**TOWN AND COUNTRY.**

Attend the meetings next week.  
Pioneer, twice a week, one year, only \$1.50.

LeDuc's "No Limit" cigar leads and others follow.

D. K. Smith returned home from Thompson, Thursday.

Spring politics will warm up the latter part of next month.

Considerable snow shored from the Lakeside walks this week.

Rev. Walter Thomas Mills is expected back from Chicago, shortly.

W. C. Marsh, of the Bank, has spent a part of the week at the "Soo."

LeDuc's "No Limit" cigar and Robert J. are the leaders in their class.

The Mercantile have many very prosperous Touts on this peninsula.

Lesly Hibbell, of South Manistique, was in the city, Thursday afternoon.

The "colony" brings great deal about their roller for opening the highway.

The business of cutting wood for the kilns is at a standstill in this vicinity.

Cheering news received from the hospital about the condition of Mrs. Dr. Brown.

Many ladies visited Stewart's rink Thursday afternoon. An enjoyable time reported.

Seniors P. H. Brown and Thomas Semore, of Whitehead were in the city, yesterday.

Whenever the market creates a demand for pig iron then the furnace here will start again.

Traveling men plenty now days. They report business prospects brightening, all along the line.

Agencies surprise party at Leonard Ekvall's last Saturday night. Those present report a grand time.

Miss Goldman, cashier at the store of M. L. Casper, left Thursday to visit friends at Buffalo, New York.

We are sorry to hear that our friend Wright, of the Democrat, has been on the sick list, this week.

Three-for-quarter is the price of LeDuc's "No Limit" cigars, and you cannot buy its equal for the money.

Make things lively while the good sleighing lasts. What's the matter with Capt. Samuel Mix, of No. 9 club?

It is reported that the Tribune office is to be moved to the German-Costello building. The location is a good one.

The Ladies' Aid Society of the Presbyterian church will meet with Mrs. John Mosher next Wednesday afternoon.

Without doubt, no cigar manufactured in a city the size of Manistique, is sought for as much as LeDuc's "No Limit."

We are of the opinion that before Cleveland is elected for a third term we shall have a good well in front of this office.

Commissioner Hill seems to have plenty to do now. He is doing a lively business in the way of furnishing temporary relief.

Allen Leasley, of Alpena, arrived here Wednesday evening to accept a situation at the making, with the A. Booth company.

People are already talking about when the first boat is liable to arrive. Such talk will be more appropriate two months hence.

Two men were found in a stack of hay, near Bryan, Ohio, last week to get out of a storm. Their bodies were found on the 11th.

The Presbyterian Society is practically out of debt. We get that an announcement from those present at church, last Sunday.

The north part of the village will veep quite the balance of the winter, now that both the furnace and lime kilns are out of blast.

Rev. Dr. Drake, (Episcopal) left for Marquette, this morning. There will be no services in his church on Tuesday. He will not return to Manistique.

John Wadleigh, who left here several years ago and has been in business at Minneapolis, Minn., returned yesterday morning. Glad to see him with us again.

Mason H. Quick & Co. are doing a good business at their cedar street store.

The little child of Mr. and Mrs. Hans Abrahamson, died on Wednesday last, and was buried yesterday.

John McLaughlin, of Gernishak, died on Tuesday and his remains were taken to Newberry for interment.

DOMESTIC WANTED—A good girl will be given steady employment and wages by applying to Mrs. W. L. Milderholz.

Judge Hinson is having his office re-fitted, and it will be the hands of Joseph, by D. G. Ward. He is a first-class artist in that line.

Some of the populists talk of making it warm for their political parties next spring. The democrats and republicans will hardly disband on account of that threat.

The democrats will hold their state convention at Saginaw on the 25th of this month. No delegate that we have heard of, named to go from this county. Who will it be?

P. J. Buck, Charles Chapman and several others, whose names we did not get, were over from Thompson, last evening. Did you come over boys to enlist in the "army"?

