CASH-AND-CARRY MEANS SAVINGS AT PENNEY'S

So America's the richest country in the world. So what?
"So Americans produce more than any people on earth. Okay—but what's in it for me?"

At all times, in all ages, nations have had to answer that question—or go out of business.

The average man—the worker, the farmer, the small businessman—is human enough to ask: "What will it do for me—and for me and my wife and my kids?"

Let's look at the record—Here in America we have the best answer in the world to that question.

Machine Power: Since 1910 we have increased our supply of machine power 4 1/2 times.
Production: Since 1910 we have more than doubled the output each of us produces for every hour we work.
Income: Since 1910 we have increased our annual income from less than \$2400 per household to about \$4000 (in dollars of the same purchasing power), yet
Work Hours: Since 1910 we have cut 18 hours from our average work week—equivalent to two present average workdays.

BUT THE BEST IS YET—
You're right—things can be even better... and must be better. Right now, everyone admits prices are too high. We still have the threat of boom and bust. Our system has faults, yet it has brought more benefits to more people than any other system ever devised.
We can beat the boom and bust cycle. We can

have even better food, better clothing, better wages, better homes, more leisure, more educational and medical facilities.
We can have all this IF we all continue to work together and share together... IF we continue to realize that each American's personal standard of living will rise in proportion to how much all Americans produce through better machines, better methods, better teamwork.
And that's about it. What's in it for you depends on what's in it for America.

THE BETTER WE PRODUCE THE BETTER WE LIVE

North Second street. The Rev. H. Berendsen offered the nuptial mass. The traditional wedding marches, "The Bridal Chorus" from Wagner's "Lohengrin" and Mendelssohn's "Wedding March" were played by Miss Geraldine Gorsche, church organist, who also accompanied Mrs. Lyle Charron in an offertory solo, "Ave Maria." Baskets of mixed flowers decorated the church altar for the ceremony. Attending the bride were Miss Virginia Kump, of Detroit, cousin of the bride, as maid of honor, and Mrs. William Carlsson, sister of the bride, as bridesmaid. Mason Rhoades served as best man and Rudolph Kirich, brother of the bride, was usher. The bride wore a gown of white marquette trimmed with lace, fashioned with long sleeves, tight fitting bodice and a peplum which ended in a long train, edged with lace. Her favorite veil, which fell from a seed pearl tiara, was also edged in lace. She carried a nother of pearl

prayer book with pink and white roses. The maid of honor wore yellow marquette and the bridesmaid, green, both gowns trimmed with lace. They carried colonial bouquets of mixed flowers with matching gloves and headresses. The bride's mother wore an aqua print crepe dress with black accessories and a corsage of yellow roses. The bridegroom's mother wore a navy crepe print with white accessories and a corsage of red roses. A wedding breakfast and dinner were served following the ceremony at the home of the bride's parents, and a reception was held there later for 400 guests. Pastel tapers and assorted flowers decorated the home. The couple

are making their home at 105 South Second street. The bride and groom are both graduates of Manistique high school. They are employed at the Manistique Paper company. Out of town guests came from Calumet, Detroit, Lansing, Marquette and Escanaba.

For The Ladies: A Diet That Really Works

We went out visiting the other night and the ladies were talking away about weight-reducing diets. One of them had a special "5-day Hollywood diet" guaranteed to slim her down fifteen pounds' worth. Another was living on bananas and skim milk!

I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"

"Mother," I says, "the only diet I would ever recommend to anyone is simply moderation. I wouldn't trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats—but when you do, even do your cutting down moderately."

From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.

When you see E. N. Orr thus bedecked do not mistake him for an admiral.

The kissing bug has not visited Manistique as yet. The services of the bug are not needed here. A number of Thompstones attended the ball game Tuesday.

Forty Years Ago Mr. Elmer Ackerman returned Tuesday morning from a trip to the twin cities. Miss Luella Shilson visited friends at Gladstone during the past week. Miss Leona Vershure is erecting a handsome residence on the west side.

The young man who goes to bed when bed time comes instead of humming around at night has an unusual amount of good sense, and is likely to be still a well preserved man when the night hawks are depending on the doctors to keep them going. Contractor Dorman and his force of men, left for Cooks Tuesday evening where they will construct 2,000 square feet of cement walk.

Every Michigan child is told in school how the Soo canal carries more freight traffic in a year than all the other canals in the world. The Great Panama canal is a piker by comparison, although equally vital to our security.

The military importance of the Soo locks was doubly recognized by the United States government during World War II when a huge pre-loading railroad terminal was pushed to near completion at Escanaba. This project swallowed up many millions of war bond money. It reflected the bitter fears of Washington strategists as to what might happen if the Soo canal lock were bombed out of usefulness by raiding Germans.

Today, as midwest tourists again freely inspect the canal locks, they do so in the shadow of wartime security fences. Fort Brady will probably be reactivated before 1955 when the Centennial is held. This northern Michigan hold remains a key economic artery of our nation in peace as in war.

