Miss McDermott. The angle of the stool which will make it restful to sit on, the feet obtained by curved sides, difficult to perfect but very attractive when completed.

Four Michigan youngsters had the pleasure of seeing the work of one of their fellow club members accepted by the President's wife to become a part of the furnishings of the White House. Irvin Shroyer, Beaumont, Maurice Sutton, Holly, Milton Bergeson, Sterling, and Harriet E. Reynolds, River Junction, attended the club encampment as Michigan delegates.

HOMEMAKERS' CORNER

By Home Economics Specialists Michigan State College

Nearly 15,000 women attended home economics extension project achievement days during the past three months. Miss Edna J. Smith, state leader of home demonstration agents, Michigan State College, announces. The meetings were held in 59 counties in the lower and upper peninsulas.

Enrollment in the projects secured increase of 1400 over last year. Means of economizing were emphasized in all projects during the past three months. Wearing apparel was remodeled, furniture repainted and refinished, and odds and ends of useful materials were made into attractive food coverings.

A total of 2038 garments were made or altered by women enrolled in the clothing project. These included dresses, coats, and children's clothing. The articles were made by the group meeting and suggestions were given for making the garments conform

with the present styles. Remodeling costs ranged from 15 cents to \$2.25.

The home furnishing project report shows 3385 pairs of old curtains altered, 487 articles of furniture reupholstered, 3000 rugs, 1100 slip covers for chairs, and 2271 pieces of furniture repainted or refinished.

Expect Increase In Sales Of Cars

Lansing, Mich., June 22—Michigan automobiles will be sold in Michigan during the present month than were sold during June, 1932. This prediction is based upon a study of records of the Department of State. Sale of new cars in Michigan reached a low ebb in February, 1932, when approximately 175 automobiles a day were registered. Since then there has been a steady increase. During the first week of June, 3,729 new automobiles were registered as compared with 2,891 for the same period in 1932.

Improved business edge also are credited to the increase in the number of motor vehicle operators. Licensees are being issued daily at the rate of 1,000. In the first three months the average net income issued daily has risen from 900 to 1,500.

What To Do After An Automobile Smash-up

Ann Arbor, June 17.—Old Sol's blistering summer rays are the signal for everyone who can to head on the open road for the old swimming hole, golf links or vacation home. Packed with family and friends, cars speed along in increased traffic, the drivers perhaps dulled by heat or distracted by sight seeing and too often a gay outing ends suddenly with a smash-up and tragedy.

In 1932, 715,000 automobile accidents occurred, with 20,000 persons killed and 500,000 otherwise injured, a casualty rate higher than the A. E. F. had in battle. A little knowledge of what to do, and just as important, what not to do, would have saved some of these lives and made easier the task of the doctor who is called to care for the injured. The following suggestions are made by the department of surgery of the University of Michigan Hospital.

"Automobile accidents today are likely to be serious in their results. Skull fractures and internal injuries are relatively common. So are fractures of the arms and legs, the latter often "compounded," with a break in the skin at the site of the fracture and a contamination of the wound with dirt and clothing. The poor condition of many accident victims on arrival at a hospital is often due to excessive loss of blood from these wounds or glass cuts.

"First aid is important, and one who can do it is carried out may be a large factor for better or worse in the subsequent outcome of injury. In every case bleeding should be stopped immediately. Firm, continuous pressure on the bleeding point with the hand and the coagulated piece of cloth available will control most hemorrhages. Bleeding from large wounds on the arm or leg can be stopped by a tourniquet supplied above the elbow or knee. Such a tourniquet should never be kept on for more than an hour.

"Take those who are able to climb out of the wreck with cuts and bruises to the nearest doctor for determination of the real extent of injury. With persons seriously damaged with internal injuries, fractures of the skull, spine, pelvis or long bones, the gravity of such injuries is usually evidence by their extent, loss of consciousness and a weak pulse.

"These persons may be made worse by moving. Most accidents occur on well traveled highways not often more than a few miles from ambulance service. In place of placing the victim in the back of a car and bouncing him off to a hospital at high speed, it is far better to stop any bleeding and see that the patient is kept warm and as comfortable as possible on the ground. Meanwhile summon an ambulance as soon as possible and allow the ambulance to be moved and transported by the drivers who know best how to do so.

Needs An Explanation Mrs. O'Reilly—'An' what are ye going to name the byre?' Mrs. Mulcahey—'We'll name her Hazel.' Mrs. O'Reilly—'What? With 25 saints to choose from, ye name her after a nut?'—Gazette (Montreal).
