NEW ELECTRIC PLANT

Light From the New Plant Turned on Friday Night.

Manistique's new electric lighting system was operated for the first time on Friday night, and with the exception of a hot journal the following evening, everything since has worked to perfection. The plant is the property of the Manistique Light Co. and the larger stockholders are Messrs. Geo. H. Orr, V. F. Chappel and Benjamin Gero, representative and successful businessmen of this city, who are the officers of the company. The lighting plant of the Manistique Light Co. became the property of the above gentlemen and others early this year, and almost immediately after the purchase arrangements were made to increase the capacity of the plant.

A site for the plant was purchased at a point on the bank of the river near the furnace, a dam constructed and a building erected. The dam is 600 ft. in length, 16 ft. wide and 19 ft. in depth, the building is two stories high, the main part 268 1/2 ft. and the wing 162 1/2 ft. J. F. Simmons supervised the construction of the building and dam. The new dynamo, a 2500 light machine, was built by the Warren Manufacturing Co. of Sandusky, Ohio. The Warren dynamo is one of the latest and most complete machines placed on the market, has everything to avoid burn-outs and should a burn-out occur the dynamo can be placed in running order again in a few hours. Everything about it is simple and it is built for long service.

One of the features of the plant is the switch board, the idea of V. X. Lyon, the electrician. The board, as it is called, is constructed of three marble slabs and on these are placed the switches, fuses, lightning arresters, etc. Expert electricians, who have made electric appliances a life study, claim that Lyon's idea of a switch board is the most complete, compact and simple of any in use.

Two 250 H. P. Lefell turbine wheels furnish the power for the plant and they work to perfection.

Later the 1000 light dynamo used at the down town power house will be placed in position alongside the big dynamo and will be brought into use should the big machine become disabled.

At present about 100 lights are in use and that number will be added to just as fast as Electrician Lyon and his corps of men can do the wiring.

PHIANS NEW HALL

Their Castle Hall 84 for the finest in the city. Convention last night.

Evergreen Lodge, Knights of Pythias, is now quartered in its new Castle hall, in the Orr block, holding its first convention a special hot evening, the occasion being the visitation of Grand Chancellor Bennett.

The new hall is, without doubt, the finest in the city, is centrally located and the arrangement of the several rooms could not be improved upon. Entrance to the Castle Hall is through the hallway adjoining the Orr drug store. The ante-room is first entered, then to the left is the convention room which is 35x50 ft. The walls and ceiling of this room has been artistically decorated and present pleasing appearance. Light for the room is supplied by ten 82-candle power electric lamps, eight of which are in two artistic brass chandeliers. At the east and west end of the hall are platforms some 18 inches high and six inch platforms extend along both sides, all of which are carpeted. Breathes of carpet extend around the hall on the working floor and under the altar a handsome and expensive emblematic mat will be placed. The hall chairs, high back and cane seats, have been revised and placed in hall and the officers chairs, emblematic, and upholstered in fine plush, will be delivered in a couple of weeks. In the front of the building are two rooms, one 12x20 ft. to be used as a reception room, and the other 16x12 ft., a property room. These rooms may be used for dining hall and kitchen when occasion requires. They are also lighted by electricity. A large room over the Orr drug store has been fitted up for an armory.

LEUC'S NEW CIGAR STORE.

Said to be the finest store and factory in the Peninsula.

William A. LeDuc, cigar manufacturer, opened his cigar and tobacco store in the new Orr Bros. & Co. block adjoining the post office, Wednesday afternoon. The location is the best in the city and the store the handsomest of the kind in the peninsula. His cigar manufactory will be in the same building occupying a large room back of the store room.

The store is 12x38 ft. in size, the walls and ceiling artistically papered and all of the floor is of varnished tile, all of

Back of this one is a wall case in which is kept tobacco of all kinds, both in bulk and packages. Between the large plate glass window and the show case a fancy oak table and two chairs. Superintendent Hornberger has assigned teachers for the coming school year, as follows:

CENTRAL BUILDING.

Principal, O. S. Groner, assistant, Miss Rooney and Mr. Borgers, music, Mr. Borgers, Grades 8th, Mrs. Moore, 7th, Miss Owen, 6th, Miss McLaughlin, 5th, Miss Bradshaw, 4th, Miss Greenway, 3d, Miss Tucker, 2d, Miss Foley, 1st and Kindergarten, Miss Simmons.

WEST SIDE.

LAKESHORE.

Grades 3d, Miss Fouche, 2d, Miss Coffey, 1st and Kindergarten, Miss Carpenter.

Excellent showing.

The following relative to the Baptist church in the peninsula is taken from the report read at the annual meeting of the U. P. Baptist association, recently held at Muskegon:

"The upper peninsula of Michigan, with its large population and immense area, has eleven American Baptist churches. Of these nine have bibles of worship with a total value of \$70,000 and with a seating capacity of 8,870. They recently held their annual association at Marquette and reported a membership of 878, of whom 800 are

resident members. During the year just closed they raised for all purposes over \$13,200, an average of about \$20 per resident member. They contributed for benevolent purposes over \$1,200, an average of nearly \$1.75 per resident member. During the year there have been conversions of whom 34 were received by baptism. The recent association in the opinion of many was the best ever held, and the future is bright with promise. Brothers Conley, Jackson, Field, Rooney, Britten, Stirling, Stouck and others delivered earnest addresses.

