Why good towns stay good towns!

SOME TOWNS HAVE A HABIT OF BEING PROGRESSIVE AND PROSPEROUS. THEY ARE PLACES PEOPLE LIKE TO VISIT, TO LINGER IN AND SPEND THEIR MONEY IN. THERE IS AN ATMOSPHERE OF CONTENTMENT, OF CLEANLINESS AND OF PROGRESSIVE ACTIVITY ABOUT THEM THAT OUTSIDERS TALK ABOUT.

BUT THE REAL REASON IS CIVIC LOYALTY!

Without Civic Loyalty, no town can stay a good town. Natural advantages mean little without Civic Loyalty.

Civic Loyalty is not a mere catch phrase. It is a definite expression of a fundamental, underlying sentiment upon which all progress is built and maintained. There is no finer attribute than loyalty; and there is nothing so hollow and empty as an individual or a nation of individuals that do not possess loyalty.

Be loyal to Manistique—and Manistique will stay a good town. Be loyal by taking an interest in city affairs, by buying from Manistique merchants, by supporting local industries, by backing every worthwhile movement to benefit the town.

When you buy out of town, when you knock local industry, when you criticize your community to visitors or outsiders, you are not being loyal to Manistique!

The business places are modern and progressive. The local newspaper is full of advertisements. The wheels of industry are humming. Resorters and tourists are numerous. Even in depression days, these towns stood out as shining examples.

THERE IS A REASON...

Advantageous location may be partly responsible. Proximity to raw materials, good land and water transportation, and scenic attractions play an important part in building up a good town.

BONDED DEBT OF STATE 81 MILLION

Copy of First Report of State Treasurer Fry Received in Manistique

The State of Michigan's bonded indebtedness is \$81,250,000, to meet which State Treasurer Thos. J. Fry was holding in the sinking fund \$30,193,333, the close of the fiscal year, securities to be sold for cash for the purchase of securities, in the amount of \$39,215,967.52. The State has in actual program by means of which the sinking fund is increased to meet bond maturities as they occur.

This information is contained in the first annual report made by Mr. Fry since becoming treasurer, a copy of which was received here this week. The report further shows that the state's sinking fund, on that date, was holding the state's own bonds to the amount of \$3,450,000. Principal and interest requirements on the state's bonded indebtedness during the current year are \$6,874,103.33. The next bond maturities occur on July 1, 1934, when \$1,000,000 of Soldiers Bonus Refunding bonds fall due, and on November 1, 1934, when Highway Improvement bonds amounting to \$1,851,800 must be paid.

The treasurer's annual report also shows that the Department was responsible during the fiscal year for \$125,241,556.64. Cash on hand at the close of the year was \$10,956,986.48.

In addition to listing the state's liabilities and showing the balances in the various accounts, the report sets up the source of the various taxes providing for the September distribution of primary school funds, the deposits by various insurance and fire companies, as a comparison of taxes paid by the counties with the amount of primary school funds received by each and much other information of interest to a student of state affairs. Copies may be obtained upon application to the treasurer's office.

Jurisdiction of Probate Approved

Approval of jurisdiction by Probate Judge Edmund Ashford in regard to the care of afflicted children under the changes in the law made at the last session of the state legislature, was given at a special meeting of the School-County board of supervisors on Friday evening.

The changes in the afflicted children's law require that the probate judge decide whether it will be more costly to have the afflicted child treated locally or at the University hospital, Ann Arbor. Since 1913 up to this year, the state paid the entire cost of taking afflicted children to and from the hospital in Ann Arbor and the hospital in Ann Arbor, that also paid the hospital costs. The revised act provides, however, that the county must pay one half of the traveling expense of the afflicted child, the state paying the entire amount and charging the half of it back to the respective county. The state will assume the entire cost of hospital treatment and the transportation back home as necessary.

In Schoolcraft county the question to be settled is whether the cost of one half of the transportation to Ann Arbor will be more or less than the local physician would charge for treating the child. The new law provides a schedule of physician charges, also.

Miss Emma Johnson, county nurse, and Dr. A. E. Tucker, county physician, explained the revised law to the board.

The board also approved application of a loan from the federal government to be used in a comprehensive program on the resurfacing of all important township roads in the county as a work relief project.

