

CIRCUIT COURT IN SESSION FOR ENTIRE WEEK

No Cause For Action Jury Verdict In Suit Against Helman-Thompson

The April term of circuit court was concluded late Saturday afternoon after occupying nearly an entire week. The session was devoted almost exclusively to the suit of the Manistiquette Tool and Manufacturing company against Fred W. Helman, former owner of the Manistiquette Tool and Manufacturing company, and Helman-Thompson company, which was held against Helman-Thompson and Helman-Thompson as individuals to collect a note amounting to \$4,800 for which Helman-Thompson and Helman-Thompson were liable personally. A default was entered in the matter of the corporation liability and there was no defense entered in this phase of the suit. A judgment was later rendered against the Helman-Thompson company, but jurors deliberated only on the personal liability of the Helman-Thompson company owners and found in favor of the defendants.

Herbert and Wood represented Helman and Thompson and LeMaire's attorney was Merrill N. Johnson. Jurors were Arthur J. Nelson, Bruce Rossier, William F. Mueller, Fred England, Orley Looney, Carabelle Oberg, Kenneth McLaughlin, Bessie Griffin, Roy A. McLaughlin and John E. Richard. Juror Motion Denied.

The motion of Benjamin A. Joslin to leave to file a motion for a new trial was denied by Circuit Judge J. J. Thompson. Joslin is serving a term in Jackson prison for robbery armed. The case of A. J. Markham, charged with drawing checks without funds, was continued to the June term, and that of Albert Kaiser and Lloyd Frugale, charged with obtaining money under false pretenses, was continued until the further order of the court.

On the civil calendar, cases were disposed of as follows: Burett's Tool company versus Hiawatha Metal Products, Inc., continued. Earl Sadler versus Henry Schaefer and Marie Schaefer, continued. Arthur E. Gillespie versus Joseph Hoholik, Ernest Hoholik and Robert Z. Schmidt, continued. Life insurance company versus Adeler V. LaCroix, continued.

Liberty Loan corporation versus John Spinkacher, continued. Lihen Thread company versus Allen Jensen, continued. Carl Larson versus John C. Koppas, judgment in favor of Larson, continued. Loren Spence versus Clifford Lambert and Raymond Vanderwall, continued. Gerald Thompson versus William A. Adeler, continued. Adeler Nelson versus Lloyd Frugale, dismissed. Donald S. Leonard, commissioner of Michigan state police, versus Schoolcraft county, continued. Betsy O. Johnson versus Gottfried S. Johnson, continued. Arthur E. Gillespie et al versus Leon LaPorte, continued.

The annual tax sale petition was granted. Norman Stauffer, chairman of the Schoolcraft County AAA committee, reported this week that potatoes are "moving out rapidly" and it is expected that the Cornmodity Credit Corporation will not have to take over 10 cars more. Outside dealers, he said, are now offering more than the support price in the department of agriculture. Stauffer said that the Department of Agriculture will put a wheat acreage allotment in effect for wheat in 1949, 1948, 1947, and 1946, and what they expect to plant in 1950.

Installation Engineer For Karpark Corporation To Be Here Tuesday

A resolution urging the Michigan state highway department to introduce ferry service from Manistiquette to Frankfort was adopted by the Schoolcraft county board of supervisors at the concluding session of their April organization meeting Thursday afternoon. The resolution points out the advantages of the Manistiquette-Frankfort route over a proposed service between Frankfort and Meemichew, which the Upper Peninsula Development Bureau is favoring. Manistiquette is located on the southern tip of the upper peninsula, it was pointed out, and affords the best entry into the peninsula to visitors from southern Michigan and other states coming to the north.

This board also adopted a resolution in favor of the allocation of an adequate budget to the Department of Economic Development, which they emphasized "is indispensable to the state." At its concluding meeting Thursday the board also:

Accepted the report of the auditor general. Subscribed to the National Association of County Officials legislative reporting service for one year.

Approved Dan O'Connell's resolution on the construction of a dam on the Little Fox River designed to flood "approximately 125 acres of land for water habitat and other benefits of a flooded area, including the production of fur-bearing animals." (Permission of the county is required in a project of this kind.)

Authorized the building and ground committee to proceed with plans for improving the county jail and indoor W. J. Sheahan, county attorney, to negotiate with Capt. Donald S. Leonard, state police commissioner, and the Michigan Commission in an attempt to settle an injunction suit against the county which seeks to close the present county jail as unfit for use.

Approved the concrete block building in the rear of the county infirmary property on Elk street to General Moon for a five-year period.

Urged the reappointment of Walter Greig, of Ishpeming, to the state welfare commission.

Hospital Matter Discussed. The supervisors also heard a letter from W. J. Sheahan, written to all supervisors and hospital trustees, regarding the recent bill authorizing townships, cities, incorporated villages to appropriate and transfer unexpended balances to the county in which they are situated, to be expended for county purposes. (This bill was introduced particularly for Schoolcraft county in conjunction with the financing of its hospital project.)

