FIVE CENTS A COPY

Communists opposing the trial of the Communist architects in New York have raised an issue of race, unfortunately, already influenced the thinking of two thousand good Americans. The Communists have insisted that the trial is illegal because it does not include any Negroes or Jews on the jury.

In America we have been taught that we serve our government as citizens, not as representatives of racial or religious or economic groups. Black or white, Protestant or Catholic, Jew or Gentile, we are citizens before the law, and our philosophy is that we serve as citizens, each of us contributing in a service as our abilities and means permit.

Now the Communists are trying to tell us that this is all wrong; that we should serve as representatives of groups or classes. This is the cruelest philosophy spawned in the crowds and bickering states of Europe, and its acceptance in America would end our political democracy as we know it. Unfortunately, Communists are not the only ones striving to make American class conscious in this manner. We have labor leaders who preach the same divisive messages, who seek to make the American working man feel that he serves first as a representative of labor, not as a citizen representative of all groups and classes.

We must watch our thinking that we, too, do not become infected with the germs of this destructive importation from the teachings of Karl Marx.

Last week a local collection was taken up among interested citizens to send Manitowish four champions to the Golden Gloves tournament in Milwaukee. The sponsoring organization—the club class-lacked funds to finance the venture without outside help. The community now has an opportunity to send another top-notch athlete, a ski rider, to the National Ski Jumping Championship tournament in Salt Lake City, Utah, Feb. 20. The sponsoring organization—the Manitowish Ski Club—lacks funds to finance such a venture, and needs community help in the project.

The Manitowish lady, Paul Vezina, has by his performances at the St. Paul, Ironwood, and Iron Mountain meets last year earned the right to go to the national tournament. It is a question of how to give their donations to Leonard Harlick, E. J. Thompson, or leave them at the office of the Pioneer Tribune.

EMERALDS DEFEAT MILWAUKEE, 53-36

Newberry Next For Locals; American And Canadian Also Team Winners

Coach Hilton Pontre's Manitowish Emeralds handed the Milwaukee Greenies a decisive defeat here Tuesday night, running up a 53 to 36 score, their biggest of the season.

The Emeralds were leading 12 to 10 at quarter time, and were in the lead 29 to 19 at the half. This was the only period in which Milwaukee was counting in points to the Emeralds in the first quarter.

Bob Carlson, Hookstad and Paton were scoring for Manitowish. Carlson and Cor were high men for the Mustangs.

The Emeralds will go to Newberry Friday to engage the Iron in the second game of a home and away series. Manitowish won last season, 36 to 30. Tom Engstrom and Roland Burns, senior additions to the team, are expected to see action in this game. The reserves, who also have a victory over the Newberry team, will play the Indian on Feb. 11 preliminary.

MORE FIGURES GIVEN HERE ON POTATO CARS

State's Supply To Govern At Wide Variance With Maine's, Say Growers

A recent study of potato purchases by the federal government under the price support program in Schoolcraft county, one of the state's principal growing areas, indicates that Michigan growers are at wide variance from those in Maine, despite a recent statement by Norman Stauffer, county AAA chairman, to the contrary, local growers say.

Several days ago, a protest was made to Congressman Charles E. Potter by Lester Richards, who operates a large potato-producing farm in Luce county in partnership with his brother, regarding an apparent inequality between the federal purchases in Michigan and Maine. The supposed inequality is based on figures for Schoolcraft county, where Richards Brothers are engaged in the farm improvement business.

Potter contacted the Production and Marketing Administration in Washington and an investigation by F. E. Woolley, deputy administrator, followed. Woolley wrote Potter under date of Jan. 23 that the quantity purchased in Michigan is slightly higher than the quantity purchased in Maine when prices for production eligible for price support are taken into account.

Local Figures Differ However, a check of figures obtained from the Schoolcraft county PMA office presents an entirely different picture, according to Richard Woolley's letter. Potter declared that through Jan. 13 support purchases totaled 34 percent of the estimated production of eligible potatoes, and that the current purchases would equal two-thirds of the indicated eligible production by April 30. At variance with this statement are these figures for Schoolcraft county.