First Assembly Program Friday

The first assembly program for the year in Manistique High was presented Friday afternoon from 6:10 to 2:30 o'clock, when members of the H-Y club spoke on extra-curricular activities.

Short talks were given by William Morrison on music, Harold Peterson on athletics and Jean Graver on forensics. Peter Gorsche and Paul Peterson presented a comical act and piano duet. Mr. Peterson also gave a vocal solo.

The program was opened and closed with several selections given by the German band.

Mrs. Michael Fagan has returned from a visit with relatives in Chicago, Green Bay and Zanesville, Ohio. Mrs. Fagan visited with her daughter, Helen, who is a student at Michael Reese hospital in Chicago, and with another daughter, Sister Mary Helen, a teacher in the St. Nicholas high school, Zanesville.

Reblock That Felt To Wear This Fall

Fashion forecasts a complete change in hat styles from last season's models, which brings up the question of what to do with the one or several felt models left over. Home economists advise an clothing specialist of Michigan State College recommend the reblocking of felts which are of such quality as to warrant the time and effort necessary to rework them.

A hat block or mold can be purchased from almost any wholesale hat firm or a good form can be made at home at little or no expense. With slight changes, the same mold can often be used for hats of other members in the family, or can be passed from one to another of a group of women working together on renovation problems.

One method of making a mold to use a commercial crown of good size and shape as a foundation. Cover this with gummed paper tape such as is used in making dress forms. Then place two layers of tape on the inside, varnish and fit a cardboard base into the crown. Two layers of tape are then put on the outside and the mold is finished with two coats of varnish.

Another satisfactory method is to select a bowl or deep saucerpan near the depth and head size of your hat crown, and put it with white cloth until the proper shape and size. Then cover with a smooth piece of white material, such as old sheeting. The finished mold should be hard and solid and must measure the correct head size.

It is necessary that a felt be thoroughly moist before it is ready for blocking. Steam the hat from the inside by holding it over the spout of a steaming kettle. After it is completely moist, stretch the felt over the mold, pushing and pulling it into shape

until it fits the mold smoothly and snugly. Tie a cord tightly at the head-size line to hold it in place, then continue to steam the felt and push and stretch it until it comes to the desired shape. The felt must not be removed from the block until it is thoroughly dry.

The form of the hat can be stretched and worked by hand and pressed with a warm iron. The hat is then rubbed lightly with sandpaper and finished by brushing with a soft brush. Begin brushing at the tip of the crown and brush around and around in one direction, working outward, until the entire surface is smooth.

Nowheres—Surveys are being made among the Civilian Conservation Corps camps of the Sixth Corps area, including several in the upper peninsula, in anticipation of possible retention of a certain number of camps throughout the corps area for winter occupancy.

For the purposes of this law, a judgment shall be considered sat-

STATE FINANCIAL RESPONSIBILITY LAW IS EXPLAINED

The Michigan Automobile Owners' and Operators' Financial Responsibility Law which was enacted at the last session of the State Legislature and becomes effective on October 16, will doubtless prove doubly beneficial, according to information.

The Act provides that any motorist who fails to satisfy, within thirty days, any final judgment which is the outcome of an automobile accident causing the injury or death of any person or property damage in excess of \$300 will forfeit his right to drive or register any motor vehicle.

motest whose driving license or registration certificate has been suspended because of a violation of the traffic laws must prove his financial responsibility before he is again permitted to operate or register any motor vehicle.

This important new law applies not only to Michigan residents but to non-residents as well. Furthermore this law is effective as regards Michigan motorists whenever the accident occurs or resultant suit is brought. Immediately upon receipt of any such final judgment rendered by any court of competent jurisdiction anywhere in the United States or Canada the Secretary of State of Michigan shall immediately suspend the defendant's Michigan driving license and registration certificate.

Satisfactory proof of financial responsibility for future accidents may be furnished in either of three ways: (1) by depositing with the State Treasurer cash or acceptable collateral to the amount of \$11,000, (2) by filing an ac-

ceptable surety bond to the amount of \$3 by carrying \$5,000/\$10,000 automobile liability insurance and \$1,000 automobile property damage insurance covering all motor vehicles covered by the policy, such insurance to be issued by a company authorized to do business in Michigan or in the state in which the policyholder lives or from which he obtains his operating and car licenses.