The attendance at the Salvation Army meetings continues to increase.

The Culmnet Congregationalists have where the "woolmen twine," and another paper sprang into existence there. It is called the "Tribune." It cannot help but admire the "grit" of any man that engages in the newspaper business. There are no newspapers in this vicinity, however, that will represent the man that was driving a wagon-load of apples up hill and the hind end gate fell out. Imagine the rest.

We learn that H. L. Harris, of Newberry, is a candidate for president of the village.

J. J. Boben has sold his livery stable at Newberry and has located at Galatone; so we learn from the St. Ignace Enterprise.

Our old time foreman, Ephraim Eydell, is with us again in getting out this paper until the junior editor and publisher is able to be on deck.

Mr. MacLaughlin, of this office, is better and we hope that in a few days he will be ready for duty. The "old man" is doing the best he can; but it is up-hill work.

Again we call attention to the new advertisement of Blumrosen Bros. They are selling goods at the very lowest rates, in order to make room for the mammoth stock of the next few days. If you want big bargains, go there.

Isn't it a puzzle, though, to know how some men live. With no visible means of support, they hang around the street corners, loaf in stores and seduce, from morning till late at night, the girls of a city of work. If the secret is not patented it would be interesting to know what it is.

The Chinese experts, including secretary John W. Foster, have not been packing home by the Japanese. The reason is, they were not fully paid for their services. The girls cover to the view so often expressed that China is playing for dead.

Some people always look fresh and young, while others look prematurely old, with skin dried up and wrinkles. The only difference between the two is the loss of vitality in the blood. One is using Bagg's Blood Purifier and Blood Maker always look fresh and healthy. Sold by City Drug Store and West Side Drug Store.

The Salvation Army people paraded the streets last evening. On Oak street, service was done. The night was a business place for a few moments, and then they marched back to their hall and the room was soon filled to overflowing. The exercises were very varied and interesting. At the hour when the meeting broke up.

A convention of delegates representing the League of Republican Clubs of Michigan will be held at the Hotel DuRoi, Detroit, at 10 a. m. Friday next. The basis of representation will be one delegate for each club and one additional delegate for each 50 members. Each county in the state organized Republican club will be entitled to delegates.

The little baby of Mr. and Mrs. A. D. White, who has been very sick with spinal meningitis, died at the residence of Mrs. Currie on Thursday afternoon.

The remains were taken to Saginaw to be interred in the cemetery of the entire community over the body of the child. Before going to the depot the body was taken to the Methodist church where the Rev. J. M. Slack conducted the usual funeral services.

We learn that Henri Brassel, purchased a team last week of a man near Delta county who represented that they were his own. Yesterday another party came here and claimed the horses. The other man shipped out. Mr. B. has gone to Michigan to make the matter settled up.

It is reported that one of the horses belonged to the "skippers" wife. We will probably get names and particulars for next week, who has been acquainted with the man in question.

H. B. Rowson, editor of the Hillsdale Standard died at Mobile, Ala. on the 7th, where he had gone to spend the remainder of the winter with his sister. He had reached the age of nearly 70 years. The writer became acquainted with him in 1846 and worked for him as a compositor when he was 23. D. Clark followed him to Hillsdale Standard, Mr. R. became sole proprietor in 1851 and continued in control of the paper ever since. We remember him as the kind, genial, good natured man, who was well known to all the young men of the "art preservative."

Attention I. O. O. F.  
The presence of every member of Manistique Lodge No. 353, I. O. O. F., is requested at our meeting Wednesday evening, Feb. 20. Work in this lodge is of a high order and other business of importance. A goodly number is looked for.

**Situation Wanted**  
By a young man in a general merchandise business or grocery. Has had four years experience in the grocery business. Has been assistant manager and assistant buyer in one of the largest department stores in Minneapolis, Minn. In married, would like a position in Manistique. Address, Postoffice.

Cook's.  
A. Deloria made a flying business trip to the City the fore part of the week.

