## 14,000 Man Hours Needed To Repair Flume Here

It took 14,000 man hours of labor to complete repair work on the Manistique Pulp and Paper Company flume on which work was completed Thursday, September 25, by the Stevens-Helmens company of St. Paul.

For this amount of work the price of approximately 100 extra men on the payroll received \$8,900. Condensed with the regular paper mill payroll, this figure will give the Manistique Pulp and Paper company a payroll of about \$25,000 in September.

Other repair work statistics show that 1,657 sacks of cement and 250 tons of sand and stone were used on the job. The work consumed 4,000 lineal feet of one-half inch re-enforcing rod and about 16,000 board feet of lumber.

The repaired flume, drained September 7, was refilled with water Thursday afternoon of last week. Water from the river was used again last Thursday night to drive the pulpwood grinders in the paper mill.

EMERALDS MEET GLADSTONE CREW HERE SATURDAY

Local Eleven Prepares For Feature Of Stadium Dedication

The hopes of the Manistique high school football squad for Saturday afternoon over Gladstone were somewhat blighted when Gladstone romped to a 27 to 6 win over Manistique last Saturday. However, Coach Washburn's working error, Coach Washburn's working error and hopes, in view of the locals improved performance at Negaunee last Saturday, to upset the hope bucket.

More lineup changes were necessitated with the news that Bennett, first string tackle, will not be a breaker next. Final examination has not been completed, and whether Bennett will see action before the end of the season is problematical. Coach Washburn's choice for the tackle berth is former right end Huffer, with Jordan filling Huffer's en position.

The necessity for increased efficiency in backfield blocking may give Chief Lambert the nod over speedy Norm Slough in the Emerald starting backfield. The "Chief" has been a consistent blocker in mid-week workout against the Inland squad. Orr continued his battering-ram plunging feats, but most all other departures in the backfield showed up weakly, with bare traces of a pass attack being evidenced toward the close of the session.

Punting, an outstanding weakness against Escanaba, was vastly improved at Negaunee, with Slough doing most of the booting. It is probable that Norton will handle this department if Slough does not start. Defensively, the team showed up well against the hard-running Inland backs. However, inability to properly defend against an aerial attack was again evidenced.

Hoholik, starting fullback against Menominee and Escanaba, injured in the Escanaba contest, still not back in suit and will not see action for at least another week. McMillan, slashing defensive end, was on the sidelines Tuesday game, but he is in the starting lineup Saturday. Peasley and Slough suffered slight injuries in the Inland scrimmage, notably in however, of a crippling nature.

In Gladstone's victory over Manistique last week, their first start of the season, they displayed a hard-driving ground game and a tenacious aerial attack game and a tenacious aerial attack game and a tenacious aerial attack game.

In Benny Desotelle, according to many observers, the Kellien have as sweet a punning back as has been seen in upper peninsula circles in many years. Desotelle scored three of the Gladstone touchdowns and was responsible

for the majority of the ground yardage. The smooth-working pass attack of the beta county men counted for one touchdown and several long gains last Saturday. Gilbert does the tossing with a substitute end, Gladstone, the most consistent receiver, Gab, quarterback, also works frequently on the receiving end. In Pat Cannon, the happy-go-lucky place kicker, the most of the few extra points in doubt, Cannon hit three out of four tries last Saturday. He is customarily an end.

The probable starting lineups: Gladstone—REL...Canon, Jordan...REL...Cannon, Hentshell...RTL...Mathison, Sullivan...BVL...Bunn, Goudreau...LBR...L. Desotelle, Huffer...LBR...Zoric, McMillan...LBR...Slojanc, Norton...Q...Gibert, Lambert...RTL...Gibert, Orr...LBR...F. B. Desotelle, Peasley...LBR...Petrowski.

Manistique Puts On Power And Ties Negaunee, 0 to 0

Manistique high school's football aggregation was vastly improved in its third start of the season to gain a 0 tie at Negaunee last Saturday. The local team, which was called here several weeks ago by the serious illness of her mother, Mrs. Robert Adams, returned to her home.

The game brought out sharp contrasts between decisive and sloppy tackles, between long gains and big losses, between good and bad line plunging. On the whole, the contest was strenuously played, with vicious tackles, powerful plunging, and hard running. Orr, Peasley and Norton, through the line without interference, consisted of the defensive men with them.

For Negaunee, Austin and McDonald were defensively outstanding, with Austin in particular mulling Green and White backfield men behind the line of scrimmage. Sandberg was outstanding in Negaunee's offense, running, kicking and passing excellently. Lenten at quarterback was a smooth ball-carrier and pass receiver.

