RIVERSIDE WINS SOCCER PENNANT

Captures City Championship In Soccer For Third Consecutive Year

The Riverside soccer team won the soccer championship this fall, and was awarded a large felt banner, 24 inches long and 15 inches wide, as an emblem of victory. This makes the third consecutive year that Riverside has won the championship.

Much interest was shown in the game this year. W. J. Cook, director of soccer games, said, the boys being prompt in attendance, courteous and playing with a zest that left little doubt as to their enjoyment of the games.

A summary of the league schedule, showing games won, lost and tied, and the final standings of the four teams, follows:

Riverside

TWO MILK MEETINGS HELD LAST WEEK

Held Two Separate Sessions In Court House

Two meetings were held in connection with the milk marketing code for the City of Manistique on Tuesday last week. R. E. Horwood, Dairy Specialist, met with the distributors in the afternoon and with the Schoolcraft County Milk Producers association in the evening. Both meetings had for their purpose that of explaining the code which was prepared by a committee of producers at which delegates from the various counties in the upper peninsula attended.

"About ninety percent of the milk of the present milk marketing situation are local," said R. E. Horwood, "regardless of codes, distributors and producers can remedy this situation largely by working together. Rather slow progress is being made with the development of a state code, but a National form for milk marketing, National Administration has been to study very carefully those codes now in operation. By profiting by the experience of such areas as Chicago, Detroit and Cincinnati, the Administration hopes to draft a National form for milk marketing codes and agreements. The offices of the two upper peninsula associations are accordingly going ahead with the organization work so that when National recommendations are made, little time will be lost in compiling a code for upper peninsula."

Two additional directors were elected by the Schoolcraft County Milk Producers association at their meeting Tuesday evening, namely, Isaac Pawley of Doyle Township and Daniel Murphy of Manistique Township. The organization of both producers and distributors locally are working on getting the marketing agreement signed on. It is hoped that definite price schedules and rules or codes will be put in practice in the Manistique area shortly.

And This Is What We Call A Haul

Local commercial fishermen, who are interested in the preservation and perpetuation of the commercial fish life of Lake Michigan, point to the recent haul of 75 tons of fish in 24 hours by 35 commercial fishermen at Harbor Beach, Mich., as a potent argument against the use of the deep trap.

This catch of 160,000 pounds in 24 hours is a record, but it shows, according to local fishermen, what the deep trap net is doing to the fishing resources of the great lakes. No lake, they contend, can long stand this terrific drain without becoming depleted.

Dan and Bradstreet's report for the week ending September 23 showed 255 business failures, compared to 57 for the corresponding period in 1932.

Ispheming Wins -8-0 From Legion

The Manistique Legion team lost a bitter battle to Ispheming Sunday afternoon on the Ispheming gridiron, 8 to 0. The Hematite men savoring two points to decide the issue early in the first quarter when a Manistique player was tackled in the end zone after he had fumbled a poor pass from center. The touchdown was made in the last few seconds of play, the local men maintaining that the game was shoved across after the game had legally ended. Escanaba The local team was handicapped by the absence of several star players, but put up a vicious but long stand in an effort to defeat the strong Ispheming aggregation.

Next Sunday afternoon the Legion team will invade Escanaba to take on the formidable Ranger team.

NEW RULING ON FOREST WORKERS

Only Men Now Living Within Commuting Distance Can Be Employed

Only men within commuting distance of the place of work can be employed in the national forest relief projects, it was learned last week end with the receipt of a letter from Clarence E. Weirs, of Detroit, state director of the national re-employment service.

Communications were received from Mr. Weirs by Frank Fouchard, special investigator for the Schoolcraft county superintendent of the poor, and John McCarthy, engineer for the county road commission. The letter reads as follows:

"We have today received a letter from R. E. McManan, forest supervisor at Manistique, Michigan, advising us that, on account of the fact that camps have not yet been built in the national forests, it is impossible to take care of the men selected for this work unless they live within commuting distances of the place where they work."

"We have advised Mr. McManan that we are willing to cooperate with him in this respect and that we are asking the different agencies, who are furnishing help for this service, to select the men with the commuting problem in mind."

"Later on when camps are built it will be possible to select the men from any part of the county in accordance with this service,"

Organization of Chess Club Sought

The revival of the ancient game of chess in Manistique is being promoted by three local players, Rev. Joseph Gross, W. S. Crowe and C. J. Jansen, and any one interested in the organization of a chess club is asked to communicate with one of the trio.

Mr. Jansen, while living in Holland, played the game on a large scale and often competed with players in France and Germany, the games being carried on by means of postcards.

