INDIAN LAKE MISSION IN 1873

Courtesy of the Herald Press

Here is the way the Indian Lake mission, founded by the pioneer missionary, Father Frederick Baraga in the 1830's, looked in 1873. The mission stood in a little clearing on the eastern bank of Indian Lake, opposite the present site of Arrowhead Inn. Inside were six or eight rickety fashioned pews, with seating capacity for 50 or 75 people. In front was a small platform with a pulpit and two or three chairs and a few little tables.

The school house was the first building to be erected at Indian Lake in 1832.

Collections Amount To \$3,125.58; Parking Violations Bring \$598

Total gross income from the parking meters in Manistique since they were installed in May amounts to \$3,723.58, records at the city hall reveal.

Of this amount, a total of \$3,125.58 represents collections from the meters from May 13 until August 12. A total of \$598 was collected through the justice court for parking violations during the period up to August 1.

Disbursements out of the meter fund to date include \$816.00 paid in June to defray cost of installing the meters, and \$868 paid in July as the city's first payment on the purchase of the meters.

According to the agreement with the Karpark corporation from whom the meters were purchased, the city must pay the cost of installing the meters out of the first months collected from them, and must pay half of all remaining collections to the Karpark firm until the meters are paid for. After that the city retains all money collected.

After paying the installation charge and making provisions for 50 per cent payment on remaining meter collections, the city during the first three months the meters have been in operation has netted a total of \$1,154.79, in collections and \$568 in fines for a grand total of \$1,762.79.

APPLICATION OF M-94 BLACKTOP STARTS SEPT. 1

Project To Be Completed In Early Fall; New Route Is Contemplated

Application of blacktop to an eight-mile stretch of M-94 north from the Indian river bridge is expected to start about September 1, it was announced here this week by Paul Miller, owner of the Paul Miller Construction company, of Grand Rapids, which has the contract.

The blacktopping machine, now operating in Iron county, will be here in a few days to be ready for the job. Unusually rainy weather in July and early August delayed the blacktopping job in Iron county on which the machine was being used, and as a result delayed the start of the blacktopping on M-94.

Grading, graveling and other preparatory work for the blacktop is virtually complete. After the blacktop surface is applied, the only work remaining will be finishing the road shoulders. The entire project is expected to be finished early in the fall.

The improvement project starts at the first sharp turn north of the Indian River bridge and extends north.

A new route for M-94 is contemplated for the rest of the highway between Manistique and the start of the current improvement. The proposed new route will extend straight north from Fifth street, cross through or near the Manistique gun club area, and cross the river several hundred feet downstream from the present bridge. No contract, however, has been authorized yet for this stretch of road.

NEW U. P. RED CROSS OFFICIAL IS VISITOR

Howard McGee, Navy Veteran, Succeeds Miss Irene Pohlman

Howard McGee, new Red Cross field representative in the upper peninsula, was in Manistique Tuesday to formally confer with Scholastic county Red Cross chapter officials regarding the chapter's program for next year.

McGee, who has been assistant field instructor in Red Cross veterans claim service in Milwaukee, hopes to develop claims service work of the Red Cross in the upper peninsula. He is a veteran of the Red Cross's service in the navy air corps.

Robert Orr, chairman of the local chapter, and Mrs. Walter Busch, home service chairman, have announced that they will supply a supply of application forms for the special dividend on National Service Life insurance on or after Aug. 29.

Red Cross emphasizes that veterans should not write to the Veterans Administration about their dividends, as this will only cause delay in payment. Veterans who have questions about the form or about their eligibility may contact either the home service chairman or the chapter chairman for advice. Local veterans organizations will also help ex-servicemen file their applications.

Visiting Priest And Thor Reque Speak At Lions Meeting

Speakers at the regular meeting of the Manistique Lions club Tuesday evening were the Rev. Robert McCarthy, director of Catholic Charities of Appleton, Wis., and Thor Reque, city recreation director here.

The Rev. McCarthy, who is spending a month's vacation at Indian Lake, told the Lions about his work in social service in Wisconsin, particularly as it related to the rehabilitation of juvenile delinquents. Several case histories of boys who had become juvenile delinquents and who were rescued and made useful citizens by his church's program were told by the priest.

While his work is sponsored by the Catholic church, the Rev. McCarthy said that it was non-sectarian in scope. "We have endeavored to help all problem boys and girls, no matter what their faith," he said.

The Rev. McCarthy was introduced by Adam Heinz. Thor Reque, introduced by O. F. Smits, told of the possibilities of developing the quarry pond into a great summer evening resort area, with a swimming pool, band shell, and fields and courts for various types of games. He placed particular emphasis on the desirability of creating a swimming pool in this area.

"Although the city has tried to stop swimming in the pond, the youngsters of the community are swimming there by the hundred," he said. He exhibited a sketch of the pool area and described the tentative plan for creating a swimming area in the pond.

Enclosure of the pond in a cyclone fence he said, was essential before controlled swimming in the pool can be achieved.

Members of the club showed some interest in the matter and intended to pursue further the possibility of acquiring a steel fence to enclose the area.

The meeting was held in the basement of the Paul Bunyan Cook Camp. Members of the Manistique Municipal Band were guests of the Lions.