Number of acres eligible on support program, 724. Number of cwt. qualified from eligible acreage, 110,000. Number of cwt. (450 cwt. each) available from eligible acreage, 246,000. Average bushels per acre of eligible acreage, 250. Total bushels of crop shipped to Feb. 1, (many were 300 wts.), 47,000. Percentage of eligible crop shipped to Feb. 1, 19.1. At present, 100 cwt. of shipment, 246,000. Percentage of shipment by April 30, 3.5.

Schoolcraft Behind In commenting on the figures quoted by Woolley, Richards said that production of eligible potatoes in Michigan this year was approximately 3,019,000 bushels. Schoolcraft county produced approximately 183,000 bushels, or 6.1 percent of the total. If purchases in Michigan have averaged 8,200 bushels per day since the first of the year, as the PMA's figures indicate, then on an even basis, Schoolcraft county should have shipped about 600 bushels or two-thirds car per day. Up to February 5, only 20 cars of potatoes, or the equivalent of 20 cars instead of the six shipped."

Richards declared further that 24 percent of the eligible Michigan crop in 1949 has actually been shipped on the support program, then Schoolcraft county should have shipped about 83 cars instead of approximately 46, which is the amount shipped to Jan. 31. At present, buyers for the potato market are paying in the neighborhood of \$1.70 per cwt. on the farm, as compared with an approximate support price at the farm of \$2.70. The grower is losing approximately \$1.00 per cwt. by his inability to participate in the support program, local growers declare.

Gwynn Man Given 1949 Concession At The Big Spring

Robert W. Sauer, of Gwynn, has been awarded the 1949 concession at Palm-Bank state park, site of Schoolcraft county's famed Big Spring for the 1949 season. Information received this week by John Bellars, top local booster for Kitchi-tipi.

An effort to send Paul Vezina, 17-year-old Manitowish ski jumper, to the National Ski Jumping Championship Tournament at Salt Lake City, Utah, Feb. 20 was being made by the Manitowish Ski Club. Vezina is the only local skier eligible to compete in the national meet.

RICHARD MORENUS IS CLUB SPEAKER

Esanaha Writer On Program For Women's Club Tuesday Afternoon

Richard Morenus, widely known radio writer now living in Esanaha, will be the speaker at next Tuesday's meeting of the Manitowish Women's club, it was announced this week by Mrs. Carl Anderson, program chairman.

A native of La Porte, Ind., Morenus began work in radio over 25 years ago when the industry was in its infancy. For a brief period following his graduation from Dartmouth college, he was employed in the sales department of the H. C. Cable Piano company, founded by his grandfather, but in 1924 entered radio work at Fort Wayne, Ind., with Stations WOV and WIG. He later operated his own radio agency in Chicago for several years, leaving there in 1935 for New York City to join the script department of the National Broadcasting Company.

After four years with NBC during which he wrote, directed and produced network shows, Morenus went to Sioux Lookout, Ontario, in the Canadian west country, where he continued doing radio scripts as a free lance writer. He has written scripts for the Canadian Broadcasting Corporation, and for such well known shows as "The First Nighter, Grand Hotel, Curtain Time and Skippy's Hollywood Theatre. The familiar daytime serials for which he has done script writing include "Myrtle, Margie, Betty and Bob, David Harum, Young Wilder Brown and Ma Perkins.

Since moving to Esanaha a year ago, Mr. Morenus has continued to write for radio and has taught a radio writing course offered by the University of Michigan Extension Service. He is a member of the faculty of the popular and widely known Nahna Vacation School a few miles west of Nahna, Ont. He will return to Tuesday's program with future vocal duets by Mrs. George Morton and Herbert K. Peterson.

Harvey Quick Chairman; Seek Applicants For Commissioned Officers

For the first time in its history, the village of Thompson has electric street lights—four of them. The lights, of the overhead type used here, were installed recently by the Manitowish Light and Power company. There are two on US-2 which goes through the village, one at the town hall and another on the Little Harbor road at the schoolhouse intersection.

Thompson Has Street Lights For First Time

The committee was in agreement on the necessity of a new ordinance with text in it, which would give health officers the authority to force producers and shippers to adhere to rigid standards of health. The committee would meet Monday, Feb. 21, to go over the model ordinance again, including any revisions adaptable to local conditions. A recommendation as to the adoption of a new milk ordinance will probably be made at that meeting and first reading of the act for the city council session scheduled for Feb. 28.

