9:30 a. m.	9:30 p. m.
10:00 a. m.	10:00 p. m.
10:30 a. m.	10:30 p. m.
11:00 a. m.	11:00 p. m.
11:30 a. m.	11:30 p. m.

Manistique, Mich., April 16, 1907.

MANISTIQUE, APR. 16, 1907.

What's the matter with President Roosevelt's appointments? They're all right.

The man who captured J. Wilkes Booth continues to pass away to join the immortal band of George Washington's body servants.

Anyhow the lathering local is carrying a bonus. Uncle Sam seems determined to have ships that will run away with any competitors.

The annual meeting of the Michigan Republican Newspaper Association will be held in the parlors of the Downey House, Lansing, on Thursday, April 25.

Col. A. T. Bliss, of Saginaw, was elected department commander of the Michigan G. A. R., and L. W. Starnes was chosen senior vice-commander, last week at Greenville.

Residence CLEVELAND must have retired to private life with a vengeance. He has not been heard of since his arrival at Princeton from his last duck-shooting trip.

Now here is Lieutenant-General Schofield the father of a bouncing baby. And yet he was retired from the head of the United States army two years ago on the age limit!

One of the queer things about the airship, which is causing so much excitement in the west and which many papers are devoting columns of space to, is that it is never seen except at night.

Hon. JAS. A. CROZAZ has received word that he will be retained as commandant of the Soldiers' Home at Grand Rapids, and the term of office has been made for life or during good behavior. Mr. Crozaz's many friends the republican party and I believe that when a man thinks that he is bigger than his party, it is time for the people to teach him that he is not.

It is not a Piegree man or an anti-Piegree man, but I am a partisan. I said Senator Mason was Piegree. Piegree has said some harsh things about the republican party and I believe that when a man thinks that he is bigger than his party, it is time for the people to teach him that he is not.

This reappointing of Carey Wilcox Dutton, village attorney; Frank J. Fisher, marshal; William Rose, street commissioner; Alex. Davidson and Geo. Hinchson, policeman; and the selection of Hugh Hayden for the position of night policeman on the east side, meets the approval of the taxpayers.

GEORGE W. HASTINGS, an old resident and a pioneer newspaper man, has made known his intentions to donate his hotel at Interlachen, Fla., which was constructed at a cost of \$15,000, to be used as a National Home for Aged Editors. He says that the people of that place have augmented the gift by donations of cash.

A FIRE which occurred in the Baltimore and Potomac railway station at Washington recently damaged the marble tablet set up there to mark the spot where President Garfield was shot. The damage resulting from the fire furnished the railroad authorities with an excuse for removing the tablet altogether, and they were glad to do it, because of the fact that the sight of it was distasteful to a great many people, who disliked to be reminded of the tragedy every time they enter the station. The spot is not marked by a piece of red tiling, which is less conspicuous than the tablet, and which will be seen only by those who look for it.

WORKINGMEN'S HOSES. George Peabody's donation of \$2,500,000 for London workingmen's houses has increased to \$6,000,000 in the 24 years since his death. Last year the trustees of the fund provided 11,367 rooms, besides bathrooms, lavatories and latrines.

THE English anti-tobacco league, which has the existence of 25 years, during which period 32,344 books and pamphlets and a million tracts, all setting forth the evils of tobacco, have been distributed, is forced to admit that the use of tobacco is increasing, and the vice-president of the league concludes that it is impossible to cure an adult smoker.

AIRSHIP STORY A FARE. Professor Hough, the astronomer at the Yerkes observatory, does not take any stock in the airship and advances the opinion that the strange light seen at various places was caused by the effect of the atmosphere on the star Alpha Orionis, which is of the first magnitude and is in the constellation Orion. It rises early in the evening, and the light across the heavens is about the same as that of the moon. The professor says that the star is unusually bright in a clear atmosphere and appears to be close to the earth. The star gradually disappears during the evening, and its gradual disappearance is the effect of the atmosphere which apparently to change color.

OLD RANGE ORE MEN COMBINE. The iron ore producers of the Old Range have finally succeeded in pooling their interests. The object of the organization, which is called the Bessemer Iron Association, is to conserve the interests of the miners on the Marquette, Menominee, Vermilion, and Gogebic ranges. The new schedule varies from \$2.40 a ton for Chapin ore to \$3.40 for a special high-phantom ore. The iron ore fields were made in several instances very large. An ore that sold for \$1.25 in 1895 will sell for \$2.52. A Marquette specular ore that was on the market last year at \$1.50 will be sold for \$3.11. As no transactions have been made in Old Range Bessemer ore, prices have not been made in Old Range non-Bessemer ore, prices have not been established. Standard Saginaw is expected to bring \$2.25, and possibly \$2.30.