U-M Study Records Growth of State's Towns Since 1840
Michigan had only two incorporated towns in 1840 but the number increased to 17 in the next ten years. This bit of information is disclosed in a population study of Michigan made by Dr. Amos H. Hawley, associate professor of sociology at the University of Michigan. His study is being published by the University's Bureau of Government. As a part of the study, he listed the population of every incorporated place in Michigan by

A SPIDER IN THE PAPER
 Many years ago Mark Twain was editor of a small-town
 newspaper. A reader wrote in saying that he had found a
 spider in his paper, and wanted to know if that was an omen
 of bad luck. Mark Twain answered: "Finding a spider in
 your newspaper is neither good nor bad luck. The spider
 is merely looking over our paper to see which merchant
 is not advertising so he could go to that store, spin his web
 over the door and lead a life of undisturbed peace ever after-
 ward."

Advertising has come a long way since those days, and the
 art of advertising has undergone great development. And
 advertising by stores or any other kind of business, is a typical
 outgrowth of the competitive system. It is the best pos-
 sible means of reaching the people who want goods and serv-
 ices, of urging the merits of one brand as against another,
 of encouraging the consumer to go to some particular
 outlet. That it benefits the consumer goes without say-
 ing. No storekeeper could long charge an excessive price
 for competitors offering in print the same or an equivalent
 product at a lower price. And deceptive advertising always
 fails in its own purpose. The wise merchant advertises ag-
 gressively, but he bases his story on appeal, not fiction.
 Salesmanship is a driving force in keeping the American
 economy running. Advertising is the heart of it.

WHO GETS THE LION'S SHARE
 The idea still seems to be prevalent that the owners of in-
 dustry get the big rewards—while the workers get the
 crumbs. That is one of the worst possible misconceptions. And it is
 a sign that industry is now working to correct it, by
 issuing simplified balance sheets showing the actual finan-
 cial experience of typical enterprises.
 A revealing example concerns the nation's largest steel
 company, which has been in business for 47 years. In that
 time it has had a total gross income of \$44,000,000,000.
 Here, on a percentage basis, is what happened to that huge
 sum of money:
 Payments for human energy—wages, payroll taxes, soci-
 ety security, etc.—took 41.4 per cent.
 Payments to other companies for goods and services—
 of which went out in payrolls—took 37.2 per cent.
 Depreciation of equipment—worn-out tools—required 6.7

This They Have Never Done Before

AN ETHERAL PROBLEM of childhood, how to get the most for the least, is presented here as three young Britons stand before the window of a candy store. It was the first time the children had been faced with such a problem—the picture was taken just after candy rationing ended recently in Britain. Started in 1939, the years of rationing produced a generation of children who knew only one simple package of candy a week. Now they are learning new values—candy is not limited to a paper coupon in a book, but to the amount of money that can be coaxed from mom's pocketbook or pop's pocket. Mest, cheese, fats, sugar and tea are still rationed.

Seek Men who Inspire Trust and Esteem

Four thousand years ago, practitioners of the healing arts were impelled to organize in order to shield the public from the impostures of quacks and charlatans. Similar organizations have been carried along the current of history to the present day. Today the great national associations of physicians, pharmacists, dentists, and nurses work separately and harmoniously to keep educational standards high, the impostors out. You cannot exercise too great care in securing the advice of those whose ethical concepts inspire trust and esteem. When ill, consult a registered Doctor of Medicine. Intoximeter Test
Absolves Driver
To Be Honored

The Intoximeter at the Michigan state police here, a new and accepted device for testing degrees of intoxication, saved a local man this week from facing a charge of drunk driving.

Robert Louis, 21, of 220 East Elk Street, requested the test when state police arrested him at 9 p. m. on August 4. Results of the test were received Wednesday from the state laboratory in Lansing. The laboratory report revealed that Louis was less than fifteen one-hundredths of a percent under the influence of liquor, and therefore would not be usually subject to prosecution on a drunk driver charge. Several witnesses, state police reported, were prepared to swear that he was drunk.

A reckless driving charge was then placed against Louis. Arraigned Thursday forenoon in local justice court, he pleaded guilty and was fined \$25 and 15 costs.

He was arrested after a motorcycle he was driving on August 4 sideswiped a car on old US-2 and then continued on without stopping. Hitting with Louis on the motorcycle was Laverne Lettrasser, also of Manistique. The car involved was driven by Leslie H. Graham, 165 Bear street, and was occupied by three other passengers, besides Graham.

Commenting on the Intoximeter test, William J. Sheahan, prosecuting attorney, said this week that the test was important because "it can prove a driver's innocence as well as his guilt in drunk driving matters."

Dinner Meeting Tuesday
In Appreciation For Band's Help With Circus

Members of the Manistique Manicula Band were guests of the Manistique Lions club Tuesday night at a dinner meeting at the Paul Hangan Cook Camp.

The entertainment was planned by the Lions in appreciation for the band's services in promoting the recent Mills Brothers Circus which was shown here on July 25 under the sponsorship of the Lions club.

The Manistique Band is recognized one of the best in the upper peninsula and is much in demand for concert appearances.

The Mackinac Island concert on Sunday was the last work of the band for two weeks, because members are taking a two-week vacation from land and water. The two-week fall in practice will be the first time since October, 1927, that the band has not rehearsed every week.

Ret. and Mrs. Kenneth White and children, Sandra and Edith, returned Monday from a visit with relatives in Roscommon and Alpena.