Local Hunters Are Rapped By Editor

People down state are of the opinion that Manistique persons are illegally taking huge quantities of game from the Steuben country, as is evidenced by the following observations of Cheboygan Observer, edited by Al Weber:

"A part of Cheboygan and down state men searching for a permanent home in the upper peninsula was attracted to that section between Manistique and Shingonauque, Michigan, where the lakes, rivers and creeks and also plenty of virgin game lands for sport, alertness and courage in the hunt as the deer were prety well cleaned out by Manistique hunters who invaded the out of the way places all the year round for deer and fish, and there was little left to attract. There are many such communities about our state that might profit tremendously by the coming in of outside money through the tourists and resorters, but they kill the goose that lays the golden egg by selfishly destroying those things that attract new money and new people to their section. A community spirit that fails to recognize laws made to protect them will eventually suffer."

Governor's Proclamation

"For many years past, the American Legion, the National Education association, and the United States Office of Education have sponsored American Education Week, and our own Department of Public Instruction has helped make it an established custom in Michigan. We recall with pride the record of our state in advancing its public school system, early recognized as a model in the middle west, and are constantly impressed with the importance of the observance of this occasion.

Much recent distress and disturbance of economic balance has resulted from changing values, and in consequence new burdens have been placed upon government. It is therefore particularly comforting to realize that there has been no lessening of the value of our principal asset—the children of our state. They carry on with the characteristic resilience of youth, cheerfully and willingly supporting and properly financing our public schools and other educational institutions and facilities.

It is therefore fitting, and I do hereby proclaim, that the period of November sixth to twelfth as American Education Week, be suitably observed in recognition of our duty to inspire and direct the children of our state toward high ideals of citizenship, by cheerfully and willingly supporting and properly financing our public schools and other educational institutions and facilities.

GIVEN UNDER MY HAND AND THE GREAT SEAL OF THE STATE, THIS SIXTH DAY OF OCTOBER, IN THE YEAR OF OUR LORD, ONE THOUSAND NINE HUNDRED THIRTY-THREE, AND OF THE THIRTIETH YEAR OF THE NINETEENTH CENTURY.

Board Recommends Changes in Names Of 21 County Lakes

It was learned Tuesday that the announced changes in the names of 21 lakes in Schoolcraft county, made last week by the board of supervisors, will not be drastic, as far as the county is concerned, until a notice is published in the local newspaper stating that the board will act on the request or petition for changes at a specified meeting of the supervisors. As soon as the next meeting date of the county board has been selected, the notice will be published.

Following is a list of 21 lakes in Thompson, Hiawatha, and Inwood townships whose names were recommended changed by the board of supervisors at their annual meeting recently in accordance with a request voiced by George Fowler, member of the conservation commission.

1. Square lake to Little Island lake; small island located in section 23, township 44 north, range 18 west.
2. Cucumber lake to Middle lake; section 18, township 44 north, range 18 west.
3. Skeet's lake to Corner lake; corners of four townships verge within the waters of the lake which empties into Indian river; section 31, township 44 north, range 18 west.
4. Kinley lake to McKeever lake; better known under this name; sections 7 and 8, 17 and 18, township 44 north, range 18 west.
5. Corner lake to Ostrander lake; empties into Straits lake; section 21, township 44 north, range 18 west.
6. Rumble lake to Lost lake; better known under this name; section 28, township 44 north, range 18 west.
7. Mike White lake to Star lake; better known under this name; section 32, township 44 north, range 18 west.
8. Sprink lake to Clear lake; section 27, township 44 north, range 18 west.
9. Horsehoe lake to Crescent lake; better known under this name; sections 27, 28, 33, 34, township 44 north, range 18 west.
10. Kewan lake to Swan lake; better known under this name; sections 32, 33, township 44 north, range 18 west.
11. Martha lake to Triangle lake; better known under this name; section 36, township 44 north, range 18 west.
12. Thomas lake to Deep lake; empties into Straight lake; change of possible confusion with Tom's lake nearby; section 31, township 44 north, range 18 west.
13. Mullet lake to Coxson's lake; empties into Indian river; Coxson was one of old settlers; section 21, township 44 north, range 18 west.
14. Nineteen lake to Bear lake; better known under that name; section 34, township 44 north, range 18 west.
15. Whitefish lake to Big Bass lake; sections 31, 32, township 44 north, range 17 west.
16. Legg lake to Leg lake; empties into Murphy lake; shaped like a leg; section 7, township 43 north, range 17 west.
17. Mud lake to Diamond lake; too many Mud lakes; section 6, township 43 north, range 17 west.

18. Mud lakes to Pear lake, shaped like a pear and too many Mud lakes; section 18, township 43 north, range 17 west.

19. Lilly lake to Lily lake; empties into Sand lake; section 21, township 43 north, range 17 west.

20. Blush lake to Farm lake; lake included in farm; sections 13, 24, township 44 north, range 18 west.

21. Billy Byers' or Byers' lake to Bosworth lake; Bosworth was one of original settlers; sections 13, 18, township 44 north, range 17 west.

The changes were made for use on proposed new detailed maps which are being put out by the Geological Survey division of the state department of conservation working in conjunction with the federal geological survey.

Made with the aid of aerial photographs, the new maps will be the most accurate and detailed ever produced and will contain much information never before available in such convenient form.

