Helma-Swazy Marriage.

As was stated in last week's issue, the marriage of Miss Edna M. Swazy and Corp. Frank E. Helma of Co. B, 45th Regiment U. S. V. Inf., occurred at the residence of the bride's parents, Mr. and Mrs. E. S. Swazy, at Otisville, near Flint, lower Michigan, last Friday evening at 8 o'clock. The knot was tied by Rev. Mr. Wright, pastor of the Methodist Episcopal church. Only the most intimate friends and relatives witnessed the ceremony. The happy couple were the recipients of many handsome and valuable presents.

The bride is the eldest daughter of E. S. Swazy, one of Otisville's oldest and most respected citizens and business men, and is popular wherever known. She is a licensed pharmacist and was for a time manager of the Superior Drug Store at Munising, where she became acquainted with the man of her choice and made many friends who will wish her every happiness. Mr. Helma is well known hereabout having resided in this city for years, and has served as friend, including THE COURIER, who wish him and his handsome bride a happy and prosperous future.

Mrs. Beeson's father dead.

John Naugle, father of Mrs. Everett D. Beeson, died at the residence of Mr. and Mrs. Beeson, early Tuesday morning. He was 66 years of age.

Deceased had been an invalid for some years and for nearly a year has been almost helpless as a result of several strokes of paralysis. About six weeks ago the old gentleman was brought here from Chicago in the private car of his son, John A. Naugle, general manager of the Mexican Central Railway, to remain here with the family of his son-in-law, Mr. Beeson. Since the death of his wife about three years ago deceased had resided with his sons at Chicago and Gladstone and with his daughter now residing in this city.

Mr. Naugle was born in Sabul, Ind., and when young learned the blacksmith and wagonmaker's trade and for years was actively engaged in the business, accumulating considerable money. For the past fifteen years he had been connected with the well known firm of Naugle, Holcomb & Co., dealers in coal products, buying largely along the Soo line.

Deceased leaves four sons and a daughter to mourn his death, as follows: John A. Naugle, Genoa, Mex.; J. W. Naugle (Gladstone); E. E. Naugle and Mr. T. Naugle, Chicago, and Mrs. Alice S. Beeson of this city.

An Unequaled Opportunity

Should never be overlooked. Especially when you are in need of the very merchandise we are just now very anxious to dispose of. Not because it is in any way out of date, damaged or shelf worn; but we have ascertained during our business career that a judicious merchant will make it his motto not to carry over any merchandise from one season to another, regardless of cost. Therefore profits are out of the question. Everything in the line of Summer Goods must go—nothing reserved.

Yours for trade,

CASPER BROTHERS.

Leaders of Low Prices.

Mr. Naugle, deceased, until stricken with paralysis, was very active, a thorough and honest business man, and enjoyed the confidence and respect of all whom he came in contact with.

The remains were taken to Mooresville, Ind. for interment Wednesday afternoon. Funeral services were held at the residence at 1:30 o'clock by Rev. J. F. Horton of the Presbyterian church. Mr. and Mrs. Beeson and Mr. and Mrs. J. W. Naugle of Gladstone, accompanied the remains to their last resting place.

The Manistique Telephone Extension. C. E. Koles, manager of the Manistique Telephone system, was at Munising on Friday last arranging with Manager Laughey for the proposed extension and connection of the two lines. Arrangements have not been perfected as yet but in all probability the connection will be a go.

The telephone line, when the Manistique & Northwestern (Ry. extension is completed to Shingletown, will be only about six miles from Munising, thus the connection can be made with but little additional expense.

The Toledo & Ann Arbor Co's new boat will be built in November. She is said to be one of the best constructed boats of her class ever built on the lakes. The steamer will be 300 feet long and 82 feet beam and will have equally as much steam power with more speed than the boats now on the line. Manager Ashley saw a bright future for his line. He expressed himself as being well pleased with the present conditions of Frankfort harbor, where until recently, his boats have had considerable trouble in entering on account of sand bars. The late appropriations have been judiciously expended and a good harbor is now the result.

Whether both the Thirty-third and Thirty-second Regiments will be mustered out, or only one of them is the point yet undecided.
