WILL STAY!

We have made up our mind to continue business in Manistique and we will carry a much larger and better stock than we carried before. Mr. Winkelman has left for Eastern markets to purchase an entirely

New Stock of DRY GOODS-CLOTHING.
Boots, Shoes and Millinery, Etc., Etc

And you can assure the trading public that we will show one of the BEST lines of Seasonable Merchandise ever brought to the city. We wish to thank our patrons for past favors and solicit your future trade. We will continue to serve you better than ever before with good goods and low prices. You will find it will pay you to trade at

Winkelman's Busy Store

Always Lowest in Prices.

MUSICAL FESTIVAL

Pipe Organ and Song Recital at Presby-terian Church Largely Attended.

Really the most popular musical event ever held in this city was the Pipe Organ and Song Recital at the Church of the Redeemer Presbyterian Tuesday evening. Every number was heartily applauded. The seating capacity of the auditorium was taxed to its utmost and many of the listeners were given seats in the session room.

It was an evening long to be remembered by our music-loving people who availed themselves of the opportunity to attend. Five of the numbers were given by Prof. Clarence H. Carson on the pipe organ and they were excellently rendered, with faultless accuracy and surprising brilliancy and power. He is an accomplished player. The soprano solo by Master Ralph Swiggett, was phenomenally given, his singing of "Penitence" and "All the Green Fields of Virginia" being especially rendered and elicited rounds of applause. During the rendition of "Son" sacred Master Swiggett wore the Episcopal church choir surplice. This song performance has a charming accompaniment before an audience with the competence of an old artist. He responded to their cheers.

The singing of Mrs. E. B. Patterson and Mr. W. F. Kefauver was never better. Their numbers, being given with exceptional perfection. They were accorded most hearty applause.

Prof. Carson, under whose auspices the recital was given, is the organist and choramaster of St. Paul's Episcopal church of Indianapolis, Ind., one of the leading churches of that city. Master Ralph Swiggett, the soprano soloist of the choir, is a protegee of Mr. Carson, whose beautiful voice has won for him the expressed admiration of the music-lovers of his home and the city. The choir in which he is soloist number fifty boys and he is one of the youngest, being less than fourteen years of age.

It is to be hoped that our people may be again given the privilege of hearing these talented gentlemen before their return home.

GEORGE P. McALLUM MARRIED.

The Marriage Occurred in March and Miss Agnes F. Forshar the Bride.

Ben George P. McCallum of this city and Miss Agnes Forshar were made man and wife at the home of a classmate of the groom in southern Ohio a long ago as March. The announcement of the marriage was made public last Sunday when the contracting parties invited the guests to their nuptials. It was a surprise to the relatives, and will be also to their loss of intimate friends in this vicinity and throughout the state.

At the time of the marriage the groom was in attendance at the state legis- lature and the bride, teaching a course in the state normal school at Ypsilanti.

Both the young people are highly popular in this community, the bride the eldest daughter of Mr. and Mrs. Joseph Forshar South Manistique, and for some time a teacher in the Thompson and South Manistique schools. She is finely educated, is popular in society and exceedingly attractive.

Mr. McCallum is the eldest son of Mr. and Mrs. J. H. McCallum, of this city, who until recently resided in Thompson, where the young people formed a friendship which was as a natural result fanned into love and then came the marriage vow. The groom is well known and numbers his friends by his acquaintances. Last year he was graduated from the law department of the U. of M., in the fall was elected on the Republican ticket as representative in the state legislature of the Delta district, then but a short time since was appointed deputy collector of internal revenue for the eastern district of the upper peninsula.

The recent marriage of the two young people will be expected this time but it must never occur again and all their years be said to be now that is, over their host of friends, including The Courier, wish them all the happiness that is accorded a popular couple.

Boston Bloomer Gets Won.

The game between the Boston Bloomer girls and the Wolverines at the Driving Park Tuesday afternoon, was hotly contested and as a result there was some very clever playing by members of both teams. About 300 people witnessed the game. Brooks and McWilliams were at the points for the Wolverines and a girl and man acted as pitcher and catcher respectively for the visitors.

McWilliams went to bat first and cameled out, then the two that followed failed in their attempt to reach base. The "girls" brought in one run in the second half and two in the second inning, the Wolverines making a score in each of the second and third innings, then the girls brought in four

War! War! War! we're going to fight it out on this line if it takes all Summer.

Yes, the WAR on PRICES

In Our Clothing Department

is still on and we are determined to close out the stock if we have to continue to Cut Prices all summer. We have decided to maintain the remarkably low prices at which we have been selling Clothing for the past month until the entire stock is sold out.

This is a Golden Opportunity
For a Bargain-loving People

and you will miss it if you don't take advantage of it. Mid-summer is now past and you will be looking for medium and heavy weight suits, don't forget that we have a good line, well assorted, and will put you up Men's Suits, good quality, durable and dressy

From \$4.00 up.

This is no mere puff for effect but contains the very meat of economy. Come in and convince yourself by a careful inspection of our prices. Our suits suit and our prices are right.

Concert.