Miss Kate Spellmeyer is now making her home for the present with her brother, Geo. Spellmeyer.

J. F. Black returned from camp, he reports business flourishing.

H. Deloria is engaged for a few weeks in the cedar business near Coram, having gone there to begin work on Monday last.

Mr. Dave Grindell, who has been making his home with Mr. Silkworth, during the past two years, had a very severe attack of paralysis on Wednesday last. He has been taken to Manistique for medical treatment.

Mr. J. H. Zimmerman, a professional saw-filer, of Toronto, Can., is now at N. McDonald's camp engaged in his chosen profession. Z. has the reputation of being a good filer.

We learn that G. W. Gray is near the completion of a well for I. Phillips. Hope the drink will not be hard, but clear, pure, crystal water. What say you?

Of a reader, our famous Mund S. has been seen again, during the last week, and by all reports, she is looking much better. Now, D. hold on to the reins or you'll be landed in lake Michigan the next time she runs away with you. Remember and take our advice.

We understand that this coming spring election will be an intensely interesting one, as there will be a new man in the field for the superintendency of Inwood township. Now, hush for some fun.

The cold weather, which we expect to see next week and which, unless we see, somewhat abated and we are now enjoying most beautiful winter weather. It gives us, we are to have another snow. Isn't that it, Joe?

Capt. Tygh is now very busily engaged in supplying the boys at camp with good things to eat. The boys are glad that you would help us a little across the way, see?

It is with pleasure, that we can report that our little burg is in a very happy state of affairs, as we see no sign upon our streets; as there is plenty of snow for all; and it is noticeable that, that everyone is wise enough to reap the harvest, while it lies.

A happy event is the fact that McDonald & Co. are losing business men; judging from the amount of business they are doing of late. We are proud to admit that they have gained a fine reputation of being a strictly honest firm to deal with, and thus by their uprightiness they have an immense honor to whom business men are flocking. They are deserving the praise that they are receiving, and the success they are meeting with. In the Cliff Co. of Negaunee, has given to this County the best work of prize in the territory on the part of the management is being heard on all sides.

There are at present 133 choppers and there are still 35 more applicants for work, who will be accepted as soon as there are accommodations made for them.

The Noble, who is in the employ of the Cliff Co., measured 3129 cords of wood during the last month. This will be chopped during the month of January. We learn that McDonald & Co. intend putting up another camp in the near future, giving fine accommodations for those who wish to work. This Co. is doing themselves praiseworthy in the manner in which they are managing affairs. Yes, McDonald & Co. are business men of no mistake.

A happy event of Manicetes apart of most pleasant evening at the home of David Brown on last Saturday evening. As the Bees are grand workers, it is needless to state that they had a most grand success of all their social gatherings. All danced the fantastic little eleven, when all went to partake of the good things which were bountiful in store, and the dainties quality. Yes, the Bees had all a delightful time, and suffice to say that the pleasant evening spent at Mr. and Mrs. Brown's will be remembered by all those who were so fortunate as to be present.

WASHINGTON, Feb. 13.—The war department to-day sent further word to Mr. McMillan to effect the Mackinac Island military reservation with the army on account of the serious illness of Juror Cox, and a new jury will be summoned when the case is again put on.

The decision of Judge Grosscup discharging the jury. The jurymen left their hearts torn and while some attempted to shake Judge Grosscup's hand, the majority of them hurried to where the prisoners were being held.

They slapped him on the back, shook hands with him again and expressed profound appreciation for his bearing in the trial.