The game, even considering its lack of score, was remarkable for the amount of midfield play it held. In the first half Negaunee was inside the Manistique 40 but twice. In the second half Negaunee was again twice inside the 25 to 40, and the Green and White penetrated to scoring territory at the end of the game for their only threats.

The Minors' first scoring threat started from the 17 after Slough's rushed punt had traveled a bare two yards past the line of scrimmage. From here they were pushed backward to the 31 in two ground plays, completed one pass and threw away another to lose the ball on down on the 18. In the second quarter, the Ore diggers marched from the visitors 46 to their 16 on deceptive reverses before they could be held for downs.

In the second half, Gervoe, of Negaunee, had a touchdown, fame, and the game in his hands to drop it all with the ball in the end zone to make Sandberg's beautiful pass incomplete. The play climaxed a short drive that began when Orr got in the way of Slough's punt and Negaunee recovered on the 25 to 30. McMillan threw Davey for an eight-yard loss, but Sandberg completed a toss to Lenten for a first down on the 13. Two line plays lost six, and Sandberg dropped back to have a lob pass which Gervoe caught over his shoulder, had in his hands, but dropped. Another pass attempt was incomplete.

At the start of the fourth quarter, Orr smashed through center and sprinted 23 yards for the first Emerald first down and put the ball in mid-field, but a penalty and an intercepted pass cut short this drive. Negaunee threatened on an exchange of punts later to take the ball from the Green and White to the 26 on an off tackle run and a pass, but Slough intercepted a second pass to ruin this scoring attempt.

Manistique's sole scoring threat

Monday from St. Francis hospital where she submitted to an operation. Dick Laha, of Escanaba, was a business caller here Monday. Nick Kauffman, of Seattle, Wash., who has been visiting friends and relatives on the peninsula, has accepted a position with the Bonifas Lumber company, of Lansing, Michigan.

Percey Jaque, Clyde Headfield, George Bradburn, Jr., Louis Guier, and Joe Tatrow left Sunday for Detroit. They will return by way of Chicago. Fred Landis, Bob and James Adams, of Chicago, spent Saturday and Sunday with relatives. Mrs. Landis, who was called here several weeks ago by the serious illness of her mother, Mrs. Robert Adams, returned to her home.

Earl Killoran, who has been engaged in commercial fishing at Manistique during the past summer, has returned to his home in Fairport where he will continue his individuality. Mrs. Estela Gauthier, Mrs. Fred Gauthier, Mrs. Alfred LaValley, and daughters, Mary Day and Ann, Mrs. Herbert Poole and Mrs. Ed Leminaire visited at the home of Mr. and Mrs. Henry Gardner in Manistique Thursday.

Mr. and Mrs. Joseph Mainville and Mrs. Fred Gauthier were business callers in Manistique Monday. Thomas Truckey, Ed Purfill and Pat Purfill made a business trip to Sault Ste. Marie Tuesday. The Joe Hermon family, of Vanis Harbor, moved into a new home recently remodeled and owned by Joseph Farley. Mrs. Edna DeVet and Helen Heister, of Chicago, arrived Monday to spend a week at the Harry DeVet home.

Mr. and Mrs. Issne Bonifas, of Escanaba, visited friends here Saturday. The Joe Hermon family, of Vanis Harbor, moved into a new home recently remodeled and owned by Joseph Farley. Mrs. Edna DeVet and Helen Heister, of Chicago, arrived Monday to spend a week at the Harry DeVet home.

Mr. and Mrs. Eugene Mack returned from Escanaba, where they were on a business trip.

Local Resident Arrested Paul Parlee was arraigned in justice court before Thomas H. Truckey, justice of the peace, on an assault charge with intent to do murder upon his uncle, Peffy Parlee. He was placed on a \$2,000 bond to appear at this coming term of circuit court to be held at Escanaba. The bond was not furnished and he was committed to the county jail at Escanaba.

**NOTICE OF THANKS**  
The Harvest Festival held in the Methodist Episcopal church last Sunday and Monday was a very heartening and long occasion. The large audience of worshippers at the Sunday service viewed an altar beautifully decked with flowers and laden with contributions from farmers and gardeners. The worship service was especially inspirational in song and sermon. The Monday evening program, auspicious and long extended, another pleasant and memorable affair and the Ladies' Aid Society which sponsored the festival wishes at this time to sincerely thank those who contributed in any way to the success of this Harvest Home Festival.