There will be a concert given at the Danish Norwegian church next Saturday evening under the auspices of the male choir, assisted by Mr. Clarence H. Carson, Master Ralph Swiggett and the mixed choir. Program will be given in next issue.

Another New Firm

Henry J. Hart purchased an interest in Victor J. Boncher's grocery yesterday and has gone into the store. The firm name will be Boncher & Hart.

The new member of the firm is favorably known in this city, having lived here since childhood and for the past five years employed in the Putnam drug store. He is continuously accumulating and well liked. We opine these gentlemen will do a

good business and wish for them every success.

Prohibition Convention.

A Prohibition county convention for Schuacraft county will be held at the court house in this city, August 5th, commencing at 2 p. m. Any business that will properly arise will be transacted. Fred E. Britton, the state chairman, will be present and address the convention. Everybody invited.

The new naptha launch, purchased by Eldron Bros., Klagstad and others, arrived Tuesday and was taken to Indian Lake, the following day. It is proposed to christen the launch tomorrow by breaking the conventional champagne bottle (empty of course) over her prow.

tallies in a bunch in the last half of the third, in the fourth, fifth and sixth the Wolverines were "down-argled." They treated the "girls" to a "white wash" in the fourth, and allowed them one tally in the fifth and two in the sixth. These well-earned runs were the result in the first half of the seventh, two of them brought in by Pambus's three-bagger. During the seventh and eighth the "girls" made three runs and in the eighth the home team failed to bring in a score, but made three in the ninth, two of them off of a three-bagger by Brooks, closing the contest with scores of 14 to 22 in favor of the visitors. Messrs. V. P. Chappet and E. N. Orr were the umpires.

Two men played in the Boston "girls" team, and they were crack-jacks, Brady playing behind the bat and Matthews short. Lacey the pitcher, was an exceptionally clever twirler, was speedy and could split the plate with drops, in and out shoots at will. Mand, who held down first, is change pitcher and it is said does phenomenal twisting with the left hand. The last for pitched at St. Ignace, the score being 14 to 22 in favor of the "bonnies." Our boys need not feel ashamed at the defeat given them, as the visitors put up an exceptionally swift game and win a large per-centage of games played.

Turned Down.

At a meeting of the board of poor commissioners held last week Alex. Darnio was appointed caretaker of the poor house, the position being held by John McWilliams for the past two years. The new appointee was to move into the poor house on Monday, but did not for some reason. Tuesday afternoon the meeting was held and the resolution appointing Darnio was rescinded and the result is that Mr. McWilliams will remain in the position until the next meeting of the board, which will be held in the fall.

At the first meeting Mr. Wheeler was absent and John Peterson was not in attendance at the meeting held Tues-

Copper Shares.

Safest Investment, Largest Dividends.

A portion of the full paid and non-assessable capital stock of the Boston & Texas Copper Company is offered for sale at Five Dollars per share (net \$10 for Treasury purposes), and is recommended as a safe and highly promising investment.

The company controls twelve thousand acres of rich copper land in North Texas which is also valuable for farming and town site purposes. The tract is some 10 miles long and about three miles wide. It is equivalent in size to five hundred ordinary mining claims.

The property has been developed sufficiently to begin production at once, large amounts of the richest copper ore (40 to 70 per cent), taken out and marketed, and inexhaustible quantities of copper mat and clay running from 3 to 15 per cent, copper found. (Calmnet and Hecla and other great dividend payers are working on 1 to 3 per cent. ore.)

The property is within 12 miles of a railroad and fuel and water are available. The ore and mat are on the surface and a few feet down and can be mined and converted into copper cheaper than any other deposits in America. Copper will be produced on the ground and a plant of moderate cost will treat 300 to 500 tons of ore and material per day, and according to engineers' estimates earn \$5,000 to \$5,000 per day net, with copper at 15 cts per pound. It is now 18 cts. per pound.

The property has a historical reputation and a record in the State Geological Reports. It has been examined and reported upon by the highest engineering, geological and expert authorities, and its merit and value are established beyond all question. It is not a speculation, nor its value speculative, they are proven and demonstrated.

From Report of Prof. Wm. DeKeyser, former State Chemist of Texas.

"Such numerous outcrops of copper ore have been traced over the summit and sides of those hills that out of 12,000 acres of land which the company own, hardly a 100 acres are not found or found in prospect on the surface.

A cross-section to the depth of 15 feet was made upon the 15th level, and ten hours' work resulted in the raising of 6,000 lbs. of rich copper ore, averaging about 60 per cent. of copper. (Worth \$360, net.)

It is easily smelted and the strata in which it is found can also be more economically excavated than other rich copper ores occur."

From Report of Prof. W. F. Cummins, former Geologist of Texas.

"I have been told that I might see the condition of this land after the amount of work had been done. I employed a few hands and cleaned out the tunnels when I found a lode of copper. This is the disjuncture of copper and will yield as high as 70 per cent. of copper. I drove the tunnel twenty feet further into the hill, following the lode. When I had gone about twenty feet I struck another lode of copper eighteen inches east and six inches below the second lode. In three feet more we struck another lode below the second lode. Immediately below the lower sandstone is a stratum of excellent quality of copper ore of an excellent quality of the tunnel say four feet, and is probably much richer. This mat will yield about 15 per cent. of copper."