RED CROSS DRIVE TO BE FOR \$2,500

Annual Fund Campaign Starting March 1; Merrill Johnson Chairman

A goal of \$2,500 has been set for the annual Red Cross fund campaign in Schoolcraft county. It was pointed out that a new goal for the entire county is 60 million dollars, of which 24 million will be spent by local chapters. The remaining 36 million will be handled by the national Red Cross program for units of some servicemen, assistance to veterans, disaster relief and aid to the stricken abroad.

MERCHANTS LOSE THRILLER, 53-52

Big Crowd Sees Locals In Action Against Hermansville Silver Foxes

TWO LOCAL BOXERS WIN AT MILWAUKEE

Fagan And Minor To Fight Again; Tufnell And Hruska Eliminated

The re-activated Manitowish Merchants, brought together for the first time this season for a benefit game, lost a thrilling engagement to the powerful Hermansville Silver Foxes at a single point here Saturday night. The final score was 53 to 52.

The game was decided in the third period when the Merchants shot when the Manitowish shot which would have meant victory missed, the ball rolling around the rim of the hoop and outside as the big crowd roared a decisive fever pitch of excitement.

The Silver Foxes started out with a bang, but the Merchants quickly overcame their early lead, and the score stood at 27 all at half time. In the third period, visitors went on a scoring spree that put them in front by 16 points, but the local quick made their comeback and the score was tied at 43-all at the end of the third. The final period was a thriller, right to the last second.

In the second and Courange played the guard positions. LaFrenere and Weber were forwards, and Beckman and Rydquist alternated at center for Manitowish.

Van Muelle arrived Tuesday from Mount Pleasant where he attends Central Michigan College of Education to spend his mid-semester vacation with his parents, Mrs. Frank Muelle and Mrs. Muelle.

overhauling and that such could be accomplished through constitutional convention. Last Nov. 2 the voters re-affirmed support of the sales tax amendment and at the same time voted to call a constitutional convention.
 Sigler's opponent, G. Mennen Williams, favored the sales tax amendment which he said was vital for inflation financing of public schools. And when Williams became the beneficiary of several hundred thousand "protest" votes, cast by Republican-ticket supporters, the top question at Lansing became this:
 * * *
 What would Governor Williams do about the looming deficit?
 His first message to the legislature indicated sympathy with social objectives and a willingness to impose new taxes to finance spending. Later the governor made it clear that curtailment of services could not be done without inflicting hardship on the mentally ill, the aged and other citizens already pressed financially to make ends meet.
 The final question was narrowed down to WHAT kind of new taxes would the governor advocate—an income tax, consumer surtaxes, real estate tax or one or more other money-raising devices?
 * * *
 Governor Williams' remedy, as submitted to the legislature last week, would be to tax corporation profits. A 4 per cent levy on net income, prior to federal taxes, would yield about \$97,000,000. And since the estimated deficit was \$61,000,000 the profit tax on corporations would leave a possible \$36,000,000 in new revenue to offset a proposed \$9,000,000 hike in social benefits. Industry and business, as represented by corporations, would thus foot the bill to avert a deficit and to help finance a better life for low-income workers.

Check Your Heart, But Not For Sentimental Reason, Health Director Cautions

Check up on your heart for in the control of heart disease," he said. "High-pressure living, Valentine's Day—not from a sentimental standpoint, but from your health's standpoint, the American Schooler's health department advised this week.
 Use Valentine's Day or National Heart Month to consult your doctor to find out whether your heart or your child's heart requires special care and consideration if you are to live a healthy, normal life span.
 Diseases of the heart and blood vessels killed one out of every two persons who died in Michigan last year. The leading cause of death in the state, they were responsible for more deaths than all the next five causes together. They took three times as many lives as cancer; six times as many as accidents, and 14 times as many as tuberculosis. Yet Michigan people give less thought to heart disease than to any of these other causes of death, says Dr. E. J. Brenner, acting director of the local health unit.
 Of the 24,228 deaths due to heart disease last year, 23,038 were of people over 45 years of age; but heart disease was the second leading cause of death among children 10 to 15 years of age, also. In Schoolcraft county, heart disease claimed 32 deaths in 1948.
 "The best protection against heart disease is to have a thorough examination by a physician once a year, and then carefully follow his advice," according to Dr. Brenner. "Under proper guidance," he said, "people who have heart defects can live to a good old age."
 Dr. Brenner especially advised examination of adults who have such symptoms of heart trouble as shortness of breath, chest pain, rapid or irregular heart beat of children who have symptoms such as slight, unexplained fever, loss of appetite, failure to gain weight, and frequent rages in joints and muscles; and of anyone who is recuperating from influenza, diphtheria, pneumonia, tonsillitis, scarlet fever or other streptococcal infection, or who may have had even the slightest case of rheumatic fever.
 "Medical supervision, proper diet, sufficient rest, avoidance of strain or over-exertion, and healthful living are major factors