THE MANISTIQUE PIONEER-TRIBUNE

Published Every Thursday Afternoon at Manistique, Michigan. THE TRIBUNE PUBLISHING COMPANY. Cedar and Walnut Streets Telephone No. 19

Entered at the Postoffice at Manistique, as Second Class mail matter. Advertising Rates upon application. HERBERT S. CASE ESTATE, Publisher. WILLIAM L. NORTON, Managing Editor. SUBSCRIPTION RATES: Three months, United States, \$ 7.50; Six months, United States, 1.25; One year, United States, 2.00; One year, foreign countries, 3.00.

Communications must be signed for publication. The editors of The Pioneer-Tribune are a free parliament, limited only by consideration for the laws of libel, the rights of privacy and the rules of grammar.

COURTESY PAYS

The importance of courtesy in the treatment of visitors, especially in the matter of minor traffic law violations, cannot be over-emphasized.

Courteous, sympathetic treatment of tourists and visitors for minor infractions of traffic laws which will, increased familiarity will bring its own reward in good will, increased tourist trade, and increased patronage of local merchants by outside-customer. Conversely, a harsh enforcement of the letter of the law will quickly label a community as one to be shunned by outsiders.

Recently a resident of the Manistique district violated a traffic ordinance while in Escanaba. He returned to his parked automobile just as a police officer was coming off to it. Upon learning that the owner of the car was from out-of-town and was in Escanaba on business, the police officer tore up the card and gave the Manistique man a courtesy card.

The tag read, in part, as follows: "VISITORS TRAFFIC COURTESY CARD. You have violated an Escanaba Traffic Ordinance, but our city extends you the courtesy of extending the violation." The card then goes on to explain the salient points of the Escanaba traffic laws and to urge the visitor to observe them in the future.

Manistique needs this type of courtesy in treating its visitors. Manistique is a tourist town and also a trading center for a considerable area. If this business means anything to Manistique—and your merchant will quickly tell that it does—then the same type of courtesy to visitors should be immediately put into effect here.

Courtesy is such a simple and inexpensive virtue, yet affording returns so invaluable, that it is strange it is not more often practiced.

WHO PAYS?

There are many plans which will be considered for revision of taxes when congress reconvenes. One of them includes taxing incomes in the lower-class brackets which are now exempt. The repeated argument for this measure is that it must be done to make the people understand that they are the ones who pay for the constant government spending.

The thrifty middle-class Americans are now finding it pretty difficult to meet the high prices which include invisible taxes on every article purchased. It is a fact that we must become conscious of the continuous government spending in order to prevent a national bankruptcy. It is also a fact that our incomes are not elastic enough to stand the tax demand for the billion dollar Columbia river dam project, benefiting only one percent of the people of this country, and the countless other unnecessary projects. We are not willing to be taxed for wasteful, useless and unnecessary adventures of government into business that can be conducted with private capital.

We who are finding it difficult to keep our heads above the high water cost of living, do not need to be made aware of who pays. How are those thousands who refuse to become self-supporting and who live off our paternal government, how are they going to learn who pays?

Let's see, just what did that New York election prove?

Your friends will tell you they are sincere; your enemies are really so.

"Keeping a house together" these days means keeping the trailer hitched to the car ahead.

The most obvious lesson of the present world crisis is the loss of spiritual freedom.—Dr. Herbert B. Wood.

We're up in the air again. What with the girls wearing higher hats and higher skirts, the fall season may not be so drab after all.

Is there any logic to the fact that the Marines are reported to be protecting life and property in China. Look what's happening in this country. "Boy, page the Marines."

We Americans claim to be the wisest people in the world. Which is probably the reason we dig gold out of the earth, declare it unconstitutional, and bury it in the earth again.

The fact that women are always jumping at conclusions is proved by the Connecticut woman who is seeking a divorce from her husband, who has been absent for 16 years. She says she believes he isn't coming back.

NOTICE

The new telephone directory is now being printed. All subscribers anticipating move or change of location should notify the Michigan Associated Telephone Company at Manistique.

If there had been no committee for Industrial Organization there would be no division within the ranks of labor.—Wm. Green.

We are told that no new sin has been discovered in the last 2000 years, but you can't blame the most of us if we keep on trying.

A recent proposal to have WPA labor clean and repair all the statues in the country might be confusing. Some of us might have difficulty telling which was the statue.

Any idea that congress can adjust the wages and hours bill to suit everyone has been abandoned. The idea now is to write the bill so it won't suit anyone.

State Highway Commissioner Asks Bids On End-Loading Ferry

Murray D. Van Wagoner, state highway commissioner, this week called for bids on a streamlined end-loading ferry for service at the Straits of Mackinac.

Bids on the new boat will be opened here by the commissioner the morning of Oct. 21. The state highway department hopes to have the new boat in operation at the Straits for the opening of the summer season next year.

When the new boat is placed in operation, the old boat will be in addition to the present ferry service.