From Report of Prof. Gustave Westman, Mining Engineer.

"I beg to express my entire satisfaction with and confidence in the report made by Prof. W. F. Cummins.

I only had to remove one foot of earth from the surface on the three spots already mentioned in order to find large deposits locked into the clay. After washing, this clay was found to contain 15 per cent. of copper ore of an excellent quality. These ores could of course be taken out and made available at a relatively small expense.

FROM REPORT OF T. BURTON EVERETT, MINING ENGINEER AND EXPERT.

Hon. E. W. Low, President, and others, Boston, Mass.: "Gentlemen:—There is abundant evidence of rich copper deposits, not only at the mines already opened, but at various other parts of the property, and it is my opinion that this will prove to be one of the exceptionally rich copper-bearing fields of the United States. The ores found in these deposits are immensity rich in copper values and the superfluous clays that are also found here are immense beds, while not as rich, will undoubtedly prove of great value on account of the clay which they can be mined and refined. The mines are available at every point; the cost of mining will be very small, as the ore is not in hard formation, and there is no deep work. I have examined the various reports made by others, and confirm them.

"As far as I have been able to investigate, and I have done so carefully, I am of the opinion that it is one of the richest copper fields in the country. T. BURTON EVERETT, M. E. Very respectfully yours,

Mr. G. H. Savage, Mine Examiner of Utah, Montana, after gaining sample of ore from the property, says: "The ore is the richest in the country. If you have the field you can pay \$1,000,000 dividends per year."

Major F. M. Spaulding, of Boston, and C. F. Crosby, Esq., of Lowell, Mass., who returned June 14th from an examination of the property on behalf of the Company's stockholders and intending investors, report that they found the property as represented and confirm the expert reports. They visited and examined the mine and explored the entire property.

The Company is thoroughly organized with substantial business men in the management. It has such extensive acreage of land, rich in copper, and so easily and cheaply mined and converted, that dividends can be earned and paid during the current year. Now is the time to make a safe and profitable investment, and those who take advantage of this opportunity to buy stock at the low price offered will reap the benefit.

Remit by P. O. Order, Registered Letter, Check or Express to Edward B. Robins, Treasurer, Tremont Building, Boston, Mass. Price \$5.00 per Share, Subject to advance.

BOSTON & TEXAS COPPER CO.

The cupiferous mat situated below the sandstone, containing 15 per cent. of copper, can be estimated worth at the place at least \$10.00 per ton, net."

From Report of George F. Rendall, Mining Engineer.

"It is a self-evident fact deducible from every report on this property large beds of copper ore exists and that hundreds of tons have been shipped of high grade ore.

"That a deposit of this nature can at a very small expense be made to yield handsome profits, from all existing reports, appears not only likely but certain."

From Report of Francis Arthur Reall, Superintendent.

"This property is all right and there is all the copper you want here. I think it is the best in Texas and it seems to have been selected as such for copper. It is near the top of a water shed and the hills crop out here. I think there is oil here because there is coal. Oil has been found at Corsicana. The property is adapted to general farming purposes which seems to be very profitable here and a town could be laid out on it and a railroad built to Denison, 12 miles, to great advantage."

The Great Boom in Copper Shares.

Copper mining has proved the safest and most profitable industry in America, and the largest and most conservative capitalists in the world have recently become large investors in copper-stocks.

This company can produce copper as cheaply as any in the world. It is capitalized the lowest of any in proportion to its acreage, and at the price of copper-bearing land in Michigan (\$400 per acre) containing a much less per cent. of copper, has a large value in excess of its low capitalization (\$2,500,000.)

Receipts for ore and assays by the leading chemists and assayers in the country are on file in the company's offices.

The officers and directors of the company are men of the highest standing and business capacity, and include:

- Hon. Emory M. Low, manufacturer, mayor of Brockton, Mass., President.
- George W. Russell, Esq., paper manufacturer, Boston, Vice-President.
- Maj. F. M. Spaulding, 24 Vice-President.
- Col. Edward B. Robins, Boston, Treasurer.
- Col. James M. Wheaton, Boston, Secretary.
- Hon. Jas. W. Bennett, Ex-President Erie Telephone Co.

Only a limited amount of the stock will be sold at the price of \$5.00 per share and those wishing to secure shares should act at once. As stated the stock is full paid and non-assessable. As soon as this allotment is sold the price will be advanced.

Amount of land, quantity and quality of ore, cheapness of mining and treatment, nearness to transportation, favorable climate for continuous work the year around, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment. It can easily earn 50 per cent. per year on the price at which the stock is here offered.

Stock may be ordered through your banker or broker, or direct as below.

Boston, U. S. A.

August 3, 1899.

Hon. E. W. Low, President, and others, Boston, Mass.:

"Gentlemen:—There is abundant evidence of rich copper deposits, not only at the mines already opened, but at various other parts of the property, and it is my opinion that this will prove to be one of the exceptionally rich copper-bearing fields of the United States.