**A Bit of History.**

Thanks for the call that our friend A. H. Witter made upon us the other day. He came in to inquire the date of the organization of the democratic party, as another man, who died several years later than he did, claimed to be the father of that party in this county. We took down the bound volume of the Pioneer and learned the facts. That the first democratic camp met in this township Sept. 25, 1880. At that meeting A. H. Witter was chosen chairman and E. F. Plunkett, secretary. The following gentlemen were chosen as delegates to the democratic county convention: A. Ishpording, A. C. Richards, E. F. Plunkett, R. C. Odell, John Gayan, A. H. Witter, Ed. Curley, Geo. Archibald and J. Green. The county convention met on the 2d of October, 1880. A. H. Witter was called to the chair Anthony Ishpording was elected secretary. The following ticket was chosen unanimously: D. M. Plunkett, sheriff; Edgar Brown, clerk; Henry Brassel, treasurer; John L. Witter, register of deeds; A. Ishpording, judge of probate; W. N. Maynard, prosecuting attorney; D. M. Plunkett, assessor; A. H. Witter, W. A. Cox and Ed. Curley were elected the county committee.

Up to that time there had been no divide upon party lines. Members of all parties met a few days previous to the above date and nominated county tickets, but Mr. Witter and five other gentlemen becoming dissatisfied with some of the candidates nominated, decided to hold and call another convention, which they did and named a Democratic ticket. Republicans called it the "No 6 ticket," that being the number of some party members of that faith, that named it. That year the party cast 40 votes in the county. From that day to this the party has been kept up in the county; but sometimes it was divided whether it would live or die. Give honor to whom honor is due—Andrew H. Witter was the founder of the Schoolcraft county democratic party.

**The Latest Legend for Hard Times.**

All kinds of political and social remedies have been suggested and still the condition of the country is not what it should be. It will take time and toil and wisdom and patience of mankind to bring about a real and lasting change.

In the mean time the Epworth League of this city is a prominent feature that is nearly overlooked and forgotten. The public are cordially invited to assemble for all; and it is noticeable that, that everyone is wise enough to reap the harvest, while it lies.

It is worth while to find the sunny side of any difficulty; come and have a good life and continue a honest struggle in a more cheerfully than ever.

Four Inches Deep in Texas.  
Dallas, Tex., Feb. 13.—At noon snow began falling and it has been coming down steadily ever since. There is now four inches on the ground with no indication of an abate yet. The wind is from the north and holding the mercury at 21. The storm has extended from Red river to Central Texas as far west as the mountains to Languey and Marshall. It is the worst in fifty years. Trains are arriving many hours late.

San Antonio, Tex., Feb. 13.—At 10 o'clock snow began falling and it will continue for some time. It is the first snowfall for five years, and it is general throughout.

Fort Worth, Tex., Feb. 13.—Another snow storm set in at noon and already fully six inches of snow has fallen.

Albuquerque, N. M., Feb. 13.—The storm is the worst in thirty years. There is now to the west of the city extends south 200 miles of cold weather. El Paso reports a hard freeze.

Secretary Carlisle's communication to the senate, in which he declares that the revenues will exceed the expenditures of the government by at least \$22,000,000 during the calendar 1895, creates a sensation, as well it might. The deficit for January was about \$9,700,000. It is not probable that the rate of deficiency will be kept up, however, for the January payments of interest and pensions are always very large. There is no reason, unfortunately, for believing Mr. Carlisle's estimate. He is notoriously erratic in financial predictions, and none of his estimates so far have proved correct.

Judge Grosscup has postponed this trial until the first Monday in May. He declines to accept the expedient of the serious illness of Juror Cox, and a new jury will be summoned when the case is again put on.

The decision of Judge Grosscup discharging the jury. The jurymen left their hearts torn and while some attempted to shake Judge Grosscup's hand, the majority of them hurried to where the prisoners were being held.

They slapped him on the back, shook hands with him again and expressed profound appreciation for his bearing in the trial.

Aphorisms—Lacrimis—Proverbs.