This law will make more certain the payment of damages to the innocent victims of motor car accidents and, what is even more important, will tend to make all motorists operate with greater regard for highway safety, it is said.

STOP TAKING SODA!

“Proud and glad to do our part”

WITH President Roosevelt's acceptance of the NRA Automobile Code, Chevrolet, the world's largest builder of motor cars, officially begins operations in accordance with the administration's recovery program.

Although the official code was signed only a few days ago, it will be of interest to Chevrolet's many friends to learn that the Chevrolet Motor Company started to carry out the spirit of today's recovery program over three years ago!

At that time, we put into operation a "share-the-work" plan, whereby our workmen cooperated in spreading the work to give more men jobs. By means of this plan, as well as by regulating hours of work per week to meet retail demand, and by building up parts stocks in lean seasons, it was possible to carry 33,000 men on our payroll through the depression. For eleven months of each year since 1929, we have kept our employment within 10 per cent of this average. We are justly proud of that record. We are also proud to say that Chevrolet workmen did not, at any time during the depression, become a burden on public welfare departments.

On August 1st of this year, Chevrolet announced a blanket wage increase as well as the adoption of a 7½-hour, 5-day week and the employment of 12,000 additional men. This wage increase was the second in the last 4 months, Chevrolet having been among the first to put a blanket wage increase into effect.

We feel that the President's recovery program deserves the whole-hearted support of every citizen and manufacturer in America. It is a bold, swift, courageous plan to start the ball rolling toward economic recovery. Its sincerity is unquestioned. Its objectives are admirable. And the direct, forceful steps the President and his associates are taking to make it a success, should stir the pride and admiration of every American.

We are proud and glad to do our part. And we are deeply grateful to the American people for the patronage that has enabled us to anticipate the present recovery program and to play our part today. After all, the immense number of men employed by Chevrolet is a direct result of the continued preference America has shown for Chevrolet.

WHAT YOUR CITY COMMISSION IS DOING

OFFICIAL PROCEEDINGS

Manistique, Michigan, September 11, 1936. A regular meeting of the City Commission was held on the above date with Mayor Erikson in the chair...

At Ordinance to Regulate Public Dance Halls, to Require Licenses and Permits for the Operation Thereof and Holding of Public Places Therein, to Provide for Revocation of such Licenses or Permits and to Provide a Penalty for the Violation of Provisions Hereof.

Section 1. From and after the taking effect of this ordinance it shall be unlawful for any person, persons, firm, corporation or association to operate a public dance hall or building where public dances shall be held, or to conduct any public dance therein...

Section 2. Any person desiring to operate or conduct a public dance hall or concert public dance shall make application to the City Clerk for a license or permit...

Section 3. The fee for license or permit shall be in such amount as the City Commission shall prescribe and shall contain an agreement on the part of the applicant...

Section 4. Every person conducting or operating any such dance hall or concert public dance shall observe all provisions of all ordinances of the city applicable; shall operate and conduct such dance hall and dances in orderly manner...

Section 5. All public dances and dance halls herein mentioned shall be closed to the public on Saturdays and no public dance shall be held on any day which is a public holiday...

Section 6. For every person conducting or operating any such dance hall or concert public dance where same are operated nightly shall be one hundred fifty dollars (\$150.00) per year...

Section 7. Upon the granting of any such license or permit, the City Clerk shall issue the same which shall state therein whether such license or permit shall be granted...

Section 8. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and shall be punished by a fine not exceeding twenty-five dollars (\$25.00) and imprisonment in the discretion of the court...

Section 9. This ordinance is hereby declared to be immediately necessary for the preservation of the public peace, health and safety and shall take immediate effect and be in force from and after its passage and approval...

By Councilman Gilligan, seconded by Councilman Lied, RESOLVED, that the City Clerk issue a license to Mrs. Ella Luce to operate dance at building on the corner of Deer and North streets, Manistique, Mich.