WHAT HAS BECOME OF SPRING. The geographers studied in schools 50 years ago, taught us that in the temperate zone there are four seasons, and that Spring begins each school time March 20, the vernal equinox. On this instruction everybody used to "back" and make calculations for spring work of every kind. There are exceptions to the rule of course. Winter sometimes lingered in the lap of spring, still March 20 was a day to reckon from, and calculations generally held good.

Geographers still teach the four seasons, but somehow at the winter and Spring are all "raised up." Snow is liable to fall even in June and hot days and thunder storms to occur in February. March is no longer to be depended upon. The man who "shifts" his winter hats before hibernation day runs fearful risks. The farmer who gets his early crop out of the ground in June is liable to be done up by a serious frost. The housewife who cleans house in April is almost certain to have her work to do over again in July. There is no basis of calculation such as there used to be.

The scientists have finally agreed with the rest of mankind that Spring is being climated, but not among themselves as to how it is. Some think that a different disposition of planets is working the change; others hold that forces in the interior of the earth itself are responsible. They are advancing numerous theories, and some assure us in view of "mild Winters," that the Temperature zone may some time be the torrid again, and vegetation become tropical as during the coal-formation periods. They are theorizing but they are not satisfactorily explaining where Spring has gone and how.

Perhaps the mystery will not be solved until generations hence. Scientists are not the only ones having their reputation at stake. The ground here is in danger of general and total contempt of all intelligent beings. Spring packs, too, who used to lend sentiment to the occasion are liable to be a worse drug on the newspaper market than ever before. Confusion worse confounded may be reached by every man, woman and child, before the mystery of the disappearance of the old-fashioned spring season. Spring has been satisfactorily explained, and human affairs adjusted to the changing conditions of the seasons.

Good only until May 1, 1907. The publishers of The World-Economist Twice-a-Week Detroit Free Press wish to announce the withdrawal of their trial subscription offer to send the paper ten weeks for TEN CENTS after May 1. If you wish to take advantage of this low introductory rate, you must do so before about date. Remember that you get twenty papers for 10 cents two each week.

You cannot afford to miss this opportunity. Send out in a day of silver to The Detroit Free Press, Detroit, Mich., and they will send you the paper for ten weeks.

Reader's Ideal Time.

Woman's Home Companion. April, the month of showers, brings to us very late Easter, which always appears more consistent with what festival day, when all should be sunshine and brightness. It seems more fitting that the anniversary of the resurrection should be celebrated on the day which should fall at a time when all nature is smiling and trees put forth their leaves, rather than in blustering March, amid hurries of snow and high winds, with threatening clouds. Easter Sunday not only holds an important place in the church calendar, but in fashion's diary stands out as a gala day in the world ofinery, when who can, in some form or other, bring out for the first time some articles of wearing apparel that is new and smart. It is perhaps an Easter gown or a veritable flower garden, commonly known as a hat; sometimes a pair of gauzy afternoon or one of the charming neck-tied or neckerchief material and violet, so dear to the heart of women who revel in the small accessories. A common superstition among many people is that whoever laid herself out on Easter Sunday, providing something new is worn, similar luck will be good or bad will be attendant all through the next twelve months. Amos and superstition, in which no risks are run for ill-luck, is the making of a wish for good luck at sunrise on Easter morning, when that planet is thought by a certain class of people to indulge in the two-step or some other collecting dance.

When the spring time comes, "gentle Amie" like all other sensible persons, will cleanse her liver and renovate the system with DeWitt's Little Early Bitters, famous little pills for the liver and stomach all the year round. A. S. Putnam & Co.

The Future of Germany. No one can prophesy the future of Germany; but so much, at least, is clear, that it will depend largely on the course pursued by the Socialists, says a writer in the April Forum. This alternative seems open to them: They may reluctantly continue their present opposition to the government, and then they can only be a source of weakness; or they may absorb the empire, transforming it into a federal state, fatal to liberty and, therefore, unstable in any way, in return for certain financial concessions, place their powerful organization at the service of the empire, and be its chief pillar of strength. This is the consummation that every friend of Germany and of humanity most devoutly wishes to see being advantage to both sides and put end to autocracy. The empire would have to abandon its attempt to return to medieval military despotism, and allow its subjects large liberty of thought, speech and action; while the Socialists would have to abandon their notions of the state as a mere economic machine, and accept it as the great institution for raising men above slavery to physical needs into spiritual freedom and culture. In this way Germany might be saved without being enslaved; and the present condition of things, against which all thoughtful men rebel, might come to an end.