How shall I manage to save?

The problem of how to save is a constant study and to most people the question is never solved and anyone who can offer any help along this line must be accepted as a friend. When a man's salary is small, he finds after the most and grocery bills are settled that he has very little left to buy clothing, let alone getting a few dollars in the bank and when the holiday season arrives he finds it as almost impossible to get a few little souvenirs of the glad Christmas tide for wife and the babies. To such as find it hard we believe we have not heard a better proposition than that made by Anderson & Norval of this city. This firm is giving a first out coupon with every one dollar purchase which practically makes every dollar's worth of goods purchased at their store cost you but ninety-five cents. These coupons will be accepted as cash in payment on any articles in their holiday stock. This offer makes it possible for you to buy at least a part of the Christmas presents with what you save on your grocery bill by giving them your trade.

The remains were taken to Long Lake, Minn., and interred there at 1 o'clock Wednesday afternoon.

The many friends of the family offer sympathy.

COOK'S SIFTINGS.

By a Daily Correspondent.

It is hardly, where at home?

School will begin in all the districts Monday, 17th inst.

Mrs. Joe McGhie, who has been ill for some time, is gradually improving.

Rock Chariton, of Manistiquet visited with Fred. Derocch and wife early in the week.

Those who attended say that the dance at the Cliff last Saturday night, was immense.

Frank and Rupert Green drove over from Fayette last week and while here joined the party that visited the Big Spring Sunday.

The "make-up" on the Democrat didn't do a thing to your budget of news last week did it Alice? I'd call him if I were you.

William Wright spent a few days in town last week visiting his wife. He departed Tuesday for Gladston where he has secured a lucrative position in the Soo line roundhouse.

Frank Coran had a man arrested this week for "amusing his character." It is up to the school board now to award that man a medal—with Mrs. L. Gibbs' consent, of course.

It is quite probable that the Garden base ball team will play the Cook's "Vets" on the grounds of the latter, Sunday the 17th. It would be a great joke on the "Vets" if they were to suffer defeat.

Theodore Lang, of this place, has there is no doubt, the largest honoree in Schoolcraft county. During the present year he has raised fully 500 Plymouth Rock chicks and has sold thousands of eggs.

The school board met Monday night and decided to run all of the schools the full term instead of running only Nov. 1 and 5. The following are names of the teachers engaged: Dist. 1, Miss Mand A. Miller; 2, Miss Mary O'Connell; 3, Miss Maria O'Connell; 4, Miss Annie Beshy; 5, Miss Orpha Ilekka.

The "Cliff" Kids and the Cook's "Juveniles" crossed bats for two winning games here last Sunday, the latter scoring a victory in each game. The juveniles certainly put a good article of ball and would put a damper on the Vets if they had a little more advantage. The score in the first game was 10 to 4 and the second 16 to 5. Umpires, Gibbs and Vasecan.

Willie Worth narrowly escaped serious injury last Sunday while standing near a horse which his uncle Norman McDonald, was hitching up. A large piece of iron roofing was blown from the roof above and landed square on the back of the horse. The horse in his fright started to run but fell over the thills of a light wagon at the same time knocking Willie down. Fortunately he was not injured beyond a bruised knee.

METHODIST EPISCOPAL CHURCH.
The Interior Decorated and Painted quarterly Conference Building.

The interior of the Methodist Episcopal church recently underwent considerable improvements at the hands of D. J. Ward, painter and decorator. The walls have been covered with handsome figured paper, the ceiling set in panels and the woodwork painted a bluish tint. The seats have been varnished. Arrangements have been made to have the edifice lighted by electricity and two 6-lamp chandeliers will light the interior and one lamp will be placed in the vestry. When the improvements are completed the little church will present as also an appearance as any in the city.

The quarterly conference of the church was held on Saturday evening, Sept. 2. Presiding Elder Fraser was in attendance. The following officers were elected for the ensuing year. Trustees: J. J. Hornberger, D. J. Ward, A. S. Garland and A. H. Winn. stewards—B. A. Craver, Joe Patterson, Chas. Bentley, Al Van Harber, Andrew Tennant, C. K. Hiddle, John Atkis and Frank Fydel for Manistiquet, Geo. Eastman and Miss Sarah Panley for Marblehead, Chas. Mitchell, Mrs. J. L. Jewell and Mr. Bolts for Thompson.

At a meeting of the trustees, the following were elected officers: Chairman, J. J. Hornberger and secretary and treasurer, A. S. Garland. Joseph Pattinson was selected as recording clerk and Frank Fydel, district steward.

One Centenarius Laugh.
If you have the blues, or feel under the weather, Dr. Swokey Mokey's precribes a visit to the minstrels, at the Star Opera house, on Monday and Tuesday evenings, Sept. 18-19.

The comic songs and funny sayings of the old men will keep you in good humor, and when you see the prettiest girls in Manistiquet blackened up like typical darkeys, it will keep you guessing as to "who is who." A special feature of the first part will be the "Rag Time" dance, executed by the four old ladies, and is alone worth the price of admission. Another pleasant surprise will be that Prof. Cleary's full orchestra will play for the entire show, and the music will be an important factor.