Plastic Bridge Table covers something super-special. Washable, reusable, durable. Only \$175. Tribune Pub. Co., Manistique, Mich.

When Hitler's Nazis were threatening to invade England and then moved on Greenland toward this continent, American workers feverously constructed landing fields near the Soo. Anti-aircraft troops moved freely on both sides of the locks.

In 1949, four years after V-J Day, Washington military officials changed their minds. The steel gate is back, ready for instant use. The locks continue to inspect the locks freely as before. Thousands of visitors daily witness the passage of log ore boats through the locks in almost endless procession, day and night.

Fort Brady, recently abandoned may be restored in 1950 to active status. The government has agreed to permit the state to use the barracks in 1950 as a state hospital. But in 1950—well that is another matter.

The Soo is verily a town built by canals.

One hundred years ago it was a village of only 500 souls, mostly French and Indians and their half-breed kin. In history this spot at the junction of Lake Superior and the St. Mary's river pre-dates the Revolutionary war by more than a century. The Jesuits built a mission here in 1698. Father Marquette conducted services in a small chapel surrounded by a log stockade fort.

In 1797 the British constructed a "barren canal and lock with a nine foot lift, on the Canadian side. American troops destroyed it in 1814. The British still maintained a fort on Drummond Island in 1815. Incidentally the ruins of this last British outpost on American soil may still be seen. The fort cemetery is nearby. The fort and the cemetery are unmarked and forgotten.

As a notice that the Soo was an American frontier army troops built Fort Brady in 1825. The reign of the British and French here then came to an end.

One hundred years ago the portage of goods around the St. Mary's river fall was the Soo's leading industry. In fact when the State of Michigan decided in 1855 to build a canal and lock the inhabitants were highly resentful. The canal threatened to end their livelihood, the carrying of freight around the falls.

The centennial of the Soo's first canal lock, now one of the leading tourist attractions of Michigan, is to be celebrated in 1955. The state legislature has recognized the event, and a bill is now before Congress to assure federal

500 QUIZ: How many crossties to a mile of track?

EVERY TIME a Soo Line freight highballs over a mile of track, it crosses an average of 3,200 wood ties. Frequently these freights are loaded with crossties cut in Michigan, Wisconsin and Minnesota.

Here in the Upper Midwest it's likely that part of the lumber in your home, your furniture, or the sands of countless logs and lumber hauled by the Soo Line each year. Another way in which we are—

Patients Should Have Ethics, Too

A physician is a busy man. Day and night he is ready to give succor to those in need of his care. Let us be fair. Do not telephone him at meal times just because you know he can be reached. And do not call him at night, unless absolutely necessary. Confine your calls to his office hours as much as you can. That is what office hours are for.

Keep your appointments promptly, or notify him in advance that it is impossible for you to do so. In short, treat him as you would wish to be treated were you the physician. A sympathetic appreciation of his problems greatly enhances the help he can give.

Midget Nine Wins From Munising Wednesday, 3 to 0

In a well played game the Midgets topped the older Munising nine here Wednesday afternoon, 3 to 0. After three scoreless innings, Radgens opened the fourth with a single, Erickson walked, Holm was safe on a fielder's choice, and all three scored on Bertraad's double. That ended the scoring for the day.

Threatening weather prevented more than seven innings of play but the rain held off long enough to permit the completion of the first half of that inning.

Batteries were Melchior and Holm for the Midgets; Malone and Lincoln for the visitors.

Next home game for the Midgets will be the North Star Boys' Camp on the local diamond Friday afternoon; the Mites travelled to North Star Thursday afternoon; and the Junior Cards play the Munising American Legion Juniors there Friday night, in a twilight game. Nahma will invade the local diamond with both Juniors and Midgets in a double bill Tuesday, August 2.

APPRECIATION

We wish to express our sincere appreciation to the people of the Manistique area for the patronage they gave the Lions Circus, held in Manistique on Monday, July 25.

We are especially grateful to the men, women and children who purchased their tickets in advance. The success of our entire venture depended upon advance sales, and we want you to know how grateful we are for your splendid cooperation.

Every person who purchased a ticket, either in advance or at the circus gate, can feel proud of the fact that he was doing more than going to a show; he was contributing to a very worthy cause.

The basic principle of Lionism is aid to the blind. In all of its community activities on behalf of Manistique and Schoolcraft county, the Manistique Lions club has never, for a moment, lost sight of this fundamental precept.

Most of the proceeds from the Lions Circus will go to the club's Sight Conservation Fund and will be used primarily to help little cross-eyed boys and girls have their eyes straightened.

This type of work requires money. Last year the club sent four children to Pontiac to have their eyes treated. With the proceeds from the Lions Circus we will be able to send several more.

The tickets you purchased for the Lions Circus made this possible, and we want all of you to know we are sincerely grateful.
