50 PER YEAR.

MANISTIQUE, MICHIGAN, FRIDAY, SEPTEMBER 22, 1899.

VOL. III - NO. 40.

PUBLISHED BY AND V. P. S. C. E.

Full Meeting of Above Societies Closed Sunday Night.

The services Friday morning opened with devotional exercises led by Rev. James Todd. D. D. Escamula, and in the evening Rev. D. Stalker of Calumet gave an address on "Impressions of the Orient," which was interesting.

Rev. D. Jones of Iron Mountain led devotional exercises Monday morning. The afternoon was given up to C. E. exercises.

On Sunday occurred the installation of Rev. Iddo Branch to the pastorate of the Church of the Redeemer. Rev. R. S. Granger preached the installation sermon.

The session was closed Monday morning with prayer service.

ENDEAVOR CONVENTION.

The attendance was not as large as anticipated by the local entertainment committee. Delegates from some societies sending word as late as Saturday that they were unavoidably detained at home. Our people responded readily to request for entertainment and many were disappointed that there were not enough to entertain them. The following were in attendance from outside:

D. Harrington, president Michigan C. E. Union, Grand Rapids.

Frank C. Constock, president Lake Superior C. E. Union, Escanaba.

Martha B. Clark, secretary Lake Superior C. E. Union, Marquette.

F. A. Rogers, Junior, superintendent Lake Superior C. E. Union, Menominee.

Rev. C. Scott Williams, missionary, Mexico.

Sara P. Day, C. E. Anderson, Miss D. Campbell, Kippening.

Mrs. J. M. Rogers, Mrs. Annie W. Koopeke, Mrs. H. M. Davis, Miss Bertha A. Bigler, Marquette.

Miss Sophia Todd, Miss Helen Flennah, Miss W. V. Selon, E. J. Anthony, Miss Olive Thatcher, Miss Elsie Atkins, Verma Moger, Escanaba.

Miss Annie McKee and R. T. Carr, Calumet.

Miss Nellie Tagrell, Miss Gertrude Goumen, Gladstone.

Miss Jennie McTaggart, Ionia City, Miss Kate E. Ross, Soo.

Miss Lizzie McLeod, Iron Mountain.

Saturday's program was carried out with but few exceptions. President C. D. Harrington, of Grand Rapids, arrived on the afternoon train in time to give his address, "History of C. E." Scott Williams who is supported by the C. E. in missionary work in Mexico lectured on Mexican missions.

Illustrated by stereopticon views of life and customs in Mexico, in the evening.

Sunday morning, "Quiet Hour Prayer Service," led by Rev. Jones of Iron Mountain, opened the session for that day and although held at 9:30 was quite well attended, the parlor being comfortably filled.

The Junior rally at 3:30 was well attended and exercises especially well rendered. The Committee Representation by Manistique Juniors in recitation and song, showed careful training.

Two solos and a duet by Oliver Thatcher and Verma Moger of Escanaba, added much to the interest of the program.

Sunday evening an excellent address was given by President Harrington on "Unity," emphasizing the need of inter-denominational fellowship and work.

Sunday evening exercises ended with cooperation services, made very impressive as led by Rev. Branch.

A banquet was given Saturday evening and an excursion to the Big Spring Monday by way of entertainment.

Officers elected are as follows:

President, Geo. G. Rogers, this city.

Vice-President, Miss Annie McKee, Calumet.

Secretary, Chas. R. Orr, this city.

Treasurer, Miss Merrill, Menominee.

Junior Supp., Mrs. Harold, Ishpeming.

HIG MINSTREL BURLEE.

Was Largely Attended and They Gave an Excellent Performance.

The minstrel show given at the Star Opera House Monday and Tuesday evenings under the auspices of the St. Francis de Sales church and the management of George J. Fletcher, was a great success financially and was easily the peer of any amateur performance ever given in the city. The first night found the seating capacity of the house severely taxed and, while the crowd on the second night was not as large, yet it was a large audience for this city. The different parts were on the main, well taken and a number of the performers showed professional talent.

The opening revealed the well-rendered "burles" first part of the pearly days of minstrelsy. The ends were ably handled by the Guinan as "George Frimrose," Ted McClellan as "Willie West," Will Durick as "Low Docket" and George Mettler, as "George Thatcher," and their "coon

Important to Farmers.

