WHITE CAUTIONS Local Program To Aid Hungry DRIVERS ABOUT WINTER HAZARD In Europe Will Be Organized

Accidents Take Big Rise In Northern States After Snowy Weather Starts

Motorists were reminded this week by Kenneth White, commander of the Michigan state police post here, of the safe driving rules for winter weather.

"In northern states, the traffic accident death rate goes up 24 to 53 percent in the winter months, with more automobiles on the road than last winter, every driver must exercise caution."

He lists the following: 1. When starting out on ice or snow, get the "feet" of the road surface. Test your braking and acceleration when clear of other cars.

2. Reduce speed when road surfaces are snowy or icy. Remember that it takes 12 to 15 times more distance to stop on snow or ice than on dry pavement.

3. Keep snow and ice off the outside of the windshield as well as on the front inside. Be sure your defroster and wipers are working. Watch out for pedestrians.

4. Never walk up your car in a closed garage. Carbon monoxide poisoning is dangerous. Also check for loose and exhaust system leaks, examine heater for possible defects.

5. When treacherous snow or ice prevail on the streets, use steel tires to chain them. Keep a spare set of chains for cars and trucks from 40 to 70 percent, and provide tracks.

6. If possible, have tires blown with good tread. They provide better stopping ability on both dry and wet pavement, but do not depend on even new rubber tread.

7. Avoid sharp curves. "Bite all" further into and quiet, actually skid while these hard tires on ice. So, "don't skid yourself!"

Disorderly Count For Rough-House Pair; Both Jailed

Two Manistique men, Emerson Dixon and John Hruska, are in the county jail here pending payment of fines of \$25 each, costs of \$5 each and a joint bill of \$20 for repair of damage they did to the city jail while they were unwilling guests there Wednesday night.

The pair were arrested about midnight upon complaint of Mrs. Joseph Brager, North Third street, where one of them was a roomer. Hruska had seen Dixon and Hruska downtown and called her home to instruct a son and daughter to let them in if they came to the house. When they found the doors locked, the two men smashed one and were arrested there by city police. Locked in the city jail, they proceeded to break their way down and regain their freedom.

Later, however, they returned to the jail and when Patrolman Mike Bonni, who had been told of their escape, returned, he found them there. Bond then transferred both to the county jail.

The pair pleaded guilty to a count of disorderly conduct for their arraignment Thursday morning.

MANISTIQUE K OF C TEAM WINS OPENER

Local Cagers Defeat Saturday In Thriller Saturday Night, 59-55

The Manistique K-C basketball team opened the 1918-19 season Tuesday night with a 59 to 55 win over the strong Munising Cox Chevrolet aggregation in a fast thriller at Manistique Saturday night.

Hammer Weber opened the scoring in the first quarter, counting eight points in quick succession, and his teammates added 11 more while their opponents were scoring 12 to give the K-C quintet a 12 to 12 margin at the end of the period. A last time Manistique was leading 40 to 23.

Manistique came back strong in the second half and in the final period put on a scoring barrage which brought them within four points of evening the score. They were unable to bridge the gap, however, and the game ended with the K-C ahead, 59 to 55.

The Manistique cagers looked like a fast, aggressive club in their opener and indications are for a good season. Berger led the scoring with 21 points and Weber added 14. W. J. Steinbock paced the Cox team with 10 points.

HUNT TRAGEDY CLAIMS LIFE OF YOUTH, 20

Herman O. Wilcox, Germfask, Killed By Uncle Sunday North Of Blaney

Herman O. Wilcox, 20, of Germfask, was killed instantly about 11 a. m. Sunday when he was struck by a stray pellet from a double-barreled 12 gauge shotgun fired by his uncle, Vernon Wilcox, 35, while the two were hunting deer in one half mile north of the Blaney Park boundary line.

Wilcox aimed at a deer which they had been driving, shot and killed it believing his nephew was completely out of range. A few minutes later the youth staggered toward him calling "You got me, deer! Uncle Vern, but you got me, too!" He ran a few rods and fell dead.

The bullet struck him in the left shoulder, broke his collar bone and took a downward course to penetrate his heart and lung. Coroner George Forster, who was called to the scene, ruled the death accidental.

