## BUREAU FAVORS CAUSEWAY FOR STRAITS DOCK

Resolution Adopted At Annual Meeting; Governor Williams Speaker

The Upper Peninsula Development Bureau urged, by resolution, for an early completion of the causeway project to speed traffic across the Straits of Mackinac at its annual meeting in Iron Mountain last week.

Highlight of the meeting was an address by Gov. G. Mennen Williams, who endorsed the proposal of the Inter-Penninsula Communications commission and the recommendations of the special 15-man upper peninsula committee.

"It seems to me that this is an eminently reasonable plan to utilize the causeway, build fair-weather-dock facilities at its tip, Michigan operates the ferry on the short route when traffic volume demands it, during the fair-weather months."

Biggest bridge "It is estimated that the dock can be constructed at the edge of the causeway and facility put in operation sometime next summer if work were commenced at once."

Commenting on the bridge proposal, and mentioned that "a bridge across the Straits of Mackinac would be the biggest bridge in the work," Gov. Williams said such a construction would not be an insurmountable task.

Among other resolutions approved by the bureau: Recommendation that the state legislature appropriate \$55,000 for advertising Michigan's recreational attractions; continuance of the Michigan State college extension service program for the tourist and resort industry; recognition of Federal Highway 13; support of the 1950 International Trade Show in Detroit; support of the Michigan Economic Development commission program.

An added feature of the potato show will be a cooking quality contest. Richards Brothers, of Manistique, are sponsoring this contest and will give a \$25.00 Hanpton 17 jewel wrist watch to the winner.

This contest is open to potato growers who enter either the certified growers contest or the tablestock growers contest. ## PAPERMILL MAY START BY LAST OF NOVEMBER

Expect Prime Mover To Replace Wrecked Turbine Will Be Secured Soon

The Manistique Pulp and Paper company, shut down Oct. 4 when the steam turbine operating the paper machine blew up, may resume operations by the last of November, it was reported this week by R. G. Hentschel, manager.

"Unless unforeseen developments occur, Hentschel said, the company hopes to secure a prime mover for the paper machine within the next 30 days. That would permit the mill to get into production by the end of next month."

The new equipment was ordered several days ago by officials of the Mead Corporation, of which the Manistique mill is a subsidiary. If it had been necessary to obtain an entire new steam turbine, the mill would have been down for several months, as manufacture of a new turbine is not made for six months or more.

Approximately 150 employees have been out of work because of the shutdown, adding to an already heavy unemployment load here.

"Every resource of the Mead Corporation is being directed at resumption of operations as soon as possible," Hentschel said.

It was a three-car smash-up, caused by a driver traveling north who passed another motorist on a hill. The man who caused the accident made no attempt to stop and render assistance to the injured. A man in the other car was gravely injured, it is reported.

In addition to the shoulder injury, he is badly bruised and has facial cuts.

of the most prolific breeders of automobile accidents is the motorist who chooses to drive on a hill or a curve. When the Michigan State Department of Transportation has done down the yellow line probably prevented numerous accidents, but we always have our share of these older, exasperated motorists, who take a chance and pass another car in a blind area. Tragedy is often the result.

He was assured that the number of times he had met an on-coming motorist, but we always have our share of these older, exasperated motorists, who take a chance and pass another car in a blind area. Tragedy is often the result.

# Head your Buick for our fountain of youth

Now's the time when Autumn calls you out for a ramble in your Buick. Slide under the wheel and answer that call! Take a Fireball cruise through the countryside, with your heart glowing lighter and the years slipping off your shoulders at each mile!

Just one reminder, though. Make sure your Buick is in top shape to keep with you. First bring it in to us—and let us clean summer's dust out of your air filter, flush out tired summer crankcase oil with its grit and goo, check your carburetor adjustment to see that you're getting the most powerful, most economical mixture with October's cooler, heavier atmosphere.

We can do this quickly, economically, with a sure touch. Our thorough Buick training and long Buick experience in doing each job the factory-designated way have earned us a reputation—we're the "Fountain of Youth" for Buicks.

To make it easy, we've printed a Fall Check List below. Just take this out, drive in this week and hand it to us—and when you head out for the open road there'll be a happy smile on your face!