MICHIGAN PAINTINGS NOW ON EXHIBITION

Public Urged To Attend Company Showing At Escanaba

An exhibition of the J. L. Hudson company's "Michigan on Canvas" art collection opened Thursday at the junior high school cafeteria in Escanaba. Exhibition hours from April 22 to April 28, concluding date of the showings, are from 2 to 9 p. m. The "Michigan on Canvas" is the collection of approximately 100 paintings of present-day life in the State of Michigan. The collection, begun in November of 1946, was introduced by the J. L. Hudson company by ten of America's outstanding contemporary artists through Associated American Artists in New York City. The paintings were first shown in the Hudson auditorium and are now being exhibited throughout the state.

Dispute Over Splitting Of Oiler Shifts Holds Up Plant Operation

A dispute over a split in the oiler shifts at the Manistiquette Paper and Paper company has been settled and the papermill will resume operations Monday following a week's shutdown. It was reported Thursday by H. G. Hentschel, company manager.

Members of Local 23, International Brotherhood of Papermakers, A. The oiler notified the union grievance committee Saturday afternoon at a union meeting that evening. It was decided that employees would not return to work until the matter was settled. Another meeting was held Tuesday evening at which Ed Johnson, international union representative, of Wisconsin Rapids, was present and Wednesday members of the union grievance committee and Gilbertson with company officials. The agreement was reached at that time, and details of the settlement, relayed to the union membership at a meeting Wednesday evening.

Negotiations concerning the oiler's complaint will begin after the mill resumes operations. Representing the company at the session Wednesday were R. G. Hentschel, Roger Smith and Frank Hoholik. Members of the union grievance committee are Earl Couder, chairman, Louis Satter, Dean Deloria, Bert Hulshof and R. J. Ziegler.

Susceptibility To Communism Likened To Flu By Professor

The susceptibility of European nations, to the doctrines of Communism was compared to the incidence of flu by Professor Andrei Lokanov, of Moscow, professor of history at the University of Michigan, in the third of a lecture series sponsored by the university which will be given at the State Capitol building here Saturday evening.

"Professor Lokanov, declaring that 'if you're run down you get the flu, and if you are healthy you do not,' told his listeners that European nations which had led the way to Communism following both World Wars I and II had been those in which there had been economic collapse with its resultant misery induced by hunger, inflation and social inequality.

A former member of the Russian nobility, Professor Lokanov, who has realized citizenship in this country since 1936. He was born in Yokohama, Japan, and was educated in Russia and France, and his mother of French birth. He has scored its biggest success, Poland and the Balkan countries, in Class B the nations of Hungary and Czechoslovakia and in Class C those nations, particularly Finland and Austria, which had been "allergic" to Communism. Professor Lokanov has contributed articles to numerous publications and has written several books. His two latest volumes are "The Grinding Wheel, Reminiscences of War and Revolution in Russia from 1913 to 1929" and "Russia and Europe, 1789 to 1825." In his talk Wednesday evening, Professor Lokanov pointed to the historical backgrounds of the Balkan countries, emphasizing the fact that there had developed a definite "pull" either to East or West in the historical events had occurred. The Russian impact in Europe, he said, "in the way that the people react to the impact." Next week's lecture will be by Dr. Marshall W. Kappeler, professor of political science at the university who main interest is in American foreign policy.

SCHUSTER'S SUPER FOOD MART

The issue of higher taxes vs. economy is headed for a showdown soon in the state legislature. The corporation profits tax is being pushed by Governor G. Mendenhall as a painless method to raise additional revenue for state government needs and thus avert a growing deficit. Seventy-eight percent of the state sales tax is earmarked by constitutional amendments to be returned to local governments.

The Michigan Good Roads Federation bill is now before the state taxation committee, headed by Sen. George N. Higgins (R-Fremont). Motorists would pay \$20,000,000 more in higher gasoline taxes and higher weight taxes. This measure has the backing of state government needs and thus avert a growing deficit. Seventy-eight percent of the state sales tax is earmarked by constitutional amendments to be returned to local governments.

Legislation is being introduced to create a state fair authority to run the fair and the grounds. It has a limited chance of passage because of political differences between the governor and the legislature. The governor would appoint members of the authority.

At present, the centennial celebration of the State Fair at Detroit is in a state of suspension. The governor opposed reappointment of Hazen Funk as the fair's general manager.

Consolidation and elimination of several state agencies are advocated by some state legislators as an alternative to higher taxes. Senate bill 11 would abolish the tax commission and create a new board of taxation; senate bill 12 would create a labor department, merging other agencies; senate bill 13 would transfer collection of gasoline tax, diesel fuel tax, vessel fuel tax and aviation gas tax to the revenue department.

Senate bill 14 would abolish the hospital survey and construction office, transferring duties to the department of administration. Senate bill 15 would eliminate the state safety commission with its \$16,000 budget. Senate bill 16 would create a professional and vocational licensing division with an office of secretary of state. Senate bill 17 would abolish the stream control commission, transferring duties to the state health department.