The Finance Company of Manistique is desirous of serving the farmers and small owners of timber along the line of the Soo Railway from Cooks mill eastward to Trout Lake, and along the line of the Manistique and North Western Railway, in furnishing a market for cordwood, by supplying which their lands may be gradually cleared in the years to come, and the cost of such clearing be nearly or quite made out of the timber of on such lands.

All parties wishing to supply cordwood should address or call on H. E. Hart, manager, Manistique, in the next 30 days.

Lake Michigan is Rising.

It is an interesting fact that Lake Michigan has for two years been gradually rising, until at present the water has reached a stage not equalled for many years past. It is estimated that there has been at least a foot's rise in the last year, and what is more, there are indications that the limit has not yet been reached, though the rise is extremely gradual.

For the several years prior to 1897 Lake Michigan was far below its normal stage, and at one time this fact was the cause of much inconvenience and some apprehension to residents.

Miss Bridget Sharkey, aged 14 years, residing with her mother at Lakeside, died early Wednesday morning after but a short illness. She was a sister of our well-known townsman, Phil Sharkey, Maggie Sharkey of Chicago and Dennis Sharkey, of Marquette, brother and sister of deceased, were here to attend the funeral which occurred this morning. The relatives have the sympathy of the community.

LETTER FROM PORTO RICO.

Description of Ocean Voyage and what he saw at San Juan.

The following relative to a voyage from New York to Porto Rico and a picture of San Juan and its people we glean from a letter recently received by the editor:

San Juan, P. R., Sept. 2, 1899.

EDITOR THE COURIER:
 My trip Porto Rico was a very pleasant and most exciting one. I left New York City on the 11th of August and arrived in San Juan on the afternoon of the 19th. On the way we encountered a most severe storm. It was part of the storm that did so much damage in Porto Rico. I left New York about four P. M., and had a very smooth voyage with a few light winds. It was so rough that the ship pitched several times. The captain said it was the worst storm that the Mellorion ever experienced. In the night the sailors had the life boats ready and the steam launch stopped up. It began to rain down Thursday morning and Thursday night it was like a mill race. We had it very smooth all the rest of the way.

We first caught sight of Marro Castle on Saturday morning at eleven o'clock. It was a beautiful sight to see, with its high towers that seemed to pierce the clouds. We went within half a mile of the harbor and then anchored and signaled for a pilot, as no boat is allowed to enter without one. There were six natives who came over in a sail boat, one of whom was the pilot. As we neared Marro Castle I could see the holes in the walls, as the result of Sampson's fleet. I could see hundreds of soldiers on the walls which was a very pretty sight. We then went further into the harbor and anchored and waited for the health officers and custom house officers to inspect the boat. This is the end of my voyage, but the most interesting part is yet to come.

The streets of San Juan are very narrow, the people live right down next to the sidewalks. They are not a clean people at all, some of the children run naked in the streets so you can see how unhygienic they are. The higher class of Porto Ricans are very clean and their homes are furnished very nicely. Every Porto Rican house has hardwood floors, with cane furniture. They have a peculiar way of arranging their furniture they put a small table in the center of the room, with four chairs facing it on each side, when these chairs are arranged the servant comes immediately and arranges them. They also have their pictures on the wall facing each other.

The Porto Ricans cook everything in grease and garlic. If I ever gave an invitation to tea with a Porto Rican I think I shall decline. A few of their principal articles of food are potatoes, bread, rice, pineapples and fresh bananas. The storms has done a great deal of damage here. The city of Ponce was nearly wiped out of existence. I heard one gentleman say that as he was traveling across the country he saw many human beings huddled up together because of the want of clothes. Nearly all the fruit is spoiled on the island; all the coconut trees to the south-west, also the storm came from the north-east.

There are no horses down here at all except those belonging to the cavalry; they have small ponies, and oxen, which they use as their beasts of burden. In time to come, Porto Rico can be called the garden spot of the world, because it has very good soil, plenty of rain, and an elegant climate. There has been a great change of things in Porto Rico since the Americans have been here they have improved it in every respect and there is no doubt but that in time to come, America will be proud of her little possessions in the Atlantic.

Talk about fruit, why fruit there is so cheap that I forget that it is a luxury in the States. Just think of it, bananas at 10 cents a bunch, and I bought recently two pineapples, weighing each one 10 or 12 pounds, for only one cent. In my opinion we have twenty-two banana trees and several coconut trees.

Yours sincerely,
 RALPH S. SWIGGERT.

THE NORTHERN NORMAL SCHOOL.
 Temporary quarters provided by the Common Council of Marquette.