By Councilman Gilligan, seconded by Councilman Larson, RESOLVED, that the property owners upon whom the sidewalk notices were served, San Lumber Co., M. & L. S., Ry. Co., Stearns Lumber Co., and Andrew Houghton, be given an extension of time for the completion of the work with the understanding that the filling up to grade is to be made as soon as proper to be completed not later than May 15, 1934. Motion carried.

By Councilman Lied, seconded by Councilman Gilligan, RESOLVED, that the City Clerk be instructed to refund to Manistique Post Number 83 of the American Legion the ten dollars (\$10.00) housing license fee paid August 25, 1933. Motion carried.

By Councilman Lied, seconded by Councilman Gilligan, RESOLVED, that the City Clerk be instructed to refund to Manistique Post Number 83 of the American Legion the ten dollars (\$10.00) housing license fee paid August 25, 1933. Motion carried.

MOVIES

Week attending the court fair and visiting with Mrs. Tillman's mother, Mrs. Mary Swanson.

Mrs. Jane Farnell has left for Canada where she will spend the winter with relatives after spending the past several months at the home of her sister, Mrs. R. G. Cannon, Houghton, Mich.

Mrs. Miss Jean Fowler leaves Saturday for Alma, where she is a student at Alma college, following a summer vacation spent with her parents, Mr. and Mrs. George C. Fowler, Steuben street.

Mr. and Mrs. G. F. Pimes, of St. Thomas, Ont., are visiting with their son-in-law and daughter, Dr. and Mrs. George A. Shaw, Walnut street. The Shaw's returned to St. Ignace to meet Mr. and Mrs. Pimes.

Mr. and Mrs. R. J. Crawford and daughter, Marian, of South Ste. Marie, and Miss Grace Briscoe, of Neegaunee, spent the week end in the city at the home of Mr. and Mrs. H. K. Bundy, Chippewa avenue.

Vaughan To Attend Washington Meet

Coleman C. Vaughan, former Secretary of State and now head of the building and loan division of the department, will represent Manistique at the annual conference to be held in Washington sometime during September.

New Students Are Feted Thursday

Freshmen and new students in Manistique high school were feted last Thursday evening in the old high school gymnasium by members of the H-Y club.

Fire Department Called Wednesday

The Manistique fire department was called to the Herman Kidger shop, Oak street, about 10:00 o'clock Wednesday morning where a lighted cigarette, thrown in the stove, ignited rubbish and quickly filled the shop with smoke through the open door.

Isaac Bound Over On A Second Count

Joseph Isaac was bound over to court on a \$500 bond on a fraud charge preferred by John A. Carlson. The examination was held last week and through his attorney, J. J. Hebert, of the firm of Hixson and deBart, Isaac waived examination on and ran on his own recognizance with the sale of stock in a fictitious rotary airplane motor invention.

Rural Enrollment Greater This Year

Enrollment in the rural schools of Scholehar county, which opened a week ago, is considerably larger this year than last, it was reported by Mrs. Kathryn Beal, county school commissioner. This compares favorably with the decreased enrollment in the Manistique city school system.

Personal
It will not be responsible for any member of our family who takes standard tests, including medicine, such as, to try to get rid of indigestion, constipation, having sour stomach, bad breath or headaches. I have told them all to use Baragon foot pills, the new liver medicine which makes the liver get busy and forces enough bile to digest their food and also to stimulate their bowels. Baragon foot pills work in three weeks. I can't say that they're the best, but I can say that they're good. Have them.

Economic Highlights

What affects the financial health of the nation is the subject of the Tax Bills of Every Individual, National and International and Problems Inseparable From Economic Welfare.

Ever since March 4, Washington has been humming it. The most noticeable acceleration. President Roosevelt described one of his weeks as being the most exhaustive since he took office. The strain, of course, is mostly on the physical—he has an army of advisors but he must make the last decision in every case. A recent week went something like this: Dispatched warships to the Pacific, approved a new program and without delay sent Mr. and Mrs. approved steel, oil and lumber industries' codes. Approved a number of farm relief plans and worked on details of paying benefits to farmers reducing cotton crop. Got some work program moving more smoothly and rapidly. Decided to abandon several army posts in Ireland. Made important appointments. Held conferences on possibilities for inflation, studied economic trends. Made plans for extending Civilian Conservation Corps through winter. Arranged for relief negotiations with Latin American countries on reciprocal tariff agreements. In addition the President made innumerable less important decisions, meet many callers, go through a stiff and unavailing routine that is part of the chief executive's job.

