## HERE IT IS!

Goebel were

## Above everything else..a good car!

Pontiat has one manufacturing principle which takes precedence over all others: Pontiac must always be a good carl

Pontiac must always be a good car!
There is no other motor car quality which people
value so much as goodness. That's why Pontiac engineers and production specialists spend so much time
and energy and money to insure Pontiac quality
Pontiac cars must sat long—and they must sat sully—
and they must function through the years with a
minimum of upkeep cost.

Owners have been quick to appreciate this. Some of the testimonials they send to the factory, and to Pontiac dealers, tell of performance feats that seen almost impossible of attainment.

Pontiac has many other outstanding virtues, of course. It is a wonderful performer. It is delightfully comfortable and easy to handle. It is a great beauty, and unusually distinctive in appearance.