Thirty years is a long time to fight so vainly a trouble as phlegm. Jacob Mitchell, of Canton, Pa., struggled long before he was tried DeWitt's Wild Cherry Salve, which quickly and permanently cured him. It is equally effective in pneumonia and all skin affections. A. S. Putnam & Co.

Arbor Day Proclamation. In conformity with a custom which has long prevailed in this and other states, in accordance with a concurrent resolution No. 100 passed March twenty-six, eighteen hundred and eighty-five, I, Hazen S. Piegree, Governor of the State of Michigan, do hereby designate and set apart...

First Publication on April 2, last May 1. Notice for Publication. Last Office at Manistique, Mich. on April 16, 1907. Notice is hereby given that the following named settler has filed notice of his claim, and that said proof will be made before the clerk of the United States of Michigan, at Manistique, Mich., on May 16, 1907, viz: Howard E. P. R. P. No. 10, and N. W. 1/4 of Sec. 20, T. 43 N. R. 14 W.

Advised Letters. List of advised letters remaining in the post office at Manistique, Mich., for the week ending April 10, 1907.

Correspondence. Clark, E. Eugene; Johnson, D. C.; Wilson, P. A.; Sault, A. W.; Smith, Arthur; Vinske, P.

Persons calling for letters in above list please say advertised.

Something to Depend on. Mr. James Jones, of the drug firm of Jones & Son, Grand Haven, in speaking of Dr. King's New Life Pills, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Grand Haven and Lima could do nothing for her. It seemed to develop into Hay Fever Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better. Her first dose, she had taken, and bottles cured her condition well. Dr. King's New Discovery for Consumption, Coughs and Colds is substantiated to do this good work. Try it. One trial bottle at A. S. Putnam & Co's Drug Store.

MONKEY LIKE!
Everyone knows that when a Monkey gets its tail
squeezed he gives a devilish squeal—but our local Monkeys
are exceptions to all rules, they have gone mad—no,
plainly gone crazy. Of course, we cannot blame them, it
hurts you know. They talk about hanging. Well we are
sorry for the poor creatures, for they are liable to hang
themselves any day, and who could blame them? They
look pretty gloomy, simply because the Dissolution Sale
is having the long end of the rope. They try in vain to
array the people against the Genuine Low Price Sale, but
they may try from now until doomsday, it will do them no
good. Our good, solid, genuine bargains stand before the
public. Compare our price list with those of our poor
devils of followers.
Remember one thing, if you want
anything in
DRY GOODS, CLOTHING, HATS, SHOES,
Hats, Caps, Etc., visit the Dissolution Sale at
THE BOSTON STORE,
H. WINKELMAN & CO., Props.

Thomas Wilson Terribly Burned.
Wilson's house, in the Wood neighborhood, was burned to the ground, Sunday evening. The fire was started in a wood partition by an over-heated stove. Besides the house, Wilson lost a fine frame kitchen and the furniture and about one hundred bushels of oats were burned. Loss about \$10,000 insurance.

The Salvation Army.
On Thursday, April 23d, the army corps of this city will be visited by Maj. A. Gifford of the Milwaukee division. It will be a grand meeting filled with genuine Salvation Army fire, music and enthusiasm. The Mayor will preside over the meeting and will be introduced by Rev. J. M. Shank of the M. E. Church. During the evening recruits will be sworn in. Don't miss this meeting. Everywhere.

Girl Killed by Son Train.
The six-year old daughter of Jos. LaLonde of Garden, was killed about four miles from Cooks, by the west bound train, Friday night. Her skull was fractured and her leg was badly cut. The little one was taken to Gladstone on the train but died shortly after arriving there. She was the only child of LaLonde. Mr. and Mrs. LaLonde and little daughter, who had resided at Garden on their way to Canada there to remain. They went to Canada last Sunday there to take the train and were stopping with some friends. The little girl and others went out to see the train, about ten o'clock, and she in some way wandered away from her companions. Search was begun for the lost child as soon as the others reported her not returning with them. During the afternoon and evening hundreds scoured the woods but no trace of the lost girl was found. At about nine o'clock the father and a companion met a man on the railroad track who reported seeing a girl, a boy and a dog, about ten o'clock after that the passenger conductor and passed the men, and just what they did not flag the train knowing that the girl was on the track, is not known.