Delay often makes one wise. The offer rarely partakes. Long is the arm of the newly. A bad man's dislike is an honor. Dig not your grave with your teeth. With the unmade there is perpetual peace. Pacts are born such operators are made sick. Bay eggs, bay all the eggs that the latest market. Pickle is the offering of fully and the plague of fools. Malice is a mean and doubtful engine of mischief. In cases where doubt exists, always lean to the side of mercy. Nature is superior to art, have faith in her and success is yours. It is a base thing to the truth alone becomes the ingenious mind. Beware of people who think reform should begin away from home. All rules and principles, to be of use must be understood and practiced. The course of some persons in praise and their praise is condemnation in the eyes of the world. Bites either serve or rule every one who possesses them; and thus, they are either blessings or curses. Some eggs escapes from the Cokes oven in the cannibals' region to light every eye in the country. One may know what he wants at present, but he does not know what he is going to want when he gets it. A woman should be admired for her virtues, respect for her education, worshiped for her beauty, protected for her weakness, and loved for her motherhood. The plain fact is that the government is staggering under a heavy load of expenses which it is totally unable to pay. The revenue is wholly inadequate for the purposes of the government. It is interesting to know that in this country 300,000 women are earning independent incomes. In the professions are 2500 doctors, 275 preachers and increasing number of lawyers. Some 6000 women have charge of postoffices. There are two quantities in this world not fully known to man, electricity and woman. Man as yet do not know the full power and use of electricity, but to-day they know more about it than they have ever known or ever will know of woman. To the praise of ward McAllister, he said, that though he knew all the gossip about everybody and did not hesitate to tell it, he could do a charming utterance, he was never known to say a malicious thing, all ways courteous, in the true sense a gentleman. New laid eggs, with Baines' busyca turned by a gentle fire, and rotated rare—are good, very good, but it is fair to purchase all the eggs in town unless you intend to use them for family food or to distribute eggs to the needy, to many of whom the taste of an egg would be luxury. It is claimed that the reason men object to giving the ballot to woman is that they cannot control them. If the woman would vote as a large number of men do, at the dictation of the political leaders, there would be no trouble about it for a majority would be willing, nay even eager to let them vote. If a woman who always talks in the superlative telling about the "most gorgeously," the "largest lot," the "perfectly horrible mistake," and the "monstrous distance," would stop to reflect she would really see that nothing is permanently gained by exaggeration. After the habit is formed to it demands her statements. At the nation's call for service, And on Cook's Kara's lot's bright, The last piece, exalted Britain's might. For Turk and Brahmin, Moslem, and Jew, Had trodden him through the gods they knew. An eminent physician calls attention to a simple means of keeping chilly, cold and flint ailments that cold water brings on at a distance. Deep and forcible respiration, he says will keep the entire body in a glow in the coldest weather, though one has plenty of fuel. He declares he has himself half frozen to death and begun taking long breaths and keeping the air in his lungs as long as possible, with the result that he was thoroughly comfortable in a few minutes. The scholar of divinity is not the man who has developed any more thought beyond his honorary education, or enlightened with the latesting bulk of text, but he is the scholar who has gathered together the most ideas of other men, even to the remotest ages of history, so that the divines of this day, on a rule, are not following the silliest development of the nineteenth century, but are bound to theologies. It is not so much their fault as it is their misfortune to be found in the ruins of a civilization which by reason of their surroundings, they cannot easily emerge. The hotel that runs through the rain, brought only one passenger through the rain.

A traveling man, tired, weary and sad. For he had sold all that he had and had no more. Not a single order was on his book. The cigarette fell from his lip. With a careless hand he wrote his name on a page of the book unknown to him. The driver of the car was scanned. Then a letter placed in the drummer's hand; see how he starts, while a smile of delight runs over his face at the welcome sight. The driver of the car that will ever appear. To the traveling man, what time in the year. Arrive quickly to such simple means. As soon as you reach him, how often it seems? The Columbia State estimates that an educational qualification in South Carolina would disfranchise 13,242 white and 38,008 colored voters in that state. If necessity is made a refuge for divorce in Britain it will likely attract a large immigration from New York. The last picnic the President went to was not for American bankers and money men. It was exclusively English, you know. Rheumatism is primarily caused by acidity of the blood. Hood's Sarsaparilla purifies the blood, and thus cures the disease. A single girl in Indiana got a present from a beau. He wrote: "By the way, I send you a pair of bloomers. If you'll wear them to-night at church I'll consider it as proof of your affection for me." She faints. The bloomers were roses.