Tear out this check list—bring it in with your Buick

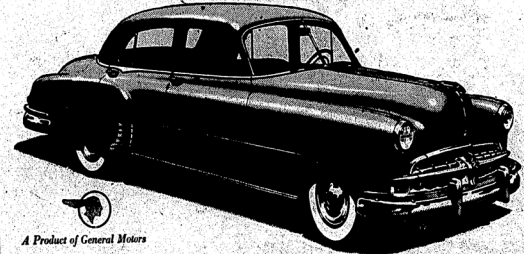

- Fall Checkup—lights, brakes, tire wear, front-end alignment, oil filter unit, battery, car heater.
- Adjust—Carburetor, distributor.
- Clean—Air cleaner.
- Flush—Crankcase, cooling system.
- Estimate—Anti-freeze requirements.
- ALSO—Lubricate (bumper-to-bumper lubrication and inspection).

# Thank You, Mr. & Mrs. N. M. Davies OF CONGERS, NEW YORK

## We're Sure that Millions of Farmers and Consumers Feel Just as You Do!

One of the wonderful things about Americans is their great sense of fair play. Ever since the anti-trust lawyers announced their intention of putting A&P out of business, tremendous numbers of people like Mr. and Mrs. N. M. Davies of Congers, New York, have deluged us with letters, wires and phone calls. These people are telling us, as Mr. and Mrs. N. M. Davies do in the following letter, why they like A&P and why they don't want to see this company destroyed.

FRUITS & VEGETABLES

Gentlemen:  
The Great Atlantic and Pacific Tea Co.,  
New York City, New York

We have been distressed by the possibility that the A. and P. stores, because of unfair accusations, may cease to exist. I wonder if you will see that our letter reaches the proper source, if there is one.

We are farmers, as you know, and not only sell our products, but buy necessary food from local A. and P. stores. We deliver farm produce, daily, to approximately eighteen stores in nearby villages. This includes two A. and P. markets, whose managers very wisely buy on-the-spot, thus saving deterioration due to excess handling, transportation and longer time from the farm to store. Our price to sixteen stores is the same as we get from the two A. and P. stores.

We wondered whether the low prices we see all the time in A. and P. stores might mean that sales people were underpaid. Evidently not, for we have noticed that the same employees stay on year after year, and we know high-school students in our town who have started at the bottom with A. and P. and risen to responsible positions.

Then what is this all about, if the consumers, the salespeople, those who manufacture your brands, the truckmen, the laborers and the farmers are ALL satisfied?

We believe the answer is simple. The A. and P. has developed an organization whose efficiency should be an example to all stores handling food. If this were so, independent grocers could well expect larger profits. The solution is not in destroying something that has taken years to build, but in encouraging all merchants to still further improve the efficiency of their operations.

Very sincerely,  
Niles M. Davies  
Eva Davies

For 90 years this company has tried to build a sound business on the basis of giving consumers more good food for their money and giving farmers better markets for their products. It is heartening to know that the public approves of the job we have done... to know that our policy of fair, honest dealing has won us the friendship of millions of consumers and farmers. We will always be grateful to all our good friends who have offered us their help. We are proud to live in a country where such things can happen.

**Vesta Fyvie, New Worthy Matron Of Star, Installed**

The solemnity of an Eastern Star installation in which a mother installed her daughter as worthy matron featured the ceremonies here Tuesday evening at which Vesta Fyvie assumed the gavel of Ida chapter No. 54, Order of Eastern Star, for the ensuing year.

It was the first time in the history of the Manistique chapter that a new worthy matron had taken over her office under the direction of her mother as installing officer, and the ceremony was a particularly impressive one. Mrs. Fyvie's mother, Mrs. E. L. (Abbie) Case, of Grand Lodge, is past matron of Grand Lodge chapter No. 14. Other installing officers were: Ruby Nicholson, installing marshal; Isabella Shaw, assistant installing marshal; Hilma E. Taylor, installing chaplain, and Helen Hall, installing organist.

New officers formed a sorority circle in the East prior to the new worthy matron's installation as Mrs. Fyvie was escorted to her station, each of them presented her with a rose to which was attached a white ribbon extending to each officer's position. Hilma Taylor and Ruby Nicholson dedicated the new worthy matron's luccite gavel which bore ribbon streamers bearing the names of her family.

Mrs. Fyvie and her officers were gowned in white, and others participating in the ceremony wore traditional dinner gowns. Besides the new worthy matron, those installed were: Jan Winn, worthy patron; Bertha Robertson, installing officer; Hilma Taylor, installing chaplain; and Isabella Shaw, installing marshal.