Young Wilcox, who was the son of Mr. and Mrs. Otto Wilcox, was born Aug. 10, 1928, in Gulliver but lived in Germfask most of his life. He attended the Methodist church.

Survivors besides the parents are one sister, Marcella, of Germfask, his maternal grandparents, Mr. and Mrs. Adolph Ballou, of Manistique, and his paternal grandfather, Roscoe Wilcox, of Germfask.

Funeral services were held Thursday afternoon at the Morton funeral home, the Rev. John Sefran officiating. Burial was in Fairview cemetery.

CARBON MONOXIDE SERIOUS HAZARD

Health Department Warns Of Dangers, Suggest Care Of Checks Of Sources

Give a little thought to carbon monoxide right now; it may save your life this winter, says the Michigan department of health warns in a release received by the Alger-Schoolcraft health department.

Each year carbon monoxide poisoning takes the lives of 20 to 30 Michigan people.

This, the season of the year when cars are warmed up in the garage, when motors are left running to keep the occupants of a car warm while parking, when hot furnace fires are built and when water heating equipment gets extra use, is the time when carbon monoxide deaths occur.

Carbon monoxide gas is a colorless, tasteless, odorless gas which has no irritating effect on eye, nose or throat. It is caused by in-

complete combustion of carbon compounds such as gasoline, fuel oil, gas or coal. It cannot be detected by any of the senses.

Check Exhaust

Do not sit in a parked car with the motor running, unless you know for sure that the exhaust system of the car is absolutely tight. Eight parts of carbon monoxide gas to 10,000 parts of air during a two-hour period may kill you. You may just sneeze, and unless someone wakes you, you may sleep forever. Drive with a window open. Only two parts of carbon monoxide to 10,000 parts of air on a three hour drive may put you to sleep and wreck your car. If you begin to feel drowsy, if your head begins to ache, or if you feel dizzy or ill, get out of the car at once.

Open the garage doors before you warm up your garage. The most satisfactory way of eliminating the danger of carbon monoxide fumes from a running motor in a garage is to attach directly to the exhaust pipe, a device which will carry the fumes outside the building.

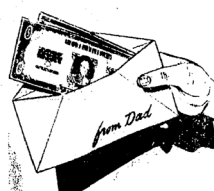

Furnaces require particular attention. Before severe winter weather sets in they should be checked for ill-fitting pipes, worn and corroded parts, clogged chimneys and poor dampers. The person who banks the furnace for the night should know how to do it properly. Defective parts or poor banking can permit dangerous carbon monoxide fumes to enter the house while its occupants are unaware or sleeping.

Water Heating Source
Gas heating equipment in homes and tourist cabins takes lives each year. The small water heater in our basement can give off fumes that will kill you just as surely as those from a poor furnace. Have these heaters checked to make sure their vent pipes are clear.

Open all the doors of a house thought to have carbon monoxide contaminated air. If a person is overcome take him out of the contaminated atmosphere and into fresh air, wrap him in blankets to keep warm and give him artificial respiration until the physician and an inhalator or respirator have arrived.

Become carbon monoxide conscious before you become carbon monoxide unconscious.

NO PITCHBLEND FOUND IN THE U. P.

Geology Division Of
 Conservation Department Re-
 ceiving Inquiries

Persons directing inquiries to
 the conservation's geology divi-
 sion, prompted by the discovery
 of pitchblende in Ontario, are be-
 ing advised that there are no
 known deposits of this mineral in
 Michigan.

The chances of finding pitch-
 blende, the source of radium and
 uranium, in the upper peninsula
 areas east of the iron and copper
 district are not probable even
 though the Canadian strike is lo-
 cated but a short distance from
 Sault Ste. Marie, and some of the
 rocks found west of Marquette are
 similar to those in the vicinity of
 the Ontario strike. A remote pos-
 sibility of discovery cannot be ru-
 led out in this region of the state
 the geology division advises.

This mineral is usually associat-
 ed with the oldest rocks known to
 man. Since Michigan is largely
 covered with younger rocks
 pitchblende deposits are unlikely
 to be found.