Most encouraging recent governmental achievement is completion of the steel and oil codes. Both have had thorny going; many steel and oil men have been resistant. General Johnson has become puff-blower and weary from struggling with them. Finally he got his leaders into a room, kept them there for 12 hours with hardly an intermission; almost before they knew an agreement out of them. Their demand for an open shop was denied. Main provisions were extended an eight-hour day after November 1 if the industry is operating at 60 or more per cent of capacity. The code represents a middle ground; the government wanted more than it got, and the industry wanted to give less than it finally did.

Chief oil code. One group wanted price-fixing, another opposed complete price-fixing, and simply wanted a stipulation to prevent selling at a profit. No amount of argument could bring agreement. General Johnson finally handed them a code prepared by Secretary Lees and James Moffet, ex-vice-president of the Standard Oil of New Jersey. There will be a 40 per cent increase in the power to fix for 90 days

Principal code problems left are soft rubber and automobiles. Goods within each industry have been as far apart as the poles.

The resignation of Chief Brain-truster Raymond Moley must be classified as one of the most dramatic of recent Washington events, but there's no particular surprise at it. Mr. Moley's resignation, which he gave on August 10, had grown to great size. Breaking point was the World Economic Conference, where Mr. Moley seized the spotlight, made statements which were entirely at odds with the views of the Hull Political commentators but forecasting the eventual resignation of one or the other. Mr. Hull would be the one to see the exit. He probably would have had Moley resign in his resignation. Mr. Moley's next job will be to edit a new weekly magazine which will be primarily devoted to analyzing, explaining and furthering Roosevelt policies.

During recent weeks there has been a reversal a slight let-up in getting excited about, however, the prospect of a record of more than 100,000 acres destroyed during the season by forest fires.

While at the beginning of the month the number of burned over acres for the season did not exceed 50,000 acres, the state was facing what is ordinarily the worst hazard period.

According to Department of Conservation records, September and October have always been the most hazardous periods.

The Department is crediting the Emergency Conservation Work camps scattered through the northern part of the state for a good share of the work. The good share of the work is done by the worst fire season in 10 years. There are about 8,000 men and women working in camps through the forest fire zone of Michigan. The camps, with 200 men each, are in strategic locations so far as fires are concerned. All camps have sufficient trucks to rapidly transport all the men during the heavy outbursts of fire in August many of the camps were specially detailed to fight fire fighting and according to fire wardens considerable good work was done by them.

The upper peninsula has been bearing the brunt of the dry weather danger, especially in Mackinac and Marquette counties, so far, has had the heaviest loss of forest fires reported for the season at the beginning of September. Dickinson county ran a close second with 184 fires. The more recent extensive blazes have been in Gogebic county and vicinity but definite figures as to the actual damage done have not been reported to the Department by the fire wardens.

In the lower peninsula fire districts no. 8, 9, and 16 have had the longest lack of rain and have the largest number of fires. Although the average acreage burned over per fire has been small, the large number of fires reported has been rapidly raising the damage toll.

As in past years, careless smokers are being blamed for a majority of the outbreaks.

SCHOOL DAYS

By DWIG

Peninsula Having Bad Fire Season

Unless an abrupt change in weather conditions occurs within the next month, Michigan faces the prospect of a record of more than 100,000 acres destroyed during the season by forest fires.

While at the beginning of the month the number of burned over acres for the season did not exceed 50,000 acres, the state was facing what is ordinarily the worst hazard period.

According to Department of Conservation records, September and October have always been the most hazardous periods.

The Department is crediting the Emergency Conservation Work camps scattered through the northern part of the state for a good share of the work. The good share of the work is done by the worst fire season in 10 years. There are about 8,000 men and women working in camps through the forest fire zone of Michigan. The camps, with 200 men each, are in strategic locations so far as fires are concerned. All camps have sufficient trucks to rapidly transport all the men during the heavy outbursts of fire in August many of the camps were specially detailed to fight fire fighting and according to fire wardens considerable good work was done by them.