February 4, 1949
 The Pioneer Tribune
 Manistique, Mich.
 Dear Editor
 The community newspapers of Michigan are one of the most important avenues of public information about the affairs of our state government.
 In my inaugural address, I said that our accomplishments during the next two years will depend in great degree upon keeping our people thoroughly aware of developments in Lansing. I said further that I intended to do my part to help the press carry out its responsibility.
 One of the great problems we are struggling with in Lansing is the problem of balancing the state budget. I have proposed to the legislature a tax program which in my opinion, will keep our state solvent.
 I know that you will want to have all of the facts about this tax proposal so that you can inform your readers with first hand information.
 I am therefore sending you a copy of the tax message which I delivered to the Legislature on February 2. This is the same kit of information, including attached charts and tables, which was placed on the desks of our representatives and Senator.
 I hope you can make good use of this information.
 Sincerely yours,
 G. Mennen Williams,
 Governor.

 Dear Editor
 The community newspapers of Michigan are one of the most important avenues of public information about the affairs of our state government.
 In my inaugural address, I said that our accomplishments during the next two years will depend in great degree upon keeping our people thoroughly aware of developments in Lansing. I said further that I intended to do my part to help the press carry out its responsibility.
 One of the great problems we are struggling with in Lansing is the problem of balancing the state budget. I have proposed to the legislature a tax program which in my opinion, will keep our state solvent.
 I know that you will want to have all of the facts about this tax proposal so that you can inform your readers with first hand information.
 I am therefore sending you a copy of the tax message which I delivered to the Legislature on February 2. This is the same kit of information, including attached charts and tables, which was placed on the desks of our representatives and Senator.
 I hope you can make good use of this information.
 Sincerely yours,
 G. Mennen Williams,
 Governor.

amendment, sponsored by big-town mayors and school teachers, if the legislature approves Governor Williams' new tax program. Here is the picture:
 The sales tax amendment raised the state treasury to the tune of 78 cents out of each sales tax dollar.
 It created the inevitability of a \$61,000,000 treasury deficit for the state's fiscal year ending June 30, 1950.

 Governor Kim Sigler's solution was to repeal the sales tax diversion amendment. He offered no immediate substitute for needed revenue, pointing out that the state's tax system badly needed

POWER PLANT

that uses its Head!

THIS is the husky thrill-producer you find filling the bonnet of any 1949 Buick.
 Look it over and you'll observe, among other things, that it is a valve-in-head straight-eight.
 In simple language, this means that years ago Buick engineers lifted the valves from the side of the cylinder and put them on top—with some immediate advantages.
 Such an engine "breathes" better. Gets a full, even charge on every intake—exhausts spent gases more easily—enjoys extra power, life and ginger.
 And in such engines, compression ratios are relatively easy to establish. To step them up, the head is merely brought closer to the piston—no extra problems are presented getting fuel in and exhaust out.
 This Buick power can—and has—kept pace with progress in fuels. Compression ratios suit gasolines actually available—and there's no

waiting for tomorrow's gasolines to get full performance.
 There are other things to notice about this engine.
 It's a Fireball power plant—uses a special and exclusive type of piston that gets more good-out of each fuel charge.
 And it speaks with soft, new quiet. Self-setting valve lifters automatically keep valves properly seated, ending tappet noises for good.
 With gasolines getting better, the swing to valve-in-head design will undoubtedly grow stronger. But that is what Buick has had all along—a power plant that uses its head to give extra lift and thrill.

OFFICIAL PROCEEDINGS OF THE MANISTIQUE CITY COUNCIL

Manistique, Mich., Dec. 27, 1948. A regular meeting of the City Council was held at the City Hall on December 27, 1948, at 7:30 o'clock p. m. There were present: Councilmen Berger, Burns, Schubring, Sellman and Stephens. Absent: None.