Through the liberality of the common council of this city, excellent temporary quarters have been provided for the Northern Normal School, and the new educational institution which is destined to prove of such value to the people of the Upper Peninsula, will begin its career this fall in rooms ample for its needs, in the City Hall Building.

The rooms placed at the service of the Board of Education for use of the school could not be more perfectly adapted to its needs if they had been designed for that purpose specially. They are large, properly ventilated, heated by steam, and lighted by electricity, and the work of the city officials whose departments are in the building, is of such a nature that it will not in any manner, interfere with that of the school. The students who attend will be as comfortably housed as they will be in the new Normal School building, when it is ready to receive them, and the noise are so located that the faculty and students will have their portion of the city building practically to themselves.

The common council acted very handsomely in placing these rooms at the disposal of the State Board of Education for the use of the school until the Normal School building, now in course of construction, shall be ready for occupancy. In doing this, the council has given further evidence of the readiness of the people of Marquette to do all in their power to help the Normal on the way to assured success.

Professor Waldo has given much thought to providing the school with a faculty that meets every requirement in point of ability, character and attainment. Students who begin with the opening session will not be called on to sacrifice any time while the school is passing through an experimental stage, for it will begin its work fully prepared to do its thoroughly and well-learned temporary quarters at its command for the opening session will count largely in its favor at the outset, for it will start off with the advantage of having rooms as well adapted to its requirements as will be those which will be supplied by the school when the Normal School building is completed.

The teachers and newspapers of the Peninsula do much to make the success of the school a certainty from the start, by encouraging young men and women within the pale of their influence to attend it. We trust they will do this, and assure them that in no other way can they render so much service to the cause of education in the Upper Peninsula-Marquette Mining Journal, Sept. 2.

WAR NOTES.

Naval Constructor Hobson has submitted to the navy department a report to the effect that the Spanish ships raised from Manila bay and now being rebuilt under his supervision at Hong Kong...

Gen. Hughes, of Hilo, reports four guerrilla bands, killed 100 men and captured a few miles south of the city. No names are given. Rubber bands, in Negroes, have been scattered, and most of the members are returning to their plantations...

Dispatches from Cuba announce that the American troops under Col. Bay with two field pieces, sailed on the 28th into the hills against a band of natives who recently ambushed four of our soldiers and who have been given the name of "The American force drove the natives from their trenches into the hills, after an all-day fight. There were no casualties on the American side, though there were some heat prostrations. The native loss is not known. The rebels are said to have had six cannons, from which they fired snuff and scrap iron. The cruiser Charleston landed men, who guarded the city during the absence of the troops.

The war department gave out for publication an interesting statement of the financial condition of the island of Cuba. It shows that under the management of the United States government the receipts of the island from Jan. 1, 1895, to June 30, of the current year, exceed the expenditures by the very handsome sum of \$4,460,021. This amount probably will be a surprise to many persons who had thought that Cuba under the military occupation of the United States was not self-sustaining.

It is reported that Aguinaldo, the Filipino leader, has ordered the rebel generals in the province of Cavite to close in and attempt to take the city of Manila. It is added that the troops are concentrating around the town from the lake country. The rebels, it is further said, have an outpost of 100 men near the hamlet of San Mateo, and an equal force in the town of Anaba. The Americans are entrenching the town and they have no fear of the result of any attack by the rebels.

A report received at Manila from Gen. Bates, says that the rebels, with their tribesmen, has taken the warpath against the insurgents who are holding Zamboanga, and has given them a warm battle. Gen. Bates welcomed Gen. Bates, saying he was anxious to be an American citizen and assist in the fight. The insurgents were given an American flag. Gen. Bates has returned to the Sulu archipelago to arrange for establishing American garrisons there.

A dispatch from Rome says that his holiness, the Pope, is concerned about the war in the Philippines. He has communicated his anxiety to Rev. Fr. Brancy, chaplain of the Olympia. The latter expressed a strong desire to see peace between the United States and the natives and said that he contemplated the opening of negotiations with the United States government with a view to regulating the position of Catholics in the Philippines.

Gen. Lawton's course in extending the military government in the Philippines is explained in detail in Manila newspapers. They state that the general has made a tour of many towns along the line of his division, including Santa Anna, Pandanan and San Felipe, and has established in each a complete system of civil government. The inhabitants of the towns are to have entire charge of affairs, according to Gen. Lawton's system.