Former Resident Dies In Detroit

Funeral services for Mrs. Robert Broil, age 64 years, a former resident of Manistique, were held recently at the Congregational church in Fayette, with the Rev. H. H. Headfield officiating. Interment took place at St. Mary's.

Mrs. Broil died Tuesday evening of last week in Detroit, Michigan, after a long illness. She was survived by her husband; one son, Robert, of Detroit, died October 10 in Detroit, death 11 years, moving there from Manistique where she had lived two years. Before coming to Manistique 13 years ago she had resided in Fayette for many years, having moved there with her parents, Mr. and Mrs. Rodrick Fagan, when she was a little girl.

She is survived by her husband; two sons, Robert and Charles; a daughter, Mrs. Paul Finn; and two brothers, Patrick Fagan, of Manistique, and John Fagan, of Fayette.

The body was brought to Manistique Thursday, October 12, and was taken to the Patrick Fagan residence, 302 Schoolcraft street, where the funeral was held. Burial was in Detroit Friday morning.

Sven Johnson, local mortician, had charge of funeral arrangements.

Michigan Hunters Asked To Be Careful

As an emergency safety measure, Director George E. Hogarth of the department of conservation today asked Michigan hunters to use extreme caution when hunting in the vicinity of any of the state's 45 Emergency Conservation Camps and any area where C. C. men are at work.

All conservation officers have been notified to warn hunters in their localities of the proximity of the camps and locations of projects.

While as a general rule, workers are engaged in state parks and other refuge projects numerous groups are employed on fire lines and along lakes and streams outside of long lakes and where they are in serious danger from nearby hunters, it was said.

EXTENSION FOR 1932 TAXES ENDS NOV. 1

1932 Taxes May Be Paid Till Then Without Interest Or Penalty

Miss Laura Williams, county treasurer, again directs attention to the legislative resolution permitting the payment of 1932 delinquent taxes without interest or penalty up to November 1, 1933.

The extension on paying 1932 taxes originally was granted until July 1, 1933, but in order to give farmers a chance to sell 1933 crops and obtain cash, the extension was changed to November 1.

Taxes for 1932 remaining unpaid after November 1 will carry both interest and penalty. The interest will be computed back to last March, and will amount to 3-4 per cent on November 1. The penalty will amount to 4 per cent, bringing the total to 7-8 per cent, which the taxpayer will have to pay in addition to his regular tax if he does not settle his delinquent 1932 taxes before November 1.

For each month after November 1 that 1932 taxes remain delinquent an additional 3-4 per cent interest will be added.

Revoke Right Of Insurance Firm

The right to do business in Michigan of the Prudence Mutual Benefit Association of New Jersey, was revoked by the Secretary of State last week. The company was operating under a law which permits companies giving maximum benefits of \$150 to file papers with the department and to do business without coming under the supervision of the Department of Insurance.

To Attend Relief Meet In Lansing

Frank Fouchard, special investigator for the Schoolcraft county superintendents of the poor, expects to attend the annual meeting of county welfare agents which will be held November 8 in Lansing. The meeting will be followed by the state conference on social work November 9, 10 and 11.

Matters pertaining to federal and local relief problems and an explanation of the state relief program are slated for discussion at the two gatherings.

Economic Highlights

happenings That Affect the Din- revenues were nearly five times as large as in June, 1932. A slight decline in July. Individual, close started in August.

Since the middle of July there has been a definite—but yet not overly severe—downward trend in government business. The usual seasonal August improvement did not materialize. What happened was that the summer decline, which business avoided for a number of months after it was due, made a delayed appearance. Even so, there has been extraordinary sustained improvement over the preceding few years. Production in July according to the Department of Commerce, was 68 per cent higher than in 1932, when the absolute bottom of depression was touched; 20 per cent higher than in 1931 and 5.4 per cent higher than in 1930. The Department of Commerce places the manufacturing index at 99, which is the highest since May, 1930.

Conditions obtaining in various fields are as follows: Commodity Prices — Advanced sharply, and still upward. The cost of living advanced 3 per cent from June to July, with an 8 per cent jump reported for food prices.

Domestic Trade—This continues to present a puzzling picture. What expansion there has been is not commensurate with the increase in production, and the gap between producer and consumer has widened. Most recent figures indicate that this condition is beginning to be corrected.

Banking—During a recent six weeks' period 200 banks "closed" in excess of \$200,000,000 reopened. Since the moratorium 14,000 banks have resumed operations on an unrestricted basis.

Securities—The most severe break for a long time was that of the middle of July, which canceled the gains made in previous months. So far as stocks are concerned, the situation is very uncertain—there are likely to be a number of ups and downs with speculators waiting for short class.

Foreign Trade—Has continued the upward trend that started in May. However, the value of exports and imports has generally been smaller than in comparable months of 1932.

Construction—The long awaited improvement in the construction industry put in an appearance in early August, contrary to the usual seasonal experience. The Chicago area has been leading the country on contract values.

Railroads—Car-loadings in recent months have been well above those of a year ago, with records in much better financial condition. In June, for example, operating