The new boat will be a 150-vehicle capacity ferry, with an 88-vehicle capacity in the present boat.

This is the second time that bids have been asked on the new boat.

There was only one bidder at the first bidding, and that was the Wagoner, who had no bid.

## RICOCHETS and BACKLASHES

By LEW MERWIN

As the small game season for upper Michigan gets underway today the reports on grouse are not encouraging. Most sportsmen traveling the highways and woods roads the past three weeks report they have seen few birds, others have seen no birds.

Those fortunate enough to stumble upon a covey may secure their limit of five, but it is probable that the majority will secure fewer. Grouse were scarce last season and none too plentiful in 1935. If they are found in sufficient numbers to justify an open season this year it should prove beyond a doubt that hunting has no appreciable effect upon the periodic decline in the grouse population. Only a post-season check will furnish data upon which to base an opinion.

If you haven't already done so, take time this week and to spot the best locations for your duck blinds. If you are a mallard or black duck hunter your blind should have been built a month ago so the birds by now would be used to it. Blacks and green heads are too wary to fall into a layout that looks unusual.

To fool a suspicious old green-head drake you must utilize all the natural cover possible in constructing your hideout. Clumps of marsh grass, willow and alder thickets or old windfalls along the shore can all be used to advantage in blind building. Whenever possible put a roof over your blind. It not only keeps you hidden from circling ducks but affords some protection in case of rain or snow.

In all cases use the material at hand. Don't build a stump blind on a bog or try to conceal yourself in a clump of tall marsh grass on a shore barren of plants.

If you cut brush to build a blind it is always a wise plan to cover up all exposed cuttings. Remember that the duck has probably been over the spot many times and any disturbances or changes probably will make him suspicious.

In making blinds refrain from following square or rectangular patterns. If you would in building a house, make your great brush of B. J. P. Scherer's irregular. It was not more natural to the duck. And when you are all done go to

## INLANDS TO MEET SOO BEARS OCT. 10

The gunner after flight ducks need not be so particular. Blue bird and other migrants will ordinarily come into decoys in front of most any kind of blind, though there are times when they, too, will refuse to come into a set that looks too obviously man-made. After a flock has been shot at repeatedly it is more difficult to get it into the decoys. At such times the hunter must be well hidden and refrain from any unnecessary movement which the circling birds might detect.

Of course there come those rare occasions when you can't keep blue bills out of the decoys with a club. They will stoop even if the shore were lined with hunters and a brass band was playing. But that doesn't happen all the time.

Build as many blinds as you can serve as a workout for the high schoolers, but the inland squad is given opportunity to show both offensive and defensive strength. Captain Penney, at end and Dewey at center were defensively outstanding, while the offensive highlight was the work of halfback Seb Rubick, both in running and passing.

The lineup, makeshift in some respects, used against the Emeralds included Morrison and Penney, end; Ott and L. Muthaupt, tackles; Dewey, center; Fale, Rubick, Rogers, Marks, and LaMuth, backs. Some candidates who are heavily counted on but were absent from the workout are Bond, Berges, Jahn, Carpenter, Egger, and Burns.

Manager Paul Vosina, considering the difficulties of the practice, expressed approval with the work of the team. Coach Harvey Quick was not present at the scrimmage.

Although efforts have been made to contact many U. P. independent aggregations, the only game booked to date are a home arrangement with the Soo Bears, calling for the Bears' appearance here October 10, with the inland travelling October 24.

Walter Davenport Taken By Death

The body of Walter Davenport, 40, who passed away in Detroit, Tuesday, will arrive in Manistique Friday for burial. U. P. independent aggregations, the only game booked to date are a home arrangement with the Soo Bears, calling for the Bears' appearance here October 10, with the inland travelling October 24.

Survivors beside his wife are six children. They are: Franklin, Ceila, Evelyn, Earl, Ellsworth, Walter, Jr., and Harriet, all of Manistique.

## NEW AGGREGATION SHOWS UP WELL IN FIRST SCRIMMAGE THIS WEEK

Tuesday night the inland football team made its first effort against other than squad competition when it served as scrimmage opposition for the Manistique high school varsity. Lacking practice and coordination, and hampered by the absence of several front line stalwarts, the inland aggregation yet gave a creditable account of itself, with ample promise of rounding into a team suitable for upper peninsula independent competition.

Friday night's scrimmage lacked all semblances of game play, its primary purpose being to serve as a workout for the high schoolers, but the inland squad was given opportunity to show both offensive and defensive strength. Captain Penney, at end and Dewey at center were defensively outstanding, while the offensive highlight was the work of halfback Seb Rubick, both in running and passing.