The upper peninsula has been bearing the brunt of the dry weather danger, especially in Mackinac and Marquette counties, so far, has had the heaviest loss of forest fires reported for the season at the beginning of September. Dickinson county ran a close second with 184 fires. The more recent extensive blazes have been in Gogebic county and vicinity but definite figures as to the actual damage done have not been reported to the Department by the fire wardens.

In the lower peninsula fire districts no. 8, 9, and 16 have had the longest lack of rain and have the largest number of fires. Although the average acreage burned over per fire has been small, the large number of fires reported has been rapidly raising the damage toll.

As in past years, careless smokers are being blamed for a majority of the outbreaks.

Harmon Praises Chicago Exhibit

Leo C. Harmon, ex-president of the Upper Peninsula Development Bureau and a former resident of Menominee and Manistique, is now a resident of Chicago with offices in the Palmer House building.

"I visit the Century of Progress exposition frequently, and the more I see of the big show, the more I am impressed with it. The exposition has been magnificently planned and carried out on a grand scale," said Mr. Harmon.

The August attendance is breaking all records, due beyond a doubt to the advertising of people who have seen it and told their friends. I hear many praises for the Michigan exhibit in the Hall of States.

GOVERNMENT PLATES

Written licenses are to be demanded by the Department of State in all cases where "governmental" license plates are issued for privately-owned automobiles.

These plates are issued upon application of county, township and village authorities but investigation in Detroit recently showed that between 90 and 130 privately-owned automobiles were using "governmental" plates without proper authority. The owners are being required to purchase 1933 plates.

APPOINT ADMINISTRATOR

State of Michigan, The Probate Court for the County of Schoolcraft.

At a session of said Court, held at the Probate Office in the City of Manistique in said County, on the 10th day of August A. D. 1933.

Present, Hon. Edmund Ashford, Judge of Probate.

In the Matter of the Estate of James P. Christensen, deceased.

Clifford Christensen having filed in said Court his petition praying that the administration of said estate be granted to himself or to some other suitable person.

It is Ordered, that the 19th day of December A. D. 1933, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, that publication of a copy of this order, once each month for four months prior to the month set for said hearing, in the Manistique Pioneer-Tribune newspaper printed and circulated in said County.

It is Further Ordered, that no person named in said petition as heirs-at-law, or next of kin, by a person named in this order, depositing copies of this order, one to each of them at their respective last known postoffice addresses, duly registered and postage prepaid, within thirty days after the filing of said petition.

EDMUND ASHFORD, Judge of Probate. (Aug. 17 Sept. 14 Oct. 12 Nov. 9)

Dr. Miles' NERVE PILLS

"Did the work" says Miss Gilvar.

WHY DON'T YOU TRY IT?

After more than three months of suffering from a nervous ailment, Miss Gilvar used Dr. Miles' Nerve Pills and found that she wrote us an enthusiastic letter.

If you suffer from "Nerves," if you lie awake nights, start at sudden noises, are easily, are cranky, blue and if your nerves are probably out of order.

Quiet and relax them with the same medicine that "did the work" for this Colorado girl.

Whether your "Nerves" have troubled you for hours or for years, you'll find this time-tested remedy effective.

At Drug Stores 25c and \$1.00.

DR. MILES' NERVE PILLS

Public Letter Box

The Pioneer-Tribune, Manistique, Michigan. Being a regular reader of your paper and also a property owner on Indian Lake, I should like to congratulate you, also your Chamber of Commerce on the stand taken with reference to the closing of Indian Lake to winter fishing.

College Gets Files Of Swedish Paper

On the seventy-second anniversary of his birth, Sept. 7, Carl Thorborg, of The Herald Press, presented the Augustana College at Rock Island, Ill., through Professor E. G. Ander with the files of the "Manistique Harold" a Swedish weekly, consisting of six bound volumes with every issue of the publication for 15 years from April, 1884, to April, 1900, when it was discontinued.

Federal Land Bank Loans in Michigan

"With applications of 975 Michigan farmers for a total of \$3,104,400 in mortgage loans during the first three weeks of August, the Federal Land Bank of St. Paul, is making vigorous efforts in this state to cope with the situation," said G. S. Johnson, of Manistique, director.
