WILL WE CELEBRATE!

A Meeting to be held at the Court House, Thursday Evening.

Only five weeks more and Independent Day will again be with us and if the day is to be properly observed in Manistique, prompt action is necessary.

A number of our business men have already agreed to take half of the matter and help push it to a successful termination, and it is to be hoped that our patriotic citizens will put their shoulders to the wheel and help push things along. A meeting has been called for Thursday evening to be held at the court house and our citizens and business men generally, should make it a point to be in attendance. There are no good reasons why Manistique can not have the best celebration in its history this year, but united action is necessary to secure it.

Manistique's First Volunteers.

The volunteer militia company held a business meeting Tuesday night and elected the following officers:

- Captain Chas. Adams
- First Lieut. Wm. A. Burdick

It was decided to call the company the Manistique First Volunteers. The dues were also issued for the company to attend Memorial Day services in a body.

There are now 28 names on the roll and it is desired to raise it to the full number of 50 men. All persons wishing to enroll their names are requested to call on Lieut. MacArthur at his store on Oak street.

An Evening With the Artists.

The Lady Macarvels are to give a social under the able supervision of the K. O. T. M. hall Wednesday evening, June 1st. An admission fee of 15 cents will be charged, 100 cents and extra will be in cents extra. The following program will also be rendered:

A. O. U. W. Members May Visit.

A general order has been issued by Grand Master Workman Charles Golling of the A. O. U. W., regarding members of that order holding insurance policies who may desire to enter the service of their country during the present war. Mr. Golling says:

The constitution and laws of the A. O. U. W. places no restrictions on the members who are patriotic enough to leave their brethren to the storm of leaden hail in the protection of our homes and country, or in rendering aid to the down trodden and oppressed. Wishing to all our brethren who answer our country's call a hearty "God Speed" in their career of mercy and justice, your Grand Master Workman hastens to assure you that should any of you fall by the wayside, those you leave behind will receive from our noble order their full measure of protection.

Might Have Been Serious.

Mrs. James Laibe and Wm. Mesdames who live near the Dupie kilns, were driving across the railroad track running from W. L. mill No. 2 Tuesday morning when their rig was struck by a passing dummy engine and overturned. They were picked up and taken to the residence of Chas. Burley and a physician summoned who found an examination that outside of a few bruises and a bad shaking, no damage had been done. This is the first time an accident ever happened on this crossing and the line has been in operation 11 years.

Porter J. White's "Faust" at the opera house last evening was well attended. The parts were fairly well taken and the electrical effects were very good.

MANISTIQUE, MAY 27, 1898.

MEMORIAL DAY, 1898.

Thirty-three days ago Monday occurred the first observation of a day that was afterward to be set aside by congress as a memorial to the brave boys in blue who met death in the glorious cause of liberty.

On May 30, 1865, while war was still raging between the north and south, simple memorial exercises were held over the graves of the many Union prisoners who had died in the stockade at Charleston, S. C.

During the many years that have elapsed since the first general observance of the day, many changes in the sentiment of the people has taken place.

Abraham Lincoln, the martyred president of the republic, standing on the battle ground at Gettysburg at the dedication of the national cemetery, in his address, said:

"It is rather from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom; and that government of the people, by the people, and for the people, shall not perish from the earth."

On May 5, 1898, Gen. John A. Logan, then Commander in Chief of the Grand Army of the Republic, in the first Memorial Day proclamation, plainly set forth the real objects of the day in the following beautiful sentiment:

"We should guard their graves with sacred vigilance. All that the consecrated wealth and taste of the nation can add to their adornment and security is but a fitting tribute to the memory of the brave defenders."

or, not only while they lay to the last resting place of the comrades, who have answered the last call.

The events of the last few weeks have done much toward awakening the slumbering patriotism of the present generation whose only knowledge of war and its horrors have been gleaned from the pages of history.

In consequence, we bespeak a more general observance of Memorial Day this year and in future years. We hope that no patriotic young American, and if we are citizens we are Americans, will so far forget himself as to engage in frivolous amusements on that day.

Our opinion we will quote from a Memorial Day address delivered by that peerless orator and Illinois favorite son, Schuyler Colfax:

"We may learn with loving tributes the resting place of one beloved dead, the flowers which are strewn here may symbolize the living fragrance of their memory; but we shall honor them the most by having their example teach us to love our country more, to prize its manifold blessings more, and to advance its greatness and true glory more."

The "jingo" pressure vergering hysterics over the failure of the government to rush troops into Cuba several weeks ago. This class of journals feels that it is just as easy to whip an army of 125,000 men as it is for one of their reporters to denounce the Spanish fleet with soft lead pencil and a vivid imagination.

It is a fact well known in army circles that at the breaking out of the war the government had barely enough modern rifles to equip the regular army. Factories have been running night and day to meet the extraordinary demands made upon them and even up to date have been unable to fill their orders.

The free silver papers last week detailed in glaring headlines how the "Old Billy" Bryan was raising a regiment in Nebraska. It now transpires that it was only a company and when the "colonel" found he must raise the number of men for his captaincy, he declined to play in their yard any more and took his little tin sword and went home.