Fire Pills. Send your address to H. E. Bucken & Co., Chicago, and get a sample lot of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of constipation and sick headache. Piles, hemorrhoids and liver troubles they have been proved invaluable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold by A. S. Putnam & Co.'s Drug Store.

The decision handed down in the case of the two Washington correspondents indicted for refusing to answer certain questions in the sugar trust investigation will hardly be acquiesced in by the majority of newspaper men. It was held that newspaper men had no right to claim that communications made to them were privileged and they were therefore obliged from telling the source of their information. A great deal of information is constantly obtained by newspaper men with the moral obligation that its source shall not be made public. If this were not the case, much of the news in which the public is most interested would never be published. The law recognizes the right of lawyers, physicians and priests to remain silent regarding information given in confidence. News reporters observe confidence to a greater extent than the professions above referred to, and they should be entitled to the same protection in law. It will doubtless come in time, but on this point as in many others, public opinion requires education. Bulletin.

Representative Sherwood has introduced a bill for the shooting of deer exempt from Nov. 5 to 25. Citizens of counties and townships only where deer are found are to be allowed to kill three deer at other seasons of the year if the animals be natured, but for private use only. By another bill he proposes to affix severe penalties on railroad companies for transporting deer bounds.—Enterprise.

The Washington correspondent of a Texas democratic paper has received a "roast" from his editor, for having said a good word for Mr. Cleveland's intention. Following are two extracts from the editor's slaughter: "We do not believe a word of the stated desire of Cleveland to serve the best interest of the country; do not believe that the ablest financiers are in an excited will; do not believe he has a right to draft bills for congress to enact, and do not believe he is a patriot. 'x x x' We think the administration just about as rotten as anything in the last half century." It is gold engels to brass battens that this editor isn't postmaster of his town.

No Financial Legislation. The debt of the springer bill in the House reads it certain that there will be no action on the financial question by the present Congress. All the various substitutes and amendments, including that offered by ex-Speaker Reed, were voted down, and then the bill itself slaughtered by a vote of 154 to 161.

This means that there will be another bond issue under the law of 1875. There is no doubt but that this will be done very speedily, and that the amount will be large enough to protect the light rail road effectively. Whether the fifty-fourth Congress will be convened in extra session by the president, to act on this question will depend, we think, on business developments. If there is a disposition evinced to pump out of the Treasury as rapidly as it has been done since the replenishment by the issue of the last \$50,000,000 of bonds, there will be nothing to which Cleveland can do than to call Congress together and have the matter settled.

The Phantom Salary. Philadelphia Inquirer: He stood in the doorway of the office building where he both worked. A vague look of trouble accompanied his face as though he was grappling with some intricate problem. Lines of thought stood out strongly on his massive face and the stern, determined set of his mouth proclaimed that he was not the man to be deterred by any slight obstacle in his way. Altogether he was a man to fear and respect and that was the reason why I was so deeply puzzled at his unusual appearance.

"Are you sick?" I asked. "No." "You're troubling your?" "No." "Anything that I can do for you?" "I don't think so," he said, "you know I am worried about the salary question. Now I know that I got my salary this morning, but where is it now? I don't see it. I am sure I lost a man that I loved a couple of dollars in the last time. That I want to the office and had dinner. Then I played a few games of billiards and went to the theater for an hour or so and met a friend that was broke, so I loaned him a dollar or two. All in all, I had a few expenses like that which did not count for much and now that I look in my pocket, for some reason I find that I haven't a cent. I don't understand it. Surely there is something amiss about it. For a salary to disappear like that, 'say,' and be entailed on by the family circle, is a thing that I don't think money could have been phantom money, is it?"

The Texas legislature is considering a bill assessing a fine of \$3,000 on the county in which a lynching occurs. Here in mind the measure is not yet a law. \$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one diseased disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for full testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.