Enrollment on the Farm
 Daughters in farm families get
 more schooling than the boys, ac-
 cording to Texas A & M college.
 Figures on young people attending
 school last year show that girls
 make up a larger proportion of the
 enrollment from farms than boys.
 Just the opposite is true of young
 people in towns and cities. The pro-
 portion of all rural young people
 attending school has increased con-
 siderably during the past five years
 but there are still a few farm boys
 who have not started school yet.

From where I sit... by Joe Marsh

Why Dutch is Growing a Beard

That beard on Dutch Miller's chin doesn't mean that he's getting ready to play Santa Claus. He's simply paying off the election bet he lost to Cappy Swanson.

And while some folks allow it's all a lot of nonsense — like the wheelbarrow ride that Cappy had to give Dutch after last election day — from where I sit, it's a mighty wholesome aftermath to a difference of opinion.

Because good Americans all take their politics and voting mighty seriously. But when the issue's

settled, and the die is cast, they accept the verdict in a spirit of good humor.

And that's as it should be when it comes to any difference of opinion. Some folks vote for beer as their favorite beverage — others vote for cider. In fact, we all have differences of taste in almost everything! But that doesn't mean that we can't live together in a spirit of good fellowship.

bridge room of this city. The altar of the church was decorated for the service with baskets of varicolored chrysanthemums, and traditional wedding marches and the music of the mass were played by Miss Geraldine Gorske, church organist. The bride, who was given in marriage by her father, wore a gray suit with brown accessories and a corsage of white carnations. Mrs. Holton wore a green suit with black and her corsage was of yellow chrysanthemums. Mrs. Frankovich wore black with white accessories and Mrs. Couruaya in brown with green accessories. Both had corsages of mixed flowers. A wedding dinner for 25 guests was served at the home of the bridegroom's parents, table decorations featuring a pink and white color scheme and a large wedding cake. In the evening a reception was held at the VFW hall for 100 guests. The couple left later on a wedding trip to Chicago and points in Wisconsin, the bride wearing a three-piece gray suit with brown accessories for traveling. They will reside in Iron Mountain where the bridegroom is employed. Both Mr. and Mrs. Couruaya are graduates of the Manistique high school and the former, an army veteran, attended

Lawrence college at Appleton, Wis. Mr. and Mrs. Keith Morin, of Escanaba, were out of town guests at the wedding.

RELIEF FOR HUNGRY IN EUROPE SPEEDED

Church Groups In United Effort To Send Food To Starving Millions

"The happiest day of my life was the day my brother died, and I got to wear his warm underclothes."

This simple, horrible sentence was written in an essay by a ten year old German girl.

She had been asked to write on "The Happiest Day of My Life," and she did.

Today in the state of Michigan the Christian Rural Overseas Program is in the midst of a campaign to bring relief to the hungry children, the cold children, the bewildered children of the world—"lost" kids like the ten year old girl in war-stricken Germany.

Sponsored by Catholic Rural Life, Church World Service, and Lutheran World Relief, this plan, known by its initials CROP, is an effort to give gifts-in-kind from the American farmer to the rural needy overseas.

Gifts that Michigan farmers can spare from their harvests and livestock pens will be collected on a state-wide canvass during CROP Week, December 28 to January 2.

Each community will have an individual part in giving a carload for Michigan "Spirit of Christ-

mas" train which rolls across the state on January 18, headed for the port of Philadelphia and church agency distribution overseas.

Clayton Reih, county agent, can furnish details on this program which is planned to reach institutions such as hospitals; and special groups, such as orphanages, widows, and the diseased.

Further information can be secured from the State CROP Office, 221 N. Cedar, Lansing 4, Michigan.

Improved Homes Head Farm Plan List Next Year

Many farm families will be in a good position to make home improvements in 1949, since it promises to be another good year for farm income.

Farm families who expect to make necessary home improvements or buy needed equipment, and have the money to do so, should not wait, advises Olevia Meyer, home management specialist at Michigan State college.

Farm families who have not accumulated savings may have to wait for improvements, payment of debts or investments.

There is the possibility that should prices be lower in the future, funds may not be available. Although it may cost more to put in running water at present, the family can enjoy its comfort and convenience now. This may pay off greater dividends in labor saving, health and happiness than the

amount of money saved by waiting, Miss Meyer believes.