AMIRAL CERVERA'S squadron and Jim O'Donnell's little gubernatorial flotant seem to bear a striking resemblance. They are both rather hard to locate.

Work on the Escanaba River railway is being pushed, about seventy-five men being employed on the right-of-way at the Lake Michigan end. The first twenty-five miles will be completed ready for the iron in August.

THE board of management of the U. P. Hospital at Newberry let the contract last week for a new cottage. Geo. S. Deeks & Co. of St. Paul were the successful bidders, the amount being \$107,284. The hearing contract was let to the Lake Superior Trading Co. at \$11,700.

D. C. McCavin, a traveling salesman, learned that several traps were needed to fill the vacancies in Co. E, Fifth infantry at Iron Mountain. He became enthusiastic and in two hours after arriving in the city he had taken the medical examination and obtained a uniform. He left with Sergt. John Oliver for Island Lake, and carried his traps with him. No one knew him but everyone cheered him as he entered the train.

Robbed the grave. A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most deplorable condition. My skin was almost yellow, eyes sunken, long-cast, pain continually in back and sides, no appetite, gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and would the grave of an anonymous victim. No one should fail to try them. Only Getz's Bank at A. S. Putnam & Co's Drug Store."

Remarkable Recovery. Mrs. M. J. ... she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six more doses found herself sound and well, and was able to resume her usual work as well as she ever was. Free trial bottles of this great discovery at A. S. WILL OCCUPY CUBA.

66,000 TROOPS TO BE LANDED AT ONCE.

President McKinley and His Advisors Decide That Havana Must be Taken at Once—Hope to Drive Spanish out by the Middle of June.

The first division of regulars, aggregating 15,000 men, and a regiment of Cubans which has been organized, armed and drilled at Key West, will be landed in Cuba as soon as the necessary arrangements have been made to a point within 300 miles of the gulf coast cities. This force will at once establish an entrenched camp, fully fortified, to be used as the base of operations for the land attack on Havana. The transport vessels, as rapidly as they are emptied, will hurry back to be refilled with volunteer regiments ordered as reinforcements to the regulars, the latter beginning active operations in the field as soon as they are relieved of the duty of holding the established base.

Within 10 days after the first landing it is expected that the transports will complete a third round trip, and the volunteer divisions, under the command of the regulars, will be landed in the meantime held the base, will advance into the arrival of the relief, and eventually in support of the first regular division. This project is being carried out until at least 25,000 volunteer corps of 25,000 men each have been successfully established in Cuba, with a supporting force of 25,000 regulars on the southern coast of the U. S. less than 21 hours away.

The volunteer regiments to compose the force are being selected from those most prompt to muster. State organizations which are earliest accepted by the United States will be rewarded with the most active duty.

Majorities. Shafter will command the regulars and Majorities, Lee and Wood will lead the volunteer regiments. It is believed this force will insure the speedy downfall of the Spaniards and assure the complete surrender of Spanish rule in Cuba.

A typographical error in our last issue in an item regarding the dispensation issued by Great Commander N. L. Dayton of the G. O. U. In our advertising columns will be found an announcement of Ex-Senator John J. Ingalls' forthcoming book, entitled "America's War For Humanity." Canvassing agents will find in it a book of remarkable interests, and certainly of extraordinary salubility. The history of the war is told in picture and story, and in a way that always characterizes the brilliant pen of the author. In narrating the incidents of this war he finds grand scope for his superb descriptive and analytical powers. The theme is worthy of the author, and the author is worthy of the theme. It is published by S. D. Thompson Publishing Co., St. Louis, Mo. It will be a monumental work, but it will not only be everywhere read, but it will be a monument to his genius that will be a monument to his brilliant oratorical career. The advertisement book trade and the canvassing agent are fortunate in the fact that an author of such rare ability has been called in to their interest.

County Board Patriotic.
By authority of the board of supervisors, Sheriff Andrew Ekstrom has had a pole raised in the court house yard and a new flag purchased.

Wm. Rose raised the pole which is over 100 feet high. Wednesday morning. It is in two sections, the topmost being arranged so that it can be raised and lowered and is a fine piece of work. Yesterday morning Sheriff Ekstrom raised to the top a new 1520 foot flag. It is of the finest bunting, double stitched and a beauty.

The county board are to be commended in thus authorizing Sheriff Ekstrom to have the work done. The old flag had been completely rotted in talking it down from the staff on the court house tower, and as it was impossible to get it down in a strong south wind without it becoming entangled in the wires and torn, it was decided to put up a pole in the yard.

HEALTH NOTICE.

I wish to call the attention of the public to the necessity for an improvement in the sanitary condition of this village. This is especially applicable to those who have not already made an investment in that direction. The disposal of accumulated garbage and refuse by burning or carting it to a safe distance into the country, the use of cesspools, disinfection of closets, vaults, etc., cannot help but eliminate some of the principle sources of water contamination and indirectly prevent the origin and propagation of the infective diseases.

Any public nuisance or contagious disease jeopardizing the public health should be reported at once to the health officer in order that prompt and effective measures may be adopted either to remove the former or deal with the latter in such a way that will be the most effective in preventing an epidemic.

Those refusing or neglecting to comply with the above order will be prosecuted under the law and will be held responsible for any damage done with according to law.