This attitude of trying to get something for nothing is not new, of course. Local governments always favor more state aid and more federal aid, so long as the money appears to be free. The very minute the benefits are linked to taxes, then the spending fever begins to subside.

The legislature has a most difficult task to perform. Regardless of what is done, the decision will be unpopular with some blocs and special interests. Higher taxes or economies that really hurt—which will it be?

There is no closed book and line fishing season on yellow perch, crappies, whitefish and white bass in the Great Lakes and connecting waters, non-bait streams, and lakes other than trout lakes north of highway N-46.

The paradox of public benefits and public taxes was neatly presented by representatives of Michigan municipalities who appeared at a legislative hearing recently. They urged the legislature to authorize municipal excise taxes, but opposed any public referendum on them. Taxpayers won't tax themselves to pay for things they want, city officials complained.

At a session of said Court, held at the Probate Office in the City of Manistique in said County, on the 20th day of April A. D. 1949. Present, Hon. Ralph H. Merwin, Judge of Probate.

In the Matter of the Estate of Lawrence Mortensen, Deceased. Godfrid S. Johnson having filed in said Court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Further Ordered, That public notice thereof be given by publication in a copy of this order for three successive weeks previous to said day of hearing, in the Manistique Pioneer Tribune, a newspaper printed and circulated in said County.

Learn to Recognize Cancer's Danger Signals

- Any sore that does not heal, particularly about the tongue, mouth or lips.
- A painless lump or thickening, especially in the breast, lip or tongue.
- Progressive change in the color or size of a wart, mole or blemish.
- Persistent indigestion.
- Persistent hoarseness, unexplained cough, or difficulty in swallowing.
- Bloody discharge from the nipple or irregular bleeding from any of the internal body openings.
- Any change in the normal bowel habit.

Learn to Recognize Cancer's Danger Signals

• The war against cancer is far from won! Today cancer still strikes in one of every two American families, still kills one of every eight. Only every fourth victim survives this dread disease.

That's why we say send cash now instead of flowers later. For on the cancer battlefield, money is an all important weapon.

Progress is being made

Remember, everything that is known about cancer and how to cure it has been learned in two generations. Certain types of cancer are being cured today. Diabetes, yellow fever, tuberculosis and other deadly diseases of the past have been brought under control. Patterns of research in other fields assure ultimate victory over cancer, if you will give your dollars to keep up the search for the cause and cure of cancer. Research means working with the unknown. Men must be kept at this work; for how long no one knows.

Here's how your money helps conquer Cancer

Through Research—Your money helps support more than a thousand research specialists relentlessly pursuing the cause and cure of cancer.

Through Education—Your money helps keep the public aware of the cancer menace, alert to its danger signals while also keeping physicians and scientists informed as to the latest developments in cancer detection and treatment.

Through Medical Service—Your money backs the Cancer Society's field army in establishing and staffing cancer clinics—aiding cancer patients—carrying cancer control right into the home.

Don't wait until it's too late to send anything but flowers. Guard those you love. Give to conquer cancer!

Cancer can strike anyone, but you can strike back

30 Years Ago
When a boy without a trade and decided determination to work...

between the dump and Stouben has been deep enough to float line of steamers.
Mr. Daniel McEachern, of Germantown, was a pleasant entry Wednesday.

There is an unusual amount of sickness in Manistique at present. A fresh undermined a portion of the sidewalk leading from Chandler's drug store to the Weston Mfg. Co.'s plant last week.

Miss Maggie McLeod, for several years an attaché of the Ossawinimie Hotel, has returned to her home at the Soo.

There were more divorce cases tried at the present term of court than at any previous term held in the county.

10 Years Ago
Don't let your enemies worry you; aunts, wolves and English sparrows have their full quota of enemies and they appear to get along pretty well.

Mr. and Mrs. Leonard Walters are the parents of an eight and one-half pound baby girl, born last Thursday at their home on U.S. 2, east of Manistique.

Dr. Harkwell, of Blaney, was in the city Wednesday attending court as a witness in the Carson poisoning case.

The residents in the territory to be traversed by the new R. F. D. route to be established in Hiawatha township, have purchased their boxes and are preparing for the advent of the convenience.

Messrs. Fred Quinan and Orville Norton left for Everett, Wash., late last week.

The powerful melodrama, "The Two Orphans," a play that never grows old, will occupy the boards at the opera house next Tuesday evening.

Mr. and Mrs. Clifford Lied have returned from Donna, Texas, where they spent the winter months.

Mr. and Mrs. L. C. Harbin have returned from Ludington where they visited with their son and daughter-in-law, Mr. and Mrs. Robert Harbin.

Mr. and Mrs. J. J. Hruski and other relatives.

Walter Johnson, who resigned a few weeks ago as movie operator at the Goro theatre, is now at a similar position at the Davidson Theatre.

A noticeable and much needed improvement was made to the court house grounds this week when crushed stone was placed on the plot of ground that is used as a space for parking cars.

Miss Alice Jandvold, who is a teacher in the Lansing public schools, is expected to arrive in the city Saturday for a week's visit with friends and relatives.