Produce Pays More

Farm produce will buy more of some things today than it did before the war. For example the milk from one dairy cow would pay nearly twice as much on a refrigerator in 1948 as it did in 1935-36. It would buy about the same amount of lumber as it did in the pre-war period.

Before farm families go all out for making home improvements they need to do some planning. One of the first considerations they need to make is whether the farm can pay for and maintain the improvements they expect to make.

It may be necessary to make some improvements in the farming business to insure a continuous income for the family and the home, adds the home management specialist. For some families it may mean buying a new tractor, more fertilizer or building a new milk house before home improvements can be made.

New Tools Are Not Only Relief For Tired Housewives

Is it necessary for you to be as tired as you are at the end of a day filled with homemaking tasks?

It probably isn't necessary according to the conclusion of Irma H. Gross, head of the department of home management and child development at Michigan State college. She and her staff members have

studied a great many housewives doing their daily work and have tried to help them streamline their activities to use the least amount of energy.

Trying to avoid tiredness is not the only way to be less tired. One of the simplest ways is to use your body more effectively. This isn't always easy but at least it doesn't involve new tools or equipment. It does require forming new habits.

For example, bending our back in a full arch to work close to the floor or pick up objects from the floor is a common mistake. To avoid fatigue, the better way is to stoop, holding the back straight. If picking up something, grasp the object and then rise. Lifting a baby is an example.

Moving heavy objects such as furniture is another way to tire yourself more than necessary. If you can't wait for your husband to come to your rescue and feel that you must move that chest of drawers—push at the center. Extend your arms and push in the middle rather than at the top or bottom of the piece of furniture.

Remember, too, that you'll save a lot of energy by sitting at some of those jobs instead of standing at all of them.

In 1947 police made arrests in 800 of each 1,000 crimes against the person and in 256 of each 1,000 offenses against property.

Movies Of Outdoors Growing In Popularity

Growing popularity of "movies" about the outdoors is overtaking the conservation department's film loan library.

Last month the department loaned 911 reels of film to 308 schools, sportsmen's groups and other organizations interested in the department's activities, and during the current season will exceed previous records by at least 20 per cent.

Popularity of the department's newest picture, By Land We Live, a joint project with the state soil conservation committee of Michigan, is outstripping the library's ability to furnish films. Work now also

is in progress on a new sound-color fishing picture, a deer hunting picture, and an upland game bird hunting film, which are being readied for release next September.

Five Local Masons Attend Milwaukee Ceremonial Rites

The following local Masons motored to Milwaukee Saturday morning to attend the Shrine ceremonial there Saturday: Charles Jackson, Howard Ilevitt, Leon Nicholson, Dr. James Fyvie, and Edward V. Jackson.

The ceremonial was held for the Milwaukee area, but about 325 Masons from Mullah Temple in St. Louis, Mo., attended the function ability to furnish films. Work now also

Is your Maytag the Oldest in this area? Then . . .

We'll Give You a NEW . . . Maytag

In the short time since our "Oldest Maytag Washer" contest was announced, we've been flooded with entries. But we feel sure that, somewhere in Schoolcraft County, there's a Maytag older than any entered to date.

Remember, the present owner of the oldest Maytag will win a brand new Maytag. Three additional merchandise prizes are being awarded to the owners of the next three oldest machines.

Here are the contest rules:

1. Serial numbers of all machines entered in the contest must be in our hands by 5 P. M. Wednesday, Dec. 15.
2. The owner of the oldest Maytag agrees to exchange the machine for a new Maytag Washer at the time prizes are awarded.
3. Factory records of Maytag serial numbers will determine the age of washers entered in the contest. Decision of the factory as to the age of each washer entered will be final.
4. You need not be the original purchaser of the washer to win. (Many Maytags have given faithful service to several owners.)
5. Any Maytag owner is eligible, regardless of where the machine was originally purchased. (See rule 6.)
6. You must be a resident of this area to be eligible.

THERE'S STILL TIME

for you to enter your Maytag Washer in this Oldest Washer Contest. Check the serial number—then fill out the coupon below, and bring it or mail it to us, RIGHT AWAY.