The commission which has been engaged in distributing the \$3,000,000 appropriated for the purpose of paying Cuban soldiers who surrender their arms to the American officials has returned to Havana. It reports that 23,000 soldiers have received their share of the gratuity and that the total amount of money distributed is \$2,825,900. The discovery of a shorter route between Manila and the United States has had rather a depressing effect upon some of the troops as it reduces their travel pay. The old route was being cut off the 20th miles required by touching at Honolulu.

AT HOME AND ABROAD

Gen. Rhodes has placed an order for 500,000 feet of southern yellow pine, the largest single order in the history of the lumber trade. It will be taken from 350 acres in the construction of the Cape to Cairo road in Africa.

The preliminary inquiry into the attempt last July by Gjura Kuzewicz, Russian, to assassinate Former King Milan of Serbia, was concluded Sept. 1. Sixteen persons were liberated. Twenty-nine, including Editor Zauz, were charged with the crime. Of the 16, 10 others were committed for trial on a charge of conspiracy.

Eraser Makes a New Provision. The Transvaal's new Provisional Government has offered the great franchise to the other concessions was stricken from the report to that recently made to fully settle all differences and to strain relations and to a disastrous war. Therefore, a proposal was made to the Transvaal Government to make an agreement with the Orange Free State and to appoint a representative to be appointed by Sir Alfred Milner, should be given facilities in the Transvaal to make an investigation of the close question and provide the most satisfactory. Otherwise the Transvaal Government was requested to further questions from the Orange Free State before submitting proposals to the Volksraad. Green's move in conclusion suggests further conference at Cape Town.

Double Murder and Suicide. Edmund H. Marchand, aged 28, of Towanda, Pa., shot and killed his man named Mingle and his own wife and then turned his revolver upon himself and committed suicide. The murder was committed in a room in the Hotel... when Mingle came to the house of his wife. As he was leaving premises Blanchard rushed out of the house and shot the man named Mingle and had not ceased speaking when he fell dead into the wash tub. Blanchard fired two shots into his own chest, the first striking into his stomach.

Forest Fires in Colorado. Forest fires, which it is reported started by campfires, are ranging foothills near the entrance to Canyon, about 20 miles south of Fort Collins. The fire started in a canyon, and burned over mountains on both sides of the canyon. It is now devastating the section of the foothills. There are a number of ranches in the area and several of them have been damaged by the fires.

Yellow Fever in Florida. State Health Officer Hunt, upon receipt of the information that there were two cases of yellow fever at West, Fla., declared a rigid quarantine against that place, and all Texas coast points to place in quarantine all ships coming from West. The quarantine will be observed until all danger is passed.

BASE BALL. A report received at Manila from Gen. Bates, says that the rebels, with their tribesmen, has taken the warpath against the insurgents who are holding Zamboanga, and has given them a warm battle. Gen. Bates welcomed Gen. Bates, saying he was anxious to be an American citizen and assist in the fight. The insurgents were given an American flag. Gen. Bates has returned to the Sulu archipelago to arrange for establishing American garrisons there.

Sheriff Ekstrom drove over last Tuesday and took Jim Gear into custody on complaint of Mrs. L. Gibbs who claims last spring, Gear relieved her of a sum of money, in the neighborhood of \$25. The witnesses will be subpoenaed from here and it is probable that some painful truths will be told.

We were mistaken about Mrs. L. Gibbs killing the fatted calf but she has sharpened up her machete and starts in for the prodigal with an expression similar to the one that exclaims itself when we imagine John Maguire being shot by the gang of his own and executing "Hl" but her machete against the bank until the last galoot gets ashore.

Miss Mary Casler, of Manistique, has been engaged to teach No. 2 and began her duties last Wednesday. The board has been waiting and depending on Miss Casler for some time. Her duties were being put off from time to time until disgusted with her actions, despairing of her coming the disposal of the matter by negotiating with one who could be relied upon. Miss O'Connell is a good teacher but school had to start.

The "Cooks' Juvenile" got it back at the "Gift kids" last Sunday, for the drubbing received from the latter a week before. It was a hard fought battle and when the smoke cleared the score card showed a total of 13-0. The juveniles have little to boast of however for they must all their runs in the first two innings and were then compelled to submit to seven successive whitewashes. The kids tried hard to win but good fielding marked with double crosses prevented. Unless O'Brien and Tighe.

Some time last Sunday some persons broke into Paul Halsecher's saloon, gaining admittance to the bar room, presumably through the transom over the door and were in charge for the place to the extent of "hold on" but the door was shut and they were unable to exert suspicion in our direction. But it is generally understood that they