Only but a mile beyond where the men were, the engineer of the passenger saw the girl on the track. He blew the whistle and the engine, but alas, the witness was going at a great a speed, he stopped before reaching the little girl. Conductor Dingman, train man, Sheriff Ekstrom and Carl Gusterson, the latter two of this city, went back to where the body lay in a boggy spot a few feet from the track. Mr. Ekstrom picked up the child and took it to the baggage car, where every possible attention was given to the little sufferer. Mr. Gusterson carried away the last flowing blood from the child's leg and fine and found the skull split open. The forehead to base, and the eye gash from the chin to the forehead.

Medical aid was summoned as soon as the train arrived at Gladstone but the injury was so great her life could not be saved. The accident was reported to the father and companion, who reached the train shortly after the child was removed to the car. The body was brought back to Cooks Mountain and the remains were buried at Garden the following day.

Germsak News.
Your correspondent wishes to apologize to the Germsak reader for failing to write up the news he has had a severe attack of Grippe and is just getting over again. The election is over and things quieting down. J. T. Newberry is home in Penosauk. W. Hargrave of Seney, was down on business this week. Dan McEachern has got back to Manistic where he has been transacting business with the C. L. or whom he had been putting logs this winter. Fred Lee, of St. Ignace is Germsak a pleasant visit. D. P. Morrison has returned to "below," where he has been visiting relatives. We are pleased to learn that Mr. Daniels has bought what is known as the Bryce place. We trust to expect that Mr. Daniels will become one of our most successful citizens. There's some fine farming land in Germsak and good neighbors. Man wishing to make a home in Manistic could not do better than to locate here.

Cutaway Frock Suits.
A Cutaway Suit should be a dressy Suit; if it isn't, the maker has missed the mark altogether. A good many makers do. Our perfect fitting cutaways are as stylish as they are good. They are made of fine Clay worsteds, soft finished Diagonals, durable Chevots and Cassimeres—Hart, Schaffner & Marx' make—you know the label—H. S. & M." It means fine workmanship and every suit warranted. We have other styles, of course—sack suits, Prince Alberts, etc.
HART, SCHAFFNER & MARX

JULIUS PETERSEN,
RECORDED TAILOR, ONE STREET.

Don't Miss! Will you please allow me through the columns of your paper to correct the false report sent from here to the local papers in regard to our late election. That it was a rough and tumble, the inspectors of election were attacked, and that the Sheriff was sent for the day before, but being in with the longshoremen left the same day. It was just such untruthful reports which gave Seney its hard name, which has been called land by which it is known even to this day. People have the impression that our town is in control of vice and the base passions, and that our people care much for law, order and morality as the aborigines of the South Sea Islands. Nothing could be further from the facts. Seney is as quiet and law-abiding as any place in the country. The election inspectors were not attacked nor were there was no move to do such an act. It is true the railing surrounding the booths were broken down. The late election was the closest one ever held in Seney. The room was crowded with eager persons to hear the report and in the endeavor to catch each and every word, the crowd pressed forward and the partition gave way. There was no trouble as the reports sent out stated, no more than at any election in the State.

It is true the Sheriff, Mr. Ekstrom, was sent for by two citizens, but no one else was known of it until he was called. As regards Sheriff Ekstrom's staying in with any tough gang as was intimated is wrong. We have too much respect for our efficient Sheriff and we believe him too much of a man to do such an act. When he arrived here he was found that there was no need of his being called, nor the least fear of his remaining, nor was he retrof as any other sheriff in the country would have done under such circumstances. We are not with either side in this matter but we hate to see reports so misrepresented. Seney, much abused and belied, has as good, respectable citizens as can be found in any town in the State.

J. BELLAIR,
P. S. I was one of the election inspectors and know that three were no truth in the report.
Seney Apr. 12, 1907.

Report of Consequence.
State of Michigan,
County of Schoolcraft,
I, the Board of County Commissioners and the Board of Supervisors, do hereby certify that following is a correct statement of the number of votes cast for each of the candidates for the office of Sheriff of Schoolcraft at the General Election held April 8, A. D. 1907.
Total number of votes cast for said office was 100.
The following named persons, viz:
John A. Chalmers received three votes (3) votes.
And we do hereby declare that said John A. Chalmers is the duly elected Sheriff of Schoolcraft in said County of Schoolcraft for the ensuing term.
Witness our hands and seal of said County of Schoolcraft, this 11th day of April, A. D. 1907.
JOHN PATTERSON,
W. G. BARBER,
THOMAS MOORE,
Board of County Commissioners.
JOHN ANTHONY,
Recorder.