The minutes of the meeting of December 13, 1948, were approved as read.

Pursuant to reading of a letter from Michigan State Highway Department, dated December 13, 1948, it was moved by Councilman Sellman, supported by Councilman Schubring—

WHEREAS, the Michigan State Highway Department requests the approval and consent of the City of Manistique, Michigan, to a change in the location of State Trunkline M-94 within the City;

NOW THEREFORE BE IT RESOLVED:

Duke Gets His Tractor

Duke Adams bought a farm with the money he'd saved in the Service, but he couldn't get a tractor. He needed it badly, but with teeth on the local dealer's list.

"Tell you what," old man Peters says, "If those nine fellows ahead of you agree, you'll get the next one I get in." "No, thanks," says Duke. "I'll just take my turn."

But old Peters makes out nine posters. And the other day he tells Duke his tractor will be in next week. "I simply wrote the facts to the fellows ahead of you. They decided it."

EDISON, The Man Who Gave A World Better Living!

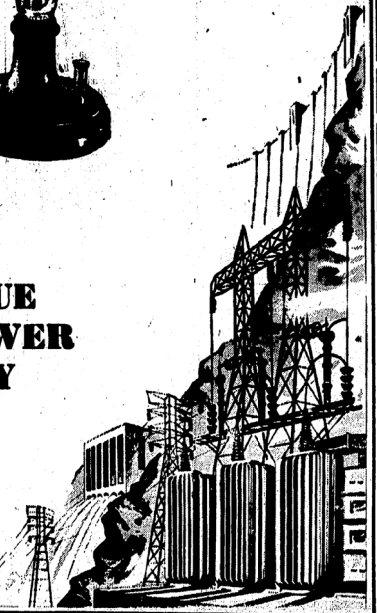

On February 11th, 102 years ago, Thomas Edison was born, a man never satisfied with past achievement. After inventing the first practical incandescent lamp—just 70 years ago—he continued to work hard to improve it.

WE have tried to maintain Edison's creed of progress, by working to give you better service at a lower cost. While prices have gone up in almost every other industry, your electric light service costs you less than ever before... our tribute to the genius of the "Wizard of Menlo Park".

Ski Tow Popular, Attendance Shows

The recently completed ski tow at the eastern city limits is a popular addition to the local winter sports program, attendance figures indicate.

With the cooperation of local business firms, the tow was erected without cost to the city, except for purchase of rope and minor mechanical costs. Contributing to the project were the Inland Lime and Stone company, the Manistique Pulp and Paper company, the Manistique Lumber and Coal company, the City Lumber company, the C-L Hardware, Girvin Coal and Dock company, Inland Mechanics, and the Quick Electric company.

Beginning Tuesday, the tow will be open Tuesday evenings under lights. The tow is also open Saturday and Sunday afternoons. There is a minimum charge to pay for power and maintenance.

Plan Of Purchase Of Potatoes For Feeding Outlined

Farmers and stock feeders may the purchase potatoes for feeding purposes through the Production draft made out to the Treasurer.

Marketing Administration at 10 cents per cwt. Orders must be for not less than 100 cwt. or five tons. Interested purchasers should contact the local AAA office at once. Payment must accompany the application, and must be a post office money order or bank notes through the Production draft made out to the Treasurer.

U. S. A. These potatoes must be used for stock feed only. Violators are subject to severe penalties.

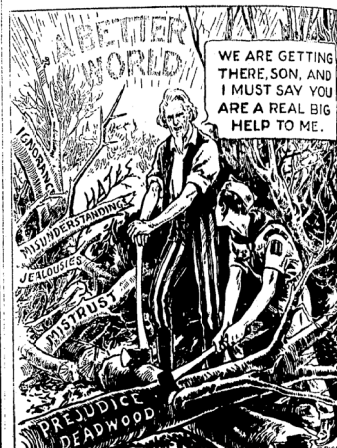

Grades to be delivered are bin run, culls included. Potatoes must with own silage as food and perhaps four or five pounds will take the place of one pound of grain. Less hay is required when potatoes are being used as a supplement. At this price, it should be profitable to use potatoes for this purpose.

"By taking the lower price and surplus off the market, it is felt that the interests of all will be met as it is one way of turning them into meat and milk, both of which are more in demand at the present time," says Norman Stauffer, AAA chairman.
